## Germany, Poland are at War As German Forces and Planes Go Into Action Over Poland

**German Forces, Reports State, Detrmined to Break Down All Resistance—Does Not Count on Italy's Help**

### RUSSIA AS FRIEND

**Hitler Threatens To Answer 'Bomb With Bomb and Gas With Gas' Depending On Poland's Attitude**

Berlin, Sept. 1 (AP)—Germany and Poland are at war.

At noon today an official announcement said the German air force had gone into action over Polish territory and that the German army was "counter-attacking" all along the German-Polish frontier.

Warsaw was among several Polish cities bombed.

German forces, the announcement said, were determined to break all resistance.

The official statement that war was on came shortly after Fuehrer Hitler left the Reichstag amid cheers for his declaration that he

### The Weather

Toronto, Sept. 1—(CP)—Thundershowers have occurred in southern Manitoba and southeast Saskatchewan, and light to moderate showers in some northern sections of Ontario and Quebec, also light showers in Nova Scotia and southern New Brunswick. Elsewhere the weather has been fair and moderately warm. Pressure is high over northern Ontario and northern Quebec while a deep disturbance, centred to the immediate northwest of Hudson Bay, has a trough of low extending southward across Manitoba to North Dakota.

Lake Superior—Moderate northeast to southeast winds; partly cloudy with scattered thundershowers tonight in western districts. Saturday—Moderate shifting winds; partly cloudy and moderately warm with a few scattered thundershowers.

Manitoba—Fair and slightly cooler tonight. Saturday—Mostly fair and moderately warm.

Saskatchewan — Mostly fair and moderately warm today and Saturday.

Alberta—Partly cloudy and moderately warm today and Saturday.

### *Why the Weather!*

By Major A. H. Thiessen
Science Service Meteorologist

September gardens! September takes its name because it was the seventh month of the old Roman year. It is our ninth month and the first month of autumn or fall. The latter term, more common in America than elsewhere, refers to the season of falling leaves. September is the month when the home gardener may take inventory and count his increase. He can do but little, but potatoes with dead tops should be dug, and it is recommended that "if cabbage heads begin to crack, bend them so as to break the roots on one side". Celery should be carefully banked.

## Polish Officials Place Blame On Germany For Starting War

By LLOYD LEHRBAS
Associated Press Staff Writer

Warsaw, Sept. 1—(AP)—(12.30 p.m.-7.30 a.m. EDT)—(AP)—German troops, supported by aircraft, invaded Poland today in three major drives accompanied by bombing of Polish cities.

Three air raid alarms were sounded in Warsaw during the morning and, while bomb explosions were heard in the capital, no damage or casualties were reported here. The German raiders apparently failed to break through Warsaw defences.

The Polish public was taking the alarm with remarkable calm and there were no signs of panic.

Official information indicated German troops were driving in three main sectors—first, from East Prussia against Dzialdowo and Mlawa; second, from Pomerania against Chojnice at the narrowest part of the west border of the disputed Corridor, and third from Breslaw against Katowice, believed to have been evacuated.

**Poles Repel Attacks**

It was announced that initial German attacks on Westerplatte in Danzig (where Poland has maintained an ammunition depot) were repulsed by Polish troops.

(Reuters news agency reported from Warsaw that the main German attack was from East Prussia on a front between Dzialdowo and Wojnitze. Reuters reported German planes attacked Poland in two waves. Seven towns, they said, were bombed on the first raid—Kursk, Gdynia, Thorn, Gialystock, Grodno, Dihivo and Bydgoszcz. The second wave was a few hours later when Warsaw, Krakow, Katowice and Czestowice were bombed.

There were reports here that German planes attempted to bomb the Polish port of Gdynia, but that the bombs fell into the sea.

Polish officials squarely placed the guilt of starting the war on Germany. Officials said the Polish government yesterday agreed to an act of mediation by the British government, the aim of which was to start conversations between the Polish and German governments in order to avoid war.

Authorities declared that an understanding to this effect was given Berlin late yesterday by the Polish Ambassador and that the German answer was an announcement of a long list of conditions.

**War Begun Without Communication**

A few hours later, Polish officials asserted, Germany began war action without further communication.

During the noon hour here, more firing was heard in Warsaw, but there were no developments. Polish planes were patrolling the gray skies over the capital.

When alarms sounded here, this correspondent just was entering the foreign office press room to confer with Edward Kulikowski, Polish foreign press officer.

All foreign office employees immediately gathered gas masks and were taken to nearby bomb shelters where they remained for an hour, both men and women exhibiting utmost calm.

Caught in the streets when the second alarm came, I saw police and air raid wardens clearing all traffic. The streets were left virtually deserted. Everyone was forced to take shelter in the nearest building until the "all clear" signal was sounded.

Scores lacking gas masks merely waited calmly in open entrances.

**Bombs Dropped in Warsaw**

This was the first time German bombs had dropped in the Polish capital although invading planes had attempted four times earlier to get over the city.

The raid came about 4:30 p.m. (11:30 a.m. EDT).

The raid still was continuing as this dispatch was being telephoned to Budapest at 5:10 p.m. (12.10 p.m. EDT).

The German squadrons swooped over the city apparently attempting to smash the bridges across the Vistula River.

Anti-aircraft guns fired at the raiders.

Some German bombers appeared to have fallen into the Vistula.

From time to time I can hear the explosions of falling bombs.

They are dropping close by us now.

Bombardment of Polish cities accompanied drives by three German land armies.

Until this raid, however, the closest the German air raiders had come to Warsaw was eight miles away. They apparently were attempting to smash Polish railway communications there.

## London Sends Away Its Children And Turns To Grim Aspect of War

By DREW MIDDLETON
Associated Press Staff Writer

London, Sept. 1—(AP)—(Passed by British censor)—London sent away its children and turned its face to the grim prospect of war today as more than a million youngsters, beginning at dawn, left the metropolis for safety in the countryside.

Within the next few days more than 3,000,000 persons will have been sent from the various key cities. Today's withdrawal jammed surface traffic throughout London's business section and touched the busy 'city' streets with sadness.

At the Liverpool Street and London Bridge railroad stations, in the heart of London's poorer sections, children were in line, with their mothers near by, from early morning.

School teachers lined them up; children of four and five, frightened by the roar and bustle of the big station; older boys yanking the girls' hair; big girls with a toddler clinging to each hand.

There were 3,000 children in one line at London Bridge, which gave its name to a children's game.

**Each Had a Gas Mask**

Each had a gas mask slung over his shoulder and even the smallest among them clutched a big canvas bag containing blankets and clothes. From the tops of some bags dolls peered out. One boy dropped his bag and a box of lead soldiers spilled out into the platform.

These children were poor. But even the poorest had a bag of candy or cakes, a departing gift from his parents.

One child of five had a tiny tin bucket and spade with him. He thought he was going to the seashore. Really he didn't know. Neither did his mother. None of them knew where they were going.

**Speakers Boom Orders**

Loud-speakers in the stations boomed orders, teachers shepherded their charges down the platforms, and the trains were loaded swiftly.

The children, who had treated the evacuation as a huge joke in their rehearsal for it last Saturday, were silent and wondering today. When the time came to leave, they turned anxious eyes toward their mothers, who stood behind a line of police. The children cried:

"Good bye, mother. When will I see you? I'll write. Tell dad goodbye."

Many mothers broke down as the long files shuffled down the platform. Eyes red from weeping, they stood with coats hastily thrown over house aprons and waved. They stood there, waving, as long as the trains remained in sight, crying openly.

## PRIME MINISTER CALLSPARLIAMENT TO MEET SEPT. 7

**Members Will Have Chance To Say What Course of Action Canada Will Take**

### WELL INFORMED

**Whole-Hearted Cooperation And Support of Government Requested By Premier In Crisis**

"I think what I have said this morning is what the people of Canada, Great Britain and of the whole world will be pleased to know," the Prime Minister said.

Cabinet adjourned at 1 p.m. to meet again at 4 p.m. this afternoon.

Ottawa, Sept. 1—(CP)— Prime Minister Mackenzie King announced today parliament would be asked to authorize the government to give the most effective co-operation to Great Britain in the present crisis when parliament assembles next Thursday.

Mr. King made his announcement after a cabinet meeting which authorized proclamation of The War Measures Act and the placing of Canada's military, air and naval forces on active service.

The Defence Department at once sent instructions to officers commanding the 10 military districts to cal lout additional units of the nonpermanent militia.

The meeting started at 9.00 a.m. (E.D.T.) and a few minutes later Mr. King came out to announce parliament had been called for Sept. 7. The announcements regarding defence measures came just after one p.m.

Pending the assembling of parliament Mr. King said the government was taking all necessary measures for the defence of Canada.

Mr. Mackenzie King appeared fresh and keen and showed no effects of his all-night vigil awaiting the fateful news from Europe of the start of hostilities.

The cabinet meeting, hastily called early this morning, continued after the announcement.

*(Continued on Page Seven)*

## MOLOTOFF GIVES AN EXPLANATION

**Russian Premier Gives Reason Why Pact Not Signed With Britain, France**

Moscow, Sept. 1—(AP)—Great Britain and France, says Premier Vyacheslaff Molotoff, balanced their desire for Russian help against their fear of strengthening the Soviet Union and their fear prevailed.

This was the explanation, in part, offered last night by the Premier-Foreign Minister for conclusion Aug. 24 of the Russian-German non-aggression pact which doomed the projected Russian-British-French mutual assistance pact after more than four months of negotiation.

The Russian parliament applauded Molotoff's explanation and unanimously ratified the pact with Germany, erstwhile bitter opponent of the Soviet Union.

(Informed quarters in Berlin indicated that a Russian mission was on its way there possibly to conclude a military accord with the Reich. Molotoff made no mention of this.)

Molotoff said that Polish insistence, with British support, that Russian troops be barred from crossing Polish soil was a principal factor in the breakdown in mutual assistance negotiations.

### GREAT BRITAIN IN COMPLETE BLACKOUT

London, Sept. 1 (CP)—A complete blackout throughout Great Britain was ordered in a government ordinance published tonight.

Dublin, Sept. 1—(CP)— Prime Minister Eamon De Valera tonight convoked the Dail and Senate of Eire to meet tomorrow to consider emergency measures as a result of German-Polish hostilities.

## FRENCH GOV'T DECREES GENERAL MOBILIZATION

**Martial Law Imposed And Session of Parliament Called In Swift Action By Premier Daladier**

### 8,000,000 UNDER ARMS

**Daladier Expects To Reorganize the Cabinet Creating a National Ministry—All Ordered to Leave Paris**

Paris, Sept. 1—(CP-Havas)—The French government today decreed general mobilization of all the nation's armed forces, imposed a state of martial law, and called parliament into session for tomorrow. Only parliament can issue a declaration of war.

Officially the general mobilization goes into effect at midnight.

The decree, approved by the cabinet at an emergency session under President Lebrun at the Elysee Palace, covers mobilization of the land, sea and air arms on all French territory proper, in Algeria and the French colonies and all other territories under the allegiance to the French flag.

"Martial law ("etat de siege") was established under a second degree in 89 French departments and the Belfort area as well as in three Algerian departments.

The third degree presented by Premier Daladier to the council of ministers convoked with House of Parliament for tomorrow.

**Approved Unanimously**

All three decrees were approved unanimously.

The emergency cabinet meeting was called when reports reached here that German troops had bombed several Polish cities and opened hostilities along the entire German-Polish frontier.

The government issued another and more pressing appeal to the civilian population to leave Paris immediately.

*(Continued on Page Seven)*

## ANOTHER ARREST MADE IN PROBE

**Norman Lepaine, Windsor, Charged With Infractions of Customs Act**

ANOTHER ETC. r,1U, TtBfKO

Windsor, Ont., Sept. 1—(CP) — Norman Lepaine of Windsor was arrested at his home today, bringing to nine th enumber of persons under arrest as a result of eight months investigation of what police described as a smuggling ring that brought huge quantities of illicit alcohol into Canada from the United States.

Lepaine's arrest followed the taking into custody of eight others yesterday and Wednesday here and at Toronto, Lepaine will appear in court today as will Rocco Perri of Hamilton, Ont., who once called himself "King of the Bootleggers," and Anna Newman, his 47-year-old housekeeper.

Perri and the woman are charged with alleged infractions of the Canadian Customs Act.

In addition, a charge of Customs Act infraction has been laid against Sam (Fan) Miller, serving a term in Burwash Reformatory for defrauding the government of $16,000 excise tax.

Bucharest, Sept. 1—(AP)—King Carol called a crown council today to proclaim neutrality. It was expected the government would order general mobilization to protect the frontiers.

Warsaw, Sept. 1—(CP-Havas) — Seven German planes have been shot down by Polish military forces, it was announced here this afternoon. It was also claimed that a German armored train had been captured by Polish troops.

(In London Reuters News Agency said Poles were reported barricaded in the Danzig post office, holding out against Germans.

## Britain to Fulfil Obligations Unless Germany Withdraws, Chamberlain Tells Cabinet

**'German Chancellor Has Not Hesitated to Plunge World Into Misery' Prime Minister Declares. Chamberlain Says He Had Prayed 18 Months Ago That 'Responsibility Might Not Fall On Me To Ask This Country To Accept the Awful Arbitrament of War.'**

### CONDITIONS ARE VERY CLEAR

**Poland's Ambassador To London Notifies Foreign Secretary Viscount Halifax That Poland Invokes British-Polish Mutual AssistancePact on the Grounds of German Aggression —Ambassador Expects 'England Will Come to Our Aid'—Mussolini Has Been Doing His Best, Says Chamberlain**

London, Sept. 1 (CP)—(Passed by British Censor)—Prime Minister Chamberlain declared tonight that unless Germany would suspend aggressive action and withdraw her forces from Poland, Great Britain would unhesitatingly fulfil her obligations to Poland.

Mr. Chamberlain made the statement at an extraordinary session of parliament.

If the reply to this last British warning is not favorable, he said, the British Ambassador in Berlin, Sir Nevile Henderson, will be instructed to ask for his passports.

**AGES FOR MILITARY SERVICE 18 TO 41**

The Prime Minister said a bill would be introduced making the ages for military service between 18 and 41 years.

"Mussolini has been doing his best." Mr. Chamberlain declared.

He began addressing the commons at 6.04 p.m. (11.04 p.m. EDT) and finished at 6.30 p.m. (11.30 p.m. EDT).

London, Sept. 1 (AP via Radio)—Prime Minister Chamberlain made today a fateful declaration, before parliament and the world, of Great Britain's policy in the new European catastrophe.

Mr. Chamberlain began his address to the House of Commons at 6.03 p.m. (1.03 p.m. EDT).

He was greeted with a roar of cheers, and waved solemnly in acknowledgment.

There were cries of "God bless you" and "good luck".

"I do not propose to say many words tonight; the time has come when action rather than speech is required," Mr. Chamberlain began.

"The responsibility for this terrible catastrophe," he went on, "lies on the shoulders of one man."

**SENSELESS AMBITION OF HITLER BLAMED**

The Prime Minister said that eighteen months ago he had "prayed that the responsibility might not fall on me to ask this country to accept the awful arbitrament of war."

"At any rate I could not wish for conditions on which such a burden would fall upon me clearer than they are today as to where I stand. The German Chancellor has not hesitated to plunge the world into misery in order to serve his own senseless ambitions."

Mr. Chamberlain said Germany had been informed that if she persisted in using force Great Britain would oppose her.

London, Sept. 1 (CP)—(Passed by British Censor)—The King today signed an order for complete mobilization after the Polish Ambassador had called on Great Britain to help Poland against Germany.

The momentous Polish step in invoking the Anglo-Polish Mutual Assistance Treaty was made on the grounds of German aggression against Poland.

The Polish Ambassador, Count Edward Raczynski, delivered his country's appeal in a call on Viscount Halifax, Foreign Secretary.

His visit followed upon official reiteration that Great Britain and France were determined to fulfil their obligations to Poland.

**KING SIGNS PROCLAMATIONS**

The mobilization was decreed by an order-in-council signed by the King after a 12-minute Privy Council meeting at Buckingham Palace. Complete application of the air raid warning system also was ordered and factories were instructed to avoid using their sirens except to signal the beginning and end of air attacks.

Other proclamations relative to the situation were also signed by the King. They will appear tonight in the Official Gazette and will Be posted throughout the United Kingdom. A second Privy Council meeting was expected to be held tonight. The cabinet met for two hours.

Lloyd's, the insurance house, announced without explaining its action that it would close tomorrow.

Numerous main subway stations were ordered closed immediately "so that certain work may be done". This apparently indicated that anti-air raid measures were being taken.

**POLAND INVOKES BRITISH AID**

London, Sept. 1 (CP)—The Polish Ambassador to London today notified Foreign Secretary Viscount Halifax that Poland invoked the British-Polish Mutual Assistance Treaty on the grounds of German aggression.

The Polish Ambassador took the momentous step in a personal call on Lord Halifax.

The Press Association reported that after seeing Lord Halifax, the Polish Ambassador said:

"I think it is quite clear that England will come to our aid."

(The Mutual Assistance Pact, signed August 25 by Great Britain and Poland, provides: "Should one of the contracting parties become engaged in hostilities with a European power in consequence of aggression by the latter against that contracting party, the other contracting party will at once give the contracting party engaged in hostilities all the support and assistance in its power.")

**ON WAY TO OBJECTIVES**

Berlin, Sept. 1 (AP)—The Army High Command issued a bulletin at 5:45 p.m. (12:45 p.m. EDT) which said advances of German troops and air force which started from Pomerania, Silesia and East Prussia this morning were well under way toward their objectives.

## ITALY REFRAINS FROM LAUNCHING MILITARY STEPS

**Premier Mussolini Meets Cabinet To Decide Italy's Course of Action**

### HITLER'S MESSAGE

**Fuehrer Says Germany Does Not Require Military Aid At Present**

Rome, Sept. 1—(CP-Havas)—Adolf Hitler has written to Premier Mussolini that for the present Germany does not require military assistance from Italy, it was announced officially tonight.

"Cordial thanks for the diplomatic and political assistance that you have accorded recently to Germany and to its just rights," Hitler's message said.

"I am convinced that I will be able to carry out the mission which is our destiny with the German military forces, I believe that in these circumstances I will have no need for military aid from Italy. I thank you also, Duce, for all that you may do in the future for the common axis of Fascism and National Socialism."

Earlier the Italian cabinet announced that Italy would refrain from starting any military operations.

**Il Duce Meets Cabinet**

Rome, Sept. 1—(AP)—The Italian cabinet announced today that Italy would refrain from starting any military operations.

The Ministers had met with Premier Mussolini at 3.50 p.m. (10.50 a.m. EDT) to decide Italy's course of action as an ally of Germany.

They met knowing of French mobilization and that Adolf Hitler had declared Italy's aid would not be solicited in the German hostilities with Poland for the time being.

Before the cabinet met British Ambassador Sir Percy Loraine had sought an interview with Foreign Minister Galeazzo Ciano to learn Italy's intentions.

**Italy Seems Undetermined**

Count Ciano was busy during the morning. He was believed to be in conference with Premier Mussolini.

Italy seemed undetermined in the situation.

While the nation took resolute measures to be ready, there were indications she was overwhelmed by the latest events and was not quite sure of her course.

The general tenor of newspaper articles was pro-German, but commentators were circumspect, making no definite commitments.

Berlin, Sept. 1—(AP)—The Berlin radio station today announced the first "successful air raid" of a German bombing squadron on Warsaw's military airdrome, Radom. The planes dropped their bombs on the Polish airport. No Polish anti-aircraft guns went into action.

Returning home, the report said, the airmen observed Polish troop movements on a "Polish railroad station" which also was successfully bombed.

London, Sept. 1—(CP-Havas) — The High Commissioners of Canada and Australia, Vincent Massey and Stanley Bruce, called at the Dominions office at noon today.

## 'DICTATOR' BANNED FROM MOOSE TITLE

The word "Dictator" will no longer be used in official titles of the Loyal Order of Moose, local members of this organization have been informed by the director general of the Order. The word has been used for the past 32 years since the founding of the organization and designated a certain office. The word "governor" will replace the title of "Dictator".

## MUST HAVE PASSES TO VISIT UTILITIES

Warning that residents wishing to visit any of the city owned public utilities must be equipped with proper passes after certain identification by the Front Street Office, before being admitted, has been issued by the local Commission this week.

Extra vigilance has been maintained by workmen and special guards over the various plants, including the Hydro sub station, filtration plant and other systems since the present crisis in Europe, and visitors have not been encouraged recently.

## CINCINNATI FIREMAN PRAISES WORK OF DEP'T

Compliments are rare if anything to the members of the Belleville Fire Department when on the job. So it was with more or less surprise that firemen received a quiet congratulatory verbal message from a well-dressed stranger who observed their work while reducing a blaze in the New Service Restaurant the other day.

"The way your chief handled the water from the pumper is deserving of mention", the stranger said to a member of the department, "in fact the operation minimized the danger of water-damage to a great extent."

The fireman raised his eyebrows. "Do you live here, sir?" he enquired courteously. "No", smiled the stranger, "I am a deputy fire-chief of Cincinnati".

## BUILDING PERMITS TOTAL $134,166.00

Building permits involving a total of $134,166.00 in new construction within the city were issued during the month of August just ended by the the city building inspector.

Permits were issued the Women's Auxiliary for the construction of a new hospital wing at the Belleville General Hospital at $111,516.00; Bert High construction of one-storey residence 135 Catherine Street, $1,900; S. Pappas, new two-storey residence 158 George Street, at $8,000; Toronto Refrigerator Fixtures for alterations to store at 190 Front Street at $200; F. H. Gemer, one and one-half storey residence at 311 Bleecker Avenue, $3,000; Loblaw Grocteria, two storey store, 290 Front Street, at $11,500; and Chas. Hailley, for shed at 36 Herchimer Avenue at $50.

## DECIDED INCREASE IN CUSTOMS RETURNS

A decided increase in customs returns collected at the local Port of Customs was registered for the month of August over collections for the same month one year ago, and for the preceding month of this year.

Figures compiled at the local office today revealed collections of $105,066.18 for August, 1939, and $96,681.06 for the month of August 1938. Collections during July this year reached $91,010.24.

## CALF DISAPPEARS FROM FAIRGROUNDS

Could it be that cattle rustlers were active right inside of the Belleville Fair Grounds? Yesterday there was reason to believe such was the case, as Lynn Fair, Government Agricultural representative was informed by a junior farmer that his calf was missing. The calf had been left tied to a stake near other Junior Farmer exhibits, but when the owner returned for his calf it had disappeared. Police were notified, but Mr. Fair assured the authorities the calf had been taken by some other exhibitor and by mistake. "Sooner or later the person in possession of the wrong calf will notice its government markings and doubtless return it," Mr. Fair assured police and Fair officials.

## PURSE TURNED OVER TO POLICE DEP'T

While police were carefully patrolling the Fair Grounds in an effort to curb purse snatching, that had broken out the previous day, at least one honest man was found. Late yesterday Ray Burtt, 53 Cannifton Road, approached the police and tendered a gentleman's bill fold. "I found this on the ground, apparently some person has lost their pocketbook," suggested Burtt as he turned the purse over to the police.

## MUSCOTE BAY 'LUNGE STILL RECORD SIZE

Muscote Bay just east of the city, long known as the home of big fish continues to be the angler's paradise. Fishing in the bay on Thursday afternoon Frank Aikens of the 1st Concession of Sidney hooked on a small trolling spoon one of the season's biggest 'lunge, a perfectly formed specimen weighing 41 pounds, and with a length of 47 inches. Both fish and bait were displayed today in the window of Green's butcher shop.

## GOAT FARM FOUNDER TAKES GOAT CENSUS

Founder of a goat farm near Prescott some time ago, Wm. Pollock has been making a visit through this section for the purpose of taking a sensus of goats being raised in the section. This week the Prescott man has been negotiating in Trenton for the purchase of a herd of goats from C. J. Bome. The animals are to be used in the manufacture of gloves at the Prescott factory established by the Czechs.

## WESLEMKOON LAKE YIELDS BIG TROUT

Weslemkoon Lake this week yielded one of its biggest trout, a 21-pound specimen caught by William Trewin, Mary Street, Oshawa, who has been holidaying at the lake. The big fish measured 37 inches in length and 20 inches girth. Charles Davidson of Campbellford, a companion in the boat assisted in the landing of the fish.

## C. N. R. WAR VETS TO HOLD KINGSTON MEET

Local members of the Canadian National Railways War Veterans' Association will join with an estimated 250 members of other district branches for the annual meeting and outing in Kingston on September 16 and 17. E. C. Gough of Toronto is president of the Association, and J. M. Mansfield, also of Toronto, is secretary. Drumhead service will be held in the park Kingston on Sunday, September 17.

## STIRLING MAN LANDS MUSCOTE BAY 'LUNGE

Fishing in Muscote Bay this week J. A. Zufelt of the village of Stirling managed to hook and land a nice specimen of 'lunge which measured three feet in length and tipped the scales at 12 pounds.

## ERROR OCCURRED IN A. AND P. STORES 'AD'

An error occurred in the A. & P. Stores advertisement appearing in last night's issue of this paper when Silverbrook, first grade butter was listed at 2 lbs. 45c. and Wildmere, second grade butter listed at 2 lbs. 47c. The correct prices should have read "Silverbrook, first grade butter, 2 lbs. 47c., Wildmere, second grade butter, 2 lbs. 45c."

## 'MEET IN CORRIDOR' SAY LOCAL VETERANS

Two of the city's returned men this morning after an amiable chat presumably upon the present crisis in Poland prepared to take leave of each other.

"Well, so long", waved one to the other. "Be seeing you in the Polish Corridor."

That today was the general opinion of the majority of returned men of Belleville. Though the majority of them readily admitted they "had sufficient", during the last war, it was apparent to the greater number that unless former Canadian soldiers volunteered their services, the German dictator would probably regard Canada soon as just another inviting conquest.

---

Ottawa, Sept. 1 (CP)—Labor Minister Rogers has communicated with representatives of labor organizations asking them to meet him here later today to discuss the situation caused by the outbreak of hostilities in Europe. He will ask for labor's co-operation and advice in any action Canada takes.

Trades and Labor Congress of Canada, all Canadian Congress of Labor, Canadian Federation of Labor, Federation of Catholic Workers and the Railway Brotherhoods are among the Unions expected to send representatives.

## OBITUARY

**MRS. MARGARET L. JONES**

After an illness of five months' duration, Mrs. Margaret Loretta Jones, widow of Wellington Jones, passed away at her late residence in the village of Cannifton on Thursday evening, Aug. 31st.

The late Mrs. Jones, who was in her 84th year, was born in Sidney Township, her parents being the late Mr. and Mrs. Gilbert Lawrence. For some years she resided in the township where she was born and for the past twenty years she made her home in Cannifton. In religion she was a member of the United Church in Cannifton, and when age and health permitted she took an active interest in church work, being a member of the Ladies' Aid. In the community she was held in high esteem.

Surviving her are one sister, Mrs. Bertha Babcock, and one brother, Mr. David Lawrence, both of Belleville.

The funeral announcement is made elsewhere in this paper.

## Minister's Son Wins Honors

J. E. Wallace Sterling, son of the Rev. William Sterling, of the Bay of Quinte Conference, who has been on the staff in the Department of History at California Technical School, has been awarded a travelling fellowship of the value of three thousand five hundred dollars. He is a graduate of Toronto, 1927; M.A., Alberta, 1929; Ph.D. of Leland, Stanford, 1936 and will do research work on the Relation of the British South Sea Islands to the Mother Country. Leaving Toronto on September 1st, he will spend six months in London searching Colonial Office Documents, and six months at Suvu, Fiji Islands.

---

Merritt, B.C., Sept. 1 (CP)—E. H. Martin, Merritt game warden and Vice-President of the British Columbia Amateur Hockey Association, said he had sent an offer to Hon. Ian Mackenzie, National Defence Minister, to raise a battalion of British Columbia sportsmen should the British Empire become involved in war.

## Special Prayers For Peace Are Offered In Tweed Churches

Twenty-five men, many of whom were Great War Veterans were sworn in as special police before Magistrate E. J. Butler K.C., today in the police court rooms. The men were selected by Provincial Police and administered the oath of allegience by Crown Attorney B. C. Donnan K.C., of the detachment of men sworn in ten were from Point Anne, where the Canada Cement plants are located. "These men will be on call at a moment's notice. The swearing in of these special constables is only a precautionary move, but all public buildings, canals, hydro plants, Armouries and Government buildings will be guarded during these times of strain", stated Inspector Frank Gardner of the O.P.P. after the men had taken the oath of allegiance to their King and country as special police officers. Other special police had been sworn in in Belleville previously, today's detachment merely supplementing the previous ones.

## MANY ATTEND SAFETY SCHOOL

### Lessons In Carless Driving And Walking Given By Instructors

In the limited time available during the all too brief stop last evening in the city, many Belleville residents took advantage of the lessons in careless driving and walking and particularly the hazard of drunken driving given by the Safety School on Wheels.

The Safety School, a new innovation is a 25-foot trailer containing pictures and other exhibits of errors in driving judgment and devices that emphasize the importance of clear vision and thinking while on the road. The specially built auto trailer is owned and directed by Captain James A. W. Killip and Mrs. Killip of Philadelphia. Their visit to Belleville last evening, necessarily shortened by the fact the trailer was due in Toronto later in the evening, was just one stop of many in their three months' tour of the eastern United States and Canada.

The tour is the second of its kind sponsored by the Women's Christian Temperance Union. About fifty Canadian and United States cities will have been visited by the end of the tour, and it is estimated that 150,000 people will have been given the special lessons.

The trailer is outfitted with more than $3,000 worth of special equipment which included a "drunkometer" used in the balloon-breath test for intoxicated drivers. It is complete with first aid equipment and all safety aids.

Free auto safety emblems were distributed to Belleville drivers from the Safety School and many signed pledges entitling them to membership in the "Not Over 50 Club". This means they pledge themselves not exceed this speed limit while on the road.

## Watchful Waiting At M. D. No. 3

A state of "watchful waiting" was being maintained at Kingston Military district headquarters for District No. 3, of which this section is part, with military officials standing by for further advice or orders from Ottawa ,it was stated this morning by local militia officers.

Up to a late hour this morning no further word had been received from either Kingston headquarters or Ottawa by city units, and no change in the regular militia routine was reported, other than a strengthening of vigilance over local army stores.

It is apparent, according to one local officer that the phase of strengthening the permanent forces has been passed, and that defence headquarters of the Dominion is satisfied with the local military situation.

During the present week activities at the Kingston headquarters have been carried on in an even tempo, and there has been little talk of hostilities among the troops quartered there.

"We haven't had any definite word regarding the Belleville district and as far as orders go nothing has been changed. We are just standing to," it was stated this morning.

## Billy McCann Popular At Fair

"Smiling Billy McCann" the genial gent who whistles while he works, and in fact does it for a living in a manner that would shame the average canary, made a decided hit at the Belleville Fair with his novel entertainments on the "Wonder-Flute" and Bird Warbler.

"Bill's" uncanny ability at being able to wrestle a tune, from the rollicking "Irish Washerwoman" to the "Unfinished Symphony" drew from his tiny instruments a large crowd of enthusiastic people to his stand.

With scarcely a lip-motion, a trick that had passersby staring about them in an effort to ascertain its source, Bill carolled gaily, imitating all the well-known bird-songsters, while his trick of abruptly interrupting an operatic aria, with the well-known strains of the "Beer-Barrel Polka" had his audience in fits.

"Bill" travelled from coast to coast, and twenty-five years ago travelled to France where he whistled a different tune for four years. He is a popular well-known figure in the prominent circuses of the continent having played for years with Barnum and Bailey. At present he is getting plenty of practice at the county and city exhibitions, and expects to enter radio in the near future.

---

Toronto, Sept. 1 (CP)—Meeting in private, the Toronto Board of Control decided to ban Communist meetings from Toronto parks during the international crisis. Mayor Ralph Day said the Board did not want its action interpreted as meaning opposition to the right of free speech.

---

Toronto, Sept. 1 (CP)—City Council will likely be called into emergency session this afternoon to approve measures to guard services in case of war, Mayor Ralph Day said. A warning was issued by the Mayor to the public to remain away from such plants as Hydro, water works, sewage plants and "not approach them without written authority."

# German Reichstag Confirms Return of Danzig To Germany After Impassioned Promise By Der Fuehrer Hitler to "Meet Bomb with Bomb"

### Full Scale Attack Launched Against Towns In Poland Corridor According To Dispatch From Warsaw—Germany Declares In Will Meet Force With Force In Settling Polish Question—German Planes Bomb Krakow and Katowice In Southwest Poland

## POLISH BORDER VIOLATED BY GERMANY

### British Parliament Summoned And King Presides At Meeting Of Privy Council—Polish Sources In Paris State Warsaw Bombed Early Today—Roosevelt Issues Appeal Against Bombing Of Civilian Population—Canadian Cabinet Called Into Session

London, Sept. 1 (Friday) (C.P.)—Reuters said today in a Warsaw dispatch that the official Warsaw radio announced German troops had launched a full scale attack against towns in the Polish corridor.

**DALADIER SUMMONS CABINET**

Paris, Sept. 1 (Friday)—Premier Edouard Daladier, informed that German troops crossed the Polish frontier today, summoned an urgent meeting of his cabinet for 10.30 a.m. (5.30 a.m. E.D.T.).

**MEET FORCE WITH FORCE**

Berne, Switzerland, Sept. 1 (Friday) (A.P.)—The Neue Zurcher Zeitung's correspondent in Berlin wrote today:

'It is declared here categorically that the Fuehrer's proclamation to the German army to meet "force with force" amounts to opening a state of war. Military operations were begun at 6 a.m. along the entire German-Polish frontier."

Warsaw, Sept. 1 (Friday) (A.P.)—The Foreign office said today that German planes had bombed Krakow and Katowice, in southwestern Poland.

German planes also bombed Czestochowa, Tczew and Grudziadz early this morning, the Foreign Office said.

It was reported officially that German troops had attacked Polish defences near Mlawa, bordering the southern part of East Prussia.

There was no announcement of the damage resulting from the bombing.

The Foreign Office also confirmed that fighting had started in Danzig.

Warsaw was awakened at 6.20 a.m. by sirens, but the alarm was recalled at 7.15.

Mist and clouds were overhanging the city. A light drizzle apparently afforded momentary protection against air raids.

Warsaw went to work as usual.

(In Paris, Havas News Agency said six Polish cities had been bombed this morning—Krakow, Putsk, Vilna, Grodno, Zukw and Bialapowlaska.)

**VIOLATED POLISH BORDER**

Paris, Sept. 1 (Friday) (C.P.-Havas)—The Polish Embassy here announced today that "Germany violated the Polish frontier at four points."

"German reports of pretended violation of German territory by Poland are pure invention, as is the fable of 'attack' by Polish insurgents at Gleiwitz," the Embassy announcement said.

Earlier it was disclosed that official French dispatches from Germany indicated that "the Reich began hostilities on Poland this morning."

The report caught Paris by surprise on a sunny morning when newspapers were proclaiming that "French and British firmness can still save peace."

An hour after the first report was received there still was no official reaction.

**BRITISH PARLIAMENT CALLED**

London, Sept. 1 (Friday) (AP)—Parliament was summoned to meet today at 5 p.m. (Noon E.D.T.)

**WARSAW BOMBED**

London, Sept. 1 (AP)—Reuters News Agency said it was learned from Polish sources in Paris that Warsaw was bombed today.

**KING SUMMONS PRIVY COUNCIL**

London, Sept. 1 (CP)—The King summoned the Privy Council to a meeting today and Parliament was called to meet this afternoon as reports were received here of a German offensive against Poland.

The cabinet met at 11.30 a.m. and the Privy Council was to meet at noon (8 a.m., E.D.T.)

Parliament was called to meet at 5 p.m. (1 p.m. E.D.T.)

The Polish ambassador conferred with Prime Minister Chamberlain before the cabinet meeting.

**GERMAN AIR FORCE IN ACTION**

Berlin, Sept. 1 (AP)—A radio announcement from army headquarters said today the German air force was in action over Polish territory.

**FRANCE MOBILIZES**

Paris, Sept. 1 (CP-Havas) — France today ordered general mobilization.

Martial law was proclaimed in Paris.

The orders were issued after an emergency meeting of the French cabinet at the Elysee Palace under President Albert Lebrun. Parliament was called to meet tomorrow.

**17 SEPARATE ATTACKS REPORTED**

Budapest, Sept. 1 (AP)—Dispatches received here by the Polish Telegraph Agency reported seventeen separate German air attacks on Polish cities and towns.

**GERMAN EMBASSY BURNS FILES**

London, Sept. 1 (CP)—(Passed by British Censor)—The German Embassy today began burning some files, apparently as a precaution in preparation for possible withdrawal from London. A thin column of smoke appeared over the Embassy roof and pieces of charred paper floated to the ground.

## PREMIER HEPBURN SOLIDLY BEHIND BRITISH EMPIRE

### Must Stand And Fall In Whatever Comes of the International Crisis

**SPEAKS FOR SLAGHT**

Magnetawan, Ont., Sept. 1—(CP)—Premier Mitchell Hepburn's contention is that Canada must "stand or fall by the British Empire" in whatever comes of the international crisis.

The Ontario Premier, stepping only temporarily into the federal election campaign, told a nominating convention of Parry Sound riding yesterday that Canada would be "in a hopeless position" if she failed to back Great Britain in a war.

"We cannot visualize the consequences of what war will mean," Mr. Hepburn said. "War may bring the destruction of our form of civilization.

"But, whatever happens, this will be the end of all kinds of 'isms' as far as Great Britain is concerned, because the proponents of these doctrines of Fascism and Communism have lined up against the democracies."

Mr. Hepburn said he hopes that Canada's voice "will be heard in no uncertain way" if parliament meets over the international crisis.

"If, in the opinion of King George and his Ministers, we've got to fight, let us fight as one man and put all our Canadian resources behind Great Britain," he urged.

## BRITAIN, FRANCE DETERMINED TO FULFIL PLEDGES

### Hitler Renounces All Claims On Western Powers And Refrains From Declaring War On Poland

**PLEDGE TO NEUTRALS**

London, Sept. 1—(CP)—It was officially reiterated today that Great Britain and France were determined to fulfil their obligations to Poland despite Adolf Hitler's Reichstag speech.

In essence, Hitler's speech was a reiteration of the German plea that every attempt at peaceful revision of "intolerable conditions" had failed and that Germany's demands were "modest and loyal" but that the reply of Poland and the western powers was only provocation.

To neutral nations Hitler pledged scrupulous respect so long as Germany's opponents do likewise.

**Attempt to Stave Off West Powers**

In a last minute effort to stave off action by the western powers (Britain and France), Hitler renounced all claims on them. By implication, this included renunciation of Germany's colonial claims.

"We want nothing from the western powers and we have formally declared we have no claims against them," Hitler said. "Our west wall (of fortifications) is also our west border."

Hitler refrained from declaring war on Poland but said he would continue to fight until Poland's government yields or is supplanted by a government which would yield.

Germany will not fight women and children, the Fuehrer said, but if the opponent resorts to such warfare Germany will answer "bomb with bomb and gas with gas."

He said that for Germany to submit to Polish treatment of her latest settlement proposals — refusal even to discuss them—would mean Germany deserves to withdraw from the political stage.

This morning, Hitler told the cheering Reichstag, Germany has been returning shot for shot.

He pointed to the German army as the best equipped in the world—equipped at a cost of 90,000,000,000 marks ($36,000,000,000 since the Nazi accession to power.

Hitler was at his oratorical best. He looked worn and harried but his voice was strong, his eyes fiery and his gestures vigorous.

Hitler was followed on the rostrum by Dr. Wilhelm Frick who proposed a law which decreed Danzig a part of the Reich and its citizens of German nationality. The measure was adopted unanimously by the cheering assembly.

At the conclusion of the historic session in the Kroll Opera House Field Marshal Goering on behalf of the Reichstag and the German people pledged unswerving loyalty and unquestioning obedience to the Fuehrer.

## Reichstag Convenced At 5.09 A.M. E.S.T. Some Members Being In Informal Attire

## DIPLOMATS PRESENT

### Sir Nevile Henderson Represented By Sir Ogilvie Forbes, Embassy Counsellor

Berlin, Sept. 1 (Friday)—(AP)—For the first time in Nazi history German soldiers stood guard with party formations at Kroll Opera House today for Fuehrer Hitler's address to the Reichstag.

The Reichstag convened at 10:09 a.m. (5:09 a.m. EDT).

Notice of the meeting was so short there was no time to put all swastika decorations into place. Some Reichstag members were called on such short notice that they were in informal attire.

The diplomatic box was filled slowly. Among the earliest arrivals was the Chinese Ambassador. He was followed shortly by the Japanese, Italian and Belgian envoys.

Sir Nevile Henderson, the British Ambassador, was not present. Great Britain was represented by Sir Ogilvie Forbes, the Embassy Counsellor.

Field Marshal Goering opened the session.

"The Reichstag is opened," he said. "I could not call you before 3 a.m. today. But thanks to good organization the greater part of you have been able to arrive.

"More than 100 members are not here because they are soldiers of the German army. They are going to do their duty."

## Statement Issued By German Command

London, Sept. 1—(CP)—(Passed by British censor)—Reuters News Agency reported from Berlin today that the German supreme command had issued this announcement at 11:40 a.m. (6:40 a.m. EDT):

"In the fulfilment of their task to offer resistance to Polish force, German troops have crossed all the frontiers to counter attack.

"The air army has also come into action. The navy has taken over the protecion of the Baltic."

The announcement, Reuters said, was broadcast by the German radio.

## Wounded Arrive By Ambulance

By ANGUS THUERMER

Gleiwitz, Germany, Sept. 1 (Friday)—(AP) — An army ambulance carrying wounded soldiers arrived at the emergency hospital here today at 9:10 a.m. (4:10 a.m. EDT).

The men, carried in a wagon, were on stretchers. One had on a first aid field bandage. It could not be ascertained where the ambulance came from.

At about 9:10 a half-mile long truck train manned by the engineering corps drove through the heart of the city with pontoon bridge building material. In the train were caterpillar tread, 20-passenger motor vans.

Obviously the train had been on the road for a considerable time. All equipment was thickly covered with gray mud.

A scouting plane of the air force was petrollling an area over Gleiwitz.

Early today Gleiwitz residents reported artillery fire was heard "in the distance" a few miles from the Polish-Silesian border.

## *Hitler's Address To Reichstag*

New York, Sept. 1—(Friday)—(AP)—Fuehrer Hitler said in a Reichstag speech broadcast today that Germany was prepared to meet "bomb with bomb" in settlement of the Polish question.

The German leader promised to be the "first soldier of the Reich."

**Goering Named as Successor**

He named Field Marshal Hermann Goering as his successor, "should anything happen to me in this struggle."

"From now on I belong to my people as never before," Hitler said.

Should, he continued, anything happen to "my friend Goering" the next in line to carry on the Fuehrer's duties is Minister Rudolph Hess."

"If anything should happen to Hess, then the Senate shall be called to appoint the most worthy of the people."

I have stated and I state again that we have nothing to demand from the western powers.

**Offered Friendship**

Time and time again I have offered England friendship and if necessary, close cooperation.

Germany has no interest in the west. Our west wall (the Siegfried Line) is and will remain our western boundary.

I should like to express at this time our thanks to Italy which has supported us during these recent days.

I see no reason why Russia and Germany should be enemies any longer.

Russia and Germany have decided that use of force between them would be of no use only to others. We therefore have decided to renounce the use of arms for all times.

Every attempt of the western powers to change the situation shall fail.

This pact shall mean for all times in the future something very definite to which we shall cling to for all time.

I will take the necessary action but I do not want to fight a war against women and children.

I have notified my air force to restrict its activities but if our opponent takes advantage of this he will receive unmerciful treatment at our hands.

Our soldiers have been shot at, and since 5:45 we have been shooting back.

**Carry on Indefinitely**

I shall carry on this fight regardless of against whom it may come until the situation is such that it is acceptable to Germany.

In the last few years more than 90,000,000,000 marks have been applied to the reconstruction of the German army. Our army cannot be compared to the army of 1914. It is much better than then.

If sacrifices should be demanded of the German people, then let them know too that I am ready to make every personal sacrifice on my part.

**Share All Sacrifices**

There shall be no sacrifices made in Germany which I myself shall not share. From now on I belong to my people as never before, and beginning today I am the first soldier of the German Reich.

If anything should happen to me in this struggle, then will come my first friend Goering.

In case anything happens to Goering, then next in line comes Minister Hess.

You should be in duty bound to them equally as you have to me.

In case something occurs taking away Hess, then the Senate should be called to appoint most worthy of the people.

**Struggle For People**

My whole life has never been anything but one single struggle for my people.

One word I have never learned to know. That is capitulation. November of 1918 shall never be repeated in the history of Germany……as long as I am willing to sacrifice my life for the good of my people, every other member of the Reich should do the same. If not, they should be branded a traitor.

With that we recognize again the old principle that our people it is to whom we owe our allegiance. I am responsible for the mood and atmosphere in the Reich. You are responsible for the feeling in your districts throughout the country.

I expect every man and woman to take part in this struggle in exemplary fashion. If our will is strong enough then nothing can fall Greater Germany hell.

The Polish government have not unnaturally been willing to place themselves in this humiliating position.

It is not customary even in the case of peace terms imposed on a defeated power to demand that negotiators should not be allowed to refer for instructions to their government.

**Impossible to Comment**

It is impossible to comment at such short notice on the misleading statements of the German government but the general attitude of His Majesty's government may be briefly defined as follows:

If the German government had been sincerely desirous of settling the dispute by negotiations they would not have adopted this procedure which has the character of an ultimatum.

They would on the contrary have begun discussions with the Polish government in accordance with the normal procedure of civilized governments in order to fix the place and time for the opening of negotiations.

**Fully Justified**

The Polish government in the opinion of His Majesty's government were fully justified in declining to submit to the treatment which the German government endeavored to impose on them as regards the terms now published which have never been hitherto communicated to the Polish government.

His Majesty's government can only say that these terms should of course have been submitted to the Polish government with time to consider whether or not they infringed on Poland's vital interests which Germany in a written communication to the British government had declared her intention of

## HITLER SPEAKS AS IF WAR IS NOW UNDER WAY

### Field Marshal Goering To Be Successor If Hitler Should Meet Death In War

**ANNEX DANZIG BY LAW**

Berlin, Sept. 1—(AP)—Fuehrer Hitler told a momentous gathering of the Reichstag today that Field Marshal Hermann Goering would be his successor if he should meet death in war.

Hitler spoke throughout as if war already were well under way, but he did not officially declare war and said he intended to be "the first soldier of the German Reich."

"I am putting on the uniform and I shall take it off only in victory or death," he said.

**Annex Danzig**

The Reichstag passed a law annexing Danzig.

Hitler said that it is a lie that we do all by force."

Hitler, greeted by a great ovation by the Reichstag that had been summoned at 3 a.m. for a special 10 o'clock meeting, plunged directly into the subject of Poland and Danzig by declaring:

"We meet to solve the problems raised by the Versailles Treaty."

Denying the Reich is not peaceably inclined—the Fuehrer less than five hours before had announced his army was meeting "force with force" because of alleged border violations by the Poles—declared that we "tried to solve many problems peacefully."

**Claims Danzig German**

"Fifteen years of peaceful effort to meet this issue were of no avail," he added.

"Danzig is German. The Corridor (the Polish Province of Pomorze) was and is German.

"More than 1,000,000 Germans who lived in this territory had to leave their homes in 1919 and 1920

"The dictate of Versailles is not a law for us Germans," he said in a strong voice.

Reciting Germany's peaceful efforts, he said Germany had made proposals for revision of "unbearable conditions" in Austria, the Sudetenland of Czecho-Slovakia and other places but all without result.

**Had to be Solved**

"We also proposed a solution of the Corridor problem. It was clear that it had to be solved," he shouted as the Reichstag cheered.

Hitler spoke for 36 minutes. He finished his address at 10:45 a.m.

Sir Nevile Henderson, the British Ambassador, was not present. Great Britain was represented by Sir Ogilvie Forbes, counsellor of the Embassy.

Other diplomats arrived slowly at the session in the Kroll opera House. Among them were the Ambassador of China, Japan, Italy and Belgium.

So hurriedly was the Reichstag assembled that some members were in informal attire.

Hitler said he had spoken frequently with Polish statesmen about the Corridor problem and finally drew up a moderate formula for meeting the issue.

"Only I could make such terms," he said to great applause.

"These proposals were rejected. The answer (by Poland) was first mobilization and then pressure on Danzig."

"I have left no doubt that the Germany of today nowise resembles the Germany of the Hohenzollerns.

"No great power would long tolerate such conditions. I made a last attempt by proposing to Britain that she play the role of mediator.

"I sought to establish a direct connection between Germany and Poland."

**No Plenipotentiary Coming**

This apparently was a reference to the 16-point settlement proposal announced last night, upon which Germany had expected Warsaw to send a negotiator to Berlin.

"I sat for two days with my government waiting for a Polish plenipotentiary without seeing him" the Fuehrer said.

Hitler declared his love of peace and patience was worn out and so he had informed the British government last night that negotiations were broken off.

To great applause Hitler said he had decided to "talk as Poland talks"—with force.

He denied that western powers have any legitimate interest in the Polish Corridor or Danzig.

"We want nothing from the western powers and we have formally declared we have no claims against them. Our west wall (of fortifications) is also our west border."

### President Roosevelt Asks All Potential Participants In European War To Pledge Themselves Against Bombing Civilian Populations In Note Sent To Powers Implicated

## REQUESTS IMMEDIATE REPLY

### Receives Word From Ambassador At Warsaw And Paris That Germany Invades Poland And Four Polish Cities Bombed—Concern Felt For Americans Now Abroad

Washington, Sept. 1 (AP)—President Roosevelt today asked all potential participants in a European war to pledge themselves against bombarding civilian populations or unfortified cities from the air.

Mr. Roosevelt's appeal was sent at 5:30 a.m. EDT to the governments of Great Britain, France, Italy, Germany and Poland. He requested "an immediate reply".

Earlier, after receiving reports from envoys in Paris and Warsaw, the President directed that all United States naval ships and army commands were to be notified today of German-Polish hostilities.

Mr. Roosevelt was expected to call Congress into special session soon to revise neutrality laws which at present prohibit export of war materials to warring countries.

**SICKENED OUR HEARTS**

"The ruthless bombing from the air of civilians in unfortified centres of population during the course of the hostilities which have raged in various quarters of the earth during the past few years which have resulted in the maiming and in the death of thousands of defenceless women and children has sickened the hearts of every civilized man and woman, and has profoundly shocked the conscience of humanity," Mr. Roosevelt said in his appeal to the five powers.

"If resort is had to this form of inhuman barbarism during the period of the tragic conflagration with which the world is now confronted, hundreds of thousands of innocent human beings who have no responsibility for, and who are not even remotely participating in, the hostilities which have now broken out, will lose their lives.

"I am therefore addressing this urgent appeal to every government which may be engaged in hostilities publicly to affirm its determination that its armed forces shall in no event and under no circumstances undertake the bombardment from the air of civilian populations or of unfortified cities, upon the understanding that these same rules of warfare will be scrupulously observed by all of their opponents. I request an immediate reply."

Earlier this announcement was issued from the White House

**NAVAL, ARMY COMMANDS NOTIFIED**

"The President received word at 2:50 a.m. Eastern Standard Time by telephone from Ambassador Biddle at Warsaw and through Ambassador Bullitt in Paris that Germany has invaded Poland and that four Polish cities are being bombed."

The Presidential order that naval ships and army commands be immediately notified followed the communication with the Ambassadors.

The State Department received a telegram from Alexander Kirk, American Charge d'Affaires at Berlin, reporting Hitler's statement that force must be met with force and the proclaimed reunion of Danzig with the Reich.

One factor creating immediate concern in the capital was the presence of many Americans in Europe who have been unable to obtain passenger space on trans-Atlantic liners.

Preparations were going forward, too, to keep American industry stable in event of a general European war.

---

**AIR RAID WARNINGS ORDERED**

London, Sept. 1 (AP)—(Passed by British Censor)—The British Government today ordered all air raid warning systems in the country to be put into immediate operation.

**MARTIAL LAW IN GERMANY**

Berlin, Sept. 1 (CP-Havas) — Martial law was proclaimed throughout Germany today.

---

Hitler referred to the non-aggression pact with Russia, saying that Germany did not propose to export the Nazi doctrine and saw no reason for further separation from Russia.

"I do not want to wage a battle on women and children," Hitler declared, but he added that if the "enemy" dared to wage "another" war of that sort he would answer "bomb for bomb and gas for gas."

**Peace Must Reign**

"I am going to see to it that peace reigns on our eastern border as it does on other frontiers. Poland last night fired on German soldiers on German soil. But they already have been chased back to Poland."

At this the Reichstag cheered.

Turning again to Russia, Hitler recalled that "Germany and Russia fought each other in the last war.

"This will not happen a second time.

"The non-aggression pact (with Russia) was ratified yesterday in Moscow and Berlin. It was greeted the same way in Berlin and Moscow.

"Our aims: I am determined to solve the question of Danzig and the Corridor in relation to Poland and effect an arrangement for peacefully living together.

"I am willing to fight till this threefold aim is achieved or until there is a government in Poland which accepts this.

"Without the German people there would be barbarism in Eastern Europe. Minorities have been persecuted. Hitherto I have tried peacefully by revision proposals to bring about a solution."

## HITLER CHOOSES WAR

Hitler has cast the die and German armies have launched attacks on Poland. These long-feared events of early today are no doubt the prelude to that greater world war which mankind has dreaded would come as a result of the vaulting ambition of Germany. Frontier conflicts hav been going on since shortly after midnight and Hitler at an emergency meeting early today said that German armies had ben ordered to meet force with force on the Polish frontier. This was followed by a German supreme command statement that in fulfilment of their task to offer resistanc to Polish force, German troops have crossed all the frontiers and that the air army has also come into action, while the navy has taken over the protection of the Baltic. Polish official reports tell of German troops invading Poland and attacking towns which had not yet been evacuated.

Chancellor Hitler chose September for the attack on Poland. He opened the month of September with a Reichstag assembly at which he declared that he formally annexed the city of Danzig, which act was ratified and confirmed by the Reichstag. Hitler then declared that German forces had been ordered to meet force with force and this was taken to be tantamount to a declaration of a state of war with Poland. As in previous crisis he charged atrocities.

Every hour is laden with dread possibilities as Germany has crossed her Rubicon. Where Italy will stand is not clear for Italy has been very silent of late. Today Hitler thanked Italy for what she had done and said that "I will not appeal to others to help in this fateful hour. We will carry out this task ourselves." He made a last minute bid to keep the Western powers of Britain and France out of the conflict by saying Germany demanded nothing of them. This was taken to imply German renunciation of any aims to recover her warlost colonies.

Yesterday was a day of a state of pause or lull, all the more ominous for that fact as the moment before a storm. It was realized last night that there was really no possibility of preventing war, though men and women were still clinging to the hope that the danger would pass.

Momentous hours await the people of the great Western Powers, France and Great Britain. Premier Daladier called his Cabinet in special session and the British Parliament was called to meet today. Both Britain and France have ordered general mobilization.

Germany is engaged in the first war since 1914-1918. Through the energy of Hitler she has been militarized to a state of menace to the world, of freedom. Germany has committed in the past eighteen months acts of aggression in Austria and Czechoslovakia and Poland was the next chosen for German ambition. Britain and France stepped in, built up the anti-aggression pact. And Hitler has now picked his hour to strike. Many think he could not delay another moment if he had hope of snatching victory and marching on to world conquest.

The showdown has come and a resolute world, which dreaded war, but Hitlerism and Nazism more than war and death, is calm as it waits the turn of events. Hours will tell as the consequences of German invasion of Poland take form. His words show he had little hope of isolating the Polish qustion from that of world security and justice, as represented by the Western Powers.

His Reichstag speech delivered today sounds fatalistic. He named his successors in the event of his falling in war and he said he would be the first soldier of the German Reich and that he was putting on the uniform and "I shall take it off only in victory or death." Hitler is practical and an idealist and poseur as these words show. That sudden non-aggression alliance with Russia shows how German Fuehrer feared Russia as a possible foe and he chose Russia, whose political ideology is so much like Nazism, as friend, taking the risk of losing Spain, Italy and Japan through that act. It would appear as if in Italy he saw "a good friend cooling" especially on the question of the German claims on Poland.

The authorized British declared today Poland was fully justified to more exacting treatment than "is customary even in the case of peace terms imposed on a defeated power."

The British nation like the French faces the grim ralities of war's approach. Evacuations of cities, parting of children and fathers and mothers, military mobilization military regulations are some of the new conditions imposed, which are to help defeat the Nazi menace to civilization. They are necessary conditions in the cause of defence and freedom from a threat to humanity.

Supervised by The Lamplighter.

### THE AEROPLANES

Three aeroplanes are winging overhead;
Their throbbing engines break the summer quiet,
Filling with vast unrest and sound of riot
The placid blue with fleece-drift overspread.

Not seldom in these full and fleeting days
Those giant "birds" pass over us in flight;
Yet something still they bring of young delight,
Something of old-time wonder and amaze.

A wish on swifter pinions soars above:
If only men were wise as they are clever!
Then might their course be onward, upward ever,
To heights of power and plenty, peace and love.

This earth of ours enwrapt in vital airs
With waves of song and wisdom flowing through,
Envisioned, shines a heaven in embryo,
So glorious the changing robe it wears.

With God forever on the winning side,
Good yet undreamed, a balm for every ill,
Await the seeking mind, the dauntless will.
And yet mankind seems bent on suicide!

Yon bird of passage in the blue so high—
A golden eagle in the noonday sun—
Shall it, perchance, before its day is done
Rain flaming death and terror from the sky?

Forbid it, King of Peace, forbid this thing!
Incline the dreams of men to nobler flight;
Guide them from glooms of death to life and light.
Then only shall these eagles learn to sing.

—LILIAN LEVERIDGE.

"BROCKVILLE NEEDS A LITTLE KIDDING," kids the Kingston Whig-Standard, which states that "Brockville has been selected as the site of a refugee kid glove industry, and a herd of goats is being established for the production of the kid skins. A high honor." Brockville Recorder Times reprints the item with the heading "WRONG AGAIN" just to remind the Whig Standard that the refugee kid glove live goat industry is located at Prescott which as yet has not been annexed to the Town of Brockville.

"MEN FROM MARS," INSPIRED BY ORSON WELLES, THE ACTOR, scared many radio listeners not so long ago, and the radio moguls have had the jitters ever since. Recently an amateur hypnotist had a tryout for the "Hobby Lobby" program. He put several of the studio staff to sleep and so alarmed the management that the stunt was cancelled lest he put many of the listeners to sleep. Now, the hypnotist, a prosperous business man of Philadelphia, is suing the NBC for satisfaction to "his injured pride."

FOR SALE, TWO WHALES, SUITABLY EMBALMED, TOGETHER WITH TWO SPECIALLY MADE BOX CARS—who wants two whales? Seems as though the market for embalmed whales would be a bit dull, judging from what whales have floated around here in specially made railroad cars, with their own distinctive odor, the whales, of course. However, two whales answering to the description as above were auctioned off at Trenton, New Jersey, last week for storage charges, and found a buyer. The whales had been part of an exhibit of a Pacific Coast concern and had been in storage for eight years. The highest bidder was a scrap iron concern interested principally in the box cars. The price paid was $235. The buyer said the whales were just as good as new and he might exhibit them at the New York World's Fair. "Lots of people have never seen a whale," said he. Lots of people have smelled a whale, to their sorrow.

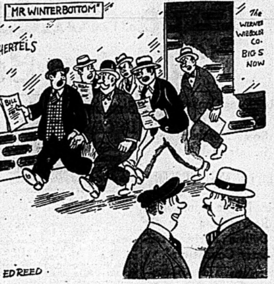
"When Mandy went and got married, us girls give her a shower."

"Dat sho' was nice. Ah'll bet her husband was glad to get 'er all nice and clean."

OFF THE RECORD By Ed Reed



"He hates to be alone—so he doesn't pay his bills."

## LOOKING BACKWARD

GLEANINGS FROM OUR FYLES
OF BY-GONE YEARS

### 20 YEARS AGO

Sept. 1st, 1919.

Mr. and Mrs. C. H. Robinson and Sydney and Douglas left today for New York City and will sail shortly to spend three months in England. Many friends were at the station to wish them bon voyage.

Inspector John Phillips of the Northwest Mounted Police stationed at Herschel Island, Arctic Circle, has arrived home on a visit to his parents, Mr. and Mrs. N. W. Phillips, Charles Street. Herschel Island is at the top of the world, and Inspector Phillips was about four months coming out, having left there on May 7.

Mr. Robt. Orr and family have returned after a motor trip to Toronto, Hamilton and Niagara Falls.

Mr. and Mrs. T. R. McEwen have left for Port Arthur, Ont., where Mr. McEwen will assume the principalship of one of the schools.

### 30 YEARS AGO

Sept. 1st, 1909.

Public safety demands that more fire hydrants be installed in this city.

The Rev. Willard Brewing and Mrs. Brewing of Toronto, are visiting her parents, the Rev. A. M. Hubly and Mrs. Hubly, Victoria Avenue.

The west wing of the Legislature Buildings in Toronto took fire shortly before one o'clock this afternoon and in a very short time the roof fell in. The fire is now reported to be under control, but the Law Clerk's Department, the Library and Archives Department are almost wholly destroyed. The cause of the fire has not been decided.

The public schools opened today; the high school will open Sept. 7th.

It is reported that the crews of ten passenger trains on the G. T. R. will move from Toronto and York to reside in Belleville.

### 40 YEARS AGO

Sept. 1st, 1899.

The steamer Spartan of the R. and O. Line, has made her last trip for this season and will go into winter quarters at Sorel, Quebec. The steamer Corsican of the same line will call here three times a week.

Many local sports were up early this morning and out after ducks.

Mr. J. Arthur Marsh is spending a few days in Toronto.

Mr. Patrick Doyle of Lonsdale is visiting friends here.

Col. Hendrick, U.S. Consul here is attending a meeting of U.S. Consuls in Montreal.

Mr. F. G. Lockett and family have returned to the city from Massassaga Park where they spent the summer.

Prof. Hunt went to Toronto today and will be absent over Sunday. His place at the organ in Bridge Street Methodist Church will be filled on Sunday by Mr. W. Allan Chown.

### 50 YEARS AGO

Sept. 1st, 1889.

A handicap bicycle race for the Oddfellows' Challenge Cup took place yesterday afternoon on the Trent Road and was an exciting contest. The distance was two miles and was accomplished by W. A. Lingham in 6 minutes, although he was defeated. The riders handicapped were J. F. Gardiner, 1 1-2 minute; C. Lazier 45 seconds; R. M. Roy, 40 seconds; W. A. Lingham in 6 minutes, all-from scratch. Gardiner came in first, being two wheel lengths ahead of Lingham, and Lazier was a close third. This was Gardiner's first win. R. M. Roy was riding a fine race and was near the finish when he met with an accident by taking a header. He sustained a badly sprained arm and his head was bruised.

Col. Brown and Mr. D. M. Waters of this city are registered at the Palace Hotel, San Francisco, California.

## THAT BODY OF YOURS

By James W. Barton, M.D.

### Your Blood Pressure May Need to Be High

Blood pressure now stands first with heart disease as a topic of conversation. Blood pressure is present in an individual because the body tissues must have a supply of blood always, and if there is obstruction by spasm of the vessels, or because of loss of elastic tissue, then more pressure must be put behind the blood flow to enable it to reach all the tissues.

If you are excited or upset, there is tensing and a tightening of all the muscles and nerves in the blood vessels. This tightening makes the bloodvessels smaller and so more pressure is needed to drive blood through the bloodvessels. This rise in the blood pressure due to emotional disturbances is not a serious matter at first because when you become calm again, the tenseness and tightening disappear and the blood pressure comes down to normal. If, however, you become emotionally upset very often, then the elastic tissue in the bloodvessels may become permanently stretched.

Further, if your high blood pressure is due to damage to the walls of the bloodvessels—the elastic tissue has been replaced by hard or fibrous tissue—and you further increase your blood pressure by becoming emotionally upset, you can see how a stroke of apoplexy, kidney or a heart attack may result. These attacks are naturally blamed on the emotion—anger, fear, fright, —but it is the underlying condition of the bloodvessels that is even more to blame.

In speaking of patients with high blood pressure, Dr. Aaron Arkin, Chicago, in the Journal of the Kansas Medical Society says:

These patients are very susceptible to psychic (mental) influences. They require mental rest and reduced physical activity. They require a small to medium all-round diet, light exercise, plenty of rest periods, and at least 10 hours of sleep.

Dr. Arkin points out that no useful purpose is served by trying to reduce the blood pressure—except in emergencies—and it may be more harmful than beneficial.

Remember, then, that your blood pressure may need to be high to carry blood against obstacles—partially closed vessels due to emotional disturbances or to actual disease of the bloodvessels.

## *The Stars Say—*

For Saturday, September 2

By GENEVIEVE KEMBLE

A LIVELY day, with much stirring in connection with writings, papers, publishing and promotion, as well as commercial enterprises, is forecast. These culminate in financial success, and are likely to call for change, travel or removal New matters are under fortunate direction. Social, domestic and romantic affairs may not be harmonious or satisfactory.

Those whose birthday it is may be repared for very lively conditions, especially if interested in literary pursuits, advertising or promotion. These may call for change of plans and surroundings. Travel and removal are in order. New projects are under fortunate sway. Safeguard the domestic and personal affiliations from friction. The young are favored but social affairs may not gratify.

A child born on this day may be exceedingly clever. It may be commercially inclined, though having marked literary ability. Its disposition may not be too amiable.

Built to receive TELEVISION SOUND!

It's Here - 1940 PHILCO with amazing BUILT-IN SUPER AERIAL SYSTEM

JUST PLUG-IN ANYWHERE . . . AND PLAY!

*No Installation! No Wires of Any Kind On Your Roof or Around the Room*

. . . thanks to the Built-in *Super* Aerial System that combines self-contained Loop Aerial, costly R.F. Stage and super-efficient Loktal Tubes. And, too . . . this amazing Philco invention brings you undreamed-of power and clear tone, even in noisy locations.

And remember . . . the 1940 Philco is built to receive Television Sound! Be sure to see all the thrilling new 1940 Philcos at your nearest Philco dealer's store.

PHILCO 19XF $129.50 A beautiful new Domestic and Foreign Superheterodyne. Electric Push-Button Tuning, including Television Button. Built-in *Super* Aerial System with *Twin*-Loop Aerial. Cathedral Speaker, Variable Tone Control, gorgeous Walnut cabinet. See and hear it . . : soon!

YOUR PHILCO IS MADE IN CANADA

## Sales Dried Up On Cheese Boards

Ottawa, Sept. 1—(CP)— Broad fluctuations of foreign exchange markets in Montreal and New York arising out of the international crisis in Europe dried up sales of Eastern Ontario Cheese Boards yesterday.

There were no sales reported at the usual Thursday meetings of the rural cheese boards because buyers explained they were taking too big a risk of losing money at entering bids to buy cheese when an overnight decline in foreign exchange might mean a sharp loss to them.

Most boards adjourned for a week, thus cancelling their Saturday meetings in the hope the situation might clear before next Thursday.

CANADA PRESENTS THE WORLD'S LARGEST ANNUAL EXHIBITION

Millions of dollars in land, buildings and equipment, 350 acres of rolling park land — and hundreds of brilliant attractions gathered from all over the world —science, art, music, sports, livestock, industry!

Horse Show—dazzling evening function in the Coliseum. Hunters, hackneys, and prize heavy horses competing in brilliant spectacle.

On the waterfront—yacht and dinghy races, also International Power Boat races featuring the powerful 225 class and roaring sea fleas. One of the most thrilling sights at the Exhibition!

Famed Unit—The Dagenham Girls' Pipe Band. Familiar Scottish airs and dances. Favourites in Great Britain and European capitals.

"Utopia"—a gorgeously lavish pageant depicting man's search for peace since the time of the Crusades. 1500 costumed performers on a 1000-foot stage.

Dance on Canada's largest dance floor to five of the most famous dance-bands. Artie Shaw, Tommy Dorsey, Guy Lombardo, Glen Gray, Benny Goodman!

**ENGAGEMENT NOTICE**

Mr. and Mrs. Geo. L. Ackerman, R.R. 7, Belleville, wish to announce the engagement of their youngest daughter, Alma Mae, to Mr. Arthur J. Wallace, only son of Mr. and Mrs. J. H. Wallace, Campbellford. The marriage to take place late in September.

Mrs. Mark Tucker is leaving this week for Toronto, where she expects to join some old friends, Mr. and Mrs. J. O. Tisdale, Swift Current, Saskatchewan.

Dr. Charles Clare of Winnipeg, formerly of Tweed, is visiting relatives in this district and is being welcomed by many old friends. He has been spending some time at Stoco Lake. His last visit here was in 1917.

Mr. and Mrs. F. J. Milne of Detroit, are visiting with Mr. and Mrs. Geo. A. Lee, Cedar Street.

Mrs. W. F. Moore, Miss Jean Moore and Miss Betty Stapleton are spending the day at Toronto Exhibition.

Mr. and Mrs. E. Britton, Rochester, N.Y., are visiting relatives in the city.

Mrs. Gerald DeLong, Catherine Street, was a visitor at the Toronto Exhibition today.

Mrs. Florence McGrath of Evanston, Ill., (formerly Florence Thomas of Belleville), was a visitor in the city this week.

Mrs. L. G. Ireland, New Orleans, has returned home after visiting in the city the guest of Mrs. A. L. Sherry, Catherine Street.

Members of Group No. One (College Hill) of Tabernacle W.M.S. met at the home of Mrs. J. Ross, North Park Street, yesterday afternoon, for a farewell party in honour of Mrs. Angus Martin, who is leaving the city shortly. The appreciation of the members for Mrs. Martin's devoted service and for her sincere friendship was expressed in an address read by Mrs. Charles Hogle. Mrs. Martin is a charter member of the W.M.S., having been actively interested in missionary work since childhood. Good wishes were expressed for her future welfare. On behalf of the group Mrs. Ross made the presentation of a life membership pin. Mrs. Martin graciously thanked her friends for their gift and good wishes. Dainty refreshments were served.

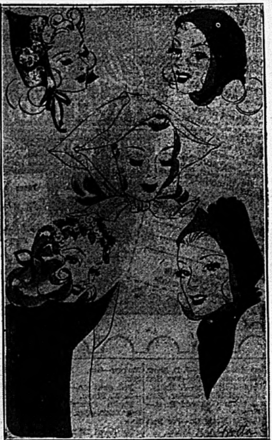
## Coiffures Under Cover



By PRUNELLA WOOD

All of the season's hoods aren't attached, as today's sketches prove. Gay bits of velvet, net and jersey keep curls pampered and ear-tips warm while you ski, sit in a stadium or motor along to the dance. In the centre is a Breton headdress of silk net with hand chenille dots, one of many clever ideas from a designer who's presenting a new line of accessories for all hours.

## Weddings

### WILLIAMS—PATTERSON

An interesting wedding was held in Carmel United Church, Wednesday afternoon, when Miss Ferne Patterson, daughter of Mr. and Mrs. John B. Patterson was married to Mr. Donald G. Williams, son of Mrs. A. H. Maguire and the late Henry Williams. Rev. W. R. Merrick of Selby, officiated assisted by Rev. Adam Armstrong. Miss Bernice Robinson played the wedding music.

Masses of green ferns and gladioli in pastel shades, formed an effective background for the bridal party. The bride was given in marriage by her father, and she wore a graceful gown of white Chantilly lace made in French bolero style, with sweetheart neckline and long sleeves tapering to points over the wrists. A coronet of orange blossoms, held in place her long veil, of imported net appliqued with white satin. She carried a shower bouquet of white roses.

Miss Doris Williams, sister of the groom, was maid of honour, in a frock of turquoise blue, embroidered net. The junior bridesmaid, Miss Nama Sine, cousin of the bride, wore pink silk net over taffeta. They wore pink and blue floral headdresses and carried nosegays of pink roses and cornflowers.

Mr. Glenn Patterson, brother of the bride, was groomsman and the ushers were Mr. Jack Williams and Mr. Douglas Brenton.

The reception was held at the home of the bride's parents. The bride's mother received in a gown of embroidered blue sheer, with large matching hat and corsage of sweetpeas. The mother of the bridegroom was gowned in navy triple sheer, with matching hat and corsage of Talisman roses.

Later, Mr. and Mrs. Williams left for a motor trip through the Adirondacks to New York. For travelling the bride wore a bottle green crepe frock and green coat, with matching felt hat and japonica accessories.

## THE GLASS SLIPPER

By Mignon G. Eberhart

"I'm afraid," she said. "I'm afraid of this house. I'm afraid of every—shadow and every sound, I'm afraid when the door opens; I think I'll die during that split second when I see the door's about to open and can't see yet that it's just a policeman. Or someone I know...."

Brule held her for a moment, her cheek pressing against his hard shoulder.

"Someone you know. That's the hellish thing about it," he said in a queer voice.

And then he spoke of the charts. "Rachel had Crystal's charts," he said coolly. "She told me so today. It was a silly thing, her taking them: not intentional on her part. She took some magazines from the room when she cleaned it after Crystal's death and accidently carried off the charts too. When she discovered them she just put them away somewhere in her room, intending, she said, to destroy them if no one asked for them. And she forgot them. Until police inquiry began; she didn't know what to do then—she was afraid to destroy them and afraid not to. Afraid above all things to admit to the police that she knew anything. She finally came to me and told the truth; I gave her fits; she'd got that awful green stain on her hands and was terrified. She cried and went to get the charts. Then I had to go to the hospital. Now the charts are gone from her room. Rue, I—didn't tell the police I knew she had them; it would have made no difference, and I—I've got to be free for a few days."

She felt herself stiffening a little in his arms. But she didn't question. And didn't say, I knew; but I didn't tell them either.

He rose.

"Go to bed," he said brusquely. "Tomorrow's another day."

And it was the next day that the police found the thing that destroyed Steven's alibi.

Angel himself brought it to Rue shortly after breakfast. They had found, hidden in the garden, a broken victrola record, and he put together the pieces so Rue could see the red centre with the title on it in gilt.

"Arabesque at Night," played by the composer, Steven Hendrie.

Angel questioned her.

"The day Julie Barder died, according to your testimony, Hendrie was at his piano in his studio?"

"Yes."

"Do you know the name of the piece he was playing?"

"Yes—" Words died in her throat, and she pointed to the broken pieces.

"Are you sure he was playing the piano? Might it have been only his victrola? Could you tell the difference at this distance?"

"I don't know...."

"He could have been away from the room as long as five minutes; it's a large record. And still you would have heard the sound of 'Arab—' whatever this piece is called. Isn't that right?"

"Y-yes. Except—"

Except Steven wouldn't have done it. Not Steven.

"These broken pieces were hidden purposedly. And there would be only two purposes. One would be an effort to hide the fact that such a record existed. And there's only one reason to wish to hide such a fact from the police." He looked at her out of ice-blue eyes and said: "I may as well tell you the truth, Mrs. Hatterick. If we hadn't found this broken record you would have been arrested this morning."

It left her feeling a little numb; it was something she had so long expected that when it came there was little sense of realization.

### CHAPTER TWENTY-NINE

"What does Steven say?" Rue asked.

Angel answered directly and, she thought, honestly.

"He says the record's been broken for some time. Says it was in the book of records and he'd forgotten it was broken. Then the question of his alibi came up, and he remembered the broken record and realized that we might find it and believe it had been intentionally broken; it would (instead of proving that, if you heard the piece being played, Hendrie himself was playing it) tend to cast doubt upon it. It would look too pat, in other words, as if he wanted such a proof. So he took it out in the garden and hid it. He confessed to that quite freely," said Angel with a thoughtful look. "Sounded true. Yet — yet suppose the record wasn't actually broken; suppose — look here, Mrs. Hatterick, didn't you say that he had been playing that particular piece for quite a long time that day?"

"I—I don't remember. I've been questioned so much about it. Perhaps I did say so. At any rate, as I remember it, he did play that particular piece quite a lot that day. But it's nothing unusual. It's one of his favorites."

"I looked at his phonograph. It's a radio attachment and it's got one of those automatic things on it, so he can play several records without anybody having to change or turn it on and off. Thus for at least twenty minutes or so there could be continued sound of music —piano records—and actually no one near the phonograph. There would have been plenty of time for him to leave the studio, see the girl Julie Garder, induce her to take a drink of something with the poison in it and return to the studio, and no one would be the wiser."

"But Steven — why should he murder Julie?"

"He's engaged to Miss Pelham," said Angel obliquely. "There's another thing, Mrs. Hatterick. The bartender who claims that Julie Garder came into his place and had a drink—"

"Yes."

"We've arrested him. He turned out to be a fellow that's wanted for theft. It's the reason why he tried to evade the whole thing; he didn't want any attention from us at all. It was only a chance remark of his to the bus boy that led to our questioning him; he would never have come forward himself. The last thing he's inclined to do is be of any help to us. So far he's not managed to remember who came into the restaurant with the girl. But I think he will remember —soon. We have ways of sharpening memory," said Angel simply.

(To Be Continued)

Slim young things will go for the velveteen reefer with back fullness. Done in black and in rich reds and browns these reefers have very slim fitted fronts with fullness in back below the waist.

It looks like a great year for costume jewelry this winter. Beautiful jeweled flower pieces and elaborate earrings matched with a piece to be worn on coat lapel or dress bodice are being featured.

## Burkitt Family Holds Re-union

On August 22, 1939, the descendants of the late Christopher Burkitt and Grace Checkley, numbering about 150, met at Searles' Beach, Oak Lake, for their first reunion.

Tables were set and a bountiful dinner was served after which a short programme was given.

The officers elected were as follows:—President, David Burkitt, Stirling; Vice-President — Christopher Burkitt, Springbrook; Secretary—Jean Thompson, West Huntingdon; Treasurer— George E. Thompson, Springbrook; Press Reporter — George Williams, Springbrook; Programme Committee — Mrs. Burton Bateman as convener; Sports Committee— Harry Thompson, John McInroy, Chris. Burkitt, Charlie Burkitt; Historian—Mrs. A P. Williams, Springbrook.

Impromptu speeches were given by several members— George E. Thompson, Warden of Hastings Co.; Mr. Wesley Thompson, Teeswater; Mr. Ira Switzer, Omemee; Mr. Chris. Burkitt, Springbrook.

Mrs. A. P. Williams gave the history of the early Burkitt ancestors.

Mrs. James Seymour, Peterboro, spoke briefly regarding ancestral remembrances.

The date chosen for the next reunion was the first Tuesday of August 1940.

The results of the contests were as follows — Person from greatest distance — Bruce Burkitt, Baltimore, Maryland; youngest person present —Marybelle Reid, Springbrook; oldest man present—Mr. Sam McComb, Springbrook; oldest woman present —Mrs. Sam McComb, Springbrook; newest married couple— Mr. and Mrs. Harry McAdam, Stirling; oldest married couple—Mr. and Mrs. Sam McComb, Springbook; largest family present—Mr. and Mrs. A W. Reid, Springbrook; Couple with largest number of grandchildren present—Mr. and Mrs. D. Burkitt, Stirling.

### Races

1 to 6 years — contestants given candy; 7 to 12 years, girls—Lois McGee; 7-12 years, boys — Roy Lough; 12-15 years, girls, —Della McMaster; 12-15 years, boys, Roy Lough; 15-20 years, girls, — Marjorie Richardson; 15-20 years, boys — Douglas Richardson; Married Women's race— Mrs. George Williams; Married Man's race—Charlie Burkitt. A peanut scramble was held for the children.

The following is the address given by Mrs. A. P. Williams.

### The Burkitt Family

There were eight children descended from our pioneer grandfather and grandmother, Christopher Burkitt and Grace Checkley, namely, Betsy, John, Francis, Susan, Christopher, Grace, George, Hannah.

When we think of the wonderful fortitude and cheerful disposition of that pioneer grandmother giving up the luxuries and comforts of her girlhood life for the hardships which sent her husband to an early grave, we feel we could worship her as a saint.

On landing in Canada between the years 1820-1826, they settled in Elisabethtown, north of Kingston, where John was born. They came of course by sailboat and had a rough three months' voyage in which grandmother nearly lost her life. Betsy was born at sea during this voyage. Grandfather was a merchant and owned a large store for those times and had many valuables from the Old Country. They had a fire and everything they had was lost. There were no banks in those days and their money was lost as well. They barely escaped in their night attire. They next settled in Hillier Township in Prince Edward County, where their other six children were born. Grandfather had lost his health and when the children were grown they came to Hastings County, some settling in Rawdon Township and some farther north.

Our great grandfather was sent from England to Ireland on a government position. He had charge of a tower on the coast of Donegal, signalling vessels and detecting smugglers and had several men in his employ. He also owned a large estate in Ireland.

Grandfather had one sister, Susan, in Canada. They settled in York, now Toronto. Grandmother had one brother in the West Indies, who owned a plantation and a large number of negro slaves. She visited him before she was married. In fact I have been told that she crossed the ocean five times—some record for sail-boat sailing.

After the death of grandmother's parents she lived with a brother at Oxford. He was principal of a boarding-school as well as a teacher. That institution is now the famous Oxford University and some of the Checkley text-books are still authority on certain subjects.

Grandmother taught French in the institution. She belonged to the Hunt Club and would ride with her friends and the hounds in the hunt. The ladies often came back with torn riding habits —fences never stopped them in the hunt.

One, and I think two of grandmother's brothers were English Church clergymen. There is still a fine picture of the late Rev. John Checkley in his clerical dress in the home of one of his great, great nieces, Mrs. Fred Heath, Hilton, Ont. After 125 years it is still in excellent condition. That, I think, is a long enough history of our ancestors' great adventure.

I would just like to say to our young people here, you have a great heritage to live up to and do not mistake the glitter for the substance. It is easy to follow the path of lease resistance but let us be strong in the Lord and the power of His Might and be able to say "Faith of our Fathers living still "We will be true to Thee till death."

# Belleville Fair's "Sun Sets In Aura of Exhibition Glory" as Third Day Attracts 7,000

### Near - Record Gathering Pays Parting Tribute To Fine Show and Directors

### WEATHER BRILLIANT

### Wm. Marsh, Brighton, Winner of Automobile With Ticket No. "F-42.148"

Going down in a blaze of entertainment and exhibition glory against a sky colored with the azure blue of financial success, the brilliant sun of the 1939 Belleville Fair slowly sank over the horizon of its allotted time last night while another near record crowd of 7,000 fun-satiated and thrill-filled patrons watched its departure with regret.

Along the sidelines stood a crowd of tired but happy directors. With justifiable pride they watched the results of their handiwork, react with startling effect upon thousands of people, true representatives of a crossroads of this section of Ontario gorged with the delights that only the best exhibition staged in the Fair Grounds for the past decade, can give.

Their experiment with a "three-day" fair was undoubtedly a success. "Leave the table hungry, and you will appreciate the next meal all the more", one sagely suggested. "It's just right, commented another From all sides were heard laudatory comments not only on the fine exhibits, outstanding livestock, poultry displays, and superb entertainment, but on the fine response of the rural and urban populations of the district to an effort that repaid its originators ten-fold in satisfaction of a work well-done and in all probability in a financial way.

**Another Large Crowd**

Last night was merely a repetition of Wednesday night when an all-time record of box-office admissions for the local fair was established. The same-fun-loving, thrill-seeking populace was there. It went through the same emotions, the same gestures, and was in the same appreciative mood that characterized that of the night previous.

It paid distinct direct tribute to the many splendid attractions offered for is amusement, education, and general edification, while by its very presence, it placed a gay feather in the figurative caps of President Earl E. Bonter and his hard-working associates of the Fair directorate.

And to the further credit of that body of men it must be said that there was no let-down to the exhibits or entertainment that featured the first and second nights. Nothing was removed. The whole fair in its entirely was there, until the last person had passed wearily homeward through the park gates.

Nor was the large attendance in a mood different to that of its predecessor. It thronged the Midway, the livestock exhibits, the exhibition buildings and again it jammed to capacity the grandstand, bleachers, and temporary seats that filled the race track from grandstand to stage platform.

**Audience Appreciative**

It cheered to the echo the superb stage performance enacted by the sensational artists of Billy Gardens Revue. It paid tribute to clever performers, laughed hilariously at the comedians, gasped with delight at the bevy of beautiful dancing girls and thrilled at the daring acts of clever trapeze performers, tumblers, acrobats and other outstanding acts that made the whole, one of the best entertainments of its kinds seen here in a decade.

Barbara Read (Canadian actress) and Allan Lane in "The Spellbinder" at the Belle.

And it was possessed of that love of chance that is inherent in all human beings. Its joyous hum of conversation stopped and an almost unbelievable silence fell over the scene when Master of Ceremonies Billy Garden held up a ticket drawn from the drum which entitled its owner to the new Nash automobile, the second and last to be given away by the directors.

**Moments of Suspense**

It held its breath as it scanned feverishly its thousands of tickets in the hope that Lady Luck might smile. People sighed with disappointment, then with ever-present curiosity, turned with enquiring eyes as a lady announced the ownership of the ticket. But they cheered when the lady in question admitted a mistake. And a few minutes later it cheered again when William Marsh, middle-aged railway section-foreman of Brighton produced the second ticket drawn "F-42-148" and was formally adjudged the winner of the car.

Then in a gesture characteristic of the sportsmanship that stood out the night previous when Mrs. Joseph Phillips, Belleville, was presented with the first car, they gave themselves up to an orgy of ticket-throwing that was the delight of the crowd in general and the despair of the grounds caretaker in particular.

Like a miniature snowstorm thousands of tickets, were thrown high in the air. People whooped and laughed like schoolboys out for holidays. And in a few minutes the ground near the grandstand was white with stubs, emblematic of disappointment and blasted hopes, but also of true sportsmanship.

Satisfied, they left the grandstand to linger long in the brilliantly lighted aisles of the Midway, and it was a late hour before the last of the fair-filled crowd drove or walked with lagging gait through the gates of the park.

**Afternoon Crowds**

Yesterday afternoon diversified program attracted another large crowd that watched with keen zest the thrilling horse-races, parade of handsome equines that were judged in front of the grandstand, inter-club demonstrations, and the many other attractions that were provided for it. Midway and grandstand were well patronized as were the exhibition buildings.

The weather-man as if cognizant of the efforts of the directorate to provide for Hastings and her sister counties one of the best exhibitions in years, co-operated to the fullest extent.

Brilliant harvest weather, with warm suns tempered more or less with gentle breezes and clear moonlit nights that graduated to the right degree of coolness featured the entire three days of the fair. The natural setting was perfect. The large crowds were good-humored and orderly. There were no untoward incidents.

A general spirit of co-operation, paced by the weather gods permeated exhibitors, exhibits, patrons, entertainers and directors. Everything went on without a hitch. There were no delays at any time and the result was that Belleville and its environs, both near and far enjoyed and appreciated the finest Autumn Exhibition that has been seen in these parts for many a year.

STOMACH PAIN
Gone in 24 Hours

Stomach upset and pain after eating are danger signals which often lead to more serious trouble. Immediate relief is usually obtained in such cases from Maclean Brand Stomach Powder, whose four powerful alkalies neutralize excess acid, stop pain, protect the stomach lining against injury, and aid elimination of the fermenting waste. Read what Mr. V. S. says: "Recently I was attacked by indigestion and dyspepsia. Maclean Brand Stomach Powder relieved me of pain within 24 hours." Take it at the first hint of stomach distress. Be sure to ask for Maclean Brand Stomach Powder, which is only genuine if the signature "*Alex. C. Maclean*" appears on bottle and carton. It is not sold loose, but only in bottles in cartons, of powder or tablets—at druggists—75c; family size, $1.75. 136

# FRENCH GOV'T

*(Continued From Page One)*

The general mobilization meant that every able bodied Frenchman would be called to the color. Experts estimated this would place 8,000,000 under arms.

About 3,000,000 already have been called by individual notice and it was understood the first day of the general mobilization' was put off until tomorrow to permit the clearing out of the men already on the march'

Premier Daladier was expected to reorganize the cabinet, creating a new national ministry.

**Parisians Calm**

Parisians maintained calm. The French capital, although partly evacuated in response to previous government requests, was still teeming with people, the downtown streets crowded.

Dispatches said Warsaw, Krakow, Gdynia and other Polish cities had been bombed as the Germans pressed their offensive. The Polish Ambassador was talking by telephone to the foreign office in Warsaw at the time bombs were reported dropping.

Two German armies were reported here to be striking swift, hard blows toward the heart of Poland in an apparent effort to pinch off the Corridor before the French and British war machines could be brought into action.

**Moving Two Ways**

While German warplanes dropped bombs on Polish cities, one German army was reported striking southwest from East Prussia and another moving northeastward from German Silesia. The apparent objective was to form a junction a few miles west of Warsaw, cutting off virtually the western third of Poland which borders on Germany.

German strategy has long been considered to depend upon a quick conquest of Poland, proclaim the situation is under control and then ask Poland's allies what there is to fight about.

Reports reaching here said the army attacking from East Prussia was fanned out in the direction of Dzialdowo, Mlawa and Ciechanow. Ciechanow, the southernmost of these objectives, is only 75 miles north of Warsaw, midway from the German frontier.

**In Mining Area**

The Silesian army was reported advancing into the rich Polish mining area surrounding Czestochowa in southwestern Poland. At the same time, reports reaching Paris said German divisions spread out along the Slovakia-Polish frontier were feinting heavily in order to hold an estimated 100,000 Polish troops out of the main campaign.

There was no news reaching Paris to indicate what resistance was being put up by the Poles or what success was attending German efforts.

It was announced here, however, that the German plan for a "lightning war" called for German troops to make a spectacular advance before the French parliament can meet tomorrow.

**No Overt Acts**

Military observers in Paris do not believe Germany will make any overt acts against France or Britain for the moment, preferring to force them to attack along the Rhine frontier. It was not believed, either, that Germany would make any effort to draw Italy into the conflict until such time as France and Britain are definitely involved.

When news of the French order for general mobilization reached the Bourse, French stock traders virtually suspended operations by tacit consent. There was no formal closing order. The news became known about the end of the first hour of trading and groups of specialists quietly left the floor together. When operations halted, the entire list had dropped sharply on news of fighting between Polish and German troops.

# PRIME MINISTER

*(Continued From Page One)*

**Allow Six Days**

In allowing only six days for members to get to Ottawa the government's action contrasted with that taken in 1914 on the outbreak of the Great War when 14 days were allowed. Improvements in communication and transportation made shorter notice possible.

As in 1914 it is expected the special session will be short and entirely devoted to government business. Rules of the House providing for introduction of resolutions and bills by private members are expected to be suspended. The staff will be of a skeleton character and only sessional employees residing in or near Ottawa would be called.

**Special Sessions Unusual**

Special sessions are unusual in Canada. The most notable one was on the outbreak of the Great War. It was called on Aug. 4, 1914, for Aug. 18 and continued until Aug. 22.

All formalities and frills were dispensed with and such will probably be the case next week. The Governor-General, the Duke of Connaught read the speech from the Throne in a khaki service uniform instead of the customary dress uniform and, on the first day the War Measures Act was enacted.

This clothed the government with extraordinary powers for the duration of the war but its enactment will not be necessary this time as it remained on the statute books since. The Prime Minister has indicated the act would be used again once war started.

The second day a special budget was introduced to provide money for the cost of the war and the rest of the session was devoted to consideration of this and other government business.

The only recent special session and the only other of note was held in 1930 to deal with unemployment, just after the election of the Bennett government to office. It met from Sept. 8 to Sept. 22.

**Premier Informed**

News despatches provided by the Canadian Press to the Prime Minister's secretaries kept Mr. Mackenzie King informed of the swift march of events in Europe in the early morning. His offices and those of the External Affairs Department were busy shortly after dawn.

The Prime Minister drove to Parliament Hill from his summer home, Kingsmere, in the Gatineau hills of Quebec just across the Ottawa river, before eight a.m., and went immediately into conference with his aides of the External Affairs branch who had been busily decoding diplomatic advices from abroad.

Questioned as to whether the Canadian parliament would be summoned, officials in the Prime Minister's office said there would be no statement on that point until after the cabinet meeting, as cabinet alone could decide that point.

**Watch Events Closely**

The National Defence Department's highest officers watched the trend of events closely. Defence Minister Mackenzie said, however, he had no statement to make at the present time on what further steps would be taken to protect Canada's internal security. Such measures would be instituted by the entire cabinet, he said.

The department has already made preparations to protect Canada from attack. Soldiers on sentry duty with fixed bayonets patrol such vulnerable points as bridges, canals, harbors, airports, radio stations and industrial plants. Coastal artillery batteries have been fully manned, and defences on the Atlantic coast have been strengthened both by the addition of anti-aircraft guns, men and a number of air force units from various parts of Canada.

**Co-operation Asked**

Whole-hearted co-operation and support of the government during the present international crisis is the keynote of the Canadian Legion, and the organization urges this attitude on all "good citizens" according to a message issued yesterday by Brigadier W. W. Foster of Vancouver, Dominion President of the Legion.

Brigadier Foster recalls that "the preservation of democratic principes is the sole and only reason for the existence of the crisis" and emphasizes the co-operation which the legion has already extended to the government regardless of political complexion.

## Stop Press Bulletins

**GERMAN EXHIBIT CLOSED**

Toronto, Sept. 1—(CP)— The German exhibit in the International Building at the Canadian National Exhibition closed down today. Officials at the booth said it would remain closed "until this thing blows over." A large crowd gathered about the exhibit this morning as early C.N.E. visitors talked of nothing else but Germany's invasion of Poland. There was no demonstration.

**SIREN HOWLS IN GERMANY**

Berlin, Sept. 1—(6:57 p.m., 1:57 p.m. EDT)—Warning air raid sirens howled through Berlin tonight announcing the advance of enemy warplanes. The populace immediately rushed to cellars and other protective shelters.

**RAILROADS TAKEN OVER**

London, Sept. 1—(CP)—(Passed by British censor)—The Ministry of Transport today took over British railroads.

**PARLIAMENT APPROVES BILL**

London, Sept. 1—(CP)—(Passed by British censor)—The House of Commons today approved a bill providing £500,000,000 ($2,110,000,000 to prosecute war, for defence and for maintenance of public order.

## Read

READ — Mr. and Mrs. Dominic Tight of Windsor are visiting relatives and friends.

The entertainment held at Read Parish Hall Monday was well attended.

A number from this vicinity attended the reception dance at Marysville hall for Mr. and Mrs. Anthony Craigen.

Mr. and Mrs. Jack Chapelle, Belleville, and Mr. and Mrs. O'Brien visited at Mr. and Mrs. Pat Mullins' Sunday.

Mr. and Mrs. Thos. McGurn of Marysville were Sunday visitors at Mr. and Mrs. Arthur Shannon's.

Mr. and Mrs. Paul Courneyea of Tweed visited in this locality on Sunday.

## Deseronto

Deseronto— No tomatoes will be canned at the local factory this year. This is the first time in many years the factory has not operated. Each year a large number of local people have obtained employment during the canning season and this year the work will be greatly missed. As far as can be learned the factory expects to be in operation next year.

A marriage of much interest to the residents of this district took place in Toronto, recently, when Miss Gladys M. Huffman, daughter of Mr. and Mrs. Walter Huffman of Napanee, became the bride of William Andrew Joyce, son of Mr. and Mrs. Wesley Joyce of Deseronto.

### Personals

Mr. Carscallen has returned home to New York after visiting relatives in town.

Mr. James Smith, manager of the local branch of the Canadian Bank of Commerce accompanied by Mrs. Smith and children is spending his annual two weeks' vacation at Wasaga Beach.

Mr. Charles Warren and son, Desmond of Brooklyn, N.Y., are holidaying with their cousins, Mr. Thomas Warren and Miss Lena Warren.

Mr. and Mrs. Charles Blake and daughter, Marion, were in Ottawa last week.

Mrs. G. E. Elliott is visiting in Toronto.

Mr. Hilliard Toppings of Brockville is spending his holidays with his parents, Mr. and Mrs. T. W. Toppings.

Mr. and Mrs. I. Allum and Miss L. J. Warren and Mr. T. J. Warren spent the week-end at Peterboro.

Mr. and Mrs. Leo Culhane of Toronto, have returned home after spending a short time in town.

Mr. and Mrs. G. M. Campbell, who have been spending the summer at North Bay with their daughter, Mrs. Coulter, have returned to their home.

Sympathy is extended to Mrs. T. J. Naylor in the loss of her brother, Mr. William H. Coates, who passed away suddenly at his home in Napanee.

Miss Margaret Field has returned home after visiting with her brother, Mr. Frank Field and Mrs. Field at their summer home in Teeswater.

Mr. F. Brennan is visiting in Sudbury, the guest of his sister, Mrs. Robert Orange and Dr. Orange.

Rev. A. D. Waite has returned home from the Kingston General Hospital and is somewhat improved in health.

The condition of Mr. Charles Knight, Sr., who suffered a stroke one day recently is as good as can be expected.

Miss Jeanette Kirkwood of Quebec, is the holiday guest of her cousins, Misses Mary and Matilda Laverture.

Miss Fanny Ready of Toronto, is the guest of Miss Mary Dowling.

Mrs. Allan Cornwell and daughter, Eldorado, of Toronto, spent a day recently with relatives in town.

Mr. Paul Brennan spent the week-end with his parents, Mr. and Mrs. C. J. Brennan.

Mrs. Alcombrack of Napanee, and Miss Clara Beyette are visiting with relatives in Toronto, this week and are also attending the Canadian National Exhibition.

Mrs. Frank Smith and children of Picton, spent a few days with her mother, Mrs. Michael Gartland.

Miss Eastman of Ottawa is the guest of Mr. and Mrs. Robert Miller.

Mr. and Mrs. William Dowling of Detroit, are visiting with relatives on Deseronto Road.

Mr. and Mrs. E. Poste have returned home to Rochester after visiting the former's mother, Mrs. Poste.

Mr. and Mrs. Edward Smith of Toronto, spent a few days in town.

Mrs. Webster and grandsons of Toronto are spending some time in Deseronto.

Mrs. Barney Barnhart of Belleville, is visiting friends in town.

Mrs. Michael Gartland and granddaughter, Miss Noreen Gartland has returned home after visiting in Picton with the former's daughter, Mrs. Frank Smith.

## POLICE COURT

In the absence of a presiding magistrate, His Worship Magistrate E. J. Butler K.C., was called from his vacation today to hear several cases listed for trial.

Bruce Jones, Belleville, was fined $25.00 and costs after pleading guilty to a charge of failing to remain at the scene of an accident. The accident in question happened on Albion Street recently, when a car collided with a telephone pole breaking the pole off at the base. The motor vehicle was abandoned at the time. A jail term of one month was imposed in default of payment.

Five men appeared on charges of intoxication, two of which supported badly discolored optics. All pleaded guilty as charged and only one intimated his willingness to pay the assessed fine.

"By any chance were you two in the same argument?" Crown Attorney asked of the two men who were trying to shade their blackened eyes. There was no response to the Crown's query.

"It was a hot day and I was only going to the station to meet my family," pleaded a local motorist who was convicted of the failure to produce his driver's licence. A fine of $2.00 and costs was imposed. "I had my licence in my coat", added the chagrinned driver as he paid the fine.

William Zachariah, 24 and Mrs. Louise Johns, 27, two Prince Edward County Indians, appeared on charges of the theft of a purse, the property of Mrs. Frank Elliott, Foundry Street. The accused pair pleaded guilty and were remanded in custody for sentence.

Police stated the accused pair were visiting the home of Mrs. Elliott and stole her purse containing $9.05. Later the purse was recovered in an adjacent barn, where it had been tossed away in the discard. There were eight one dollar bills found in the abandoned purse.

"That's a fine thing to do. Steal a purse and throw both the purse and the money away", commented Crown Attorney Donnan.

## Police Blotter

City police yesterday recovered a radio, which was stolen from Patterson's service station, bay bridge road late last week. The radio had been exchanged for a battery charging set. Police are now seeking the person who made the exchange and today revealed they were in possession of information that might prove valuable in the case.

K. J. Hearns, Montreal commercial salesman, reported his automobile had been broken into and robbed some time last night. Two shirts and some candy samples were stolen. The vehicle was parked near a west hill tourist residence. Police are investigating.

Provincial Police at Bancroft today reported the theft of a green colored 1935 Ford sedan bearing licence plates 43-M-4.

Twelve-year-old Roy Palmatier, 112 1-2 Cannifton Road., sustained a lacerated leg and bruises after he ran into the side of a moving automobile and was knocked down on Front St., late yesterday afternoon. The motor car was driven by James Bronson, Corbyville, who informed P. C. Arnott upon his investigation, that young Palmatier had stepped out from behind a line of parked automobiles on Front St. directly into the right front fender of Mr. Bronson's moving car. Police attached no blame upon the driver, who stopped and rendered all assistance possible.

## CARD OF THANKS

Mr. and Mrs. Geo. Fordyce and family wish to extend their sincere thanks and appreciation for the many acts of kindness shown them during their recent bereavement. s1-1t

## Local Interest In European Crisis Reaches High Pitch

Local interest in the European situation that has been at a high pitch during the past few days reached its highest point today when news of the German invasion of the Polish border flashed over the wires.

Bulletins posted outside the office of The Ontario Intelligencer attracted crowds all morning, eager for the latest news from the seat of war. Men, women and even small boys read the bulletins avidly while the appearance of fresh news was the signal for a crowd to gather about the boards even while the bulletins were being posted.

Telephones rang intermittent all day bringing queries from anxious inquirers.

Business along Front Street and other thoroughfares was visibly affected. The usual morning parade of pedestrians, shoppers and others was noticeably lower. Shops, stores and offices were "quiet" according to information given by those in charge.

There was a tense undercurrent interest in the city. People in the main chose to stay home near a radio in order to get the latest word from the scene of hostilities. Those who did venture out stood in small groups in stores or on the pavement conversing in low tones. A blaring radio from store doorways was the signal for a general move on the part of pedestrians to that particular spot.

People generally appeared to be deeply concerned. But no visible signs of nervousness were noticed. England's part and Canada's part as well as that of France and other democratic nations was a popular topic and one that if anything took precedence over actual war that is in progress.

## WALL STREET

New York, Sept. 1 (AP)—Fears of a general European war, following the start of fighting between Germany and Poland, hit the stock market today and blasted down leading industrials one to seven points before support arrived.

Prominent losers included Chrysler, General Motors, U.S. Steel, Bethlehem, U.S. Rubber, American Telephone, Loft, Great Northern, Westinghouse, DuPont, Johns-Manville, Eastman Kodak and Montgomery Ward. Sliding in the curb were American Cyanamid "B", Electric Bond and Share, Gulf Oil, Niles-Bement-Pond and Lockheed.

Dominion 4s dropped around 2 1-2 points in the Bond market. Losers of one to more than three points in the share list included Dome, Lake Shore, Hiram Walker and Distillers.

## TORONTO STOCKS

Toronto, Sept. 1—(CP)— Early afternoon action today on Toronto exchange saw another retreat of prices, erasing most of the noon recoveries.

Turnover of 485,000 shares resulted chiefly from liquidation of golds. Lake shore and Dome lost a point or more and recessions of 30 to 50 cents were boarded by Wright-Hargreaves, Macassa, East Malartic, Buffalo - Ankerite and Little Long Lac.

Noranda dropped about 4 points, Smelters 2 and Nickel recovered an early loss chalked up a net gain. Home, Calgary-Edmonton and Royalite were the weakest of western oils.

Losses up to 2 to 3 spotted industrial groups. All interlisted leaders declined sizeable fractions to a point and in the department about 20 new lows for the year were boarded. Bell Telephone and some of the banks were down $5 or more.

## HOG QUOTATIONS

Toronto, Sept. 1 (CP)—Hog prices in Stratford and London rose 25 cents to $9.75 for dressed-weights, reporting markets showed today. Hamilton and Brantford prices held at yesterday's level.

Dressedweights: .Hamilton $10; Brantford $9.80; Stratford $9.75 plus transportation. London $9.75 plus transportation.

# *Produce Market Still Dull*

Toronto, Sept. 1—Europe's uncertain state of affairs continued to limit trading to small volume on the Toronto open produce market yesterday. Cautious buyers were hesitant to bid for offerings, and eggs and butter drifted downward. Cheese was unchanged.

Receipts of Ontario butter were again light. Only odd lots were sold, and trading was barely sufficient to establish real prices. First-grade Ontario creamery solids eased to a range of 21 1-4c to 21 1-2c lb., with undergrades ranging from 19 1-2c to 20 3-4c. Western butter sold at 21 3-4c.

Lack of interest in eggs, along with a moderate increase in offering, caused a mild accumulation, the Dominion Department of Agriculture reported. In the ungraded section, A-large eggs declined one cent to 24c and A-medium to 23c. Prices to retailers slipped to 29c for A-large and 28c for medium. Top grades in the graded section of trading also eased.

**Montreal Produce Holds**

Montreal, Sept. 1.—(CP) — Egg, butter, cheese and potato prices all held steady on produce markets here yesterday, the Dominion Department of Agriculture reported. Egg receipts were in excess of demand, while cheese trading was at a complete standstill.

Job price of first-grade creamery butter prints was 22 1-2 to 23 cents a pound, and of first grade solids, 22 to 22 1-2. Western butter delivered in Montreal was unquoted. Price to creamery of Quebec No. 1 pasteurized butter delivered in Montreal for current make was 21 1-8 and the price of Quebec No. 2 pasteurized butter was 20 1-8. Receipts, 2,012 boxes.

Price to factory of Ontario white and colored cheese delivered in Montreal for current make was 10 13-16 to 11 3-16. Quebec white and colored were both unquoted. Receipts 2,186 boxes.

Graded-egg shipments in used free cases, inspected, were offered at 28 cents a dozen for A-large, 26 for A-medium, 21 for A-pullets, 20 to 20 1-2 for B-large, 14 1-2 to 15 for C. Uninspected lots were offered at 1-2 cent less. Receipts, 2,147 cases.

# Schoharie

Schoharie ..Ac kd Audrya

Schoharie— Mrs. Burton Hobson spent Wednesday of last week with Mrs. Ralph Warren, Picton.

Mr. and Mrs. Roy Longwell and Douglas were Sunday guests of Mrs. Mildred Benson.

Mr. and Mrs. Walter J. Fallows and sons, Walt and Richard of Philadelphia and Mr. Geo. Pierson of Syracuse and Mrs. A. Tobey of Picton were dinner guests of Mr. and Mrs. George Hobson on Thursday evening.

Mr. and Mrs. Harold Cahoon entertained at a family dinner on Sunday the guests included Mrs. (Dr.) Borden Grainger and two children of New York, Mr. and Mrs. Arthur Cahoon, Mr. and Mrs. Finlay McArthur and Mr. Milton Vandusen of Picton.

Mr. Burton Hobson spent the dinner and tea hour with his parents, Mr. and Mrs. George Hobson on Wednesday last.

home on Saturday evening after spending the past two months at Lakeland.

Mr. and Mrs. J. A. Thompson and two children returned to their home in Toronto on Friday after spending the past two weeks with Mr. and Mrs. Harold Walters and also at Kingston, Sydenham, Bloomfield and Consecon.

Mr. and Mrs. Carmen Hobson entertained Mr. Geo. Pierson of Syracuse and Mr. and Mrs. Walter J. Fallows and two sons, Walt and Richard at six o'clock dinner on Friday evening.

Mr. and Mrs. Burton Baxter spent the week-end in Toronto.

Mr. and Mrs. Harold Clarke and Mr. and Mrs. Blondin Clarke spent the dinner hour on Sunday with Mrs. Annie Young of Picton.

# Special Prayers Offered For Peace in Tweed Churches

Tweed—Special prayers were offered in Tweed churches on Sunday that a peaceful solution might be found to the European situation.

At the United Church Rev. H. L. Morrison in his address, based on the Scriptural passage "God also is Wise", painted a picture of Adolf Hitler as a man of genius who in twelve years had risen from obscurity to the place of greatest power in the world today. In spite of his genius Hitler is not a great man. A great man would not treat lightly his word of honour and solemn pledges given to others. Nor would he have been guilty of the ruthlessness and cold-bloodedness of which Hitler has been guilty in his treatment of the Jews.

Other leaders have been guilty of the error of failing to take God into account. The case of Napoleon was cited. He said that God is only to be found on the side of the strong. After he was brought down in defeat he admitted that he had made a mistake.

History teaches us that liberty, honour, truth and righteousness cannot be treated lightly and cast aside. The nation which does so is certain to be brought down by these mighty forces.

We (democracies) have one resource which they (dictator countries) have not. We have our faith in God which they who place their sole trust in their own might have not. Back of man's frailty stands the infallibility and wisdom of God which gives us the faith to face whatever the hours may bring forth.

Misses Cora and Lucy Grant of Toronto, are holidaying in Tweed.

Misses Louise and Elizabeth Graham of Fredericton, N.B., have returned home after spending several weeks visiting their grandparents, Mr. and Mrs. George Graham.

Miss A. Prust, Reg.N., of Orillia, is visiting her parents, Mr. and Mrs. W. E. Prust.

Mr. and Mrs. W. Morris have returned to Tweed from Toronto, where Mr. Morris was taking a special summer course in music.

Mr. Ronald Sayers, son of ex-Reeve and Mrs. W. H. Sayers, left last week for Sudbury, where he has secured a position.

Miss Enid Connor supplied at the organ at Tweed United Church during the past three weeks, during the absence of the organist, Miss Lois Richardson on holidays.

Tweed Citizens' Band under the direction of Bandmaster Wm. Burgoyne gave a band concert in Madoc on Sunday evening.

Dr. and Mrs. Earl Kingston are visiting the former's parents, Mr. and Mrs. J. W. Kingston.

# Cheese Board

Belleville Cheese Board at its regular weekly meeting last evening boarded 2910 white and 124 special colored cheese, but all bids of 10 cents, 10 1-16 and 10 1-8 cents by buyers were refused by factories. All cheese remained unsold. The low bids were a direct result of wildly fluctuating sterling exchange this week, and the inability of Montreal buyers to advance any bid higher than ten cents.

Bids of 10 1-8 cents were registered by Mr. Hunter of local Swifts Canadian and Mr. W. R. McCreary.

A bid of 10 1-16 cents was offered by Mr. James Cook, and bids of 10 cents were offered by Mr. Taylor and Mr. Morton.

The following telegram received but a few hours previous to the meeting by Mr. Fred Mallory, Board Secretary, was read by him to Board members.

"The unsettled international situation and resulting lack of stability in sterling exchange has completely stopped exchange has completely stopped the export cheese business and until the situation is clarified this condition is likely to continue. Stop. In the interests of the industry and hoping the position may be finalized during the coming week, the undersigned merchants tender factorymen on your board tdoay free storage for one week in their respective warehouses at Montreal. Stop. Should, however, any factorymen desire to definitely sell their cheese, the undersigned merchants will pay ten cents per pound, provided this price is publicly accepted on your board today.

Lansdowne, Ont., Sept. 1 (CP)—Boarded 764 colored, 48 white. No sales made; Board adjourned.

# New York Stocks Advance Today

Stocks on the New York market showed a rise of about one point or more today over yesterday's prices and one or more stocks showed as high as four points' advance. It appeared that stocks which might rise as war stocks led the advance followed by other stocks which in no way could be called war stocks. Observers studied the market and in some quarters it was felt as a hopeful sign that holders of stocks were not unloading their portfolios.

The close was just a little below the highs for the day.

# ONTARIO CABINET SESSION CALLED TO ASSIST OTTAWA

### Every Possible Assistance Will Be Given Defence Department

Toronto, Sept. 1.—(CP)—Premier Mitchell Hepburn summoned his Cabinet into special session today to arrange the Ontario Government's co-operation in every possible way with the Defence Department at Ottawa.

The Premier was in communication with Hon. Ian Mackenzie, Minister of National Defence, shortly after midnight and said he received warning then outbreak of hostilities appeared unavoidable. Ontario's anti-sabotage program and its protective force for essential Public Utilities and Industries was ordered operative immediately.

Mr. Hepburn said barbed wire entanglements will be placed around all power plants and guards at these stations will be increased.

"Every possible precautionary measure will be taken," Mr. Hepburn said after a conference with Attorney-General Gordon Conant, Hydro officials and Provincial Police Heads.

"We shall spare no expense".

**Communicate with Quebec**

The Premier said he would communicate with Premier Maurice Duplessis of Quebec to make arrangements for the protection of the Chats Falls Power plant on the Ottawa River. The plant is jointly owned by the Ontario Hydro and a Quebec company. Quebec will also be asked to protect other Quebec plants at which power is generated for the Ontario system.

Assurance was given by the Premier that their jobs would be kept for civil servants enlisting for service. The cabinet would consider whether the families of men so enlisting would receive an allowance from the province.

The special session of the Legislature tentatively scheduled to open Sept. 12 will be held, said Mr. M. Hepburn. Original purpose of the session was to pass amendments to the Succession Duties Act.

"It was considered likely that the House will also be asked to amend the Musicipal Act to give municipalities special powers in regard to expenditures if war should involve Canada.

# Polish President Speaks To Nation

Paris, Sept. 1—(AP)— The Polish Embassy today issued the following statement made by President Ignace Moscicki to the Polish nation:—

"During the night our age-long enemy began an offensive operation against the Polish State.

"In this hour I address myself to all my countrymen with the deep conviction that the entire nation will rally around the Commander-in-Chief of the armed forces to defend its liberty, its independence, and its honor and will give a worthy reply to the aggression, as it has done many times in the history of Polish-German relations.

"The entire nation, blessed by God in the struggle for its holy and righteous cause and in union with the army, will march in close ranks to the fight and to complete victory."

# POLISH ARTILLERY SHELLS BEUTHEN

### German Silesian Town Struck By Shells Without Damage

Berlin, Sept. 1—(CP—Havas) — Polish artillery today began shelling Beuthen, in German Silesia on the Polish frontier according to the German news agency.

The attack was directed against the Beuthen railway station, the dispatch said, and five or six shells fell on the railway embankment, exploding without causing damage.

# England Agrees To Respect Wishes Of The President

Washington, Sept. 1—(AP)—State Secretary Hull announced today Great Britain and France had agreed to refrain from bombing civilian populations in response to an appeal from President Roosevelt.

The President addressed such appeals to the governments of England, France, Germany, Poland and Italy.

Great Britain made her acceptance conditional upon the understanding that all her opponents would also refrain from bombing civilian populations.

# War Measures Act of 1914 Invoked by Canadian Gov't

### Proclaimed By Order In Council At Meeting of Cabinet Today

### WAR-TIME FOOTING

Ottawa, Sept. 1 (CP)—The War Measures Act of 1914, giving the government extraordinary powers to act in emergency, pending the assembly of parliament, was proclaimed by Order in Council adopted at a meeting of the government early today.

The War Measures Act, which came into being in 1914, gives the government wide measures of control over shipping, censorship, trade and commerce, expropriation of private property, transportation and other matters relating to the security of the realm.

It vests in the Governor in Council, which is the cabinet authority to issue orders and regulations which may be deemed necessary during a period of "real or apprehended war, invasion or insurrection." These orders have the force of law and are aimed at ensuring the defence, peace, order and welfare of Canada.

**Subjects Covered**

The subjects covered by the War Measures Act are:

(A) Censorship and the control and suppression of publications, writings, maps, plans, photographs, communications and means of communication;

(B) Arrest, detention, exclusion and deportation;

(C) Control of the harbors, ports and territorial waters of Canada and the movement of vessels;

(D) Transportation by land, air or water, and the control of the transport of persons and things;

(E) Trading, exportation, importation, production and manufacture;

(F) Appropriation, control, forfeiture and disposition of property and of the use thereof.

## CRISIS BRIEFS

London, Sept. 1—(CP)— Winston Churchill called on Prime Minister Chamberlain at 10 Downing Street this afternoon.

Mr. Churchill conferred with the Prime Minister for half an hour and left Downing Street at 3 p.m.

Berlin, Sept. 1—(AP)— Berlin residents cheered at noon today when they sighted a flock of peaceful storks flying over the city at the time guns were booming on the eastern front. Germans consider a flock of storks as a good omen.

Berlin, Sept. 1—(AP)—Methods for the departure of Polish Embassy officials from Berlin were being worked out by a Polish and German Commission this afternoon, a Polish Embassy spokesman said. Ambassador Joseph Lipski still was in Berlin at 2 p.m. (9 a.m. EDT) and the hour of the Embassy staff's departure was uncertain. British and French Ambassadors and their staffs also remained at that hour.

Berne, Sept. 1—(CP-Havas)—The Swiss government today ordered general mobilization.

Wellington, Sept. 1—(CP-Reuters) —Viscount Galway, Governor General of New Zealand, today proclaimed a state of alarm through the Dominion. Peter Fraser, acting Prime Minister, said the proclamation was "nothing more than an obvious precautionary measure."

Berlin, Sept. 1—(AP)—There will be no regular foreign war correspondents at the front in Germany's war on Poland, the army command advised the Associated Press today.

It was announced that groups of correspondents would be taken from Berlin from time to time to such points as Danzig, Gleiwitz, Scnheidemuehl or wherever activities are especially interesting.

London, Ont., Sept. 1 (CP)—Increased activity was noted today at the Department of National Defence headquarters for Military District No. 1, but military officials said no new orders had come from Ottawa. During the night telephone employees installed a switchboard at the headquarters to expedite communication between various points in the district.

# Piff Paff Poofers Pick Paper Headline Year Before Happening

Fort Erie, Ont., Sept. 1—(CP) — Members of the Piff Paff Poofers, magicians' organization scheduled to open a convention here tomorrow, today said the prophetic power claimed by one of their members, Stewart James, Courtright, Ont., was established.

A year ago James wrote on paper his prediction as to what today's streamer line on the Buffalo Evening News would be. The prediction was placed in a steel chest and sealed. The chest was placed in the police department vault.

Today Police Chief A. E. Griffin removed the seals from the chest.

James predicted the streamer line would be: "world war threatened, Germany attacks Poland."

The News' streamer today read: "world war threatened, Nazis attack Poland."

## CHAMBERLAIN'S ADDRESS TO PARLIAMENT

London, Sept. 1—(By radio—A. P.)—The text of Prime Minister Chamberlain's speech:—

I do not propose to say many words tonight. The time has come when action rather than speech is required. Eighteen months ago I prayed that the responsibility might not fall on me to ask this country to accept the awful arbitrament of war. I fear that I am not able to avoid that responsibility. The responsibility for this terrible catastrophe lies on the shoulders of one man.

At any rate, I could not wish for conditions on which such a burden would fall upon me clearer than they are today as to where I stand. (cheers). The German Chancellor has not hesitated to plunge the world into misery in order to serve his own senseless ambitions.

**Could Not Have Done More**

No man can say that the government could have done more to try and keep open the way for honorable and equitable settlement of the dispute between Germany and Poland nor have we neglected any means of making it crystal clear to the German Government that if they insisted on using force again in the manner in which they have used it in the past we will resolve to oppose them by force.

We shall stand at the bar of history knowing that the responsibility of this terrible catastrophe lies on the shoulders of one man—the German Chancellor.

He has not hesitated to plunge the world into misery in order to serve his own senseless ambitions.

**White Paper Published**

The White Paper now published makes it perfectly clear that our object has been to try to bring about discussions about the Polish-German dispute between the two countries on terms of equality.

One passage from a recent communication, dated Aug. 30th, showed easily the final clash might have been avoided had there been the least desire on the part of the German Government to arrive at a peaceful settlement. The British Government most strongly urged that both parties should undertake during the negotiations no aggressive military movement.

The communication says the British Government most strongly urged that both parties should undertake negotiations that no aggressive military movements should take place. The Polish Government replied instantly, on Aug. 31st, saying they will prepare on a reciprocal basis to give the formal guarantee.

**Would Not Violate Frontiers**

In the event of negotiations taking place, Polish troops would not violate the frontiers of the Reich provided the corresponding guarantee was given regarding non-violation of Poland by troops of the Reich.

. . . .

We never had any reply from the German Government to that suggestion, one which if it had been followe dmight have saved the catastrophe which took place this morning.

(The Prime Minister referred to the 16 points broadcast by the German broadcasting system last night and mentioned the fact that that statemen included this phrase:—

In hese circumstances the Reich Government considers its proposals rejected. We must examine that statement: to begin with, these proposals have never been communicated by Germany to Poland at all.

. . . .

# POLICE RESERVES CALLED TO DUTY

### Attorney General Conant To Be On Duty For 24 Hours a Day

Toronto, Sept. 1—(CP)—Attorney-General Gordon Conant today called to duty all Provincial Police reserves. In addition, 500 war veterans were sworn in as special guards. There were 492 guards on duty at noon and the number was being increased hourly, Provincial Police Inspectors in the various districts requisitioned them.

Tomorrow 50 men will be added to the uniformed provincial force. Groups of 50 will be added at five-day intervals thereafter. These men will be divided between special duties and augmenting regular provincial police detachments.

Additional guards were posted today at provincial power plants. Highway approaches to all hydro plants and vital transmission stations will be barricaded.

Mr. Conant has made arrangements so that it will be possible for him to be in his office 24 hours a day.

# GERMAN PLANES BOMBING WARSAW

### Correspondent Sees 14 Bombers Following Course of Vistula River

By LLOYD LEHRBAS
Associated Press Staff Writer

Warsaw, Sept. 1—5:35 p.m., 12.35 p.m. EDT)—(AP)—German warplanes swooped over Warsaw this afternoon in an air attack in advance of three German armies invading this country.

I am telephoning this dispatch to Budapest with the phone in one hand and a gas mask in the other.

From where I am I can hear the wall of fighting ships and can see 14 German bombers following the course of the Vistula river. Apparently they are attempting to destroy all bridges.

The raid began at about 4.30 p.m. (11.30 a.m. EDT) and is still continuing more than an hour later.

The German air raiders now — 5:35 p.m. (12:35 p.m. EDT)— are coming back after making a wide circle.

They apparently are heading toward government buildings in the centre of downtown Warsaw.

I can see puffs of anti aircraft fire.

Although the raid is still on, there is no panic.

Across the street from me, hundreds of inhabitants are watching fascinated on rooftops.

# Popular Couple Honored By Friends

Point Anne—On Monday evening, Aug. 28th, a large crowd gathered in the Parish Hall to honor Mr. and Mrs. Wilbert (Phil) Loft. The early evening was spent in card playing. The prize-winners were ladies' first—Mrs. Walter MacDonald; consolation —Mrs. J. Maracle; gents' first — Gordon Huck; consolation — Carl Roluf. Following the cards Mr. Percy Akey called Mr. and Mrs. Loft to the platform and read the following address:—

Point Anne, Ont.
Aug. 28, 1939.

Mr. and Mrs. Phil Loft:—

We your friends of Point Anne, extend to you, our sincere appreciation of this present privilege of collectively being able to sincerely wish you a successful journey on your new founded road of life. Confident that the same cheerful dispositions and tentative qualities will make this possible, as it is our desire to see a continuance of the happy friendliness woven about in your past association with us.

The people of this community in recognition of this mutual friendship, request you to accept this gift as our token of friendship knowing that even our spirit of giving cannot outweigh the hearty support and interest taken by yourselves in the participation of sports and social circles of this community.

Signed on behalf of your friends of Point Anne.

Mrs. W. R. Juby; Mrs. Fred Whitehead.

Mr. Loft made a fitting reply of thanks and appreciation for the lovely gift (a beautiful set of dishes), and the crowd joined in singing "For He's a Jolly Good Fellow." The remainder of the evening was spent in dancing to music by Grace Leeman and assistant. The ladies served lunch at midnight.

Mr. and Mrs. James Firth of Wellington spent Sunday with Mr. and Mrs. William Insley.

Mr. and Mrs. W. Akey and sons spent Sunday with his parents, Mr. and Mrs. Roderick Akey of Sulphide.

Miss Alice Insley returned home on Sunday after spending a months' holidays with her brother, Mr. Allen Insley of Trenton.

Mrs. Percy Akey, Mrs. Myles Lucas and Mrs. Daly Cummings and daughter Joan motored to Cobourg on Sunday and visited Mr. and Mrs. Leaman Bradshaw. Master Milton Akey returned home with them.

Mrs. Ed Fraser and Kay spent a few holidays recently with relatives in Roslin.

Mr. Frank Sedore received word on Monday of the death of his cousin, Miss Grace Woods of Napanee, who has been seriusly ill for some months.

Mr. and Mrs. Stanley Carter and Miss Kathleen of the 8th of Tyendinaga spent Thursday evening with Mr. and Mrs. Clayton Carter. Miss Kathleen Carter remained until Sunday and Mr. and Mrs. Clayton Carter and daughter, Lois returned home with her on Sunday and spent the day.

Mr. and Mrs. Harvey Scott and Joyce spent Sunday in Belleville with Mrs. Jessie Badgely.

Mr. and Mrs. Eddie Jenkinson of Peterboro spent holidays with their parents, Mr. and Mrs. Geo. Jenkinson.

Mr. and Mrs. W. R. Juby, Mrs. A. Woodcock, and Miss Mae Sedore spent Sunday in Consecon at the home of Mr. and Mrs. Morley Dempsey.

Mr. and Mrs. Geo. Carter and Dona motored to Ivy Lea on Sunday and also called on Mr. and Mrs. Pat O'Shaughnessy and family of Gananoque.

# DUTCH LEONARD WINS 16TH GAME FOR SENATORS

### Palm Must Go To Washington Hurler For Meritorious Work On Mound

### YANKS ADD TO LEAD

### Southpaw Grove Loses Third Game of the Season

(By Judson Bailey Associated Press Sports Writer).

Whenever the boys get around to awarding palms for meritorious service on baseball's firing line they would do well to start with a happy old warrior named Emil (Dutch) Leonard.

Pitching for the sixth-place Washington Senators in the American League, the 39-year-old knuckle-ball expert has outtrumped the aces of a lot of clubs that give their hurlers impressive assistance.

He held Chicago White Sox to six hits last night to win his 16th game of the season, 4-3, and has a chance to finish in the select company of the 20-game winners.

The Yankees were idle yet nevertheless added half a game to their lead as Boston Red Sox dropped another to Detroit, 11-4. The Tigers batted old Moses Grove out in the sixth for his third defeat and continued a 13-hit assault on three other hurlers.

Philadelphia Athletics took their third straight from the lowly St. Louis Browns, 4-2, with Wally Moses accounting for all the winners' runs. Rain again washed out all the National League games except a doubleheader between Pittsburgh Pirates and Philadelphia Phillies, which they divided.

Max Butcher won the first game for the Buccaneers 1-0 with a five-hit pitching chore. In the second contest the Phils unleashed a 14-hit attack on four Pirate pitchers to win 11-6.

# U.S., AUSTRALIA READY TO PLAY

### Tennis Teams Poised For Strenuous Contest For Possession of Davis Cup

Haverford, Pa., Sept. 1 (AP)—With the world tumbling toward war, six young men in tennis togs stood poised today for a bloodless battle—a contest between two nations at peace for a big silver bowl.

They will vie for the Davis Cup—historic symbol of international tennis supremacy—in matches beginning tomorrow at the Merion Cricket Club.

Representatives of the United States, the defenders, and Australia, the challengers drew today for match pairings as the favored Australians wondered whether these court contests would be their last games in this country.

Harry Hopman, non-playing captain of the challengers, said plans to continue their tennis tours this year would be changed "if war should break out."

"Both Adrian Quist and myself are members of the 6th Battalion in the army and we would probably be called home immediately," he said.

Quist and ambidextrous John Bromwich seek to take the cup to Australia for the first time in 20 years. America is represented by four youths whose ages average less than 21—Bobby Riggs, the Wimbledon champion; Frankie Parker, Joe Hunt and Jack Kramer.

# CEMENTMEN DOWN GANANOQUE 28-4

### Point Anne Coasted To Victory Behind Luffman's Eight-Hit Hurling

Piling up an early game lead, the Point Anne "Cementmen" smothered the Gananoque team 28 to 4 in the first game of the second round intermediate O.A.S.A. playdowns at Point Anne last evening.

Although the visitors showed some attack and scored three runs in the initial frame, they were held scoreless for the remainder of the pastime, except for the sixth when they added one more counter to terminate their scoring efforts. Point Anne got two in the first and added ten more in the next two frames to coast to victory behind "Ding" Luffman's eight hit hurling.

Gananoque used four hurlers in their effort to halt the "Cementmen," Woodley, Kuttle, Compeau, and Scotcher laboring in vain in that order: "Ding" Luffman pitched for the homesters and allowed eight singles, struck out six and walked but one.

Point Anne found the quartette of Gananoque pitchers for a total of 27 hits, many of which were of the extra base nature. Art Genereaux, the homesters centrefielder, paced the hitters with five safeties, Whitehead getting four and Green and Loft three each, while Luffman helped his own cause with a trio of hits also. Orser and Amo with two hits each led the Gananoque attack, but in vain.

The score by innings:

| | | R | H | E |
|---|---|---|---|---|
| Gananoque | 300 001 000— | 4 | 8 | 8 |
| Point Anne. | 246 207 25x— | 28 | 27 | 1 |

Batteries: Gananoque: Woodley, Kuttle, Compeau, Scotcher and Kenny; Point Anne: Luffman and Green.

# FREE-FOR-ALL TO LASTIC GRATTAN

### Paces Middle Mile In 2.10 To Win Race In Easy Fashion

Lastic Grattan showed the way to a smart field of free-for-allers in the last day of racing at the Belleville Fair yesterday when Ilmer Hillock's crack pacer won the event in straight heats. Pacing smoothly and without apparent effort the chestnut gelding thrilled nearly 1,000 spectators as driver Hillock satisfied the patrons with speed tests coming into the stretch.

Lastic Grattan paced the fastest mile of the entire Belleville Fair races when in the second heat of the free-for-all he turned the track in 2.10.

Split heats were registered in the 2.20 class, however, as Laura Watts, the Kingston-owned trotter took the first and third heats, with Jim Sutherland's Peterboro-owned Peter . winning the middle heat. Splendid times were registered in this class. The races concluded a two-day meet.

The results:

**Free-For-All—Purse $240.00**

First race:

| | |
|---|---|
| Lastic Grattan, W. Hillock, Picton .... .. .. .. ...... | 1 1 1 |
| Bud Winger, S. Craig, Kingston .. .. .. .. .. ...... | 2 4 2 |
| Miss Peter Grattan, A. Brown, Ornno .. .. .. .. | 3 3 3 |
| Peter Merriam, C. Hooey .. | 4 2 4 |

Time 2.12 1-2, 2.10, 2.14.

Second race:

**2.20 Class—Purse $180.00**

| | |
|---|---|
| Laura Watts, C. W. Fowler, Kingston .. .. .. .. .. | 1 3 1 |
| Peter J., J. Sutherland, Peterboro .. .. .. .. ..... | 2 1 5 |
| Infringer Grattan, D. Windover, Norwood .. .. .... | 4 2 4 |
| Defective, A. Locks, Williamsburg .. .. .. .. .... | 3 5 3 |
| Adrian Grattan, Jas. Lytle, Beaverton .. .. .. .. .. | 5 4 2 |

Time: 2.15 1-2, 2.14, 2.14.

Starter: George Tice, Belleville.

Timers: G. H. French, John Lafferty, both of Belleville.

Judges: Jas. McGowan, Tweed; W. Bottum, Belleville.

## Sports Roundup

(By Eddie Brietz, Associated Press Sports Writer)

New York, Sept. 1 (AP)— Moe Berg, who hit his first homer since 1935 Wednesday, will celebrate by learning a new language, his eighth .....When Eddie Mead was suspended by the N.Y. Boxing Commission, he offered to abrogate his contract with Henry Arnstrong so as not to hinder the fighter's career ....Henry told him to be his age.

Note to Mrs. Glenna Collett Vare: Brig-General A. C. Critchley, Great Britain's dog track poo bab from Calgary and his Mrs. (The former Diana Fishwick) both fine golfers, have named their little golferette "Glenna."

Beulah Park will ban $2 frogskins from its money rooms this fall because they are considered bad luck omens....Byron Nelson picks Spokane's Bud Ward to win the United States Amateur Golf title....The chief football problem down at Elon College is to find places to play all the letter men.... It costs $100,000 a year to keep the Yankee scouting system operating.

Can't accuse Lou Ambers of picking his spots....Asked whom he'd like to fight for the lightweight crown he named Sammy Angott, Davey Day and Jackie Wilson. three of the toughest babies in the lot....When the Pensacola Fliers won their third southern League pennant the other night, it made six flags in a row for manager Wally Dashiell.....That puts him only one behind the world's record old Jack Dunn made at Baltimore some years back.

# GIANTS GAINING WITHOUT PLAYING

### Newark Bears Lose Opportunity To Advance Toward First Division

(By The Associated Press)

Jersey City's International League leading Giants might well call off the remaining baseball games on their schedule and let the rest of the first division cut each other's throats trying to whittle down the Giants three-game advantage.

For the past few days the pacesetters have gained ground by doing nothing. After splitting a doubleheader Aug. 27, Jersey led by two games over second place Rochester. The next two days they were idle but gained a full game as the Red Wings lost twice. Wednesday the Little Giants went down half a game by losing to Newark. They made it up last night while idle as Rochester lost its third in a row, 7-1, to Buffalo Bisons.

**Clay Smith Wins**

Clay Smith turned back the Wings with a six-hit performance while the Herd trampled over Si Johnson, starting hurler, for six of their runs and 13 hits before he was removed in the sixth.

Newark Bears lost an opportunity to advance toward the first division by splitting a twin-bill with Baltimore Orioles.

Roy Bruner held the Bruins to three hits in the opener for a 2-0 victory, but a 16-hit barrage on three Baltimore hurlers gave them an 11-4 triumph in the nightcap.

The Toronto Maple Leafs pushed their fellow Canadians, Montreal Royals further into the cellar with a 16-hit assault on five pitchers for a 10-2 victory.

# ENGLISH TEAMS PLAY SATURDAY

### Many Clubs Will Be Short-Handed Because Many Players In Colors

London, Sept. 1 (CP Cable)—The English football league schedule enters its second week Saturday under practically the same circumstances as its inaugural, when it was over-shadowed by unsettled European conditions.

This week, however, league officials are faced with the problem of clearing up difficulties in its own ranks. The services have taken many players and as result many clubs particularly Liverpool and West Ham United, are short-handed.

Twenty-two of Liverpool's 31 players have joined the territorial army and the local anti-aircraft unit has claimed many West Ham players. Football and war office officials met to consider the question but so far no definite decision has been reached. It was understood no general permission was possible for "called up" players to perform in league games.

W. C. Cuff, football league President, said it was "against the rules" for clubs to loan players to other teams. But added that some arrangement might be made to meet exceptional circumstances.

Scottish league matches will be played as scheduled but the French federation announced cancellation of all week-end games in France.

**CORNWALL ADVANCES**

At the head of Corwall Bisons' drive for their fourth straight participation in the Canadian American Baseball League's playoff round was the figure today of Lefty Ed Carr, who fills in equally well on the mound or in the outfield.

The Bisons went another half-game ahead of the fifth-place Ogdensburg Colts last night when Carr gave them victory over Oswego Netherlands with a three-hit pitching performance. On Monday he drove home the winning run against the "Nets" with a pinch-hit single.

Carr allowed only one earned run yesterday in hurling Bisons to a 4-2 triumph. A triple followed a walk gave Oswego the run in the initial frame while they added another on an error in the eighth. Cornwall scored once each in the second, third, fourth and fifth.

# BRIGHTON MAN WINS NASH CAR

### William Marsh, Railway Section Foreman, Most Surprised Man on Grounds

William Marsh, middle-aged Brighton railway section-foreman sat in the farthest South-East of the grandstand at Exhibition Park last night and heard the number of the first ticket drawn from the large drum near the stage. He reached in his pocket, drew out a dozen tickets, hastily scanned them and raised his arm to throw them away. "It may be a mistake, better hang on to them," warned a nearby spectator.

He was right. It was a mistake. The owner failed to appear and another slip was drawn. Again a little girl's hand drew a white slip from the container. And as the number "F—42,148" came over the loud-speaking system, Bill's eyes bulged out of his head. He stared at the tiny slip on which he had marked the numbers of his few tickets. And the harder he stared, the larger loomed the lucky numbers.

Without a sound Bill got up and walked down the aisle. "Here it is", he grinned to a nearby watcher, and that worthy let out a yell, that must have echoed in Brighton itself.

The magnitude of his prize and the fact, that he had won it fully dawned in Bill and he began to shake visibly. By the time he got to the stage platform, Bill's jaws were moving rapidly and he wasn't talking or chewing gum. He proved his claim, and attempted to speak over the microphone. He stuttered a few times, and finally got out a tremulous "Thanks Folks."

Bill secured his ticket at Butler's Service Station in Brighton a few days ago, when he bought a few gallons of gas for his "ten-year-old chariot." "Sure, I'll keep her for a few days," he said, referring to his old car.

He never won a prize in his life via the draw system, he said. He shook hands with several well-wishers, and still in a nervous daze over his good fortune, strolled toward the Fair office to officially claim his brand-new "Nash."

## Between the Lines

with

*Ken J. Colling*

The Belleville City Softball League has fared exceptionally well this year in the matter of O.A.S.A. representation. The local "mushball" loop today has three of its membership in the provincial playdowns, the Shell "Oilers" in the Intermediate "A" series, Point Anne "cementmen" in the intermediate "C" group and the Citizens' Juniors, who have already eliminated Oshawa and are now awaiting a Toronto winner. Incidentally this long lay-off confronting the local junior squad will in no way help their cause, as was the case with Kingston. Point Anne is in the tangles of a series with Gananoque, while the 'Oilers' await the winners of the Oshawa-Peterboro series, which opened in the Motor City Tuesday when the Liftlock City boys won 8-6. On paper it would appear as though the Petes should win this series in consecutive games, as scribe Geo. Campbell's all-star Oshawa team was eliminated by an alleged inferior nine. Incidentally Lorne Bateman, who started his O.A.S.A. pitching efforts at Point Anne, is now hurling for the Peterboro team and doing a fine chore.

**Belleville has never exactly been a Saturday baseball town, but this year's ball club has struggled along without the support of the Wednesday half-holidays and now is going to give Saturday baseball a trial. Factory workers can available themselves of the opportunity of patronizing Saturday afternoon games by taking in the Coe Hill at Belleville tomorrow, thus promoting the local management to continue Saturday games at home as long as the "Orfuns" remain in the O.B.A. hunt. Of course the Belleville nine is not out of the woods insofar as the Coe Hill picture is concerned. The boys from the north country swing potent bats, as was seen in the first game when they knocked Joe Kelleher and Chuck Barriage off the hilltop in jig time. In Bert Giles, Coe Hill boasts of a fire-ball hurler, who literally handcuffed the locals for nearly eight innings, before the strain and pressure took its toll. Firing off a pitching mound Giles should look better here tomorrow. It might be a good idea to start a lefthander against the northerners and try to end the series tomorrow.**

Two former Ontario pitchers, Dick Fowler, of Toronto and Lefty Colman, London, who were signed by the Tronto Maple Leafs and farmed to the Batavia Club of the Pony League, were recalled by the Leafs yesterday, as was outfielder Platt, former Windsor player. The Leafs lost the services of outfielder Bob Elliott yesterday, Elliott being recalled by the Pittsburg Pirates. The future seems brilliant for Canadian ball players who entertain ideas of entering that field as their chosen vocation.

Cy Young, on his way from an Oldtimer's Day at Boston, dropped into the Polo grounds while the Giants were at home, and reports he came very near being drafted by Bill Terry, whose trouble with sore arms and shoulders affecting his pitching staff drew from the 75-year-old, who won over 500 league games, the statement that never in his long career had he suffered from a sore arm and never was on the rubbing table. "The day after a game I'd work out lightly for 20 minutes, then not touch a ball until I had to pitch again."

**There wasn't much competition to last night's Gananoque at Point Anne O.A.S.A. game, although the Eastern lads tossed a scare into the cementmen's ranks by scoring three runs in the initial frame. However, Bob Gaulin's charges soon moved to the attack and once they applied the pressure, the score of 28 to 4 resulted in favor of the home team. Incidentally Point Anne scored in every inning, except the fifth and should win the series in straight games. However we predicted this same thing against Deseronto and that series went the limit. Leo Amo, who played baseball and hockey in Belleville away back when—is still punching out hits. Leo got two of the eight hits Ganonoque collected off Ding Luffman. The Cementmen played sterling ball in the field only having one error, while "Gan" booted the ball for eight miscues. Incidentally the Gananoque management informed us last night that Gananoque was seriously thinking of applying to the Bay of Quinte League for a berth in 1940.**

How times do fly—it was just two ears ago last night that "Tonypandy Tommy" Farr, the Welsh heavyweight boxer, astonished the fight experts by staying a full 15 rounds against Joe Louis in one of the greatest displays of courage seen in modern ring history. Then also, do you remember when Howie Morenz returned to Montreal Canadiens of the National Hockey League three years ago today after a two-year stay with Chicago Black Hawks. "Peerless Howie" of the 13 N.H.L. years, was bought outright by the team that had sold him two years previously. Howie died in hospital March 8, 1937, following an accident in February, in which he broke his leg.

**From the sandlots to major league baseball is the welcomed lot of Ivan Sarf, 18-year-old Port Huron pitcher in the M-O League. Yesterday Sarf was signed by the Philadelphia Athletics and will take that coveted baseball trip to Florida next spring. The M-O League does not produce any faster or better baseball than was played in the old C.O.B.L. a few years ago, which surely leaves a wide margin of a target for the baseball hopefuls of today to shoot at, that is if they are interested in high salaries and short working hours, something that only baseball provides.**

. Sport Spice — Cliff Maundrell, crack Oshawa rightwinger, has signed with the Cornwall Flyers for next winter....The Detroit Tigers routed Lefty Grove and the Red Sox yesterday winning 11-4 to chase an old jinx in "Old Mose"... Believe it or not, but rain and cold weather, something not known in these parts this year, has forced two successive postponements in the National League these last two days....Umpire Ted Townsend says Bert Giles, of Coe Hill, should really 'fog 'em through' off the Belleville mound.....'I'll bet Giles never saw a regulation mound, but when he does the locals may wish he hadn't. The lad really shows promise," predicted Townsend, who should know.....The old song — "Johnnie get your gun," may soon be a new one to the present generation, the front pages suggest.

## Yesterday's Stars

(By The Associated Press)

Max Butcher, Pirates, and Walter Beck, Phillies: Former shut out effective hurling gave Philadelphia his recent teammates, 1-0; latter's nightcap.

Wally Moses, Athletics: Hit three run homer to account for 4-2 victory over Browns.

Dutch Leonard, Senators: Won his 16th game of season against White Sox.

Sir Ronald Lindsay, retiring British Ambassador to Washington, is pictured with Lady Lindsay as they boarded the S.S. Aquitania in New York for their return to England. Sailing under war-time conditions the Aquitania was held at New York for twenty-four hours before sailing.

One of Germany's big coast defence guns, camouflaged in the manner employed by ships during the world war, is shown in action "somewhere on Germany's North Sea coastline" during gunnery practice recently.

With their gas masks swinging from the carriage window, London children are seen here leaving Waterloo station to visit their fathers at military camps at Aldershot. All are smiling at the prospect of going camping.

## No Benefit

By THAYER WALDO

The chill query in Sybil's gaze made Louis squirm a little, and that annoyed him. He leaned forward and began persuasively.

"It's the simplest thing in the world. An hour's plane ride each way, fifteen minutes' stop in between, and it's all over. The good it'll do you both would be worth a lot more trouble than that."

The lady uttered an indignant gasp.

"How dare you!" she cried. "I've never been so insulted in my life! As if our beautiful love were something to be twisted and played with to suit your sordid schemes! It's fine and wonderful and I won't have it caged in petty conventions."

"Now, you mustn't look at it that way," he soothed. "Nobody respects your—ah—resign for living more than I do; but this is just one of those things we can't escape. The public is on the moral warpath and they're after people as well as pictures. It's well known about you and Bruce; can't you see what a master stroke it would be for you to marry him now? And you're really past the stage where it would seem like a concession: Five years together is enough to convince anybody of your independence."

He was silent a moment; then:

"Do you truly think it would be all right?" she inquired anxiously. "I mean, with Bruce. Of course I want to do whatever you say is best for our careers."

"He's okay," Louis broke in, with a smile of triumph; "I've talked to him and he leaves everything to you. I guess that's that, eh? I'll have a plane ready as soon as you like. If you step on it the story'll make tomorrow's first editions."

It did. No other elopement of film folk captured popular fancy as did the Sybil Archer-Bruce Franklin affair. Happily noting this, Garrison concluded that the manoeuvre had been an unqualified success. The belief persisted for just a trifle over seventy-two hours.

He was in conference with Producer Joe Fiberg when Sybil arrived and demanded to see him.

"You fool!" she screeched at him. "You wretched, meddling idiot! You've ruined my life."

He stood by the door and stared at her.

"Everything we had is gone, all because of your stupid interference. In my heart I knew neither Bruce nor I could be happy with the terrible restraint of marriage upon us."

She crumpled into a chair, sobbing gustily.

"Am I to infer," Louis questioned, "that you've quarreled with him or something?"

"Quarreled!" She sat bolt upright, to reveal a woebegone face. "I tell you we're through, finished! We stood the dreary horror of it as long as we could, then I told him to go and—and he went."

She sniffed again, and added resolutely:

"I'm going to get a divorce immediately. It's the only way to save my pride, and that's all I have left now. By tomorrow everyone in Beverly Hills would know that he'd left me."

Once more a brief silence, while Louis looked fixedly at the carpet, eyes half shut. At last he stood up, shrugged, and said:

"Well, I won't even try to stop you. But listen—do us all the favor of keeping it quiet. You know what'll happen if you file the papers here; they'll be shouting it on every street corner in half an hour. I can see that it's handled under cover through a Mexican court—take about twenty-four hours. Then you can tell anyone you want to, but the whole world won't have to know. How's that?"

She was hesitant, but a bit more persuasion won her. Garrison typed out: "I, the undersigned, do hereby request a divorce from Bruce Franklin on the grounds of incompatibility," and handed it to her.

"Sign that and I'll have it sent to Agua Caliente this afternoon. Tomorrow you'll be a free woman."

Sybil's lip was trembling as she wrote her name. Louis asked:

"Where's Bruce gone? We'll have to notify him."

"He's—he's at the Christie-Plaza." The tears again were flowing freely as Garrison led her to the door.

At the desk, he pushed a buzzer-button. When the secretary appeared, notebook in hand, Louis said:

"Take a telegram. 'Mr. Bruce Franklin, Hotel Christie-Plaza, Hollywood: Sybil has just divorced you.' Sign my name. That's all."

For more than an hour thereafter work occupied him. At last he glanced at his watch and took up the phone:

"Get me the Christie-Plaza." Tilting back, his fingers drummed the desk-top lightly. Hello —connect me with Mr. Franklin, please."

"Sorry, sir," regretted the crisp voice in his ear: "Mr. Franklin checked out about twenty minutes ago."

"Did he say where he was going?"

"He had us send his trunks to an address in Beverly Hills. Shall I look it up for you, sir?"

"No," Louis said; "no—I don't think that'll be necessary, thanks. I'll just guess."

As he hung up, his free hand reached for a sheet of paper at the desk's edge. A slight smile, touched with rueful irong, tinged his lips as he tore it, straight across the shaky signature of Sybil Archer Franklin.

# PEACH-PINCHERS STIR COMPLAINT

### Result Is Broad Trail of Softened, Bruised and Misshapen Fruit Is Claim

The district peach crop is being menaced by a custom which fruit dealers are almost powerless to combat. Hundreds of human "peach pinchers" are abroad in the land, and wherever they go they leave a road trail of softened, bruised and misshapen fruit.

Vendors of the city market lately have been voluble in their complaint regarding the old-fashioned custom of husky pinching and pounding of the peach exhibits by potential customers. Fruit dealers along Front Street daily report the loss that is experienced by this habit.

A clerk in the grocery store affirms that the human "pinchers" are a menace to well ordered and well cared for stock, but hastens to add that not all the pinching is of the peach variety; apples, pears and plums also come under the ministrations of the male and female first finger and thumb.

Cotton mesh screens have not provided the answer to the problem. Gloved and ungloved hands are able to penetrate this flimsy screen and even a resort to cellophane coverings over the baskets has not remedied the condition.

It is a problem crying for attention, admit the store owners and the open air vendors.

## *Little Benny's Note Book*

Pop was trying to make his cigar lighter work and ma was listening to her wrist watch not going, saying Really, Willyum, I mean really, people are never ruder than when they talk over the telephone.

Sure they are, how about when they drive automobiles? pop said. It's the battle of the machines against the spirit of gallantry, and the poor old spirit is wilted and wobbely, he said, and ma said, I called up the radio shop today, or at least I had the purest of intentions of calling the radio shop, but I was cut short by a woman's voice, and my deer such a voice, and she said, This is the Smickhorner residence and I'm tired of carelessly being called up for other numbers and I wish you people would either have your telephones disconnected or elts learn how to use them. And she banged down her reseever witohut so much as a polite good bye, ma said.

Something ought to be done about that, pop said. That's the great trouble about such things, there's nothing done about them. Where's the telephone book? he said.

And he looked in it, saying, Smickhorner, just as I thought, there's only one family with a name like that.

And he called up the number, saying, Is Mrs. Smickhorner there, O dont disturb her if she's at dinner, just tell her to call Mr. Umfest, Redbill 2 oh 4 eight.

Being our number, and pretty soon the telephone rang and pop answered it, saying, Who? There's no Umfest here as far as I know, and I hope I'd know. You got a message? Do you mean to say you're calling me up, a perfect stranger, to tell me you got a message? My dear madam, dont tell me I'm talking to a glittering eyed cheese rarebit who calls up numbers at random? The idea, bothering me in the mist of my newspaper to tell me you got a message about a Bumbest or some such animal. Goodbye, you better take a nice warm drink and go to bed, he said.

And he hung up looking as if he felt better instead of worse, and so did ma, claiming she reckonized Mrs. Smickhorners voice.

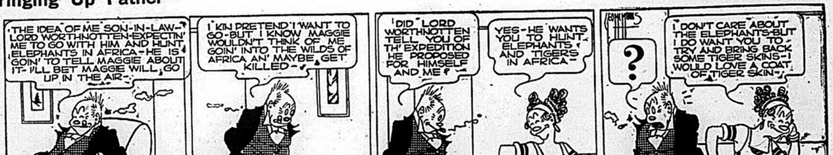
## Bringing Up Father—

By George McManus



THE IDEA OF ME SON-IN-LAW—LORD WORTHNOTTEN-EXPECTIN' ME TO GO WITH HIM AND HUNT ELEPHANTS IN AFRICA—HE IS GOIN' TO TELL MAGGIE ABOUT IT- I'LL BET MAGGIE WILL GO UP IN THE AIR—
I KIN PRETEND I WANT TO GO-BUT I KNOW MAGGIE WOULDN'T THINK OF ME GOIN' INTO THE WILDS OF AFRICA AN' MAYBE GET KILLED—
DID LORD WORTHNOTTEN TELL YOU OF TH' EXPEDITION HE PROPOSED FOR HIMSELF AND ME?
YES—HE WANTS YOU TO HUNT ELEPHANTS AND TIGERS IN AFRICA—
?
I DON'T CARE ABOUT THE ELEPHANTS-BUT I DO WANT YOU TO TRY AND BRING BACK SOME TIGER SKINS—I WOULD LOVE A COAT OF TIGER SKIN—

# GERMAN FORCES

*(Continued From Page One)*

would enforce a Polish settlement or die fighting in the army uniform he wore.

In his passionate 36-minute Reichstag speech the Fuehrer declared Germany does not count on Italian help. On the other hand he pictured Russia as Germany's eternal friend.

Hitler spoke as if war already were in progress, but he did not formally declare war.

The Nazi leader declared Germany would fight until the Polish government yields or is supplanted by a government that will yield.

*Makes General Threat.*

He threatened to answer "bomb with bomb and gas with gas"—depending on the sort of warfare Poland wages.

The Reichstag shouted its approval of a law annexing Danzig—original bone of German-Polish contention.

The German radio announced that the League of Nations Commissioner for Danzig, Karl Burckhardt, and his staff left Danzig at 9 a.m. (4 a.m. EDT.)

Artillery fire was heard near the Polish-Silesian border. The sound of cannonading rumbled over the Silesian fields near Gleiwitz on the Polish frontier.

The German fleet swung into action on the Baltic. It blockaded the Polish port of Gdynia, neighbor of Danzig.

*Clearing Neutral Shipping.*

German warships started clearing neutral shipping off the Baltic.

Germany braced herself to repeal air attacks. Schools were dismissed. Guards were stationed on top of Hitler's chancellery. They scanned the skies with field glasses.

Several hundred persons gathered in front of the building, singing for the first time since the birth of the crisis and chanting, "we want to see our Fuehrer".

Numerous overnight skirmishes ushered in the heavy fighting along the Polish-German border.

But Hitler withheld his order to strike in force until after dawn. Then in an order of the day to his forces he declared German patience had been exhausted by Polish "provocations".

Danzig meanwhile was cut off from telephone communication and it was assumed that Poles had cut communication lines in Pomorze, the Polish Corridor, which Hitler has demanded for Germany.

*No Reports of Resistance.*

There were no reports of Polish resistance in Danzig and it remained uncertain whether the Poles would fight for the free city.

The proclamation by which Albert Forster, Chief of State for the Nazified Free City, handed Danzig back to the Reich took immediate effect in Danzig. Swastika flags were unfurled on public buildings. It was regarded certain that German troops would march into the Free City from East Prussia, Danzig's neighbor on the east.

Despite the tension Berlin was outwardly calm. Stores were open. Housewives stood in line before meat shops.

Many persons remained close to radios to hear the frequent news bulletins and official statements. But the citizenry was completely in the dark as to developments outside Germany and the zone of hostilities.

"What are France and England doing?" This was a frequent question.

*Military Objectives Bombed.*

A government spokesman denied reports by Warsaw radio that the German air force was bombing open Polish cities, including Krakow, Katowice and Gronodnow.

"Our planes bombed military objectives near these cities," the spokesman said, "but no attack was made on defenceless towns or on the Polish population."

The propaganda ministry announced that two war bulletins would be issued daily, at noon and 4:30 p.m. (7 a.m. and 11:30 a.m. EDT).

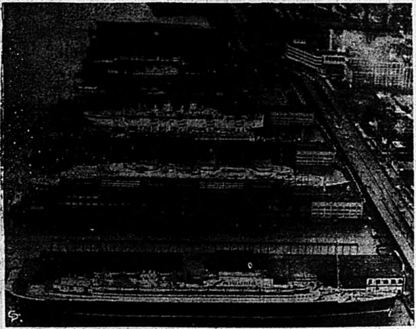
---

Moscow, Sept. 1—(AP)—Tass, official news agency, announced today that a Japanese-Manchoukuoan force had been "liquidated" by a Soviet-Outer Mongolian land and air offensive along the common border of Manchoukuo and Outer Mongolia.

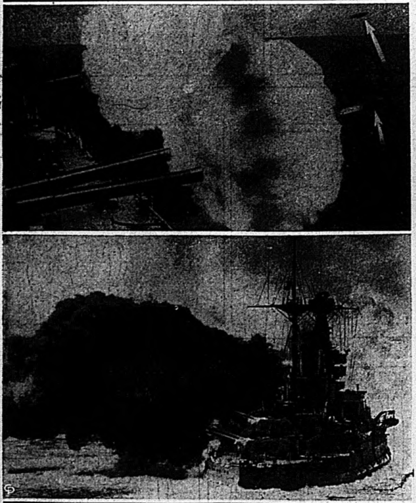
Winnipeg, Sept. 1 (CP)—A meeting of the Manitoba cabinet was called for this morning. It is expected the government will discuss the European situation and formulate plans for co-operation with the Federal parliament.

---

London, Sept. 1 (CP)—The Queen today visited the headquarters of the Women's Voluntary Service in London.



An aerial view, mawe over New York's North River, showing four big liners, representing the four big nations of Europe, tied up at their piers, their sailings cancelled, either by reason of orders from respective governments or by orders of Uncle Sam, who wishes to insure that none of the ships be transformed into privateers in the event of war. FRONT to BACK are the S.S. Bremen, of Germany; S.S. Normandie, Fance; S.S.r Aquitania, Great Britain, and the S.S. Roma, Italy.



This spectacular picture, TOP, made during gunnery practice of the British fleet off Portsmouth, was made as the big guns of H.M.S. Iron Duke were caught by the camera at the moment they sent their mighty projectiles towards the target. The shells may be seen, RIGHT. Another view of the Iron Duke, BOTTOM, is shown at the instant when she unleashed a broadside from her starboard batteries. The IronDuke is the famous flagship on which Admiral Jellicoe led the British fleet into action at the Battle of Jutland.

# Britain and France Await Hitler's Answer; German Aggression Denied By Von Ribbentrop; Poles Report Germans Use Gas In Bomb Raids

## "STATE OF WAR" NOW IN POLAND SAYS PRESIDENT

### German Reports Indicate Air Force In Complete Control of 'Polish Air'

### HEAVY FIGHTING

### Government Admits Many Civilians Killed And Wounded In Raids

(By Lloyd Lehrbas Associated Press Staff Writer).

Warsaw, Sept. 2 (AP)—President Ignace Moscicki declared Poland under a "state of war" today as official reports said Polish forces were resisting German invasion on three fronts.

The "state of war" supersedes the "state of national emergency" decreed yesterday.

An extraordinary session of parliament assembled to enact emergency war measures, and the German Charge D'Affairs was handed his passports with a request that he leave Poland.

Under instructions from his government, the Netherlands Minister assumed charge of German affairs.

A general staff communique reported heavy fighting through the night in the border area but there were no details. Fighting also was reported in Danzig.

(Continued on Page Three).

## EIRE WILL SEEK TO REMAIN NEUTRAL SAYS DE VALERA

Dublin, Sept. 2 (AP)—Prime Minister Eamon De Valera told an emergency session of the Dail (parliament) today that Eire would try to maintain neutrality as long as possible in any European conflict.

Mr. De Valera summoned the Dail to pass emergency laws for control of food, currency, transport and shipping.

## THE WEATHER

Toronto, Sept. 2 (CP)—Thundershowers have occurred in some districts from Ontario eastward to West Maritimes, also light to moderate thundershowers in Western Manitoba, Saskatchewan and Southeast Alberta. Temperature has been above normal in all provinces.

Lake Superior: Moderate easterly and southerly winds; partly cloudy tonight and Sunday with scattered thundershowers and stationary or a little higher temperature.

Western Provinces: Mostly cloudy and warm today and Sunday with scattered thundershowers.

## *Why the Weather!*

Structure of the atmosphere! If the atmosphere were homogenous in all respects, it could not then be said to have "structure". But the air is stratified and sub-stratified to a great extent. The two main layers are the troposphere, extending from the surface up to the stratosphere, which is the other great layer. Each of these is again stratified and contains complicated wind systems. The lower layer, or troposphere, is especially complicated by cyclones where winds blow inward at the surface and outward above, and by anticyclones with the winds blowing oppositely. It is also marked by vertical currents which occur in any fluid where temperatures vary vertically.

## Ontario Intelligencer Will Be Published Monday, Labor Day

The Ontario Intelligencer will be published on Labor Day, Monday, Sept. 4th, as usual, owing to the war crisis in Europe.

Labor Day has always been recognized as a public holiday by the Ontario Intelligencer office but owing to the intense public interest the paper is being published to bring to the readers the latest developments in the European situation.

The paper will be on sale about 2.00 p.m.

## BRITAIN READY FOR SACRIFICES THAT LIE AHEAD

### Long Editorials of British Press Put Blame Directly On Fuehrer Hitler

### EXPORTS BANNED

### Short-Term Prisoners Said To Have Been Released From Prisons

London, Sept. 2.—(CP)—(Passed by British Censor) — As Parliament was called in emergency session today for what Britons expected would be ratification of war against Germany, the nation was fully aware of what lies ahead.

(Continued on Page Three)

## Deportation Threat Quickly Stops European Argument

Woodstock, Ont., Sept. 2 (CP)—When they want a mediator for Europe's troubles, Provincial Constable Jack Clark, stationed at Woodstock, might be a good man to call in. Yesterday he stopped an incipient European war in South Norwich Township.

What apparently started out as a friendly argument developed into a real battle between one German on the one side and 10 husky Hungarians on the other. It looked bad for the German, so a rush call was made for the constable.

"So you want to fight, do you?" he asked. "Well, how would you like to be deported. We will send you over where they'll give you a rifle and all the fighting you want."

"Oh, no, no," came the chorus from the now thoroughly frightened Europeans who protested their love of Canada and their great desire to stay here and live at peace. Their little war was over.

## PARIS EVACUATES SCHOOL CHILDREN AND CALLS TROOPS

### Stage of Siege in Paris Becomes Effective Today Under Gov't Regime

### 8,000,000 UNDER ARMS

### Reserve Officers Beyond the Age of 50 Called in First Order

Paris, Sept. 2 (CP)—Through a hot September night Paris was evacuated today by an evergrowing stream of humanity. Thousands of school children had been sent away and last night their parents left to join them in country havens.

(Continued on Page Three)

## Lady Diana Taylor, Great War Heroine, Offers Her Services

Oakville, Ont., Sept. 2—(CP)—Lady Diana Taylour, wounded three times in the Great War, offered her services in "any capacity whatsoever" to the Department of National Defence at Ottawa and received a telephone call, thanking her for her offer and asking her to be prepared for immediate call in the event of hostilities.

Four of her brothers were killed in the Great War and she holds the Order of the British Empire, General Service Medal, Victory Medal, Mons Ribbon with star, British Ribbon of Honor for Women and a Belgian Ribbon.

Lady Taylour is a member of the family of the Marquess of Headford, Irish peer. She had resided in Canada for several years.

Lady Taylour said she drove an ambulance for 4 1-2 years in France.

## WHEAT FUTURES JUMP 5 CENTS

### Second Consecutive Session Wheat Prices Have Jumped Full Pegged Price

Winnipeg, Sept. 2 (CP)—For the second consecutive session wheat futures prices leaped the five-cent allowable limit today within a few moments after operations opened on the Winnipeg grain exchange.

Picking up where they left off yesterday, traders flooded the pit with buying offers in the initial minutes. The October future jumped to 69 cents a bushel, December to 70⅛ and May to 73½c —all five cents higher.

### CENSORSHIP AT BERMUDA

Homilton, Bermuda, Sept. 2 — (CP Cable)—Sensorship on all outgoing and incoming cables and wireless messages was applied here this morning. It was thought probable censorship would be applied also to mail between here and certain countries.

## Old Army Songs of 1914 Revived As Troops Prepare Again For War

London, Sept. 2 — (AP)— Old songs that cheered the British troops of 1914 —"Tipperary" and "Pack up your Troubles in your old Kit Bag" —were sung as the work of getting ready to fight was rushed today.

In restaurants and cafes — today as 25 years ago — the arrival or departure of men in uniform was greeted with applause and cheers.

To the general public the resolution of days of tension into a definite showdown came as a kind of relief despite its grim implications. Taking the matter as definitely settled, the British people were saying "Well, it had to come. We might as well go ahead and get it over."

Women flat dwellers not participating in the evacuation of 3,000,000 persons from danger zones joined janitors and doormen in filling sand bags to protect walls against air raids. Women worked beside men in parks digging trenches, drove ambulances and did scores of other jobs to free men for military service.

Dawn today saw barrage balloons high in the air around London—strategically placed to divert hostile aircraft from military objectives.

Streets around barracks were jammed with trucks loaded with soldiers, sidewalks crowded with wives and sweethearts bidding farewell.

Anti-aircraft guns, listening posts and searchlights ringed the city. The sky was clear of planes but fighters and bombers were ready in hangars for flight at an instant's notice.

Despite a much graver situation, the British people appeared more calm than a year ago today when the Czech-German negotiations over the Sudeten area were in progress. Those differences were finally settled by the Munich agreement resulting in the partition of Czecho-Slovakia.

## Efforts Made To Save Peace 'Brutally Nullified' By Germany Daladier Tells French Deputies

### Yugoslov Army Warned to be Ready

### The Cabinet Was Called Into Session Late Today

Paris, Sept. 2 (CP-Havas)—Premier Daladier told the Chamber of Deputies today that Germany had "brutally nullified" efforts made to save peace.

It is a lie to say Poland rejected the German proposals, he said, because she never was advised of them.

The Premier added that if attempts at conciliation are renewed the French government is ready to join them.

But he declared: "France and Great Britain cannot watch the destruction of a friendly people. In effect this is a new phase of the march toward world domination by the Hitler dictatorship."

"It is Hitler's acts that count and not his words," Daladier continued. "Poland has been our ally since 1921. Our engagements have been renewed and strengthened.

"England and France are not powers who think of going back on their signature.

"I put this question to the French people and to all people: What is a guarantee given to our Alsace-Lorraine worth after the repudiation of guarantees given by Germany to Austria, to Czecho-Slovakia and to Poland?"

"No Frenchman has hatred in his heart for the German people. But all Frenchmen are ready to do their duty because they know they are going to fight for the existence of France, which is itself in peril.

"No one could mobilize France to hurl it into an adventure."

"If the battles were to stop, if the aggressor returned to his frontiers, if free negotiations could be entered into, the French government would make every effort to facilitate them," declared Daladier.

#### TRIBUTE PAID TO ITALY

The Premier paid tribute to "The noble efforts of the Italian government" to preserve peace.

But, he went on, "France and Great Britain cannot watch the destruction of a friendly people. In effect this is a new phase of the march toward world domination by the Hitler dictatorship."

The Chamber unanimously granted the government the national defence credits it asked. The amount allocated was not immediately made public.

All Deputies up to 40 years of age already had been mobilized. They appeared in uniform.

#### SILENCE IN GREAT CHAMBER

As the Chamber President, Edouard Herriot, opened the session, after a short whispered conversation with Daladier at the Tribune, there was silence through the great chamber. It was packed to overflowing for the historic session with Deputies, French notables and foreign diplomats.

As the session began, Deputies heard reports that the farthest German advance into Poland was only three miles at Czarknow, in the westernmost tip of Poland.

The Chamber adjourned at 4:35 p.m. (11:35 a.m. EDT) after an 85-minute session.

London, Sept. 2 (CP)—Sir John Simon, Chancellor of the Exchequer, announced today as parliament assembled for its second emergency session in two days that another session would be held tomorrow at noon.

Prime Minister Chamberlain was not present when the House assembled today. Sir John Simon announced the Prime Minister would make a statement later in the day.

The House was crowded in anticipation of Mr. Chamberlain's appearance, for it was expected he would make a declaration on Great Britain's stand in the European situation.

Ambassadors and many Foreign Ministers were in attendance.

#### STILL AWAITING REPLY

The Prime Minister's delay in making a statement was interpreted as meaning Great Britain still awaited Adolf Hitler's response to her "last warning" to halt the attack on Poland or fight Britain and France.

Mr. Chamberlain was not in the House when Sir John made his statement.

When the House of Lords met at 3 p.m. (10 a.m. EDT) Viscount Halifax, Foreign Secretary, said he was not then in a position to make a statement but that he might be able to "a little later on". The House of Lords adjourned until 5 p.m. (noon EDT).

Before parliament was called to its second emergency session in two days, many Britons expected a declaration of war would result.

#### BILL IS EXPLAINED

Before adjourning until 7 p.m. (2 p.m. EDT) the House of Commons considered the new Conscription Bill which will make all men between the ages of 18 and 41 liable to military service. Ernest Brown, Minister of Labor, in explaining the bill, said it did not apply to Northern Ireland.

Men in the designated age brackets will be called up from time to time by proclamation, he said, but no "considerable group" of new conscripts would be summoned at the outset.

#### MOTORED TO DOWNING STREET

Forty minutes after the Commons met both Sir John and Lord Halifax motored to 10 Downing Street to be with Mr. Chamberlain.

Up to noon no reply had been received from the German government to Britain's "last warning".

During the morning Lord Halifax received the Polish Ambassador, Count Edward Raczynski, and Mr. Chamberlain received Arthur Greenwood, Acting Leader of the Opposition.

Mr. Greenwood earlier in the House had criticized the age limits of the Conscription Bill but said he would support it. He also demanded that "profiteering be stopped" and added that "he who seeks personal gain in these times is a traitor to his country".

## DEFENCE FORCES OF CANADA NEAR WAR-TIME BASIS

### Men In Militia On Active Service To Be Paid On Basis of $1.30 Daily

### KHAKI ON STREETS

### R.C.A.F. Will Be Recruited Up To Full Peace Time Establishment

(By The Canadian Press)

Canada's defence forces rapidly neared war-time strength today while the nation prepared to meet any emergency that might arise "in the event," as Prime Minister Mackenzie King put it, "of the United Kingdom becoming engaged in war in the effort to resist aggression."

While military units paraded the streets of town and city in a call to arms reminiscent of 1914, members of parliament prepared to leave for Ottawa to attend the special session opening next Thursday.

## PRIME MINISTER KING AND CABINET HOLD SESSION

### Dominion Now Virtually On War Footing To Defend Internal Security

### CITIZENS OFFER

### Effective Co-operation By Canada At Side of Great Britain, Nation's Attitude

Ottawa, Sept. 2 —(CP)— As Prime Minister Mackenzie King and his cabinet colleagues gathered today in emergency session, Canada was virtually on a war footing to defend the country's internal security.

The meeting is scheduled for 11.30 a.m. EDT.

In the active day yesterday the government adopted the following emergency measures:—

Summoned Parliament to meet Sept. 7 to decide what part Canada shall play in the event Britain becomes involved in hostilities.

Invoked the War Measures Act of 1914 to clothe the Government with extraordinary powers, until Parliament meets, to carry out

(Continued on Page Two)

### INQUEST WILL BE HELD

Peterborough, Ont., Sept. 2 (CP)—Nick Troy and Johnnie Fuller, held as material witnesses in connection with death of Mrs. Myrtle Williams, were released to appear when called. Body of the 27-year-old woman was found near Lock 23 on the Trent Canal about five miles north of here. Coroner Dr. C. B. Waite announced an inquest will be held.

### CONSCRIPTION AGE FIXED

London, Sept. 2 (CP) (Passed by British Censor)— The House of Commons today passed through the important second reading stage the government's Conscription Bill making men between the ages of 18 and 41 liable to military service. The vote was 340 to 7.

## American Press Editorially Says 'Stay Out of War'---

### Also Fix Responsibility For War On Hitler

New York, Sept. 2 (CP)—"Stay out of Europe's war," chorused editorials in newspapers of the United States yesterday and today, while their front pages told of the outbreak of hostilities between Germany and Poland.

Invariably, also, the editorials fixed responsibility for the fighting on Fuehrer Hitler and spoke sympathetically of the anti-aggressor nations.

Following are representative excerpts:

Portland, Ore., Journal (Independent)—The insane man of Europe has struck. Hitler cannot, as he once hoped, place the blame on the democracies. While there is yet time, this country must take steps to stay out of Europe's war.

Oakland, Calif., Tribune (Republican) — Unquestionably the present sentiment of the United States is to remain neutral and in no way become involved in another struggle.

Los Angeles Herald-Express (Independent)—If there is any "wit of they are drawn into the fight. keep us out of war . . . because "wit of statesmanship" may fail in Europe is no reason it should fail in America.

New York Daily News (Independent)—Majority American sentiment favors Poland at the moment, and will favor England and France if and and Germany to the rest of But sympathize with the democracies though we do, we cannot see how we or anybody else can benefit by American participation in this war.

New York Times (Independent)—If ever a war was made by one nation on another deliberately, without cause and without justification, it is this undeclared war that Germany made on Poland. We know that in any general war extending from Poland an dGermany to the rest of Europe and continuing for more than the briefest time, our interests are certain to be affected at many points. We must close our ranks and conserve that national unity which is our richest heritage and our best promise to a troubled world.

Hartford (Conn.) Times —(Independent-Democrat) We shall undoubtedly be affected by it (the European war), possibly, in the end, drawn into it. It behooves our statesmen to use all their energies that that shall not occur.

Kansas City Star—(Independent) As for the United States, its sympathies of course are all against the aggressor. But its vital interests certainly are not now threatened. . . . It is up to the administration at Washington and to the American people to keep their heads and not to be swept off their feet by emotion.

Boston Herald—(Independent) The clearest features of the American attitude toward the war are the hope of an overwhelming portion of the population that Germany and Hitler will be brought to their knees and the determination that this country shall not be forced or cajoled into active participation.

The Chattanooga News—(Democrat) If our present neutrality laws are invoked we shall be partners in the hated German cause. . . . One of the first effects of the invocation of the absolute arms embargo would be to cut off delivery of airplanes already contracted for by England and France. . . . True neutrality would be followed if we pursued the traditional custom of neutrals, which have always considered it their right to sell materials to belligerents.

## Poles In Canada Back Fatherland May Form Polish-Canadian Legion

Toronto, Sept. 2 (CP)—A mass meeting of 2,000 Toronto Poles gathered in Dale Presbyterian church here last night and pledged support both physical and financial to the Fatherland.

The committee which called the assembly on behalf of a dozen Polish organizations found a small gold wrist watch among the contributions that totalled more than $700 in cash. Several persons present gave their home addresses and asked representatives be sent to pick up wedding rings.

Dr. Maria Gutowska, professor of physiology and poultry breeding at University of Warsaw, stranded in definitely in North America by the turn of events in Europe, motored from the United States border to attend the meeting. She was the official Polish representative to the recent World Poultry Congress at Cleveland.

She was staying with friends in Chicago and visiting Niagara Falls when she decided to attend the Toronto meeting.

"We are still Canadians," declared A. J. Staniewski, editor of the Polish weekly newspaper. "When the time comes we may hope to form Polish-Canadian legions. We will fight as British people as well as for the flag of our native land."

## ITALY WILL TAKE NO "INITIATIVE" IN PRESENT CRISIS

### Widespread Belief England And France Offer Some Concessions To Italy

### SPEECH PUBLISHED

### Chamberlain's Address To Parliament Used In Italian Newspapers

Rome, Sept. 2 (AP) — As Great Britain and France moved rapidly toward decisive action against Germany, Italy stood today by her assertion she would take no "initiative" in military operations.

Neither official quarters nor the controlled press gave any indication whether entry of Britain and France into the conflict flaring along the German - Polish frontiers would change Premier Mussolini's attitude.

Under the Italian-German military alliance, Italy is pledged to come to Germany's aid if she becomes involved in war for any reason. In the Polish invasion, however, Germany has told Italy she does not need help.

(Continued on Page Three).

## HITLER FRAMING HIS ANSWER TO FINAL WARNINGS

### Sources Intimate London and Paris Ask If Germany Ready To Cease Operations And Negotiate

### EXCEED OBJECTIVES

By LOUIS LOCHNER

Berlin, Sept. 2 (AP)—Adolf Hitler and his advisers are framing an answer to the "final warnings" of Great Britain and France.

German sources intimated that London and Paris had asked whether Germany were ready to cease operations in Poland even now and negotiate.

(Continued on Page Eleven)

## MORE RAIN IN '38 THAN AUG. THIS YEAR

According to figures released yesterday by the City Filtration Plant, August of 1938 was a much better month than that just concluded. Rainfall a year ago was 3.41 inches as compared to 2.29 inches that fell in August of this year.

## THREE BASS CAUGHT ON ONE CAST

When the fishing line of Harry Walmsley, Picton newspaper man, gave a sharp tug in East Lake the other day, he felt satisfied that he had the daddy of all the lunge securely hooked. He struggled for a few minutes with the line then hauled three large bass, that had taken his bait simultaneously, aboard his boat.

## TWO HOUND DOGS ATTACK CALVES

Two hound dogs attacked pasturing calves on Gilbert St. early today causing considerable excitement in that neighbourhood. City poundkeeper Thos. Thorne was notified and succeeded in routing the dogs. Later the matter was reported to Provincial Police and the owner of the canines was found and instructed to keep his dogs secured at home. Fortunately the animals were not injured.

## SPOILED CHEESE ON DUMP ATTRACTS RATS

A dozen spoiled cheese deposited by some unknown on the dump this week has brought an army of rats and swarms of flies to the south side of the city and resulted in strenuous complaints being registered by residents of the area, and officials of the city public works department.

A personal investigation undertaken by Alderman Thos. Cushing chairman of Market and City Property failed to disclose the one-time ownership of the cheese, nor reveal the identity of some other trucker who dumped a truck load of broken glass near the entrance to the dump.

Signs are being prepared by the department regulating the dumping of waste at this disposal site.

## LARGE LAKE TROUT CAUGHT IN HAY L.

Harry Smith of Maynooth this week joined the ranks of fishermen of the district who have captured one of the big ones. Fishing at Hay Lake, Mr. Smith caught and landed a 20-pound lake trout after an extended battle which threatened to upset his boat.

## WOLF SHOT WHILE ATTACKING A DOG

Frank Linkie, Wicklow Township resident, is this week exhibiting the pelt of a huge wolf, one of two of the animals shot by him while fighting the dog on his farm.

The dog attacked by the two wolves, managed to get one of the animals on its back with a throat hold, while the second attacked from above. Mr. Linkie managed to shoot the first wolf, after which the second escaped from the hold of the dog and fled into the nearby bush.

Other wolves have been heard howling in the surrounding woods nightly it is reported by the resident.

## FEWER TOURISTS SEEN AS HOLIDAYS DRAW TO A CLOSE

The present European crisis has had some effect on the tourist business in the city and district, but the thought of school opening in the United States after Labor Day has also acted as a spur to many visitors who are now homeward bound after a vacation in Canada, it was observed today by the local Chamber of Commerce. During the past week the number of tourists applying at the local office has noticeably decreased and fewer American licence plates have been observed on city streets.

## City Hall Clock To Be Operated By Electric Power

Electrification of the city clock both for striking and winding will be undertaken "within the near future", it was announced this morning by Alderman Thos. Cushing, chairman of Market and City property. present hand operated system is one that has been under discussion for some time past and authority has finally been given by council for the purchase of the electric motor which will be installed in the upper section of the city hall tower to control both winding and striking of the clock.

The motor will overcome the need of hand winding, an operation which weekly takes hours of time and physical labor, and the need for tolling the hours by hand from the city police station.

Recent heavy repairs have put the clock back into perfect condition, it was reported by Alderman Cushings.

## OBITUARY

### GEORGE WILLIAMSON
Ameliasburg

George Williamson passed away at the residence of his son, Mr. Roy Williamson, in the first concession of Ameliasburg township, Prince Edward County, on Friday evening, September 1st., after an illness of one month's duration.

The late Mr. Williamson, who was in his 87th. year, was born in Prince Edward County and resided there all his life. He was a son of the late Mr. and Mrs. John B. Williamson. In religion he was a member of the United Church at Albury and was held in high esteem in the community.

Surviving him are one daughter, Mrs. George Young, York Road, Trenton, and one son, Mr. Roy Williamson, Ameliasburg Township. His wife, who was Miss Sophia Weese, died some years ago.

The funeral announcement is made elsewhere in this paper.

TONIGHT ONLY.

## ROLLER KILLS BOY AS TEAM RUNS AWAY

Simcoe, Ont., Sept. 2 (CP)—Lawrence Dougherty, 11, son of Mr. and Mrs. Arthur Dougherty, was killed on his father's farm near Jarvis Thursday when a frightened team dragged a broken farm roller over him, it was learned today.

An older brother, Allen, was driving the horses, when the tongue on the roller broke and the frightened animals ran, the young boy being unable to escape from their path.

## BABY IS BURNED IN TRENTON HOME

### Lightning Bolt Sets Fire To Home of Mr. and Mrs. Howard Yarrow

Trenton, Sept. 2—(Special)—The one single flash of lightning that accompanied the slight rainstorm last night struck with tragic results when the only child of Mr. and Mrs. Howard Yarrow, a two-months'-old baby was burned to death when the lightning struck their home, on Telephone Road, about four miles north west of Trenton.

Only a few drops of rain fell in the storm last evening and the lightning struck the frame house with such force that the entire top storey seemed to burst instantly into a mass of flame. The two-months'-old baby was sleeping upstairs, and in spite of the frantic efforts of parents and neighbours to brave the blaze it was impossible to reach the upper storey. The house and contents were completely destroyed.

## LARGE OFFERING OF FRUIT ON MARKET TODAY

### No. 1 Peaches Sell At 30c, Watermelons At 15c Up, Canteloupe Up To 10c

### CHICKENS SCARCE

Imminence of a general European war failed to have any noticeable effect on the city market today where another heavy week-end offering of produce was available for a large Saturday clientele.

Prices were steady with little or no fluctuation being noted in main commodities. Egg quotations were firm, and at the same level as last week, with "A" Selects selling at 28c the dozen and mediums and other grades at 27c and 26c respectively.

The chicken offering was anything but plentiful with a few good weighty broilers selling at from 75c to 90c a pair. April chickens were procurable at from 70c each with fowl quoted from 55c up.

Imported peaches in varying grades and qualities again flooded the market with prices hitting a new low for choice stocks. Good quality No. 1's were offered at 30c with "extras" a few cents higher. Common qualities were quoted at 20c and 22c the six quart container.

Apples and pears were plentiful with Harvester apples selling well at 20c the basket. Duchess were quoted at the same price with other cooking varieties a cent or two lower.

"Clapp's Favorite" pears were quoted at 20c the half peck, with harvest varieties selling at 15 cents the basket.

Watermelon and canteloupe were also offered in heavy quantities with plenty of variety, size and weight to choose from. Large watermelons were offered from 15c up with canteloupe moving well from 20c the dozen to as high as 10c each.

Huckleberries and red currants sold at 10c the box, while a few scattered raspberries were offered at 20c for the same quantity.

**Tomatoes Lower**

Home-grown tomatoes noted a small decrease in price from quotations of a week ago as production nears its peak. Bushels were offered at 50c with pecks at 15c each. Potato prices were firm with bushel lots offered at $1.00. Stocks were plentiful with farmers optimistic over a good late Autumn harvest.

Sweet corn was popular with good quality ears of a new late variety selling at 15c the dozen. New carrots, beets, onions and a few young turnips sold at five cents the bunch. Some vegetable marrow was available at 10c each.

Crisp, new, young cabbage and cauliflower moved well with good quality heads offered from 5c each, according to size.

A few whitefish were quoted at 17c the pound.

## PRIME MINISTER

(Continued From Page One)

measures deemed necessary for safeguarding the country.

Placed the non-permanent militia on active service for national defence within Canadian boundaries (the permanent forces of the army, navy and air force are already mobilized for active service wherever the Government may send them.)

It was generally believed further decisive steps might be taken by the Government at once under the new powers granted by the War Measures Act, such as establishing a system of censorship. The Canadian Broadcasting Corporation already holds authority to censor broadcasting.

**Censorship Expected.**

The National Defence Department will probably censor cable, telegraph and wireless messages, and probably a dozen regional censors under direction of a central authority will sift newspaper and news agency reports to guard against publication of information valuable to an enemy.

Preparations went forward today for the extraordinary meeting of parliament.

The length of the emergency session is uncertain. A similar sitting in 1914 lasted only five days, from Aug. 18 to Aug. 22—just long enough to pass emergency legislation made necessary by war and to provide a war budget of $50,000,000. The session opening next Thursday may last only a few days, or it may be prolonged to a week or more by debate on the program the government is expected to present for conduct of national affairs in the emergency.

The Prime Minister stated yesterday he believed his declaration that Canada would stand with Great Britain was something the people of Great Britain, Canada and the world "would be pleased to know."

National Defence headquarters presents the busiest scene in that department since the Great War. The vast machinery for mustering Canada's fighting forces is functioning with increasing momentum.

**Citizens Offer Services**

Defence headquarters received an ever-increasing number of messages from prominent citizens offering their services in any capacity.

Members of the militia now going on active service or new recruits who may join will not be obliged to serve overseas. Active service at the moment means service in Canada, for practical purposes, altho' the Militia Act obliges militia members to serve anywhere, in or out of Canada "in case of unavoidable necessity."

The procedure followed, however, is to re-attest members of the militia for overseas service. Re-attestation renews the soldier's oath of allegiance and obtains from him a declaration of his willingness to serve outside Canada. The obligation under the Militia Act to serve outside Canada without a new attestation has never been invoked.

The militia units now called out and all their members become automatically subject to military law.

Should an overseas expeditionary force be decided upon by parliament next week it is understood it will be raised within the framework of the present militia organization. In 1914 the expeditionary force was separated from the militia but the defence department has decided it was not the best method.

# "STATE OF WAR"

*(Continued From Page One)*

**Score of Cities Bombed**

The first heavy impact of war came from German planes which yesterday bombed more than a score of cities, including Warsaw, in advance of the three invading German armies.

A government communique admitted "many civilians were killed and wounded" on the first day of hostilities. It was said officially, however, that the air raids had inflicted only slight damage to vital services.

In addition to five air raids on Warsaw yesterday, a communique said Nazi raiders also bombed the following cities: Kutno, Lwow, Krakow, Gdynia, Katowice, Autustow Brodbica, Tczew, Radomsto, Torun, Tunetl, Krosbo, Trzebiba, Jslo, Radom Modlin, Pultusk, Kobryn, Pluock and Otwock.

**Fired First Shot**

A German warplane, it said, "fired the first shot in the war" by bombing Puck yesterday at 5:20 a.m. (12.20 a.m. E.D.T.).

The Poles declared they shot down 16 German warplanes and captured two German armored trains, while losing two Polish planes.

An air defence communique said many of the German bombs were duds and failed to explode.

On the ground, other official reports asserted, Polish troops were fighting back spiritedly against the German forces and were holding fast.

**Violent In Silesia.**

The "most violent fighting" a general staff communique declared, was in Silesia, one of the three main sectors of the German drive.

The German columns were pointed from East Prussia against Dzialdowa and Mlawa; from Pomerania against Chojnice at the narrowest point of Pomorze (the Polish Corridor); and from Breslau against Ktatowice.

Marshal Edward Smigly-Rydz who was made commander-in-chief of all Poland's armed forces and designated as successor to President Ignace Moscicki should the presidency become vacant during the war, broadcast a message of encouragement to Polish soldiers defending the Westerplatte, a munitions dump opposite Danzig.

**Gdynia Under Bombardment.**

Gdynia, Polish port on the same harbor as Danzig, was reported kept under heavy bombardment.

One company of Poles reported it was holding Westerplatte, despite three German attacks and bombardment by the German naval training ship Schleswig-Holstein. (A German communique reported capture of Westerplatte.)

Official reports on air raid tolls were confined to the terse statement that civilian casualties were severe "since most attacks were on unfortified cities". There was no estimate of the number of dead and injured.

Many women and children were known, however, to have been killed or injured when German planes bombed a refugee train at Kudno, 70 miles west of Warsaw, yesterday.

**Bombs Fall on Hospital.**

Officials also said bombs had fallen on a hospital for feeble-minded Jewish children just outside Warsaw, causing many casualties, and also on a health resort for tuberculosis sufferers at Otwock, on the Vistula River ten miles from here.

Five times between dawn and nightfall German raiders came over the Polish capital yesterday but only in three raids did bombs fall.

They failed to hit railroad or highway bridges across the Vistula River, Poland's outlet to the sea, or, as far as could be ascertained, any military objectives.

The day's longest and severest raid lasted for an hour and a half.

Anti-aircraft batteries encircling Warsaw made it impossible for the German planes to dive low to reach their objejctives.

# ITALY WILL TAKE

*(Continued From Page One)*

Some Italians thought Germany might not call immediately for Italian aid, even if Britain and France did come in, on the basis that Hitler is trying to localize the strife.

These quarters thought that Germany, protected on the west by the powerful defences of the Siegfried line, might feel she could easily stave off a western invasion until she had cleaned up Poland—and then would proffer peace to Britain and France.

Diplomatic quarters watched keenly for any hint of what Italy would say if Germany called on her for aid.

**Offered Concessions.**

Following conferences with Foreign Minister Ciano yesterday, there was widespread belief that the British and French Ambassadors were offering concessions in return for Italian neutrality and, possibly, greater ones, for Italian entry into the war alongside Britain and France.

Meanwhile, Hungary was reported also to be watching Italy closely and to be more inclined to follow Mussolini than Hitler.

Newspapers were frankly pro-German in their accounts of the situation but they refrained from all such exaltations of the "pact of steel" binding Rome and Berlin as were published daily until recently.

**Speech Is Used.**

Morning newspapers published part of Prime Minister Chamberlain's speech in which he told the House of Commons the final Hitler proposals had never been submitted to Poland and Britain in time for their consideration. This was the first indication to Italians that there had been two sides to the highly controversial question of the proposals.

Up to now, only the German side had been published here.

Italy remained calm. Newsboys were prohibited from yelling headlines so as not to alarm the people unduly.

The public was advised through the newspapers to leave the city for the country and was reminded that train service was normal.

# PARIS EVACUATES

*(Continued From Page One)*

Actually mobilization has been under way for several days, but the official order which accompanied yesterday's proclamation of a state of siege became effective only today.

At one minute past midnight came the "zero hour" of general mobilization—the signal for a flood of khaki to well up in the streets and flow out toward the frontiers.

**Mobilization Methodical**

Hours later the mobilization was proceeding methodically with much of the same machinery and many of the same men used to execute the last such call to the colors on Aug. 2, 1914.

Automatically and without further notice all able-bodied men were placed under the orders contained in the military handbook which every Frenchman who has done military service owns. Men as old as 40 were called on to report to specified points on the first day of mobilization.

By the fifth day, virtually all of the army—more than 8,000,000 men including all of the physically fit between 20 and 50—will be in war positions.

**Reserve Officers Called**

Reserve officers, even beyond the age of 50 also were called at the start.

When the mobilization went into effect, each station was virtually deserted and plunged into a silence broken only by the distant honking of fire engines making trial runs.

The full moon shed its light on a few clusters of black-garbed women, burdened with babies and personal belongings, waiting patiently for cabs to take them from the danger zone.

# BRITAIN READY

*(Continued From Page One)*

Virtually the whole of the British Isles were blacked out throughout the night. The King has signed an order-in-council for complete mobilization of the army, navy and air force.

Removal of children, women, invalids and the aged from metropolitan zones is proceeding on an emergency basis.

The morning press was virtually unanimous in accepting the inevitability of war. Long editorials were devoted to charges that the blame for war lies with Fuehrer Hitler.

"The whole proceedings in parliament yesterday were inspired by the conviction that the great evil is the spirit of faithlessness, of intolerance, of bullying and of 'senseless ambition' which is embodied in Herr Hitler and those who surround him", said the Times.

"The conviction overrides the horror of the thought that the civilized world is to tackle the same task twice in 25 years'

**Done Right This Time**

"The task will be done again, no matter what the effort required, and it will be done this time in a way to ensure that our children will not have to repeat it."

Extraordinary measures being rushed to completion included one to provide £500,000,000 (about $2,110,000,000) to meet emergency expenditures.

Others would declare a moratorium on the principal of mortgages on homes, provide for conscription of men between the ages of 18 and 41 years, demobilize soldiers temporarily to work in industries and, if necessary, regulate imports and exports.

Further emergency measures would provide for currency control and support and appoint additional ministers and undersecretaries.

The Ministry of Transport already has taken over the railoads.

**Certain Exports Banned**

During the night the Board of Trade banned, except under special permission, export of certain commodities including flour, vegetables and canned meats and fruits.

A large number of short term prisoners were said to have been released from London prisons.

Reports in parliamentary circles said cabinet members already had handed their resignations to Mr. Chamberlain to facilitate a revision should it become necessary to form a war cabinet.

Winston Churchill, First Lord of the Admiralty during the Great War, and Anthony Eden, former Foreign Secretary, wee considered in some circles as likely to be included in any new cabinet. Others mentioned were Arthur Greenwood, leader of Labor opposition in the House of Commons, Viscount Samuel and Sir Archibald Sinclair, Liberal Opposition leader.

**White Paper Issued**

A white paper last night made public the secret British-German diplomatic exchanges in the Polish dispute and declared that Germany offered Poland her "16-point proposal" for an adjustment without giving the Polish Ambassador time to communicate them to his government.

**Swiss Military Chief**

While the European holocaust swirls around outside the natural mountain barricades of their country, the citizens of Switzerland are hoping to preserve their neutrality—without fighting, if possible, but by resorting to arms if necessary. The armed forces of the tiny country are now up to war strength and in command is Colonel Commandant Henri Guisan, ABOVE.

# AUSTRALIA STANDS BY BRITAIN'S SIDE

### Prime Minister Menzies Declares British Nations of World Are As One

Melbourne, Australia, Sept. 2.—(CP-Reuters) — "We stand with Britain", Prime Minister Robert Menzies declared today in a statement on the threatened outbreak of war.

"The British Cabinet has made a momentous decision," he said. "Unless Germany withdraws from her attack on Poland Great Britain will take up arms to honor the guarantee solemnly given to defend civilized man from the evil doctrines of brutality and lawlessness.

"We do not realize what the price of terms of human life and happiness will be, but we know that the British nations throughout the world are as one.

"There is unity in the Empire ranks—one King, one Flag, one Cause. We stand with Britain."

Sir Winston Dugan, Acting Governor General, signed a proclamation declaring there is danger of war. The proclamation was signed following a meeting of the Commonwealth Cabinet. Sir Winston, Governor of Victoria, is Acting Governor General in the absence of Lord Gowrie, who is to be succeeded in November by the Duke of Kent.

Cable messages and mail addressed to foreign countries will be censored as a precautionary measure.

R. G. Casey, Minister of Supply, said Australian munitions factories are ready to enter maximum production immediately.

Sir Earle Page, leader of the Country Party, announced he and his supporters would back the government in the emergency.

## Warsaw Awakened By Air Raid Sirens But False Alarm

Warsaw, Sept. 2 (CP) — Warsaw awakened to air raid sirens at 5:45 a.m. today but no planes appeared and no firing was heard. The all clear signal was given in 20 minutes.

Marshal Edward Smigly-Rydz addressed a message to Poland's army, declaring:

"The time has come to fulfil our duty as soldiers. You are fighting for the existence and for the future of Poland.

"For every step the enemy takes on Polish soil he must pay heavily in blood.

"Confident in the righteousness of our cause and God's justice, each of us must make a supreme effort for honor and justice.

"Victory will be ours and our allies."

The government decreed censorship on telephone, telegraph and mail facilities.

## Conservative Leader Offers Services To Prime Minister

Ottawa, Sept. 2—(CP)— Conservative Leader R. J. Manion said whatever assistance he could give Prime Minister Mackenzie King and the Government would be give freel yand promptly.

Dr. Manion issued a statement a few hours after the Prime Minister announced Parliament would meet Sept. 7 and the Government proclaime da state of apprehended war existed.

All Conservative Members of the House of Commons had been asked to come to Ottawa in advance of the meeting of Parliament for a party caucus, Dr. Manion said.

Commenting on the crisis he said Mr. Mackenzie King had not followed the example of Prime Minister Chamberlain in Great Britain of consulting with leaders of Opposition parties.

In the event of war, he declared, there must be no profiteering as Canada's manpower and wealth were thrown into the struggle.

# Report Spreads German Armies Suspend Operations In Poland;

# Duke Of Windsor May Visit England

### NO TRUTH IN REPORT

Paris, Sept. 2 (AP)—A report spread in Chamber of Deputies lobbies today that the German armies have suspended operations in Poland.

This report said Germany's armies had not withdrawn but were resting in their positions a few miles within Poland.

The purpose of any such tactics, some Deputies close to the Government said, would be to try to force Great Britain and France to talk on unfavorable terms.

The Polish Embassy denied the report. French officials said they could not confirm it although they had the impression that the German numerical strength in Poland was not great and that German objectives were limited.

The Polish Embassy here issued the following communique:

"Rumors having been spread of a halt in military operations on the Polish-German front, the Polish Embassy announces that these reports are absolutely contrary to truth and without foundation.

"The struggle is developing at various points on the front, and attacks of the German air force on Polish cities have increased in intensity."

### GERMANY GIVES STATEMENT TO FRANCE

Prais, Sept. 2 (CP-Havas)—(Passed by French Censor)—A statement that Germany had not made itself guilty of any act of aggression was Foreign Minister Joachim von Ribbentrop's answer today to France's demand for an immediate cessation of hostilities in Poland.

French Ambassador Robert Coulondre called on the Foreign Minister yesterday to ask that hostilities be stopped immediately and German troops be withdrawn from Poland.

Coulondre was told to ask for his passports unless the German Government agreed to these demands.

### STATIONS IN GERMAN SILESIA BOMBED

London, Sept. 2 (CP)—(Passed by British Censor)—An Exchange Telegraph dispatch from Zurich, Switzerland, said today that railroad stations in three towns in German Silesia had been heavily damaged by artillery bombardments.

The dispatch said the stations were Gleiwitz, Ratibok and Beuthen.

Bad weather conditions, it added, are hampering German bombing squadrons.

### REPORT 130 PERSONS KILLED

London, Sept. 2 (AP)—(By Radio)—The British Broadcasting Company, in a news summary today, said that a Polish Telegraph Agency report declared 130 persons had been killed, 12 of them soldiers, in 94 German air raids on Polish territory. The number of seriously wounded, the report added, "is large".

### RUSSIAN AMBASSADOR LEAVES

Moscow, Sept. 2 (AP)—Soviet Russia has "relieved" her Ambassador to Germany, A. S. Merkaloff, of his duties, it was disclosed today.

A. A. Shkvartzeff was appointed to succeed him.

Merkaloff, who handled much of the important negotiations for the recently-signed non-aggression pact between Russia and Germany, was relieved "in connection with his appointment to other work".

### PARLIAMENT TO CONVENE

London, Sept. 2 (CP)—(Passed by British Censor)—The press has been advised that parliament will convene today at 2:45 p.m. (9:45 a.m. EDT). Earlier it had been reported parliament would meet at 11 a.m.

### SHIPPING NEWS CENSORED

Paris, Sept. 2 (AP)—All shipping news in Paris newspapers was censored today. The papers were reduced to four pages to conserve newsprint.

### DECLARATION OF WAR IMMINENT

London, Sept. 2 (CP)—(Passed by British Censor)—The belief was general in diplomatic circles today that a British declaration of war was imminent.

The King called a special session of the Privy Council, presumably to set up a war cabinet. Cabinet ministers were in almost continuous conference.

### WINDSOR MAY VISIT ENGLAND

Paris, Sept. 2 (AP)—Sources close to the Royal Family said the Duke of Windsor was flying to England today, returning for the first time since his abdication December 11, 1936.

It was believed the Duchess would go with him.

These sources said a pilot left Farnborough, England, this morning for the Riviera, where the Duke and Duchess have been living.

The plane's departure time for England was not disclosed.

Thus, the imminent threat of war apparently is to end a voluntary exile of nearly three years into which the Duke entered after leaving the throne to marry the twice-divorced "Wally" Simpson. He abdicated Dec. 10, 1936, and arrived in France two days later.

He has taken little action of political importance since Nov. 5, 1937, when the objections of labor men caused him to abandon a proposed survey of labor conditions in the United States.

He lately stepped into the public eye again with an appeal as "a simple citizen of the world" to King Victor Emmanuel of Italy to try to maintain peace.

The former King Edward has indicated his desire to serve the Empire again if needed.

"I am now a very happily married man," he once said, "but my wife and I are neither content nor willing to lead a purely inactive life."

The Duke and Duchess have spent almost all of their time in Paris and the Riviera. They have passed this summer at the Chateau de la Croe, on the Mediterranean at Cap d'Antibes.

**LEAD ITALY'S TWO ARMIES**

Following the division of the Italian fighting forces into two separate armies, Premier Mussolini announced that leadership of the first army would rest with the Prince of Piedmont, LEFT, with General Rodolfo Graziani, RIGHT, leading the second. The Prince is the son of King Victor Emmanuel and heir to the Italian throne, while Gen. Graziani won fame by his exploits as leader of his country's forces in its Ethiopian campaign.

# QUEBEC FEARS NAZI SABOTAGE

### All Necessary Steps Will Be Taken To Meet The Situation

Quebec, Sept. 2—(CP)— The Quebec Government has been advised that "certain Nazi and Communistic organizations were prepared to commit sabotage of public buildings and industries in the Province," Premier Duplessis told a press conference.

"We instructed Col. P. A. Piuze, Commissioner of the Provincial Police, to protect the people, properties and interests of this Province," the Premier said. "Col. Piuze has been advised to take all the steps necessary to meet the situation and all the special constables needed by industry will be sworn in."

Questioned on Quebec's view of the situation brought about by the outbreak of hostilities in Europe, Duplessis said "the attitude and position of the Premier and the Government of this Province are well known."

"It is up to Ottawa to decide Canada's policy in international affairs," he said.

"Quebec's National Union Government will do what it thinks is in the best interests of this Province and its people. We will protect Provincial matters with Provincial means and we will insist that the rights of Quebec and its people be respected and that the Province's autonomy is fully observed."

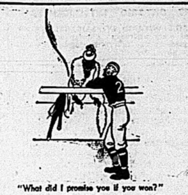
## U.S. Warned Not To Violate Neutrality In Danzig

Washington, Sept. 2—(AP)—The United States received, as a neutral, its first warning from the German Government not to violate neutrality in the air over Danzig and Poland.

The warning, forwarded to the State Department by the American Charge D'Affaires at Berlin, Alexander C. Kirk referred to neutral aircraft who are "warned in their own interest against flying over the territories mentioned."

**UMBRELLA PLUS**

Sights like this are not uncommon in England during the present tense days—a young business man, his inevitable furled umbrella in one hand, but slung over one shoulder, a knapsack containing his gas mask and "iron rations"—not knowing what might eventuate during the course of a single business day.



"What did I promise you if you won?"
"Right now I'll settle for a Sweet Cap."

SWEET CAPORAL CIGARETTES

"The purest form in which tobacco can be smoked."

# RAILWAY GUARDS VITAL POINTS

### Those Employed Will Be Experienced Railway Workers

In the face of gathering war clouds in Europe Canadian National Railways officials today placed guards on all railway bridges, roundhouses and coal chutes throughout the Belleville district, from Port Union to east of Gananoque, it was reliably learned today.

A total of 63 guards were placed on 24-hour duty throughout the Belleville district today, seven of which are employed in the Belleville C.N.R. yards, guarding the railway bridge over the Moira River, the coal shutes and the Belleville roundhouse.

Railway officials stated however, that only experienced railway employees, for the most part-time section hands, would be employed. "We have to employ men who know railroading and the exact procedure to employ if it is necessary to stop trains owing to sabotage," revealed high railway officials, who passed through Belleville today. The railway precautions have no connection with Provincial or Federal police activities in the matter of defence of property.

YOU CAN AFFORD AIR CONDITIONING IN YOUR HOME

The NEW

FESS FITZGIBBONS DIRECTAIRE

HEATS—CLEANSES—HUMIDIFIES

Combined with the FESS Quiet Model O—Canada's most popular oil burner—the FESS-FITZGIBBONS "DIRECTAIRE" provides a co-ordinated heating and air-conditioning unit that assures the utmost in convenience, reliability and economy.

Inexpensive, too! Cost-cutting manufacturing methods and engineering skill provide a dollar value unbelievable a few short years ago.

This FESS-FITZGIBBONS not only heats your home, but also cleanses the air and controls humidification, delivering just the right amount of moisture in the clean, warmed air it circulates to provide ideal conditions for physical health and comfort.

### Ultimatum

An ultimatum from Great Britain that unless Germany suspended action and withdrew her forces from Poland, Britain would carry out to the fullest her obligations under the Anglo-Polish anti-aggression pact, offered faint hope in the opinion of Prime Minister Chamberlain that Germany would comply. Mr. Chamberlain unhestitatingly placed the blame on Adolf Hitler, German Chancellor, for the outbreak in Poland and for the probable conflict which may spread to engage many nations as a result of the assault on Poland. Hitler's "senseless ambitions" is the cause of the misery to which mankind will be subject in any local or general conflict.

### Vaulting Ambition

"Vaulting ambition which falls on the other side" is a phrase which may aptly be applied to Adolf Hitler by those who believe that there is a human spirit of justice and righteousness, which permeates the races of men.

Adolf Hitler appeared on the world scene, the writer of a book, "Mein Kampf", which is to this day his prophecy. But it does not write the epilogue of his nation led into war, the greatest catasphophe which can befall the human race. That it will never be fulfilled as he wrote it is the fond hope of those who may be called to battle in the cause of justice.

Hitler had the greatest opportunity of any man, to bring Germany up out of defeat. But he chose to make her a menac to mankind. Somehow he, the corporal, must have forgotten the horrors of the war he knew. Had he chosen another path, he might have led Germany with the rest of the world into progress and prosperity. Had he stressed something else than power, Poland would not now be invaded by German hordes, shooting and killing in the first opportunity in almost twenty-one years.

Hitler must have remembered another "little corporal", who spent his last days on an island, a prisoner of a small acreage, though he was the man who marched up and down Europe for 20 years. That other little corporal set up kings and princes and ruled as Emperor. Hitler has never achieved that, so intense has been his hatred for any established order. The nearest he came to it was in a birthday parade at Berlin when he sat on what was virtually a throne covered with plush.

He will probably be known as one of the strangest figures in history, a lonely brooding type, who wielded many times the power which the old Roman Emperors enjoyed and dictatorial sway greater perhaps than any figure in history. Yet he has not even been a general, nor a broad-minded statesman like Julius Caesar or Alexander the Great, but a peculiar figure who arose on the weaknesses of a world which thought it had ended forever the clash of nations. His narrow national outlook and peculiar genius raised him to vast power and he wielded it without reserve to build up an army machine with which it is claimed he aimed to conquer the world. While he achieved many things for Germany, his dictatorship has a very grotesque appearance with its persecutions of the Jews, its absorption of his own Austria into the Reich without any semblance of justice and the great tragic error he made in Czechoslovakia.

For a Belgium, there is a stolen foreign state of Czechoslovakia and there is also a Poland which is now undergoing the horrors of modern warfare, shelling, fire, slaughter. To achieve that German troops march to the death of the Poles and themselves alike.

Hitler's rise has been meteoric and nations and individuals will hope his descent will be more rapid.

### War Danger Upsets Normalcy

Across the oceans and seas German ships have been scudding along as fast as possible to make German waters before the emergency. As in the days of 1914, today finds the British navy strong, mistress of the seas as ever and a German boat found far from home if general war should break would be easy capture.

Across the borders of countries which may possibly be at war thousands of people have crossed in the hope of reaching their homes whether they be in Europe or in America or elsewhre.

So great is the threat of war, forced on the world by the one-man government of Germany that men and women and children plan to live underground. That shows how outlandish war is as a means of settling disputes.

"TRADING STAMPS", THAT RACKET WHICH BEDEVILLED BUSINESS some years ago has raised its crooked head again and has been going full blast in and around Toronto, with stamps and books to paste them in and premiums of creaky furniture, dishes and what have you. This came to light in the arrest of two men in Toronto just as they were about to leave for England. It is alleged that the recent revival of the illegal trading stamp business flourished for a time until the premiums ceased to come, and then it languished. It will be remembered that a number of years ago the trading stamp racket was developed to large proportions with a store in every town for the display and redemption of premiums, and there was a stamp book in most homes. The Dominion Government passed an act outlawing the business and it ceased. From time to time various premium schemes have been devised seeking to accomplish the selling power of the trading stamps without incurring the penalties for infraction of the law— with more or less success, mostly less, most people nowadays believing that you get only what you pay for and anythihg got for nothing is generally expensive.

### BUSINESS AS USUAL

Dissatisfaction has been expressed recently among certain prison authorities that there are not enough editors and printers in state and federal penitentiaries to get out the prison papers. This is of grave concern to everybody, but no solution of the difficulty has yet been offered.

In the days when nearly all the printers got drunk and dressed up every Saturday night, and most of the editors had a judgment or a libel suit hanging over them, there might have been a chance to supply the needs of the institutions.

The difficulty is, that editors and printers are today pretty fair citizens, and fewer of them are sent to prison than of any other class, not even excepting the ministers.—A. E. H.

### THE SOFT ANSWER

A rejection slip is a sad blow to the hopeful author but one used some years ago by the Ziff Publishing Co. of Chicago had a smile in it despite its funereal message.

It was a very blue slip with a black mourning border, and a neat crepe in upper left hand corner. It read:

A BLUE SLIP FROM THE RED-HEADED PERIODICAL OF PROTEST.

We have gone over the manuscript you have been so kind as to submit to our surly editorial eye, but regret to say that it is not exactly suitable to our needs.

We hope that you sell it to some really good mag. which pays twict as much as would run us bankrupt ,and thereby get the laff on us.

But, in all seriousness, you may be sure that, drunk or sober, we shall be always happy to hear from you whenever you think you have anything along our line.

Call again.

Fraternally,
Ziffs
Badzib.

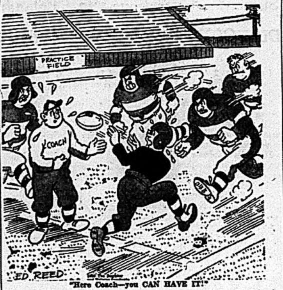
A cynic is a humorist with the misfortune to be born with a smile a trifle to one side.

### OFF THE RECORD

By Ed Reed



"Here Coach—you CAN HAVE IT!"

## Misprints, Readers Never See

Everybody, I suspect, has had a laugh at some time or other at the expense of his daily journal, for even in the best regulated newspaper office mistakes and misprints occur; and some misprints can be very funny. But for every howler the reader sees there are scores that are spotted before they get into circulation— typographical slips, telephonic mishearings, cable mistranslations, and the lapses of reporters and correspondents. As "copytaster" on a Fleet Street journal. I see all the millions of words that pour in daily, and all first proofs from the printers; and hardly a day passes without some gem of humour brighteneing the task. Let me quote a few from my scrapbook.

Here, to begin with, is a district correspondent's report of a wedding: "The bride wore an ivory gown and carried a bouquet of harem lilies." Yes, it actually happened.

Another spelling slip which nearly got into print concerned a vicar who told his flock that "Happiness depends upon having a heart ready for any fete." And a man accused of arson was said to have had "a flare for that sort of crime."

Last year the custom was revived of giving a breakfast to judges and legal luminaries following the appointment of new judges. This occurred in the report which reached me: "Following the service in the Abbey, the Lord Chancellor resuscitated his breakfast in the Royal Gallery of the House of Lords."

The following is an exact copy of two telegrams received from a correspondent:—

11.10 a.m.

"There is every prospect that the mysterious gentleman found drowned at—will be identified some time today. The police are hopeful that by this afternoon the body will be identified as being from London. As a matter of fact there is on the way from London this morning a gentleman who has communicated with the local police. His object will be to view the body and the clothing to identify. Seeing the clothing was made by a London firm of tailors it seems definite that he will be declared a Londoner and very likely a gentleman of good position. The name of the gentleman now on the way from London is not yet known by the police. All they know is that he will reach them this afternoon. What makes the matter indefinite in a slight degree is that the police who have the case in hand today received a letter and a photogragh from an—lady whose husband is missing."

12.40 p.m.

"There was an important development at —— at midday closely associated with ....... This was the arrival by the London express of someone the Metropolitan police had sent to try and identify the body which was about to be buried because of its condition. At—railway station a police sergeant was immediately interviewed by police officer and then by our correspondent. Spoke typical London language and in answer to our enquiry said he was certainly going to— but would not say who he was or whether he believed the body was the one he was going to identify. He would not say a word about anything because when we said You are going to see the body he replied I may be going to gather apples or pears. He then went to— by bus. His view of the body will decide his journey from London about two o'clock this afternoon. It is understood this unknown Londoner, has a friend missing."

I have no record of any further message to say whether or not the mystery was cleared up by the unknown Londoner.

A cinema manager, interviewed recently on the subject of falling receipts, was quoted as saying "It is because international events have become a counter-attraction."

Another local reporter sent in a story which he headed: "Fire in an Antique Factory."

Here is an "Important Mem. to Editors" sent by a news agency: "If you used our report of yesterday's proceedings under heading 'Woman Faces Double Manslaughter Charge' you may care to incorporate the following in today's report: "In our report of yesterday's hearing, it was inadvertently stated that Mr.——, for the prosecution, alleged that during dinner at a club before the accident, Miss—had hiccups. This should have read 'hock cup'."

Printers' errors and misplacements of type are a continual source of trouble—and humour. The story of the reporter who ended his account of a funeral by saying that: "One of the mourners fell dead at the graveside, and this cast a gloom over the proceedings" is probably only a story. But in the middle of a proof of a funeral report I recently discovered the disconcerting line: "Mrs.— said it was the happiest day of her life." It had strayed there from another story.

A heading on another proof, read "Died After All." And "Oldest Crooner Dead" came up as the heading for a nobituary of an aged coroner.

Tragedy seems to inspire mischance in the newspaper office. As a further example, the death of a respected citizen of a seaside town recently called for a poster for the locality. Perhaps the writing of the copy was bad. At any rate the poster appeared, instead of "Ald. Blank Dead," as "Old Blank Dead."

The poster which gave us the biggest laugh, however, concerned the adventure of some chimpanzees in Regent's Park recently. The copy read: "8 Zoo Chimps Escape." The poster appeared as "8200 Chimps Escape." Fortunately, all posters have to be passed before they are sent out.

Sub-editors, whose task includes that of spotting slips, are not above perpetrating them sometimes. One Wednesday morning for instance, a story from the Welsh border town was headed "Newport, Mon." And the sub-editor into whose hands it went altered it to "Newport, Wed.'—Nelson Davis in John O'London's Weekly.

## Fishing With Angus' Sister

Last Spring Angus Fraser's sister had come out from Scotland and Angus said that she was just crazy over fishing and suggested that we make up a party and take the ladies with us — I mean the girls. Angus is such a good feller we didn't like to say no. He's a minister, but he's all right; and of course he can cast a fly as none of us can because he's fished in Scotland and caught salmon, and what do they call them—gillies?

So we made up a mixed party and took along the ladies. Well, once you let women in on a trout stream you might as well send in a bunch of cattle. I never realized they could seem so darned noisy. And then, you see, you've got to fix up their lines, and this day we had even to bait their hooks, as it was to early and too cold for flies. That means that the women hang tight to you; you can't shake them—they just won't shake.

So I found myself with Angus' sister hooked on to me and I couldn't shake her. I'd put her in a good spot and tell her to stay right there, and then I'd dive through the brush across a bend in the river and in five minutes she'd be right beside me again—for a new hook and another worm.

I told her to try a cast and fitted on a lead and right away she hooked an elm tree—the one kind of tree that will catch up 30 feet of line and never let it go. That woman may have been crazy over fishing, but next time she can go and be crazy by herself somewhere else. The meanest thing about it was that Angus himself sneaked off alone away up the stream.

What made the day worse was that having the ladies with us we had to knock off fishing for lunch —I mean a real lunch all fussed up under a tree. We lost at least an hour over it. Any one who really knows trout fishing knows what it means to stop for lunch! Who wants lunch? All you need are sandwiches on one hip and something to sluice them down with on the other.

But with women there, nothing will do but a dolled-up lunch, with plates and napkins and a lot of stuff to wash up afterward. Luckily there's generally some nut among the men, a little soft on women, who will do the washing-up and give the other men a chance to beat it.

But on the whole, when you go fishing, you don't want any women along. Candidly, I don't think there ever was a woman born who really liked fishing. They just lie about it. Woman can lie and never know it.—Stephen Leacock in Rotarian (Chicago.)

## New Frontiers of Living

In the current print of that very able publication, the New England Letter of the First National Bank of Boston, is an article which we wish could be read widely. Captioned, New Frontiers of Living Standards, it shows the fallacy of the cry that we have come to the end of progress.

The "end of progress" claim, the New England Letter shows, is an old one. Thus in the 80's the then United States commissioner of hours predicted: "The nations of the world have overstocked themselves with machinery and manufacturing plants far in excess of the wants of production.... This full supply....is the most important factor of the present industrial depression.... The day of large profits is probably passed." Answer came in subsequent decades of the most spectacular and unparalleled prosperity. It saw the beginning and flourishing of the automobile, the radio, the aeroplane and many other things which have heightened the standard of living. New frontiers were made by science and invention, broadening the economic and social horizon and contributing towards human wants and employment.

About one-third of the people employed on this continent today, the New England Letter shows, are at work on jobs that did not exist 40 years ago. And the process is continuing. Over $250,000,000 is being spent annually in the United States and Canada on research, developing new products and processes, bringing new goods within the buying range of the masses of the people.

This is demonstrated by facts and figures. Thus the number of automobiles on this continent has increased nearly 25 fold since 1913, with the price of a car reduced about one-fourth in the last 14 years. Since 1900, it is estimated the automobile industry has paid out $82,000 million in wages. Wages that were unknown and employment that was unknown, 40 years ago.

Two generations ago the world still lived by lamp light. To-day, of the more than 35,000,000 homes in Canada and the United States, three-fourths are wired for electricity. About 85 per cent of the homes have radios, 70 per cent have electric irons and approximately 40 per cent have electric refrigerators, toasters and washing machines. These things bring not merely more human comfort and better living conditions; they bring work and wages for millions; more purchasing power for millions.

Take our own case of Canada. Forty years ago in this country we had one bicycle for every 80 people. To-day we have one motor car for about every ten people—and more bicycles.

Forty years ago we were without decent roads. As late as 1904 there were only 141 miles of paved road on the whole of the North American continent, less than a fifth of these in Canada. To-day paved roads stretch all over the country, cement roads, trunk gravelled roads, dirt roads for farmers—tens of thousands of miles of them.

Take working conditions, and wages. In 1900 the average day labourer received between 35 and 40 cents an hour, worked a 60-hour week. To-day the same labourer gets between 45 and 50 cents an hour, works a 48-hour week. And not merely are working weeks shorter; working conditions are better. We have factory, shop and office-building laws; the Building Trades Protection act; Fair Wage acts. In addition, we have mothers' allowances, workmen's compensation laws, old age pensions. Under all of them are paid out millions every year. Moreover, despite all the talk, we have more factories in this country today than ever before; more factories that employ more people and pay them better than before.

Farm life? We may have farm mortgages now, and debts and crop failures and in some cases destitution, yet farm life to-day is better than it was. Better on the whole. In the so-called "good old days" our mothers, or most of them, got up in the gray dawn, put a match to a wood or coal stove, got breakfast on it, proceeded to do the washing in a wooden tub, put the morning's milk in an old-fashioned cream separator, went on to other drudgery. To-day many of them get up to switch on an electric light, cook breakfast on an electric range; serve fresh food from a refrigerator. They go to electric washing machines instead of wooden tubs, take time out to read the morning newspaper that has been left at the farm gate, havo time in the afternoon to listen to a concert on the radio, if they want groceries they may pick up a telephone and call the nearest town or village. And when night comes they don't have to light a candle or an oil lamp; they may switch on an electric light—providing they haven't hopped into a motor car and hied themselves off to a movie.

And as with farm homes, so with city homes. There are no sheet iron stoves now, burning wood or sooty coal. Instead there is central heating, hot water or hot air, sometimes oil or gas burners. Always less of drudgery.

The good old days! Go back and look at the infant mortality rate, at the tragedy of grim scourges like scarlet fever and diphtheria, with their toll of thousands of babies. Count their cost, sum up their loss, then look at the same figures for these times. Look at them, remembering that even in those bad days people talked about the "end of progress."

And what has been the driving power behind this gain? The driving power behind it has been that capitalist system that so many now deride. The spirit of private enterprise operating under the fundamental principles of democracy which have provided free play for individual energy and initiative.

Coming months may see this country in an election campaign. May we not hope that campaign will see men and leaders able enough and courageous enough to meet the challenges that will come to our capitalist system, men who know enough of history and economics and the great surges of economic and social life to speak courageously and intelligently on what the capitalist system is about—on what it has achieved, on what it may still achieve. We may hope that, because we know, the crack-pots and money-doctors and the utopians notwithstanding that continued progress is dependent upon the prospect of reasonable return on capital investment and the safeguarding of property rights. As Abraham Lincoln, as true a friend of humanity as history has known, put it in a famous address in 1864:

"Property is the fruit of labour; property is desirable, and is a positive good to the world. That some should be rich shows that others may become rich, and hence is just encouragement to industry and enterprise.

"Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example insuring that his own shall be safe from violence when built."—Ottawa Journal.

### LA GUARDIA FOR PRESIDENT

In travelling around the country the name which was mentioned in regard to 1940 only second to Frar/lin Delano Roosevelt was Fiorello La Guardia. Many people in Michigan, Chicago, California and certain sections of Nevada wanted to know, "How can I vote for La Guardia for President in 1940?"

The only answer I could think of was, "I don't think you'll have any chance.'

There must be some flaw in our democratic procedure if a man who stands first or second on the preferred list loses the chance of putting himself to the test. I will readily agree that all kinds of confusion can occur if seven or eight candidates are running for the post of national executive. In that condition some minor candidate might come in to represent no majority whatsoever.

On the whole, our way of politics has functioned best under the two-party system. But where the danger lies is that the two parties may become so similar that we are actually under the reign of a single group. And in that direction Fascism lies. Two is company and three is a crowd. But a crowd may be the democratic way.

Going back to La Guardia, it is my opinion that he is by far the strongest man Republicans could nominate in 1940. But they're not going to nominate him, and so there is not much sense in talking about that.

Next to Roosevelt he is the strongest man the Democrats could nominate. But again, he has no chance in that convention.— Heywood Brown Columnist.

### TRUTH ABOUT 1918

One legend, that Germany was not beaten in the field, but "tricked into surrender" by reliance on President Wilson's promises has been repeated so often—it is being aired again today in articles on the 25th anniversary of the outbreak of war — that some people even in this country are disposed to believe there is something in it.

There is nothing in it—not one word. The demand for peace came not from the civilians but from the beaten army, which had been retreating for three months when the Armistice was signed.

Hindenburg and Ludendorff left the government no option. According to them even twenty-four hours' delay might mean new and grave disasters. It was on their insistence and theirs alone that the government approached the Allies and ultimately signed the Armistice on November 11.—London Spectator.

### REMARKABLE TROOP

One of Canada's interesting and successful school Boy Scout troops is sponsored by the agricultural school orphanage of St. Ferdinand de Halifax, Que., under Scoutmaster Victor Curmi. Of the 83 boys in the school at present, 52 are Scouts, by free choice, and carry on their Scouting as part of the daily school routine, using Lord Baden-Powell's "Scouting for Boys" as their textbook. They are organized into two troops, have a part of the big dormitory to themselves, and each morning in Scout fashion raise the Union Jack on its flagpole and sing the National Anthem.

Upon leaving the school the boys are placed by the government on land in Northern Quebec. — Boy Scout News.

## New Rights for Tall Girls

Miss Rowena Wheeler, who is six feet two inches tall and 21 years old, is out to organize a minority group to defend the right of tall persons to enjoy life. She ducked under a chandelier in the living room of her home at 3826 College Avenue yesterday afternoon, folded her long frame neatly on a low divan and began to relate the afflictions that beset the tall.

"When I have to stand up in a bus," she said, "I ride along with my head thumping the top even though I bend down. The bus doors are so low I'm always bumping my head getting in and out. We need longer beds and longer sheets. I have to sleep cater-corner in ber, and when I pull the bed clothes up around my neck my feet stick out.

"Now about this club I hope to organize," she went on. "I got the idea from a magazine article about the California Tip Toppers Club. It was started a year ago in Hollywood by Miss Kae Krysler, an artist at the Disney studio. Miss Krysler is six feet three inches tall. The club already has done wonders. They've even got a shop to handle clothes and hose especially for tall girls. They have parties and dances regularly, where they can meet people their own size."

Miss Wheeler explained the requirements for joining the Tip Toppers. Girls must be at least six feet tall and the boys at least six feet four inches.

One very definite plank in the Tip Toppers' platform will be the sponsorship of indirect lighting— "For" as Miss Wheeler explained, "there isn't anything much more embarrassing than striking your head against a chandelier in a strange house."

Miss Wheeler, only daughter of William Wheeler (six feet) and Emelie Wheeler (five feet four inches), hopes to find in the social side of the projected club a relief from the inferiority complex that attacks the tall person.— Kansas City Times.

## LOOKING BACKWARD

### GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

### 20 YEARS AGO

Sept. 2nd., 1919.

Capt. Dan Cameron of Ottawa spent yesterday in town.

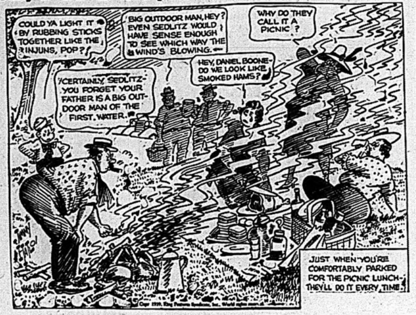
## They'll Do It Every Time :-: By Jimmy Hatlo



COULD YA LIGHT IT BY RUBBING STICKS TOGETHER LIKE THE INJUNS, POP?
BIG OUTDOOR MAN, HEY? EVEN SEDLITZ WOULD HAVE SENSE ENOUGH TO SEE WHICH WAY THE WIND'S BLOWING.
WHY DO THEY CALL IT A PICNIC?
HEY, DANIEL BOONE— DO WE LOOK LIKE SMOKED HAMS?
CERTAINLY, SEDLITZ— YOU FORGET YOUR FATHER IS A BIG OUTDOOR MAN OF THE FIRST WATER.
JUST WHEN YOU'RE COMFORTABLY PARKED FOR THE PICNIC LUNCH— THEY'LL DO IT EVERY TIME.

Copr 1939, King Features Syndicate, Inc., World rights reserved.

Mrs. Clarence Marshall called on Mrs. W. Marshall Saturday evening.

WILHELM FRICK

GENERAL KEITEL

FIELD-MARSHAL GOERING

DR. LAMMERS

DR. FUNK

RUDOLF HESS

The German government was placed on a war basis following Chancellor Hitler's decree appointing "A cabinet council for the defence of the Reich". The council, composed of the ABOCE members of the Nazi party, is empowered with full legal authority and can issue ordinances and decrees without Chancellor Hitler's signature. Chancellor Hitler, however, still holds the power to veto any acts taken by the council. Field-Marshal Hermann Goering, who was named to head the council, appears to be slated to become the German dictator of internal affairs in the time of war.

Rocco Perri, self-styled "King of Bootleggers" in Hamilton, Ont., was arrested by R.C.M.P. officers in Toronto and charged with a breach of the Customs Act. At the same time five customs officers were arrested at Windsor and charged with allegedly smuggling liquor.

Mr. and Mrs. Henry Wallace, Mr. and Mrs. John Wallace, and Mr. and Mrs. Delbert McCurdy attended the Exhibition in Toronto this week.

## 4th Sidney

4th. Sidney — Mr. and Mrs. J. Baikie of London, returned to their home on Wednesday having spent a week with the latter's parents, Mr. and Mrs. C. Vermilyea. Miss L. Vermilyea returned with them, where she will spend a couple of weeks with her sister.

Miss Doris Marvin spent the past week with Mr. and Mrs. H. Jeffrey, also Mr. and Mrs. W. Harry and children called at their home on Sunday.

Mr. and Mrs. F. Harris and the former's mother, Mrs. M. Harris, spent a few days last week with relatives at Madoc, and also spent a day with Mr. and Mrs. M. Shearns at their cottage on the Trent River.

Mr. and Mrs. W. Holmes and grandsons spent Sunday with Mr. and Mrs. Bailey.

Mr. M. Hannah spent a few days at the Toronto Exhibition.

Mr. and Mrs. B. Wannamaker and family spent Sunday with Mr. and Mrs. J. Hannah.

Mrs. C. Vermilyea and Mrs. A. Woods called on Mrs. F. Harris on Friday.

Master Donald and Calvin Holmes returned to their home at Windsor on Tuesday, having spent their vacation with their grandparents, Mr. and Mrs. W. Holmes.

## Moira

Moira — Mr. and Mrs. Wallace McInroy and family spent Sunday with Mr. and Mrs. Kenneth Ray, of Springbrook.

Mr. F. Regensburg accompanied by his mother, Mrs. Frank Vanderwater motored to "The Outlet" on Sunday where a family gathering was held.

Mrs. James Vanderwater and Miss Grace Vanderwater took dinner one day recently with Mr. and Mrs. Fred Ketcheson.

Mr. and Mrs. Frank Herity and Miss Evelyn Emerson motored to Guelph over the week-end where they visited relatives.

Miss Edith Crawford of Roslin, is visiting with her uncle and aunt, Mr. and Mrs. Nelson Welsh.

Visitors at the home of Mr. and Mrs. Wallace McInroy the past week were the Misses Geraldine and Sybil McLeaming of Stirling, and Master Gerald Clancy of Rawdon.

Friends are glad to learn Mrs. Walter Thompson has improved sufficiently to be able to return to her home.

Several from here attended the Quarterly Board Meeting held at West Huntingdon on Monday.

## Foxboro

Foxboro — Mr. and Mrs. Arthur Scott of Stirling, were recent Sunday guests at Mr. J. W. Daniel's.

Rev. Harding of Springbrook, occupied the pulpit in the United Church on Sunday evening.

Mr. and Mrs. Howard Badgley, of Thomasburg, were guests Tuesday at the home of Mr. Clare Finkle.

Mr. and Mrs. Harold Stewart and family spent the week-end with relatives at Hastings.

Miss Lois Spencer visited Miss Joyce Bell at Lindsay.

A number attended Belleville Fair during the week.

Master Jackie Stewart spent the week at Mr. Harry Hoard's of Hoard's Station.

Mr. and Mrs. D. A. Montgomery and daughters of Stirling, were Sunday afternoon callers of Mr. W. Hodgen's.

Miss Bernice Dainard spent the week with her sister, Mrs. Harold Stewart.

Miss Betty Hodgen spent the week with relatives in Belleville.

Miss Laura Cooke spent Sunday in Baltimore.

Mrs. J. P. Yorke is visiting her daughter, Mrs. D. Montgomery, in Stirling.

Mr. and Mrs. S. C. Gay spent the week-end at Weslemkoon Lake.

Miss Shirley Montgomery, of Stirling, spent a few days with her aunt, Mrs. Wm. Hodgen.

# Miss Marjorie Elliott Honored By Friends

Tweed — For the past six years Miss Marjorie Elliott had taught in the junior room of Actinolite Public School. Recently she resigned to accept another position. The pupils and parents of the school gave a farewell party in her honor, presenting her with a camera and a travelling case. The following address was read:

Dear Marjorie:

For six years you have been among us and in that time we have come to count you as one of ourselves.

Now, when we know you are going to leave us to go to another school we want to express our appreciation of all that you have meant to our community and to tell you how much we shall miss you.

Many of the boys and girls growing up here will always remember you as their first teacher and the parents of the children join with the young people here tonight in wishing you happiness and success in your new school. The Young People's Society of the United Church miss you from your place as organist, a position you filled for them for several years. You set a good example for all of us by never refusing a request to take part in a meeting or to help in any way you could. Your talent for song and music has added enjoyment to many of our social evenings.

Your kind and cheerful disposition and your willingness to co-operate in any church or community activites have endeared you to us all, and we feel sure that those same qualities will win friends for you wherever you may go.

We hope this gathering tonight will always be a happy memory for you of the days spent in Actinolite and now we have great pleasure in presenting to you these gifts with our sincere good wishes and as a token of the kindly feelings we have for you. Don't forget that you will be always welcome among your old friends here.

Signed on behalf of your friends in this community:

Rev. E. D. Snelgrove.
Florence Hale.
Nettie Kleinsteuber.
Bill Nolan.

Mr. and Mrs. Harold Varty spent ten days in Schenectady and New York City. While in the former city they were guests of their cousin, Senator and Mrs. Thomas C. Brown.

Mr. William Robinson of Calgary, is a guest of Mr. and Mrs. W. L. Ketcheson.

Mr. and Mrs. Hugh Murray and Mr. and Mrs. Grant Murray of Oshawa, were guests of their mother, Mrs. James Murray.

Mr. and Mrs. Fred Mitchell spent several days on a trip to Montreal.

Dr. Charles Clare, Mrs. Clare and Miss Patricia of Winnipeg, are the guests of Mr. and Mrs. W. L. Ketcheson and other friends of the district.

St. Andrew's Church and Sunday School held its annual picnic on Sugar Island on Wednesday afternoon. The younger members of the group as well as many of the adults enjoyed an afternoon of sports, swimming and boating. Supper was served at six o'clock and everyone thoroughly enjoyed the outing.

Narrowly escaping serious injury when an emery wheel burst, Mr. F. L. Trudeau of Tweed, will be unable to carry on his work for some time. He sustained a fractured rib and a badly cut chin when struck by flying sections of the wheel.

Tweed Tennis Club completed the season in first place after playing a number of thrilling matches with the other teams of the league. The final standing was:

| | Won | Lost |
|---|---|---|
| Tweed ............... | 28 | 7 |
| Skating Club ......... | 26 | 9 |
| Trenton ............. | 24 | 11 |

Other clubs in the league were Point Anne, Bay of Quinte Tennis Club, Madoc-Marmora, and Campbellford. Tweed and the Skating Club of Belleville are engaged in a play-off series for the tennis trophy. Tweed was successful in capturing the opening round 4 to 2 on Wednesday.

Mr. Wm. Ryan, B.A., has been named vice-principal of Kennedy Collegiate Institute, Windsor. Mr. Ryan was a former member of the Tweed High School staff.

Mr. and Mrs. Gordon Dallyn and son Pat of Ottawa, spent several days at the cottage of Mr. and Mrs. Fred Houston on Stoco Lake. Mr. Dallyn was former Chief Forester of Tweed district. He is now the editor-in-chief of the Canadian Geographical Journal.

Mr. H. J. Cordy, superintendent of Nichols Chemical Co. plant at Sulphide arrived at Quebec en route to the British Isles and Europe, but owing to the state of uncertainty on the continent cancelled his reservation and returned home.

Miss Mavis McGuire, M.A., left this week for Blenheim where she has accepted a position on the staff of the High School. Last year Miss McGuire taught at Norwood.

Mr. and Mrs. A. J. Maynes and son Robert are attending the C.N.E. in Toronto this week.

Mr. and Mrs. J. W. Patterson of Kemptville, were guests of Rev. and Mrs. H. L. Morrison at the parsonage.

### Fair Board Meets.

Tweed Fair Board met in the Council Chambers on Monday with President Rush in the chair. The minutes of the last meeting were read and adopted.

Moved by Dennis Fleming, seconded by Stanley Tufts that the board accept Mr. Thomas Mason's offer of loud speakers for the Fair.—Carried.

The following judges were appointed:

Horses—Fred Bennett, Campbellford.

Beef cattle—William Elmhirst, Indian River.

Dairy cattle—Wm. Hume, Campbellford.

Swine—To be appointed later.

Sheep—Alex Hume, Campbellford.

Ladies' work—Mrs. Elmer Duffy, Maberley.

Poultry—Wm. Fitchett, Stirling.

Cheese—Charles Linn, Stirling.

Roots and vegetables—F. W. Bamford, Belleville.

Grain and seeds — Pat O'Keefe, Belleville.

Fruit—Dr. P. T. Bowlby, George Gordon, Tweed.

Bottled goods—Mrs. S. G. Graham, Mrs. D. Fleming, Tweed.

Domestic science — Mrs. W. M. Keilty, Tweed.

Flowers—Mrs. G. Bonisteel, Belleville.

Children's department—Mrs. Kenneth E. Belch, Miss Maude Hammett, B.A.

Baby show—Mrs. Ida Douglas, Reg. N.

Manual training—Joseph Rashotte.

Contests—Dancing, Stan Tufts, S. B. Rollins, S. H. Connor.

Moved by Harry Coulter, seconded by A. Montgomery that Tweed band be employed for the second day at the usual payment of $20.00.—Carried.

The board decided to hold a livestock parade at the conclusion of judging at 4:30 p.m. with A. C. Blakely and President Chas. Rush in charge.

Mr. Geo. O. Tice was chosen as starter for the horse races.

The secretary was instructed to consult the ladies of Tweed United Church with regard to serving dinners on the grounds.

An effort will be made to encourage flower growers to enter their exhibits in the flower section to build up this department of the fair.

Moved by Stan Tufts, seconded by Dennis Fleming that all public school children of the district be admitted free to the grounds.—Carried.

### Annual Tourney.

Tweed Bowling Club held its annual tournament on Wednesday afternoon with ten rinks engaged in a fine afternoon's sport. There were five local rinks, two from Stirling, one from Madoc, Trenton and Kingston. The local players dominated the play winning two of the three prizes. C. H. Kerr and John Sager were the skips of the local rinks and Mr. Heagle of Kingston skipped the winning rink for third prize.

C. H. Kerr's rink won three games with a score of 40. It was made up of Mr. and Mrs. W. A. Beatty and Mrs. W. E. Prust. Their prizes were lace table cloths, bed spread and blanket.

John Sager's rink won two games with a score of 37. It was composed of Mrs. Sager, Miss Annie Prost and Arthur Beach. The men received shirts and the ladies bedspreads.

Mr. Heagle's rink had one win and a score of 29. It was made up of Mrs. Heagle and Mr. and Mrs. McBride. The prizes were luncheon cloths and pictures.

# Murray Canal District

Murray Canal—Miss Laura Mason, Springbrook, is spending a few days at the home of Mr. and Mrs. Jack Ketcheson.

Mr. Keith Freeman spent the week end at the home of his parents, Mr. and Mrs. John Freeman.

A number in the district attended the old time dance at the Presqu'Ile Pavilion.

Messrs. Thomas and Charles Simpson spent Monday at their home here.

Mr. and Mrs. D. Hough and family of Oshawa, spent a day last week at the home of Mr. and Mrs. Cecil Fitchett.

Mr. Neville Harvey motored home from the tobacco fields on Saturday and spent the week-end with his parents, Mr. and Mrs. Gordon Harvey.

Mr. and Mrs. J. Ketcheson entertained company from Springbrook one evening last week.

Mr. Harry Flindall entertained company from St. George's over the week end.

Mr. and Mrs. Arthur Flindall entertained company from Rochester, on Tuesday.

The W.A. held an afternoon tea at the cottage of Mrs. E. T. Marsh of Villa Park, on Tuesday afternoon with a fair attendance.

A number of young men returned from a fishing trip in the north country on Saturday.

Mr. and Mrs. Arthur Hayes attended the funeral of their uncle, Mr. D. Stuart Codrington on Thursday.

Mr. and Mrs. Finlay Sills accompanied Mr. and Mrs. R. Makins on a motor trip to Quebec this week.

Miss Helen Moran of New York City is holidaying at the home of her mother, Mrs. Frank Moran.

Mrs. L. Burley spent Sunday at the home of her sister, Mrs. M. Cullough.

Mr. and Mrs. Wm. Seward entertained company from Brighton and Stockdale recently.

Mr. and Mrs. Wm. Loxley and son and friends of Schromberg, motored down on Saturday and spent the week end at the home of Mr. and Mrs. H. Bedal.

Miss Mae Chapman spent last week at the home of her sister, Mrs. L. Bisby, Smithfield.

Miss Ellen Laudier spent the week with Mr. and Mrs. C. Weese, Smithfield.

At last it's time to put away these summer bags and select a bag to bridge the gap until leather models appear. A beauty is of black grosgain done in ruffles with a clasp of prystal. The grame is grosgrain covered.

Feathers fly onto the new hats. A new model is a tiny tricorne of black velvet with rose-geranium ostrich feathers cascading down the back.

# Woods Family Hold Annual Picnic At Tweed Memorial Park

TWEED—The Woods family reunion was held in Tweed Memorial Park on Wednesday, Aug. 30 with an attendance of seventy-five. Threatening weather kept the number below that of last year. Members of the family from the United States, Quebec and Ontario gathered together to talk over their experiences of the past twelve months.

Presentations were made to Mrs. Margaret Curtis, Madoc, the oldest person present; Mr. Samuel Woods of Quebec, who travelled the greatest distance; little Nancy Thompson, infant daughter of Mr. and Mrs. Bernard Thompson, Watertown, N. Y., the youngest person present.

The following were elected as officers for 1940: President, Robert A. Woods, Madoc; vice-president, Alfred Woods, Belleville; secretary-treasurer, Mrs. James Pitts, Madoc; executive, Kenneth Holland, Crookston, and William Woods, Tweed.

A program of sports was arranged by a committee composed of Mr. and Mrs. Harold Campbell, Trenton; Miss Hilda Kilpatrick, Ivanhoe, Francis Harris, Cooper, and Cecil Woods, Crookston.

The following were winners of the sports events:

Girls' race, 1 to 4—Wilma Lough.
Boys' race, 1 to 4—Ivan Woods.
Girls' race, 5 to 8—Gwen Woods.
Boys' race, 5 to 8—Aldy Holmes.
Girls' race, 9 to 12—Ruth Woods.
Boys' race, 9 to 12—Elmer Thompson.

Thread and needle race — Nita Woods and Milton Thompson.

Wheel-barrow race, Cecil Woods and Lyman Holmes.

Young women's cracker race — Pearl Woods.

Obstacle race—Mrs. Robt. Woods.

Tug-of-war—Married men. Harold Campbell's team defeated Frank Wood's team. The losers treated the winners.

High jump—Ernest Woods, Clarence Woods.

The family reunion in 1940 will be held in Cooper on the last Wednesday of July. (Madoc paper please copy).

# Miss Ferne Patterson Honored By Friends

On Saturday evening, Aug. 26, the friends and neighbors of Mr. and Mrs. John Patterson of Carmel gathered at their home to honor their daughter, Miss Ferne Patterson, a popular young bride-to-be with a shower and presentation. It was a beautiful summer evening and a happy social time was spent together with the crowd overflowing onto the attractive lawn. When the guests were all assembled Rev. A. Armstrong presided over a short program consisting of instrumental music by Willet Pitman, vocal duet by Misses Hazel Hicks and Marion Waddell and solos by Carman Dafoe. Mr. Armstrong made a few appropriate remarks and Miss Patterson was asked to come forward.

Mr. Matthew Jones and Mr. Seldon Homan presented her with a walnut tea wagon on behalf of the trustee board and from the congregation of Carmel Church in appreciation of her faithful services as pianist and choir leader having missed only one service in nine years.

Miss Margaret Reynolds then read the following address:

Dear Ferne:

Friendship is a golden chain,
Which binds us all together.
The links are love and loyalty,
So strong that none can sever.

Ferne, your friends of Carmel have met to spend another evening with you before you leave to set up a new home in Stirling.

We are glad of this opportunity to honor you, who have been such a valuable worker in our community. You have given freely and cheerfully of your time and talents to our church work, as a president of the Young People's Society, teacher in the Sunday school and pianist and choir leader of the church. In sincere appreciation of these contributions we extend to you our very best wishes for your future happiness, as you arrive at this important milestone in your life.

We congratulate Don on his choice of a life partner, and although we are sorry to lose Ferne we know it will be Stirling's gain. As you begin your life together, we trust you will walk hand in hand down the years. May love and joy rule supreme in your new home. There will be times along your path when the way may not be easy, but if you put your trust in God, there will be sunshine behind the clouds.

Home is not made of wood and stone,
But of rare seeds that love has sown;
Home is your field of honor, there they wait,
The battles to be faced, and fought and won.

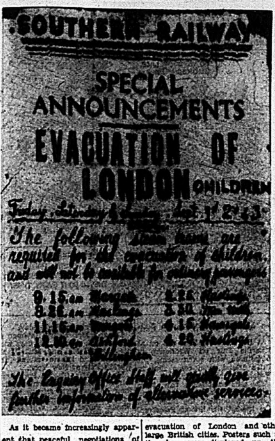
As a slight token of our esteem and love we ask you to accept these gifts, knowing we all wish you health, happiness and prosperity throughout your life. May these gifts bring pleasant memories of your Carmel friends.

Signed—Mrs. Seldon Homan, Mrs. John Reynolds.

Two little girls carried in a basket laden with varied and useful gifts for the new kitchen. Miss Patterson expressed her thanks in a gracious manner as did also Mr. Don Williams.

Back again to baby days, wearing a bib, but these bibs are a bit different. With a plain, high necked black crepe dress one woman wears a bib of colored stones and simulated pearls strung on flexible gold wire.

## A CALL FOR EVACUATION



SOUTHERN RAILWAY

SPECIAL ANNOUNCEMENTS

EVACUATION OF LONDON CHILDREN

The following trains are required for the evacuation of children

As it became increasingly apparent that peaceful negotiations of the German-Polish dispute were to fail, Great Britain ordered the evacuation of London and other large British cities. Posters such as the above were displayed on the streets of London, bearing instructions for the evacuation of children.

## LARGEST U. S. MERCHANT SHIP LAUNCHED

Mrs. Franklin D. Roosevelt, wife of the U.S. president, is shown as she cracked the traditional bottle of champagne on the bow of the S.S. America, as she officiated at the launching ceremonies at Newport News, Virginia. The liner, expected to be put into service next year, is the largest merchant vessel ever built in the United States.

## FOR DOWNING ST. EMERGENCY STAFF

In the present days of constant emergency, the famous No. 10 Downing Street, is the focal point of conferences and visiting officials and this picture shows bedding being taken into the home of the prime minister for the emergency staff, enlarged by the unusual circumstances.

IS YOUR HOME READY FOR FALL ENTERTAINING?

How does your home look in the critical after-holiday survey? Those Drapes, Rugs and Overstuffed furniture look a bit grimy don't they? Why not prepare right now for Fall by having such articles renewed by our perfect method?

PHONE 2277

MODERN
CLEANERS and DYERS
PINNACLE AT STATION STREET

# DEFENCE FORCES

*(Continued From Page One)*

At the emergency session, Mr. Mackenzie King said yesterday, the government will ask authority for "effective co-operation by Canada at the side of Great Britain."

The militia, air and naval services are already on an active-service footing as a result of the Prime Minister's proclamation yesterday of the War Measures Act of 1914. Volunteers are flocking to regimental posts, seeking to serve the British Empire at home or aboard.

### Canadians Face Reality

Hon. Sam Gobeil, Postmaster-General in a past Conservative administration, said in a statement that "should another war be declared by the King, a very large number of our men of French descent will rush to our battalions."

Still scarcely able to believe that fighting has burst over Europe, Canadians came face to face with the reality when grocers refused to sell more than five or 10 pounds of sugar at a time and augmented guards were placed over public works and utilities.

Nova Scotia, New Brunswick, Ontario, Manitoba and Saskatchewan cabinets met yesterday to draw up plans for guarding power plants and industries. At Quebec Premier Maurice Duplessis said his government had been advised certain Nazi and Communist organizations were prepared for sabotage on industries and public buildings in Quebec.

### Canadian Active Service

Defence Minister Mackenzie announced at Ottawa that the militia forces being called on for active service will be known as "the Canadian Active Service Force." The men are to be paid on a basis of $1.30 daily, instead of the $1.1 basic rate paid during the Great War.

The Royal Canadian Air Force has been authorized to recruit up to full peace-time establishment, involving a substantial increase in the present personnel. Mr. Mackenzie said the permanent naval services already are on active service and the reserve naval forces will be called up gradually, as their services are required.

Newspapers learned that chief press censor probably will be appointed immediately.

But the reality of the crisis wasn't evident for the Canadian citizen so much in announcements as in the appearance of khaki uniforms on the streets, and in the farewells at railway stations as members of the permanent and the non-permanent forces left to see service within the Dominion.

### Typical Scene of Activity.

Military District No. 1, Southwestern Ontario, was an example of the flurry of activity. There, besides the men who have gone to Halifax to aid in coastal defence, an estimated 5,200 men are being raised.

Major Russell Beattie was appointed recruiting officer for Western Ontario with headquarters at London. Twelve medical boards were named to function under Col. E. G. Davis to examine volunteers.

Parades were held in many armories last night and volunteers were called for. It was said medical examination requirements will be severe.

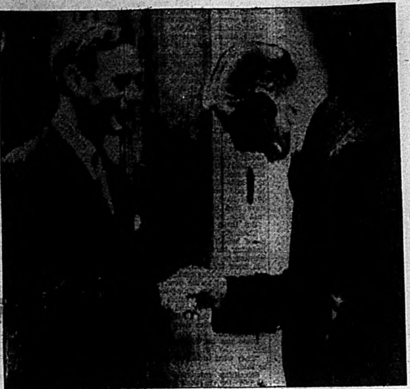
Within three weeks the Western Ontario units are expected to go to camp for intensive training — the cavalry, infantry and army service corps units to Camp Borden, the artillery and engineers to Petawawa, the signals to Barriefield and the medicals to Valcartier.

## LONDON HOSPITALS EVACUATED

As events rapidly led to the declaration of armed force by Germany against Poland, British authorities ordered the evacuation of London hospitals beginning immediately. Here is seen, in this cablephoto, one of the patients of a London hospital being removed on a stretcher early Friday morning.

Ann Sheridan and Richard Carlson in a scene from "Winter Carnival" which will be presented at the McCarthy Theatre Sunday midnight.

### KING GEORGE MAKES UNPRECEDENTED VISIT TO NO. 10 DOWNING ST.



To save Prime Minister Chamberlain the necessity of going to Buckingham Palace for an audience in this critical time, King George broke all precedents when he visited the Prime Minister at No. 10 Downing Street on Friday night to confer with Mr. Chamberlain on England's decision to forcefully inform Germany that Great Britain would fulfill her obligations to Poland unless Germany ceased aggression immediately.

### POLISH TROOPS MARCH TO GUARD BORDERS

With the world poised on the brink of the worst catastrophe in history, Polish troops are shown here marching through the town of Teschen as they took up positions to defend Poland's borders from the advancing forces of Chancellor Adolf Hitler. With peace negotiations broken off, it appeared on Friday as if nothing short of a miracle could stop the bloody war which already had started as German troops entered Polish territory early Friday morning and German bombers unleashed their deadly cargos on Polish cities and towns.

### BRITISH TOMMIES PROTECT BUCKINGHAM PALACE

With peace negotiations broken off and the armed forces of Poland and Germany already clashing on the Polish borders, British soldiers were busy on Friday preparing important buildings in London for air raids. Here they are shown placing sandbags around an air raid shelter outside of Buckingham Palace.

# A. MERKALOFF LEAVING POST

### Russian Ambassador To Germany Appointed To Another Post

Moscow, Sept. 2.— (AP)— The Russian Ambassador to Germany, Alexis Merkaloff, has been "relieved" of his duties "in connection with his appointment to other work", it was announced today.

Merekaloff played an important role in negotiation of the Russian-German non-aggression pact. He will be succeeded by A. A. Shkvartzeff.

Soviet newspapers today lauded Russia's position as compared to that of western European states.

The government newspaper Izvestia said the country had a "completely independent" foreign policy, asserting the Soviet government was carrying out "the principle of Lenin in the peaceful co-existence of two (political) systems."

The Communist party newspaper Pravda said "Western Europe is plunged into alarm but Moscow is bright and as cheerful as always. There is no danger of war with Germany. Amateurs who attempted to make other people pull their embers from the fire are protecting their bank cellars with sandbags. Some of them may burn their own fingers".

However, anti-air raid blackouts are being carried out nightly in various parts of the city.

# Polish Ambassador Never Given Chance To Communicate Proposals Of Germany to his Gov't

### British White Paper Makes Public British-German Diplomatic Exchanges In The Polish Dispute Respecting "16-Point Proposal"

London, Sept. 2 (AP)—(Passed by British Censor)—A British White Paper making public British-German diplomatic exchanges in the Polish dispute asserts Germany broadcast her "16-point proposal" for settlement of differences with Poland without giving the Polish Ambassador an opportunity to communicate them to his government.

The following case was set forth by the White Paper last night:—

On Aug. 29, Fuehrer Hitler, in a note handed to Sir Nevile Henderson, British Ambassador to Berlin said that, in spite of Poland's rejection of German proposals in March and subsequent "barbaric actions of maltreatment . . of the large German National group in Poland," he agreed to accept Britain's offer of aid in "securing the dispatch to Berlin of a Polish Emissary with full powers."

The German government, Hitler said, "count on the arrival of this Emissary on Wednesday, 30th August, 1939," or 24 hours later.

**Wired on August 30**

At 2 a.m. on Aug. 30, Prime Minister Chamberlain wired Sir Nevile that "we shall give careful consideration to the German government's reply," but that it was "unreasonable to expect that we can produce a Polish representative in Berlin today.

At 6.50 p.m. of the same day, Mr. Chamberlain again wired the Ambassador because of Germany's insistence on the arrival of a full-powered Polish representative.

"We cannot advise the Polish government to comply with this procedure," Mr. Chamberlain said, and urged Sir Nevile to suggest that the German government "adopt the normal procedure" of handing their proposals to the Polish Ambassador for transmission to Warsaw.

The British Ambassador gave the British note to the German Minister for Foreign Affairs at midnight on Aug. 30.

**Proposals Read Rapidly**

"Herr Von Ribbentrop's reply," the White Paper says, "was to produce a long document which he read out rapidly in German. It was apparently the 16-point plan which the German government have since published. When Sir Nevile Henderson asked for the text of these proposals . . Herr Von Ribbentrop asserted that it was now too late as the Polish plenipotentiary had not arrived by midnight."

During the afternoon of Aug. 31, according to the White Paper, the Polish government learned of these developments and informed the British government that they would authorize their ambassador to advise Berlin that Poland had accepted Britain's proposals for negotiations.

"The Polish Ambassador in Berlin (Joseph Lipski) was not received by Herr von Ribbentrop until the evening of Aug. 31," the White Paper states. Immediately after the interview the German government broadcast its 16-point plan, asking primarily for the return of Danzig and a plebiscite in the Corridor.

**No Communication Possible.**

"M. Lipski at once tried to establish contact with Warsaw but was unable to do so because all means of communication between Poland and Germany had been closed by the German government," the White Paper concluded.

(In Berlin German officials heatedly denied Polish and British charges that Warsaw had had inadequate or no notice of Hitler's 16-point offer of adjustment with Poland.

(British radio reports there that Britain did not receive Hitler's program for transmission to Poland drew especial fire.

(It was stated emphatically that the proposals were given the British Ambassador and that the German Foreign Office waited two days for a Polish representative to come and get his copy.)

In their earlier negotiations, Prime Minister Chamberlain and Fuehrer Hitler had come to at least two major points of agreement:

1. That if there was a war, it would be a long and bloody one.

2. That settlement of Polish-German differences was essential before a "lasting understanding" could be effected between Britain and Germany.

**Settlement of Differences Necessary**

In regard to closer Anglo-German relations Mr. Chamberlain, in replying to Hitler's communications of Aug. 23 and 25, wrote on Aug. 28 that there must first be "a settlement of differences between Germany and Poland."

"Everything, however, turns upon the nature of the settlement and the method by which it is to be reached. On these points, the importance of which cannot be absent from the Chancellor's mind, his (Hitler's) message was silent .... The German government will be aware that his Majesty's government have obligations to Poland by which they are bound and which they intend to honor.

"They could not, for any advantage offered to Great Britain, acquiesce in a settlement which put in jeopardy the independence of a state to whom they have given their guarantee."

He warned that failure to reach "a just settlement" would "ruin hopes of better understanding between Germany and Great Britain, would bring the two countries into conflict and might well plunge the whole world into war. Such an outcome would be a catastrophe without parallel in history."

Hitler's answer on Aug. 29 said: "The German government have never had any intention of touching Poland's vital interests or questioning the existence of an independent Polish state."

# HITLER FRAMING

*(Continued From Page One)*

It was understood that Sweden took over Poland's interests in Germany, just as Germany arranged to have the Netherlands represent her when the German Embassy in Warsaw ceases to function.

The British and French Embassies continued to function, however. Both Ambassadors Sir Nevile Henderson and Robert Coulondre were on the job, awaiting Hitler's reply.

Categorical denials were isued by authoritative quarters that Germany was using or, in the course of present operations, had used gas or incendiary bombs.

**Communiques Once a Day**

Foreign correspondents were asked to deny on the basis of their own experience that Polish bombs had fallen on Berlin.

Beginning Sunday noon, correspondents were told, military communiques will be issued once daily. Except for events of greatest magnitude—such as the capture of Warsaw or another large city — there would be no communique beyond this one.

A Russian military commission of four or five high officers was reported due late this afternoon. As they are coming by plane and as the new Soviet Ambassador is expected immediately, informed quarters believed the same plane would bring both.

The newspaper Nachtausgabe this afternoon carried another report on the military situation from the supreme high command.

**Pass Quickly Taken**

Its communique said: "German troops on the afternoon of Sept. 1 successfully continued to advance on all fronts.

"Early this morning forward movements were continuing everywhere. Jablonka Pass was quickly conquered. Numerous enemy planes were annihilated when our air force attacked and destroyed Polish airdromes."

(Jablonka Pass is the most important gateway into southern Poland from Slovakia.)

The German press today carried undated reports by the official German News Agency from the corridor which stated the Swastika is flying in all villages with German population.

Germans are gratefully "heiling" the German troops, these reports said.

In enthusiastic reports on the first day's operations the German High Army command declared that Westerplatte, Polish munitions depot in Danzig Harbor, had been taken, that Germany was in "complete control of Polish Air" and that German troops striking from East Prussia were "deep in Polish territory".

The army communiques also said advances of German troops and air force that estarted from Pomerania and Silesia early yesterday were well underway toward their objectives.

Troops from East Prussia streamed into Danzig, which the commander of the German Army, Col. Gen. Walther Von Brauchitsch, declared had become a zone of military operations.

**Possess Danzig Railways**

Albert Forster, head of Danzig's Nazi government, immediately took possession of the area's railways, formerly operated by Poland, their rolling stock, and harbor wharves.

Berlin political circles warned that Great Britain "will pay the bill" if it enters into a war against Germany.

"Germany is ready to fight even a ten-year war for its rights and the final peace of Europe", a commentary issued by the official news agency said.

Berlin's first night blackout as a protection against possible air raids passed uneventfully with no signs of undue alarm among civilians.

Sandbags were laid across basement windows of business houses to protect air defence cellars. Museums took similiar steps to guard valuable art objects.

**Forbidden to Listen**

To guard against Foreign propaganda, the newly created Cabinet Council for National Defence in its first decree prohibited Germans from listening to foreign radio reports.

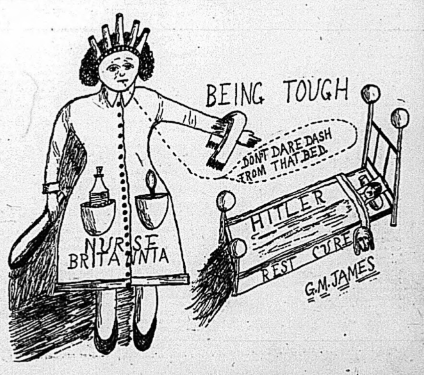
The decree laid down penalties as severe as death for "spreading false reports". The council's drastic action appeared to be in reaction to radio news bulletins from Warsaw and other cities regarding the German bombings of Polish towns which sources here said were false.

### BRITISH PRIME MINISTER FINDS TIME TO SMILE

A face familiar to millions smiles as if cares and troubles were farthest from his mind, but few men in the world are going through the physical and mental stress that must be endured by Prime Minister Neville Chamberlain as the world again seemingly plunges into the seething cauldron of war. Mr. Chamberlain was on his way to Buckingham Palace to acquaint the King with the latest developments when this picture was taken.

### LONDON SANDBAGS HOSPITALS

Preparations to protect London hospitals and other important buildings in the Empire's capital were rushed upon receipt of news that Poland had formally invoked the aid of Great Britain and France, following attacks on Poland by the armed forces of Germany. Soldiers are pictured here as they rushed sandbag barricades to protect St. Bartholomew's Hospital on Friday.



# THE GLASS SLIPPER

### By Mignon G. Eberhart

"He—he said she was alone."

"Would she have ordered a cocktail, poured it into a potted palm and ordered another, if she'd been alone? No, the way we figure is she went there with somebody who insisted on her having a drink. She said all right, just to be agreeable; you—and the nurses who knew her—insist she never drank. Well, then she watched her chance and poured the cocktail into the plant at her elbow. The second cocktail she drank; perhaps her companion actually went to the bar to get it and put poison in it on the way to the table. We've ascertained that there was no waiter at that hour; it's a small place. So far the bartender has admitted nothing of the kind; but it sounds reasonable. Well, her companion could have been Steven Hendrie. That restaurant is exactly two minutes from here by taxi. You wouldn't have noticed a lapse in the sound of the piano."

That wasn't all the detective had to say.

"Then there are the letters," he went on. "Whoever wrote those letters knew something. You've been asked about those letters; we've made every possible inquiry. We may right now be on the right trail; Funk thinks he's getting warm. But I—I want to impress upon you, Mrs. Hatterick, the importance of those letters. If you are innocent....." He looked at her in silence for a moment. "If you are innocent I can't put too strongly the importance that the discovery of the authorship of those letters might be to you. Do you understand?"

"But I don't know who wrote them. I know nothing of them," said Rue hopelessly.

He looked at her searchingly, then went to the door. "Tell Funk to come in here," he said to someone outside.

And when the little Funk slipped—sideways, scared-looking, none too clean—into the room, Angel said: "Show her the chart."

"Chart!" cried Rue.

"It was in the maid's room, crumpled up in the wastebasket as if she'd torn it off. Lord knows why. Perhaps she recognized its importance and tried, thus, to preserve it; perhaps she tossed it there merely because it was crumpled. We'll never know."

She took the sheet of paper; it was the usual printed form with a few entries in Julie's small, round handwriting. It was probably the last sheet on the pad. The date was November ninth, the exact date of Crystal's death.

"You recognize it?" said Angel. Rue nodded.

"Read the entries."

She was already reading; searching for the thing that chart must disclose.

But there was nothing of any significance at all on the chart. It was all regular, nothing unusual. Meals as usual, two visits from Andy duly noted, one at eleven in the morning and another about six in the evening, temperature slightly below normal, pulse perfectly normal, no special orders. Perhaps that was it.

"Find something, Mrs. Hatterick?"

"N-no," said Rue slowly, "unless it's an omission. She, Mrs. Hatterick, said that her medicine tasted different; as I remember it she said (I've told you) that Andy—Doctor Crittenden that is—had changed her medicine that day, although she may have said 'he must have' changed it. She may have been referring only to the taste. Without certain knowledge, I mean. She must have been, because if there'd been a change in the medicine Julie would have made a note of it. Julie was extremely conscientious. She wouldn't have omitted to note a change in medicine or orders. And there is no change noted here."

After a moment Angel said: "Is that all?"

She knew he was disappointed. As she was herself; the charts had loomed so large in the thing; unconsciously she had pinned hope to their discovery. And for that day—that tremendously important day—there was nothing.

"Where are the others?" she said.

Angel's long face lengthened further.

"Whoever killed the girl, Rachel, undoubtedly has destroyed them by now," he said. "Do you have any idea, Mrs. Hatterick, why Rachel tore out that one sheet and threw it away?"

But Rue had none.

"She may not have known its importance," she hazarded. "It may have been accidentally torn or crumpled."

He looked dissatisfied. And began again: "Last night at the time she was murdered, you say you actually saw a light in the studio...."

It went on until noon.

But during the afternoon, without any explanation, the vigilance of the police appeared to be to some degree relaxed. Rue ventured out of her room, and no one stopped her. She met Madge in the hall. A pale, frightened Madge, with the sullenness gone from her small square face. She paused uncertainly.

"Rue...."

"Yes, Madge?"

"Rue...." She hesitated again; Rue had an instant's impression of mute appeal for help. And then someone spoke in the library, and Alicia's voice replied, and the fleeting impression was gone.

"Nothing," said Madge and went on.

Rue took a quick step or two after her. "Madge", she said. "Do you—is there something you want?"

The girl whirled around to face her; again Rue had that quick impression of an appeal; then Madge's dark eyes became determined and hard again, and she said: "Nothing." But added: "Thank you, Rue."

Puzzled, Rue watched her go toward the stairway. It was almost an overture for peace; yet the instant she'd spoken the child had frozen again, or was it the sound of Alicia's voice that had done it?

Alicia was in the library; Guy was there too, and was just leaving, he told Rue. After he'd gone Alicia went coolly to the library door, looked briefly into the hall and closed the door. She turned to Rue then, deliberately and purposefully.

"I'm glad you've come down," she said, looking straight into Rue's eyes with her own bright, jewellike gaze. "I want to talk to you, I think we'd better have a clear understanding. You and I."

She gave Rue no chance to reply. She walked directly toward her, so close that the faint scent of gardenias drifted to Rue, and she could see the quick pulse beating in Alicia's creamy, soft throat—only faintly lined. She said:

"There's something you ought to know. However this thing turns out, Brule loves me and I love him, and it will take more than you to come between us. Do you understand that?"

Rue looked back at her, noting that strongly beating pulse with a kind of detached interest. How it betrayed Alicia's real feelings when Alicia's voice was quite cool and controlled!

"What about Steven?" said Rue with honest curiosity.

The jet-black line of Alicia's beautiful eyelids flickered.

"Steven?" she said. "Steven isn't important. He's been only a pretext, a—blind, if you want to call it that. So Crystal wouldn't guess the truth. It was easy for me to make him love me, and I did; I'm telling you so you can see how important Brule is to me. I wish I could make you see that I am equally important to Brule. But you're in love with Brule; you are trying to deceive yourself; you don't want to acknowledge the truth."

### CHAPTER THIRTY

Alicia paused in her declaration, her eyes shining and secret with some deep preoccupation. In a moment she went on with an air of friendly frankness, only belied by that throbbing pulse in her throat.

"There's no use in my trying to tell you that it is, really, a friendly impulse that led me to speak to you. You wouldn't believe me."

"No," said Rue candidly.

"But nevertheless.... Rue, can't you see for yourself that Brule loves me? That he'll never love you? That there's no use in your trying to hold him because he married you as he did? He regretted it instantly. Ask him if you don't believe me. Ask him to tell you the truth. And he—I can prove to you how much he loves me."

"What do you want me to do?" said Rue, again with that strangely honest curiosity.

Alicia's lovely hands made an impatient movement. She said:

"What do you think? I want to be sure that, when this is over, you'll leave Brule. You'll consent to a divorce—or ask for it, rather; it will make it easier and better all around if you'll ask for a divorce."

She's getting close to the kernel of her motive, thought Rue. She said:

"Why are you saying all this to me now? When things are as they are here?"

Alicia hesitated. She turned suddenly and went to the door and listened and came back to Rue and told her, deliberately as if she'd planned it, yet with a queer kind of anxiety, too.

"Because there's something I know that, if the police knew would cause your arrest. But it's something I can keep them from discovering."

"What?"

"Will you—"

"Will I bargain with you? Promise to divorce Brule for your silence? How childish you are, Alicia!"

"Childish!" Alicia's eye widened like a cat's.

"Alicia—tell me something else. Why did you think Crystal was murdered?"

She could hear Alicia's quick breathing; she could see the heavy throb of that pulse along her white throat. Alicia whispered suddenly, a little breathlessly:

"Because Brule did it. For me. I've always been certain of it. Do you understand now?"

The scene all at once stopped being tawdry and theatrical. It took on in an instant the poignant terror of a nightmare. Rue said in a tight, strained voice:

"You can't expect me to believe that. Brule—"

"Who had a better chance?" said Alicia. "Who knew how so well as Brule? That's the real reason we didn't marry. He asked me to marry him after Crystal died. But I knew—. If you want to know the truth, I—I was afraid. I was afraid the truth would come out sometime, and I—I would be caught in it too."

Oddly enough Rue believed that much. If Alicia had known or suspected that Brule murdered Crystal, she would have been afraid. Not for Brule; not because of the act itself, but for her own lovely white neck. Alicia loved only herself; and as such people do, lived in a world of Alicia, hedged, guarded, marked by Alicia so other people and other suffering and other tragedy did not impinge upon Alicia herself. But murder—once discovered—would impinge. Would thrust through her hard wrappings of selfishness.

"Well?" said Alicia impatiently, as always curiously myopic when it came to detecting the reactions of other people.

"What is it that you say you know that could possibly cause my arrest?"

"Evidence," said Alicia. "Evidence they will have to accept as conclusive. And it isn't a question of my telling them. It's a question of"—her eyes flickered once—"of their finding it. I can prevent it. I will prevent it if—if you'll promise—what I ask."

Rue took a long breath. "I'll promise you nothing," she said. "You are—you are mad to suggest such a bargain, Alicia."

But as Alicia accepted it instantly and turned and went out of the room, Rue wondered if she hadn't been mad to refuse. She tried to shrug away the memory of the parting look in Alicia's eyes and failed.

As she tried to conquer the conviction of truth in what Alicia had said of Brule and of Steven. "Brule loves me," Alicia had said. And she'd also said, "Brule murdered Crystal." Once Alicia had accused Rue openly of having murdered Crystal; was that to shield Brule—and thus herself?

The trouble was Brule could have murdered Crystal.

It was after that fateful interview with Alicia that Rue saw Andy. And the memory of Alicia's words was stronger than even the thing she found hidden so carefully, with such diabolic simplicity and shrewdness, in her room. Although it was that that, actually, terrified her and reduced any lingering sense of unreality to sharp and poignant reality.

For it was a knife; a sharp, surgical knife, wiped free of fingerprints, rolled neatly in a red-and-white scarf belonging to Rue and tucked down into the cushions of the chaise longue in her room.

The room hadn't yet been searched by the ploice. If they had searched it, it would have been the first thing they found. Rue, returning to her room after seeing Alicia, going absently to the chaise longue, happened to lean back upon her hand so her fingers came in contact with the little roll.

She pulled it out and looked with utter, chill horror at the thing disclosed. The deliberate malevolence of it shook her as nothing else would have done.

"Conclusive evidence," Alicia had said.

It was then that Andy came. Came and asked to see her and (this time) was permitted to do so. She put on a suede jacket with deep pockets and hid the knife in a pocket. Andy, familiar with the house, was waiting for her in Brule's little study on the second floor.

He, too, closed the door before he spoke.

"Rue, have you seen the chart for the day of Crystal's death?" he asked at once.

"Yes."

He didn't ask what entries there were. His face was white and strained, his eyes brilliant, and he was nervous, watching the door.

"Rue, you are not safe in this house. You can't stay here. I won't let you stay. Not another night."

"I can't leave."

"Yes, you can. I'll fix things. Listen, there's a woman, a dear old lady who's a patient of mine. She's—fond of me. She'll take you in and take care of you. It'll be safe there.....I'll fix it so we can get away without anyone knowing it; the police will stop us if they know. But once you are safe we can phone and tell them where you are. They can put a guard in her house for you; anything. But they can't compel you to stay in this house. It'—his voice broke a little—"it isn't safe here. Don't you understand that?"

Understand it? She understood too well.

He caught assent in her silence.

"Rue—will you come?"

She closed her eyes. The knife was like a weight in her pocket.

"Yes," she said. "Tell me how—and where."

Andy knew exactly where and how. It was simple, he said.

"If it works," said Rue after listening.

"It will work," said Andy. "Listen, I'll repeat it...."

"If they think I'm trying to escape," said Rue, feeling as if she were talking of someone else, "they'll arrest me. I mean, it—seems to prove guilt."

"Not at all. You'll be no worse off than you are now if they do stop you. But they aren't going to discover you've gone until you are safely there and telephone to them. They can't accuse you of attempting an escape if you tell them exactly where you are and your reasons for going. You can't be compelled to stay in this house."

Andy didn't know the most important reason. She put her hand in her pocket. He was watching her anxiously, yet listening, too, for the muffled murmur of voices in the dining room.

She said in a small voice: "Look, Andy," and showed him the knife.

"Rue! What—"

She told him; briefly.

"That settles it," said Andy. "Now you've got to go.... What a devil that woman is!"

"Alicia?"

"She hates you, Rue. But I didn't think she'd go so far as this. Well, give me the knife; I'll get rid of it somewhere. And I'll go right now and telephone to Mrs. Brown. Don't bring any clothes; a bag would attract attention, and you'd never shake the police. You can have them send over anything you want after you're safely at her house."

He took her hands, held them briefly, said: "Don't fail me. I love you so, Rue. I can't let you stay here another night."

But after he'd gone his plan didn't sound so easy as when he told her of it. Yet escape from that house was just then for her the only sensible course. It was too dangerous to remain—where traps lay waiting for her. Traps like that knife.

And if she told the police, what would they do? As they had done about the powder in the glass in her room; which was, so far as Rue could see, exactly nothing.

Well, Andy had offered her a refuge from more of such threats. She started upstairs, paused irresolutely to give the room, with its books, its smoldering coal fire, its deep, comfortable chairs, a look that lingered like a farewell. She might have been happy in that room. How happy she didn't dare permit herself to discover even in her too ready imagination.

Instinct told her that in all probability she would never return to the room and that house to live. When she left it now, it was almost certainly forever.

Alicia had won. Or was it that there had never been a contest; Alicia simply remained in the place she had always had.

### CHAPTER THIRTY-ONE

There was no need to see Brule before she went away; it would be better not to see him. Rue looked at her watch; four o'clock. It was growing dark.

Fifteen minutes more and she would get under way the little train of things Andy had told her to do.

It was beginning to rain. A rain that would further his fatally simple plan. If it had been more difficult she would have refused.

She wondered when and under what circumstances she would see Brule again; whatever it was, it wouldn't be as his wife.

She thought rather dispossionately, now, of Alicia. Her acceptance of Alicia's story had nothing to do with Alicia's integrity or lack of it. Alicia would lie if it suited her purpose; Rue knew that. It was the truth that had convinced Rue. It stood out like peaks, recognizable, clear and sharp. Something that couldn't be avoided.

Yet, out of the rain, out of the silence of the room, a small, strange thought came and laid its hand on her heart. If Brule had made one small gesture of love—a word, even, or a look—the truth in what Alicia had said wouldn't have mattered. Would have lost its power. Would have been blunted on the shield that Rue would have possessed.

But Brule hadn't.

Then why are you waiting? she asked herself sharply. It's no good lingering here, hoping, waiting—wanting to see him again, when you know it's best not to.

She took a long breath and turned and went to the door. And at that moment the dining-room door opened, a wave of voices and motion came from it, and Lieutenant Angel, Brule, the little Funk and one or two other detectives came into the hall.

Brule saw her and came toward her.

"They want to talk to you again" he said.

Something intangible yet well marked, too, in their attitude, in their directness, perhaps, and in Brule's intent face, hinted that there was news. And there was.

They began first to ask her again about the letters. Did she know anything at all of them?

"But I've told you I don't. So many times—"

"Yet, Mrs. Hatterick, all those letters, according to the dates on the postmarks, were written within the two months' time of your marriage. None before that marriage took place. Doesn't that suggest anything to you? Or anyone?"

It suggested Alicia, but Alicia would have been afraid to write the letters and thus call attention to herself—the woman Brule had been in love with and the woman who, though Rue had forgotten it for a little, was actually one of Crystal's legatees.

So Alicia wouldn't have written those letters.

"No," said Rue.

Angel gave her a sad look and cleared his throat.

"There's no one—who might have had jealousy as a motive?" he inquired.

"Jealousy?" said Rue, still thinking of Alicia.

"I mean of you—on account of your marriage."

"A disappointed suitor," said Funk, popping out from the shadow to make things clear.

"Oh. No. No one."

"Rue—" began Brule, but Angel went on rather quickly as if not to give Brule a chance to tell Rue whatever it was that he wanted to tell her.

"You see," said Angel, "whoever wrote those letters—or at least whoever wrote seven of them—had access to the Town Club. Your husband is a member. And Doctor Crittenden is member."

"But—"

This time Brule wouldn't be cut off.

"It's this way, Rue," he said swiftly. "The letters were typwritten, and the police have been searching for the typewriter on which they were written. This Mr.—er—Funk was sent to the Town Club on another errand—"

"Investigating cloakroom thefts", said Funk.

"And while there discovered I was a member, and Andy, too, and got samples of the typing from the type-writers in the writing room. One of them corresponded to the typing of these letters."

"Exactly," said Funk with a note of dreamy satisfaction.

"But unfortunately," said Brule, "it rather limits the possibilities. I mean, visitors are seldom in the writing rooms—at least ladies never are. I didn't write the letters."

"We never said you did, Doctor Hatterick," said Angel.

"Andy wouldn't have written them for exactly the same reasons. Either of us stood to lose more, or at least as much, as anyone else."

"Does this fact suggest anything to you, Mrs. Hatterick?" asked Angel.

It didn't. Twenty minutes later, with rain now slanting against the windows and the consciousness of a darkening gray sky and of Andy perhaps, waiting, she still had no further replies to make to their repeated questions.

Brule came back to her after the others left.

"They've gone," he said, coming back into the library. "I watched Angel leave.

She paused, conscious of the things she ought to be doing. The interview with the police had made her late. It was important to Andy's plan for her to leave before it was dark.

"What's the matter?" said Brule. "You're worried about something."

She crumpled the red-and-white scarf in her hand and said a little crisply: "That's rather in the category of an understatement, isn't it, Brule?"

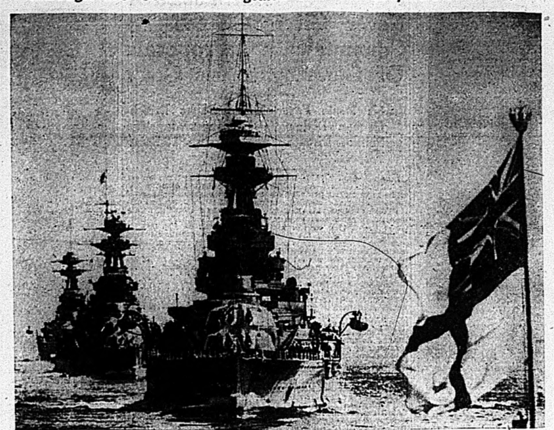
And just then Steven's studio door banged, and Steven himself came into the library.

He was dishevelled and excited. He said: "There you are," glanced up and down the hall and closed the door after him.

(To Be Continued).

---

# *Through the Centuries England and the Empire's Mainstay*



For hundreds of years—from the first consciousness of sea power at Damme, through the days of the Spanish Armada, Trafalgar, Jutland—Britain's first line of defence and a powerful weapon on attack has been her invincible navy, and even with the ascendancy of war in the air, the fleet remains the solid keystone of her defence. This picture whether the subjects be wooden sailing vessels or iron-clad moving fortresses, is typical of those that have thrilled British hearts in the past—ships of the line moving into formation for battle. This picture was taken during recent manoeuvres; today the ships are "somewhere in the North Sea."

Copenhagen, Sept. 2 (AP)—Agents of the North German Lloyd Company said today the liner Bremen, enroute from New York without passengers, was "somewhere at sea" but they could not give its exact whereabouts. They expected the liner to reach Bremen tomorrow or Monday.

The Bremen sailed from New York Wednesday night and has not been heard from since, wireless messages going unanswered as the captain apparently endeavoured to keep the $20,000,000 liner's position secret.

—o—

Amsterdam, Sept. 2 (AP) (Via London, passed by the British Censor)—The Netherlands government declared martial law today, enabling military authorities to take all measures they deem necessary.

# WINNIPEG WINS RUGBY GAME 20-6

### Blue Bombers Overwhelm Heralded Roughriders

Winnipeg, Sept. 2—(CP)—Winnipeg Blue Bombers, apparently as potent a football machine as that which brought the Dominion championship here in 1935, lead the Western Interprovincial Union again.

Bombers had almost everything in the grid bag as they overwhelmed the highly-rated Regina Roughriders 20-6 under the floodlights here last night before a near-capacity crowd of 6,000

Bombers were so powerful, in fact, that they punted only twice in the game, both times in the last half. All other times when in possession they were driving into Regina territory, gambling with forward passes, trying for field goals.

The great Winnipeg machine made 18 first downs to Regina's eight, piled up 271 yards rushing to 126 and made a total of 99 yards on forward passes to Riders' 27.

Paris, Sept. 2 (AP)—France started putting her finances on a war basis today.

A decree published in the official journal suspended the requirement for the bank to maintain a 35 per cent. coverage in gold and foreign exchange of bank note circulation.

The last statement, as of August 24, showed the bank held 62.64 per cent. coverage as compared with 65.35 per cent. August 17, bank note circulation having jumped from 123,000,000,000 francs to 129,000,000,000 in the week.

The decree ordered the withdrawal from circulation of five franc coins in nickel and 10 and 20 franc pieces in silver. The Bank of France was authorized to issue five, 10 and 20 franc paper notes. (The franc is currently quoted in foreign exchange at 2.435 cents.)

# BUFFALO BISONS IN SECOND PLACE BEHIND GIANTS

### In Last Eight Games Buffalo Wins Seven Contests

### ROYALS WIN

### Spotted Leafs Six Wins And Win Out In Ninth Frame

(By the Associated Press)

During the latter stages of the 1936 International Baseball League race a Buffalo team put on a sudden drive which gained it the pennant and it looks as though the present Bisons have similar ideas.

The Bisons have used only one pitcher in each of the last eight games and have won seven. If they can keep on at that rate they may have a change of overhauling the league leading Jersey City Giants. But with only nine days left to play the chance is slim.

Last night the herd raced to its sixth consecutive triumph as Bill Zuber nosed out Rochester's Mike Ryba, 3-2, with the help of home runs by Jim Oglesby and Moe Mulleavy.

The victory boosted the herd from fourth to second place, 3 1-2 games behind JJersey City, which topped Syracuse Chiefs, 7-5, in 10 innings. Lincoln Blakeley won the game for the Little Giants by smashing out his first home run of the season.

Newark Bears, fighting for a playoff berth, made it two out of three in their current series with Baltimore, mauling the Flock 9-1 behind the six-hit twirling of George Barley.

Montreal Royals spotted Toronto Leafs a six-run lead, tied it up in the eighth and scored the winning tally in the ninth for a 7-6 victory, to even the series at a game apiece.

# Davis Cup Winners Hang In Balance

Haverford, Pa., Sept. 2.—(AP)—The first day of play may decide today the winner of the 1939 Davis Cup challenge round between the United States and Australia.

The supposedly top men of both teams John Bromwich for Australia and Bobby Riggs for the United States—meet at 2 p.m. E.D.T. on the grass of Merion Cricket Club. Then Adrian Quist of the Challengers takes on Frankie Parker, at 22 the oldest player on the United States team.

If the defending Americans drop both matches, they can just about kiss the cup good-bye. Even Captain W. Pate "doubts" any doubles combination he can put together could beat Bromwich and Quist tomorrow. The U. S. pair will be announced tonight. Pate indicated he would stick by his tentative selection of Joe Hunt and Jack Kramer.

Monday will bring together Riggs and Quist and Bromwich and Parker.

Tokyo, Sept. 2 (AP)—Recall of Toshio Shiratori, ambassador to Italy and long an advocate of a military alliance among Japan, Germany and Italy, was reported today by Domei, Japanese News Agency. Poor health was given as the reason.

(However, the Japanese government, since signature of the German-Rusisan non-aggression pact, has turned its back on the policy of close co-operation with the Rome-Berlin axis for which Shiratori had fought.)

## DEATHS

WILLIAMSON—In the 1st concession of Ameliasburg Township, Prince Edward County, on Friday evening, Sept. 1st., 1939, George Williamson, in his 87th year.

The funeral will take place from the residence of his son, Mr. Roy Williamson, 1st Concession of Ameliasburg Township, on Sunday afternoon, Sept. 3rd., to Albury United Church for service at 3.30 o'clock. (Standard Time.)

Interment Albury Cemetery.

# DIMAGGIO ON WAY TO TRIPLE TIARA IN MAJOR LOOP

### Batting .408 And Close To Record of Runs Batted In

### MAY LEAD IN HOMERS

### Yankee Attack Keeps Feller From Winning His 20th Game

By JUDSON BAILEY

Joe DiMaggio appears ready to grab not only the major baseball league batting championship with the first .400 average in nine years, but leadership in runs batted in for the American League and possibly the home run championship, too.

This triple tiara seemed lost when he fell and hurt a leg April 20, missing 32 games. For a time there was even some uncertainty as to whether he would qualify for the league batting championship by getting the minimum 400 times at bat. When it became assured he would, there still remained a great handicap to overcome in the matter of total runs batted in and homers.

In helping New York Yankees to corral Cleveland Indians 11-8 yesterday DiMaggio hit two triples and a single, bringing his batting average to .408, and batting in six runs for a total of 111 in 92 games. This is only eight behind the mark of Ted Williams of Boston for 122 games.

The Yankee attack kept Bob Feller from getting his 20th victory yesterday and added another full game to New York's lead as Boston Red Sox absorbed their third straight defeat and eight in ten games, 14-10, from Detroit Tigers. Two home runs by Pinky Higgins and another by George Tebbetts helped turn the trick in favor of Schoolboy Rowe.

These were the only American League games scheduled. In a similarly abbreviated National League program Brooklyn Dodgers divided a doubleheader with Chicago Cubs and Bill Posedel shutout the Phillies 6-0 at night for Boston Bees. The Cubs took their opener 6-2 but were turned back 3-1 in the nightcap by little Vito Tamulis' six-hit hurling.

### POLICEMAN CALLED

Montreal, Sept. 2 (CP)—Five policemen were needed to quell belligerent spectators as Canadiens defeated St. Regis, 12-2, in a Montreal senior group lacrosse game last night. The bout was divided into four rounds with the last two staged on a street outside the stadium.

The first round, when spectators joined in with players fighting on the field, was comparatively slow but things pepped up in the second when players climbed into the stands where a whole section was scuffling.

### SIX PLAYERS RECALLED

Amsterdam, N.Y., Sept. 2 (AP)—Binghamton of the Eastern Baseball League, exercising its working agreement with Amsterdam of the Canadian-American League, announced yesterday selection of six Can-Am players to report at the close of the season.

The following have been selected, Herb Carpel, Melvin Queen and John Dianco, pitchers; Ralph Harbin and Henry Noysradt, outfielders and Ray Richards, infielder.

London, Sept. 2 (CP) (Passed by British Censor)—The political correspondent of the Press Association said last night that considerable sentiment was developing in Great Britain for inclusion of David Lloyd George, who was Prime Minister during the Great War, in any war cabinet that may be organized.

Lloyd George's speeches, the correspondent said, would have a rallying effect on the country.

# City of Belleville Property For Sale

Sealed tenders addressed to Alderman J. Marshall, Chairman of the Special Property Committee, will be received at the City Clerk's office, City Hall, Belleville, up to 5 p.m. Thursday, September 7th., 1939, for the purchase of the lands and buildings offered for sale by the Corporation of the City of Belleville, as listed below:

The City will consider any offer submitted. Further information may be obtained at the office of the City Engineer. The lowest or any tender not necessarily accepted.

CHARLES A. MOTT,
City Engineer

A31-S1-2

CALLING 'EM
# Between the Lines
with
*Ken J. Colling*

With Sept. 1st having come and gone and Coach Warren Stevens having sounded a call for Toronto Varsity football hopefuls, we wonder where the summer has gone, but of a more realistic picture was O.R.F.U. convenor Bill. Fry calling together the rugby football mentors of Central Ontario for their annual meeting here on Tuesday night next. It is doubtful if Belleville will be represented in the intermediate O.R.F.U. ranks this coming season, but efforts to sponsor a junior football squad in Belleville have been quietly carried on for some weeks past. In the intermediate loop, however, Kingston City may enter and take over the vacancy left by Belleville. If Bob Elliott, former Kingston ball player and star Queen's backfielder, can muster a team in Kingston, then convenor Fry's worries will be over, as he will have the Air Force, Kingston Signals, Cobourg "Red Raiders" and the "Limestones" of Kingston for a compact four-teamed intermediate loop.

Insofar as Belleville is concerned, providing a compact junior O.R.F.U. group can be afforded them, the local football picture would be further enhanced with a minor set-up. There is the nucleus of a splendid junior football team in Belleville and convenor Fry tells us that Coach Pete Beach, of Albert College, is anxious to sponsor junior O.R.F.U. rugby at the college this fall and there is talk of an amalgamated junior team from the Marmora-Madoc district, thus all that is needed is one more club to round out the junior picture. Eddie Schrieder, veteran Belleville backfielder, is willing to coach a junior squad and has procured the assistance of Wally Hilton, Western University backfielder, and Jimmie Follwell, triple-threat man of O.A.C., to assist him in coaching a Belleville junior football squad for the next three weeks. All that is needed to assure a good junior squad is sponsorship and no doubt the Belleville Kiwanis club may once again come to the rescue of minor sport in Belleville.

Actually all that is needed is jerseys and sox, as Bill Fry assures us there is sufficient other football equipment to fully equip a junior team. However, practice should be called immediately and the matter of sponsorship taken up with President Dick Flynn of the Kiwanis Club later.

The Kingston scribe suggests the Tanners "could not get organized" in their series with the Shell "Oilers'. No doubt this matter of disorganization was due to the torrid attack of the "Oilers" and more paramountly to the ability of Johnnie Bawden. At any rate the Kingston scribe had the following comment on the series: "Johnny Bawden proved too much for Kingston in softball for second season in succession. Last year he twirled Point Anne to a win over Kingston in the provincial playoffs and last night as the ace of a Belleville team he repeated. Kingston Tanners after splendid play in the closing of the schedule and through the playoffs, could not get organized in the series with Belleville."

The draw for the second round junior O.A.S.A. has been announced bringing together the Toronto Softball Association winners against Belleville with the series commencing here on Tuesday with the return game in Toronto next Thursday. Last year the Toronto winners eliminated Belleville in a third and final game at Cobourg, but we hope for better results in 1939. The "Oilers" open their series versus Peterboro today in the Liftlock City, while the only sporting event in Belleville over the week end the Coe Hill at Belleville O.B.A. play-off at the Fair Grounds this afternoon. The winner of this series will meet Cobourg in the next provincial baseball round.

Next to becoming a club-owner by the purchase of the Amarillo club in the West Texas-New Mexico league, the super-thrill in the baseball career of Bob Seeds, Giants' outfielder, was undoubtedly his big home run spree in Buffalo, May 6 of last year—four homers in four successive innings, the fourth, fifth, sixth and seventh. The one in the sixth came with the bags loaded and in all, the slugger batted across nine runs with his quartette of boundary belts.

Another Belleville ball player has made good, but not in Belleville, as has unfortunately been the case in too many cases of late. Yesterday Ralph "High-pockets" McCabe hurled a five-hitter as Copper Cliff beat Coniston 8-0 to win the Nickel Belt senior ball title. Incidentally McCabe has allowed but ten hits in the last 23 innings hurled for Copper Cliff. Yesterday he was in rare form as he allowed only one Coniston player to reach third base, but the elongated lad rose to the occasion and struck out the remaining batter. Another former Belleville player, Harry Morgan in centre field for Coniston, collected one of the five stingy hits given up by McCabe. Incidentally McCabe has been credited with three of Copper Cliff's play-off victories, two of which came as the direct result of some fine relief hurling and then yesterday's sparkling effort. It is too bad that Belleville could not garner under her wing all of her baseball players who have been forced to vacate our surroundings seeking a living. Shades of 1919, 1923 and 1928.

SPORT SPICE—Remember Firpo Marberry, former Washington pitcher? He's with Fort Worth in the Texas League now. . . . No drastic changes in the major leagues today, although the New York Yankees won and the Red Sox lost. . . . Brooklyn remained in the first division by splitting with the Cubs and there's a heavy Labor Day week-end facing all the clubs and no doubt by Tuesday one could almost predict the world series contenders. . . . War or no war, the soccer games will be played in England today, so says the latest news dispatches. . . . Bobby Pearce, the world's singles professional sculling champion, found that rowing eights skim over the water faster than he anticipated. . . . Yesterday the Hamilton Leander eight soundly beat Pearce in a test race at the C.N.E. . . . Arrangements to advance the Belleville-Peterboro intermediate O.A.S.A. were advanced by the mutual consent of both clubs by long distance last night.

# CHAMBERLAIN'S ADDRESS TO PARLIAMENT

London, Sept. 1—(By radio—A. P.)—The text of Prime Minister Chamberlain's speech:—

I do not propose to say many words tonight. The time has come when action rather than speech is required. Eighteen months ago I prayed that the responsiblity might not fall on me to ask this country to accept the awful arbitrament of war. I fear that I am not able to avoid that responsibility. The responsibility for this terrible catastrophe lies on the shounders of one man.

At any rate, I could not wish for conditions on which such a burden would fall upon me clearer than they are today as to where I stand. (cheers). The German Chancellor has not hesitated to plunge the world into misery in order to serve his own senseless ambitions.

### Could Not Have Done More

No man can say that the government could have done more to try and keep open the way for honorable and equitable settlement of the dispute between Germany and Poland nor have we neglected any means of making it crystal clear to the German Government that if they insisted on using force again in the manner in which they have used it in the past we will resolve to oppose them by force.

We shall stand at the bar of history knowing that the responsibility of this terrible catastrophe lies on the shoulders of one man—the German Chancellor.

He has not hesitated to plunge the world into misery in order to serve his own senseless ambitions.

### White Paper Published

The White Paper now published makes it perfectly clear that our object has been to try to bring about discussions about the Polish-German dispute between the two countries on terms of equality.

One passage from a recent communication, dated Aug. 30th, showed easily the final clash might have been avoided had there been the least desire on the part of the German Government to arrive at a peaceful settlement. The British Government most strongly urged that both parties should undertake during the negotiations no aggressive military movement.

The communication says the British Government most strongly urged that both parties should undertake negotiations that no aggressive military movements should take place. The Polish Government replied instantly, on Aug. 31st, saying they will prepare on a reciprocal basis to give the formal guarantee.

### Would Not Violate Frontiers

In the event of negotiations taking place, Polish troops would not violate the frontiers of the Reich provided the corresponding guarantee was given regarding non-violation of Poland by troops of the Reich.

We never had any reply from the German Government to that suggestion, one which if it had been followe dmight have saved the catastrophe which took place this morning.

(The Prime Minister referred to the 16 points broadcast by the German broadcasting system last night and mentioned the fact that that statemen included this phrase:—

In hese circumstances the Reich Government considers its proposals rejected. We must examine that statement: to begin with, these proposals have never been communicated by Germany to Poland at all.

### Offered to Draw Proposals

On Aug. 29th, replying to a note we had sent them, the German Government said, among other things, that they would immediately draw proposals for a solution acceptable to themselves, and would, if possible, place these at the disposal of the British Government before arrival of the Polish negotiator.

It will be seen by examination of the White Papers that the German Government have stated that they counted upon the arrival of a plenipotentiary from Poland to Berlin on Aug. 30th, the following day.

So, at the most, unless the German Government were prepared to give the British Government assurances that Germany had suspended aggressive action against Poland, and were prepared promptly to withdraw their forces from Polish territory, the British Government would without hesitation fulfill their obligations to Poland.

### To Ask for Passports

If Germany's reply to this last warning is unfavorable, and I do not suggest that it is likely to be otherwise, His Majesty's Ambassador is instructed to ask for his passport.

In the meantime we are awaiting these proposals. When these proposals are ready, for we have heard no more about them, he should invite the Polish Ambassador to call there and send the proposals.

Thereupon, reports our Ambassador, in the most violent terms Herr von Ribbentrop said he would never ask the Ambassador to visit him.

On Wednesday night at the interview Herr von Ribbentrop produced a lengthy document which he read in German aloud at top speed. Our Ambassador asked for a copy of the document. The reply was: "It is now too late as the Polish representative has not arrived in Berlin."

### Never Received Proposals

So we never got a copy of those proposals. The first time we heard of them was on the broadcast last night.

It is clear that their conception of negotiations was that on almost instantaneous demand, the Polish plenipotentiary should go to Berlin, where others had been before him, and should there receive a statement of demands to be accepted in their entirety.

The proper course, in our view, was that these proposals should have been put before the Poles, who should have been given time to consider them.

Last night the Polish Ambassador saw Herr von Ribbentrop and expressed to him that they were willing to negotiate with Germany about their dispute on an equal basis.

The German Government without any further warning crossed the Polish frontier at dawn.

It is since reported that open towns have been bombed. In these circumstances only one course is open to us.

His Majesty's Ambassador in Berlin and the French Ambassador have been instructed to hand the German Government a communication.

### Proclamation Issued

This said that early this morning the German Chancellor issued a proclamation to the German Army which indicated that he was about to attack Poland.

Information reaching British and French Governments indicated that German troops had crossed the Polish frontier and attacks on Polish territory were proceeding.

In these circumstances, it appears to the Governments of the United Kingdom and France that by their action the German Government have created conditions, namely, an aggressive act of force against Poland, threatening the independence of Poland, which called for the implementation by the Governments of the United Kingdom and France of the undertaking to Poland to come to her assistance.

### We Are Ready

I am, accordingly, to inform Your Excellency that, unless the German Government are prepared to give His Majesty's Government assurances that the German Government have suspended aggressive acts against Poland and are prepared promptly to withdraw their forces from Polish territory, His Majesty's Government in the United Kingdom will without hesitation fulfil their obligation to Poland.

If Germany's reply to this last warning is unfavorable—and I do not suggest it is likely to be otherwise—His Majesty's Ambassador is instructed to ask for his passport.

In that case we are ready.

Finally steps have been taken in accordance with prearranged plans. Steps have been taken to safeguard the position in regard to stocks and commodities of various kind.

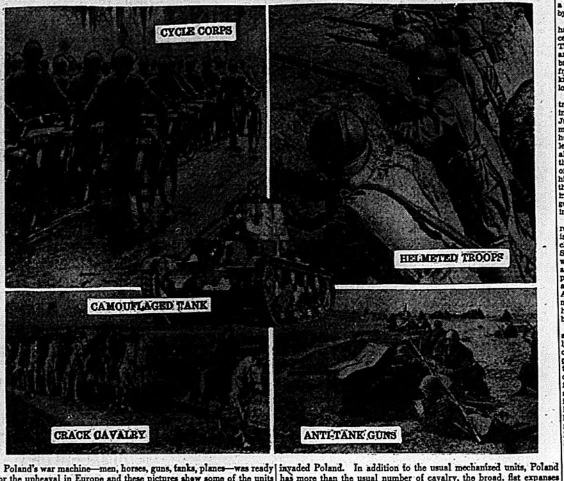
### Thoughts Turn Back

Our thoughts turn back to 1914. How do we stand at this time? The answer is that all three services are ready, and that the situation in all directions is more favorable and reassuring than before.

Behind the scenes we have built up a vast organization of civil defence under the scheme of airway precautions.

Regarding immediate man power requirements, the Royal Navy, army and air force have as many men as they can conveniently handle at the present moment. There is today no need to appeal in a general way for recruits such as was issued by Lord Kitchener 25 years ago. It is essential in the vast and tremendous task that confronts us and in view of past experience, to organize our man power this time.

# POLAND'S ARMED FORCES



Poland's war machine—men, horses, guns, tanks, planes—was ready for the upheaval in Europe and these pictures show some of the units ready at various points throughout the country. Such units took part in the engagements on Friday, September 1st when German armies invaded Poland. In addition to the usual mechanized units, Poland has more than the usual number of cavalry, the broad, flat expanses throughout the country being adapted to this type of fighting, since the last war practically abandoned by other nations.

# 85 Year-Old-Man Injured As Dis-Used Well Caves In

3rd Thurlow—Mr. Andrew Doxtator is recovering from bruises to side and knee, which he received one morning last week when an old well caved in as he was walking over it. The spot where the well had been filled in about 15 years ago, had been in constant use in the barnyard. Mr. Doxtator, altho' in his 85th year, and who was alone at the barn at the time of the accident, was able to work his way out, unassisted, from his precarious position about 5 feet from the surface.

Mrs. Wm. Badgley of Toronto was a week end guest of Mrs. Geo. Hamilton.

Mrs. Wilfred Clare and family of Gilead called on her brother, Mr. Frank Walker and family on Sunday evening.

Mr. J. E. Cooley was a tea hour guest of Mr. and Mrs. Wm. Clarke on Monday.

Misses Muriel and Miriam Glass of Oshawa were guests of their aunt, Mrs. Wm. Doxtator on Monday. Miss Bessie Walker was also a tea hour guest.

Mr. Chas. Brown is spending some time at the home of Mr. and Mrs. E. W. Brown.

Mr. and Mrs. Harold Daymond, Guelph, were recent guests of Mr. and Mrs. Clayton Eggleton.

Mr. and Mrs. Myron Hawley and Irene also Master Billie Gilbert and Mr. and Mrs. Frank Easton and family were Sunday guests of Mr. and Mrs. Wm. Casey and family.

Mrs. Clayton Marisette, Russel and Helen of Marsh Hill spent a few days last week visiting relatives on this line.

Mr. and Mrs. Jack Clifford of New York City were recent guests of her uncle Mr. E. W. Brown and family.

Mr. Charlie Francis of Detroit visited Mr. Clayton Eggleton on Wednesday last.

Mr. Wm. Phelps called on Mr. Frank Easton on Tuesday.

Dr. Bill Hall, Mimico, spent last week end with his aunt, Mrs. E. W. Brown and family.

Misses Lorna and Doreen Ray of Sidney returned home on Tuesday after a visit with Mrs. Bernard Hollinger.

Mrs. Margaret Diamond of Toronto and Mrs. Isabel Patterson of Calgary were guests last week of their sister, Mrs. E. W. Brown.

Miss Hazel Walker is spending a week with her cousin, Mrs. Harold Rupert.

A number from this line attended the charivari for Mr. and Mrs. W. Yateman on Thursday evening.

Mr. Wm. Phelps called on Mr. Fred Rupert one day last week.

Mr. and Mrs. Clayton Paul and Mr. and Mrs. Bernard Hollinger called on Mr. Hollinger's parents, Mr. and Mrs. J. Hollinger, Sidney on Sunday evening.

Mrs. E. W. Brown and Ann and Mr. Chas. Brown spent Sunday in Gananoque.

Miss Norma Clare of Gilead who has been visiting Miss Bessie Walker returned home on Sunday evening.

Mrs. Wm. Casey and Eva spent Wednesday with the former's mother, Mrs. Lydia Way, 4th line.

Miss Jean Sills of Zion has returned home after visiting Miss Mary Hamilton.

Congratulations to Mr. and Mrs. Harold Rupert, who have a new baby boy.

Misses Donna Sills, Joy Osland, Marilyn Eggleton and Gerald Eggleton visited the Hamilton children on Thursday last.

Miss Hazel Walker spent Thursday with her aunt, Mrs. Wilfred Clare, Gilead.

Miss Reta Clarke, who has been visiting relatives and friends in Gananoque for a week has returned home.

Mr. and Mrs. Frank Easton and family have returned home from Rice Lake where they have spent 2 weeks camping.

Miss Vernon Hamilton called on Mrs. Perry Badgley, Deseronto on Monday last.

### THEY MISSED MUNICH

Everyone has thought of radio as a wonderful boon to people in the remote north country, enabling them to learn what is going on in the world. Now John Buchan, son of the Governor General, who with a companion has just spent a year at a Hudson Bay Post in Baffin Land, says that they seldom tuned in on the news, they were happier in the far north when they shut themselves off and interested and amused themselves in other ways. They missed the serious international crisis known as the Munich affair last September.—Winnipeg Free Press.

# Post Office Staff Honors H. E. Grass On His Retirement

At the conclusion of the day's duties Mr. Henry E. Grass of the local post office staff was today called to the postmaster's office, and there in the presence of the entire staff was presented with a beautiful leather travelling bag, and pipe.

The following address was read by the Postmaster Mr. J. V. C. Truaisch and the presentation made by Mr. P. O. Pitney Sr., letter-carrier on behalf of the letter carrier staff, and Mr. C. M. Stork money order branch on behalf of the postal staff.

Mr. Grass is severing his connection with the Postal Service, and with Mrs. Grass will take up their residence in England.

"Belleville, Ontario
August 31st., 1939.

"Mr. Henry E. Grass
"Post Office Department,
"City

"Dear Henry—

"Recalling about 20 years of association, and pleasant memories, the members of the postal staff, and the Letter Carrier Staff, on the eve of your departure from among us, ask you to accept this travelling bag, and pipe as a small taken of the esteem in which you have been held by the members of the staff during that time, and we hope that they may long serve to recall happy memories.

"We sincerely regret that you are leaving us, and trust and pray that your sojourn in the "auld countrie" may be an extremely pleasant one. and that you may find there the kind of friends you are leaving here.

Signed on behalf of the staffs,

"J. V. C. Truiasch,
"Postmaster.
"P. O. Pitney
"Letter Carrier Staff, S.L.C.

# Announces Results Of Madoc Field Crop Competition

Madoc.—Field Crop Competition of Madoc Society. Contestants from Madoc township.

John Fleming, 87 points; Hugh Empey, 85; John McCaffrey, 83; John Smith, 82; Thomas Lahey, 80; Albert Caskey, 79; James Laffin, 78; H. Rollins, 77; Robert Rollins, 76; James Kincaid, 75; Robert Woods, 74; William Miller 73; Russell Lewis, 72; Wilfrid Forestal, 71; L. P. Plane, 70; George Hill, 69; Herbert McCoy, 68.

The judge was H. Sirett, Brighton.

Mr. Fred Ross and daughter of Toronto, spent Tuesday with relatives at Hawthornden, Madoc.

Mrs. Lorne McConnell and children of Weston and Mrs. Reid and family of Ompah, are visiting Mrs. Munro.

Mr. and Mrs. W. Brown were in Kingston on Thursday.

Miss Minnie Ferguson spent the week-end in Toronto.

Miss Winnifred Ferguson, who has been spending the summer in Madoc, has returned to Hamilton.

# THAT BODY OF YOURS

By James W. Barton, M.D.

### Searching for Cause of Mental Symptoms

An inmate of a New Jersey State Mental Hospital, who had been in the institution for two years, had some infected teeth removed. Within two months she was considered normal and was able to return home. The superintendent was so much impressed that he had dentists, nose and throat, and other specialists make a thorough examination of all the patients and by removal of infection and correction of physical defects, about 40 per cent. of the inmates were allowed to go home.

Today, practically every large mental hospital has a staff of resident or visiting specialists who are able to remove or correct conditions that have or might have an effect upon the mind.

Notwithstanding these brilliant results it will be seen that in the majority of mental patients, infection or physical defect is not the cause of their mental symptoms. There is some other cause and it must be sought and, if possible, removed.

Fortunately, the general practitioner today has not the feeling of helplessness in handling mental cases as physicians of a few years ago, who, if a patient said foolish things or acted strangely, referred him at once to the mental specialist. Now the physician makes a thorough examination and calls in the dentist or other specialist if necessary. Having found no infection or defect that could possibly account for the foolish sayings or strange actions, he may, by patient questioning, be able to find how, when, and where the "odd" behavior got its start.

However, just as he recognizes the ability of the dentist, the throat specialist, the heart specialist and other specialists in each of their prospective fields, he recognizes also the ability of the mental specialist to search in a deeper or surer way for the hidden or long forgotten circumstances that are causing the patient to try to avoid responsibilities, necessary duties, or even dangers.

The mental specialist being now reasonably sure that there is no infection or other physical cause for the behaviour symptoms, begins his long, patient, and thorough search that may enable him to gradually unwind the tangled skein. The search may go back to childhood, to teen age, and often to more recent circumstances which have taken the fight out of the patient and caused the development of a behaviour that is unsuitable to our everyday life.

# Picton

Picton — Golfers from Picton enjoyed a field day at the Belleville Club on Wednesday. This was the last half holiday of the summer months.

Picton Armouries are being guarded as a result of the crisis in Europe. There are three guards at night, one at the rear of the building and one at the front with the third as a relief.

Lavergne Minaker, clerk at the Picton Post Office, is recovering nicely after undergoing an operation for appendicitis at Prince Edward County hospital here.

The Oblate Fathers, who have spent the summer at Stella Maris on Waupoos Island, left for their homes in Ottawa on Wednesday.

While fishing in East Lake this week, Tom Goodwin of Cherry Valley, landed a bass weighing 4 lbs. 15 ozs. Fishing is reported as exceptionally good in Prince Edward County water this season and many have reported splendid catches.

Canning of tomatoes in Prince Edward County is not steady as yet as the crop is not as good as expected. Canning of corn has not yet commenced.

Miss Helen Shannon is holidaying at Lake Couchiching for ten days.

Mr. and Mrs. Bernard Kingsley, Mrs. George Kingsley attended the Belleville Fair on Wednesday.

Miss Nora Rorke is visiting her brother, Colin and Mrs. Rorke at Whitby for a few days. She will return this week end and will teach in St. John's Separate School next term.

Miss Anne Doherty is in Toronto this week, a guest of Mr. and Mrs. J. O'Neill.

Rev. C. Keating, Rev. B. Monohan, Rev. R. Downs, Rev. L. Boyle, and Rev. J. Chabot, all of the faculty of Regiopolis College, Kingston, were guests at St. Gregory's Church rectory this week and were entertained by Rev. J. A. Meehan.

Rev. and Mrs. S. M. Scott of Kincardine, formerly of St. Andrew's Presbyterian church here, visited friends in town this week and were entertained by Mr. and Mrs. C. S. McGillivray and Miss Margaret Moore.

Mr. and Mrs. T. D. Dumont of St. Catharines, have taken up residence in Walter Pope's house here.

Ted Reeve, noted sport columnist of Toronto, and friends, who are enjoying a holiday in a trailer, spent part of the week in the county enjoying the good fishing.

Belleville Fair attracted many from Prince Edward County and all report it one of the best yet.

## AT THE BELLE

### "Andy Hardy Gets Spring Fever"

Mickey Rooney falls in love again in the lucky seventh Hardy Family hit, "Andy Hardy Gets Spring Fever" at the Belle now until Tuesday.

This time it's with his high school dramatics teacher, played by Hollywood's newest find, Helen Gilbert, Lewis Stone continues as the Judge, Fay Holden as sympathetic Mother Hardy, Cecilia Parker as sister Marian and Sars Haden as the knowing Aunt Milly. Ann Rutherford, of course, is still Andy's true love in the role of Polly Benedict. Another new addition is Terry Kilburn, who recently scored a great personal success in "Goodbye Mr. Chips."

W. S. Van Dyke II, the man who has directed such outstanding successes as "San Francisco", "The Thin Man", "Naughty Marietta" and "Sweethearts" is said to have brought out every possible laugh from the humorous plight, so well known to all, of a boy falling in love with his teacher.

Back in Carvel, after their Detroit trip, the Hardy Family runs into a new set of problems. The Judge is told by two crooked promoters that some aqueduct property he holds and believes to be worthless is actually a rich source of aluminum. The Judge checks up on the side and, finding their analysis of soil content to be correct, invests his capital in a company to exploit the resources. Furthermore, wishing his Carvel friends to join in his good fortune, he persuades them to invest their money too.

In the meantime, Andy has quarrelled with his sweetheart Polly but is finding solace in the dramatics class of beautiful Rose Meredith. Soon he is head-over-heels in love with this older girl. To win her attention, he writes the play to be presented by the high school class and wins the leading role in it. Andy is now a changed boy; his mind is filled with artistic thoughts, he even dresses for dinner without being told.

His sister Marian, having taken a secretarial position with the newly formed aluminum company, discovers with horror one day that the promoters have left town with all the funds. The Judge decides the only thing to do is to tell his friends just what has happened and then to sell all his belongings in an effort to repay them for their losses. Andy's love for his teacher has by this time become a vital matter to the boy. This isn't realised by the Judge, taken up with his own worries, until he learns that Andy has proposed to Rose. Then, although he tries to reason with his son, it is too late; Andy is to get his answer from Rose on the night of the play.

Great news comes to the Judge on that day. The city of Carvel is willing to buy his aqueduct property for the use of its gravel content for road building. The sum the Judge receives is enough to cover all money taken by the promoters. But tragedy descends upon Andy when, during the play, he learns that Rose is already engaged. Stifling his tears, Andy pours out his soul in the play—only to learn that it was Polly he loved anyway. A happy Hardy Family walks home from the play that night.

### "Bachelor Mother"

The stormy romance between a strong-willed department store executive and an unmarried salesgirl whom he unreasonably believes to be the mother of a baby boy provides the amusing basis of "Bachelor Mother" in which Ginger Rogers and David Niven have the top roles.

As the behind-the-counter gal forced to rear a child whom she accidentally finds, Ginger enacts some of the most exciting experiences in her screen career. Despite her denials of motherhood, her employers and friends are convinced that the baby is hers, and in order to keep her job she is obliged to assume responsibility of the infant.

David Niven, as Miss Rogers' handsome employer, falls in love with her in spite of her embarrassing position. The progress of their romance, coupled with their hectic battles concerning the proper rearing of a baby provides delightful comedy—which is only a prelude to the uproarious climax where Niven's father is falsely led to believe that his son is the tot's dad and himself its grandfather!

Supporting the brilliant stars in "Bachelor Mother" are Charles Coburn, Frank Albertson, E. E. Clive and Ernest Truex, Garson Kanin directed for RKO Radio.

A great surrounding show of entertainment is announced for the same program.

# Sunday Church Services

## UNION SERVICES

## Slight Advance in Butter Prices

Toronto, Sept. 2—Outbreak of hostilities in Europe improved the demand for butter on the Toronto open produce market yesterday and prices advanced 1-2c or more. But while the butter market was gaining strength, eggs were quietly easier, the Dominion Department of Agriculture reported. Cheese prices were nominally steady.

Receipts of Ontario butter were light and sellers were disinclined to offer their holdings. Buyers showed plenty of interest. Firstgrade Ontario creamery solids firmed to 22c with undergrades taking a corresponding upturn. Retailers' prices on No. 1 creamery prints were up 1-2c at 23 1-2c to 23 3-4c. Early sales of Western butter were made at 22 1-4c but the closing price was firm at 22 1-2c.

Trading in eggs was dull, with receipts more than sufficient for buyers' requirements. Prices to retailers and to wholesalers for ungraded eggs were unchanged, but in the graded section "A" large declined to a range of 26c to 26 1-2c and "A" medium to a range of 25c to 25 1-2c.

Egg receipts during the week have been slightly in excess of the demand, the department reported. This caused a mild accumulation of stock, and top grades lost 1-2c to 1c in all sections of trading. Grade "B" receipts were kept moving steadily, but sellers experienced some difficulty in clearing their Grade "C" stock.

**Montreal Produce**

Montreal, Sept. 2 (CP)—Produce market prices here yesterday, as reported by the Dominion Agricultural Bureau, follow:

Butter: first grade creamery prints, job price, 22 1-2c to 23c; first grade solids, job price, 22c to 22 1-2c; Quebec No. 1 pasteurized butter, current receipts prices, 21 3-8c; Quebec No. 2, 20 3-8c. Receipts, 1,054 boxes.

Cheese: unquoted. Receipts, 1,143 boxes.

Eggs: graded, inspected, shipments in used free cases, A-large, 27 1-2c to 28c; A-medium, 25 1-2c to 26c; A-pullets, 21c; B-large, 20c to 21c; C, 14 1-2c to 15c; uninspected lots, 1-2 cent less; lower grades only, B, 19c; C, 14c. Receipts, 873 cases.

Potatoes: Quebec, No. 1, 75's, 55c to 60c; Quebec No. 2, 75's, 50c to 55c.

## Attractive Special Prize Offered

Last year fourteen entries were shown at Tweed Fair for the Canada Packers special prize. Each entry consisted of five market hogs. The Tweed Agricultural Society also gave a very substantial contribution which made the prizes very attractive.

The same special is offered again this year and it is time that the farmers in the Tweed district were paying a little extra attention to their market hogs that will be ready at the time of the Tweed Fair.

Farmers who are interested may receive full particulars from either the Tweed Agricultural Society or Canada Packers Limited, Peterboro.

---

Some good lots of hogs marketed from the Belleville district during the week of August 31st, 1939, are as follows:

| Name and Address: | No. | A | GRADE B 1 | 2 | 3 | C 1 | 2 | 3 | Premium |
|---|---|---|---|---|---|---|---|---|---|
| Arthur Casey, Holloway | 5 | 3 | 1 | 1 | | | | | $3.00 |
| Everett Hubble, Trenton | 2 | 2 | | | | | | | $2.00 |

### WALL STREET CLOSE

New York, Sept. 2—(AP)— Late profit-taking stemmed another "war baby" boom in the stock market today after favorites had shot up 1 to more than 5 points.

As thoughts revived of a possible settlement of the German-Polish controversy without a general European outbreak, stock prices receded substantially from the tops established in the first hour. Some leaders lost half or more of their initial advances.

The ticker tape ran as much as three minutes late during the first 40 minutes.

Hiram Walker moved up more than a point in the Canadian group but fractional losses were registered by C. P. R., Dome, McIntyre, Porcupine and Lake Shore. Dominion 4s dropped a point in the bond market.

So-called war commodities swung upward at the start, but most emulated stocks fell back toward the finish. Hides, one of the strongest of the staples yesterday, broke well under Friday's levels and cottonseed oil retreated.

### TORONTO STOCKS CLOSE

Toronto, Sept. 2 (CP)—Base metal shares staged another sharp advance in the final session of the week on the Toronto exchange, supported by rising metal prices on war prospects while the golds were inclined to ease off at the start and advanced near to close. Industrials and western oils were generally strong but slow. Volume was around recent normal with 160,000 shares changing hands in the first hour. The exchange will remain closed on Monday, Labor Day.

Buying was heavy in Nickel, Sherritt, Waite Amulet and other base metal issues from the opening and Nickel soon showed an advance of 2¼ from the last close. Winding up around the 52 mark, it was up 2 points for the day. Noranda came forward rapidly to show a top price of 80¼, up 5 points overnight. Ventures and Subury Basin and Sherritt advanced 17 cents to 1.25, changing hands in heavy volume.

A few golds firmed moderately. Buffalo-Ankerite weakened 50c, Dome 1¼, McIntyre 1¼.

## Produce Markets

### TORONTO BUYING PRICES

## Efforts Made To Save Peace

(Continued From Page One)

### GERMAN EMBASSY ENTRANCE BARRED

The main entrance to the German Embassy was bolted and barred as members of the staff brought luggage from their homes and piled it high in the Embassy court.

The Press Association said the Cabinet had been broadened with the probability that four new ministers would be added. They were said to include Winston Churchill, First Lord of the Admiralty at the outbreak of the Great War.

Later the Press Association said it understood the National Executive (Administrative Body) of the Labor Party decided it would not participate in the War Cabinet.

The Polish Embassy issued a statement that Germany's war planes continued to bomb civilian populations, claiming "many victims including women and children."

### POLAND CHARGES GAS IS USED

Warsaw, Sept. 2 (CP-Havas)—German bombers were accused today of having used gas and incendiary bombs in an attack on three Polish towns north of the Slovak frontier.

The official Polish Telegraph Agency reported that at 6:30 a.m. fifteen German planes raided the towns of Jedlice, Moderowka and Iwonicz—the last a summer resort—and dropped the gas and incendiary missiles.

The agency charged numerous civilians, including women and children, had been killed.

### NEW ZEALAND SUPPORTS BRITAIN

Wellington, Sept. 2 (CP-Reuters)—Acting Prime Minister Peter Fraser announced today in a broadcast speech that the British Government has been informed that the New Zealand Government completely supports it in its determination to honor its obligations. He said many volunteers were joining the army, and the territorial force was fully organized and ready.

### OUTCOME OF WAR NOT IN DOUBT

Valetta, Malta, Sept. 2 (AP)—(Passed by British Censor)—Sir Charles Bonham-Cater, Governor of Malta, in a broadcast today declared the outcome of an imminent war with Germany was not in doubt.

He added: "We all fervently hope nothing will occur" to break "the age long friendship between Italy and Great Britain".

The Governor said the evacuation of harbor areas was now unnecessary, but counseled the islanders to be alert to take cover if warnings are sounded

### YUGOSLAVIA ARMY WARNED TO BE READY

Belgrade, Sept. 2 (AP)—War Minister Milan Medic today asked the Yugoslav army to be ready at a moment's notice to make any sacrifice for the homeland.

Yugoslav political circles expressed satisfaction Hungary and Bulgaria apparently intended to remain neutral in any European conflict. These circles were especially pleased by the Italian attitude of neutrality.

### 300,000 CHILDREN EVACUATED

London, Sept. 2 (CP—(Passed by British Censor)—The Health Ministry announced today 300,000 school children were safely evacuated from London yesteday and received at country havens. The evacuation continued today.

### NIGHT LIFE DIMMED BY WAR CLOUDS

Paris, Sept. 2 (AP)—Night life in Paris is being dimmed by war clouds. Police ordered that all establishments serving drinks for consumption on the premies must be closed by 11 p.m.

### MARKETS REMAIN CLOSED

London, Sept. 2 (AP)—It was announced here that the gold and silver markets will remain closed today.

### LENGTHY AUDIENCE HELD

Rome, Sept. 2 (CP)—Benito Mussolini had a lengthy audience with King Victor Emmanuel today in which he reported on the situation arising from the conflict. Il Duce was believed to have explained to the King, why the government was observing neutrality.

### FAVOURABLE REPLY RECEIVED

Berlin, Sept. 2 (AP)—Adolf Hitler today replied favorably to President Roosevelt's appeal to belligerents in a possible European war not to bomb open towns and cities.

Hitler said he already had announced his agreement with this principle in his Reichstag address of yesterday and that he always had held this view.

It was self evident, he added, that the enemy must observe the same rule.

### 100 GERMAN TANKS DISABLED

London, Sept. 2 (CP)—(Passed by British Censor)—Exchange Telegraph reported today that a Warsaw broadcast at 12:39 p.m. (7:49 a.m. EDT) asserted about 100 German tanks had been disabled near Wielun.

The broadcast said a total of 34 German planes had been shot down since the beginning of the German invasion.

## VIOLENT STORM VISITS WINNIPEG

Winnipeg, Sept. 2— (CP)—Nature "blacked out" Winnipeg today in a storm some residents described as the worst in their experience. Darkness descended suddenly and at 9.15 a.m. it was pitch black. Lights in downtown offices twinkled and automobiles with glaring headlights poked through a torrential downpour.

The wind was so strong it ripped flags from masts atop buildings and tore others to shreds. Persons hurrying to work scurried for shelter, particularly along broad Portage Avenue where the wind rattled store signs and toppled some of them.

The deluge was accompanied by repeated flashes of lightning. Within a half-hour the skies cleared considerably but heavy rain continued to fall.

### R. C. E. TO START RECUITING AT ONCE

North Bay, Ont., Sept. 2—(CP)—Recruiting of 500 men for the Royal Canadian Engineers will start at once, Major E. J. Young, Officer Commanding the local detachment, said today. The 30 men now in the local unit are preparing the armory here to serve as a stores building.

The Masonic Temple and the North Bay curling rink have been appropriated for billeting quarters for the men to be recruited. A Federal works department representative was here today to oversee changes in the buildings.

## Gore

Gore's Landing, — Sunday School and Church was held at Centre Church Sunday morning. A very inspiring and interesting sermon was delivered by Mr. Smith of Massassaga.

Mrs. Lorne Brickman and Miss Irma Bonter have returned home after a week's visit with friends at Wellington.

Mr. and Mrs. Earl Fox and Leo spent the week-end with Mr. and Mrs. Delbert McCurdy of West Huntingdon.

Mrs. Julia Fox is spending a few days with Mr. and Mrs. Roy Anderson.

Mr. Joe Foley spent Sunday at Mr. Lorne Brickman's.

Mrs. Willie Fox spent Monday with her sister, Mrs. S. S. Munroe, of Crofton. Mr. Fox spent the tea hour at the same home.

Mr. and Mrs. Ross-Burr and Master Allan Werden were tea hour guests of Mr. and Mrs. Willie Fox on Friday evening.

Mrs. S. W. Bush has returned home after a few week's stay with Miss Annie Bush of Consecon.

Mrs. Willie Fox called Tuesday afternoon on Mrs. Lorne Brickman and Miss Audra Brickman.

### 33 PLANES BROUGHT DOWN

Warsaw, Sept. 2—CP-Havas—An official announcemtnt today said 33 German warplanes, including 20 bombers, were brought down yesterday, 16 tanks were put out of action and 500 German prisoners taken.

## MERCHANTS START TO LIMIT SUGAR SALES TO 10 LBS.

### Supply of Raw Sugar Held Up As Admiralty Commandeers Cargo Ships

### BIG DEMAND

Restriction of sugar sales to limited quantities by retail stores is not due to a shortage of the commodity, but to the facts that the British government has commandeered sugar cargo-carrying ships, a high official of a prominent wholesale grocer firm stated today.

Sugar refinery companies "went off" the market yesterday and refused to accept orders from wholesale companies. This is not a sign of advancing prices, it was stated, but purely and simply a question of available supply.

Refinery companies have plenty of raw sugar awaiting shipment but due to the international situation, and the fact that the freighters used to carry this cargo have been commandeered by the Admiralty, delivery of supplies has been held up.

Wholesale houses have received instructions to distribute immediate stocks as far as possible, while retail stores especially, those of the chain companies, received orders today to restrict individual sales to ten pounds.

The first restriction yesterday to twenty pounds per customer sent city housewives racing to shops this morning in an effort to secure sufficient supplies. A street rumor that a shortage was imminent caused queues of women to line up at shop counters at an early hour today.

## Shell Oil Company To Spend $19,000 on New Marine Terminal

Permit was granted yesterday afternoon and work is expected to commence at once on the new Shell Oil Company marine terminal which will occupy the bay shore on the section of land abutting and at the foot of South George Street.

Estimated cost of the construction has been set at $19,000 on the permit issued by the office of the building inspector.

The new terminal will be one of the most modern in the Province designed for the handling and storage of oils and gasoline received at Belleville by tankers and will include buildings, tanks and pipelines.

The land occupied by the new terminal is land that has been "made" by the city on the bay shore through the dumping of city refuse and waste over the past many years. Borings taken by the company show suitable rock foundation, and the heavy rock sub-surface is considered ideal support for the heavy buildings.

## HITLER

(Continued From Page One)

The communications from Britain and France were delivered to the German government by the British and French Ambassadors here last night.

The supreme high command informed The Associated Press that the advance of German troops into Poland was continuing despite Polish resistance and dynamiting of roads and bridges.

The command said the objectives not only had been reached but had been exceeded.

Teschen has been captured, officers declared, and north of that city on Poland's southwestern border the German troops from Silesia are advancing along the line Pless-Nikolai.

Klobuik, northwest of Czestochowa, has been captured, officers said, as has Wieroscow, east of Kenten, and Schildberg. In the Pomorze (the Polish Corridor), the coal transport railway between Bydgoszcz and Gdynia was reached west of Kulm. Tczew also is in German hands.

**Trying to Get Corridor.**

This information by the high command would indicate Germany is trying to gain possession of the Corridor as quickly as possible, in addition to having made Danzig part of the Reich.

Possibly on attaining these objectives, for which Hitler said he would fight until they were achieved, he may advise the British and French governments he is ready to halt.

Informed quarters indicated the text of the reply to the Western powers, which will be delivered some time today, depended upon the military situation.

Polish Ambassador Joseph Lipski left Berlin this morning. Asked whether this meant a rupture of diplomatic relations, one authorized person said:

"Call it that, if you will. It's hard, however, to apply old terms to this new situation. Many accepted terms of international law go by the board in these days."

**Sweden Assumes Interests**

(Continued on Page Seven)

### CHAIR WINNERS ARE ANNOUNCED

The winners of the two Floglaze finished chairs at the Belleville Fair, drawn for on Thursday night at the Walker Hardware Company Booth, were Miss Catherine Moncrieff, 176 Bleecker Ave., and Mrs. Rosebush, 86 S. John Street.

## Britain's Press Blames Hitler For War Believed Imminent But Confident of the Outcome

By PAT USSHER
Canadian Press Staff Writer

London, Sept. 2 (C.P. Cable) — (Passed by British Censor)—Great Britain's press, in solemn tones and with complete unanimity, today blamed Fuehrer Hitler for the war that appeared to be descending on Europe and expressed confidence the outcome of any conflict would be a victory for the forces of justice and democracy.

"Never in her long history—not even in 1914—has Great Britain entered upon the prospect of war with a more clear conviction of right than today when she pledges her all to the defence of the Polish people against ruthless aggression," The Daily Telegraph (Conservative) said.

THE DAILY MAIL (Independent) said "Europe is fast descending into the darkness of war. The crisis is moving rapidly toward its appointed end . . . This is the climax in the career of a man for whom the words honor, humanity and truth have no meaning."

THE TIMES (Independent)—In matter of fact words summarized what millions of Britons realized today: "Since Herr Hitler has chosen war in spite of the many chances given him up to the last moment to avoid it, war there must be."

A banner headline in the Mail "Britain gives Germany the last warning" was typical of the manner in which the first editions of the morning newspapers presented Friday's fateful news.

The Times declared that "the great evil must be erased from the world. That evil is the spirit of faithlessness, of intolerance, of bullying and of 'senseless ambition' which is embodied in Herr Hitler and those who surround him".

The newspaper expressed horror that civilized man has had "to tackle the same task twice in 25 years" but it added "the task will be done again no matter what effort is required".

THE YORKSHIRE POST (Conservative), regarded as reflecting the views of former Foreign Secretary Anthony Eden, said "if it falls to the new generation to take up arms against the enemy of 1914-18 it is not for any paltry advantage in the crazy game of power politics, but for the preservation of liberty itself upon which all civilized life and progress depend— specifically for the rights of any and every nation to a peaceful and independent existence."

THE DAILY EXPRESS (Independent) said: "The time of National trial may be long. We can only guess the length of the ordeal. But one thing is certain when Britain fights war, war is on until Britain has won."

THE NEWS CHRONICLE (Liberal)— "This is no war of conquest. This is no war of hatreds. This is a war voluntarily and deliberately accepted in order that the freedom of fair dealing shall not be allowed to perish from the earth. Men who in such a spirit accept the challenge of destiny will see it through to the end with courage and with faith."

THE DAILY HERALD (Labor)— "The decision is taken. Within a few hours at the most our country will be at war. There could be no other decision. War is not our willing. The crime is not ours. It is that of one man and a small group of intimates who with him plunge Europe into catastrophe because their word is not allowed to silence freedom".

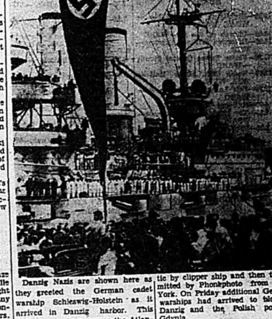
THE BIRMINGHAM POST (Conservative)— "Hitler's offence is far grosser than the offence of the Kaiser. He is sinning not against light, but against a blinding searchlight—against the plainest warnings repeated again and again."

THE MANCHESTER GUARDIAN (Liberal)—"No effort of our diplomacy or that of France and Italy, no appeal to the highest principles of human morality, whether from the Pope or from the heads of States great or small, has prevailed to turn Hitler aside. It is for the overthrow of this dictator and his system of Government that we intend to war. We have no enmity with his people, but we can have no truce with the system that renders beneficient peaceful civilization impossible."

### AS HITLER UTTERED FATEFUL WORDS

Plunging the world in what may well become the most ghastly war in the history of mankind, Chancellor Adolf Hitler is pictured here in this radiophoto from Berlin on Friday, as he addressed a special meeting of the Reichstag to announce that Germany was determined to take armed action against Poland immediately. Field-Marshal Goering, whom Hitler announced as his successor should "anything happen to me," is pictured seated behind the German Chancellor.

### DANZIG NAZIS GREET GERMAN WARSHIP



Danzig Nazis are shown here as they greeted the German cadet warship Schleswig-Holstein as it arrived in Danzig harbor. This picture was flown across the Atlantic by clipper ship and then transmitted by Phonephoto from New York. On Friday additional German warships had arrived to blockade Danzig and the Polish port of Gdynia.

## West Huntingdon

West Huntingdon — On Saturday evening, August 19th. thirty-five relatives gathered at the home of Mr. Frank Ashley for a reception given in honor of Mr. and Mrs. J. Ashley, who were married on August 5th. at Mindimoza, at 8 o'clock. The guests were called to the spacious dining-room which was beautifully decorated with a large white bell, pink and white streamers and cut flowers. The Misses Audrey and Dora Bird, Ruby Kilpatrick and Beverley Palmer (nieces of the groom), serving a delicious dinner, dressed at waitresses, in pink and white crepe aprons and caps. The bride and groom received many useful and beautiful gifts. Those present included relatives from Madoc, Vankleek Hill, Picton, Stirling, Peterboro, Belleville, Foxboro, Ivanhoe, Fuller and West Huntingdon. Citizens join in wishing the young couple many happy years of married life.

# CABINET MEMBERS AROUSED EARLY TO MEET PREMIER

### All in Readiness to Put War Measures in Operation in Canada

## ORDERS READY

### Lord Tweedsmuir at Government House to Speed Orders Through

By C. R. BLACKBURN

Ottawa, Sept. 4 (CP)—Dominion Cabinet Ministers, aroused early on Sunday by the dread but not unexpected news that Great Britain and the Empire are at war with Germany, hurried through foggy streets this morning to greet Prime Minister Mackenzie King in the Privy Council Chamber at 10 o'clock (EDT).

Mr. Mackenzie King, advised by The Canadian Press a few minutes after the flash was received that Great Britain had declared war, lost no time in communicating with his ministers who had been warned to be ready for such an emergency.

All was in readiness for speedy action along whatever lines the government proposes to move now that Canada, as a partner in the British Commonwealth of Nations, stands literally if not technically at war with Germany.

It was intimated that necessary orders in council were ready for merely inking in the dates and the formality of adoption to put into effect the various war time measures which may be needed pending the meeting of parliament next Thursday.

**Tweedsmuir Active.**

Lord Tweedsmuir, Governor-General, was at Government House to co-operate with the government in speeding orders through. No radical steps were expected to be taken but censorship will probably become generally effective.

While it is accepted by all political parties and authorities that when Britain is at war Canada is at war, particularly in view of the fact that an enemy of Britain would certainly interpret Canada's relation to the Empire in that light and attack this country if it were strategically feasible or possible, the actual declaration of war by Canada is not expected to come until parliament meets.

Mr. Mackenzie King made a declaration in the House of Commons last March on the position Canada would be in should Great Britain enter upon a war against aggression. He repeated, on March 30 last, a statement he made at Geneva in September 1936, which was in part as follows:

"The Canadian parliament reserves to itself the right to declare, in the light of the circumstances existing at the time, to what extent if at all Canada will participate in conflicts in which other members of the Commonwealth may be engaged."

**Defence Minister At Post.**

Defence Minister Mackenzie was the first to arrive for the council. He reached the meeting place at 9:45 a.m. Shortly afterwards Transport Minister Howe, Justice Minister Lapointe, Agriculture Minister Gardiner, Postmaster-General McLarty and Resources Minister Crerar arrived.

Mr. Lapointe who, as acting Secretary of State, will have charge of any press censorship but could not say whether plans to put it in effect had been completed.

So far, however, no censorship applies to the press and the minister declined to comment on reports of the censoring of cables and telegrams at Montreal.

It was learned from other sources that a sub-committee of the cabinet on censorship has been set up under the chairmanship of Postmaster-General McLarty.

The Prime Minister appeared fresh and unworried as he entered the council chamber after chatting for a few minutes with reporters.

He said he was not sure what procedure would be followed when parliament meets Thursday. Whether a formal declaration of war would be made by Canada is one of the matters of detail yet to be worked out.

**All Staff Members Present.**

Practically all the staff of the Privy Council, the Prime Minister's office and External Affairs Department were in their offices. Officials and secretaries had been hastily summoned from their homes early this morning.

Dr. O. D. Skelton, Under Secretary of State for External Affairs, came to the Prime Minister's office, consulted Mr. King and remained available for further consultations during the meeting.

Only a few people watched the ministers enter the East Block. A small girl with a dog on a leash played around the door as Mr. King and his colleagues began their grave deliberations.

As usual red-coated Royal Canadian Mounted policemen were on duty at the doors but about the only other spectators were a few newspaper reporters and motion picture photographers.

# *Sequence of Events Leading up to Declaration of War by Great Britain Against Germany*

Great Britain declared war on Germany Sunday, at the expiration at 6 a.m. EDT of an ultimatum to the Reich to call her advancing armies out of invaded Poland.

France prepared to follow suit.

Proclaiming the government's decision to the Empire, Prime Minister Chamberlain declared—as the King and Queen listened over the Buckingham Palace radio:

"May God bless you all and may we defend the right."

Millions of men stood under arms. Other millions have been called to the colors.

Poland, already in a state of war, was being struck at on three fronts.

German planes, Poles said, had made nearly 100 bombing raids, including several over the capital, Warsaw.

At Ottawa Prime Minister Mackenzie King called the Dominion Cabinet to meet at 9 a.m. EDT.

TAKE UP FIGHT

Great Britain took up the fight after the breakdown of the last slim hope for peace—a proposal by Premier Mussolini of Italy, Germany's axis partner, that a five-power conference be summoned to consider the German-Polish issues.

London was willing to sit in, the government decided, but not unless Hitler withdrew his army from Poland. France took the same position. Thus came the last ultimatum: an answer to Britain by noon, London time, today, or fight.

There was no answer and so Chamberlain told the people of the Empire as the deadline passed:

"We have done all that any country could do to establish peace. But a situation in which no word given by Germany's ruler could be trusted and no people or country endure has become intolerable, and now that we have resolved to finish it, I know that you will all play your part with calmness and courage.

ASSURED SUPPORT CONFRONTING

"At such a moment as this, the assurances of support which we have received from the Empire are a source of profound encouragement to us."

He said Great Britain has done her best to make a "peaceful and honorable settlement", but that Hitler would not have it. Consequently we are at war with Germany," said Mr. Chamberlain.

Premier Daladier of France was given power to declare war against Germany under an unanimously adopted bill appropriating yesterday 69,000,000,000 francs ($1,656,000,000) as added war credits.

This was in addition to huge sums already being spent—sums which among all countries amount now to about $1,500,000,000 a month.

INTENSIVE NEGOTIATIONS

War in Europe fell after four months of intensive negotiations; of alternating hopes and fears. The last phase began on the last day of March when Mr. Chamberlain pledged to Poland that Britain and France would help her if her national independence was so threatened.

There followed then a series of diplomatic moves and counter moves—all centring around the territorial demands of Adolf Hitler. Finally, while bombs from German planes were falling on Warsaw and other vita Polish cities, Mr. Chamberlain told a cheering parliament that Britain and France had sent an ultimatum to Germany saying in effect: Pull back your soldiers from Poland.

This was on last Friday and over the holiday week-end there began a period of waiting, broken by but one major development: Mussolini's five-power proposal.

Saturday Britain drafted the last ultimatum. Today at noon in London, when no reply had come, it was war.

# *Text of Chamberlain's Address to Parliament*

London, Sept. 3 (AP)—Following is the text of Prime Minister Chamberlain's statement to the House of Commons:

"When I spoke last night to the House I could not but be aware that in some parts of the House there were doubts or bewilderment as to whether there had been hesitation or vacillation on the part of the government.

"If I had been in the same position as members and not in possession of all information I might have felt the same.

"We were in consultation all day yesterday with the French government and we felt that the intensified action which the Germans were taking against Poland allowed of no delay in making our position clear.

Accordingly we decided to send to our Ambassador in Berlin instructions which he was to hand at nine o'clock this morning to the German Foreign Secretary which read as follows:

"'Sir, in a communication which I had the honor to make to you on Sept. 1, I informed you on the instructions of His Majesty's principal Secretary of State for Foreign Affairs that unless the German government were prepared to give satisfactory assurances that the German government would suspend all aggressive action against Poland and were prepared promptly to withdraw their forces from Polish territory, His Majesty's government in the United Kingdom would without hesitation fulfil their obligations to Poland.'

**No Reply Received.**

"Although this communication was made more than 24 hours ago no reply has been received. German attacks on Poland have been continued and intensified.

"I have accordingly to inform you that unless, no later than 11 a.m. British summer time, today, Sept. 3, satisfactory assurances to above effect have been given by the German government and have reached His Majesty's government in London, a state of war will exist between the two countries as from that hour.

"No such undertaking was received by the time stipulated and consequently this country is now at war with Germany.

"I am in a position to inform the House that, according to arrangements made between the British and French governments, the French Ambassador in Berlin is at this moment making a similar demarche accompanied also by a definite time limit.

"The House has been made aware of our plans and as I have said we are ready.

"It is a sad day for all of us but for none is it sadder than for me.

**Crashes In Ruins.**

"Everything I had worked for, hoped for, and believed in during my public life has crashed into ruins.

"There is only one thing left for me and that is to devote what strength and power I have to forwarding victory of the cause for which we have to sacrifice ourselves. I cannot tell what part I may be allowed to play but I trust I may live to see the day when Hitlerism has been destroyed and restored and liberated Europe has been re-established."

# *Girded For Conflict*

Prime Minister Chamberlain's declaration that Great Britain was at war with Germany came to a Europe girded for conflict with the greatest armament the world has ever known.

For more than a year, nations in both hemispheres have been spending a billion dollars a month for arms, and most of the money has been expended by European nations.

Available estimates on the army, navy and air strengths of the leading European powers follow:

| | Army | Navy | Air |
|---|---|---|---|
| Great Britain | 600,000 to 700,000 | 2,079,863 | 3,000 to 4,000 |
| France | 3,000,000 | 815,531 | 3,000 |
| Poland | 1,000,000 | 16,500 | 1,000 |
| Germany | 2,000,000 to 2,500,000 | 541,023 | 5,000 to 8,000 |
| Italy | 1,300,000 | 717,920 | 5,000 |
| Russia | 2,000,000 | 290,589 | 8,000 |

As for the production rate of airplanes, highly important because of the need for replacements, it is estimated these nations are equipped to turn out the following number of planes each month:

Britain and Germany, each 2,000; France, Italy and Russia, each 1,000; Poland, no estimate.

# WAR CABINET FOR BRITAIN FORMED

### Winston Churchill Becomes First Lord of Admiralty in New Setup

London, Sept. 4 (CP)—It was officially announced Sunday that a British war cabinet had been formed to include Winston Churchill as First Lord of the Admiralty, Sir Samuel Hoare as Lord Privy Seal and Lord Hankey as Minister without portfolio.

Prime Minister Chamberlain remains at the government's helm, it was announced.

Sir John Simon and Viscount Halifax retain their executive posts as Chancellor of the Exchequer and Foreign Secretary.

Lord Chatfield remains Minister for Defence Coordination, Leslie Hore-Belisha Secretary for War and Sir Kingsley Wood Secretary for Air.

The war cabinet is holding its first meeting this afternoon, it was announced.

# LEADERS RALLY AROUND CAUSE

### Our Hearts on This Sunday Morning Are at Peace Says Churchill

London, Sept. 4 (CP)—Here is how parliament's leaders rallied behind Prime Minister Chamberlain in war:

David Lloyd George, Great War Prime Minister, told the House of Commons the government could do no more than it had done, that Britain had won victory for right in the last war and "we will do it again".

Winston Churchill, First Lord of the Admiralty at the outbreak of the Great War, emphasized Britain's repeated efforts for peace, declaring:

"Outside the storms of war may blow and the land may be lashed with the furies of its gales, but in our hearts this Sunday morning there is peace.

"Our hands may be active but our consciences are at rest.

"We must not underrate the gravity of the task which lies before us, the severity of the ordeal.

"We must expect many disappointments and many unpleasant surprises but we may be sure that the task which we have freely accepted is one not beyond the compass of the strength of the British Empire and the French Republic.

Sir Archibald Sinclair, leader of the Liberal opposition, declared:

"It is the determination of parliament to see this thing through. Let the world know that the British people are irrevocably determined to end this Nazi domination forever and build an order or peace and justice and freedom."

**Mr. Lloyd George.**

Mr. Lloyd George declared:

"I am only one of tens of millions who will back any government in power to carry this struggle through.

"I have been all through this before and there is only one word I want to say about that.

"We had very sad moments, when brave men were quailing and doubting.

"The nation was firm right through from the beginning to the end and there was one thing which struck me and that was that in moments of disaster I found the greatest union among all classes."

**Faint Voice of Dissent.**

A faint voice of dissent came from John McGovern, who said the small Independent Labor Party to which he belongs could not accompany the Prime Minister along the path of war.

"I regret that after 2,000 years of mankind," he said, "Sunday morning should find the Prime Minister in the position of announcing that men are on the eve of living like beasts."

The House of Lords adjourned after passing several war bills.

Mr. Chamberlain at the same time appealed to the House of Commons to end its proceedings, declaring "there is an immense amount of work to be done."

The House, resuming consideration of the bill for conscription of men 18 to 41 years old was told by War Secretary Leslie Hore-Belisha that those under 21 would be among the last called.

The age limit, he said, was fixed to appropriate the French lower limit of 18 and the Polish lower limit of 17.

**Some Time To Elapse.**

The War Secretary said it would be some time before any other age group would be called besides the other 20-year-olds already conscripted.

"In the next age group we shall ascend from the point at which we have started (20-year-olds)," he said.

"We shall go up the scale very considerably before we contemplate placing this obligation on men of 18. Let us hope we shall be able to get through this war without having to call upon them at all.

"At this very moment we are taking out of the active forces prepared for overseas all existing men in the army under 19 and we are not intending to send them to France, although they have enlisted as regular soldiers."

# *Proclamation of War Given By Chamberlain*

London, Sept. 3 (AP) — Following is the text of Prime Minister Chamberlain's proclamation that Great Britain is at war with Germany:

"This morning the British Ambassador in Berlin handed to the German Government a final note stating that unless we heard from them by 11 o'clock (British summer time, 6 a.m. EDT) that they were preparing at once to withdraw their troops from Poland a state of war would exist between us.

"I have to tell you now that no such undertaking has been received and in consequence this country is at war with Germany.

A BITTER BLOW.

"You can imagine what a bitter blow it is to me that all my long struggle to win peace has failed.

"Yet I cannot believe that there is anything more or anything different that I could have done that would have been more successful.

"Up to the very last it would have been possible to arrange a peaceful and honorable settlement between Germany and Poland but Hitler would not have it.

"He had evidently made up his mind to attack Poland whatever happened and although he now says that he put forward reasonable proposals which were rejected by the Poles that is not a true statement.

NEVER SHOWN TO POLES

"The proposals were never shown to the Poles nor to us and although they were announced in the German broadcast on Thursday night Hitler did not wait to hear comment on them but ordered his troops to cross the Polish frontier next morning.

"His action shows convincingly that there is no chance of expecting that this man will ever give up his intention of using force to gain his will.

"And he can only be stopped by force.

"We and France are today in fulfilment of our obligations going to the aid of Poland who is so bravely resisting this wicked and unprovoked attack on her people.

"We have a clear conscience.

"We have done all that any country could do to establish peace. But a situation in which no word given by Germany's ruler could be trusted and no people or country could feel itself safe has become intolerable."

RESOLVED TO FINISH IT.

"And now we have resolved to finish it. I know you will all play your part with calm courage. At such a moment as this the assurances of support we have received from the Empire are a source of profound encouragement to us.

"When I have finished speaking certain detailed announcements will be made on behalf of the government.

"These need your close attention.

"The government have made plans under which it will be possible to carry on the work of the nation in the days of stress and strain which may be ahead of us.

PLANS NEED HELP.

"These plans need your help. You may be taking your part in the fighting services or as a volunteer in one of the branches of civil defence. If so you will report for duty in accordance with the instructions you receive.

"You may be engaged in work essential to the prosecution of the war, for maintainence of the life of people in factories, in transport and public utility concerns and in the supply of the other necessaries of life.

"If so it is of vital importance that you should carry on with your job.

"Now may God bless you all and may He defend the right. For it is evil things that we shall be fighting, against brute force, bad faith, injustice, oppression and persecution. And against them I am certain that right will prevail."

# FUEHRER SPEAKS TO ARMED FORCES

### Intends to Proceed to Eastern Front and Supervise All Forces

New York, Sept. 4 (AP)—In a broadcast to his armed forces, Fuehrer Hitler said Sunday: "I am now on my way to the eastern front."

This information was picked up by National Broadcasting Company engineers monitoring German broadcasts.

"I shall there supervise the German forces," Hitler said.

He urged troops stationed on the Siegfried Line facing Frnace, to do their duty and said he expected the eastern campaign to be ended successfully for Germany in a matter of weeks.

"After that time," he said, "the entire German armed forces of our Reich of 90,000,000 people will be behind you.

"I know that God will favor us with victory as right and justice are on our side."

Hitler also declared: "The plutocratic democratic forces have again succeeded in provoking a state of war with the German Reich.

"For a long time I have tried to iron out existing difficulties by peaceful means.

"However, Britain systematically encouraged the Poles to attack German forces stationed in the east until we were forced to take up arms in selfdefence."

**GERMAN SHIP TRAILED**

San Francisco, Sept. 3 (AP)—The German merchant ship Portland, unheard from since it sailed from Everett, Wash., Wednesday, was reported early today being trailed by one Australian and two Canadian naval vessels somewhere off the Pacific coast.

The Marine Exchange of the San Francisco Chamber of Commerce received the information, but attaches said they were not at liberty to disclose source of it.

Credence to the report was lent by the fact that, although the Australian cruiser, Perth, and the Canadian destroyers Ottawa and Restigouche had been scheduled to arrive here Tuesday it was later announced they would not come to San Francisco.

# CRISIS HIGHSPOTS

(By The Canadian Press)

Historic 1939 dates:

March 31—Great Britain pledged British-French aid if Poland's independence is threatened and she fights.

May 5—Poles refuse German territorial demands, but offer to negotiate.

Aug. 18—Germany takes military possession of Slovakia.

Aug. 21—Plans for German-Soviet non-aggression pact announced, one day after trade agreement is reached.

Aug. 23—Hitler reported to have demanded all Polish territory once German-ruled, threatening revision if Poland resisted. Far-reaching British-French military measures taken.

Aug. 25—Hitler sends Britain his Polish demands. (His proposal, ultimately revealed, was for immediate return of Danzig, which he since has obtained through proclamation. He offered a plebiscite in the Corridor in a year's time to determine by simple majority whether Germany or Poland should have it. If Germany should get the Corridor, Hitler would give Poland a narrow terratorial strip to the port of Gdynia.

Aug. 27—Hitler sends note to Daladier designed to justify German policy.

Aug. 28—Britain replies to Hitler in a closely guarded statement.

Aug. 29 and 30—Diplomatic exchanges continued in an atmosphere of dwindling hope for peace.

Sept. 1—Chamberlain, in parliament, accused Hitler of "senseless ambition". Disclosed Great Britain and France had sent Berlin a "last warning".

Sept. 2 — Chamberlain, revealing Mussolini had suggested a five-power conference, said Britain was willing to participate only if Hitler took his advancing troops out of Poland.

Britain gave Germany until the next day to decide.

Sept. 3—Great Britain, receiving no answer, declares war on Germany.

# HORRIBLE SCENES SEEN AT WARSAW

### Correspondent Graphically Describes Trip Through Bombed Areas

By ROBERT RIEFFEL
(Havas News Agency Staff Writer)

Warsaw, Sept. 4 (CP-Havas) — Scenes of horror were witnessed by this correspondent Sunday and Saturday in visits to Warsaw suburbs bombed by German planes.

Ten persons, mostly women and children, were killed and thirty injured when a bomb exploded after crashing through all the three floors of a workers' dwelling containing 27 apartments. The building was destroyed.

Three bodies remained under the wreckage, in which a child of ten was trapped for 14 hours.

A workman who lost his wife and two children when another bomb fell between two buildings sat all day amid the ruins, unable to grasp the reality of the tragedy.

The district in which these tragedies occurred, Kolo, is only six miles from the centre of Warsaw.

A policeman's wife and mother were killed and his daughter seriously wounded when a bomb fell on their home in another suburb, Siecle.

These raids, only two of the sixteen reported Saturday, involved no military objectives.

In a field near the Vistula River this correspondent counted thirty shell holes, each about 16 feet deep.

A Belgian reservist, complete, with marching kit, is seen on his way to a frontier post as his country made ready its defence to thwart any surprise move that might be contemplated by an enemy force—something there was no time to do when the last holocaust broke in 1914.

# SHARP CONTRAST TO THAT OF '14

### Momentous News Flashed to World by Radio and Newspapers

(By The Canadian Press)

"Consequently we are at war with Germany . . . I am certain the right will prevail."

The momentous declaration was heard in Canada at 6.16 a.m., EDT, in Prime Minister Neville Chamberlain's broadcast to the Empire.

Time and time's changes made a sharp contrast in the reception of the news in comparison with that of the empire entering the Great War Tuesday, Aug. 4, 1914.

This morning Canada literally awakened to the fact of the Empire at war. The announcement was not expected until the mother of parliaments assembled at noon in London (7 a.m. EDT).

Britain's entry into the Great War in 1914 was announced in the evening of a midsummer day in Canada with great crowds thronging streets of the cities awaiting the news. Demonstrations continued for hours. The Kaiser was burned in effigy in 100 cities and towns across Canada. Parliament was called that night to meet sixteen days later to decide the part Canada should take in the war.

Today—Sunday, Sept. 3, 1939—the grim news was broken over the air and in newspaper extras. Developments continued through the day along the same channels as The Canadian Press and its member newspapers followed the course of events.

## MORE REFUGEES ADDED TO EUROPE'S HOMELESS

As armed hostilities broke out between Poland and Germany, war refugees hurriedly packed their meagre belongings and fled to the German side of the Silesian border in the vain hope of avoiding raiding parties pushing into Poland from Germany. This radiophoto shows refugees streaming across the border as German troops advanced into Poland on Friday.

THE ONTARIO INTELLIGENCER

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at The Ontario Intelligencer Building, Front Street, Belleville.

## A DARK HOUR

Twenty-five years ago the British Empire was at war—a war to end all wars as it was thought during the awful years that followed and now again we are at war. This time it is in defence of the principle that all nations must be free to live without interference from a stronger and more aggressive neighbor.

Probably the most difficult thing for us to realize today is that we are at war, especially so, as Canadians have not had sight of the preparation for conflict that has been the case in Britain—that is preparations that are visible to the observer. In Great Britain the anti-aircraft defense measures and sand bagging of important buildings have warned the public they are living in dangerous times. Soon we shall become accustomed to the sight of soldiers on our streets and on guard at important public service establishments.

The pity of it all and the useless waste of our manhood and treasure of all countries involved is present in everyone's mind just because one man at the head of an important country must seek to satisfy his "Senseless ambitions".

Once again fathers and mothers and wives must watch their beloved ones go off to fight the aggressor. What bitterness will be in their hearts just because one man seeks to impose his will and rule over all others. This thought will harden the hearts of our men in the field as well and will serve to make the Canadian and British soldier more determined than ever that victory must come whatever the price, that the peoples of the world may be free to pursue their national life free from threat and coercion. This time, it is hoped, that the phrase "the war to end all wars" will not be an empty one.

## BLIGHT OF MILITARISM

In the past nine or ten years Germany has has produced some notable diterature. produced nothing of enduring quality in art, literature, for body, mind and spirit have been dragooned and poured into one the Nazi madness of German power exalting one man.

In this absorption in one thought, Germany has been mentally dwarfed, her thoughts made to run along one line, that of Der Fuehrer, whose aim it is believed in domination of Europe and then of the world. His effort to crowd this achievement into a few years' span explains why Germany has been turning mind, soul and body into mechanism of war. Should she succeed, a blight would fall upon the world for in all history nothing so sinister has fallen upon the earth. Alexander the Great's conquests were the wonder of the ancient world and perhaps the greatest of all time, but his empire crumbled as soon as he died. Conquests by ancient Rome had their selfish side but Rome spread her civilization and did benefit the world she controlled. But Nazism is a blight on German Nazism and anything Germany touches. Nazism does not deserve to live.

While this threat remains there is no chance of Germany taking any place in art or literature, and she holds back the rest of the world from those benefits which would come from a settled civilization, better housing, employment, revived world trade and so on.

In these threatening years Britain, France and U. S. and some other parts of the world have produced good things in literature and art, thanks to the freedom which democracy allows.

The reason is clear—the democratic mind is free and unshackled, the German is closed inside a steel helmet.

---

There are few people who are more often in the wrong than those who cannot endure to be thought so.—Rochefoucauld.

---

If any speak ill of thee, fly home to thy own conscience and examine thy heart. If thou art guilty, it is a just correction; if not guilty it is a fair instruction.—Herbert.

---

I will chide no breather in the world but myself, against whom I know most faults.—Shakespeare.

---

How shall we learn to know ourselves? By reflection? Never, but through action. Strive to do thy duty; then shalt thou know what is in thee.—Goethe.

---

There is in some men a dispassionate neutrality of mind, which, though it generally passes for good temper, can neither gratify nor warm us; it must indeed be grented that these men can only negatively offend; but then it should also be remembered that they cannot possibly please.—Grenville.

## "TELL THE TRUTH—AND SHAME THE DEVIL"

"If I had a son, I'd swear to do one thing: I'd tell him the truth." That opinion is from J. Edgar Hoover, famed chief of the G-men, whose experience with boys-gone-wrong gives it special point. Probably few parents will disagree, yet many are concerned with the problem of how to tell the truth to a child. But no matter how diplomatically and tactfully information is presented to the youngster, it is true that, as Oliver Wendell Holmes once asserted, "truth is tough." George Eliot put it even more dramatically, saying that it "has rough, flavors if we bite it through." Consequently the father or mother who decides to tell the youngster the truth chooses a troublesome—not a dainty—job. There may be a specific time and place for some things, but truth recognizes no stop signs, no "do not disturb" placards says the Rotarian Magazine. A youngster may break out in a rash of curiosity at any moment. His quest for knowledge is not confined to the privacy of some domestic laboratory, and it is seldom impersonal. Parson Jones' mannerisms and Aunt Lydia's hats may start inquiries shocking to conventional parents, yet prompted by the most scientific attitude. But here's the trouble with truth:: Long ago it severed all diplomatic relations with white lies and terminological inexactitudes, with prejudices and propagandas. Unfortunately few adults have followed this policy; consequently, as vigilant custodians of truth, they fall short when a child wants to know why some children must live in slums, why some children must go hungry, why some children must be targets for bombs.

x x x

AN EGG A DAY WILL KEEP THE SHERIFF AWAY FROM THE CHICKEN COOP according to the World's Poultry Congress, which figured that if everybody would eat just one egg a day there would be such a demand for eggs that the price would go up and the hens would have to work overtime to supply the demand. Already the hens have been mobilized and regimented and no up-to-date chicken village is complete without running water and electric lights. The hens are doing their bit, apparently, but the folks who do the heavy eating are falling down. If the Political Boss of Atlantic City can eat up to one dozen fried eggs every morning for breakfast, there is hope that other folks can get in the habit of eating at least one egg a day in the interests of the poultry business. Then again we are told by medical investigators that eggs do not agree with everybody—so it is up to the scientists to evolve a standard egg which will agree with everybody. Seems as if milk and cheese are the only perfect all sufficient foods yet evolved—thus far egg variations include only sterile and virile eggs, and the egg which has all the virtues and none of the vices has yet to be produced, apparently—however, an egg a day shouldn't hurt anybody, if taken in moderation, even in sherry, at a pinch.

## KWINTY OR KANTY—WHICH ?

Bride Broder of the Toronto Globe and Mail considers any person an alien who pronounces Quinte — "Kwinty." Bride Broder was born in Picton and she insists that the proper pronunciation is Kanty.

It all sounds so funny to us. In the first school we ever attended—two miles north of Maynooth—we were taught that it was Bay of Kanty and we believed that.

But after living on this same Bay of Quinte for over twenty years, we would be afraid to say Kanty to any one of the several native-born friends we have made, lest they might think we had gone high hat or something.

So we shall have to disregard all Bride Broder has to say about proper pronunciation and we shall have to disregard all we had been told in that North Hastings school and do as the natives do—call our fine waterway Bay of Kwinty. For after all there is something called pride, and if one permits that to slip, he is apt to go to tarnation, stern end first.—Trenton Courier-Advocate.

# LOOKING BACKWARD

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

## 20 YEARS AGO

Sept. 4th, 1919

Mr. H. K. Denyes left today for Cornwall where he will judge cattle and shep at the fair in that town.

Mr. and Mrs. Charles Thompson of Buffalo, N.Y., are visiting relatives here.

The Rev. Dr. Scott, pastor of Bridge Street Church, and Mrs. Scott, have returned after a vacation spent on an island in the Ottawa River.

Mr. J. T. Warren spent several days in Toronto last week.

Mr. J. L. Tickell is in Toronto on business.

Burglars entered S. Twining's barber shop on Front street, last night and carried away razors, shears and two hundred cigars.

Mr. and Mrs. John Kaiting of Buffalo, N.Y., formerly of Belleville, are visiting friends in the city.

## 30 YEARS AGO

Sept. 4th, 1909

Mr. Stephen Flagler is spending a few days in Toronto.

Mr. and Mrs. W. E. Griffith are in Toronto for a few days' visit.

Mr. Percy W. Geen is spending a few days in Toronto.

Miss Lynn has left for Quebec City to meet her brother Mr. E. P. Lynn, who is returning home for a visit after spending several years in East Africa.

The Rev. H. B. Kenny, pastor of the Tabernacle, has returned from vacation.

The Rev. R. C. Blagrave, rector of Christ Church, is expected home this evening after a trip to Western Canada.

Mr. Frank H. Chesher is spending his vacation in Toronto and Hamilton.

## 40 YEARS AGO

Sept. 4th, 1899

Mr. Merton Gordon, son of Mr. W. H. Gordon of this city, while on the river near Tweed, shot a fish hawk which measured five feet from tip to tip of the wings.

Mr. J. O. R. McCurdy, jeweler, is in Toronto on business.

The Rev. D. Balfour of Thomasburg, was in town today.

Mr. and Mrs. C. Farley are spending a short time in Toronto and Niagara Falls.

Ald. J. H. Starling has returned from Montreal.

Mayor J. W. Johnson is absent on a visit to Toronto and Hamilton.

The Rev. A. W. Coone, formerly of Albert College, is renewing acquaintances in the city.

## 50 YEARS AGO

Sept. 4th, 1889

The Ashley Carriage Company of this city is making an exhibit of their carriages at the Kingston Fair.

Mayor J. W. Diamond and a number of citizens went to Port Hope today to attend the ceremony of the unveiling of a statue erected to the memory of the late Col. Williams.

Mr. W. Ormond caught a large maskinonge in Mosquito Bay yesterday.

Mr. C. M. Reid of the Ritchie Company has returned home after a buying trip in the Old Country.

Mr. H. H. Johnston was sworn in as a Solicitor yesterday.

High County Constable G. S. Johnston left today for the northern part of the county.

Sergt. Thomas Downs of the city police force is away on a week's vacation.

## *Greyhound, Horse of Century*

A few days ago a trim little trotter named Peter Astra, owned by a country doctor from the midwest, romped around Good Time track at Goshen, N.Y., to win first money in the Hambletonian, outstanding race, as far as amount of purse is concerned, in the harness horse season. Because the Hambletonian purse, about $40,000, is so large compared with the average for trotting races, and because of the amount of publicity usually given this race, there is a tendency, even among sport writers, to attach undue importance to it. The winner very often becomes a champion among trotters in the minds of some fans at least.

As a matter of fact the Hambletonian is for three-year-olds only and the best time ever made in that race cannot compare with the world's record. Moreover Peter Astra's time was several seconds slower than the record for that particular race. He may be a very fine trotter but he has a long road to travel before he catches up with his betters.

x x x

In the world of sport the champion among all trotting horses is unique today. He stands on a pedestal, admired but alone. Only seven years old, he has outdistanced all contenders for the title, beaten his own records several times, can find no opponent worthy to even attempt a race with him. He races now and again with his shadow but people pay big money to even see him do that.

That horse is Greyhound, undisputed king of the harness racing circuits. As a three-year-old he, too, won the Hambletonian, and seven other races that year, and since then he has never had any real competition. He is one of the wonder horses of the turf world and today, at the very prime of his life and with several good years still in prospect, no owner is anxious or even willing to pit a horse against him. It is doubtful if GOreyhound will get a single decent race this year. There are not many world champions, man or beast, with such a reputation. Even Joe Louis finds an occasional bag of muscle to bat around.

A few of the sports writs who must have just wanted something to talk about suggested last week that a matched race between Peter Astra and the Greyhound was a prospect for the present season. The little three-year-old may make it some day, but by that time Greyhound will be past his best and the man who races him then should be taken out at sunrise.

Peter Astra's best time when winning the Hambletonian was 2.04 1-4. Greyhound trotted the mile in 2.00 flat as a three-year-old and today holds the world's record of 1.56 1-4. Two years ago he made a new record of 1.56 at Lexington. Last year he equalled this record over the same track and then on September 29, a damp cold evening, he went out again and clipped 3-4 second from his own record.

x x x

The most interesting thing about all these records of Greyhound's is that they were made alone—Greyhound was trotting with his shadow. There is a feeling that if the horse ever gets the urge which real competition would undoubtedly give he could even better these records. At the present time there are no prospects to give him any sort of competition.

A year or so ago Algernon Daingerfield, secretary of the Jockey Club, and as such about the kingpin of the thoroughbred horse fraternity, was solicited for his vote on "the horse of the year". The poll was being taken largely to decide whether War Admiral or Seabiscuit was entitled to the honor. Owing to Mr. Daingerfield's reputation and position his vote was awaited with the liveliest curiosity.

Well this authority confounded those who conducted the poll by deciding that neither the 'Biscuit nor War Admiral was entitled to the honor. "The horse of the year is Greyhound, the greatest horse before the public today," wrote the secretary of the Jockey Club. Now for a thoroughbred man to make such an admission about a standard bred is, well, about the same as an M.D. admitting that a chiropractor was a very good doctor. It was an outstanding tribute to a great horse.

The world of sport is notorious for the shortness of its memory. But for a champion to sink into comparative obscurity during the very height of its fame is practically unheard of. Yet that is exactly what is happening to this great horse—simply because there is no worthy opposition in sight. His name appears less and less frequently on the sports page simply because there are no races where his entry would be accepted. All other entries would be withdrawn and the "race" would turn out to be simply another exhibition trot. It looks as if the penalty of greatness for Greyhound is likely to be obscurity.

x x x

A few words about the history of this outstanding champion. Of straight standard bred stock he was foaled in 1932 in Kentucky and when a yearling was sold to E. J. Baker, St. Charles, Ill., for $900. Mr. Baker still owns him and he has been trained throughout by Septer F. Palin. The price paid meant that Mr. Baker secured the greatest trotting horse ever foaled for the traditional song.

Although somewhat difficult to train as a youngster, today he is one of the most perfectly-mannered performers ever seen. Since running as a two-year-old, he has never been known to break from a trot while extended, a remarkable record as anyone connected with trotters will acknowledge. He is the first grey trotting champion in over 75 years of turf history.

He lost his first few races as a two-year-old — came fourth once in Toronto—but in the six final races that year swept all before him. As a three-year-old, in a series of eight races he was never menaced. The next year, as a four-year-old, he met his last defeat, being pulled on the half-mile track at Goshen. He had never been trained on a small track, but two years later he trotted on this track in an exhibition race in the extraordinary time of 1.59 3-4. No other horse had ever trotted the half-mile track better than 2.03 1-4 before.

So Greyhound today is at the top of his form, undisputed champion of the harness division in horse racing. There is not even a conteder for his title. — Bryan L. White in Ottawa Farm Journal.

## HOUSEHOLD LABOR

To get housewives who have servants to check up the working conditions in their own homes is a long step toward improving the labour standards of household employees. The Women's City Club of New York has spotlighted this through a six-month experiment in regulating domestic labour.

Once let a housewife discover by her own count that her household helper is working 80 or 90 hours a week, and she is shocked into eagerness to fit her household to the simple standard of approved labour conditions sponsored by this club. The club has found that many women honestly think they are model employers — until they stop systematically to check themselves with the club's questionnaire. The set of rules worked out two years ago by the club calls for a maximum of 60 hours a week for servants and a minimum wage of $40 a month.

On the whole, the women reached by the club's questionnaire have been surprisingly eager to co-operate. And since the more specific move to secure better working conditions was launched six months ago, comments and requests for the questionnaire have come from women in many states, from both housewives and domestic employees. This is good news. They are finding that fair labour conditions can be maintained in homes, to the advantage of all concerned.—Christian Science Monitor.

## MARRIED WOMEN

Business and professional women in the United States decided at their recent Kansas City convention to launch a two-year campaign to defend and preserve the right of married women to work, or rather to hold jobs that are coveted by unmarried women and men.

The onslaught of the depression brought this question into such prominence that some firms, as a means of maintaining good will, found it necessary to make a general rule against employing married women. Although exceptions were almost always made in case of married women whose husbands were unable to support them, the application of the rule frequently resulted in injustice and even hardship.

Even if the factor of need be taken into account, it cannot be denied that many married women today are unjustly deprived of the opportunity to work. Surveys have shown that necessity, in varying degree, is the main cause which impels married women to seek work, and if their rights were as untrammelled as is commonly assumed to be the case, they should have no barriers of discrimination arbitrarily raised against them as a class.—Winnipeg Tribune.

## SCOTTISH TRIBUTE

"I am a Scot. I can look at the English and their peculiarities from the stranger's viewpoint. It is a fashion in the world to say that the English are decadent. Some people and some nations have fallen into that error. And it is an error. The English love sport, and they work in and adore their beautiful gardens, and they are not absorbed in money-making anad soldiering. The English are not transparently efficient yet they are regular in all they do, and they do everything thoroughly. The critic who observes that the outer surface appears soft has misread the English character. The core is like granite—strong, hard, enduring and unbreakable.—By Sir William Crawford.

## *War of the Waves In Algeria*

Algeria today is a battleground, where opposing forces fight, not with armaments, but with wireless and sound-waves, seeking by propaganda to capture or hold the Arab's allegiance.

The fact that there are only 6,000 wireless sets between Algeria's 6,000,000 natives seems hardly sufficient cause for alarm amongst the French officials regarding any adverse propaganda that may come over the waves.

The Algerian native, however, considers the wireless the most cherished toy that civilization has brought to him. It is officially estimated that every wireless set is heard by at least two or three hundred people. News spreads like wild-fire in Algeria, for the wandering tribes impart word-of-mouth information from one to the other as fast as they receive it. The system of communications among these tribes is as farreaching as it is primitive. Therefore, the utmost care must be taken by the French Government to foil all attempts at sinister propaganda against its own administration.

Radio-Alger is constantly sending out its invisible army against the powerful Italian station at Bari. The war of the waves in Algeria takes place, mainly, between these two stations and is waged in the Arabic language.

For the French it is a defensive war. France is not demanding colonies from Italy—and though Italy has not yet asked for Algeria, it is obvious to the Government officials that there is always an attempt to provoke unrest amongst the Arabs.

x x x

The Arab is a credulous soul and believes everything he hears. Since the great majority of them cannot read, it is obvious that wireless is of tremendous importance. French officialdom is constantly on the alert to correct all untrue, insidous propaganda on the spot.

In the great white Government building in Algeria is a receiving post where trusted Arabs take down in shorthand every word in Arabic coming from foreign stations, translate it at once into French and send it post-haste to M. Antoine Gardel, a member of Governor-General Le Beau's Cabinet.

If there is anything harmful in the already emitted text, a French text is quickly edited to refute or explain it, and this is sent over Radio-Alger in Arabic within half an hour at the latest.

The Arabs are quite used to this system, and, after listening to a broadcast from Bari, they invariably switch over to Radio-Alger to get the second edition, an edition which they assume to be the truth, however ignorant they may be, since it comes from their "home" station. In this manner much danger is obviated, but it means a constant watch, night and day, on the part of the French.

Other countries interested in spreading unrest in Algeria have more difficulty in using wireless, since their stations are farther away and less powerful than Bari. However, there are three other means of spreading insidious propaganda in Algeria and these can be used with equal facility by any interested country.

Two of them are, again, by sound-waves—gramophone records and songs. The third, the cinema, is not such a good medium for propaganda as it might seem, for control and censorship are not difficult. While there is scarcely an Algerian native who has not heard the radio, there are thousands who have never seen a cinema.

x x x

The Arabs are very fond of songs, and French officials are frequently seizing whole bales of chansonnettes containing unfavorable allusions to France. Seemingly innocent, many sad or amusing "propaganda songs" are capable of capturing the popular imagination and causing indignation or ridicule against the Government. In the populous quarters of Algiers—and there are some regions where there are one thousand inhabitants to an acre!—these leaflet songs have, in the past, been distributed and sung, for their words and melodies to wander off over the desert, repeated far away in the southern sands. It requires constant airtness to prevent this from happening.

Gramophone records are more easily censored than songs, and all foreign importations are rigorously examined and ruthlessly destroyed if necessary.

The French do not stoop to do anti-Italian propaganda but anti-Italian propaganda is done, strangely enough, by Italian subjects themselves. The system of colonization used by the Italians is the reverse of that used by th French and British. The former harm the native at the expense of their own people while the latter tend to cooperate with the native and to aid him side by side with the colonizers. Consequently, the unhappy natives leave the countries where the Arabs are ill-treated and go over the desert to countries where the Arabs are protected — Melda Munro in London Truth.

## CRY OF "FIRE"

A woman gropes through smoke to the telephone, lifts the receiver and screams "Fire" into the mouthpiece. If she behaves the way 50 per cent of her sisters—and her brothers—behave in the same cisis, she will then ask for fire headquarters. When the connection is made she will scream, "My house is on fire!" and hang up.

No address is given, no vital information continues The New York World-Telegram. She does not even say what borough she lives in. Fear has short-circuited her normal, rational mental processes, and the fire department has to solve the all-important mystery of the fire's location without her help.

Eighteen or twenty seconds after she screamed, two engine companies, two ladder trucks and a battalion chief are rolling through the streets, headed directly for her home, the mystery solved.

How was it solved? By a system worked out by the unsung technicians of the Fire Alarm Telegraph Bureau of the New York Telephone Company.

Years ago, when the telephone first became a factor in daily life, the fire department alarm bureau went to the telephone company with the suggestion that all fire calls be immediately traced. Now it is nearly mechanical, a trained response to a situation that woks like this:

The woman asks for or dials the fire department. In the central exchange the supervisor automatically plugs in and listens. If the location is given she loses interest. But if the woman fails to say where the fire is the supervisor at once checks the address of the telephone on which the call was made and telephones that information to the telegraph bureau of the fire department. In practice the whole manoeuvre takes less time than the telling.

## COPYING OLD MODES

It was with a feeling of general relief that it was read that the revival of the fashions of the 1860's was an adaptation and not a copy. Just to look at the old pictures of the wasp waists of that period was enough to make one gasp for breath in sympathy, and the literature of the time records how easily women fainted in that bygone day. It is hard to think of the active woman of this modern day submitting to such discomfort just because of the whim of the designers, and equally difficult to picture a modern woman attempting to carry on the many activities of her busy day, slipping in and out of her car, shopping in crowded stores, playing golf and tennis, wearing one of the voluminous models, pictured when the wasp waists and old-fashioned bustles were in style.

But perhaps there is more copying of the old mode than one thought at first, for the wife of a New York department store owner just home from Paris, advises girls to take a deep breath, that corsets and small waists are coming back, that the new fashions are beautiful but uncomfortable. A Russian singer returning from Europe at the same time disagrees, however, expressing the opinion that women will never allow themselves to be made uncomfortable again.

It is a fact that those who would set the fashions do not always get their way, as witness the recent failure to make the upswept coiffue general. When women found that this added years to htelr appearance and was also much more difficult to keep neat, it had but few followers. On the other hand though, one must remember the astonishing bits of nonsense that the designers have been able to persuade women to wear as millinery during the last season or two. —St. Thomas Times-Journal.

## MR. DUNNING'S SUCCESSOR

John Hart as new finance minister of Canada to succeed Mr. Dunning. This was the rumor in Victoria last week. But it is only a rumor. Ottawa has not sense enough to make the story come true.

John Hart has the ability and the experience. He is essentially a conservative, yet occupying a high post of leadership in a Liberal government. But his instincts, like his financial outlook, are conservative. In this respect he is very like Mr. Dunning.

But he won't go to Ottawa. Anyway he probably would decline an invitation on personal grounds.

But he will not get the invitation. Ontario and Quebec will never allow a westerner the privilege of this important cabinet post no matter what his proven ability. There is too much at stake for the people who run things in the centres of population in Canada.

The only time this rule was broken was an occasion many years ago when Lyman Duff, a Victoria lawyer, became Chief Justice of Canada. And he made the ascent to that high office by several easy stages.

The new minister of finance of Canada will not live far from Montreal or Toronto.—Vancouver Sun.

## BIG SALMON

In Newfoundland, the season for the big ones is on! And in Newfoundland, the big ones ARE big, for the average salmon weighs 30 pounds. There is no fixed season and the catch is not limited by restrictions, for the only law is, "Just be a good sportsman." To the average fisherman, all this sounds too good to be true, but in Newfoundland's 200 rivers, streams and lakes there are abundant game fish of all kinds—just waiting for the rod and reel sportsman. — Canadian Business.

## RHODA GOT TIRED

A girl named Rhoda got caught up last Sunday, through no wish of her own, in an energetic bicycling tour of Central Park. After an hour's pedalling she could feel her thighs getting numb, so she pulled up and asked a traffic cop on duty in the parkway if she could disobey the rule about cycling against traffic, just this once, so she could get out of the Park and go home. "No, you can't," the cop cried. "You want to still have that lovely figure ten years from now, don't you? Then keep riding!" For the cop's information, Rhoda fell off her bicycle five minutes later and skinned her lovely knees. — The New Yorker.

# PRIME MINISTER

*(Continued From Page One)*

**Act Now in Effect**

More concrete than words, the government moved suddenly, too, to bring Canadian preparedness to wartime pitch. Following a cabinet meeting Sunday, it was announced that the "defence of Canada regulations" had been placed in effect, empowering the government to detain enemy shipping and enemy nationals, control wireless stations, censor wireless and cable messages, and to examine outward-bound shipping to prevent export of war contraband.

A censorship co-ordination committee was ordered established, with Walter S. Thompson, Montreal, as chief censor. Mr. Thompson, a veteran newspaperman, has been for many years director of publicity for the Canadian National Railways and latterly also publicity director for Trans-Canada Air Lines.

**No Profiteering in Foods**

The censorship committee will "take any steps which may be found necessary in the public interest to regulate the dissemination of information through the press, radio, motion pictures, mail, telegraph, telephone or other evenues," according to the official announcement.

Broadcasting after Mr. Mackenzie King, Labor Minister Rogers announced establishment of a three-man board to prevent profiteering in foods, fuels and other necessaries of life. A committee of citizens will be set up to act in an advisory capacity. A few hours later, Mr. Rogers announced that three senior civil servants had been appointed to the board. They are: Hector B. McKinnon, Commissioner of Tariff; David Sim, Commissioner of Excise; and F. A. McGregor, Commissioner of the Combines Investigation Act.

The board will co-operate with manufacturers, wholesalers and retailers to ensure reasonable prices and adequate supplies and distribution of the necessaries of life. Penalties will be provided for infractions of reasonable prices and for failure to keep supplies and distribution adequate.

**Ample Supplies on Hand**

The nation has ample supplies of the necessaries of life and adequate sources of supply for the future, the Minister said.

In the interests of efficiency, the government announced the cabinet had been divided into a number of sub-committees, which follow, with the chairmen: Emergency council—Prime Minister Mackenzie King; Supplies—Works Minister Cardin; Legislation—Pensions Minister Power; Public Information—Postmaster-General McLarty; Finance—Acting Finance Minister Ilsley; Internal Security—Labor Minister Rogers.

Tourists in Canada need no passports to get in or out of the Dominion, was the reassuring message of Resources Minister Crerar, in charge of immigration, in the face of rumors that wartime measures included a passport regulation. United States citizens, British subjects, and citizens of friendly powers may come and go in Canada as they did in peacetime, the Minister said in a brief statement last night.

# NORTH ATLANTIC

*(Continued From Page One)*

**Canadians Aboard.**

Hundreds of Canadians were reported among the 1,400 aboard the Athenia.

Many British and French craft and some German and Polish ships were in danger.

At sea, and therefore subject to seizure or sinking, were the proudest ships of the British and German merchant marine, the $25,000,000 Queen Mary and the $20,000,000 Bremen.

The $60,000,000 French luxury liner Normandie was berthed indefinitely in her New York pier, saved from possible destruction by the foresight of French officials who cancelled her sailing Friday.

**Queen Mary Near New York.**

The Queen Mary, with a record passenger list of 2,385, was sighted off Sandy Hook Bar early today nearing the neutral New York harbor, her ports blackened, her wireless silent to keep her exact position a secret from German U-boats.

Exact position of the Bremen was unknown. The German liner, which sailed from here last Wednesday without passengers after being delayed 60 hours by United States customs officials searching for war weapons, was believed by some shipping men to have sought the safety of a South American port. A report that the liner had been seized by British warships was denied.

The Bremen would be in the war zone now, if it headed for its home port.

**Sailings Speeded Up.**

With thousands of North American tourists still stranded in Europe and clamoring for immediate passage home, the United States Lines revamped its schedules, speeding up sailings to meet the emergency.

Commercial shipping to European areas was curtailed, but British vessels doggedly ploughed dangerous sea lanes, risking destruction in the belief they would be protected by British destroyers spotted strategically against the mance of sub-surface raiders.

First to leave an American port was the 600-foot Cunard liner Carinthia, carrying in her brig the first German prisoner seized by a British ship—blond Helen Mutterer, 27, a stewardess and linguist.

She was taken off the Cunard-White Star liner Georgic, where she had worked five years. Ship's officers said Fraulein Mutterer was a willing captive and had told them she preferred to return to England rather than to go back to Germany.

# POLISH FORCES

*(Continued From Page One)*

**On German Soil**

The resurgence of popular courage, inspired by the entry of Great Britain and France into the war as allies of Poland, was spurred anew by the claim of official sources that Polish troops had penetrated German territory for the first time.

The official reports said fast-striking Polish cavalry on Saturday had recaptured Leszno and Rawicz, Posnania Province towns occupied by Nazi forces in their initial attacks and drove the invaders back across the border. The Polish vanguard, it was said, has advanced into German Pomerania, north of Breslau.

**Greeted By Cheering**

News of the war declarations in Paris and London was greeted by spontaneous celebrations throughout Poland. In Warsaw singing and cheering throngs trooped through the streets.

Despite repeated radio warnings, the streets were jammed for hours. In one air raid during the day, a German plane dived over the villa of United States Ambassador Anthony Biddle, in a Warsaw suburb and dumped six bombs. One of them wrecked a villa next to Biddle's and shattered windows in his home, but the ambassador and his household escaped harm.

On the battle fronts, the Staff Communique said the German onslaught was especially strong in Silesia and the Tatra Mountains, north of the Slovak frontier.

In Pomorze the Polish corridor, severe fighting was reported around Grudziads and elsewhere near the East Prussian frontier, with Polish defence lines holding intact.

# ITALY NOT LIKELY

*(Continued on Page Seven)*

Some Italians said they believed Il Duce might make further efforts to arrange a settlement—such as the conference of interested powers he was seeking when Great Britain and France went to war with Germany—but there was nothing in official circles to indicate such a likelihood.

There were those who felt that, Mussolini's proposal having failed, he would be too realistic to attempt further to mediate.

Italians watched closely for the first reports of French and British military action and said Mussolini would have to make his decision for or against participation in the war in a few days.

There were many who said British and French armies would be unable to reach Germany across her western fortifications, the Siegfried Line—a view widely expressed in the Fascist press. The Germans, they reasoned, after crushing Poland, would be able to turn and crush their British-French foes.

**May Be Brought In**

Yet many Italians feared they would be brought into the conflict by a request for aid from Adolf Hitler—a call which they said their government might have to answer under the military alliance with Germany.

Hopes in some foreign circles that Mussolini would turn his back on Hitler and aid Britain and France with outright neutrality were not very bright.

Concerning Mussolini's reply to any inquiry from Britain and France as to his intentions, certain diplomats suggested the Premier probably would refrain from answering until he saw how the war was going.

A picture the world thought could never have been made, illustrating the new-found friendship between Nazi Germany and Soviet Russia. Joseph Stalin, left, shakes the hand of Joachim von Ribbentrop, German foreign minister, after the latter and Soviet Foreign Minister Molotav had signed the famous non-aggression pact between the two countries, supposedly undying enemies according to their mutual pre-pact vituperations. The Supreme Soviet (Russia's parliament) has yet to ratify the pact and the stand of the Soviet in current European developments is uncertain.

# Chamberlain Acclaimed With Thunderous Applause After Momentous Utterance

### Declaration of War Follows Ultimatum to Germany to Withdraw Troops

### NOW AT WAR

### Sports Events Cancelled, Theatres and Movies Closed Until Further Notice

London, Sept. 3 (CP)—Great Britain declared war with Germany on Sunday.

Prime Minister Chamberlain proclaimed war in a broadcast at the expiration of a British ultimatum to Germany and then was acclaimed with thunderous cheers as he arose in the House of Commons.

The British ultimatum for Germany to call her troops out of Poland and expired at 11 a.m. (6 a.m. EDT) and the two nations were at war from that moment by its terms.

After informing the nation by radio the Prime Minister went to parliament and declared:

"This country is now at war with Germany.

"We felt that the intensified action which the Germans are taking against Poland allowed of no delay in making our position clear."

He said France "at this moment is making a similar demarche".

The Prime Minister spoke to the House of Commons only five minutes. He started at 12:07 p.m. (7:07 a.m. EDT) and sat down at 12:12 p.m. (7:12 a.m. EDT).

Sports events had been cancelled, theatres and movies shut and the populace had been exhorted not to collect in large crowds. It was warned that large crowds increased the menace of death from bombing.

"I trust I may see the day when Hitlerism has been destroyed," the Prime Minister told parliament.

He explained the expiration of the ultimatum to Germany, telling the House it had expired without any reply from Berlin and that France—bound like Great Britain to help Poland defend her independence—was joining Britain in war "at this minute".

Mr. Chamberlain, his voice trembling with emotion, emphasized his words by banging the table with his hand as he exclaimed:

"There is only one thing left for me to do and that is to devote what strength and powers I have to forwarding the victory of the cause for which we have to sacrifice ourselves."

Arthur Greenwood, acting leader of the Opposition in the Commons, endorsed Mr. Chamberlain's statement.

"In this titanic struggle," he declared, "unparalleled, I believe, in the history of the world, Nazism must be overthrown.

"May the war be swift and short and the peace which follows stand proudly forever on the shattered ruins of an evil name.

"Poland we greet as a comrade. Our hearts are with you and all our power until the Angel of Peace returns to our midst."

Mr. Chamberlain himself read the radio proclamation from the cabinet room at 10 Downing street.

# HITLER REPLYING

*(Continued From Page One)*

"Then," he added, in a special message to the army facing France, "the strength of our entire 90,000,000 stands behind you."

**Takes Personal Command**

Hitler departed to take personal command of the forces fighting on the Polish front some 12 hours after he had rejected the ultimatum presented by the British Ambassador, Sir Nevile Henderson, demanding the withdrawal of German troops from Poland.

Berlin took calmly the news of the joint declaration of war by Great Britain and France. A crowd of several hundred in front of the chancellery heard the announcement in silence as it was carried over loudspeakers. Newspaper extras of one page each were printed and distributed free of charge.

**War-time Measures.**

New war-time measures were put into effect immediately. All railway connections with France were broken off. It was stated officially shipments routed by way of France no longer would be accepted.

The death sentence was decreed for espionage and insurgency, as well as for any attempt to weaken the army or the people in their "defence determination", or to evade military service in any form. Stern punishment for other military crimes wes decreed. Penalties sharpened for desertion and unlawful absence from the country.

On the eve of their commander-in-chief's arrival, German troops were advancing in several sectors, according to official communiques.

The army command said the rail centre of Czestochowa, on the Warta River in Polish Silesia had been captured, as well as the town of Berent. The official German News Agency reported seven Polish planes and one balloon destroyed in an air raid on Warsaw.

The army command also said German air losses for Friday and Saturday were 21 planes, compared with 120 for the Poles. The communique did not list any casualties.

**Vistula Crossed Is Claim**

Other military dispatches said the Germans had crossed the Vistula River and taken fortifications south of Nikolai, in East Prussia, while the Poles were reported to have destroyed a bridgehead at Tscew, on the upper Vistula; blasted dikes near Tschew, and bombarded Beuthen, on the Silesian frontier, and the suburb of Schomberg, a densely-populated workers' town.

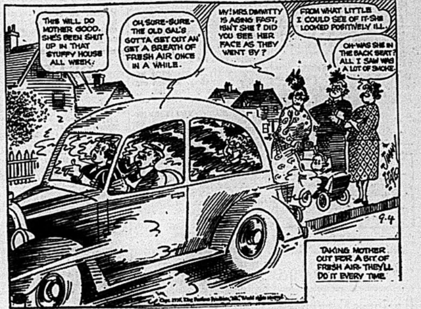
Before leaving for the eastern front shortly after 10 o'clock (5 p.m., EDT) last night, Hitler made three proclamations.

1. He issued an appeal to his army in Poland accusing Britain of trying to "use all European states and peoples" to encircle Germany and concluded with "I myself, as an old solider in the World War and Supreme Commander-in-Chief, will join you at the front today."

2. He told his western forces that, if they did their duty, the battle in the East would be "victoriously concluded in a few weeks and then the strength of our entire 90,000,000 stands behind you."

3. In an address broadcast to the people, he charged Britain with pursuing a "policy of world conquest" and encouraging Poland to resist the Reich; declared that "whoever sins against our unanimity and unity must expect nothing else than that he will be annihilated as an enemy of the nation," and that "if our people in such a manner fulfills its highest duty, then the Lord God, who always has given His grace to him who was determined to help himself, will also stand by us.

## They'll Do It Every Time :-: By Jimmy Hatlo



THIS WILL DO MOTHER GOOD. SHE'S BEEN SHUT UP IN THAT STUFFY HOUSE ALL WEEK.
OH, SURE-SURE-THE OLD GAL'S GOTTA GET OUT AN' GET A BREATH OF FRESH AIR ONCE IN A WHILE.
MY! MRS. DIMWITTY IS AGING FAST, ISN'T SHE? DID YOU SEE HER FACE AS THEY WENT BY?
FROM WHAT LITTLE I COULD SEE OF IT-SHE LOOKED POSITIVELY ILL.
OH-WAS SHE IN THE BACK SEAT? ALL I SAW WAS A LOT OF SMOKE.
JIMMY HATLO
9-4
TAKING MOTHER OUT FOR A BIT OF FRESH AIR- THEY'LL DO IT EVERY TIME

With the object of co-ordinating the work Canadian women would be called upon to do in the case of a national emergency, the Voluntary Registration of Canadian Women is working hard at increasing its ranks and outlining plans in eastern Canada, while a drive for organization is going forth in the west. Mrs. Walter Charteris of Chatham, Ont., wife of the provincial soldiers' aid commissioner, is seen here as she arrived at registration headquarters of the Ontario branch in Toronto to line up the work to be done in her own district.

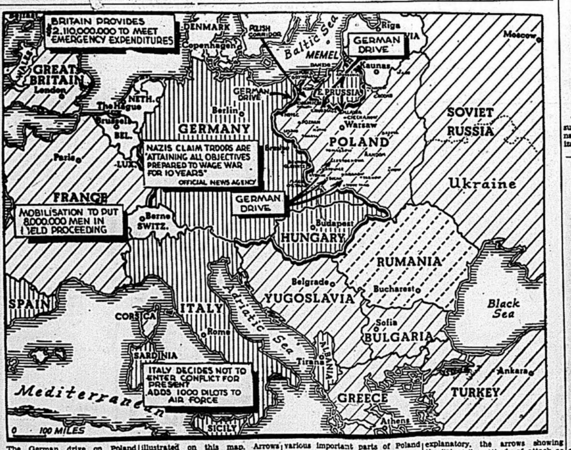
ZWYCIĘŻYMY

Throughout Poland this poster summons the manpower of the nation to arms as a general mobilization takes place in the face of German invasion. The Polish government took action when it was first reported that troops of the Reich were massing on what used to be the Polish-Czecho-Slovakian border. The sign reads: "Force With Strength Must Be Met With Equal Force."



The German drive on Poland that appears to have started another reign of bloodshed in Europe is illustrated on this map. Arrows indicate the four-point attack that is being used in an attempt to cut various important parts of Poland off from each other and thus make a quick conquest. The map is self-explanatory, the arrows showing the "pincer" method of attack as drives are made from Germany proper, East Prussia and Slovakia.

Steamers plying the English channel are unable to keep up with the rush of English people returning from the continent in the face of the current developments in Europe and here a crowd of passengers is seen squeezed into the lifeboat of the Worthing, prior to its sailing from Dieppe. A scene that is being repeated in many ports in many lands.

## ITALIAN BOAT SEIZED

Quebec, Sept. 4 (CP)—The 8,000-ton Italian freighter San Giuseppe, held on an arrest warrant sworn charging breach of contract, was brought into dock here early Sunday by Admiralty officials and Royal Canadian Mounted Police officers.

The warrant, sworn out by Joseph Pyke and Sons (Liverpool) Limited and claiming damages of $100,000, states the San Giuseppe was chartered to load a full cargo of grain at Three Rivers, Que. The freighter was boarded by R.C.M.P. officers and Arthur Lachance, Admiralty Court Registrar, when slowing down for a change of pilot in the port of Quebec.

### GERMANS ARRESTED IN INDIA

Bombay, India, Sept. 4—(AP) — Two hundred and fifteen German males were arrested today in Bombay. Similar arrests were reported in all parts of India.

# OPERATIONS OF ENTIRE LAND

*(Continued From Page One)*

It also was presumed that Captain Cook had been rescued before he sent his latest message, and that he would not have left the ship until the last passenger or crewman alive was off it.

The captain and most of his crew of 246 were Glasgow men. Some of them had been in vessels torpedoed in the Great War.

### BRITAIN SHOCKED BY SINKING

London, Sept. 4 (AP)—News of the sinking of the Athenia on the first night of the war shocked Britain deeply.

It all but crowded off the front pages of the London newspapers basic facts of the conflict just starting. Especially it refreshed memories of the Lusitania sinking on May 7, 1915, and the part that tragedy played in bringing the United States into the last war.

Shortly before 1 p.m. (8 a.m. EDT) the Ministry of Information stated the Athenia was torpedoed "without warning", adding that "such action is in direct contravention of rules regarding submarine warfare by which Germany is bound."

Germany is a party to the protocol signed by a number of powers seeking to humanize submarine warfare. This protocol provides that the captain of an attacking submarine must put the passengers, crew and papers of a victim ship in a place of safety before any attack is made.

### "PLACE OF SAFETY" DEFINED

Under the protocol a "place of safety" does not mean lifeboats in an open sea unless land is close or unless rescue ships are standing by to take passengers and crew aboard.

The Ministry of Information said "the rules lay down clearly that no merchant ship should be sunk without warning or at least until all passengers and crew were safe." The Ministry said "a ship's boats, according to the rules, were not to be considered a place of safety unless within a half hour's pulling distance from land in favorable conditions."

The submarine agreement first was signed at London on Nov. 6, 1936, on behalf of Great Britain, the United States and France. Germany adhered to it in 1937.

The torpedoed Athenia was built at Glasgow in 1923 to replace another Athenia, an 8,668-ton ship which was torpedoed Aug. 16, 1917, in mid-Atlantic while carrying troops from Montreal to England.

An angle of last night's torpedoing that drew much comment was the fact it came in the first day of hostilities. The devastating German attack on passenger and merchant vessels during the Great War that inflamed public opinion in the United States and played a major part in drawing it into the conflict, did not start until May, 1915, or almost a year after the outbreak of war.

When the Lusitania went down off the Irish coast, 1,195 persons, 124 of them Americans, went with her.

Washington, Sept. 4 (AP)—The number of United States citizens known to have been aboard the torpedoed British liner Athenia reached 311 today when the State Department received information that 65 had boarded the vessel at Belfast.

Other advices to the department from the American Embassy at London said 145 Americans sailed from Glasgow and 101 from Liverpool.

### LAND, NAVAL AND AIR FORCE OPERATIONS BEGUN

Paris, Sept. 4 (AP)—France opened operations today against Germany.

The War Ministry announced the nation's full forces went into action in a campaign to relieve German pressure on France's eastern ally, Poland.

On the western front, it was reported in corridors of the Chamber of Deputies, a French land offensive was concentrated in the Belfort region where the Burgundy gate cuts across the border between France, Switzerland and Germany.

The Burgundy gate is a valley running northwest between the Vosges Mountains and the Alps into Germany's Black Forest.

Details of any planned attack to crack Germany's "west wall" fortifications across from France's Maginot Line were withheld.

The air force was understood to be co-operating with land forces, while the fleet held positions in the western Mediterranean.

### FORCE GERMANY TO LOOSEN GRIP ON POLAND

Authorities started emptying Paris hospitals for military use. The first night of France's state of war with Germany had passed without word on the firing of a shot.

The communique came as the first indication that France's 8,000-000 man military machine had gone into action.

Reports from eastern France said the French forces were getting set with disposition of covering troops in and around the Maginot Line facing Germany.

Anti-aircraft batteries were said to have been thoroughly camouflaged to meet the "lightning war" on wings expected from east of the Rhine.

Reports of the torpedoing and sinking of the British liner Athenia with 1,400 passengers, mostly Canadians, arrived too late for publication in the morning press, which was given over to charging Adolf Hitler with responsibility for precipitating another European war.

### DECLARES CAUSE OF JUSTICE

France's obligation to help Poland came into force technically at 5 p.m. (noon, EDT) yesterday at which previously specified time Germany had not given a "satisfactory answer" to the French ultimatum that German troops be withdrawn from Poland.

Later, Premier Daladier broadcast a three-minute speech, characterizing the German invasion of Poland "one of the most brutal and cynical aggressions" and declaring, "the cause of France is the cause of justice."

France, he said, would triumph.

Daladier declared Germany had met British and French peace efforts with refusal, and that Germany "wishes the destruction of Poland in order to ensure rapidly her domination of Europe and servitude of France.

### GERMAN OFFICIALS GO HOME

The German Charge d'Affaires and 130 other members of the German Embassy and Consulate staffs departed by train last night, their homeward journey protected by mobile guardsmen. They went by way of Belgium.

As hostilities unfold, some observers believe it will be impossible for Italy, Turkey, Rumania and, perhaps, the Balkan countries to remain neutral.

Some military experts believe the German Siegfried Line must be cracked for France to relieve Poland, and they are convinced the French can do it. Others hold to the theory a defensive war would be the best plan, but that would depend on the role Italy plays.

### GREEK STEAMER STRIKES MINE

Copenhagen, Sept. 4 (AP)—The Danish radio reported today that the Greek steamship Kosti, en route to Malmo, struck a mine in the Baltic Sea and sank.

The Kosti is owned by J. D. Chandres and N. J. Pissis. Her home port is Piraeus, Greece. The Kosti, built in 1905, had a displacement of 1,555 tons.

### SHIP CARRIES 48 WOUNDED

Copenhagen, Sept. 4 (AP)—Reports from Malmo, Sweden, said harbor authorities had received a radiogram today announcing an unidentified ship would reach there at 1 p.m. (8 a.m. EDT) with 48 wounded aboard.

Ambulances were ordered to the waterfront.

One Danish fishing boat was reported here already to have struck a mine in the North Sea. Four of her crew were said to have drowned.

The report said approximately 100 other fishing boats were caught at sea beyond the mine field and unable to reach home.

### AT THE McCARTHY

"THE MAN IN THE IRON MASK"

Lightning action, thrilling romance and exciting adventure are in store for the hundreds that will attend the current presentation at the McCarthy Theatre of Edward Small's new romantic drama, "The Man In The Iron Mask." Edward Small is the one responsible for "The Count Of Monte Cristo", which was produced several seasons ago, but his latest "The Man In The Iron Mask", surpasses it in every possible detail. The new film production stars Louis Hayward and Joan Bennett as a new romantic duo, and features such top-notch supporting players as Warren William, Alan Hale Joseph Schildkraut, Miles Mander, Walter Kingsford, Marian Martin, Montagu Love and Bert Roach.

Louis Hayward, who made a hit in "The Duke of West Point", returns to the screen in a dual role, appearing as the arrogant and over-bearing King Louis XIV of France and his gay, light-hearted twin brother, Philippe. Joan Bennett, looking more beautiful and arresting than ever in her brunette tresses, plays the part of the piquante and quick tempered Maria Theresa of Spain, betrothed to Louis to cement the two countries and maintain the balance of power in Europe.

The story revolves around the fears which are awakened in Louis' brain when he learns that he has a twin brother who was brought up secretly in the province of Gascony by his father's faithful Musketeers. Fearing that he will be dethroned, because already the people are grumbling and muttering about the excessive taxes, Louis decides to silence his brother forever by imprisoning him in the Bastille after his head is encased in the iron mask to which he alone in all France holds the key.

In addition to the first rate performances turned in by the stars, credit goes to Warren William as D'Artagan, Joseph Schildkraut as the crafty minister of State, Alan Hale and Miles Mander as the other Musketeers. James Whale, who megaphoned the production, gave it swift and speedy direction, impressive characterizations, splendid timing and breathless suspense. Ad dto this, beautiful photography, lavish settings, beautiful costumes and unusual lighting effects, and you get a pretty good idea of why Edward Small's "The Man in the Iron Mask," is thrilling motion picture fare not to be missed by those who seek real entertainment.

### AT THE BELLE

"ANDY HARDY GETS SPRING FEVER"

"Andy Hardy Gets Spring Fever" proved to a responsive audience at the Belle Theatre, Saturday that the Hardy Family series grow stronger with each picture. Never before has the family appeared more human, more appealing.

In this latest of the Hardy saga the family gets a taste of romance and drama. The Judge, portrayed in his usual splendid manner by Lewis Stone, becomes involved in a crooked promotion stunt which threatens the savings of the Hardys as well as of their friends. The irresponsible Andy, naturally none other than Mickey Rooney, quarrels with his girl friend, Polly Benedict, and falls in love with his beautiful dramatics teacher. The latter role is played by a newcomer, Helen Gilbert, who shows definite ability.

To win the esteem of his teacher Andy writes the play for his class show and wins the leading role in it. The young teacher in a moment of loneliness listens to Andy's boyish declaration of love and finds herself suddenly being asked in marriage by the lad. The Judge, despite his own worries, tries to talk Andy out of his infatuation but the latter won't listen. Finally, on the day of the play, the Judge turns a wise trick which saves all the money mulcted by the promoters and Andy discovers that his teacher is engaged to someone else Only then does he come to his senses to realize that Polly is still, as always, his girl.

Fay Holden and Sara Haden, as the restraining Mother and Aunt Milly, turn in their usual heart-warming characterizations, Cecilia Parker wins sympathy as Marian Hardy, and Ann Rutherford once again personifies the "sweet sixteen" type of girl who has played a part in every boy's adolescent years. Terry Kilburn, who ran away with a good share of the laurels in "Goodbye Mr. Chips" is a newcomer to the Hardy ranks, and is excellent as the little boy who worships Andy Hardy, much to the latter's annoyance.

"Andy Hardy Gets Spring Fever", is a delightful entertainment treat in every respect, and no little of its success is due to the fine direction of W. S. Van Dyke II who seems to have realized every possible bit of pathos and humor in the current adventures of the engaging Hardys.

A funny comicolor cartoon, the popular Belle newsreel and an entertaining Passing Parade Subject, precede the feature attraction. The entire program will be repeated again tonight and Tuesday.

ECZEMA
Relieves itching quickly, thoroughly heals the skin, a most effective treatment for Eczema and other skin troubles. A record of 50 years.

# BRITAIN'S BLOCKADE OF GERMANY

*(Continued From Page One)*

issues and on export of bank notes, gold, securities and foreign exchange, except with treasury permission. Holders of gold and foreign exchange will be required to offer them for sale to the treasury.

All banks were ordered closed today, but authorized to reopen tomorrow.

The Stock Exchange, which had discontinued trading Friday during the removal of civilians from London, announced it would reopen "as soon as possible".

Besides Canada, Australia rallied behind the mother country with a proclamation empowering the calling for war service of naval, military, aerial and civil defences.

### 50 INDIAN POTENTATES OFFER HELP

Nearly 50 Indian Potentates gave their support, and others were expected to follow. Newfoundland, Palestine and other territories under the British flag — even remote Tonga in mid-Pacific — have pledged loyalty, or taken measures in preparation for war.

The position of South Africa, where there has been much recent discussion of policy in the event of war involving Britain, has not been defined, but Prime Minister J. B. M. Hertzog told parliament yesterday he would make a statement soon.

Gibraltar, Britain's "rock" guarding the western gateway of the Mediterranean, received the war declaration with wild scenes of enthusiasm. Sailors, soldiers and civilians paraded.

The King broadcast an appeal to the Empire to stand fast in its hour of conflict. He spoke alone from a room in Buckingham Palace.

"We have been forced into a conflict," solemnly declared the King. "We are called with our allies to meet the challenge of a principle, which if it were to prevail, would be fatal to any civilized order in the world."

## European Bulletins

### HEAVY GUNFIRE ON BORDER

Brussels, Sept. 4 (AP)—Heavy gunfire from the direction of the German border, reminiscent of 1914, was heard today in Luxembourg. The firing began early in the morning. Steel plants and furnaces along the frontier were shut down as a measure of precaution.

### SOVIET TO REMAIN NEUTRAL

London, Sept. 4 (CP)—Reuters News Agency reported in a dispatch from Moscow today that the Soviet Union planned to remain neutral in the European War.

### CZECHS TO FIGHT FOR POLAND

Warsaw, Sept. 4 (AP)—President Ignace Moscicki today agreed to the formation of a Czecho-Slovak Legion to aid in the defence of Poland. He named General Lov Prchala, Czech leader who fled his homeland after the German occupation, as commander and Prchala immediately issued a call for volunteers.

### CONFERENCES CONTINUED

Vatican City, Sept. 4 (AP)—Luigi Cardinal Maglione, Papal Secretary of State, today continued his conferences with diplomats regarding the international situation. He received, among others, the French and Italian Ambassadors and the British Ministers to the Holy See. Earlier he conferred more than an hour with Pope Pius at Castel Gandolfo.

Mickey Rooney and Ann Rutherford in the 7th and funniest Hardy Family Film, "Andy Hardy Gets Spring Fever," at the Belle Theatre.

# Ellis Hurls Six-Hitter As Belleville Wins 14-2 To Eliminate Coe Hill

### Locals Advance to Second Round of O.B.A. Play-Offs Against Cobourg

### 13 STRUCK OUT

### Pointer Hits a Homer With Bases Loaded in the Fifth Inning

Yielding up but six scattered hits, Sammy Ellis pitched the Belleville "Orfuns" to a 14 to 2 victory over Coe Hill at the Exhibition Park here on Saturday. The local victory marked the second consecutive win over the now-eliminated "northerners" and in winning, Belleville nine advanced to the second round of intermediate O.B.A. playdowns and meet the Cobourg Ponies here this week.

Bud Wilkins' charges cuffed the offerings of four Coe Hill chuckers for a total of 13 hits including "Doll" Pointer's fifth inning home run with the bases loaded. The game was a rather drab affair from the time the homesters took a three run lead in the second frame, but the features of the pastime were the sterling pitching of Ellis and the heavy clubbing of his team mates.

**Ellis Whiffs 13**

Ellis struck out 13 batters and was not touched for a single extra base hit. He adedd to his effort by striking out the side in the eighth and making the final assist for a put out in the ninth.

The game was rather interesting with a 3-1 score until the fifth, when Belleville scored seven runs with Pointer cleaning the sacks with a mammoth home run to centre field. Every Belleville player crossed the plate for a run, except Ellis, who assisted his own cause with two hits and a run batted in.

Little led the locals with three hits, McQuaid, Empson, Carson and Ellis getting two and Pointer having a perfect average of a circuit blow with one official time at bat. Belleville played errorless ball behind Ellis. B. Giles and McCaw with two hits each, accounted for four of Coe Hill's six hits.

**Coming Star**

Coe Hill's starting pitcher, Don Giles, is but 16 years of age and showed not only plenty of courage, but gave notice he would be heard from throughout Ontario's baseball realm in years to come.

# AMERICANS LEAD TWO GAMES TO ONE

### Australia Forced to Win Last Two Single Matches to Gain Trophy

Haverford, Pa., Sept. 4 (AP)—Australia's Davis Cup team faced the United States' defenders of the International tennis trophy in the final two singles matches of the challenge round today on the Merion Cricket Club courts.

With the Americans now leading 2 to 1, the issue seemed likely to be decided in the first match between Bobby Riggs and Adrian Quist at 2 p.m. E.D.T. Riggs' brilliant victory over Australia's John Bromwich Saturday makes him favorite.

The second match between Frank Parker of the United States and Bromwich appears to be a toss-up. Parker was none too impressive in winning from Quist Saturday.

Their nerves obviously strained by the war in Europe, the Australians meanwhile awaited instructions from the Australian Lawn Tennis Association whether to return home at once or to wait for the United States national singles tournament next week. Quist and non-playing captain Harry Hopman enlisted in the Australian army two months before sailing for this country last May.

The Anzacs kept their hopes for the cup alive yesterday when Bromwich and Quist outsmarted youthful Jack Kramer and Joe Hunt to win the doubles text 5-7, 6-2, 7-5, 6-2.

# 'OILERS' DOWNED 5-3 BY PETERBORO IN FIRST GAME

### Lorne Bateman Beats Johnny Bawden in Hurling Duel

### ELLIS HOMERS

Backed by some sensational fielding, Lorne Bateman pitched Peterboro to a 5-3 win over the Belleville Shell "Oilers" in the first game of the second round of the Intermediate O.A.S.A. playdowns in the Liftlock City on Saturday. The second game of the series will be played in Belleville Wednesday evening.

Errors played a major part in the Belleville loss, as the Sedore-led nine booted the spheriod for a total of five bobbles, while the homesters played errorless ball behind Bateman's seven-hit effort. Johnnie Bawden hurled for Belleville and although he struck out 11 to Bateman's one, Bawden was touched for eight hits, one being a circuit and the other a three base blow.

**The Scoring**

Peterboro opened the scoring in the initial frame after Starr walked, took third on Burton's single and scored when Bateman's infield hit was bobbled. An error, a wild pitch and Kearns' one base blow gave the Petes two more in the fifth while Belleville knotted the count in the top half of the seventh. Sero opened with a single, O'Neill forced him at second as Whalen singled and Ronsky doubled to score two and later add the equalizer on Moon's sacrifice fly. Ellis hit for the circuit with Bateman aboard in the last half of the seventh to give Peterboro the two run edge that meant victory. Belleville rallied in the ninth to get two aboard, but the moneyed hit was not forthcoming as Bateman took care of the final out of the game.

Ellis with a home run and two singles had a perfect day at bat and paced the Petes offensively, Eddie Starr getting two hits in four tries. O'Neill and Whalen with two hits each led the "Oilers" on the attack.

# CANADIAN ENTRY IN RACE FAVORED

### Six of World's Most Powerful Hydroplanes to Compete at Detroit

Detroit, Sept. 4 (AP)—The speedboat championship of North America, prize in the 36th running of the famous Gold Cup trophy race attracted a dozen of the world's most owerful hydroplanes to the Detroit River course today, with a Canadian entry advancing overnight into favored position.

Count Theo Rossi of Italy won the trophy a year ago. The Gold Cup is sought by such outstanding speedboats as the favored Canadian entry, Miss Canada III, owned by E. A. Wilson of Ingersoll, Ont.; Notre Dame, of Detroit, winner two year ago; So Long, of San Marino, Calif.; My Sin, of Greenwich, Conn. and Why Worry and Mercury, both of Louisville.

The Canadian boat, a sharp nosed, 25-foot craft powered with a 12-cylinder motor, has been driven at a speed of more than 105 miles an hour in a trial run on Lake Muskoka.

The Gold Cup race is run in three 30-mile heats around the three-mile course between Belle Isle and the Detroit mainland. The first heat is scheduled for 2.20 p.m. E.D.T.

**FOOTBALL LEAGUE SUSPENDED**

London, Sept. 4—(CP Cable) — Official announcement was made today that the English Football League has ordered suspension of all football. Players contracts were automatically suspended. The season opened Saturday.

**FAILS TO TAKE CURVE**

Winnipeg, Sept. 4—(CP)—Edward Boucha, 26, Bergland, Ont., was killed and his brother, Frederick, and Martin Richlef, also of Bergland, were injured when their car plunged from the road into the ditch in Fort Garry, southern suburb of Winnipeg. Edward was driving the car which failed to take a curve.

# YANKS SPLIT DOUBLEHEADER WITH RED SOX

### Umpire Awards Game to New York as Boston Fans Crowd Field

### AWARDED GAME

### Some Fine Pitching Exhibitions Were Seen in Majors Over Week-end

(By Judson Bailey Associated Press Sports Writer).

Lots of jests have been made that opponents of the world champion Yankees should forfeit their games and be done with it, but it was an ironic joke that this should actually happen to the one team that can cope with them.

After Boston Red Sox had won their seventh straight game from New York yesterday, 12-11, umpire Cal Hubbard forfeited the second half of a doubleheader, 9-0, to discipline 27,000 fans who littered Fenway Park at Boston with straw hats, pop bottles and newspapers.

The nightcap slugfest tied at 5-5 for seven innings. Then the Yankees score twice in the eighth and sought to hurry completion of the inning by getting two men purposely put out between third and home. At the same time, the Red Sox attempted some intentional passing. The fans littered the field and opened a noisy bombardment which umpire Hubbard decided would delay the game past Boston's 6.30 p.m. curfew. His forfeit decision was protested by the Boston Club.

Most of Sunday's other games were fine pitching exhibitions.

**Krakauskas Wins**

Joe Krakauskas, Washington's unpredictable southpaw from Brantford, Ont., chucked a three-hitter to stop Philadelphia Athletics 6-1.

Six-hit hurling by Thornton Lee enabled Chicago White Sox to beat the Detroit Tigers, 8-1, in the first game of a doubleheader, but Freddie Hutchinson duplicated it for Detroit in the nightcap to win, 7-2.

Johnny Allen struck out 10 and spread eight hits for Cleveland to beat St. Louis Browns, 6-2.

Paul Derringer got his 18th triumph with a 5-0 shutout on five hits against Chicago Cubs.

Carl Hubbell stopped Brooklyn Dodgers on eight hits as New York Giants won, 7-1. John Lanning of Boston Bees gave only five hits to beat the Phillies, 4-3, and teammate Joe Sullivan bettered him with a four-hitter in taking the nightcap, 6-2.

St. Louis Cardinals swarmed over Pittsburgh Pirates for 20 hits and a 14-6 victory in one game, then took the second 3-0 on Bob Weiland's five-hit elbowing.

# LITTLE GIANTS ARE HOLDING 4-GAME LEAD

### Final Week of International League Favors Jersey City

Going into the final week of the regular International League campaign, the four-game lead Jersey City Giants held over their field looks big.

Little Giants haven't clinched the penannt yet, although they took a long step in that direction yesterday by walloping Syracuse Chiefs, 3-1, to sweep their three-game series while Buffalo's second-place Bisons could get only an even break in a doubleheader against Montreal. Buffalo's remaining seven games are against the tail-end Montreal and Toronto clubs, but the Bisons will have to win them all to have a look in, if Jersey City keeps on playing .500 ball this week.

Newark's champion Bears finally moved into a fourth-place tie with Syracuse yesterday while Rochester, by conquering Toronto, 1-0, cut Buffalo's second-place margin to a single game.

Buffalo went down before Montreal, 7-1, in the opener when Bill Crouch scattered 10 hits, but came back behind a one-hit hurling job by lefty Al Smith to take the second game, 2-0, even though they got only five blows.

After the Bears had hammered out a 15-9 decision in the opener yesterday, they had to be content with a 4-4 tie in the second game when darkness halted hostilities after seven innings. The costly pitch was one of Jimmy Deshong's that Dave Gill knocked out of the park with the bases full, scoring all the Baltimore runs.

## Fair Dates for Central Ontario

| Shannonville | Sept. 16 |

CALLING 'EM

## Between the Lines

with
*Ken J. Colling*

A former Belleville softball hurler Lorne Bateman, was on the hilltop for Peterboro as the Petes beat the Shell "Oilers" 5-3 in the Liftlock City on Saturday. Errors paved the way for the Belleville loss, although the "Oilers" were out-hit 8-7. The absence of some clutch hitting in the ninth also left the Sedoremen on the short end of the score, as any kind of a hit in the ninth would nave netted a tie game. Johnnie Bawden struck out 11 to Bateman's one, but Bawden issued four walks and had a wild pitch, the latter giving the Petes their third run. Incidentally five of the Petes are members of their senior baseball team, Eddie Starr, Les Burton, Bill Calladine, Chuck Kearns and Ellis all being veterans of the baseball wars. The Petes played errorless ball behind Bateman's seven-hit pitching performance, while Belleville booted the ball for five juicy errors. The return game will be played here on Wednesday.

For the first time in some years a Belleville baseball team has advanced to the second round of the O.B.A. playdowns. On Saturday the locals eliminated Coe Hill in successive games, winning 14 to 2 at home after having been rather lucky to win in the northern village previously. However, southpaw Sammy Ellis was much too good for the rather inexperienced Coe Hill batters on Saturday as he let the visitors down with six hits and struck out 13. In the meantime his team mates were cuffing the offerings of four Coe Hill chuckers for a total of 13 hits, including "Doll" Pointer's home run with the bases loaded. Actually Coe Hill never should have been placed in the intermediate "B" category of the O.B.A. but owing to the absence of class "C" clubs in Eastern Ontario the parent Association had no alternative. However the "northerns" were not disgraced as they showed plenty of courage and sportsmanship in defeat.

Coe Hill was handicapped in the fact that their ace pitcher, Bert Giles, developed a sore arm during the initial game of the series. On Saturday his 16-year-old brother, Don Giles, went to the mound and the kid showed plenty of pitching ability and most of all courageousness and we predict Don Giles will some day be heard of in Ontario's baseball realm. Their second baseman, Poff, also shows promise. On the other hand the locals played errorless ball behind Ellis and although playing against a smaller centre, looked their best. Belleville will now meet Cobourg in the second round of the intermediate O.B.A. playdowns. Looking into the grandstand on Saturday we saw more spectators from outside of Belleville than local supporters, which does not speak any too well for the efforts of the local baseball team in their drive towards the uplift of the game in Belleville.

Bill Klem, the old arbitrator and dean of all umpires, says he never saw a grade "A" fight on a baseball diamond. "The late John McGraw had a reputation as a scrapper, but he never fought," stated the veteran umpire who worked behind the plate for 16 consecutive years in the National League without a break. Continuing in an interview recently Klem said: "I find nowadays players have plenty of balance and can be talked to," Bill continued. "This season at the Polo Grounds, I was working with Bick Campbell, a first-year umpire. He made a 100 per cent perfect hairline decision, but the Giants actually ganged up on him. I told them Campbell made the right decision. Tony Lazzeri started to get mixed up with it and I stopped him. I said, 'Tony you're too smart to become involved in that squawk. The umpire was right.'

Lazzeri looked at me and asked, 'Sure he was right, Bill?' I replied, 'Sure as the sun is out.'

"Okay, Bill, that's enough for me,' said Lazzeri and he walked away.

"Years ago, one of my problems was Johnny Evers one of the greatest players of all time, who fought umpires because he felt he had to put on a show to get publicity.

"I warned Evers that when his wonderful ability vanished, his publicity would vanish too. A dozen years later I met Evers in New York. Nobody would give him a real job. 'Bill, you told me the truth,' he said. Not so long ago at Cooperstown, N.Y., at the centennial celebration, we went on the air and Evers returned to that incident and anounced, 'Klem is the greatest umpire of all time, in more ways than just umpiring'."

Do you remember when George Young, who gained international fame when he swam the treacherous Catalina Channel in 1927, won the Canadian National Exhibition 15-mile swim at Toronto eight years ago. It was the only year the Toronto swimmer finished in the money.

Slowly but surely night is being turned into dark insofar as the sport realm is concerned. Hockey, basketball, boxing and wrestling have been recognized noctural sports for years then lacrosse took up the night cudgel, then baseball and later rugby football. Coach Lou Hayman, of the Toronto Argonauts is a staunch supporter of night football, especially in early September when the afternoons may be quite warm, too hot in fact for good football to be played. Coming closer to home, we have long since been satisfied that the only salvation for sports in Belleville lies in the opening of a sports stadium to be equipped with flood lights and to embrace all lines of summer team sorts. However, there is little use in talking of such a structure until a suitable and central location can be afforded.

**Sport Spice** — Despite war clouds over Europe, nearly a half million persons attended the English football games in the old country..Ontario's Joe Krakauskas hurled a three-hit effort as the Senators beat the A's 3-1... It seems queer that Krakauskas seems to wait until the last month of the season to show his best form, each season....Boston took two out of three games from the Yankees over the week end, while the Reds split and there isn't much change in the Major League standing, even if Carl Hubbell beat the hated Dodgers. ....Just what team will represent the T.A.S.A. here Tuesday evening versus the Citizen Dairy juniors was not announced, but the second round play-offs in the junior provincial softball circles is slated to open in Belleville tomorrow....Coach Cy Young will start his ace moundsman, Steve Hook, in an effort to grab off the first game of the series at home.

Louis Hayward and Joan Bennett co-stars of the great screen production of the Alexander Dumas classic "The Man in the Iron Mask" now playing at the McCarthy Theatre.

# Italian Troops Moved Back From Egyptian Border

Alexandria, Sept. 4 (AP)—(Passed by Censor)—High Egyptian sources said today that Italian troops are being moved back from the Italian Libyan-Egyptian frontier.

Italy's decision not to take the initiative in military operations attendant upon the European conflict was interpreted to mean there was no imminent danger of Egypt being involved in hostilities.

Meanwhile, Egyptian and British forces are co-operating for defence against any emergency. Many Germans have departed from Egypt.

Martial law was proclaimed yesterday and full powers to maintain internal security were vested in the premier.

Col. James L. Ralston, former minister of defence, is expected to join the cabinet to replace Hon. Charles A. Dunning or to assume some other equally important post, should it become necessary for Premier King to form a war cabinet.

# W. H. STRINGER TO HEAD O.P.P.

### Former Head of C.I.D. Will Succeed Major - General Williams, Who Retires

Toronto, Sept. 4 (CP) — W. H. Stringer, former Chief Inspector of the Criminal Investigation Bureau of the Provincial Police, has been named Commissioner of the department to succeed Major-General V. A. S. Williams, who is retiring.

Attorney General Gordon Conant, in announcing the change last night, said it had been made in view of the present emergency, which imposes onerous and exacting duties on the head of the provincial force. Major Williams is 72.

Commissioner Stringer, Irish-born, is 53. For the past four years he has been Deputy-Fire Marshal, a position he was appointed to following a lengthy illness. Prior to that he was head of the C.I.D.

# JAPAN ANNOUNCES HER NEUTRALITY

### Will Concentrate Her Efforts of a Settlement of the Chinese Affair

Tokyo, Sept. 4—(CP—Havas) — Premier Nobuyuki Abe today announced Japan would remain neutral in the European war.

Japan will remain absolutely aloof from the conflict in Europe, General Abe proclaimed, pursuing its own "immutable policy" with respect to China.

Only a few weeks ago associated with Germany and Italy in the Anti-Comintern Axis, Japan was cut adrift by conclusion of the Soviet-German Non - Aggression Pact.

"In the face of the European war that has just broken out," General Abe proclaimed, "Japan intends not to be involved therein. She will concentrate her efforts for a settlement of the Chinese affair."

Japan participated in the first Great War as an ally of Great Britain.

As a result of operations against Germany far eastern possessions, the Japanese took Tiaochaow, in Shantung, and occupied the sphere of influence in that province previously enjoyed by the Reich.

# Story Of New War Quickly Unfolded By Canadian Press

Toronto, Sept. 4—(CP)— The greatest story of this generation — a new war in Europe—unfolded swiftly, dramatically, and yet almost quietly at dawn yesterday in the head office newsroom of The Canadian Press.

Outside, the streets of downtown Toronto were gray and empty. In the brilliantly-lighted CP headquarters it was an unusual Sunday morning—a full staff of editors, alert for weeks for the momentous words from abroad, were waiting.. waiting.

At 6 o'clock, EDT, the weary, watchful overnight staff was joined by fresh men. Teletype circuits were set up rapidly to carry the morning's news into every daily newspaper office in Canada'

In nearly 90 newsrooms across the country were waiting editorial staffs, hunched over CP teletype machines.

It was peaceful enough as the routine job of preparation went on. Then a jolt—a bulletin timed at 6:15.... Britain's ultimatum to Germany was unanswered at the 6 o'clock deadline.

Men waited more tensely.

FLASH

London—Havas reports Chamberlain declaring Britain and Germany now at war.

The Havas news agency had pushed its flash through the censorship first.

Then again—at 6:19:

London—Britain declares war on Germany.

The wires clicked out the news across the country—war!

# LABOR DAY FINDS CANADA PREPARING FOR WAR SERVICE

### Military Authorities Say Rush to Enlist Has Been Wonderful

### PUBLIC CONFIDENT

An institution peculiar to Canada and the United States, Labor Day, was being observed in Belleville today with little restriction from the present crisis in Europe.

There was talk of war and eagerness for the latest news from Europe throughout the city during the greater part of the day, and even before members of the editorial staff of the Ontario Intelligencer had commenced the day's work—unusual for Labor Day—crowds of curious and news hungry residents had gathered at the bulletin boards in front of the office waiting for the first releases of cabled news.

The streets were unusually quiet during the day. Offices, shops, banks and industries had closed their doors for the long week end holiday. Banks remained closed with blinds drawn. There was even a noticeable decrease in the rush of traffic along highways and roads through the immediate area.

But even with the talk of war, scores of other residents equipped themselves early this morning to go fishing. Since early morning a steady stream of boats passed through the harbor headed for the open waters of the bay east and west. It is probable that the majority of the fishing excursions will be cut short, however, in order that residents may return to home radios for the latest information on war which has become so close to home interests since the entering of the British Empire into the defence of Poland.

Labor Day, the holiday heralding the end of summer, found Canadians today completing the country's readiness for war. There was a noticeable letdown in the tension of the past few days, however, and with relaxation came confidence and calm.

Prime Minister Mackenzie King, in a nation-wide broadcast, asked his fellow countrymen yesterday to unite in a national effort. But prior to this there already had been a rush to enlist, military authorities in Toronto and other cities saying the response was "wonderful."

The Red Cross Society, the Canadian Legion and the Canadian Corps Association rushed their organization plans for war-time activities. It was announced 2,500 nurses have enrolled with the Canadian Nurses' Association and the Red Cross for service overseas.

Ministers in the various churches exorted the people to face the future with courage and faith. Ven. Archdeacon Frederick George Scott of Quebec, famed war-time padre, told a Welland audience there must be "complete unity" in Canada. He added: "We shall win, no matter how long the war may last."

Different national groups, including Czechs, Slovaks, Ukranians and Poles, pledged their loyalty to Canada at meetings yesterday. A former German Air Force ace, who served under Field Marshal Goering, registered for service at Toronto.

### R.C.H.A. to Start Recruiting Wednesday

Recruiting to bring the Royal Canadian Horse Artillery and the 3rd Medium Battery up to fighting strength will begin at Kingston on September 6th, it is announced in local military district orders.

Military headquarters of the district expect to have the permanent units mobilized within the next twenty-one days, it was stated but it could not be ascertained how many men will be recruited from either the Kingston or Belleville districts, both important military areas.

No recruiting officer has yet been named, and the Kingston permanent units will do their own work of recruiting. This will take place at old Fort Henry.

Recruits will be needed for the Canadian Field Force, and applicants must be between the ages of 18 and 45, physically fit and either married or single. The men will be clothed, housed and maintained at Kingston regimental headquarters or temporary dwellings until further instructions are received from Ottawa.

The outbreak of hostilities has brought a small army of men wishing to join the various units, and every able man who passes the necessary fitness tests is being enlisted. Until Saturday, however, units in Kingston had not accepted recruits although many had applied. Authority for signing up the men had not been received from Ottawa until Saturday.

Kidney Acids Rob Your Rest

Many people never seem to get a good night's rest. They turn and toss—lie awake and count sheep. Often they blame it on "nerves" when it may be their kidneys. Healthy kidneys filter poisons from the blood. If they are faulty and fail, poisons stay in the system and sleeplessness, headache, backache often follow. If you don't sleep well, try Dodd's Kidney Pills—for half a century the favorite remedy. 103

## Yesterday's Song

By THAYER WALDO

"My Dear!" Hortense came swiftly forward to greet Lavinia, hands outstretched. "How lovely you look! You know, I'm perfectly thrilled at giving this announcement party for you. Everyone's going to consider it a brilliant match, I know. Besides, you'll make so many women envious and disappoint so many men."

Lavinia's smile seemed a trifle forced.

"Thank you," she said; "you're sweet to have thought of it. Have you—that is, do the others know?"

Hortense laughed lightly.

"Certainly not, darling I would not dream of spoiling such a dramatic surprise. I've planned to keep it until after luncheon. Do you mind?"

"Oh, no!"

Chattily Hortense went on: "I made this an affair just for women because I couldn't bear to think of all the males in Hollywood overcome by despair right here in my house. I really don't believe you know, Vin, how you've captured hearts in these last six months. Why you've become such a radiantly different person. Is it your success in pictures, or Felix?"

"I don't know. Perhaps it's just that I've grown into the habit of acting and carry it on away from the studio, too."

After a quick glance at her, Hortense casually remarked:

"Well, whatever's the answer, you've blossomed marvelously. I remember when I first met you, how forlorn and unhappy you seemed. I realized later that was because you'd just separated from Raoul. But time heals all wounds, doesn't it?"

"Yes, I suppose it does."

"By the way," the hostess pursued, "have you ever heard from him since?"

Lavinia's golden head shook a slow negative.

"Not directly. I heard that he gave up his job to come here when I stayed, but I've never seen him; he didn't even appear at the divorce hearing."

Beyond the French windows, upon the broad lawn, were spaced a dozen or more daintily appointed tables. Soft music sounded faintly.

"Oh, how delightful!" Lavinia cried. "An orchestra, too?"

"Yes," Hortense said, leading her onto the terrace; "I thought it might be nice, and it's patriotic. They're a little group from the artists' bureau of the unemployment relief agency. Ah, there's Mrs. Fiberg; excuse me a moment, will you?"

Lavinia wasn't conscious of her going, nor of anything else in that thronged scene save the one figure she had suddenly glimpsed. There beneath the acacia tree he stood, brown hair windblown, baton moving deftly in his long fingers as he led the musicians. Raoul! Silently her lips formed the name, as a brief wave of mixed feeling swept her. Then Hortense was beside her once more, introducing someone . . . .

For the next quarter hour she had no chance even to glance in his direction. But, moving among the guests to exchange social amenities, her thoughts were constantly of him.

At last Hortense guided her to the table where they would have luncheon. It was within a few yards of Raoul and his men. She had been seated but a moment when from behind her burst forth the rich, wild strains of "Dark Eyes" played upon a violin. Her heart missed a beat, only to resume with a furious pounding that drove the hot blood into her throat and temples. He had seen her, then, for this was their love song—the one he had played that first night they spoke of love.

"Why, dear girl!" Hortense was leaning anxiously toward her. "You've scarcely eaten a morsel. Don't tell me I've been stupid enough to have things you dislike!"

Lavinia smiled, murmured something in denial, and mechanically picked up a fork. An instant more and Raoul's instrument was still.

Hortense finally suggested they go indoors for demi-tasse and liqueurs. Lavinia rose resolutely, and without a look behind started across the grass. She had heard the quiet clatter and rustle of departure among the musicians; shortly they would be gone and this fantastic interlude but a memory. Soon Raoul would be out of her life again and everyone would hear of her engagement to Felix Aaronson, the brilliant young producer. . . .

She reached the portico last; the others had all gone in. An insistent impulse gripped her and she turned. Alone by the acacia's sleek trunk was Raoul, violin yet in hand. A mask of infinite sad bitterness was upon his face. The deep gray eyes gazed toward her, brooding.

Lavinia's sob was barely audible. Over the close-trimmed turf she ran swiftly to the man beneath the tree.

• • •

Miss Prout found Hortense seated by herself in a far corner of the music room, sipping chartreuse and smoking.

"Oh, I've been looking for you!" rattled Miss Prout. "Here's the announcement you asked me to type. Will you want to read it now?"

"No," replied Hortense, smiling just a bit; "no, I shan't, Georgia. You may as well tear it up. The lady it concerns was unexpectedly called away because of—of some music—some music I took the liberty to arrange for her. She may be detained—well, indefinitely."

## Allan Mills

Allan Mills—Mr. and Mrs. G. Walker of Bancroft, spent the week-end with Mr. and Mrs. Dave Wellman.

Mr. and Mrs. Allan Morrison and family spent Sunday at Oak Lake with Mr. and Mrs. B. Wright of Sudbury, who are holidaying with friends here.

Mrs. Dave Wellman and Mr. and Mrs. A. Walker motored tot Peterboro on Monday and spent the day with their father, Mr. S. Gifford, who is ill.

---

Mr. Geo. Eastwood left on Sunday for Whitby where Mrs. Eastwood is undergoing a serious operation.

Miss Jessie Williams of Hamilton, is holidaying with Miss Marjorie McKeown.

Mrs. Gussie Stiles is visiting Mrs. Fred McKeown.

Mrs. Alf. Wright, Mrs. G. Wright and Rena, Mrs. Jack Rowe and Miss Iva Rowe of Stanwood, Mrs. Lillian Anderson of Rylestone and Mrs. Sarah McKeown of Mt. Pleasant called on Mrs. A. Burkitt on Wednesday and attended the W. I. meeting.

The Women's Institute held their regular meeting at the home of Mrs. A. Burkitt on Wednesday afternoon with twenty members and nine visitors present. The meeting opened with the Ode followed by the Lord's Prayer in unison. The roll call, "What Public Office Can be Held by Women of Ontario?" was well responded to. The correspondence was then dealt with and it was moved that a girls' club be organized. The W. I. will have a lunch booth at Springbrook School Fair. It was moved that Mrs. D. Williams attend the Cookery Class held in Madoc. Mrs. F. McKeown thanked the members for flowers sent to her during her illness in hospital. A letter was also read from Mrs. Geo. Eastwood thanking them for flowers received. Mrs. W. J. Barlow took charge of the meeting in the absence of the convener Mrs. Roy Brown. Mrs. Alf. Williams gave a splendid paper on "Wise laws make a contented people." Mrs. J. P. Baker gave current events. Mr. W. Thompson gave a very interesting address on Legislation, which was enjoyed by all. Mrs. George Williams rendered a solo and Mrs. Ken. Bain gave a humorous recitation. A splendid paper was given by Mrs. Florence Bateman on the making of Wills, Deeds, etc. The meeting closed with the National Anthem after which lunch was served and a social time enjoyed.

## Burr's

Burrs—Mrs. Adolph Kuno, Shirley and Lorne New Carlow were guests of Mrs. Bride Hough, Tuesday afternoon and at the tea hour.

Mrs. Myrtle Bowerman is visiting her brother, Mr. Murney Parks and Mrs. Parks.

Mr. Billy Tufts, Detroit, spent last week with Mr. Donald Parks.

Mr. and Mrs. Fred Vancott and Glendon, Picton, spent Wednesday with Mr. and Mrs. Tom Morden and Mr. Thos. Vancott.

Messrs. Ross and Gordon Parks, Bloomfield, brought their cousin, Miss Margaret Tufts, Detroit, on Wednesday to visit her aunt, Mrs. Murney Parks.

Mrs. A. Kuno, Shirley and Lorne died on Wednesday with Mrs. T. Morden and visited Mrs. Murney Parks in the afternoon and vening. They called on Mrs. Gene Hubbs on Thursday and later went to visit with Mr. and Mrs. Ed. Bailey and family, Wellington.

Mr. and Mrs. Gene Hubbs were at the home of Mr. C. L. McFaul on Wednesday.

Mr. Malcolm French was threshing for Mr. Percy Carnrite on Tuesday.

Mr. John Root, Mr. Cyrus Pyne, Misses Vera and Marguerite Pyne, Mr. and Mrs. Bride Hough, Mr. and Mrs. Clifford Hough and Mrs. Myrtle Bowerman attended Belleville Fair on Wednesday.

Mr. and Mrs. George Huffman and Margaret spent Thursday at Mr. J. Moon's camp at West Lake near Wellington.

Miss Vera Hubbs returned home on Thursday from Mr. Moon's camp where she has been holidaying since Sunday.

Mr. Gene Hubbs and Miss Vera Hubbs spent Friday with his parents, Mr. and Mrs. Will Hubbs of Bowerman's.

Mr. and Mrs. Norman Fox attended Belleville Fair on Thursday evening.

Mrs. Donald Parks spent a couple of days this week with her parents, Mr. and Mrs. Fred Maxwell, Bowrman's.

Mr. and Mrs. Norman Fox were at Seymour on Thursday.

Mr. Maurice Baker visited his parents Mr. and Mrs. Harold Baker in Belleville, on Thursday evening.

Mr. and Mrs. Donald Parks attended Belleville Fair on Thursday afternoon.

Mr. Robert Bowers was helping Mr. Tom Morden on Thursday.

Mrs. Geo. Fox called on Mrs. R. Bowers on Friday.

## Centenary

Centenary—Mrs. J. Ray is visiting her daughter Mrs. E. Free, in Sunderland.

Mr. and Mrs. J. Clapp are entertaining friends from Minnesota, U.S.A.

Miss Norma Holton returned home after spending her holidays in Kingston the guest of her aunt, Mrs. W. Peters.

Mr. Don Holton, New York City, called on Mr. Holton on Saturday.

Mrs. Judson Kelley is in Kingston General Hospital, having undergone an operation on Wednesday. Her many friends sincerely hope that she may soon be home again and that her recovery will be speedy.

Quite a number attended the Belleville Fair and report a good time.

Mr. and Mrs. Don. Garrison of Frankford, spent Friday with Mr. and Mrs. H. Garrison.

# FRENCH PENETRATE GERMAN TERRITORY

# Great Britain Strikes In Daring Air Raid On Battleships In Kiel Canal Entrance; 'Some Casualties' Reported In Attack

## Disorders In Cologne, Dusseldorf and Essen Semi-Officially Reported

### Naval Fighting Off Denmark Reported From Copenhagen

Paris, Sept. 5 (AP-via Radio)—The French government today announced French forces had made contact with German troops on the Western Front and had penetrated into German territory.

A semi-official Paris radio reported trouble in Germany and said there had been disorders in Cologne, Dusseldorf and Essen, as well as the areas of all Czecho-Slovakia.

Dispatches from Copenhagen report naval fighting off the coast of Denmark.

GERMAN SHIP SUNK BY BRITISH NAVY

London, Sept. 5 (CP)—Information was received in London today that the German ship Carl Fritzen had been sunk and that its crew was safe.

The announcement likewise recounted the already reported sinking of the German ship Olinda, sent to the bottom Sunday by the guns of the British cruiser Ajax.

The Carl Fritzen, of 659 tons gross and owned by J. Fritzen and Sons, was bound from Schedam, the Netherlands, for Canada or Buenos Aires.

SHIP TORPEDOES; CREW RESCUED

Liverpool, Sept. 5 (CP)—The Cunard Line announced today that its steamship Bosnia had been sunk by a submarine and her crew of 23 rescued by a Norwegian tanker.

A message from the 2,407-ton Bosnia, interrupted before completion, gave her position as about 100 miles off the Scottish coast. The tanker was reported proceeding to Lisbon with the rescued.

By HENRY CASSIDY
(Associated Press Staff Writer)

Paris, Sept. 5 (AP)—The war came home to the 1,000,000 or so people still in Paris at 3:35 this morning (10:35 p.m., Monday, EDT) when air raid sirens routed them out of bed and sent them scurrying into cellars. German planes did not reach Paris, however.

For the half hour's time it has been estimated it would take German planes to travel from the French frontier to the capital, the life of the city went underground, and the metropolis lay empty in the bright moonlight.

Soon clouds of artificial fog drifted across the face of the moon, turning fair weather into foul and obscuring the city from any aerial raiders.

When dawn broke over the chimney pots of Paris two hours after the alarm sounded, the populace started emerging from refuges. But the passive defence wardens and police whistled them back to cover.

LASTS THREE AND ONE-HALF HOURS

After three and one-half hours, a new siren call ended the period at 7:05 a.m. (2:05 a.m. EDT) and traffic sprang to life again.

When the sirens first started moaning and then raised their wails into shrieks for a full ten minutes, thousands of persons stumbled down stairs and under ground.

In a narrow stone vault beneath the Ile de la Cite, an aged man and woman in bathrobes, with their gas masks on awry, groped their way into a corner and sat clinging to one another.

A young man in pyjamas, without a mask, dashed back and forth filling buckets of water and soaking towels to use instead.

A Negro maid, holding a flickering candle, stood silently by the wall.

Under the Hotel Continental on the right bank of the Seine, where 200 guests and censors were gathered, a blond girl calmly combed her hair and made up her face.

SUBWAYS USED

In the cellar of The Associated Press office, just off the Place de la Bourse, two spaniels hustled downstairs by the janitor whimpered in the gloom. But the dogs gradually grew quiet and reassured as other occupants of the building entered the bare room.

Subway stations were favorite points of refuge, with calm but anxious crowds massing at entrances and on underground platforms.

The first to sally forth saw strange clouds racing across the sky and detected a vague odor of lime.

One woman who had removed her mask and walked onto the Pont Neuf, cried "gas", hastily donned her mask again and ran for shelter. Others thought it was just a natural turn in the weather.

Actually the anti-aircraft defence batteries around the capital had released artificial fog at a height of about 400 feet. It covered the upper part of the Eiffel Tower and cut off the view of the observation balloon from crews manning the ground wires.

## Nothing In Common With Nazi Regime German Workers Tell Whole World

London, Sept. 5—(AP via radio)—"It is not our war," German workers were described as saying today in a message sent over news tickers in London.

"We have nothing in common with the present regime: the German workers and peasants do not want war and have nothing in common with the Nazi regime," said the communication to the Independent Labor party from the "Independent Socialists in Germany."

"Hitler begins the war with Poland against the will of large masses of the population. Comrades we love Germany, but though we love our native country we have nothing in common with the present regime."

## 'FIRST SOLDIER' OF THE REICH WITH HIS TROOPS

**German Agency Announces Consolidation of Territory Split by Treaty**

### NEW DECREES ISSUED

**Tax as High as 50 Percent on Incomes of More Than $1,000**

Berlin, Sept. 5—(AP)—Germany today reported capture of two rich Polish industrial cities, Katowice and Chorzow, near the Polish-German frontier in Silesia.

Both towns, on the direct route to Krakow, Poland's ancient capital, virtually had been surrounded by previous attacks where the German border bulges into southwestern Poland, but the final thrust against them had been delayed.

## POLISH GOV'T MAY LEAVE WARSAW IN A FEW HOURS

**British, U.S. and Other Embassies Plan to be Out by Nightfall**

### FIRES BREAK OUT

**Visible on Outskirts of Capital the Result of Raids Early Today**

Warsaw, Sept. 5—(AP)—Reports were current today that officials of the Polish government might leave Warsaw within a few hours.

The British, United States and other embassy staffs planned to be out of Warsaw by nightfall.

Several fires were visible today on the outskirts of the capital as the result of air bombs which fell just after 11 a.m. (6 a.m. EDT).

*(Continued on Page Nine)*

## GERMANS FORCE SLOVAKS TO FIGHT

**Placed Between First and Second Lines to Prevent Desertions**

Britislavia, Slovakia, Sept. 5—(AP)—Wounded Slovak soldiers returning from the Polish frontier today said Slovaks were mixed with Germans as a second fighting line.

Javorina, a pocket-size area taken from Slovakia last fall, was given up by Poles without firing a shot, they said, but they admitted the Poles fiercely contested Slovak-German advances elsewhere along the mountainous border.

Unofficial but well-informed circles here expressed belief that Slovaks were placed between the German first and third lines to prevent desertions.

The Slovak minister to Poland, Dr. Ladislav Szatmary, broadcast this appeal over the Katowice, Poland, radio: "Slovaks, do not fight your brethern in Poland. Revolt against the German yoke. You have everything to gain and nothing to lose."

***Coming Events***

ARENA GARDENS DANCING—Tonight Economy Night. Gentlemen ten cents. A cent a person a dance. Wednesday, Ossie Williams and his outstanding band. Admission fifteen cents. Dancing 10c or 4 tickets for 25c.

## *BULLETINS*

Wellington, Sept. 5 (CP-Reuters)—The New Zealand Parliament today unanimously approved the Dominion's declaration of war on Germany. Following the unanimous vote, the members of Parliament gave three cheers for the King and sang the National Anthem. Acting Prime Minister Peter Fraser said he was certain the entire country would approve the government's declaration and that "a united people would place themselves at the disposal of the government for the purpose of taking every possible step to further the common cause."

POPE'S BROADCAST CANCELLED

New York, Sept. 5 (AP) — The world-wide broadcast of Pope Pius XII scheduled for Wednesday morning has been cancelled, according to the National Broadcasting Company's representative in Rome.

DUTCH STEAMER STOPPED BY BRITISH

Hamburg, Sept. 5 (AP via Radio)—The Official German Radio reported today a Dutch freighter, carrying ore "which was possibly destined for Germany," was stopped by a British warship and escorted into Ramsgate Harbor, England. The station ascribed its report to the Dutch newspaper, Allgemeen Handelsblatt.

UNIDENTIFIED STEAMER SUNK

Copenhagen, Sept. 5 (AP)—Reports were received here today that an unidentified steamship was sunk last night by an explosion off Falsterbo, southern Sweden. The explosion was observed by a nearby lightship. The reports said apparently the vessel collided with a mine field.

INDIAN GOVERNMENT GIVEN WIDE POWERS

New Delhi, India, Sept. 5 (AP)—The Marquess of Linlighgow, the Viceroy, today proclaimed a state of grave emergency in India and promulgated "The Defence of India Ordinance" which gives wide powers to the Government. He also received Mahandas Gandhi during the morning.

ENEMY ALIENS INTERNED

Kingston, Jamaica, Sept. 5 (CP-Cable)—The government today ordered all enemy aliens interned and their businesses handed over to an official receiver. As steps were continued to meet the war emergency, food prices were reported increasing but the government took full powers to stop profiteering.

JAPAN DECIDES TO REMAIN NEUTRAL

Tokyo, Sept. 5 (CP-Havas)—Notice of Japan's decision to pursue a "non-intervention policy" in the present European war was handed today to envoys of the belligerents, and of the United States and Italy.

367 VIOLENT DEATHS IN U.S.

New York, Sept. 5 (AP)—Violent deaths in the United States during the Labor Day week-end numbered at least 367. At least 228 persons were killed on streets and highways as thousands of motorists jammed roadways for the final double holiday outing of the summer. There were at least 49 drownings.

RUMBLE OF GUNS HEARD IN AMSTERDAM

Amsterdam, Sept. 5 (AP)—The rumble of guns in an undetermined direction could be heard plainly in Amsterdam today. Two incidents of foreign planes flying over the Netherlands during the night were reported officially. In the first instance anti-aircraft batteries south of Amsterdam fired at the unidentified planes. In an apparently unrelated case, more than fifty shots were fired over a 30-minute period about 5 a.m. It was not reported whether any hits were made.

MAY JOIN DOMINION CABINET

Montreal, Sept. 5 (CP)—Hon. J. L. Ralston, former Minister of National Defence, possibly will fly to Ottawa this afternoon by special plane, it was learned today at his office here. It is rumored in Ottawa that Col. Ralston, at present practising law in Montreal, will return to the Dominion Cabinet. He and his wife have been vacationing in Nova Scotia and are expected to arrive here during the day by motor car.

GERMAN CONSUL HANDED PASSPORTS

Wellington, Sept. 5 (CP-Reuters)—The German Consul General for New Zealand, E. Ramm, was handed his passports today and informed his departure would be facilitated.

JEWISH SHOPS MOBBED

Prague, Sept. 5 (AP)—Twenty Jewish shops were mobbed and damaged by crowds today. Afterward police guarded the stores while crowds shouted anti-Jewish slogans.

AMBASSADOR ARRIVES IN FRANCE

Paris, Sept. 5 (CP-Havas)—Robert Coulondre, French Ambassador to Germany until last Sunday, arrived here today accompanied by the personnel of the Berlin Embassy and Consulate General.

## S. AFRICA VOTES TO REMAIN WITH GREAT BRITAIN

**Predicted General Smuts Will be Called to Form a National Gov't.**

### VOTE IS 80 - 67

**Hertzog and Smuts, Comrades in Arms in Boer War at Parting of Ways**

Cape Town, Sept. 5—(CP-Reuters)—Prime Minister J. B. M. Hertzog submitted the resignation of his government to Governor General Sir Patrick Duncan today following his defeat in the South African House of Assembly.

By a vote of 80 to 66, the House turned down a resolution sponsored personally by General Hertzog and declaring South Africa would continue its present relations with belligerent European powers "as if no war was being waged."

*(Continued on Page Three)*

## BRITISH CRUISERS DRIVE GERMAN SHIPS TO PORTS

**Several Freighters Now Resting in South American Ports — 5 Liners Unreported**

### FREIGHTER SUNK

Buenos Aires, Sept. 5 (AP)—Two cruisers from Great Britain's West Indies fleet, the Ajax and Exeter, had German shipping holed up today in south Atlantic ports, or seeking to outrace them for the safety of neutral harbors.

The Ajax opened war-time operations at dawn Sunday by sinking the German cargo ship Olinda after first taking off the 42 members of the crew in two lifeboats that had to manoeuvre through heavy seas.

The German freighter Poseidon dropped anchor at Mar Del Plata, Argentina. Her captain said "several warships, apparently British", had tried to capture her.

*(Continued on Page Nine)*

## THE LINER BREMEN STILL UNREPORTED

**Believed the Captain May be Making for Spanish or Mexico Port**

New York, Sept. 5—(AP)—Major mystery today in the grim game of hide and seek among ships of the warring European powers is the whereabouts of the $20,000,000 German liner Bremen.

The vessel, world's third largest passenger ship, has been unreported since it left New York six days ago in a race to reach its home port, Bremerhaven, before war broke.

The only liners excelling it in speed and size, the British Queen Mary and the French Normandie, are safe in New York harbor. The Queen Mary arrived yesterday.

The Bremen is without passengers or cargo. Shipping circles here believed Captain Adolf Ahrens of the Bremen had doubled back on his course, convinced he could not bring the craft through the North Sea blockade, and had headed for a neutral port—perhaps in Spain or Mexico.

## Several Hits Registered On German Battleships Inflicting Heavy Damage

### King George Points Out Responsibility Of All Arms

London, Sept. 5 (CP)—Great Britain's first blow at Germany—a spectacular bombing raid against German war vessels—was declared officially today to have been struck successfully.

The Royal Air Force, a communique issued by the Ministry of Information said, scored direct hits with heavy bombs and damaged two German battleships severely. The German navy has only five ships of this class.

The Royal Air Force bombers carried out the daring daylight raid yesterday afternoon against the German fleet at the entrance of the strategic Kiel Canal linking the North Sea with the Baltic.

The aerial attack followed a night mass flight of British aircraft showering northern and western Germany with 6,000,000 copies of a message to the German people.

The message blamed the war on German leadership and declared British people want to live in peace with the German people.

That British planes were able to carry out this big scale flight over German territory and return to their bases without casualties was hailed here as highly significant in view of frequent Nazi boasts of the impregnability of their aerial defences.

The communique mentioned "some casualties" in the attack on the battleships. British newspapers published a German News Agency report that five British bombers which had participated in the raid were brought down by anti-aircraft batteries.

DIRECT HITS REGISTERED

"Several direct hits with heavy bombs were registered on a German battleship in Schilling Roads off Wilhelmshafen, which resulted in severe damage," said the Information Ministry communique.

"At Brunsbuttel, an attack was carried out on a battleship lying alongside the Mole, causing heavy damage. During the operation, which was carried out in very unfavorable weather conditions, our aircraft encountered an air attack and anti-aircraft fire resulting in some casualties."

To have scored direct hits on the battleships, the British planes, it was believed here, must have plunged in power dives to a low altitude against enemy fire before dropping their heavy bombs.

The German navy's battleships are the 26,000-ton Scharnhorst and Gneisenua, completed last year, and the 10,000-ton "pocket" battleships, Deutschland, Admiral Scheer and Admiral Graf Spee, completed in 1933-1936.

*(Continued on Page Eleven)*

## Canadian Editor Gives Reaction Of British People To War Outbreak

Following article on the British reaction to the outbreak of war is written by W. Rupert Davies, President of the Canadian Press, just returned to London after a motor tour in August through the capitals of Europe. Mr. Davies is publisher of the Kingston, Ont., Whig-Standard.

By W. RUPERT DAVIES

London, Sept. 5—(CP Cable) —I have never seen anything to compare with the magnificent spirit displayed by the English people since Prime Minister Chamberlain announced at 11:15 a.m. Sunday that England was at war with Germany.

When Mr. Chamberlain broadcast his message it was as if the nation heaved a great sigh of relief. The people of this country are determined to rid the world of Hitlerism and the cruelty and deceit it stands for, once and for all. If Mr. Chamberlain had suggested any more appeasement measures I am sure he would have been angrily kicked out of office.

Hitlerism and Nazism as world forces have got to go. That is the sentiment expressed by people in England to whom I have talked during the past two days. They have been long suffering in the cause of peace. They have tried to satisfy Hitler's lust for power by appeasement; they have made themselves believe him when he said he had no more territorial ambitions after the Sudeten area of Czecho-Slovakia was ceded him and the Czechs sacrificed to maintain the peace of Europe; they saw him give himself the lie in March; they have seen him give himself the lie again over his Polish claim.

**No More Humiliation**

The people of England humiliated themselves in September and March, but they will humiliate themselves no more. The Britisher is holding his head high today and there is a relieved expression on his face. At last he is at grips with this bullying braggart who is a menace to the peace of the world; at last he is going to match strength with this man who still believes that might is right and who sneers at Democracy and freedom.

Nothing was needed to strengthen the courage of the British people in their fight against Hitlerism. Nevertheless the torpedoing of the Athenia with its human cargo of helpless women and children has aroused in the Englishman a grim determination not to sheathe the sword until right is once again triumphant over might and passenger ships on the High Seas are once again safe from brutal and unprovoked attack.

That is the spirit I see around me everywhere. I talked yesterday to a man who was terribly injured in the last war. "I slept better last night," he said. "I feel easier in my mind now that we really are tackling the job we shirked last September."

This man has only two children. His boy of 18 is already in uniform. His girl of 20 has volunteered to drive an ambulance for the duration of the war. This is but one man's family. There are millions cast in the same mould in this little country called England.

# City and District News

### 15 CARPENTERS LEAVE FOR BARRIEFIELD

Fifteen carpenters will leave the city today or tomorrow enroute for Barriefield, near Kingston where construction of army training buildings will take place employment officials announced today. One hundred carpenters and members of other trades were rushed to that place on Sunday where operations started on various phases of army training building construction.

### LOCAL ANGLERS GET 21 POUND 'LUNGE

The "one that got away" was landed safely in Moira Lake yesterday when Messrs. George Finch and Bill McIntosh, local fishermen, hauled a twenty-one pound 'lunge into their boat after a strenuous forty-minute struggle.

Beneath the lower jaw of the fish was a jagged wound, the mark of a gaff-hook of an unlucky angler who apparently had lost the fish a little previously. The wound was fresh and in the opinion of the fish's captors, had been inflicted but a few hours previously.

A small "buffalo" plug was used by the "winners."

### MANY REGISTER

Registration of Belleville and District war-veterans is going on apace. Ex-soldiers can register at the club rooms of the Army and Navy Veterans' in Canada, on Front Street, officials of that organization announced today. As has been said before, registration is not compulsory and in no way binds the ex-soldier to service. Members of the executive of the club are holding a special meeting tonight to decide on a future course of action.

### H. & P. E. REGIMENT CALLS FOR VOLUNTEERS

First recruiting notices of the present war made themselves known yesterday when posters asking for volunteers for the Hastings and Prince Edward Regiment appeared in various parts of the city.

A late report from Trenton Armouries where the recruits were accepted, stated that the response so far has been very satisfactory with a large number of youths applying for the opportunity to serve King and Country.

### MEET AT TORONTO

Attended by many Belleville members of the organization, the annual meeting of the Ex-members Association of the Belleville Kilties Band held in the Prince George Hotel on Sunday saw the veterans re-affirm their loyalty to the British Crown. President Alex. Gorrie was in charge during the meeting and at the banquet that followed.

Among the Belleville members present, were Lieut. Fred Jobson, conductor of the Belleville Municipal Band, and Messrs. Reg Hinchey, William Grant and others.

### RABBIT TAKES TO WATER WHEN PURSUED

Chased by a small excited terrier from some undergrowth near the old Institute dock early last evening a small cotton tail rabbit leaped from the shore of the bay into the water, swam desperately some distance out, then circled the concrete dock and swam back to shore, to disappear again into the shrubbery.

The terrier which pursued the rabbit into the water was left paddling far behind, it was reported by Charles Merrill, local resident who viewed the strange sight.

### FRANKFORD MAN FRACTURES RIBS

Suffering with fractured ribs, George, Chard, employee of the Bata Shoe Company near Frankford, was taken to the office of Dr. E. McMullen today following an accident when he stumbled and fell into an excavation hole.

Chard was working at the new construction project of the company when the mishap occurred.

## Plenty Of Wheat But Shortage Of Flour Reported In Some Sections

Despite the fact that residents have been stocking up for several days past, and that a shortage is stated to exist in some sections, there will be no flour famine in Canada, T. V. Burton, Montreal milling representative, a visitor to Belleville this morning, reported.

Mr. Burton making a survey of Belleville district grain dealers reported plenty of wheat on hand, but a decided reluctance of farmers of the Belleville area to dispose of any of it. He corroborated the statement of one local dealer yesterday that "not a bushel is being bought or sold."

Some scarcity of flour exists in the east at present, but this was due to the fact that millers are out of wheat and cannot get it. Thus they have been forced to refuse orders for flour from wholesalers until they see the normal trading in wheat resumed, and know just what price they will have to pay for it, Mr. Burton reported.

## No Recruiting Office Has Been Set Up In Belleville Yet

Doubt that any active service force would be despatched from Canada to either France or Poland to join the present conflict "for a long time yet" was expressed by leading militia officers of the city this morning.

Recruiting has been going on in Kingston, Cobourg and at Toronto lately for this central area, but it is believed that units thus brought up to full war time strength will be retained in Canada until actual need for them is voiced by the Mother Country.

As yet no recruiting office has been opened in Belleville, and whether recruiting will be undertaken here within the near future was not known, it was stated.

"Nothing definite will be known until after the House meets and the Act of the War Regulations which governs enlistment and the active services forces is passed or read," it was added by one ranking officer of a local unit.

The gloomy prediction that the present conflict will be a long and wearisome one was voiced.

"There will be plenty of time and opportunity for Canadian soldiers to get into this scrap, because it will likely be a long and expensive one," it was stated.

## 40 Children Finish Reading Tour Of World's Fair

Touring the World's Fair through books proved the most popular of any summer reading program of the Boys' and Girls' Department at Corby Public Library, eighty-seven registering at the beginning of the season. The reading period closed on Saturday with forty children completing the requirements.

In order to be 'World Fair Visitors," the children registered for a reading project. Suitable books were chosen by the children's librarian, Miss Kathryn Gallagher, and grouped under the headings of outstanding World Fair exhibits. Thus stories of other lands were found under "Court of Nations" and the imaginary tour moved on (when the girl or boy had read one of the prescribed travel books) to such fascinating groups as "Animals' Den", "The Fo'castle," "Children's Playground," "Indian Village," "Palace of Enchantment," "Gallery of Famous People," while the Trylon and Perisphere where represented Spire of Heaven and House of Earth.

Children taking part, in this way had a profitable summer of directed reading while the arrangement from the point of view of the girl or boy seemed to be entirely satisfactory so enthused were they about reading their way through the World's Fair.

Each child who completed the tour was given a souvenir coin from the New York World's Fair at the close of the contest on Saturday.

They were Mary Alexander, Helen Berger, Teddy Boyle, John Bradden, Cecelia Caul, Bob Clarke, Jean Diamond, Mary Doyle, Bobby Ford, Shirley Fradette, Marguerite Garvin, Barbara Greenleaf, Theodore Lambros, Joan McCabe, Carol Martin, Jean Mills, Shirley Mills, Betty Nicholson, Lois Peacock, May Pepper, Margaret Philbin, Charlie Potter, Edith Potter, Eva Rutter, Betty Snare, Dorothy Snider, Norma Snider, Ruth Snodden, Audrey Stewart, Dorothy Stewart, Florence Sword, Mary Teevin, Cecelia Trudeau, Jean Marie Trudeau, Douglas Walmsley, Ramon Walmsley, Ronald Walmsley, Roger White, Ruth Wise and Jack Wiskin.

## 4 Police Constables Report For Duty

Four additional Provincial Police officers arrived at District No. 8 headquarters in Belleville today and reported to Inspector Frank Gardner for duty, raising the strength of the entire district by nine additional constables. As was the case of last week, the quartette of new constables came from Toronto to augment the Provincial Police of this area. Ten war veterans were also sworn in as special police for guard duty by High County Constable W. E. Smith, who is in charge of the guards who have been placed to protect railway bridges, canals and hydro plants throughout the district, Inspector Gardner added today.

The names of the four new Provincial Police officers to supplement the force in this district were given as Constables C. McPherson, L. Nichols, R. P. Rayner and W. MacDonnell.

## TWO AUTOMOBILES STOLEN IN NIGHT

### Possibility Both Cars Were Taken by Joy-Riders Police State

Two automobiles were stolen in Belleville last night. Mr. James T. Doyle, 46 Queen St., reported the theft of his 1937 model Plymouth coupe bearing licence plates number 37-N-32.

Mr. Doyle had parked his car in front of his home early last evening, but owing to the rain failed to subsequently garage the vehicle. It was found to be missing this morning.

Carl Mott, Thurlow, reported the theft of a 1926 model Chevrolet, which he had left parked on the McCarthy Theatre parking lot last evening. Although neither vehicle had been recovered at noon today, police were of the opinion that the latter car had only been taken by joy riders and would soon be found abandoned.

George H. DeVuyst, 140 Burnham St. complained to the Belleville police that neighbors' children were causing him no end of trouble by tampering with his automobile. "They throw tar on the body and even have put sand in the gasoline tank," Mr. DeVuyst informed the police last night. Warnings were later issued to the parents of the alleged delinquent teen-aged culprits.

There has been a marked decrease in the appearance of transients seeking shelter at the police station of a late date. "Frankly we feel it is the direct result of the war scare," stated one police official last night.

## NEW HOME-GROWN GRAPES OFFERED

### Heavy Early-Week Display of Fruit Seen on City Market

With new fruits the predominating feature, city and district market produce vendors offered a heavy early-week display today on the city market.

New home-grown grapes headed the variable fruit offering with vendors offering choice quality stocks for ten cents the berry box. No basket lots were noted.

Melons of all sorts and sizes came by the truckload and were offered for sale to a briskly buying public. Prices ranged from 5 cents to as high as 35 cents for watermelons of varying sizes. Cantaloupes as cheap as 15 cents the dozen to 10 cents each according to size, were offered.

Peaches were again plentiful with good quality No. 1's quoted at 35 cents the 6-quart basket, "Ripes" were offered at 25 cents the 6-quart basket with eleven-quart baskets quoted at 45 cents.

Tomatoes were steady at 50 cents the bushel, with potato quotations firm at $1.00 for sixty pounds. Sweet corn noted no change at 15 cents the dozen ears. New vegetables sold at week-end prices.

A few eggs were offered at 28 cents the dozen for choice "A" selects, while a few broiler chickens were sold at 85 cents the pair. Fowl was offered from 50 cents each. A few whitefish were available at 17 cents the pound.

## Car Fails To Negotiate Turn Near Shannonville

While enroute to take over his duties as special police guard of the Canadian National Railway bridge at Milltown, an automobile driven by Garfield Stapley, Trenton, collided with another motor car opposite the Hastings County Home early yesterday afternoon. Stanley J. Price, Belleville, was proceeding easterly at the time and made a lefthand turn off Highway No. 2 as Stapley, who was following, was about to pass Price. No injuries were sustained, although both vehicles were badly damaged, Motorcycle Patrolman Sam Ervine stated following his investigation of the accident.

A second accident, which Constable Ervine investigated yesterday afternoon, resulted from a motor car failing to negotiate the curve on Highway No. 2 immediately east of Shannonville. The motor car was driven by Miss Marjorie Wise of Montreal, and the vehicle crashed into the ditch as the result of failing to make the turn. Here again no injuries resulted, although the under-carriage of the car was badly damaged.

## FRUIT MERCHANT PLEADS GUILTY

### Admits Contravention of Market By-law and Fined $2

Edward Kellaway, local fruit merchant, today pleaded guilty to the violation of the city bylaw that pertains to the selling of fruit on Belleville's open market, when he appeared before Magistrate J. L. Lloyd in today's local police court. A fine of $2.00 and costs, amounting to $6.50 in all, was imposed.

Kellaway, along with five district farmers who have for many years displayed their farm products on the Belleville market, appeared charged that they did offer or expose for sale on the Belleville market, fruit, of which they were not the grower or producer of, contrary to section 2 of City Bylaw No. 3421. Kellaway was the only one arraigned today and he immediately pleaded guilty as charged.

The five district farmers who were also in court requested an enlargement until September 15th., through Charles A. Payne, K.C., who was acting on behalf of two of the charged farmers, F. G. Cushing, representing the city as Acting City Solicitor, readily agreed to the postponement. Crown Attorney B.C. Donnan, K.C., read the charge to Kellaway, however.

The five district farmers charged with the violation of the city market bylaw were Arthur Sine, B. V. Hall, Alfred Jones, Henry Nelson and William Bedford, all well known and respected farmers and market gardeners, who refused to comment upon their cases before they were arraigned.

Two juveniles appeared charged with theft and after being given the warning of the court, were given suspended sentences.

## Car Damaged By Fire In Burning Barn

Fire, said to have originated in a corner of a "lean-to" attached to the building, gutted a barn on the property of Howard Akey, West Moira Street late last night. An automobile stored in the building was severely damaged with a number of garage accessories being completely destroyed.

Members of the Belleville Fire Department fought the stubborn blaze for a considerable length of time and succeeded in confining the blaze to the buildings. Houses nearly were threatened with flying sparks and embers, but no damage resulted.

First intimation of the fire came when a Mrs. Johnson, neighbor residing in a nearby cottage, saw the glow of flames through a window. She notified the Akey household, but the fire had secured a firm hold in the building by the time help arrived.

## 2164 School Children Begin The New Term

Despite the fact that the grim spectre of war is hovering over the country, Belleville's schoolchildren left the glamor of summer holidays behind them today and trooped back to the halls of learning in various parts of the city.

While there were approximately 210 youngsters enrolling for the first time, registrations were slightly lower than those of a year ago, principals of the various schools reported. A total of 2164 were enrolled in the five public schools of the city. Division of enrolment is—Queen Alexandra 460; Queen Mary 470; Queen Victoria 500; King George 324.

St. Michael's Academy registered a total of 410 including 52 beginners. In the high school department registration was slightly in excess of that of last year, 112 being enrolled in the various classes.

## EASTERN EUROPE TAKES NO CHANCES

### Five Countries Remain Neutral but Can Mobilize Nearly 2,500,000 Men

Budapest, Sept. 5 (AP)—Southeastern Europe, zealous to keep war from spreading to this corner of the continent, has proclaimed its neutrality to the world, but still it is taking no chances.

In case the clash of the great powers draws them into the conflict, the five little nations are ready with 2,400,000 men mobilized for action and 3,000,000 more in reserve.

Even while proclamations of strict neutrality were being drawn up, preparations for any hostilities were being pushed on a large scale. Yugoslavia, Rumania and Bulgaria officially signified their neutrality last night. Greece and Hungary likewise have expressed an intention to remain neutral.

Rumania has massed the greatest military machine in southeastern Europe. Starting Aug. 1 with 350,000 men under arms, she subsequently has called up another 750,500 and has 700,000 more in reserve.

The Rumanian navy has been put into fighting shape.

Yugoslavia has 500,000 men ready to throw into any conflict and 1,300,000 trained reserves.

## Football Mentors To Meet Here

Whether or not the current state of war conditions in Europe will have any effects upon the sporting activities of Canada or not may be definitely determined when the Lake Shore group of the Ontario Rugby Football Union convenes in Belleville this evening.

Provincial O.R.F.U. convenor Bill Fry of this city, has sumoned mentors of rugby football from Kingston, Belleville, Trenton and Cobourg to a general meeting to discuss the problems now facing the fall classic due to wartime measures and the advisability of future operation.

Although the Trenton Air Force and the Kingston Signals, the two military units in the group, cannot be expected to continue in civilian sporting activities under the present state of war, there is a possibility that Cobourg, Belleville and Kingston City may yet continue their 1939 O.R.F.U. activities.

**Juniors to Organize**

The future of intermediate rugby football cannot be determined until following tonight's meeting, but convenor Bill Fry seems satisfied that junior rugby football will flourish for the first time throughout the Central Ontario zone this autumn. Efforts to interest Cobourg, Belleville, Trenton, Madoc or Marmora and Napanee into sponsoring junior O.R.F.U. throughout this area. Actually Mr. Fry feels Belleville could be represented with two junior O.R.F.U. squads, a city team and one from Albert College.

The annual meeting of the Lake Shore group of the O.R.F.U. will be held prior to attempts to organize a junior group.

## Atlantic Passage Reservations Are Still Being Booked

Reservations are still being booked for Atlantic passage at the local office of the Canadian National Steamship Lines, it was stated this morning by Mr. K. Dyson, manager, but sailings are not being guaranteed. Nor is time of sailing assured, due to the fact that restrictions have been placed on announcement of times of sailing.

"All we can do is to accept the passage, and then advise travellers that they may be forced to wait a few days in New York until the ship is ready to sail. Schedules are not being maintained.

Several passages have lately been booked by persons in Canada wishing to return home to the British Isles, but few if any Canadians are displaying an eagerness to visit the Mother Country at this time.

## Recruits Needed For Service In The Church, Speaker Says

"No army of men, no legion of devils can destroy right, or love or honour," the Rev. R. E. Newman, minister of Holloway St. United Church declared Sunday night in a ringing challenge to youth to "enlist in God's army."

"It still calls for the heroic young recruits to make their choice and follow Jesus. It's your choice, then your loyalty and activity will surely follow," he said.

"The choice comes now," Mr. Newman asserted. "It is here. Will you make your decision? Maybe you have made pledges before and broken them. Maybe you have already made your choice and are now deserters. Maybe the rest of the army is weakened because you have broken your pledge. Maybe you think no one knows anything about it. You know and God knows that is all that matters."

"Will you make your choice?" he appealed, "or renew your choice. Will you follow Jesus? Some old soldier must retire unfit for active service. The honor of the Service is at stake. The present battle demands new young volunteers to enlist in God's army."

"Gentlemen, unless young people enlist in God's army, paganism will have its hordes."

There can be not sitting on the fence, there can be no neutrality, the speaker declared. "The very nature of things forces us to take sides. You are either all out for God or you are not out at all. One must choose between God and Mammon. The world is choosing force to meet force, matching will to will. There is no match for the person who has chosen to give himself to Christ. What we need is firmness without threat."

"I have no desire to be the British Ambassador to Germany. But he represents our Commonwealth and has been firm without threats" the speaker said. "Willingness to serve and readiness to go for the Lord is the secret of real spiritual service and ministry. God's people should freely respond to the call of God and not wait to be pressed into service. Too many young people are too willing to praise some other mother's son for bravery and death if they can keep themselves at ease in Zion.

"If you have what it takes to be a whole-hearted follower of Jesus, you will enlist in the army until the war is over or death relieves you. I say, have you what it takes to become unselfish, wholly loving and definitely set to follow Jesus. It is up to you to make the choice."

"I cannot promise you ease or favorable applause from the masses", Mr. Newman asserted, "but I can promise you God's supreme care and protection."

### MAYOR BONE STATES TRANSIENTS IN NO HURRY TO ENLIST

"During the past few years we have observed the highways and roads filled with transients who apparently gave the impression they were ceaselessly looking for work. Now they have the chance of a job; a job of protecting Canada or fighting for the Mother Country. But I don't see many of them jumping at the chance of enlisting," commented Mayor Jamieson Bone this morning.

"According to the reports I have had, this class of citizen has not been the first to volunteer services and so far it is believed, very few of them have offered to enlist."

# POLISH TROOPS SHORTEN THEIR DEFENCE LINES

### Military Objectives in Warsaw Subjected to Heavy Bombing from Air

## SHUTTLE ATTACK

### Troops Withdrawn from Corridor Cities of Grudziadz and Bydgoscz

By ELMER PETERSON

Associated Press Staff Writer

Warsaw, Sept. 5—(AP)— While Polish strategists shortened their defence lines under intensified German attacks in all sectors today, Warsaw underwent another air raid.

Several times during the morning attack, German airmen flew directly over the heart of the capital without dropping bombs. They confined their activities to the suburbs and military objectives.

**All Clear in 35 Mins.**

The alarm sounded at 8:30 a.m. (3:30 a.m. EDT) and 35 minutes later the "all clear" signal was given.

The courses travelled by attacking planes caused observers to conclude they were shuttling back and forth between Austrian, Slovak and other German areas in daily trips, reloading at each stop and dropping bombs en route.

Increasing numbers of Warsaw citizens are leaving for the country. They pack their belongings into any sort of conveyance available. The largest number were travelling eastward and southeastward.

The Polish press reported a Polish cavalry unit had penetrated the German East Prussian border and occupied two villages. This was similar to an earlier report that Polish mounted troops had broken through Germany's Silesian frontier.

**Some Troops Withdrawn**

In two strategic moves deemed necessary to strengthen the defence organization, the Polish general staff withdrew its troops from the Corridor cities of Grudziadz, 60 miles south of Danzig, and Bydgoscz, approximately 40 miles southwest of Grudziadz.

It is reported the German offensive at no point has penetrated the Polish defences, although the German forces are pushing hard. But Germany continues to back her advance with a severe aerial bombardment which already has taken a heavy toll of civilian lives, including 10 persons killed when a bomb hit a girl scout canteen in a 45-minute raid on Warsaw yesterday.

**Trying Pincer Movement**

It is apparent the Germans are trying a pincer movement to join Germany and East Prussia in a military sense, while seeking to isolate Gdynia and thus cut off Poland from her only access to the Baltic Sea.

(By their occupation of Grudziadz and Bydgoscz, the Germans claimed to have "isolated" Polish forces in the northern Corridor).

It is understood Germany is using mechanized units extensively.

The most "isolated" of all Polish troops were reported still holding out against vastly superior opposition. This was the garrison at Westerplatte, the ammunitions dump on a small peninsula jutting into Danzig harbor. It has been subjected to German sea and air attacks since dawn Friday.

**Straighten Front Line**

In addition to withdrawing from Grudziadz and Bydgoscz, Polish troops earlier had begun straightening the front by what was described as an orderly retreat from Czestochowa, an important city in the southwestern industrial section. A communique said the retreat was covered by Polish airplanes which broke up two columns of German troops.

A Polish aerial squadron was reported to have inflicted heavy losses on enemy armored troops the night of Sept. 3 and 4.

The wrecking of the girl scout canteen at the east Warsaw railway station produced the heaviest casualties in yesterday's long air raid, carried out by 16 German planes. The Poles claimed to have shot down three.

No Wonder You Are Constipated!

What do you eat for breakfast? Coffee, toast, maybe some eggs? What do you eat for lunch and dinner? Bread, meat, potatoes? No *wonder you're constipated... due to lack of "bulk."* And "bulk" doesn't mean the amount you eat. It means the kind of food that forms a soft, bulky mass in the bowels. It's this mass that helps your bowels move.

The common sense thing to do about it is to eat Kellogg's All-Bran for breakfast. This ready-to-eat cereal will give you just the "bulk" you need. And it gives you, in addition, Nature's intestinal-tonic, vitamin B₁. Eat a generous portion of All-Bran *every day*, drink plenty of water; and life will be brighter for you! All-Bran is made by Kellogg in London, Canada. Sold by every grocer.

"WE FIGHT FOR RIGHT" — KING GEORGE

King George, attired in the uniform of an Admiral of the fleet is pictured here in his study at Buckingham Palace as he broadcast a message to his people in England and all parts of the Empire on Sunday. This picture was radioed from London. —Phonephoto

# Veterans Accepted For Service Will Retain Full Pension

### Statement Issued by Pensions Minister, Hon. C. G. Power

Ottawa, Sept. 5 —(CP)— Pensions Minister C. G. Power last night issued the following statement covering the enlistment of Canadian war veterans in the militia and other forces (450):

The Government is gratified by the assurance, through veteran organizations, of the unswerving support of veterans of the Great War in the present crisis. Coupled with this support, assurance has been given of practical assistance on the part of Canada's veteran body, of whatever nature indicated by local conditions. Veterans undoubtedly can and will set an excellent example to the general public by steadiness and restraint in word and deed.

Questions are arising as to the status of Canadian pensioners of Canadian pensioners of the Great War who enlist as members of the naval, military and air forces of Canada during the present conflict. In reply to the question as to whether those now receiving pensions for disabilities will continue to receive such pensions if again accepted for service, I am informed by the Canadian Pension Commission that their rights in this regard are adequately protected under the Canadian Pension Act and that the pensions now being received by such veterans, and their dependents, will continue in the event of their being accepted for future service, and their rights and privileges and those of their dependents will be preserved and maintained.

**Applies to All Services**

By order-in-council already passed under the authority of the War Measures Act, the existing provisions of the Canadian Pension Act have been made to apply to all those who enlist in the naval, military and air forces of Canada.

Recipients of war veterans' allowance might find it difficult to qualify for service during the present war, from a medical standpoint, because of age and disability. In the event, however, of any recipient of war veterans' allowance being accepted for service, it is only fair to give notice in advance that the provisions of the War Veterans' Allowance Act as to income will apply.

**Strict Examination**

Whilst recognizing the fine spirit of loyalty which prompts veterans of the Great War to again offer their services, and in full realization of the steadying influence such men, who have already been under fire, would have upon their comrades, I am informed by the Department of National Defence that, in the interests of the Vetans themselves, as well as the country, that the medical examination, both upon enlistment and discharge, will be infinitely more thorough, and conducted in the light of the experience gained during and since the Great War.

# Hamilton Couple Seriously Injured

Hamilton, Ont., Sept. 5 (CP)—Victims of holiday week-end traffic, Colin Sharp, 21, and Lilian Rogers, 25, were in hospital here today seriously injured. They were crossing heavily-travelled Highway No. 2 hand-in-hand last night when an automobile driven by Bert Alfred Mowles of London, Ont. struck them.

Miss Rogers suffered fractures of the skull, left leg, right ankle and possibly of the right arm. Sharp incurred compound fractures of both legs and severe abrasions. Police are investigating.

# Travel Of U.S. Citizens To Europe Virtually Halted

Washington, Sept. 5 (AP)—Travel of United States citizens to Europe was virtually halted today by sweeping government restrictions.

lately for this central area, but it is after will permit citizens to make the eastward Atlantic voyage. The order, issued swiftly after the sinking of the British liner Athenia on which some Americans were travelling, coincided with discussion of plans to convoy United States vessels returning from European ports.

The State Department action last night voids passports already issued unless documentary evidence is submitted that a trip to Europe is absolutely necessary.

The question of using naval vessels to convoy American merchant ships has not gone beyond the discussion stage, officials said. Charles Edison, acting Navy Secretary, indicated to reporters it would be best for the Atlantic naval squadron to remain close to United States shores because of reports of submarines in the Caribbean.

He emphasized, however, that the navy department has no official word of the presence of such craft in the area.

Of the 70,000 Americans believed to be in Germany, Great Britain, France, Poland and Italy, a well-informed official estimated that approximately 30,000 want quick removal homeward.

# S. AFRICA VOTES

*(Continued From Page One)*

A few minutes earlier the House had adopted by a vote of 80 to 67 an amendment to the Hertzog resolution calling for a severance of diplomatic relations with Germany.

The amendment was sponsored by General Jan Smuts, Minister of Justice, and contained, among other things, a declaration that the "freedom and independence of the Union (of South Africa) is at stake" in the new war.

It was understood that General Hertzog demanded the disolution of parliament, the issue to be decided at the polls. The Governer General refused to accede to this demand.

Ministers who supported General Smuts in the cabinet revolt were Harry Lawrence, Minister of Labor; R. C. Collins, Minister of Agriculture; Richard Stuttaford, Minister of the Interior; Colonel Deneys Reitz, Minister of Mines; Charles Clarkson, Minister of Public Works; and R. H. Henderson, Minister Without Portfolio.

Those who stood by General Hertzog in favor of a neutral position for the Dominion were Oswald Pirow, Minister of Defence, N. C. Havenga, Finance Minister; Henry Fagan, Minister of Native Affairs; Jan Kemp, Minister of Lands; and Senator Adrian Fourie, Minister of Railways.

It was anticipated that the Governor General would call on General Smuts, one of the empire's leading statesmen during the Great War, to form a new ministry.

The issue of supporting the British commonwealth against Germany in the war had split the cabinet.

**Four-Point Policy**

General Smuts, a staunch supporter of the political ideals of the commonwealth and one of the empire's leading soldier-statesmen of the Great War, sponsored this four-point policy:

1. Severing of diplomatic relations with Germany.
2. Observance of obligations and continuation of co-operation with the British commonwealth.
3. Taking of all necessary measures for defence of youth, African territory and South African interests, but not send forces overseas.
4. Adoption of a stand by the assembly that it opposes the use of force as an instrument of international policy and is convinced that the freedom and independence of the union is at stake in this conflict.

**Against Adopting Course**

"From the narrowest point of view of South Africa's own interests, we should be false to the future security and safety of South Africa if we adopted the course advocated by the Prime Minister," he said.

The Prime Minister had read a declaration of policy that South Africa's relations with the belligerents would "persist unchanged and continue as if no war was being waged."

The declaration said the union would observe existing relations and obligations between South Africa and other members of the commonwealth of nations.

**Resist Any Attack**

The Premier said the Union would be able to resist any attack on the Simonstown naval base. He declared he intended to adhere to his oft-repeated views that "South Africa would not be plunged into war except when the interests of this country itself demand such action."

Thus, Generals Smuts and Hertzog, whose parties put their differences aside during the financial crisis of 1933, again reach a parting of the ways.

They fought together against Great Britain in the Boer War, but later General Smuts became a leading figure in the war against Germany from 1914 to 1918.

# ENVOYS HURRY TO HOMELAND

### British, French and German Ambassadors to Pass at Oldenzaal

Amsterdam, Sept. 5—(AP)—British, French and German envoys, hurrying from their posts to their homelands after the outbreak of war, were reported today in or near The Netherlands, where they will cross border lines simultaneously.

The British Ambassador to Berlin, Sir Nevile Henderson, who had been expected at Oldenzaal during the night, was reported at Theine, Germany, where he will remain until receipt of word that Dr. Theodore Kordt, German Charge D'Affaires at London, has reached Holland. Sir Nevile then will enter Holland as Kordt at the same time enters the country.

Kordt left London last night.

Robert Coulondre, French Ambassador to Berlin, was reported arriving at The Netherlands town of Oldenzall by train. He will await the arrival there of the German Charge D'Affaires in Paris.

The French and German officials will exchange trains at Oldenzaal and proceed to their home countries.

The German Ambassadors to France and Great Britain already had returned to Berlin.

# Co-operation Promised By Anthony Eden

London, Sept. 5 (CP)—Anthony Eden, newly-appointed Dominions Secretary, promised the Dominions in a message today to "spare no effort to further the work of co-operation between Great Britain and the self-governing members of the British Commonwealth."

At the same time Colonial Secretary Malcolm MacDonald in a message to the colonies called on them to stand behind the empire "in this time of trial".

Mr. Eden informed the Dominion governments that arrangements have been made permitting him to have access at all times to deliberations of the war cabinet, so as to ensure close contact between the cabinet and the Dominion governments.

"I am confident that the happy relations which have been maintained with my predecessors will be continued during my term of office," he said.

# ATHENIA SHELLED AFTER TORPEDOING SAYS CAPT. COOK

### Submarine Rose to Surface and Fired Directly at Boat Observers State

## DEAD NOT KNOWN

Galway, Eire, Sept. 5—(CP)—The master of the liner Athenia, sunk Sunday, said on his arrival here today that his ship "was hit by a torpedo which went through the galley and into the engine room, causing heavy loss of life."

The captain, James Cook, was brought here by the Norwegian steamship Knut Nelson with 430 other survivors of the first submarine disaster of the European war.

Captain Cook said that immediately after the torpedo was fired, the submarine rose to the surface and shelled the Athenia.

"One shell carried away the main mast," he related.

"It was evidently aimed at the wireless room, but missed its mark."

**Called Witnesses**

He called witnesses to tell newspapermen that the torpedo was fired at a range of 800 to 1,000 yards on the port side of the vessel.

One officer said he saw the periscope of the submarine just before the torpedo struck.

Other officers and members of the crew said they saw a line of smoke rising from the water off the port side just before the disaster. The smoke described a complete circle over the surface of the water.

Captain Cook said he did not know how many were dead and injured.

Ten people severely injured wrere transferred to tenders and taken to the Galway Hospital by Irish army doctors and staff nurses.

**Women Wore Scanty Garb**

After them came the rest, women and children wearing rough work clothes—loaned them by sailors aboard the Knut Nelson—over the scanty garb in which they escaped the stricken ship.

Worn by exposure and weak from lack of sleep and irregular diet, the first survivors all told the same story.

They were asleep when awakened by a terrific explosion which shook the ship and sent children in their berths sprawling onto cabin floors. They were ordered to abandon ship and take to the lifeboats, a movement which was carried out in "perfect order."

Capt. Cook said: "There was no panic whatever on board the ship. The passengers faced danger bravely."

As they came ashore the survivors crowded about the few available telephones, anxious to inform their friends of their safe arrival in Ireland.

Ruth E. Strauss of New York said: "I saw a flash on the port side of the Athenia about 800 to 1,000 yards away. The torpedo struck in a few seconds and was followed by a shell. The ship was still afloat when we left the scene five hours later."

## THE WEATHER

Toronto, Sept. 5 (CP)—General synopsis—Thundershowers have occurred in many parts of Eastern Canada and it has become considerably cooler over Ontario and Northwest Quebec. The weather has been generally fair over the Prairie Provinces with light showers in a few sections of Northern Saskatchewan and Alberta, also showers in the Peace River district. It is becoming cooler again in Alberta.

Lake Superior: Moderate winds; fair and quite cool. Wednesday — Fresh winds; partly cloudy and becoming a little warmer.

Manitoba: Fresh to strong winds; mostly fair and somewhat warmer today and Wednesday with scattered thundershowers.

Saskatchewan: Mostly fair and warm with scattered thundershowers. Wednesday—Partly cloudy and becoming cooler; probably scattered showers.

Alberta: Partly cloudy and quite cool tonight and Wednesday; light scattered showers.

## *Why the Weather!*

War and weather! Weather may decide wars as it has often been the deciding factor in battles. The terrible weather of the Russian winter was a most formidable obstacle to Napoleon when he retreated from Moscow. In the World War some said: "There is one Generalissimo from whom all belligerents take orders, General Mud." Rain for instance, creating muddy roads and fields, is on the side of the defense, as the attackers may find it impossible to transport men and arms. While this has long been recognized, it was not until the World War that trained weather observers and forecasters with their elaborate equipment formed a part of all armies.

"ROYAL PROCLAMATION READ AS WAR DECLARED"

At the Royal exchange, in the financial centre of London, a proclamation concerning articles to be treated as contraband of war was read following the declaration of war against Germany, as shown in this Phonephoto. —Phonephoto

# CANADA PREPARES SCHEME OF AIR RAID PRECAUTIONS

### May be Isolated Instances of Enemy Breaking Through Naval Barrier

## PROGRAM PLANNED

Ottawa, Sept. 5 (CP)—Canada is preparing a scheme of air raid precautions, not because the government expects the Dominion to be bombed by German air fleets but as a precaution against isolated instances of the enemy breaking through the allied naval barrier.

A Dominion government air raid precaution committee has been functioning for some time and has obtained co-operation of local committees in the provinces most liable to air attack, such as the Maritime Provinces and British Columbia.

An announcement yesterday gave no details beyond the fact that the Dominion Air Raid Precautions Committee was in operation. A government spokesman said the authorities had considered it advisable to take precautionary measures but hoped such measures would not cause public alarm.

**Hold "Blackouts".**

Saint John, N.B., a vital seaport, is holding nightly "blackout" this week in anticipation of a possible emergency, but there is no indication as to when other cities near the coast might take similar steps.

Cabinet council is expected to meet again today to discuss further measures to assure internal security of Canada and to evolve some sort of program of action to be laid before parliament later in the week for its approval.

**Parliament Must Decide.**

Prime Minister Mackenzie King has stated several times that parliament alone must decide the nature and extent of Canada's participation in a war in which Great Britain is involved. At the same time, the Prime Minister has stated his government's policy is one of "effective co-operation at the side of Britain".

Members of the House of Commons and of the Senate gathered in increasing numbers here today in anticipation of the emergency session of parliament opening Thursday. Opposition groups, it is expected, will hold party caucuses today and tomorrow to test the opinion of their members on vital questions now facing Canada in the light of British participation in the war.

# GRAIN PRICES UP FIVE CENTS

### Operators Showered the Grain Pit With Buying Orders

Winnipeg, Sept. 5 (CP) — Grain prices rose the five-cent limit when trading opened on the Winnipeg Grain Exchange today.

The effortless rise was made by all wheat and coarse grain futures prices which opened in the first minutes. Only a few trades were recorded as sellers remained on the sidelines and operators showered the pits with buying orders.

In its first session since Great Britain and France declared war on Germany the Exchange offered no opposition to the belief that the world demand for wheat will increase as the European conflict progresses. Allowable limit bid prices were chalked up in all futures but no trades were recorded.

October wheat opened at 74 cents a bushel, November 75⅝, December 75⅛, and May 78½ cents—all five cents higher.

When ZaSu Pitts, as a Southern belle, makes love to Hough Herbert, what can the famous loony man do but concede her point. All this happens in the thrilling racetrack story, "The Lady's From Kentucky," now playing with a second feature "Million Dollar Legs," starring Betty Grable and Jackie Cooper at the Capitol Theatre.

THE DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and holidays excepted) at The Ontario Intelligencer Building, Front Street, Belleville.

## BRITISH AIR RAID

The daring Air Force raid on German battleships at anchor near the Kiel Canal in which two were damaged seriously shows the difference between British methods and those adopted by the Nazis. There is a great difference between the bombing of military objectives and the bombing of helpless civilians and children.

While there does not seem to be any threat from the German navy aside from submarines, the moral effect on Britain will be heartening especially after the sinking of the Athenia the day before. There will be attempts at retaliation but the fact that Britain struck the first blow effectually shows her determination to carry the war to the enemy's territory with the least possible delay.

## GERMAN FRIGHTFULNESS BEGINS

The news of the sinking of the liner Athenia without warning is the first sign that the German command intends to pursue the same tactics as in the last war in which thousands of lives of non-combatants were lost. In this case no passengers were lost, which was fortunate. However, if American citizens had been drowned while on their way home on their government's suggestion undoubtedly the neutrality, of which the American authorities and the press have been talking so much lately, would assume a far different aspect and today we would have seen our neighbors to the south clamouring for satisfaction in no uncertain terms.

Just how long American neutrality can be maintained will depend on some blunder made by the enemy as was done when the Lusitania was torpedoed with large loss of United States citizens and which was the main reason for their government entering the war in the spring of '17.

Late Monday afternoon bulletins stated that the Germans denied that any of their submarines were near that area where the liner was sunk but the captain of the Athenia emphasized that his ship was torpedoed. The British Admiralty also states that no British mines have been laid in that area. However what reliance can be placed on the statements of any government, that has repeatedly broken its pledges to other nations as the Nazis have done. It is expected that once the navy gets its convoy system working effectively, incidents of this nature will be few. The improvement in submarine detection devices will, also, make the sinking of ships a much more hazardous operation than the case during the last war.

## BOMBING OF CIVILIANS

The reports from Poland of the bombing of civilian populations with consequent high casualties by the German Air force cannot be justified on any grounds. If it is thought that such acts of destruction serve to shake the moral of the people then all we have to do is to look back on the bombing of Madrid by the Franco forces. Thousands of the inhabitants were slaughtered and large sections of the city reduced to ruins but the city did not surrender and had the Loyalist forces been able to obtain sufficient arms and supplies the war possibly would have had a different ending.

Acts of frightfulness serve but to harden the will of the people attacked. We can well believe that should such ruthless bombings take place in Great Britain, and is seems certain that they will be done, then that will be the greater bill that Germany must pay when the day of reckoning comes. Not only that but useless destruction of cities serves but to invite reprisals. The Nazis will find that their policy of aggression is going to cost them much more than they had bargained for. Gone are the days of easy conquest such as took place in Austria, Memel and Czechoslovakia and the bombing of civilians is not going to help their cause either at home or at the great bar of world opinion.

## NO SHORTAGE

The run on the grocery stores of the city last week by many panic stricken citizens to obtain quantities of sugar was totally unnecessary. There is an assurance from official quarters that there is plenty of that commodity in the country and that no one need stock up with any great amount in the expectation that it will be doled out in small lots in the future.

During the last war Canada did not experience shortage of food stuffs, clothing or fuel and while prices did advance considerably in some lines because there was a tremendous demand by the military services. In the latter part of the struggle coal was rationed but no one suffered as a result of this situation.

There is, also, no need of fear on the part of the public that profiteering will be permitted for the federal government has announced that such abuses of this kind will not be tolerated under any circumstances. Such reassurances from official quarters should be remembered and householders should not permit themselves to be stampeded into doing a thing of which they will be heartily ashamed when they think back on it.

### VACATION DAYS

The summer vacation is over,
And now to life's busy track
The teacher, the preacher, the rover
Are wending their footsteps back;
Oh! sweet were the hours of the summer,
And swift did the moments fly,
But now in the shade of the greenwood glade
They tender a sad good-bye.

Oh! restful days after labor
Afar from the busy throng,
The peace of the days in the summer ways
Remain as a tender song;
For they, who were weary in Spirit,
Who fainted in life's toil and test,
The Master's words through the ages, heard—
"Come ye apart and rest."

—Helen B. Anderson.

x x x

A SOCIETY WOMAN WAS SENT TO JAIL AND FINED HEAVILY while two movie and radio comedians were heavily fined and given supspended sentence, just because someone spoke disparingly of Hitler at a social dinner in New York City. The domestic waiting on table so far forgot her place as to listen to the conversation of the guests, and even butt into the conversation. "I love Hitler, I will not work for anybody who talks that way about him," was the contribution of Rosa Weber, a German domestic, to the conversation at a Park Avenue dinner party at which Judge Edgar J. Lauer and his wife were entertaining a number of guests. The girl was promptly dismissed, and her request for a recommendation refused. Then she went to the customs department and informed on her former mistress as a smuggler of fine dresses from Paris—profiting no doubt in informer's reward money from the successful prosecution of the case which followed. The conviction of his wife resulted in the resignation of Judge Lauer, and the whole train of circumstances which started from a chance remark at a dinner table made a lot of misery for everybody. The whole story is told in a recent issue (Sept. 9) of Liberty magazine and makes interesting reading. The arch-criminal who did the smuggling was a smooth article and there is little wonder that he pulled the wool over the eyes of his victims, when he was able to fool the customs men themselves. He posed as a diplomatic attache at Washington, with the usual customs privileges, and had credentials to prove it, forged, of course, but sufficiently convincing as to fool the customs officials themselves. Mrs. Lauer was sentenced to three months in the Womens' House of Detention, New York City, and fined $2,500 and placed on probation for 28 years. George Burns, actor, buying smuggled jewelry, was fined $8,000, placed on probation for a year, and given a prison sentence of a year and a day, suspended sentence. Jack Benny was fined $10,000, placed on probation, and given a similar sentence, for buying smuggled jewelry. Civil penalties were exacted from both comedians, the penalty in each case being the entire domestic value of the smuggled gems. Beside that both men bought the jewelry back from the government, being required to pay the full domestic price all over again. So in each instance, counting everything, jewelry, worth less than two thousand dollars, cost in the end about $15000. And it will take Jack Benny some time to laugh that off, and the sight of the expensive jewelry as worn by Mary Livingstone, won't help any, either. Perhaps Rochester and Carmichael may team up and give Benny the odd laugh when the soreness leaves the wound by and by—if it ever does.

# LOOKING BACKWARD

## GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

### 20 YEARS AGO

**Sept. 5th., 1919.**

Teco Company, Limited, with head office in Belleville, has been incorporated with the following provisional directors: Messrs. W. S. Morden, E. W. McNeil, C. D. Dyke, W. E. Eckhardt, S. H. Young and M. MacInness.

Mr. Judson A. Gunter, Warden of the County of Hastings, will entertain the members of the County Council, officials and friends, at a banquet to be held at the Hotel Bancroft in Bancroft this evening.

Mrs. (Capt.) Hunter, George Street, has returned home after spending several months with her daughter, Mrs. Perley, Victoria, B. C.

Chief of Police John Newton left today for Calgary, Alberta, where he will attend the annual meeting of the Chief Constables' Association.

### 30 YEARS AGO

**Sept. 5th., 1909**

Miss M. Farley has returned to New York City after visiting friends here.

Mr. John Robertson and son, Harry, of Oswego, N.Y., are the guests of Mr. S. Eustace, Church Street.

Mr. George Lovell of Schenevus, N.Y., and Mrs. E. R. Walde of Milton, N.Y., are the guests of Mr and Mrs. O. C. Greenleaf, College Hill.

Dr. Oliver Dupral is spending a few days in Toronto.

Mr. "Sandy Wardhaugh has left on a trip to Medicine Hat, Alberta.

Mrs. A. J. Wall, who has been visiting her parents, Mr. and Mrs. James Riggs, Murney Street, has left for her home in Chicago, Ill.

### 40 YEARS AGO

**Sept. 5th., 1899.**

The Rev. Amos Campbell and Mrs. Campbell left today to visit their sons, Dr. A. L. Campbell, Piqua, Ohio, and Dr. Joseph Campbell, Ontario, N.Y.

Mr. Stewart (Doc.) Wallbridge, an old Belleville boy, is at present engaged in conducting a prospecting party in search of mining property, in the mountains in British Columbia.

Ex. Ald. Grills has returned home after an extended visit with friends in the Old Country.

Mr. E. L. Pope has returned after a trip to the Old Country.

Mr. and Mrs. Charles Grass, Charles Street, are spending a few days in Toronto.

Mr. William Embury of this city, is visiting his cousin, Dr. Embury in Bancroft.

### 50 YEARS AGO

**Sept. 5th., 1889.**

Duck hunters had poor luck at the opening of the season.

One maskinonge was caught in Mosquito Bay yesterday.

In the bicycle races at Kingston yesterday William H. Johnson of this city won the green race, one mile race and the safety obstacle race.

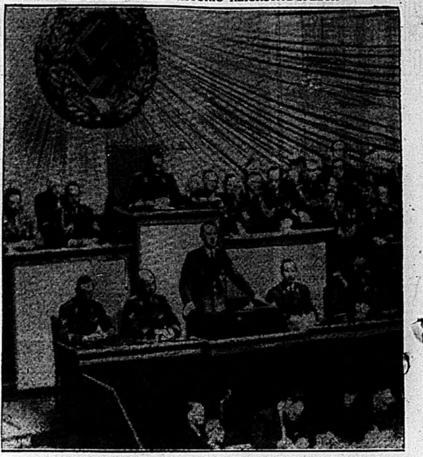
The Rev. Samuel Bennetts who has just returned from Europe, is a guest of the Rev. A. L. Geen, at Moodie Cottage.

Mr. J. James of Tweed was in town today.

Mr. and Mrs. R. L. Lazier, Shannonville, have left to visit their daughter, Mrs William Emerson, in Manitoba.

Mr. Enos Farnsworth of Shannonville, will enter Albert College as a student when the college opens shortly.

## AS HITLER MADE HISTORIC REICHSTAG SPEECH



This radiophoto from Berlin shows Fuehrer Adolf Hitler making his historic address before the Reichstag in which he declared he would achieve the return of Danzig and the Polish corridor or die fighting. In back of Hitler is Field Marshal Hermann Goering.

## *Letters to the Editor*

Editor, Ontario Intelligencer,
Belleville
Dear Editor:—

Will you kindly grant me the hospitality of your columns to talk on a subject of some moment at the present time but which doesn't seem to register upon the minds of the public.

I refer to the probable duration of the hostilities. All around me I hear the most astounding, I might say, judicrous ideas, expressed in this connection. Guesses vary, on the whole, between six weeks and six months.

What need have we to guess when reason points out the answer.

This conflict which started as a small time skirmish between Germany and Poland for the possession of Danzig has by now enlarged its scope and become a major issue, not between Germany on one side and the Franco-British bloc on the other, but between the great democracies of the world and the countries who allow themselves the luxury of dictatorships.

Poland finds herself today in the same situation as Belgium did in 1914. It is practically impossible for her allies to succour her effectively at present. So that, faced by the might of a powerful neighbor, she is doomed momentarily and the valor of the troops may do nothing more than stave off the fateful day when she will find herself reduced to the status of a German colony.

That day will be advanced or retarded according to the help given her by her friends and also to the success of the military operations on the Western front which might compel Germany to withdraw from Poland more troops than she can comfortably afford.

Having thus put Poland out of business, Germany will turn her whole attention to the French side and the battle of the giants will start.

By that time, however, two new factors will have entered into play.

The first is Italy. However desirous Mussolini may be to remain neutral, it is quite clear that she will have to fight. Either she will remain in the Axis and be promptly smashed by the French and the Turks or her neutrality will be shattered by a French ultimatum, demanding free passage of the Allied troops through Italy and into Germany via the Brenner Pass.

It is more than likely that Italy, finding her partner unable to help her, will attempt to sell her help to the Allies. If her price is reasonable, there is no reason why it should not be paid, but if her demands are outrageous, the ultimatum will follow and she will get nothing.

The second factor is more subtle in its nature. Britain hasn't as yet any conception of the real horrors of war except through hearing evidence. Her country has escaped the massacres of its civilians because she hasn't been invaded since the Norman Conquest.

This happy situation is going to change. England will now see her own open cities ruthlessly bombed, her own women and children slaughtered wholesale by an enemy who delights in beastliness.

It stands to reason that these tactics of frightfulness will have for their first result to cause a wave of horror and hate to sweep throughout the army. Tommy Atkins, easy going and debonair, will feel the iron enter into his soul and will gird up his loins with the fierce determination of carrying the same class of warfare into the enemy's camp. He will resolve to leave his sword unsheathed until Germany and her friends are finally brought to their knees and crushed utterly.

It is foolish to imagine that we can destroy a country of eighty million of people in a few months or even in a few years.

Especially when Germany has access to the vast resources of Russia and more especially so now that we cannot tie the Japanese war dog on Russia.

That this latter country will aid Germany materially is self-evident. She may even give her military aid if she sees that this help is necessary for the safeguard of her investments.

If that should happen it is likely that the United States, who by that time will have lined its purse at the Allies' expense and sucked them dry of both money and credit may follow a similar course to protect her own investment.

One thing is certain, the democracies will win the war. They will win it, because they must. They must because life under the domination of the dictator wouldn't be worth living.

But in order to achieve this object it will be necessary that each individual give his every thought and effort towards the final victory, that we prosecute this business of winning the war relentlessly and regardless of our own personal convenience and comfort.

We must harden our minds and steel our hearts against every consideration of pity and humanity because we are fighting people for whom those virtues are a sign of weakness.

Finally we must hope that when the States do enter the war, they will do so on their own account and not as a magnanimous gesture to help their unfortunate cousins in Europe.

Also, when this war is over, we dare to hope that, if any country proposes to form a new league of nations that country will have the decency to share the load and not content itself with soaring from a lofty altitude over an institution of its own creation.

Finally, having 25 years ago allowed a neutral country to drain our wealth and credit and having thereafter permitted that country to join up and win our war at the cost of peace settlement followed by a rehabilitation of our enemies which are the direct cause of our present entanglement, we dare to trust that, instructed by the pungent wisdom of practical experience we shall improve upon the lessons of the past and terminate this war in our own way and on our own terms, regardless of the wishful thoughts and financial desires of our possible creditors.

In brief, each week will bring the tale of some new atrocity, of some fresh outrage against decency or humanity by the Germans. Each fresh crime will drive deeper into the entrails of our heroic soldiers the grim resolution to crush the beast, at any and all costs.

Professional liars tell the truth sometimes, by accident. Hitler said he had prepared for a ten year war. That, in my humble opinion is a conservative estimate.

T. MEEUS.

### THE MONEYMAKER

It is said that George Gershwin once arranged to take lessons in composition from the great Russian composer, Igor Stravinsky. When they came to deciding on the fee, Stravinsky asked Gershwin how much his yearly income was.

"About $250,000," was the reply.

"My boy", said Stravinsky, "you should be giving lessons to me."—Wall St. Journal.

### REWARD IS DUE

So large and loquacious a part is being played by the boys of the radio scattered as they are "throughout the tense capitals of Europe," that some measure of reward should be due to them.

Decorations are difficut things to label — let alone invent. So the best that can be done is to offer the following suggestions for recognitions of merit:

Order of the Black Beaver for the first fellow who announces that a meeting was held (any place at all) that was not "momentous".

Three stars and a hurrah for the discovery of a situation that is not "crucial", a mobilization that is not "partial", and a statesman who is not "grim-faced".

A stop watch with chain for an exhibition of unusual stamina in standing on the European "brink".

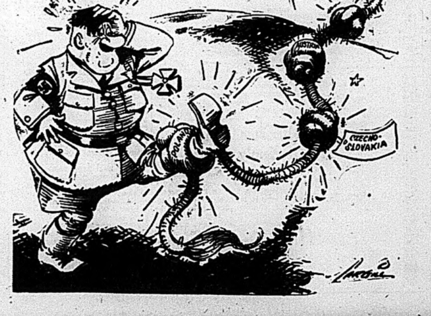
A charitable smile and a stripe for the first broadcaster to mispronounce Berchtesgaden and thereby prove that he is human.

A silver whistle for the one who can fall fast asleep at two out of seven "eleventh" hours.

A brass lamp for the lad who breaks down and admits he has heard a report from sources that are not "usually well-informemd".

All this, of course, is merely "semi-official".—Hamilton Spectator.

## ONE KNOT TOO MANY



# COULD HEAR SUB MOVING BELOW SAY SURVIVORS

### Many of Those Saved After Sinking of Athenia Arrived in Port

### IN BOATS 12 HOURS

By DREW MIDDLETON
Canadian Press Staff Writer

Greenock, Scotland, Sept. 5 — (AP)—Shaken and weeping, 600 survivors of the torpedoed British liner Athenia arrived here today, two of them declaring that the German submarine which sent the liner to the bottom fired two shells at her while lifeboats were being lowered.

One of the survivors, a Mrs. Turner of Toronto, said she heard the two shells when she regained consciousness after the first shock of the torpedo had shaken the ship.

Two hundred of those arriving here were injured. The survivors had nightmare memories of the war's first submarine disaster.

Glasgow mobilized hospitals and nursing homes to accommodate the injured while other agencies planned to care for other refugees, many of them thinly clad and weak from exposure to the winds of the North Atlantic.

**Rumor Says 90 Killed**

As the rescue work went on no one could say definitely how many had been killed or drowned in the disaster.

One rumor said 90 had died. Some persons said the figure was greater and pointed out that a score or more must have drowned when the propellor of the Norwegian rescue ship Knut Nelson shattered a lifeboat full of women.

Survivors said that as the lifeboats loaded with survivors rowed away from the stricken ship the submarine came to the surface and shelled the refugees twice.

The Canadian woman who testified as to the shells fired at the liner was one of the group of survivors brought here aboard two British warships.

Many of the women were without hats or shoes. Several had their arms in slings. As the destroyer edged up to the quay they sent up a cheer.

Dockhands and crews of other ships in Albert Harbor cheered back lustily. The first distinguishable shouts from the decks were:

"Throw us a newspaper so we can see what's happening."

An air raid warden handed up a newspaper.

A second ship followed the destroyer in and out of the fog and began discharging the injured They were rushed to hospitals in a fleet of ambulances.

**Harbor Closed to Public**

The harbor was closed to the public and under heavy guard. No one was permitted near the rescue ships, which appeared to be filled mainly with women and children.

"We had a terrible time and we knew at once what it was," said one survivor.

"We all put on our lifebelts and went to our boat stations. The submarine then dived out of sight and several times during the night when we were in the lifeboats we heard the submarine passing below."

**In Boat 12 Hours**

Professor Damon Boynton of Cornell University, alighting from one of the destroyers, said:

"I was in a boat 12 hours before I was picked up. I don't want to say anything more except this—I don't like German war tactics.'

Then the professor hurried away to the nearest telephone.

Both rescue ships reaching here were destroyers. Presumably some of the survivors had been transferred to the warcraft from other rescue ships.

Galway, Eire, Sept. 5—(AP)—Irish medical corps units and 10 nurses boarded a tender today to meet the Norwegian steamship Knut Nelson, which wirelessed it was bringing 430 Athenia survivors, including 10 stretcher cases, to this port.

Ambulances were on the quay, awaiting arrival of the vessel.

**Conduct Magnificent**

One survivor, John McEwan of Glasgow, said it was "rumored that 90 perished" when the Athenia sank north of the Hebrides.

McEwan said "the conduct of the passengers was magnificent' I don't know how many have been killed but it is rumored that 90 perished.

"There was a great deal of smoke when the torpedo struck our vessel. But through the smoke I could see the submarine break the surface and before we knew where we were it had opened up with its guns and fired two shots at us.

"Every lifeboat was away an hour after we were struck. The liner first of all listed and then righted herself and began to go slowly down by the head."

**Fired Two Shells**

Other survivors said emphatically that the Athenia was sunk by a submarine and that the submarine fired two shells at the sinking vessel.

One member of the crew, Robert Gillan of Glasgow, said he saw a 12-year-old girl lying dead in a deckchair—her body torn by shell splinters.

McEwan said "we learned afterwards that a woman on whom an operation had just been performed had been left on the Athenia." One of the lifeboats went back and took her off.

"We drifted until 2.30 in the morning when a Norwegian ship picked us up.

"I say the sub quite distinctly and I estimate that it was a quarter of a mile away."

A fireman in the Athenia crew said he thought two shells— were fired.

**Several Buried at Sea**

The two destroyers brought approximately 500 survivors to Greenock. Several died on the rescue ships and were buried at sea.

British seamen on the destroyers gave up their own rations for the children survivors and improvised a laundry to wash clothes of mothers and children.

Most of the passengers were at dinner, the first class ones in evening dress, when the ship was attacked.

A smashing blow from the propeller of a Norwegian rescue ship shattered one of the Athenia's lifeboats and cost the lives of several dozen women in the boat, a seaman of the Athenia said.

"After the first explosion, the submarine came to the surface about a hundred yards off," he explained.

**Launched in Quick Time**

"All the Athenia's lifeboats were launched within 1 1-4 hours, and three other members of the crew and myself had charge of one boat containing 52 women.

"When the Norwegian boat came to our rescue we drew alongside and made fast, but our boat got under her stern and was struck by the propeller which knocked the bottom out of our boat.

"Several of the people were killed. I drifted about in the water for three hours in my lifeboat before I was picked up by the yacht Southern Cross.

A third class steward on the Athenia said: "I took the 10 people at my table to boat stations, and we all managed to get into a lifeboat. I saw one boat with 70 passengers in it fall from the davits into the water. Most of the occupants were women and children, and the majority of them were injured."

# Barn Is Burned, Lantern Explodes

Madec, Ont., (Special)—Rapidly enveloping the building after a lantern is said to have exploded while its owner was doing chores early last night, flames destroyed a large steel barn on the property of James Maher, farmer residing three miles south of this village.

A valuable bull, several pigs, and a quantity of grain were destroyed by the flames, which lighted up the countryside for miles around. Neighbors, racing to the scene of the blaze were held back by the intense heat thrown off by the blazing building. The structure is said to have been a sturdy one, and was constructed with a steel roof.

---

### BELIEVES IN CONSCRIPTION

Calgary, Sept. 5 —(CP)— Lady Eaton, widow of the late Timothy Eaton, in an interview here yesterday said she believed "it is only right and just that enlistment of men for war service should be compulsory from the start." Her four sons would be affected by such a law, she said.

---

# EUROPE GUESSING AS TO WHICH WAY ITALY WILL TURN

### For Moment Mussolini is Europe's Chief Apostle for Peace

## NO PLANS FOR WAR

### Italy's Merchant Ships to Sail to United States With Refugees

By EDWARD KENNEDY
Associated Press Staff Writer

Rome, Sept. 5—(AP— Premier Mussolini has Europe guessing as to which way Italy will turn, now that war has come with Italy still on the sidelines.

The man who for years told Italians they were a warrior people and insisted war is "a natural event in the life of a people" is for the moment Europe's chief apostole of peace.

Italian newspapers have stressed Il Duce's efforts to save the peace at the last minute, and published documents to prove his efforts.

The Premier indicates plainly he has no plan for involving Italy in war right now, for he has approved the sailing of Italy's two finest merchant vessels, the Rex and the Conte Di Savoia, for the United States to carry hundreds of refugees home. The Rex will leave Naples Saturday and the Conte Di Savoia, Sept. 13.

**No Military Initiative**

There has been only one official statement of policy in the past few days. That was to the effect that Italy is taking no military initiative.

Virginio Gayda, the highly authoritative commentator, wrote in Il Giornale D'Italia, that it must not be supposed Italy intends to be relegated to the background.

"She will remain present and watching over the protection of all Italian interest and to make sure that the course of events takes that direction capable of giving and hurrying up, true peace with justice for Europe."

Some persons believe the Rome-Berlin axis, never popular among Italians, is finished. Others believe Mussolini is negotiating with Great Britain and France to see what Italy might gain by neutrality, or taking their side.

**Probably Has Scheme**

Others believe Mussolini is remaining neutral for the present so he can get supplies through Germany, then, when the time comes, he will step in on Hitler's side.

In any case, affairs are shaping up in a manner different than Italian spokesmen forecast.

Only a few months ago, Il Duce said if war came, Italy's side was chosen—with Germany.

"We will march with Germany in the indivisible communion of two states and two peoples."

Italians generally are delighted with the way things are going for Italy. Mussolini, at this moment, probably has more genuine admiration, devotion and affection from his people than in his whole long career.

"Il Duce is smart, and he will lead us through this," the people say.

---

# Warning Statesmen

By The Canadian Press

Neville Chamberlain, 70-year-old Prime Minister of Great Britain, long has been known as a worker for peace. He staved off a probable European conflict a year ago at Munich.

"You can imagine what a bitter blow it is to me," he said Sunday in proclaiming his country at war with Germany, and expressing the hope that "I may live to see the day when Hitlerism has been destroyed and a restored and liberated Europe has been re-established."

While Mr. Chamberlain is the third member of his family to gain prominence, he was nearly 50 before he became national figure.

Previously he had been a steel magnate and then Chancellor of the Exchequer. He became Prime Minister May 28, 1937. Known as the "man with the umbrella" because of constant precaution against rain. Enjoys walks with wife through London streets. Has son and daughter.

Adolf Hitler, 50, a corporal in the Great War where he was twice wounded. Rose from an Austrian paper hanger to Fuehrer of the third Reich. Became Chancellor in January, 1933. He organized the Nazi movement in 1921 and went to prison for a time after his ill-fated "putsch". When Von Hindenburg died, Hitler assumed dictatorial powers. Ignored treaty of Versailles. Took over Austria, Sudetenland, Moravia-Bohemia. Established protectorates over Bohemia and Moravia. Annexed Memel. Joined Italy in forming an axis. Formed non-aggression pact with Russia while Britain and France were negotiating with that country for military alliance. Took severe action against Jews. As his troops pushed farther into Polish territory, the Fuehrer left for the front to lead them and predicted victory within few weeks.

Colonel Joseph Beck, Polish Foreign Minister since November, 1932, is 44-years-old and a follower of the late Marshal Pilsudski, Poland's hero. Was an artillery officer when Pilsudski shifted him to foreign office. Negotiated non-aggression pacts with Russia and Germany in 1932 and 1934, respectively. During Czecho-Slovak crisis. Beck sided with Germany and gained a 375-mile slice of Czecho-Slovakia. But after the "peace of Munich" he veered away from Paris.

Edouard Daladier, Premier France, is 55. He was a history teacher before the Great War, from which he emerged as a Lieutenant. Became Premier April 10, 1938. Previously had been right-hand man of Edouard Herriot and had served in three cabinets. During emergency of recent months he has been vested with dictatorial powers. Leads France to war as ally of Britain Known as "wild bull of the Camargue."

---

# Poland Embassy Charges Germany Used Poison Gas

London, Sept. 5—(CP)—The Polish Embassy here said it had received official confirmation from Warsaw that German planes had dropped poison gas during raids on Polish territory.

The Embassy's statement follows:

"It is officially stated that German bombers dropped asphyxiating bombs and many people have been injured and burned. There were particularly many casualties among children although the exact number has not been established so far.

"Enemy warplanes dropped little balloons filled with poison gas which were collected by children in the streets. An analysis established they were filled with yperite yellow cross gas. The presence of such balloons was also established at another place, but in that case the contents were different. Examination showed they were filled with an unknown gas and provided with electric batteries.

"Reports of gas attacks on the civilian population are causing grave concern to authorities in Warsaw. Telegrams from Silesia asked for immediate dispatch of supplies of serum phials against corrosive gas injuries.

"During the evacuation of certain frontier regions, the German army opened fire on the evacuated population, who were pursued by planes and bombed. A medical ambulance marked with red crosses easily visible from the air was machine-gunned by attacking planes.

"A German warplane flying over the suburban district of Belchatow opened fire on a group of workers in the fields. German bombers dropped three bombs on the convent of the Immaculate Conception, where school girls are situated.

"There were casualties, but the extent remains unknown."

---

# Consul General For Germany In Canada Remains

Ottawa, Sept. 4 (CP)—Dr. Erich Windels, German Consul General remained at his post here today awaiting whatever instructions may come to him as a result of the outbreak of war between the British Empire and Germany.

Dr. Windels said he had received no word from the Canadian Government and he was not sure whether he would be instructed to leave before Parliament formally declared war.

"They will act as is their duty," he said in reply to a question about other German Consular officials in Canada and Consulate staffs.

In addition to the Consulate General here German Consuls are located at Montreal, Toronto, Winnipeg and Vancouver.

### 500 Newspapers Selected by Medicine Company in Advertising Campaign

A striking new advertising campaign for Lydia E. Pinkham's Vegetable Compound, inspired by the results of a series of scientific medical tests conducted by the Lydia E. Pinkham Medicine Company, is being launched in approximately five hundred daily newspapers and over three thousand weekly newspapers in the United States and Canada commencing September 3, 1939.

The newspaper campaign will be supplemented by a radio campaign over a national network of 60-odd stations and will commence Sept. 25th. A magazine schedule which will round out the advertising picture has not yet been announced.

The theme of the campaign will be "how thousands of women have been able to get new energy." This theme is based on actual medical tests begun in 1938.

Although the formula for the compound has been constantly tested and improved keeping strides with advancements in medical science ever since its inception (for the past thirty years the Pinkham Medicine Company has maintained an outside laboratory for the purpose of testing, checking and improving ingredients and processes); this was the most exhaustive and comprehensive series of experiments ever conducted by the Company.

These studies were under the general supervision of Dr. James C. Munch who was in charge of the Pharmacological Laboratory of the United States Bureau of Chemistry for seven years, and for the past fifteen years he has been Consultant Pharmacologist for the Bureau of Biological Survey of the United States Bureau of Agriculture. He is a member of the Revision Committee of the United States Pharmacopeia and the National Formulary.

Disinterested experts of the highest qualifications, serving under Dr. Munch, testing the products on laboratory animals and human patients unaware of the product used, conducted the experiments. These clinicians are all Doctors of Medicine specializing along the lines of these particualr studies. Research was conducted in the three cities of Baltimore, Philadelphia and New York.

The researches definitely corroborated authoritative opinions long held with regard to the ingredient herbs and drugs such as Viburnum, Gentian, Aletris, Helonias, Cimicifuga, Senecio, as well as Vitamin B and iron. Of particular satisfaction to the Pinkham Company was the fact that they fully confirmed the written conclusions of the hundreds of thousands of women who have written to the Lydia E. Pinkham Medicine Company during the past sixty years.

These points, and others, are stressed throughout the copy and the result is a series of powerful and convincing advertising messages, comprising a smashing campaign, and one of the largest Pinkham campaigns in recent years.

# 'Athenia In No Way Armed' Winston Churchill's Statement

### General Scheme of Convoy System Will be Brought Into Operation

### OFF NORMAL TRACK

London, Sept. 5—(AP)—Text of the statement of Winston Churchill, First Lord of the Admiralty, concerning the sinking of the British liner Athenia:

I regret to inform the House that a signal was received by the Admiralty about 11 p.m. last night (6 p.m. EDT) giving the information that the SS. Athenia had been torpedoed about 200 miles off northwest Ireland at 8:59 p.m. (3:59 p.m. EDT) last night.

Orders had already been given by local authorities for destroyers to proceed to her assistance and after midnight four destroyers were proceeding at a high speed to the position and should have been near the position about 10 o'clock (5 a.m. EDT) this morning.

A further signal was received at 1 a.m. (8 p.m. Sunday EDT) stating that there were 1,400 on board and that the ship was sinking fast.

**Left Saturday Night**

The Athenia, a steamship of 15,000 tons of the Donaldson Line, had left Liverpool on Saturday evening before the declaration of war and had been ordered to steer off her normal track. She would have been steaming at about 15 knots.

Among the 1,400 on board were over 300 citizens of the United States of America. It will be recollected that Germany agreed to abide by the terms of the London naval treaty in perpetuity and she was among the first power to do so.

These articles state that the following points were accepted as establishing international law:

Except in the case of persistent refusal to stop on being summoned or on active resistance to search, a warship may not sink or render incapable of navigation a merchant ship, without first placing the passengers and crew in a place of safety.

For this purpose a ship's boats are not regarded as a place of safety unless the safety of the passengers is assured by reason of weather conditions, proximity to land or the presence of another vessel.

**Shipping Diverted Since Aug. 26**

Since the 26th of August all British merchants ships in the Atlantic have been diverted. Orders have been given for the institution of a convoy on one route since the war was declared.

Of course it will take a little time to bring the general system of convoy into operation. That is being pressed to the utmost.

A message has been received in the Admiralty this morning from the master of the Athenia stating that the passengers and crew, except those killed by the explosion, had taken to the boats and had been picked up. This fortunate aspects does not alter the fact that in no circumstances can open boats 200 miles from land be regarded as safety.

I need scarcely say that the utmost endeavors will be used to employ all means of escort to the fullest capacity and to adopt such other methods as may be necessary for vessels which cannot be convoyed.

**Convoy System Operating**

We have every belief that the convoy system will be brought into complete operation at an early date.

Answering a question, Mr. Churchill went on:

---

# Germany Denies Responsibility For Sinking Athenia

London, Sept. 5—(CP via radio) —A German news agency release given out here by Baron von Helsicker of the German diplomatic staff denied Germany was responsible for the sinking of the liner Athenia.

The British admiralty announced the ship had been torpedoed with 1,347 passengers aboard.

The release of the German news agency included this statement:

"We can only say that in accordance with the definit instructions of the Fuehrer, the German armed forces are doing nothing contrary to international law and treaties signed by the Reich."

---

# Shaw Unhappy About Closing Of All Theatres

London, Sept. 5—(CP)— George Bernard Shaw charged in a letter to The Times today that the closing of theatres and movies was "a masterstroke of unimaginative stupidity."

The government issued the closing orders as an air raid precaution following the war declaration.

The playwright asked:

"What agent of Chancellor Hitler is it who has suggested that we should all cower in darkness and terror 'for the duration'?"

"Why, brother soldiers, why? should we be melancholy, boys?"

What the Government Does to Help the Public Get Correct Weight and Measure

THE administration of the Weights and Measures Act is in the hands of the Weights and Measures branch of the Department of Trade and Commerce at Ottawa. This entails the following responsibilities:

1 *To approve all types of devices used for weighing and measuring.*

2 *To see that adjusting mechanisms which "true-up" scales or measures are sealed up after adjustment to prevent any tampering that would render the device false.*

3 *To see that machines are so constructed that the public can observe if the weight or measure is correct.*

4 *By regular inspection to see that machines will weigh or measure accurately.*

5 *To make certain tests to provide against the dishonest use of an accurate machine.*

6 *To reject for repair or adjustment any machine found incorrect.*

### MARRIAGE NOTICE

BARTON-WILSON—On Sept. 2nd, 1939, at Christ Church by the Rev. G. Wright, Rosmond Carol, daughter of Mr. and Mrs. F. F. Wilson of this city to Stanley G. Barton, son of Mr. and the late Mrs. Barton of Chatham, Ont.

s5-1t

Miss Nancy Hunter has returned home after holidaying at Point O' Woods, Long Island, and New York City.

Mr. W. H. Campbell, Jr., of Detroit, Mich., is in the city on a visit to his father, Mr. W. H. Campbell, and his grandparents, Mr. and Mrs. George Campbell, George Street.

Miss Nellie Minore who has been visiting friends in the city left for her home in Lindsay today.

Messrs. Albert and Alfred Barton of Falconbridge spent the week-end visiting friends in Madoc and Belleville.

Messrs. George Tett, Frank Carsth and Robert Kennedy of Hoboken, N.J., spent the holiday week-end with Mr. and Mrs. F. G. Kennedy, Foster Ave.

Mrs. Lottie Jackson, 139 Church Street, has returned to the city after a motor trip through several States in the United States and attending the World's air. She was accompanied by her niece, Miss E. L. Rush of Toronto.

Mr. Jack Sherry, Lewis Street, is spending a few days in Toronto.

Mr. Raymond Carr, London, spent the week-end with his family, Chatham Street.

Mr. and Mrs. John Mullins of Windsor, accompanied by Mrs. C. Ryan and son, John, of River Cunard, are visiting relatives in the city.

Mr. and Mrs. Claude B. Farnham and sons, Bain and Bobby, have returned from Ayr where they attended the funeral of Mrs. Farnham's grandfather, the late John Abbey. Mr. Abbey was Ayr's oldest resident, having celebrated his ninety-sixth birthday in May.

# Weddings

### SANSOME—WARREN

Deer Park Church, Toronto, was the scene of the wedding Saturday evening of June Lansdowne Warren, daughter of Mrs. Warren and the late J. T. Warren to Arthur Henry Sansome, son of Mr. and Mrs. E. D. Sansome of Jasper, Ont. Rev. Kingsley Joblin officiated at the ceremony.

The bride's only attendant was Miss Marion Bailey of Toronto, and Mr. Arthur McDonald of Toronto was groomsman.

Mr. and Mrs. Sansome will reside in Toronto.

### TIBBEL—BRUMMEL

At the home of the bride's parents, Massassaga, the wedding took place yesterday afternoon of Rhoda Florence, daughter of Mr. and Mrs. Marshall Brummel, Massassaga, Prince Edward County, and Mr. Herman Andrew Tibbel, son of Mr. and Mrs. Hugh Tibbel of Algoma district. The ceremony was performed by Rev. J. D. P. Knox, 104 Moira St. West, Belleville.

Miss Pearl Brummel and Mr. Marshall Brummel, sister and brother of the bride were the attendants.

Luncheon was served to a large number of guests. Mr. and Mrs. Tibbel will reside on the groom's farm in Muskoka. The bride, a graduate of Massassaga Public School and Belleville Collegiate has been a successful teacher for several years.

### FITZGERALD—KNIGHT

A pretty wedding took place at the residence of the officiating minister, 162 William Street, on Saturday evening at ten o'clock when Alice Mildred, daughter of Mr. and Mrs. Charles Albert Knight of Foxboro, became the bride of Mr. Albert Nelson Fitzgerald, son of Mr. S. F. Fitzgerald and the late Mrs. Fitzgerald, West Lake. Rev. Claude T. Olmstead of Victoria Avenue Baptist Church performed the ceremony.

The bride was attired in Alice blue, with corsage of Talisman roses, and was attended by Miss Eileen Phillips who wore navy with white accessories and corsage of pink roses. Mr. Freeland Fitzgerald, Stirling, brother of the groom, was groomsman.

A reception was held at the home of the bride's sister, Mrs. C. H. LaRue, Herchimer Avenue. Mrs. Knight, mother of the bride, wore an ensemble of royal blue.

After a short honeymoon in Toronto, Mr. and Mrs. Fitzgerald will reside in Belleville.

### BLAKELY—McCANN

A quiet but very pretty wedding was solemnized at Holloway Street Church at three o'clock on Saturday afternoon, September 2nd, when Marion Ida, daughter of Mr. Preston McCann and the late Mrs. McCann, Madoc, became the bride of Leslie Leodell, son of Mrs. Blakely and the late Mr. William Blakely, Madoc Township. Rev. Royal E. Newman officiated at the ceremony.

The bride looked charming in a street length frock of white sheer with white accessories, and carried a bouquet of Butterfly roses, delphiniums and maiden's hair fern. She was attended by her sister, Ruby, who was attired in white flowered taffeta with white accessories.

Mr. Stafford Cosway acted as groomsman.

The groom's gift to the bridesmaid was a leather correspondence folder; to the groomsman a leather billfold.

The happy couple left on a honeymoon to Kingston, Ottawa, and other eastern points, the bride travelling in a Capri rose frock with matching topper coat and navy accessories. On their return they will reside on the groom's farm in Madoc Township.

# WEDDING HELD IN LEGISLATURE

### Government Employee Called to Join Colors but Marries First

Toronto, Sept. 5—(CP)— First wedding ceremony ever performed in the Ontario legislature chamber was solemnized today to permit the marriage of a young soldier before he rushed off to join his regiment.

Robert Gregory, suddenly summoned to join the ranks of the Royal Regiment of Canada, hastily called his "childhood sweetheart" Miss Marguerite Clarke. They gathered up a few friends and relatives and dashed for the parliament buildings to obtain a special permit from F. V. Johns, Deputy Provincial Secretary.

Meantime friends called Rev. G. S. Scovell, Anglican rector, to meet them at the parliament buildings. Johns suggested the legislative chamber as the most convenient place since, after the ceremony Gregory could run straight down University Ave. to meet his regiment at the armories.

The rector stood on the Speaker's dais to read the marriage lines and the register was signed on a desk of one of the members of the Conservative opposition. A few cleaners and workmen preparing the chamber for the approaching special session suspended their activities to provide a "congregation" and reporters and telegraph operators looked on from the press gallery above.

# The Stars Say—

For Wednesday, September 6

By GENEVIEVE KEMBLE

A DAY of swift-moving events is read from the predominant planetary directions. There is a probability that finances will be a paramount issue. Those in big business, who may be ready with a few obstacles, will be friendly and disposed to support projects that can "stand up." A tendency to "fly off the handle" in crucial moments would prove perilous, putting probable favorable decisions in jeopardy. Shun rash, impulsive and over-aggressive tactics and all should thrive. Be discreet with social affairs.

Those whose birthday it is may be prepared for a year of much stirring activity, perhaps in the effort to put over cherished plans or important programs, where the endorsement or financial support of those of prestige and power may be required. Such will be ready and willing to recognize meritorious propositions, but if impediments arise, nothing can be gained by disputes, strife, rash or impetuous conduct. These superiors may have to be placated, or compromise may be needed. Prudent social approach may be profitable.

A child born on this day may be efficient and ambitious, although disposed t owin its objectives by force, aggressiveness or ruthless measures. With early discipline and proper sense of proportion, it should make a fine success of its life.

### MAY CONTINUE SOCCER

London, Sept. 5—(CP Cable)—English soccer authorities are hoping that the sport will not be abandoned entirely despite suspension of professional league activities announced yesterday. In well-informed quarters it is said there is a possibility that local leagues will be formed in various districts.

WHY THE HOT SPELL COST HIM THE ONE JOB HE WANTED
DON'T FEEL SO BADLY ABOUT IT, JIM.
BUT I CAN'T UNDERSTAND IT! LAST WINTER WHEN THEY SPOKE OF OPENING A FLORIDA OFFICE, THEY SAID THEY WOULD MAKE ME MANAGER
I KNOW IT'S A BIG DISAPPOINTMENT. BUT IT ISN'T YOUR FAULT, JIM!
MAYBE IT IS MY FAULT. I'M GOING TO ASK THEM
NEXT DAY
IT'S NOT THAT WE DIDN'T THINK YOU CAPABLE.. BUT YOU SEE, THE MANAGER OF OUR FLORIDA OFFICE WILL COME INTO CONTACT WITH MANY OF OUR MOST IMPORTANT CLIENTS.
YES?
WELL, YOU'RE NOT ALWAYS AS CAREFUL AS YOU MIGHT BE, JIM... I MEAN IT'S SO EASY TO OFFEND.. ESPECIALLY IN THIS HOT WEATHER ...MIND IF I SUGGEST LIFEBUOY?
THANKS TO THE CHIEF'S HINT ABOUT "B.O."—HERE WE ARE ON OUR WAY TO THAT FLORIDA JOB!
YES, BUT THE REAL THANKS GOES TO LIFEBUOY
LIFEBUOY
I COUNT ON LIFEBUOY TO KEEP ME FRESH AND DAINTY...EVEN IN HOTTEST WEATHER.

Says INA HOLMSTROM, SUCCESSFUL YOUNG BUSINESS WOMAN, of St. Paul, Minn.:

"I'm in a whirl all day, and I wouldn't dream of depending on ordinary soap to keep me fresh. No ordinary soap stops 'B.O.' as Lifebuoy does. And when I get home after a tiring day, nothing picks me up as much as my soothing, sudsy Lifebuoy bath!"

Everybody perspires—especially on hot days! Thanks to its exclusive purifying ingredient, Lifebuoy in your daily bath keeps you safe from "B. O." *Try it!*

### PRESENTATION

Last week a delightful evening was spent at the home of Mr. and Mrs. C. E. Brintnell, when Miss Fern Patterson, bride of the month, and her Sunday School class were entertained.

Amusing games and contests were played on the lawn until 9.30 when a bon fire was built and wieners and corn were roasted. After coffee had been served the hostess invited them into the dining room where more games were played. After humorous prizes had been distributed they were taken into the living room for the last contest.

The room was decorated with a white bell and streamers containing confetti, place cards were used in seating the guests, with Miss Patterson, their guest of honor, seated beneath the bell. Each contestant contributed to the program that opened with community singing. Miss Hazel Hicks concluded the contest by reading the following address, while Miss Irene Haines made the presentation, by wheeling in a miniature buggy containing twelve beautiful china cups and saucers.

Dear Fern:
You've guessed by now our little scheme
I surely thought you would
But just to prove you taught us to do the things we should
You taught us to be blithe and gay
You taught us of that better way,
To do God's will while here below
And kindness unto others show.

An ardent wooer, Don has been
We realize with gladness
We hope he sticks through thick and thin
With never any sadness.

Upon life's sea we some times find
Bits of stormy weather
Your barque will brave the highest waves
If you will row together.

All this advice you do not need
It's older than creation
But in this novel way, we'd like to make our presentation.

Within these little gifts we tied
Our deep love and affection
Don't do like Maggie Jiggs
And fire them in each direction.

When unexpected company comes
You will not need to fuss
Just take these down from off the shelf
And kindly think of us.

We now extend good wishes
Prosperity galore
A long and happy wedded life
We cannot wish you more.

Signed by your Sunday School class and Evelyn Whitney.

Miss Patterson replied in her capable manner. The last contest had surely been a surprise. She thanked them for their lovely gifts and hoped they had received some good that would always remain with them as it had been a pleasure to be their teacher.

She thanked Mr. and Mrs. Brintnell for arranging the party for her.

Mr. Don Williams of Stirling, who was especially invited to the party, voiced his appreciation of the kindness shown his fiancee, and extended all an invitation to their home. All sang "For they are jolly good fellows" after which Miss Hicks sang "You're the only star in my blue heaven."

Mrs. Brintnell served an ice cold drink and wafers, later all departed wishing Don and Fern a happy and prosperous future.

# Scholarships Won By St. Michael's High School Pupils

Three scholarships have been won by pupils of St. Michael's High School at the Upper School examinations this summer.

Miss Anna Moher has been awarded a scholarship valued at $150 offered by St. Joseph's College; also the first Josephine Gaukler Memorial Partial Residence Scholarship offered by the Ursuline College (value $150).

Miss Ruth Belair has been awarded the second Bishop of London's Partial Residence Scholarship, also offered by the Ursuline College and valued at $150.

### 35 POUND L. TROUT CAUGHT

Meaford, Ont., Sept. 5—(CP)—Edward Brown of St. Thomas caught one of the largest lake trout ever taken in Meaford Bay when he landed a 35 pound fish measuring 42 inches Labor Day.

The fish put up such a fight the engines of the 35-foot motor launch had to be shut off until the trout was landed with the assistance of Guide James Bardeau.

**How Women in Their 40's Can Attract Men**

Here's good advice for a woman during her change (usually from 38 to 52), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells.

Just get more fresh air, 8 hrs. sleep and if you need a reliable "WOMAN'S" tonic take Lydia E. Pinkham's Vegetable Compound, made *especially for women*. It helps Nature build up physical resistance, thus helps give more vivacity to enjoy life and assist calming jittery nerves and those disturbing symptoms that often accompany change of life. Pinkham's is WELL WORTH trying.

# Current Offerings at Belleville Theatres

**Advance Information on Screen Offerings Supplied by Theatre Managers.**

### AT THE BELLE

### "LADY OF THE TROPICS"

Robert Taylor, and Hedy Lamarr, the most talked-about woman in motion pictures today, arrive as the newest and most fascinating romantic team of the screen in "Lady of the Tropics" opening next at the Belle Theatre.

For the first co-starring picture for two of the most dynamic personalities to skyrocket to fame in motion pictures in recent years, a love story was chosen that has been elected as ideal for their respective abilities, with Taylor seen as a young American adventurer and Miss Lamarr as a mysterious beauty of the East.

The setting of the story, written especially for the new team by Ben Hecht, takes place in the heart of the Orient, where wanderers of all races, irrespective of caste, meet and mingle, seek love and sometimes die. As the love between Taylor and Miss Lamarr progresses, it takes them to the colorful harbor of Saigon, the "Paris of the East", along its teeming river docks, into the interesting quarters of the natives, their cafes and shops.

Settings faithful to the country also include the more fashionable cafes, hotels and government buildings where mixed society meets, from whence the interest of two leading characters hold for each other ripens within the mystifying ruins of the great enigmatic temple of Angkor Wat, shrine of a forgotten race only recently torn out of the jungle by French explorers.

Taylor plays young Bill Carey, penniless American, who meets and falls in love with Manon, a beautiful half-caste, portrayed by Miss Lamarr, whose dream is to flee from Indo-China, where no race recognizes her, and become a white woman. Joseph Schildkraut, as Delaroch, throws all obstacles in her path because he also loves her, and even her marriage to Taylor by Father Antoine, played by Ernest Cossart, fails to thwart Delaroch in keeping her bound to Indo-China. Miss Lamarr, after Taylor has voiced distrust in her, finds the solution in a tensely dramatic climax.

"Lady of the Tropica", was directed by Jack Conway who last directed Taylor in "A Yank at Oxford." Important roles in the supporting cast are filled by Gloria Franklin from the New York stage, Mary Taylor, the well-known society girl who made her film debut as the star of "Soak the Rich," Charles Trowbridge, Frederic Worlock, Paul Porcasi, Margaret Padula, Grace Hayle, Elise Cavanna, Cecil Cunningham and Natalie Moorhead.

### "Andy Hardy Gets Spring Fever"

The lucky seventh of the Hardy Family series, "Andy Hardy Gets Spring Fever," now closing at the Belle is proof that audiences like these pictures and that Metro-Goldwyn-Mayer is more than keeping up the splendid pace set by the preceding production.

Again Lewis Stone is splendid as the Judge, Fay Holden as Mother Hardy, Sara Haden as Aunt Milly and Cecilia Parker as the Sister, Marian. Mickey Rooney's Andy is but another proof—if one were ever needed—of this young man's rare ability to sway audiences to tears or laughter at will.

### AT THE McCARTHY

### "The Man in the Iron Mask"

Lovely Joan Bennett and handsome Louis Hayward are romantically teamed for the first time in the tense and thrilling story of "The Man in the Iron Mask," the new Edward Small romantic drama of the reign of Louis XIV of France, which is now playing at the McCarthy Theatre. Directed by James Whale, this new production features in its supporting cast such top-notch players as Warren William, Joseph Schildkraut, Alan Hale, Miles Mander, Bert Roach, Walter Kingsford, Marian Martin, Montagu Love and Doris Kenyon.

The story of "The Man in the Iron Mask" is based on the novel by Alexander Dumas and dramatizes the enmity and hatred between King Louis XIV of France and his twin brother Philippe. Until he is about to execute his own brother for treason, the cruel monarch is unaware that he has a twin. Learning the news, he fears that a plot to dethrone him in his brother's favor may bear fruit and he decides to put Philippe out of the way for good. He has him encased in the monstrous iron mask, one of the grimmest forms of torture used in those gory days.

The film brings back to the screen the swashbuckling, fearless Musketeers and introduces several scenes of fencing and swordplay. Portraying the Musketeers are Warren William, Alan Hale and Miles Mander, while Louis' crafty minister is portrayed by Joseph Schildkraut. Miss Bennett, still a beauteous brunette, plays the role of Maria Theresa of Spain, who is engaged to marry the arrogant Louis.

James Whale directed "The Man in the Iron Mask" from a screen play written by Geo. Bruce. John DuCasse Schulze created the settings for the film, and he was assisted by Casey Roberts in gathering the instruments of torture for the chambers of the Bastille. To meet the extraordinary demands for this setting, they had to call upon prop houses, museums and private collectors.

### IN SADDLE AT TEN

London (CP)—Jimmy Taylor was not discouraged at finishing 20th in his first race at Catterick Bridge race track. For Jimmy 68-pound apprentice jockey, is only 10 years old and "wasn't quite last."

### EACH TO HIS OWN VOCATION

By McKeown's Drug Store

A banker might paint his house, a jeweler might build a house, a housewife might repair her gas range. They might—but seldom do. Such tasks are consigned to experienced artisans specializing in those fields.

How much more important it is to engage the services of a medical doctor when your health needs rebuilding or repairing.

You can secure a set of plans for a house, or directions for repairing a gas range, then by carefully following those directions turn out a job that has all the necessary requirements to insure satisfaction.

Self-medication, without years of university training and practical experience, is something else. Our intricate, internal organs and their many reasons for functioning—properly or otherwise — make it absolutely imperative that an experienced physician be called when body building or repairing is needed.

It is also true that only a qualified pharmacist should be permitted to fill the doctor's prescriptions.

# British and French Given No Choice Says London Papers

London, Sept. 4—(CP)— The Times, only newspaper in London still clinging to the tradition of a first page devoted to advertisements, announced war had been proclaimed under a two-column headline on its main news page—page eight.

The Daily Mail, which had followed the old custom until today, broke it to put war news on the front page.

"Self-deluded and self-doomed, the Dictator of Germany has given the British and French peoples no choice but to resist and overthrow him," said The Times.

"The alternative that Hitlerism thrusts upon them is a surrender to organized brutality and treachery which would extinguish the last lights of freedom in Europe.

"This is Hitler's war. It cannot, and will not, be his victory.

"Every sacrifice is to be preferred and will be preferred to the least weakening in the cause upon which freedom, justice and law are staked—not for us alone but for every civilized nation in the world."

The Daily Mail headline was:

"We shall prevail."

It was a quotation from the King's speech.

The keynote of the nation's feeling was sounded by an editorial in the Daily Telegraph (Conservative). It said:

"We have entered upon a conflict that may well call for such sacrifices as the nation has never before made in the single belief that the Nazi creed and the existence of freedom for the weaker peoples of the earth cannot exist together: That one must be stamped out if the other is to survive."

The Mail said: "The British race stands squarely behind Chamberlain in unflinching purpose. The calm, impressive tones of our Premier—in what sane contrast to the lunatic ravings of Nazi leaders — spoke for the spirit of this people.

"We enter this great war not in lust for conquest, not in a frenzy of militarism, not in cold anger, but grimly determined to defeat and eliminate the homicide Hitler, and to destroy his brutal and barbaric regime."

### THE GOOD WORKMAN

When a recent speaker referred to the clergyman as members of a luxury profession, he started an argument that is being waged in many a city.

There are some clergymen who can be tagged as luxury men. But these are few. They do not always earn high salaries, but they take life easy. They are indolent and fritter away their time. Being in command of their own working hours, they usually see to it that they do not work much.

Happily those are the minority. Most ministers and priests work hard seven days in the week. Sunday is the big day for church services, but there is all manner of work to be done on the other six days. There is preparation for the Sabbath sermons, visiting the sick, directing meetings of the parish, and an hundred and one odds and ends of tasks that may seem minor in themselves, but which must be done if the church life is to be full.

The good minister is like the good workman in any trade or profession, he is never finished. He is constantly studying and striving to do better. It's hard work, as some of those, who think the minister works one day and rests six, should appreciate.—W. L. Clark, in Windsor Star.

### THE HAPPY TEACHER

If a teacher gets a good time out of life and is happy, her pupils will also be happy and will learn more. This is the assurance from Dr. Percival M. Symonds, of Columbia University. Even beauty aids and dress appeal may yet be part of a new philosophy of glamour in the class room, he says. We are with him in this, at least part of the way.—Victoria Times.

The House completed passage of the military conscription bill and sent the measure to the House of Lords.

Mr. Greenwood in his speech for the Opposition in the Commons spoke of the changed atmosphere in the House in comparison with last evening, when, he said, there had been resentment, apprehension and anger lest delay might end in national dishonor and the sacrifice of the Polish people to German tyranny.

"This morning," he continued, "we meet in an entirely different atmosphere, one of relief, composure and resolution (cheers). The intolerable agony and suspense are over.

# Cardinals Bomb Reds 4 to 0 Picking Up Full Game While Yanks Increase Their Margin

### Darkness Ends Second Game With Teams Deadlocked at 6-6

### PIRATES TAKE TWO

### Giants Capture Fourth Place from Dodgers by Beating Phillies

By BILL WHITE

Associated Press Sports Writer

Philadelphia Athletics and Cincinnati Reds must have a fairly good impression today of how it feels to be victims of an air raid.

The A's were felled twice by the Yankees, 7-6 and 2-0, in Labor Day's most crushing demonstration. The Reds lost a full game in the won-lost column when St. Louis Cardinals bombed them, 4-0, in the first game. The second game was a 6-6 tie, darkness stopping it.

The Yankees, thanks to timely hitting by Frank Crosetti and Red Rolfe and fine pitching by Marius Russo, are 14 1-2 games ahead of the American League pack but the Reds are only four games away from the pennant-hungry Cardinals in the National League.

Otherwise in the National League there were some fancy happenings. The Pirates won, from Chicago Cubs 2-1 and 6-3 as Max Butcher and Klinger allowed effectively.

**Giants Now Fourth**

The Giants captured fourth place from Brooklyn by dumping the Phillies twice, 10-0 and 7-5. Hal Schumacher hurled the first game, and Billy Jurges singled home the winning run in the nightcap.

The Bees and Dodgers divided their twin bill, the Brooklyns taking the first, 5-4, as Ernie Koy homered a potent run in the eighth. The Bees took the second when Sebastian Sisti punched out four of their 15 blows to lead to the 5-2 win.

In the junior loop, Washington Senators defeated Boston Red Sox 7-6 and 6-4, with Joe Haynes and Pete Appleton taking the plaudits with spectacular twirling.

Bob Harris limited Detroit Tigers to five hits in giving the Browns a 3-2 victory in the opener. The second was all square at 5-5 when it got dark.

The Chicago-Cleveland night affair went 10 innings before the White Sox could get the decision, 3-2. An afternoon tilt was rained out.

## Fair Dates for Central Ontario

# JERSEY GIANTS NEARLY HOME IN INTERNATIONAL

### Hold Six Game Lead With Only Seven More Days to Go

### WIN TWO MONDAY

### Royals Move Out of Cellar With Double Win Over Rochester

By The Associated Press)

The pennant race in the International League is, for practical purposes, all over but the shouting. And there'll probably be plenty of shouting in a day or two when the Little Giants bring home their first pennant since 1903.

It's still mathematically possible for Rochester or Buffalo to beat out the Jerseys for the championship. But it isn't much more than that.

Here's how the three leaders stand with just seven days left before the regular campaign ends and the four first division clubs start their playoff battles:

| | W. | L. | Pct. | Behind |
|---|---|---|---|---|
| Jersey City .. | 85 | 60 | .586 | — |
| Rochester .. | 79 | 66 | .545 | 6 |
| Buffalo .... | 81 | 68 | .544 | 6 |

The Little Giants added two full games to their lead yesterday when they defeated Newark Bears 8-1 and 6-0. Johnny Wittig set the 1938 champions down with six hits in the opener and Roy Joiner then hurled a three-hitter.

Meanwhile, Buffalo dropped out of second place by losing a doubleheader to Montreal, 5-4 and 10-5, while Rochester split with Toronto, losing 5-1 and then winning 1-0. Those two doubleheaders also served to move Montreal's Royals out of the cellar, putting them a games ahead of Toronto.

Syracuse regained undisputed possession of fourth place, breaking a tie with Newark, by trimming Baltimore Orioles, 5-3, after losing the first game, 7-3.

# CORNWALL BISONS MAKE PLAYOFFS

(By The Canadian Press)

The business of declaring a champion from four teams was all that remained on the table in the Canadian - American Baseball League as four other clubs disbanded after conclusion of the fourth season of the class C circuit.

The semi-final playoff round, scheduled to begin on two fronts Thursday, will be decided in best-of-seven-games series. The pennant-winning Amsterdam Rugmakers are matched against second-place Oswego Netherlands while Rome Colonels and Cornwall Bisons, third and fourth place clubs, play off.

Rugmakers, long assured of finishing first, concluded their regular season with a double victory over seventh-place Gloversville Glovers yesterday. Playing at Amsterdam they won the first, 4-3, on Johnny Bianco's seven-hit hurling and repeated, 5-2, in the nightcap.

The second-place Oswego finished on a sour note meanwhile when they lost, 3-2, to fifth-place Ogdensburg Colts. The game was called because of rain after six innings. Bob Merriam, called for spring training by Montreal Royals hurley the victory.

In the only other game, the cellar dwelling Utica Braves drew a victory in their final start when they whipped Rome, 5-3, at Utica in a night game. It marked an even division of the day's spoils, however, as the Colonels had defeated Braves, 4-3 at Rome in the afternoon.

Cornwall and Ottawa were rained out.

**TILDEN AGAIN**

Leicester, England (CP)—There is no holding "Big Bill" Tilden. The veteran United States tennis star played Lester Stofen before 8,000 spectators but was forced to retire with the score 6-3, 14-14 against him.

## *District Lawn Bowlers Will Hold Tournament for Red Cross*

Although no person in Canada likes war, there does come a time in the lives of free people when war and its horrors are thrust upon us. Such a catastrophe occurred over the week-end as the world full well knows. Marching side by side with those in war can always be found the Red Cross, and the Canadian Red Cross is no exception.

Yesterday during the progress of the annual men's trebles sponsored by the Belleville Lawn Bowling Club, it was announced that a district mixed doubles lawn bowling tournament would be held at the Belleville Lawn Bowling Club on Friday of this week, the proceeds of which will be given into the hands of the Canadian Red Cross. Sport and its following in Canada has always been foremost when the spirit of patriotism is requested and yesterday's announcement speaks well of tht lawn bowlers of Provincial District No. 15.

**President Takes Hand**

President Frank Correll, of the Belleville Club, and Dr. Carleton, Provincial Lawn Bowling executive member from Stirling, were two of the prime movers of the proposed mixed rinks lawn bowling tournament, to which the members of all lawn bowling clubs from Kingston to Peterborough have been invited. The tournament was made public yesterday, while personal invitations to the lawn bowling clubs at Kingston, Deseronto, Tweed, Stirling, Madoc, Campbellford, Brighton, Cobourg, Warkworth, Hastings Norwood, Havelock and Peterboro were tendered by the Belleville Club.

It is proposed to assess each player one dollar to compete in this Canadian Red Cross lawn bowling tournament from which there are no prizes given, all direct proceeds to be given to the Canadian Red Cross. The public is also cordially invited to assist in swelling the fund, which is hoped to be in excess of $100.00, stated Harvey Stewart and Irvie Hefkey, who are also associated with the tournament.

# AUSTRALIA WINS DAVIS CUP WITH QUIST, BROMWICH

### First Time Since 1914 That Australia Has Won Tennis Honors

### WIN THREE MATCHES

### Quist Disposes of Riggs in Five Sets and Bromwich Beats Parker in Three

(By George Scott Associated Press Sports Writer).

Haverford, Pa., Sept. 5 (AP)—Australia's gallant tennis twosome, successful in their efforts to wrest the Davis Cup from the United States, travelled westward toward eventual war service today.

History repeated itself yesterday for the lads from down under. Just as the Australians of 1914 turned back America, 3-2, as the Great War broke out, so did determined Adrian Quist and John Bromwich come from behind yesterday to defeat Bobby Riggs and Frank Parker for a 3-2 victory before returning home for service in another amed conflict.

Then the Aussies left for the Pacific Coast, where they plan to board the American liner Monterey for Australia Sept. 18.

There were no matches between the war years of 1914 and 1919 and Sir Norman Brookes, President of the Australian Lawn Tennis Association who played on the 1914 Anzac team, refused to venture a guess whether the Australians would be able to defend the cup in 1940.

It was all over but the shouting when Quist turned back Riggs in five bristling sets yesterday, 6-1, 6-4, 3-6, 3-6, 6-4. The Anzac was at his best and after Riggs spent his fire in rallying to take the third and fourth sets, Quist had enough strength to out-stroke the Chicagoan in the fifth and deciding set.

After that, Bromwich, a disappointment in his earlier cup appearances, routed Parker, 6-0, 6-3, 6-1.

"Bromwich and I talked it over Sunday night," Quist said afterwards, "and he promised me if I won he would too."

# KINGSTON RINK WINS CORBIN CUP

### Bowling Rinks from District Take Part in Splendid Tourney

With sixteen rinks in competition the annual Belleville Lawn Bowling Club men's trebles was held on the local greens Labour Day. Although rain terminated the Consolation series, the major event of the day, the Primary for the Corbin Trophy, was won by Ted Green's Kingston rink composed of McCullagh, lead, Topping, vice skip and Green skip.

Rinks from Belleville, Kingston, Madoc, Stirling, Brighton and Norwood competed in the tournament.

In the Primary semi-finals for the Corbin Trophy the rink of Green, Topping and McCullagh (Kingston), defeated the Belleville rink of Vanner (skip, Wesley and Hales 11 to 6 while in the same series the Belleville rink of Walter Belair, Bryant and McGuire triumphed over Sharp, Nelby and Roblin (Brighton) 20 to 3.

In the finals the Green rink of Kingston beat Walter Belair's Belleville rink 20 to 7.

In the Hard Luck series, for rinks failing to win a game in the Primary or Consolation rounds, the Stirling rink of Dr. Carleton, Solmes and Lucas defeated a second Stirling rink of Mallory, Hayworth and Fox by a 10 to 5 count.

In the semi-finals of the Consolation round the Belleville rink of Ab Wonnacott, Frank Correll and Doug Rowe defeated the Kingston rink composed of Jack Derry (skip) Newman and Emberry 18 to 5. The Heagle rink of Kingston won their semi-final round but rain intervened halting the finals in the Consolation series. In an agreed subsequent drawn in the club rooms the Belleville rink of Wonnacott, Correll and Rowe won the honors, with the Heagle, Kingston rink drawing second prize.

# Copenhagen Brigade Retains Trophy

Deseronto, Sept. 5 (Special) — Mere split second held the Copenhagen Fire Brigade from upstate New York from making a clean sweep of the sports program offered as the main event at the international Firemen's tournament here Monday. The classy sports crew from across the line grabbed four of the five events in commanding fashion, and easily defended the E. C. Metcafe trophy, which they won last year. Twelve volunteer fire departments from Northern New York State met for the tournament, but the sports events had competition only from Copenhagen and Dexter.

Chief Max Smith, president of the Dominion Fire Chiefs' Association was on hand to greet the visitors, as were delegations from Belleville and Kingston City fire departments.

## Between the Lines

with
*Ken J. Colling*

When it comes to the exemplification of the Canadian patriotic spirit, the realm of sport in this country was never lacking in this measure. Yesterday the Belleville Lawn Bowling Club held its annual men's trebles, with lawn bowlers present from all parts of Central Ontario. Rain interrupted the tournament temporarily during the afternoon, during which time 'Doc' Carleton, of Stirling, President Frank Correll of the Belleville Club, Harve Stewart and a couple of others got their heads together and in no time they had arranged a special mixed rinks lawn bowling tournament to be held in Belleville on Friday of this week, to which all lawn bowlers throughout the Provincial District of No. 15 (Kingston to Peterboro') are invited. The players will be assessed one dollar each and the entire proceeds will be given over to the Canadian Red Cross. It is estimated that at least $100.00 can be raised, everybody will have a good time and the first move towards assisting the Red Cross will have been begun.

**As Belleville is the most central point, naturally this proposed Red Cross lawn bowling tournament will be held here. The local club can take care of something like 18 rinks, which would mean 72 players, while additional players will be welcomed. The tournament will be played on Friday afternoon and evening and to which the public is invited, and whom also may contribute to the cause of the Canadian Red Cross with their donations. You must remember these lawn bowlers are paying a buck each to play and there will be no prizes awarded the winners, simply the honor and glory of having been the first to contribute to the Red Cross. Invitations have been mailed to Kingston, Deseronto, Tweed, Madoc, Stirling, Campbellford, Brighton, Warkworth, Hastings, Norwood, Havelock and Peterboro'. "We hope every club in the district is represented, but let me assure you that if they are not, the Belleville Club will make up any deficiencies in our district's ranks", predicted President Correll as he invited both the lawn bowlers and public to attend. It's Friday night, remember.**

Harness racing addicts will well recall Wilmer Hillock's good pacer, Lastic Gratton, winning the free-for-all class at the Belleville Fair last week. Along these same lines the Kingston scribe has the following comment to make regarding this splendid pacer—"

With a special award of $50 offered, Lastic Grattan, owned by the Hillock-Aylesworth Stables of Cataraqui, will try for the track record at the Kingston Fair. Lastic Grattan, driven by Wilmer Hillock, established a winning record last year and has built up a remarkable winning record this season. The track record at the Fair Grounds is 2.06, established by the great pacer, Toll Gate. Lastic Grattan has bettered 2.06 on other tracks and its owners have hopes of breaking Toll Gate's time here. Toll Gate made the mark in a special race against time while Lastic Grattan will run in regular competition.

**Efforts to open the Cobourg-Belleville intermediate O. B. A. second round playdowns here tomorrow fell through yesterday, as Cobourg wanted a twilight game. However, this evening we have the Toronto Softball Association junior winners at the Flats versus Cy Young's good Belleville nine. The "milkmen" eliminated Oshawa by playing some good softball and continuing might beat Toronto just as handily. On the heels of this important game we find the Peterboro-Belleville second round intermediate O. A. S. A. game slated to be played here Wednesday night. The Liftlock City nine beat Bawden and Company in their first meeting and it's win—or else for the "Oilers" the next time out.**

The following hockey chatter was the exclusive scoop of the Peterborough scribe. He says—"

"Roy Covert of Oshawa may play hockey in Washington this winter, for the new club in the U. S. eastern amachoor loop. Same circuit includes Pick Hines' good Baltimore Orioles where Bill Calladine and Ned Vitarelli performed so well last season. And where Bun Kingdon may join these local chaps next frosty spell. Pick had a chance to coach the Washington crew but he's doing right well as manager of the Baltimore rink and coach of the club. Covert got his puck start in Belleville, then played for the Petes, and finally moved on to Oshawa. A good forward, and he'd do okay in that ice setup, if he decides to cash in on the invite."

**Luke Sewell, who's been around quite a while, picks this all-time team of the players he's seen: Cobb, Speaker and Ruth, outfield; Ossie Bleuge, Gehringer and Sisler, infield; Grove, pitcher and Schalk, catcher. He doesn't think he's seen a shortstop worth all-time rating.**

Miss Helen Stephens, famous Missouri sprinter, who holds the 100-metre and 200-metre world records for women, can cover eight feet in a single stride. She is 20 years old and weighs about 155 pounds.

Throughout the years of the old C.O.B.L. Peterboro always was very much in the league race during the regular season, but once they hit the play-offs, the Liftlock City ballsters seemed to fold up. This year has proven no exception to this long-established rule. The Petes finished well up in the senior Intercity league, but just as soon as the league playoffs got under way the "Murphymen" proceeded to fold up. Yesterday they were virtually counted out of the Intercity playdowns when they lost 6-4 to the Danforth Aces. Incidentally the losers booted the ball for ten errors, which proves they must have thought they were in the old C.O.B.L. moneyed series. Just one of those unexplainable traits of baseball.

**The Bowmanville Royals knotted their O.B.A. series with Oakville, winning 4-3 at home yesterday. Errors and lusty extra base hits featured the game at Bowmanville.**

Staging a remarkable comeback to perform the feat, the Australian Davis Cup team beat the U.S.A. 3 matches to 2. Victories by Jack Bromwich and Adrian Quist in the singles enabled the Aussies to pull victory out of the fire. Immediately upon winning the Davis Cup, emblematic to the world's amateur championship, the Australian Davis Cup team received orders to sail for home immediately.

Sport Spice—The Cincinnati Reds aren't in as National League flagholders yet; yesterday the Cardinals regained some lost ground as they won and tied with the Redlegs....Incidentally the Reds have games in Chicago and Pittsburg enroute home from the result of these road games mean much to the Rhinelanders in their fight for supremacy in the National League .....These hairline finishes and dashes to National league pennant in the past few years have been working too heavily on the minds of the Reds, they do say.... The Yankees gained two full games over the Red Sox yesterday as the latter lost two to the Nationals, while the McCarthymen were winning a brace from the lowly A's, and it looks like the Yankees in a walk.

# GALENTO-NOVA BOUT FAILS TO IMPRESS

New York, Sept. 5—Mike Jacobs, the boss of the Twentieth Century Sporting Club, admits that the Nova-Galento show is "sick" but believes that Galento's following in Philly will rescue the fight in spite of Nova's drabness. He has no doubts about Conn-Bettina being hugely successful.

Mike, who almost forgot he still is promoting in Madison Square Garden, announced that he has arranged a new Garden match, for Nov. 17, the Conn-Bettina winner defending the light - heavy title against Gus Lesnevich.

The promoter conceded the danger of tying up two titles anew in the Lou Ambers-Henry Armstrong welter championship battle, but insisted that he wants to get it out of the way Nov. 1 in the Garden, as provided for in the contracts for the lightweight title fight won by Ambers on Aug. 22.

"Maybe Ambers would like to let Pedro Montanez take his place against Armstrong," he said. "Armstrong will lick him this time. There can't be another title freeze-up," concluded Mike with the finality of a Supreme Court justice handing down a decision.

House in good state of repair. Estate must be closed as soon as possible. Exclusive Agent, Geo. N. Gorman, 166 Front Street, Phone 99, House Phone 687. a26-tf

# TWO BANDITS ROB ST. JOACHIM BANK

### Break Into Building Before Business Hour and Escape With $1,500

### MANAGER COVERED

St. Joachim, Ont., Sept. 5 (CP)—Two bandits robbed the Provincial Bank of Canada here today and escaped with about $1,500. They broke into the bank before it opened for business, and awaited the arrival of employees, whom they forced to open the vault.

First at the bank was the manager, Camille Dicaire. The masked men covered him immediately. While he was opening the vault, his uncle, Philip Dicaire, arrived. He was covered, too.

The bandits got the money, and removing their masks, stepped out. They fled in an automobile.

The automobile was being watched by a farmer, Fred Moison, who said he suspected the car driven had stolen gasoline from his garage during the night. He had summoned a Provincial Policeman, Constable William Bayes.

As the bandits fled, they passed Constable Bayes coming here.

Police are concentrating their search in the Windsor district.

It is the second time bandits have marched into the bank and forced the manager to open the vault and left him gagged and tied with wire.

Two young men on July 29, 1936, tied up Camille Dicaire, and then forced him to unlock the vault. They escaped with $2,100.

## HOOP NETS PLACED IN POSITION NEAR BRIDGE

First hoop nets have been placed in the Bay of Quinte in the marshes just east of the Bay Bridge off the north shore of Prince Edward County. Yesterday long lines of the nets were located in a section of the bay which has for several years been an ideal location for city bait casters in search of pike or fighting bass.

## Germany Issues The Rentenmark

Berlin, Sept. 5 —(AP)— The "Rentenmark", paper bills of one, two and five marks, are to make their appearance again in Germany "to relieve the need for small change."

The bills were created in 1923 during the inflation period following the Great War. Although not redeemable in gold, they had a psychological influence in creating confidence which helped end the inflation.

They are, therefore, sometimes called the "Wonder Mark."

# CABINET MEETS TO DISCUSS PLANS FOR WAR SESSION

### Premier King and Ministers Prepare Recommendation to be Submitted

### NO GENERAL ELECTION

Ottawa, Sept. 5—(CP)— Plans for the emergency war session of parliament opening Thursday are to be discussed at a cabinet council this afternoon.

Prime Minister Mackenzie King and his ministers are preparing a detailed recommendation as to the policy Canada should adopt in the war. This will be presented for approval early in the session.

Mr. Mackenzie King has already announced his government will seek authority from parliament to give "effective co-operation" to Great Britain but he has not given any further details of the government's proposals.

**May be Some Cabinet Changes**

It has been rumored widely that there will be some cabinet changes immediately, including the addition of former Defence Minister J. L. Ralston in one capacity or another. Lt.-Col. Ralston has been in private law practice in Montreal since he retired from politics in 1935.

Possibility of the Prime Minister and his colleagues deciding to seek co-operation of other political parties in the formation of a national or union government is rumored from time to time, but there is no real evidence this is under consideration.

The present government has a record majority in the House of Commons and, under the statute, may delay a general election until the spring of 1941 if it desires. But for the present crisis there would have been a general election this fall.

It is considered quite possible the Prime Minister will carry on as at present until after the regular session of parliament next winter, then either seek re-election in a straight party fight for move for a union government.

**May Have Some Bearing**

Temper of the house at the emergency session opening Thursday may have some bearing on the ultimate course Mr. Mackenzie King and his colleagues will adopt to carry Canada through the war period.

Conservative members of the House of Commons gathered for a pre-session caucus today. It opened with a speech from their leader, Hon. R. J. Manion and was expected to last all day and deal chiefly with the party's attitude to the war and Canada's role.

Members of the council of the Co-operative Commonwealth Federation and C. C. F. members of the House gathered in Ottawa for a meeting tomorrow with the same general purpose.

# OFFER SERVICES IN ANY CAPACITY

### 1,000 Canadians Call at Canada House in London Since War Declaration

By FRED BACKHOUSE

Canadian Press Staff Writer

London, Sept. 5—(CP Cable)—More than 1,000 Canadian men and women have called at Canada House since declaration of war Sunday to offer their services "in any capacity."

Husky college boys and veterans of the Great War alike, either resident here or on holiday, asked to be allowed to help out the Old Country in her hour of need.

Scores of others wrote in from provincial centres. Many of these, stranded by the European war, decided to stay and enlist in the British forces after the attack Sunday on the liner Athenia.

**Many Nurses Apply**

Among the applicants were a number of young Canadian nurses working in the great London hospitals.

Canada House compiled a register which will be submitted to the War Office and other authorities who will then call upon the applicants as they are needed.

Members of the Canadian regular forces will be required to return home. Those on the reserve list of officers have been told to hold themselves in readiness for a possible decision from Ottawa but meanwhile may offer themselves directly for service here if they wish.

**U. S. PLANES SAFE**

Cristobal, Canal Zone, Sept. 5 —(AP)—Authorities today announced three United States Army planes reported missing over Costa Rica had been found with all aboard safe.

# BRITISH CRUISERS

*(Continued From Page One)*

The German merchantman Leipzig steamed into the harbor of Guayaquil, Ecuador, on the west coast, and found the Cerigo, Quito and Bogota, also of German registry, already there. The German ship Engloland anchored in Puerto Colombia Bay.

Unreported recently, but known to have been somewhere along the eastern coast, where the crack German liners Cap Norte and General Artigas, as well as the Schawadenm Afrika, Antonio Delfino and Madrid. No reports were available on movements of British shipping in these waters, either.

All this activity was reminiscent of the early days of the Great War, when German warships sank the British cruisers Good Hope and Monmouth off the Chilean coast Nov. 1, 1914, and Britain retaliated more than a month later by sinking four German cruisers in a battle off the Falkland Islands.

Argentina, Uruguay, Brazil and Chile officially proclaimed themselves neutral yesterday.

# POLISH GOV'T MAY

*(Continued From Page One)*

Dull rumbles, apparently originating several miles away, were heard in the city.

Throughout the morning, the firing of anti-aircraft pieces was heard every few minutes, but there was no official information on their action and it was impossible to ascertain the exact situation.

There was no panic among the peope, but Great Anxiety was felt throughout the city.

German planes made two raids on the capital today. The sky was clear and the September sunshine was brilliant.

The first raid of the day came while reports were being received indicating Polish defence lines had been shortened to stiffen positions now held.

Louis Hayward and Joan Bennett co-stars of the great screen production of the Alexander Dumas classic "The Man in the Iron Mask" now playing at the McCarthy Theatre.

## Dairy Officials Say 12 Cent Price For Cheese Is Too Low

### Notice Received That British Government Stabilizes Price at Above Figure

News that the British Government has stabilized the price of cheese in the Old Country at an average of twelve cents the pound was received by dairy officials of the city this morning with the comment that there will be "little money in cheese for any of the Canadian producers" if this price is to remain.

"The producer should get between fourteen and fifteen cents a pound at least to make the business of cheese profitable at all. He must get almost this much to clear expenses," stated one official. We were of the belief that if the price were to be pegged, it would be set at fourteen or fifteen cents at least, a price that would give the maker some encouragement."

Whether the present fixed price of twelve cents to Canadian makers would result in any reduction of the present cheese make in the district could not be stated by local officials. It is not likely, however, that any drastic curtailment of present production will result, it was added.

## Adrift On Lake For Over 45 Hours

Picton, Sept. 5—Adrift on Lake Ontario for forty-five hours at the mercy of wind and waves, Clifford Seibert, 35, of Rochester, was exhausted when his 18-foot speed boat drifted on the rocks off Salmon Point, in the vicinity of the lighthouse, shortly before noon yesterday.

Seibert left Pultneyville, N.Y., early Saturday in his light boat, headed for Rochester, thirty miles distant. When about half-way to his destination the craft ran out of gasoline and Seibert learned he had been steering with a faulty compass.

During the time he was adrift Seibert had no food or cigarets. "I gave up all hope of being rescued when a freighter passed last night without seeing my distress signals," he declared. "The wind whipped up tremendous waves and my boat bounced around like a cork. I've had enough boating to last me the rest of my life."

Thomas Bowerman, former M.L.A., has a summer home in the lighthouse at Salmon Point. His wife noticed the boat drifting ashore. Seibert was almost unconscious when Mr. Bowerman reached him.

## MAY HAVE TO REVISE PRIZE LISTS OF B. E. CHEESE EXHIBITION

Whether or not any drastic revision of the prize lists of the coming British Empire Cheese Exhibition and Dairy Show to be held in this city November next, will have to be undertaken as the result of the present war in Europe will be decided by members of the Central Ontario Cheesemakers' Association at a special meeting called for Friday evening in the office of J. L. Irwin, federal dairy grader, it was stated today.

The outbreak of war has resulted in cancellation of exhibits of many prize cheese from Australia, New Zealand and South Africa, but it is believed that the majority of Canadian exhibits scheduled will be shown.

As yet no thought of calling off the exhibition is being entertained by officials who have expressed the certainty that the exhibition would be held, even if limited only to Canadian competition.

## POLISH TROOPS RUSH TO HALT GERMAN INVASION

Armed with bayonetted rifles these Polish soldiers are pictured as and carrying full war equipment, they rushed toward the Polish border in an effort to stem the German invasion of their homeland. This picture was radioed from London and then transmitted by Phonephoto. —Phonephoto

# THE GLASS SLIPPER

By Mignon G. Eberhart

"Look here," he said. "I—I'm in a spot. I—don't know why or—but I don't know what to do—"

"What's wrong with you, Steven? You look sick. What—"

"I am sick," said Steven and sat down in a chair and put his face in his hands and groaned.

There was a sharp instant of silence. Rue always thought that Brule guessed what was coming, for he put down his cigarette and went quickly to Steven and put his hand urgently, yet with the gentleness that had always characterized his treatment of Steven, on Steven's bent shoulder.

"Tell me, Steve," he said. "Is it the police?"

"It's the letters," said Steven. He dropped his hands and looked up. And said wretchedly: "I wrote them."

"Steven!" cried Rue in a smothered little gasp and stopped.

Brule didn't say anything for a moment. And Steven cried:

"And I think they're onto it. I wrote some of them at the Town Club. Times I'd be there waiting to lunch with you, I used a typewriter. Brule—what shall I do?"

Brule took a long breath then. He kept his hand on Steven's shoulder and said quietly.

"Why did you write them, Steve?"

"I—Brule, I was out of my head. I—I don't know why I did it. If I'd thought—if I'd had the sense to see what would be the result of it all. . . But I didn't. I only knew that I—I had got to know the truth."

Again there was a moment of silence while Brule looked at Steven and Steven at Brule. Brule said:

"You mean Alicia?"

Steven nodded.

"I thought you might have done it, Steve. Well—you know, now?"

Steven said after a moment, speaking more quietly: "Look here, Brule. I've done you—and Rue—an irreparable injury. I know that now. But then, you see—I'd better tell you the truth."

"I think I understand," said Brule slowly.

"I'd better say it, though. Rue—ought to know." He turned to her, his eyes excited but pleading. "Rue you see, after Crystal's death—well, it was only aften that that I began to wonder if Alicia really loved me. If I hadn't been, in a way, a kind of cat's-paw for her. She—was so different after Crystal died. Well—little by little you see, I began to perceive that she was in love with Brule. That she had been in love with him for a long time; little things I hadn't noticed at the time began to—to take on color and significance. Then one day, here in this house, I heard her talking to Brule. She said—" He stopped and then went on, his manner grown simple and direct. "She said, Rue, that Crystal had been murdered - and that she was afraid to marry Brule because sometime that—murder—would come out. And then where would she be? she said. I—there was more, but that was enough. It—opened my eyes, you see. I didn't do anything about it; perhaps I was afraid to. But I kept thinking about it and wondering and trying to find a clear way out of it. And Brule had married you, Rue, and Alicia seemed to want things to go on with me just as before. She kept putting off marriage, yet keeping me—"

He pushed aside Brule's steadying hand and got up and began to walk about the room, jerkily, stopping now and then to look anxiously at Rue and at Brule, as if there were something he had to convince them about.

Again the thought of time nudged at Rue. But she had to hear what Steven was saying. She had to know what Brule would say, after he'd listened.

Steven went on:

"That was the hellish thing about it, I mean, if she'd said she wanted our engagement to end, that she never intended to marry me—I could have taken that all right. Oh, I know you're both thinking. Why didn't he have it out with her, tell her he knew, tell her—, Brule would have done it, but I—I couldn't. You see," said Steven, pausing in that restless walk to give them each that desperately troubled look, anxious of their belief in his words. "You see," said Steven simply, "I love her. I—that's the whole trouble you see. I love her."

Brule's voice was still quiet.

### CHAPTER THIRTY-TWO

"Had you—any definite evidence that Crystal was murdered?" he asked Steven.

It brought Steven up short. He pushed his hands through his hair, stared at Brule and said: "Good Lord, no!"

"Then why—"

"Why did I write the letters to the police? Why, to bring things to a head, of course. To clear it all up. To"—his hands groped into the air—"to bring it all out in the open so we could see where we stood."

Brule said a little grimly: "Well, if that was your intention, you succeeded."

"I mean, I didn't realize what it meant! I thought the police might just—oh, inquire a bit, stir things up. I couldn't go on any longer as it was, and I—" He stopped and again shouved his hands through his hair and said with a touch of tragedy: "But I didn't know it would be like this."

"No, I suppose you didn't," said Brule gravely. "Well, it's done now, Steve. Forget it."

"Forget it?"

"Certainly. Let the police go on worrying about it. That's their trouble."

"But, Brule, you don't seem to understand. I'm a murderer."

"You—" Brule strode to where Steven stood and caught him swiftly and savagely by the arm. "What do you mean, Steve? You can't mean—"

"I mean I've caused two murders. Two. If I hadn't written the letters," said Steven with the simple reasonableness of a child, "neither of those murders would have occurred. So I'm going to tell the police. All about it. The whole truth—"

"About Alicia—too?"

Steven hesitated, his troubled, dark eyes seeking Brule's.

"Alicia . . . But it's the truth, Brule. Alicia and you . . ."

There was another moment of silence. Then Brule said heavily:

"Oh, yes, it's the truth all right. About—Alicia, I mean. And me."

The truth.

Well, she'd already known it. She hadn't needed confirmation. And Andy would be waiting, and she must leave that house—forever, it would be—before night. Before it was too dark to insure the success of Andy's plan.

Steven had moved. He had taken a step nearer Brule and put his hand, now, on Brule's shoulder. It was the last thing she would have expected Steven to do, yet it was like him, too.

For his hand was obviously a comforting one. He said, "Brule, I understand. Don't worry. I—I'm all right about it now. I've come through the worst of it—the jealousy and all that. It's all clear now. I—I've learned that you have to accept things. Alicia loves you. It's just one of those things; one of us had to lose. And —all those months when I didn't know—well, I understand that now too. You've always been so good to me. Brule; you were always so strong and I was weak, and you — you understood everything. How could you have come to me and told me the truth when you knew how I loved her?"

Rue said brusquely: "I'm—going upstairs—"

"Wait Rue," said Brule. "I want you to hear—"

"I've heard enough." She was at the door. The studio was empty—the side door unguarded.

But Brule caught her almost angrily by the wrist and whirled her back into the room.

"You will listen," he said. "You owe me that much. You've asked for the truth and you're going to get all of it."

She wrenched her wrist from his grasp.

"I've had the truth," she said and looked at him. His face wore its mask, but his eyes were dark and bright with anger. "I'm going," she said and caught herself on the verge of saying, ". . . away from your house. I'll never return. I'll make things easy for you. You can have your divorce. You can marry Alicia—" She didn't say any of it.

She glanced at Steven, standing there so the light fell clearly upon his slender, laggard face, with its sensitive mouth, its high forehead, its look of introspection and the faint, intangible stamp of weakness.

It was only in his music that he had command; life itself and the emotions and problems engendered simply by living were too much for him. Yet was it that he comprehended too much rather than too little?

He said suddenly: "Rue, will you forgive me? It seemed the only way then. I—didn't know what I was doing."

She put out her hand to him. It was a gesture of farewell, but neither of the men knew it. He took it in his own.

She said: "I know Steven." And had gone from the room and was halfway up the stairs before the little phrase proved its familiarity. It was what he had said to her. "I know, Rue."

Meaning, I understand.

### TORONTO STOCKS

(2.15 p. m.)

Toronto, Sept. 5—(CP)—Gains of 3 to 8 points were recorded by the "war stocks" at the opening of Toronto Exchange today and trades were taped out in a steady flow. All groups except the gold, building and bank shares were strong gainers in the first hour and the golds turned up in the second hour to show an index gain of 2 1-2 points at noon. Base metal shares advanced more than 13 points in the index and the industrials more than 11 points. These gains have not been witnessed previously in many years. Western oils advanced 8 points in the index.

Individual senior base metal and industrial shares posted gains ranging up to 11 points. Nickel advanced to 60, up 9 points and smelters firmed 10 1-2. Waite-Amulet, Sherritt, Falconbridge, Pend Oreille and Sudbury Basin added 50 to 80 cents.

Most of the steels advanced 2 points or more and National Steel Car firmed about 8 points. International Pete, the strongest of the senior oils, gained 3 points. Walkers was weak at 34 1-2.

Home, Calgary-Edmonton, Foothills and Okalta advanced 30 to 80 cents and dropped part of the gains under profit-taking. Royalite was up 6 points or more. Wright-Hargreaves firmed from 6.75 to 7.45 for a net gain of 36 cents.

### WALL ST.

New York, Sept. 5 (AP)—A war-boom Stock Market today swept up favorites 2 to more than 16 points.

Opening after the holiday, and for the first time since the European outbreak, steels, oils, sugar, coppers, zincs, aircrafts, farm implements, motors, electrical equipments and chemicals changed hands in blocks of 1,000 to 40,000 shares. Profit-taking occasionally stemmed the tide.

Traders, envisaging huge purchases of all sorts of materials by England and France, as well as by neutral countries, scrambled for stocks of companies expected to benefit by war prices.

Prominent on the upsurge were U.S. Steel, Bethlehem, Anaconda, Kennecott, U.S. Rubber, International Harvester, Standard Oil of N.J., Continental Oil, Armour, Wilson and Co., Calumet and Hecla, Callahan Zinc, J. I. Case, Douglas Aircraft, Curtiss-Wright, Westinghouse, Western Union, Santa Fe, Great Northern, Union Pacific, Dow Chemical, Allied Chemical, Du Pont and American Can.

Jumping 1 to 12 in the curb were Aluminum of America, Gulf Oil, Lockheed, Godchaux Sugar, Humbe Oil, Newmont Mining, N.J. Zinc, Midvale Steel and Jones and Laughlin.

With the exception of a 1-point gain by C.P.R., Canadian issues moved uniformly lower. Fractions to 1 point down were Dome, McIntyre Porcupine, Hiram Walker, Distillers and Lake Shore. In the Bond Market Dominion 4s tumbled 4½ points.

# All Resources Of Ontario Gov't Placed At Disposal Of Federal Cabinet

Toronto, Sept. 5—(CP)— All the resources of the Ontario Government including the services of Cabinet Ministers today were placed at the disposal of the Federal Government for the war emergency.

Following a session of the entire cabinet Premier Mitchell Hepburn wired Prime Minister Mackenzie King as follows:

"Following a meeting of entire cabinet am pleased to advise that each Minister places at disposal of Federal Government his services in any capacity.

"This administration further offers every co-operation in releasing for use of the militia Provincial buildings, lands, or any other asset that you might require, including our entire Provincial Air Service. In regard to personnel am also offering now the use of our six tubercular clinics made up of skilled, trained and efficient doctors and technicians who can serve a very useful purpose in assisting with proper medical inspection of volunteers to Canadian Army. The services of all departments of Government are available to you."

Mr.. Hepburn conferred today with George Ponsford, director of the air service and an aviator in the last war, and it is considered possible the forestry patrol's bases may be utilized to train war fliers.

## Produce Markets

TORONTO BUYING PRICES

(By United Farmers Co-operative Company)

United Farmers Co-operative Co. today were paying the following prices for Toronto delivery:

EGGS—Prices to producers, cases returned basis, delivered Toronto:

## HOG QUOTATIONS

Toronto, Sept. 5—CP)—Stronger prices were made on Hull Hog markets today. Dressedweights rose 20 cents to $9.85 and off-truck bacon liveweights 15 cents to $7.40, London $9.75 plus transportation.

**Dressedweights:** Brantford $9.80 Hull $9.85; Stratford $9.75 plus transportation.

**Liveweights:** Brantford $7.35; Hull $7.40.

## LIVESTOCK

Toronto, Sept. 5 (CP)—Cattle prices were 25 to 50 cents higher and calf prices 50 cents higher in the mid-session trading of the Toronto Livestock Market today. Cattle trade was active. Lamb prices were steady while no sales were made on sheep to establish prices. Hogs were unsettled. There were no cattle held from Thursday.

Receipts reported by the Dominion Livestock Branch were: Cattle 3,420; calves 1,560; hogs 1,220; sheep and lambs 1,460.

Choice weighty steers sold from $6.75-$7 and other quality down to $6.75. Good butcher steers and heifers were $6.50-$6.75 with common selling downward to $5.50. Butcher cows brought $3.50-$5 and canners and cutters $2.50-$3.25. Butcher bulls were $5-$5.50 and bologna bulls $4.50-$4.75. Fed calves made $7-$8.50 with a few reaching as high as $9. Stockers were 50 cents higher at $5-$6 and one load went at $6.50.

Calves of choice quality sold at $9.50-$10 with common selling downward to $5.50. Grass calves were $4.60-$6.

Previous close on hogs was $10.15 for dressedweights and $7.60 for off-truck bacon liveweights.

Few good ewe and wether lambs were $8 but the general lamb market was not established. Sheep ranged from $2-$4.

Montreal, Sept. 5 (CP)—Receipts: Cattle 708; calves 1,676; sheep 2,214; hogs 1,459.

Early sales of cattle were 25 to 50 cents higher, with good cows at $5-$5.25, medium $4.25-$4.75 and common $3.25-$4. Canners and cutters were $2.50-$3. The few early steer sales recorded were close to 50 cents higher. Medium good steers sold up to $6.75 and common around $5.25.

Calves were 50 cents higher. Medium good to good veals sold at $8.50 with an odd top at $9. Medium kinds were $7.50-$8, and fair around $7. Common light kinds made $5.50-$6. Drinkers were $5-$5.50 and grassers from $4-$4.50 with the bulk between $4.25-$4.50.

Lambs were 25 cents higher. Good ewes and wethers were $8. Buck lambs were cut $1 per hundredweight and culls $2 per hundredweight. Sheep were from $2.50-$3.75. Hogs were unsettled, with a firmer undertone. No early sales were made.

## Fair Dates for Central Ontario

# PRESIDENT SIGNS PROCLAMATION OF U.S. NEUTRALITY

Will Go Into Effect as Soon as Secretary Hull Signs Document

EMBARGO ON EXPORTS

Washington, Sept. 5 —(AP) — President Roosevelt signed today a proclamation of United States neutrality in the European war. White House officials said it would go into effect as soon as Secretary Hull also affixed his signature and official seal.

Officials said Hull was expected to sign the proclamation immediately.

Later today consideration will be given a second proclamation, to be issued under the Neutrality Act.

It will put in operation an embargo on exports of arms, ammunition and implements of war to the combatant nations. It also will place restrictions on travel of United States citizens on vessels of belligerent nations.

## Obituary

MRS MARY J. STEPHENSON

After a brief illness Mrs. Mary Jane Stephenson, widow of John Stephenson, passed away at her late residence, 105 Great St. James Street, about noon today.

The late Mrs. Stephenson, who was in her 86th year, was born in England, her parents being the late Mr. and Mrs. John Santer. For thirty years she resided in this city and was well respected. In religion she was a member of the United Church.

Surviving her are three daughters, Mrs. Thomas Morris, Belleville; Mrs. A. Taubman, Toronto, and Mrs. G. Spinks, Toronto; two sons, Mr. Isaac Stephenson and Mr. William Stephenson both of Belleville.

Funeral announcement will be made tomorrow.

# CONSERVATIVES HOLDING CAUCUS

All Unanimous to Cooperate With Gov't. in Participation With Allies

Ottawa, Sept. 5 —(CP)— Hon. R. J. Manion, National Conservative Leader, said today: "We're out to co-operate with the Government in our participation with Great Britain and her allies."

Conservative Members of the Commons, 30 of them, met in caucus today to discuss the war and their attitude toward it. Caucus adjourned at noon to resume this afternoon. Dr. Manion's statement was made to the press during adjournment.

There was no controversy, said Dr. Manion. "We are all united on our stand," he said. The leader read many extracts from The Hansard of the 1914 war session of Canada's Parliament to his followers.

## SALE OF FISHING LICENCES 60 P. C. GREATER THAN IN '38

Tourists with fishing rods arrived in the district from points south of the border in numbers estimated to be at least sixty per cent greater than last year. This is evident by the fact that an estimated sixty per cent more fishing licenses of the non-resident class have been issued by the local office of Geo. Finch, district issuer than during the same period of the preceding year.

The majority of tourists expressed a preference for the well advertised lakes of North Hastings, though recent heavy catches of big 'lunge and bass in the Bay of Quinte have attracted later season visitors to this body of water.

TREASURER'S SALE OF LANDS

In the County of Hastings, in the Province of Ontario

To Wit:

By Virtue of a Warrant issued by the Warden of the County of Hastings bearing date of the Fourteenth day of July, 1939, sale of lands in arrears of taxes in the County of Hastings will be held in Shire Hall, in the City of Belleville, at the hour of Ten o'clock in the morning on Tuesday, the Seventh day of November, 1939, unless the taxes and costs are sooner paid. Notice is hereby given that the list of lands for sale for arrears of taxes is being published in the Ontario Gazette on the Fifth day of August, the Second day of September, and the Seventh day of October, 1939, and that the copies of said list may be had at my office, 228 Church Street, Belleville.

Treasurer's Office this Tenth day of August, 1939.

James W. Haggerty, Treasurer.

# Status Of Armed Force In European War Up To Monday Noon

(By The Canadian Press)

The status of armed force in the European war, as reported from Europe at mid-day was:

1. Poland and Germany were in the fourth day of armed conflict with the only estimate of casualties a Warsaw communique asserting, 1,500 persons had been killed and wounded Friday and Saturday by German air raids;

2. French sources said British planes "bombarded" Germany Sunday night with 1,000,000 propaganda pamphlets. It was the first British air raid into Germany;

3. French "communique No. 1," issued at 6.30 a.m. E.D.T. said: "operations have begun, involving the entire land, naval and air forces." Gunfire from the direction of the German border was heard in Luxembourg.

4. The British liner Athenia, with 1,400 passengers aboard, was torpedoed and sunk 200 miles off the Hebrides early Monday, just a few hours after Great Britain declared war on Germany;

5. Polish cavalry was reported on German soil north of Breslau Sunday night apparently attempting to outflank invading German troops;

6. Germany claimed "complete control of Polish air" and Warsaw reported a series of German air raids on 25 Polish cities today, claiming also that Germans were using gas as well as explosives bombs;

7. Warsaw announced the withdrawal of Polish troops from the important city of Czestochowa under pressure by superior forces.

8. Berlin asserted a German army had crossed the Vistula River and captured Polish fortifications south of Nikolai strengthening an armed stand completely across Pomorze (the Polish corridor); Warsaw, however, denied that German forces had cut through Pomorze;

9. Berlin said German air forces had lost 21 planes, compared with 120 for the Poles, on Friday and Saturday; Warsaw said the Germans lost 64 planes on these days and admitted the loss of 11 of their own Sunday;

10. The Polish military depot of Westerplatte, in Danzig harbor, which Berlin reported captured early in the fighting, was still holding out against assaults;

11. The Greek steamship Kosti struck a mine today in the Baltic Sea and sank; it was the first neutral ship to be destroyed.

# Several Hits Registered

*(Continued From Page One)*

NO PLANES APPEAR

But no planes appeared over the city. Flying high, the German machines were understood to have passed over Charleville in the Ardennes Department of Northern France, near the Belgian border.

Authorities suggested the German planes might have been en route to scout the disposition of French and British forces along the English Channel.

A terse French General Staff communique last night said "contact has been made on the front" with the Germans. French sources said this indicated the French troops had taken a few advance positions, probably under a preliminary artillery barrage. Fighting was reported at a minimum.

Another War Ministry communique today announced simply that "movements develop normally for the entire land, sea and air forces".

KEY POINTS ANNOUNCED

Informed private sources said they believed key points in the French attack were the "Burgundy Gate", between the Vosges Mountains and the Alps just north of the junction of France, Germany and Switzerland, and along the Moselle Valley at the northern-most end of the Franco-German frontier.

Thus far, French and British military activity has followed the most obvious lines: the British sea blockade and attacks against Germany's North Sea ports, and France's advance with its land force to the eastern front and its own fortifications, the 250-mile Maginot Line.

Military observers described the movement of the French army as an attempt at a double flanking attack on German positions along the Rhine, intended to lighten the pressure of Germany's attack on Poland. They said, too, the navy was moving into position in the western Mediterranean to protect essential lines of communication with North America.

A PERFECT BASE

(Many experts recognize the Maginot Line, originally designed to defend France, as a "perfect base" from which France can take the objective.

(By air, France's crack bombers and fighting planes can leave their underground airports behind the Maginot Line and fly to the great German industrial centres of Essen and Dusseldorf within less than an hour; to Berlin in less than two hours.

(Part of the Maginot Line force is a "super-army" of approximately 100,000 trained veterans, ready to move into action at any point with equipment to carry on as an attacking unit.)

# Disorders In Cologne

*(Continued From Page One)*

ALIENS ROUNDED UP

Intense preparations were continued by the government. Several aliens have been rounded up, Sir John Anderson, the new Home Secretary, disclosed.

The fleet, army and air force received messages from the King in which he pointed out their grave responsibilities.

Meanwhile, the reshuffle of the cabinet to increase the efficiency of Britain's war efforts was completed with announcement of the appointment of two ministers.

Ronald Hibbert Cross, merchant banker and Conservative member of Parliament, was named Minister of Economic Welfare; and Lord Macmillan was named Minister of Information. Lord Macmillan served in the Ministry of Informaton during the Great War and in 1933 he was chairman of the Canadian Committee on Banking.

NOT IN INNER CABINET

Although the new appointees occupy key positions in Britain's war establishment, neither is included in the inner war cabinet of nine men.

The British press pointedly contrasted Britan's first war action—the bombardment of the German war vessels—with the sinking of the British liner Athenia Sunday night—which Britain charged to a German torpedo.

(In Berlin German officials denied the Athenia had been torpedoed by a German vessel and said she must have struck a floating British mine. Britain said no mines had been laid in the area.)

Describing the daredevil attack of the British bombers on the German fleet, the Daily Mail said: "This raid on a purely naval objective was a gallant exploit, true to the best British traditions."

The newspaper added: "The sinking of the Athenia shows that Hitler has at once abandoned all pretence of keeping to the last vestiges of humanity and decency which may be observed in war."

The News Chronicle commented: "As far as Britain is concerned, this war has opened in the right way. Last night, the R.A.F. directed their attention to a strictly legitimate objective and bombed the German fleet."

PAPERS REDUCED IN SIZE

London newspapers, reduced to 12 pages to conserve newsprint, published as usual and gave objective treatment to the war news. German communiques were displayed prominently.

# FUEL SHORTAGE FOR GERMANY IS PREDICTED

French Economists Say Shortage Will be Acute Before War Many Months Old

28 P.C. FROM U.S.

Paris, Sept. 5—(CP Havis)—French economists predicted Germany would be faced with a shortage of fuel for its planes and motorized equipment before the war is many months old.

Statistics published by German economic experts have indicated the Reich would require approximately 35,000,000 tons of oil annually in war time compared with about 7,000,000 tons consumed in 1938.

Of the petroleum products used by the Reich in 1938 approximately 2,000,000 tons were produced at home and 5,000,000 tons imported— 37 per cent from Iraq and South America, 30 per cent from Central Europe, principally Rumania, and 28 per cent from the United States.

All deliveries from these nations probably will be halted and the Reich will be obliged to turn to other sources. The Soviet Union, with its vast petroleum resources, would seem to be the answer to this problem, but to serve the needs of the Reich Russia would have to ship its entire production to Germany.

This is improbable for two reasons. The Soviet Union, with its increased industrialization, requires a large percentage of its own oil and has reduced petroleum exports to a minimum. Neither Germany nor Russia has the necessary transportation facilities for handling oil shipments on a large scale.

Recent merchant marine figures indicate the Soviet Union has only 27 tankers and Germany 31. Great Britain alone has 410.

It was said here that the United States, which produces about 175,000,000 tons of petroleum annually, could if necessary supply all the needs of both France and Great Britain.

# Submarine's Role In Wartime Of Highest Importance

By The Canadian Press

Question of the role to be played in the European conflict by the submarine — Germany's chief sea weapon of the Great War—was raised to paramount importance today by the torpedoing of the Athenia.

Then, as now, Great Britain dominated the surface of the sea with an overwhelming array of fighting ships, but the undersea U-boats sank 11,000,000 tons of shipping in an attempt to "starve" England from 1914-18.

It looked as though they might succeed—until the allies established in 1917 a convoy system that cut down the effectiveness of the underwater snipers.

In four years, the Germans lost 203 submarines, but sank 5,408 Allied and neutral vessels.

Today Great Britain has more than double the submarine tonnage of Germany, 71,000 tons to 31,000, but in January it has only 70 submarines built or under construction to the Reich's 71.

This seeming contradiction is explained by the fact the British navy prefers larger submarines of 1,000 tons, or more. The Germans prefer a light submarine of 250 tons.

**France Has 98 Subs**

France has 98 submarines, Italy, 118, and Russia more than any other power, 160.

Although the combined power of France and Great Britain thus would give them a 168-to-71 edge over the Germans, this advantage is made less valuable partly by the fact that German U-boat commanders will have innumerable targets, the British and French relatively few.

Germany probably will keep most of her commercial shipping in the Baltic. The vaster merchant marine of the Allies must risk peril in the more dangerous waters of the Atlantic and the Mediterranean to keep food and war supplies moving to the British Isles.

To recapture Germany's leadership in submarine power, Adolf Hitler agreed in a treaty with Great Britain in 1935 to limit the tonnage of the German navy to 35 per cent of the British navy in all categories except the submarine. Here he insisted on parity.

Hitler denied himself ships of other classes to rebuild his submarine fleet. As a result, Germany's naval tonnage is still far less than 35 per cent of Britain's alone. The Reich fleet is also greatly inferior to the French in tonnage.

## No Wide Fluctuations Permitted in Produce Price Quotations

Montreal, Sept. 5 (CP)—Officials of the Canadian Commodity Exchange announced that effective today price fluctuations in butter, cheese and eggs must not be more than one cent either way from the previous closing price. This step, it was explained, had been taken to prevent undue speculation and will be in effect until further notice.

# 'FIRST SOLDIER'

*(Continued From Page One)*

Germans had said they feared the Poles would blow up mines and steel rolling mills which they said were mined with explosives, but the Poles were said to have been surprised and fled without damaging the valuable property.

**Control Upper Silesia**

Capture of the two towns would give Germany control of the Upper Silesian industrial region.

A United States concern, The American Silesian Company, owns the so-called Harriman-Giesche zinc mines at Katowice.

At the same time German authorities claimed 10 British bombers had been shot down yesterday when they raided the German fleet at Wilhelmshaven and Cuxhaven near the entrance to the strategic Kiel Canal. This was a 50 per cent jump on the previous claim that five of 12 British raiders were destroyed.

**No Damage is Claim**

German officials also declared no damage was done to German warships, despite British statements to the contrary. (In London officials said "severe damage" was inflicted on two German battleships.)

Germany reported capture of the two Silesian cities as Adolf Hitler followed German troops in their invasion of the Polish Corridor.

Hitler entered the zone of military operations at Kulm (Chelmno) on the Vitsula near the border of East Prussia.

The latest report on the German frontier, facing France, timed 3 p.m. (10 a.m. EDT) yesterday, said all was quiet.

Officials added at that time neither the Reich's air force nor navy had made a move except on the eastern front.

**German Planes in France**

(A dispatch from Paris, timed 7:35 a.m.—2:35 a.m. EDT)— today said German planes had invaded France to start air operations on the western front, while scattered fighting took place between the opposed armies on the Rhineland line.)

Twelve British bombers were reported yesterday to have raided two important German North Sea navy bases—Wilhelmshaven and Cuxhaven—but German officials said five of the attackers were shot down. Earlier, British planes dropped propaganda leaflets on Germany and were said to have been turned back by anti-aircraft gunners.

(Exchange Telegraph reported from Zurich, Switzerland, a violent explosion had occurred in a factory at Friedrichshafen, site of the German zeppelin works.)

**No Damage Done**

The announcement of the Wilhelmshaven and Cuxhaven attacks said no damage was done by the raiders.

( British communique acknowledged "some casualties," but said "several direct hits with heavy bombs were registered on a German battleship off Wilhelmshaven. This communique spoke also of an attack on naval vessels at Brunsbuettel, at the entrance of the Kiel Canal, probably the one referred to in the German Cuxhaven report.)

The cabinet defence council, under chairmanship of Field Marshal Hermann Goering, issued a decree introducing war taxes and regulating business practices.

**New Decrees Issued**

The decree provided for:

1. A tax as high as 50 per cent on incomes of more than 2,500 marks (about $1,000).

2. A 20 per cent tax on beer and tobacco.

3. Penalties for destroying or withholding necessary commodities, and for war profiteering.

4. Reduction of "disproportionately" high salaries.

The supreme war command reported war volunteers—youth under military age (18 years and reservists whose classes have not yet been called to the colors—were reporting for service in such numbers that their offers had to be declined momentarily.

Short advance notices to towns along the route of the Fuehrer's journey through the Corridor yesterday were said to have enabled the German population of the "liberated" territory to display swastika flags and arrange joyous receptions.

Cutting across the Corridor between Germany proper and East Prussia, the Pommeranian force which preceded Hitler was said to have completed isolation of Poles in the northern part of the Corridor. The number of Polish troops there was not estimated.

**Destruction Reported**

Widespread destruction of military objectives in air raids was reported, along with the land advances in all sectors of the Polish front.

The communique reported that troops from East Prussia have pushed to Przasnysz, 50 miles north of Warsaw while troops in the south, between the high Tatra mountains and the industrial region, have forged forward toward Karakow, former Polish capital.

Polish cavalry which attempted to invade German territory north of Treuburg was reported repulsed.

(Warsaw reports said Polish lancers had cut through the German frontier north of Breslau after recapturing Leszno and Rawicz.)

Fifteen thousand prisoners have been taken in southwestern Poland, the communique said.

Nurenburg, Near Grudziadz and the East Prussia border, was reported captured.

# Berlin Communique Says Armies Advancing Rapidly

### Rail Communications Between Warsaw and Vital Centres Cut, Says Report

### CROSS VISTULA RIVER

Berlin, Sept. 4 (CP-Havas) — German forces, advancing on four fronts toward the industrial heart of Poland, have repulsed a daring Polish cavalry raid into German territory in East Prussia, an official communique of the high command announced today.

The communique declared land and air operations had successfully cut rail communications between Warsaw and a series of vital centres, including Kutno, Krakow, Lwow, Kelce and Torun.

The communique follows:

"Strong detachments of troops from Silesia and further south are advancing northward up the upper valley of the Tatra River and in the industrial regions the enemy is retreating toward Krakow. A passage across the Visula was forced north of Pless.

"North of the industrial region our troops have pursued the enemy to the Koniepol-Kamiensk line and across the Warta River to northeast of Wielun. They are rapidly approaching Sieradz, from which they are no more than 12 miles.

"Strong detachments of troops from Pomerania have reached the Vistula. Polish troops stationed in the northern part of the corridor have thus been completely cut off.

#### Przansysz Taken

"The German attack against the fortress of Graudens (Grudziadz) has made penetration of the line of forts possible. German troops from East Prussia took Przansysz.

"During Sept. 3 the German air force carried out numerous attacks against important centres of Polish communications and transport. Action of the air force powerfully aided the rapid success of our troops from Silesia. Rail communications between Kutno and Warsaw, Krakow, Lemberg (Lwow), Kielc, and Warsaw and Torun and Deutsche-Eylau are cut. German aviators reported a series of derailments, fires and explosions.

#### Railway Station Destroyed

"The station of Hohensalza was destroyed. An airplane factory at Okecie, near Warsaw, was seriously damaged. Reserve planes held there by the Poles were destroyed. During aerial combat over Warsaw, seven planes and one Polish balloon were shot down. There were no German losses.

"The naval forces also engaged in activity crowned with success. Destroyers opened fire on enemy ships in the port of Hela. Off the Bay of Danzig a Polish submarine was sunk.

"During air attacks on Gdynia and Hela, the Polish destroyer Wicher was sunk and the minelayer Gryf was badly damaged.

"There have as yet been no operations on the Western Front."

Theodore Kordt, German charge d'affaires in London, is seen as he left No. 10 Downing St., home of the British prime minister, after a visit to Mr. Chamberlain, the nature of which was not revealed. The visit took place after German and polish troops were reported to have been fighting for a day.

## Madoc

Madoc Jct.—Mrs. Arthur Tufts and Mr. and Mrs. Stanley Tufts of Tweed were Sunday guests at Mr. and Mrs. Oliver Stapley's.

Mr. and Mrs. Warren Harlow spent last week end with friends in Peterboro.

Mr. and Mrs. Arthur Andrews of Stirling had tea Sunday evening with Mr. and Mrs. Raymond Chambers.

Mr. and Mrs. C. Pitchett and Rosella had dinner on Sunday at Mr. and Mrs. Percy Eggleton's.

Mrs. James Morrison of Toronto was a recent visitor at Mr. and Mrs. Oliver Stapley's.

Mr. and Mrs. Ross Woodward and family and Miss Gladys Mark spent Sunday with relatives in Peterboro.

Several from here attended the Belleville Fair last week.

Mrs. Nathan Wannamaker and Mr. Clifford Wannamaker had the misfortune to be quite badly burned when a small tin of gasoline which they were using to clean some clothing, exploded.

Mr. Bert Eggleton of Halloway is spending part of this week with his cousin Miss Rosella Pitchett.

Miss Gwen Spettigue of Toronto and Miss Jean Haggerty of West Huntingdon spent a few days this week at Mr. and Mrs. George Eggleton's.

Mr. and Mrs. R. Woodward entertained relatives from Lindsay this week.

Mr. Kenneth Stewart made a few calls in this neighborhood on Friday.

## *Little Benny's Note Book*

I was taking a walk with pop for his health and I started to look through all my pockits, saying, Gosh shang the luck, I hope I haven't lost it.

I hope not, what did it look like? pop said, and I said, It was that little pocketbook you gave me, do you remember that little pocketbook, I found in your room and you gave it to me and you said you used to use it when men still used pocketbooks?

O, my little old purse,, pop said, and I said, I had it just before we left the house, do you remember me putting it down, anywheres, pop?

You'd better forget it, even boys dont carry purses any more, for Peet sake live in your own times, pop said, and I said, But G wizzickers, pop, it made such a loud click when I closed it you could hear it pretty near across the street, that's what I really liked about it, Jimminy, pop, I didn't hand it to you or anything, did I? I said.

Not to the best of my nollege and belief, pop said. The way to forget a grief is to develop new intrists. Why dont you learn to snap your fingers like a Spannish dancer, that would be a click worth having. Was there anything in it? he said.

Only 3 marbles, I said, and pop said, Then yee gods banish it from your memory.

Well good night pop, supposing you found out it had your pearl cuff links in it? I said, and pop said, What, what the doose, how the mischiff, say that again.

Well it didn't actually, pop, I just wanted you to take more of an intrist in finding it, I said, and pop said, Yee gods what a fiendish idea.

And he gave me a slap some place, saying, Owich, what the dooce are you carrying in your back pocket?

O boy I hope it is the 3 marbles, I said.

Meaning in the pocketbook, and I hurry up looked and it was.

Mrs. Albert Pike and daughters Phyllis and Patricia of Marysville were guests of Mr. and Mrs. William Doxtator, Friday.

Mrs. Cecil McCarthy and Patricia spent Monday in Belleville visiting friends.

Mr. Kenneth Hill, Mr. Stanley Hill and Miss Peggy Scero and Miss Kathleen Hill motored to Ottawa over the weekend.

## Bancroft

Bancroft—On Wednesday afternoon footsteps all turned in the direction of the Bancroft ball diamond to see the Terrors of 1920-1925 clash with the regulars in a 7 inning ball game. The Terrors applied the maple quite heavy for about four innings but lack of stamina in the remaining three resulted in a loss for the old boys as the younger bunch of regulars rallied for practically all of their runs. At the end of the fourth the Terrors had 8-2, but it was sad for the regulars applied the pressure and collected themselves 13 runs in the remaining three to win 15 to 12.

"Fireball" Geo. Barker pitched for the old timers for four innings and turned in a very nice job, he was relieved by Clarke who finished the game. Elmer Vance pitched his first game for the regulars and did a nice job on the mound. Jack Follis and Bob Thompson were the umpires for the Terrors and they did their best for the Terror lads.

## Marmora

Marmora—Mr. and Mrs. Floyd Robertson of Owen Sound are visiting relatives in this district.

Mr. and Mrs. J. A. Shannon and daughter, Rita, visited Miss Anna Shannon in Ottawa for a couple of days this week.

Mr. Bill Prentice is visiting his grandmother Mrs. W. R. Prentice at Foxboro.

Mr. and Mrs. Leland Richardson and small daughter of Sudbury are visiting the former's parents Mr. and Mrs. John Richardson.

Mrs. F. Gowling and daughter Joan of Ottawa and Mr. Arthur Reynolds of New York are holidaying at Mrs. Gordon Jarvis' cottage, at Crowe Lake.

Mr. and Mrs. C. McGillen of Peterboro are visiting the latter's parents, Mr. and Mrs. W. Reynolds.

Mr. Tom Crawford of Brooklin, spent the weekend with his parents Dr. and Mrs. H. Crawford.

Mr. and Mrs. Howard Ralph of Peterborough spent the weekend with the latter's parents Mr. and Mrs. W. Reynolds.

Mr. Thomas Lee, Bill Skinner and Mrs. G. McWilliams of Port Colborne spent the weekend at Miss Sullivan's cottage, Crowe Lake.

Mr. Clare Williams of Toronto spent the weekend with Mr. and Mrs. Wm. Bonter at Crowe Lake.

Mr. and Mrs. Charles O'Connor and sons Jackie and Tony left on Saturday for their home in Copper Cliff after spending two weeks with relatives here.

Mr. and Mrs. C. J. Henderson of Toronto were week end guests at the Royal Hotel.

Mr. and Mrs. E. Flann of Smith's Falls were week end visitors in the village.

Mr. T. Holland of Geraldton is visiting his father Mr. Fred Holland.

Mr. and Mrs. Harry Smith and family are spending a few days in Toronto.

Half day SPECIALS

PHONE 2000

Store Closes 12 Noon Wednesday!

## Allan Mills

Allan's Mills—Mrs. McDonald from the west is visiting Mr. John McKeown and family.

Mrs. Thos. McKeown and Dorothy of Norwood spent a few days with Mr. John McKeown.

Mr. Jack Reid is seriously ill.

Mr. Thos. Prest with his threshing outfit is busy in this vicinity.

Mrs. Gussie Stiles returned to Stirling after spending a few days in this vicinity.

Mrs. Fred McKeown is spending a few days with her sister Mrs. John Reid.

Misses Marjorie McKeown, Phyllis Barlow and Iva Brown attended a glass ware kitchen shower in honor of Miss Grace Bonter in Marmora on Friday evening.

Miss Jessie Williams returned to her home in Hamilton after visiting Miss Marjorie McKeown for a few days.

Mrs. Lillie Anderson spent Saturday with her brother Mr. John McKeown.

Miss Ruth Bain had the misfortune to have her face scalded on Friday while playing in the factory.

### WALLBRIDGE

The Women's Institute met at the home of Mrs. J. White on Wednesday. The president, Mrs. S. Nicolson presided. Plans were made for a booth at the school fair. The sum of five dollars was donated to the Junior Farmers for use in the Home Improvement Contest. Mrs. Morley Phillips and Mrs. Chas. Colley were appointed leaders for the Girl's Project 'Hospitality'. Roll call was answered by 'How I can be a neighbor' and the topic 'How to make new friends but keep the old' was ably dealt with by Mrs. Percy Westover who was convener of the program. Suitable readings were given by several members. A slipper case was demonstrated. After singing the National Anthem, lunch was served by Group 4 and Mrs. White was thanked for her hospitality.

## Lonsdale

Lonsdale—A few of the farmers are ploughing for some fall sowing.

The weather continues warm and dry. Rain is badly needed.

Messers Mick Canada and John Bremon have both lost valuable horses this week.

Mr. Joe McGuiness has put a new plank in the dam at the river and expects before long he will be ready to have his mill in order again for grinding.

Mr. Durwood Waddingham has purchased a new automobile.

One day lately Miss Florence McRae, Mr. D. Thrasher, Mr. and Mrs. Joe Haight and son Angus had a nice trip to see the new bridge at Ivy Lea.

Miss Flora Murphy has gone to Toronto where she expects to train for a nurse. Friends extend to her best wishes for success.

On Tuesday Mrs. Agnes Whiteman entertained to dinner Mr. and Mrs. Albert McCullough, Mrs. Sarah McCullough and Miss Kathaleen McCullough, Mr. W. Waddingham, the latter has been spending a few days with Mr. Albert McCullough.

On Wednesday the regular meeting of the W.A. and the Guild of the Anglican Church gathered at the home of Mrs. Eldun Hewitt. There was a good attendance.

One evening recently Miss Lucile Cassidy entertained a number of young friends to a corn roast. Guests were Mr. Howard Moon, Deseronto, Miss Mary McRae, Mr. B. Whitton, Deseronto, Miss Elene McKay, Mr. Claud McRrae, Miss Gladys McKay, Mr. Leonard Harvey, Miss Eva Sharp, Mr. Donald Dice.

Mr. and Mrs. D. J. McHenry one day this week visited their son Justin at the airport, Trenton.

Mrs. John McRae spent one day this week with her brothers, Frank and Earl Whiteman.

A few from the neighborhood attended Belleville Fair a couple of days.

Mrs. Annie McCullough returned home accompanied by little Miss Flora Taylor after spending a week with her daughter Mrs. Kenneth Leavens, Gilead.

On Sunday Mr. and Mrs. Hinchcliff, Belleville, enjoyed the day at the home of Mr. and Mrs. W. E. Cassidy.

Miss Mary Donnavan and Miss Angelia Hayes, Mrs. Hayes and Messrs Wilfred and Stewart, Belleville, were dinner guests of Mr. and Mrs. D. J. McHenry on Sunday.

Mr. and Mrs. Ed Hewitt and son Earl called on Mr. and Mrs. Albert McCullough one evening recently.

Polish troops were reported to have burnt this building as they passed through a village somewhere on the Silesian front.

As the dreaded spectre of war hovered nearer over England and the British Empire on Saturday mass evacuation of London children was carried out. Here, in this phonephoto, is shown a line of wee refugees waiting at a London station to be carried away from their parents to a haven in the country as a precaution against air raids.

## British Anti-Aircraft Batteries Are Used— Fighting Planes Pursue Enemy Bombers; German Liner Sunk In Mid-Atlantic

## 'Local Advances' Against Germany's Siegfried Line Reported By French Staff

### Drumming Motors Heard After Warning Sirens Sound

PARIS, Sept. 6 (AP)—The French army tonight was reported to have advanced across the German frontier into the rich Saarland which once was the backbone of German industrial life.

Paris, Sept. 6 (CP)—"Local advances" were reported today by the French general staff to have been made by the army against Germany's Siegfried Line.

Communique No. 5, for the morning of Sept. 6, issued by the War Ministry, said, "Some local advances were effected last evening and during the night."

The communique was issued shortly after the second air alarm of the day which sounded over Paris at 10:50 a.m., was terminated.

It was not known immediately whether hostile planes had approached the city.

Earlier anti-aircraft batteries apparently scared off several German planes by firing a few rounds of ammunition and flares.

PRESSURE INCREASED ON FLANK

The left wing of the French army of 8,000,000 increased pressure last night on the northern German flank, along a 100-mile front between the Rhine and the Moselle Rivers.

"Our troops are in contact everywhere along the frontier between the Rhine and the Moselle," said Army Communique No. 4. "It is recalled that on the Rhine permanent fortifications border the river here and there."

The French Maginot and the German Siegfried Lines parallel each other along this 100-mile stretch of land frontier so close that at some places outposts are little more than a stone's throw apart. To the south, the Rhine flows between the two lines.

DRUMMING MOTORS HEARD

Drumming motors were heard at 3:14 a.m. (10:10 p.m. EDT), Tuesday—a half hour after warning sirens had sent Parisians underground for a second successive night of air raid alarm.

The planes believed to have been on a reconnoitering expedition did not return, and no bombing operations were reported in the capital or elsewhere.

Parisians, quickly accustoming themselves to the night-time alarms, took blankets and pillows along with their gas masks into the bombproof refuges. Some carried bottles of wine and beer to while away the time in wakefulness.

Still others refused to budge from their beds at the sound of the sirens.

CONCENTRATE ON SOUTH FLANK

While pressure was increased on the northern German flank, artillery fire apparently was concentrated on the southern flank, where the Burgundy Gate passage between the Vosges Mountains and the Alps leads to the German Black Forest.

In the northern sector, military observers said, there were advanced German machine-gun posts and pillboxes which had to be silenced by picked squads in order to permit larger operations without the great losses which an assault, without this preparatory work, would entail.

Semi-official sources said the French were trying to soften the southern flank while northern forces cleared out the advanced German posts on hills and in valleys near Luxembourg.

The French general staff was faced with the job of delivering a jolt sufficient to force the Nazis to withdraw a substantial portion of their army now invading Poland, France's ally.

COMMITTED TO DEFENSIVE STRATEGY

With Germany committed to defensive strategy in the west at least until the army of the east can be freed with completion of a Polish conquest, General Maurice Gamelin was the first commander since Napoleon to be faced with the problem of stabbing into Germany.

A French thrust through the Burgundy Gate might cause the Germans to straighten their front, swinging on Karlsruhe as the pivot, for it is there that the French line dog-leg dents the German front.

Such a thrust not only might develop such strength as to force Germany to pull division after division from her eastern front, but also would be a start on the shortest and most advantageous overland route to Poland herself.

100-MILE FRONT ACCESSIBLE

French attacks last night were reported officially to be concentrated on the northeast frontier, where the German Saar Basin lies between the Rhine and Moselle Rivers.

## Germans Asked By Social Party To Overthrow Nazi Government

London, Sept. 6—(CP)—The Labor press service today published an appeal from the executive committee of the German Social Democratic party to the people of the Reich to cast off the Nazi yoke and overthrow Adolf Hitler.

The appeal stressed that the committee was the last organization freely elected by the German people before the Nazis came into power.

"We speak in the name of the party for the people in Germany who hate war and dictatorship," the committee said.

It placed full responsibility for "this monstrous crime against humanity and world peace" on Hitler and the Nazi party.

The committee said all its weight would be placed at the disposal of the allied forces "who are fighting for freedom and civilization in Europe."

"We appeal to the German people to fight for your freedom and cast off Hitler," the committee said.

## 125 PASSENGERS, CREW OF ATHENIA UNACCOUNTED FOR

### Disaster of Greater Magnitude Than Indicated by Earlier Reports

### SYMPATHY CONVEYED

### Sworn Affidavits Received by Admiralty Athenia Torpedoed and Shelled

By J. F. SANDERSON
(Canadian Press Staff Writer)

London, Sept. 6 (CP Cable)—Winston Churchill, First Lord of the Admiralty, announced in the House of Commons today that 125 passengers and crew of the torpedoed liner Athenia are unaccounted for. Some of them may yet be found aboard the Swedish yacht Southern Cross, he added.

He said a submarine torpedoed the liner and that it afterward "came to the surface and fired a shell which exploded on the middle deck".

"I regret to inform the House," he said, "that the disaster may prove to be of greater magnitude than was indicated by earlier reports."

Opposite Cases.

Mr. Churchill told the House there could not be two more opposite cases than the sinking of the Athenia and the sinking of two German vessels (the Olinda and Carl Fritzen) by the Royal Navy. The German ships, he said, were dealt with in accordance with the accepted principles of international law.

He said every provision was made for the safe removal of the crews from their ships and their lives were saved.

"No estimate can be made as to how many were killed at the first explosion, nor as to the numbers drowned in the reported capsizing of several boats after the passengers had taken to them," Mr. Churchill said.

"Survivors have been picked up by two British destroyers, the Knut Nelson and the City of Flint, and, it is hoped, by a Swedish yacht. At present some 125 passengers and crew are unaccounted for. It is still possible that a number of these may be aboard the Swedish yacht."

ZURICH, Switzerland, Sept. 6 (CP-Havas)—The Neue Zuricher Zeitung today reported that the German government had ordered the evacuation of frontier cities in western Germany. The Swiss newspaper said the civilian population already was moving out of several cities.

CHIEF LIAISON OFFICER IN FIELD

LONDON, Sept. 6 (CP)—War Secretary Hore-Belisha announced today that the King had approved the nomination of his brother, the Duke of Gloucester, as Chief Liaison Officer of the British Forces in the Field.

## COL. W. N. PONTON DIES TODAY AT SIDNEY COTTAGE

### Long Prominent in Fraternal, Military and Civic Life of This District

### IN 85th YEAR

Col. Ponton is dead; this Wednesday morning he passed away quietly in his 85th year at his residence, Sidney Cottage, Trent Road, which has been the residence of the Ponton family for over one hundred years and which has the historical distinction of having housed for one night Sir Isaac Brock on his way to Queenston Heights in the year 1812. For a considerable time Col. Ponton was confined to his residence owing to ill health.

In the passing of Col. William Nisbet Ponton, M.A., K.C., the City of Belleville, the Township of Sidney and the County of Hastings have lost an outstanding and highly honored son; a man of fine character and the possessor of many talents which he used not alone to his own credit, but to the betterment and advancement of his home city, township and his country. He was an ardent and loyal subject of the British Empire and a strong upholder of the principles for which the Crown and the Union Jack stand. Now, after a long and eventful life, the legal gown, the military uniform, the fraternal regalia, the book and pen have been laid aside for ever by one who did honor to the law, the militia, fraternal orders, the cause of education and city government and whose literary and historical knowledge was vast and whose ability to entertain and instruct by the written and spoken word was truly eloquent. In Canada, the United States and abroad, Col. Ponton was recognized as an orator of exceptional merit and grace, and he numbered among

## SEN. O'CONNOR'S ESTATE VALUED AT $6,545,465

### Premier M. F. Hepburn of Ontario Given $2,000 a Year for 20 Years

### MANY TRUST FUNDS

Toronto, Sept. 6 (CP)—An estate valued at $6,545,465 was left by Senator Frank P. O'Connor, it was disclosed today.

Among nearly two score persons who will receive annual legacies under terms of the will is Premier Mitchell Hepburn of Ontario. A bequest of $2,000 a year for 20 years was left for Mr. Hepburn and his family.

(Continued on Page Eleven)

## Aircraft Factories Continue Construction Of Planes For Allies

New York, Sept. 6—(AP)—United States aircraft factories continued work today on 600 planes ordered by France, England and Australia. Aircraft circles said no stoppage was indicated in work on between $45,000,000 and $50,000,000 of foreign orders for planes and parts, because of invocation of the Neutrality Act.

It was said that although shipments of the finished planes abroad is cancelled by the neutrality laws, plane makers are protected. Their contracts with France, Britain and Australia specify that in the event the laws hold up shipments abroad, delivery of the finished planes can be made in the United States. In this way, payment to the aircraft companies for the planes will be made in the same manner as if shipment abroad could be continued.

## Armed Forces Welded Into One Unit

London, Sept. 6—(CP)—Welding of the British armed forces into a single unified army was announced today by the Ministry of Information.

All units of the regular army, territorial army, militia, and other auxiliary forces were merged by important changes in administration.

Lieut.-General Sir Douglas Browning, hitherto Director General of the territorial army, has been appointed Adjutant of the field forces and the Deputy Director General, Major-General Sir John Brown, has been appointed a Deputy Adjutant General in the war office.

## GERMAN TROOPS 35 MILES NORTH OF POLISH CAPITAL

### Communique States Large Force May Enter Before Nightfall

### EXPECT BITTER BATTLE

### 30 Polish Planes Bomb Berlin and All Return to Base is Report

**Berlin, Sept. 6—(AP)— Capture by the German army of the city of Krakow was officially announced today.**

**Krakow is 140 miles southwest of Warsaw and about 60 miles east of the German-Polish border which German troops crossed early last Friday.**

By LLOYD LEHRBAS
Associated Press Staff Writer

Warsaw, Sept. 6—(AP)—The situation in Warsaw steadily grew more ominous today with the opinion expressed in some quarters that German troops pressing down from the north might arrive before nightfall.

Poles, proud of their capital and hoping to save it from extensive damage from artillery fire, plan to defend it beyond the city limits to the best of their ability and it was generally expected there would be a bitter battle.

While German troops were approaching closer they apparently had not yet reached the Bug river, 25 miles north of here. This was indicated by the absence of explosions such as would mark the blowing up of bridges by the retreating Poles. No retreating Polish soldiers have yet been seen in Warsaw.

Planes Bomb Berlin

A general staff communique asserted 30 Polish planes had bombed Berlin and returned safely to their bases, but no report was made of any damage inflicted.

(Official Berlin quarters denied the German capital had been raided. Neutral observers said there had been no air alarm in Berlin.)

The communique said "enemy aviators yesterday continued their aerial brutality in bombarding towns, railway stations and columns of fleeing refugees on highways."

(Continued on Page Twelve)

## ITALY MAY TAKE GERMANY'S PLACE IN RICH MARKETS

### War Threatens to Weaken German Position in Southeastern Europe

### HER CREDIT IS POOR

Budapest, Sept. 6 (AP)— The European war threatens to weaken Germany's economic position in southeastern Europe, trade experts said today, and may give Italy a chance to turn the tables of her axis partner in their old battle for markets.

Although bound by political and military ties, Italy and Germany have fought for a $500,000,000 import business in this section of the continent. But it was a fight in which victory—about 50 per cent of that trade—went to Berlin.

(Continued on Page Nine)

TENNIS TEAM TO COMPETE

New York, Sept. 6—(AP)— The Australian Davis Cup team of Capt. Harry Hopman, Jack Crawford, Adrian Quist and Jack Bromwich, victors over the United States in the challenge round, today received permission from the Australian Lawn Tennis Association to compete in the national championships starting tomorrow. They had been scheduled to return home for possible war service.

## Aerial Combats Could Not be Seen From Ground And There Was No Panic

### North German-Lloyd Liner Carried A Crew Of 30 Men

By GUY RHOADES
(Canadian Press Staff Writer)

London, Sept. 6 (CP Cable)—Anti-aircraft guns and fighter planes today repulsed the first air raid Germany has attempted on Great Britain in the war, putting the enemy aircraft to flight and preventing them from dropping bombs on land.

The raid started on the east coast about 6.30 a.m. and sirens sounded in London at 5:45 a.m. when the streets were fairly clear.

It was stated that several flights of planes were seen heading in the direction of London, but it was impossible to determine whether they were German or British.

The sun shone brilliantly at the coast and numerous persons watched the sky until a sudden burst of anti-aircraft gunfire caused the police to order them to shelters.

MACHINE-GUN FIRE HEARD

Several squadrons of British planes passed overhead and the sound of machine-gun fire subsequently was heard.

The all clear signal was sounded about 9 a.m. over the east coast and at London about the same time.

One man told the Press Association he saw six planes, flying in two formations, which were driven off by anti-aircraft fire.

Later they returned but again were driven off.

F. D. Chidwick said: "We saw a plane circling around. Then there was gunfire and a shell seemed to burst near the tail of the machine. I cannot say whether it was brought down but it dived straight down towards the ground."

At another spot gunfire was heard and the sky was pockmarked with bursts of smoke, but no aircraft was seen. Apparently any planes were flying too high to be visible to spectators.

TUMBLE FROM BEDS AND DRESS HASTILY

Londoners tumbled from their beds and dressed hastily when the warning sounded. Air raid precautions wardens advised them to remain indoors and many had an extra-early breakfast before the all clear was sounded.

Then streets became alive with persons rushing to work, many of them late. Busses and underground trains were jammed as a great load of people converged on them simultaneously.

Restaurant help, caught by an unusually high peak, was run off its feet trying to feed those who missed breakfast at home.

MOTORISTS OFFER LIFTS

Good natured Londoners who drive cars sought to unsnarl the public conveyance tangle by offering lifts to those dashing to work.

No panic or alarm was apparent at the third warning since the war started. Some complained of boredom over the long wait before they could go out of doors.

In the apartment house where this correspondent lives the landlady and two other women sat in the hall grumbling about the condition of Latin American Railroad shares which they own.

REGISTERED AS MOTORSHIP

Belem, Brazil, Sept. 6 (AP)—The North German-Lloyd liner Inn which sailed from here for Hamburg Aug. 25 was announced today to have been sunk in mid-Atlantic. The announcement added no details.

The Inn is registered as a motorship, powered with Diesel engines, of 2,867 gross tons and 295 feet long. She was built in 1929 and listed her home port as Bremen.

(Continued on Page Twelve)

## Britain Apologizes To Denmark For Dropping Bombs On Port

London, Sept. 6—(CP)—Great Britain apologized today to the Danish government for damage done in the Danish port of Esbjerg Monday apparently as a result of the accidental dropping of bombs from British planes.

The British Minister in Copenhagen was instructed to convey the regrets of the British Government.

The Government was informed by Denmark that bomb fragments picked up in Esbjerg were identified as coming from bombs of British manufacture. Following a thorough investigation by the Air Ministry, it was concluded that the accident might have been caused by a disabled plane which dropped its load thinking it was over the sea.

According to the Air Ministry findings, none of the planes which participated in the raid on German naval bases at Cuxhaven and Wilhelmshaven Sept. 4 and successfully returned to their bases could have been responsible for the accident. All planes had received strictest instructions to respect Danish neutrality and to confine the objectives to German warships.

The attack was carried out in extremely unfavorable conditions and the planes were compelled to fly above the clouds. As reported, there were certain losses in the attack and it was possible that one of the planes put out of action lost its direction and discharged its load to reduce weight without knowledge that it was over Denmark.

# City and District News

## COUNTY TAX SALE TO TAKE PLACE IN NOV.

Sale of lands in the County of Hastings for arrears of taxes and costs thereon will take place in Shire Hall in November, according to an official announcement released by Warden George E. Thompson and Treasurer James Haggerty today.

The announcement further states that any lands unsold will be offered for further sale at an adjourned sale to be held in the same building in December, at which time any municipality may reserve the right to purchase any of the said lands.

## NO TRUTH IN RUMORS 34th BATTERY IS TO BE DISBANDED

Official denial of "street rumors" that the 34th Field Battery, Royal Canadian Artillery has been disbanded was made today by officials of the unit.

The battery has not been officially disbanded, it was reported, and in all likelihood recruiting for the unit will be opened in the near future.

Regulations passed on by the Minister of National Defence at the outbreak of hostilities did not include the immediate services of the battery, but this does not necessarily mean that the unit has been broken up, it was stated this morning.

## MADE-IN-GERMANY GOODS REMOVED FROM STORE COUNTERS

German-made merchandise has disappeared from the counters and shelves of local shops and stores. A few oddments of German manufacture had been on sale until a recent date, but with the declaration of war by England against Germany, a prompt cleanup of the counters was made, it was reported by the proprietor of one store.

It was revealed by a survey that for some time past leading chain stores have refused to handle or sell German goods, and several of them had cut off purchasing German goods some years ago. Other countries competing for the trade in smaller articles had been able to undersell the Germain Reich, and produce a better article, it was stated.

## COUNTY COUNCIL TO CURTAIL EXPENSES

Proud of its record of service to Canada in the last war, the Hastings County Council will follow the method of procedure as that that featured its patriotic efforts during 1914-18, officials declared today. Curtailment of unnecessary expenditures will in all probability be declared by the warden, it was stated, while certain moneys said to be appropriated for certain works will be held in abeyance until a definite policy of assistance to the government is drafted.

## ONE STOLEN CAR FOUND ABANDONED

Belleville police today announced the recovery of one of the automobiles reported stolen in Belleville Mosday night. A Chevrolet car, the property of Carl Mott, Thurlow, and reported stolen in Belleville Monday night. A Chevrolet car, the ed near Trenton late yesterday. The vehicle was confiscated by Trenton police and held for Belleville authorities.

The second vehicle reported stolen, however, had not been found at noon today, police revealed. This motor car was the property of Mr. J. T. Doyle, 46 Queen St. and was stolen from in front of Mr. Doyle's residence.

## LARGE SNAKE FOUND COILED AROUND GULL

Investigating the strange fluttering of a gull on the rocky shore of Sand Cove near Massassaga yesterday, Wilfred Callery, member of a local fishing party investigated to find the gull securely enmeshed in the coils of a three-foot black snake. Whether the bird had chosen the snake for an unlucky dinner had not been learned. Rescued from the coils of the snake, the gull was found to be unhurt and managed to wobble back to the water.

## BELLEVILLE BOYS WIN TITLES AT C.N.E.

Tommy Pedder and Jack Cooper, two Belleville boys competing in the Canadian National Exhibition weightlifting championships at Toronto, won their respective classes yesterday. Pedder lifted in the bantamweight class, while Cooper contested as a heavyweight.

After winning their respective classes at the C.N.E., Pedder and Cooper competed in the North American weightlifting championships, which followed the C.N.E. Canadian championships

Pedder placed second in the North American events, while Cooper came third to win his medal in the heavyweight class.

Prior to the lift Pedder was forced to run five miles fully clad in order to make his weight of 126¾ pounds in the Bantam class.

Pedder's total lift was 580 pounds, while Cooper's total lift was listed at 750 pounds.

## SERVICE STATIONS REPORT GOOD SEASON

Service stations in the city this week reported the end of the summer rush of annual visitors, and the first cessation of an extremely busy summer, a season which will probably be registered as a better one than for some time past.

"It's the busiest summer I've had for several years," stated one East Dundas Street proprietor. "We've been kept busy since early summer and up until Labor Day the trade was steady. Now it will just be fair until January, and for three months after that until April, we'll just manage to make expenses".

## 2,000 Recruits For French-Speaking Regts.

Montreal, Sept. 6—(CP)— More than 2,000 would-be recruits have been received by Montreal's two large French speaking infantry regiments during the last 10 days, officers of the units, Les Fusiliers Mont-Royal and Le Regiment De Maissoneuve, said yesteriday.

Armories of both units have been active since recruiting started and officers said they have had enough applicants to form full war-strength battalions.

# MILITARY UNITS AT KINGSTON START RECRUITING

### A. S. Corps, Eng. Corps and Artillery Batteries to be Brought Up to War Time Strength

### 3 MEDICAL BOARDS

All detachments of this military district at Kingston, including the Army Service Corps, Medical Corps, Engineering Corps and Ordnance Corps, as well as the heavy and light batteries of artillery of the permanent forces stationed there have announced recruiting and so far military authorities say the response at Kingston has been encouraging, it was learned here.

Recruiting to bring the "A" and "B" Battery and the Third Medium Battery up to fighting strength will not begin at Kingston until this afternoon, it was stated. Three medical boards, two at Fort Frontenac and one at the Kingston Armory have been set up under the direction of Doctors W. A. Jones, P. A. McLeod and R. R. McGregor.

Mobilization of the forces and units thus far being carried out means simply that all units are being brought up to war time strength, and does not necessarily mean service abroad.

A military training camp is also being erected at Barriefield where new recruits will receive regular army training.

## THE WEATHER

Toronto, Sept. 6 (CP)—Synopsis: —Showers have occurred in the Lake Superior District and also from the Lower St. Lawrence Valley eastward to the Maritimes, though it has been fair and cool in other parts of Eastern Canada. Showers have fallen over Southern Alberta and Southwest Saskatchewan, but fair weather has prevailed elsewhere in the West. It is quite cool in Alberta and Saskatchewan.

Lake Superior: Fresh or strong winds; cloudy today and Thursday with showers in many districts; a little higher temperature.

Manitoba: Partly cloudy and cooler tonight and Thursday.

Saskatchewan: Partly cloudy and cool. Thursday—Mostly fair and cool.

Alberta: Fair and cool. Thursday —Mostly clear and becoming a little warmer.

## *Why The Weather?*

By Major A. H. Thiessen
Science Service Meteorologist

Hurricanes! About now is season of greatest frequency of these the worst storms, affecting not only mariners but often people inland. The hurricane is a whirling storm originating in the West Indies near the equator. It moves first westward, crossing Florida or the Gulf of Mexico as far west as the Texas coast. It then moves northward and eastward crossing the Atlantic Ocean. Many of these storms, however, recurve to the east before they reach this country. The Weather Bureau has a hurricane service and all ship captains are warned by radio, whether they are at sea or in port. Warnings are also issued to places on land in the path of the storm.

## Napanee Man Wins $75. At Foto-Nite At Granada Theatre

First winner of the "Foto-nite" special attraction featured by the Capitol Theatre, Belleville and the Granada Theatre, Napanee, was announced last night when Douglas Perry, Centre Street, Napanee, heard his name called at the latter theatre. He will sell his photograph to the management next week for $75.00.

Meanwhile, the "prize" at the local theatre has amounted to the sum of $125, Manager Gordon Fairley announced today, adding the hope that a local patron will annex the coveted prize at the regular "Foto-nite" performance tonight.

## Country Store Robbed At Crofton

The complete stock of canned goods, valued at well over $100 was stolen from Victor Bongard's general store at Crofton sometime last night, Provincial Police authorities were notified early today. With the exception of some gasoline and oil taken from the outside service station, nothing else was removed from the premises, even sugar being ignored.

The robbery was investigated by Provincial Constable Wm. McBrien, who reported that entrance was gained by breaking down the front door leading into the store. Mr. Bongard, the proprietor, resides some distance from his general store and there are no houses in the immediate vicinity of the store.

Constable McBrien stated at noon there was little doubt but that the robbers had been travelling in a motor car and stole the gasoline and oil to replenish their supply.

# 125 PASSENGERS

(Continued From Page One)

"Every effort is being made by wireless and otherwise to ascertain the names of the Athenia survivors," the First Lord said.

He conveyed the "profound sympathy" of the House to relatives of those bereaved.

Sir Archibald Southby, Conservative, asked that ships in future should not carry more passengers than they could accommodate in an emergency. Mr. Churchill replied that this would be borne in mind.

### Sworn Affidavits.

The Admiralty has received sworn affidavits from officers and passengers that the Athenia was torpedoed without warning by a submarine which fired shots at her before she sank.

There were 1,418 persons aboard, of whom 1,103 were passengers and 315 members of the crew.

Mr. Churchill declared the Athenia was not defensively armed and carried no guns.

"It now is clearly established," said the First Lord, "that the disaster was due to an attack without warning by a submarine at 7:45 p.m. local time (3:45 p.m. EDT) on the night of Sept. 3."

He said the torpedo struck the ship near the engine room on the port side when she was 250 miles northwest of Ireland.

## 300 Men Apply For Enlistment In H. and P.E. Regiment

Picton, Sept. 6—Hastings and Prince Edward Regiment is rapidly being mobilized on a war time basis. More than three hundred have applied at Picton, Trenton and Madoc armouries. Recruiting is being carried out in Prince Edward County as far west as Bowmanville (except Cobourg), east to Deseronto north to Madoc, Stirling, Tweed, Marmora and Campbellford inclusive.

Many have applied from outside of this territory, Lieut.-Col. Sherman Young, O.C., stated yesterday.

The first recruits started drilling yesterday.

The response has been surprisingly prompt. The Medical Board of Examiners at Picton armouries comprises Lieut.-Col. Dr. Gerald Allison, President; Dr. J. H. Walmsley, Dr. C. A. Publow and Dr. R. S. Thompson. Alternating its sittings between Trenton and Madoc, the Medical Board comprises Capt. Morgan, President; Dr. Forrester, Dr. Pedley and Dr. Eggleston.

All men accepted are required to wear uniforms and once again the khaki clad figures are a familiar sight.

### HEAVY ARTILLERY DUEL

London, Sept. 6 (CP)—Reuters today said newspaper correspondents at Luxemburg and Basle reported a heavy artillery duel between the Maginot and Siegfried lines.

Firing lasted all night in the Moselle region, they said.

# DRUGGISTS TO SELL MEDICINE 3 DAYS AT 25c

### Anyone May Buy; Lattimer's Drug Store Prepares For Crowds Friday and Saturday.

If you were told that you could have a liberal size bottle of high-quality medicine for 25c. it would sound unbelievable, wouldn't it? Yet this is true and such an offer is being made here in Belleville tomorrow, Friday and Saturday by Lattimer's Drug Store.

## Why Offer is Made

This offer is made because we believe everyone who suffers should have the chance to try a medicine at small cost to see if it will help them before they buy it at regular price and because we believed many sufferers in Belleville and vicinity need the medicine we offer.

The medicine referred to is a new, scientific formula of 15 roots and herbs blended with five other splendid medicinal agents, known as Mosby's Tonic, which has helped so many Belleville people. Therefore, we offer each person a liberal introductory bottle for 25c because we believe those who are benefited will keep on using it. The full marked price of the regular size is $1.35. Therefore, the 25c offer is good tomorrow, Friday and Saturday ONLY.

## What It Will Do

Mosby's Tonic will cleanse your bowels (gradually—not drastic or severe) and tone them into better daily action.

It will bring out gases and impurities (frequently from the first dose) which may have been the real cause all along of your gas pains, sourness and stomach distress.

Mosby's Tonic will help Nature relieve indigestion, difficult breathing due to gassy stomach, dyspepsia and pain in chest due to stomach gas.

It will give you a new appetite, a real desire for food.

Mosby's Tonic will act as a diuretic to sluggish kidneys, thus relieving backache, sharp pains and night-rising caused by your weak, sluggish kidneys.

It will help clear up skin eruptions that are caused by the impurities in the organs, thus avoiding the sallowness ("muddy complexion") that is due to sluggish liver.

By removing accumulations of poisons from the kidneys and bloodstream, it helps relieve rheumatic and neuritis pains.

Mosby's Tonic will make your STOMACH, LIVER, KIDNEYS and BOWELS more active, build you up in general and make you FEEL like a different MAN or WOMAN.

Now, whether or not it will help you as it has thousands of others—whether it will relieve your suffering in a day or a week—remains to be seen. But owing to the proven merit of this medicine, it would seem to be in your own interest to try it for only 25c. This offer holds good Thursday, Friday and Saturday ONLY. Simply clip coupon below and bring it to Lattimer's Drug Store, 228 Front Street.

# KIWANIS CLUB WILLING TO HELP

### Will Deviate From Charity Work to Patriotic Endeavor if Need Arises

The Kiwanis Club of Belleville went on record at its weekly luncheon yesterday as being willing to deviate its services and activities from the usual charities to work of a patriotic nature should the need arise, Secretary George H. Griffin announced today.

The resolution received the unanimous support of members following the announcement that until further notice the club's activities for the staging of its annual Karnival would be carried on as usual.

A vivid verbal portrayal of the activities of the Canadian Institute for the Blind was given the clubmen by William E. Milton. District Field Secretary for that organization following the business session of the luncheon.

He explained the useful activities for which many of the sightless have prepared themselves, and in which they are now gainfully employed. "Those with business ability are employed in stands and restaurants, those with executive ability are in offices, industrially inclined members are in factories while those with no special training are employed in broom factories.

### Act As Instructors.

Nine sightless girls are now acting as instructors and go from home to home teaching the new blind how to read and write Braille, and other useful activities, Mr. Hilton told his listeners.

The institute grants special assessments to the needy, in cash of food and fuel. Pensions are paid after a certain age is reached.

"The institute feels that it is no use serving the blind unless something is done to prevent blindness," the speaker pointed out. "Consequently, many persons with defective eyesight are now getting treatment, spectacles, and other services. In Belleville there are thirty registered cases of blindness and fifteen persons with defective sight. These enjoy many of the concessions provided, including free theatre passes and free bus fare on the Rawson Line.

The speaker paid tribute to the many organizations of voluntary workers throughout Canada who are rendering able assistance to the institute. "Without these splendid men we could not get along, and it is mainly through their efforts that we can give service to the blind and near-blind." He concluded a splendid address with an appeal to the clubmen to "tell others about our work". By this means more support will be forthcoming and the institute can thus continue its humanitarian work of service to the blind.

## Women Of The Moose Hear Reports Of Annual Conference

The women of the Moose, Belleville Chapter 435, met in the Moose Auditorium on Tuesday evening, with Senior Regent, Mrs. J. Chapman, presiding.

Co-Worker Eda McGinness was presented with a graduate regent certificate in recognition of faithful services given in the past.

S. Regent Chapman gave a splendid report on the recent annual Ontario Conference of the Women of the Moose, held in Niagara Falls, Ont., Special mention was made of Grand Ritualist Mrs. Mary Wallace of Cincinnati, Ohio, and Mrs. F. Howard, Provincial Regent of Toronto. Valuable information was brought to the members through their supervision and a hearty vote of thanks was given to the Senior Regent.

Committee reports were given by Mrs. C. St. Louis on membership, Mrs. E. McGinness on Publicity and Mrs. G. Ritch on the Ritual. Mrs. L. Connell won the Sunshine prize and the lucky ticket for special prize as drawn by Mrs. G. Ritch.

Publicity Chapter Night will be sponsored by the committee in connection with next regular meeting. A social hour followed with cards in progress. Mrs. B. Mossman won first prize, Mrs. E. Saylor, second and the rummy prize went to Mrs. E. McGinness.

Mrs. J. Jeffrey of the Homemaking committee was in charge of the supper which brought a delightful evening to a close.

## W.C.A. NOTES

The regular monthly meeting of the Women's Christian Association was held in the Council Chambers of the City Hall on September the 5th with the Vice-President Mrs. G. Stewart in the chair. Mrs. R. H. Martin was appointed lady-on-duty at the Home for the Aged for the month of September.

# SWERVED CAR TO AVOID CRASH

### Miss Ann Bishop of Detroit Taken to Hospital Suffering from Head Injuries

In an effort to avoid collision with an oncoming motor car, Mrs. M. M. Ellis, of Clawson, Mich., swerved her automobile towards the north shoulder of Highway No. 2, three miles east of Belleville, early today, only to have the auto get out of control and crash headon into an east bound truck, driven by Max Marcus, of this city. Three persons in the car driven by Mrs. Ellis sustained minor injuries, while both vehicles were badly damaged.

Miss Ann Bishop, Detroit, sustained head injuries and lacerations and was taken to the Belleville General Hospital, where her injuries were attended by Dr. E. G. Kennedy. Mrs. Ellis and her eight-year-old son Herbie sustained leg and facial bruises, but not of a serious nature.

Motorcycle Patrolman Sam Ervine investigated and was informed that an east bound motor car, following Marcus' truck and driven by Donald White of Kingston, is said to have attempted to pass the truck. Mrs. Ellis, who was travelling in a westerly direction, saw White's actions and moved to the north shoulder, where her car got out of control. Constable Ervine stated at noon, that charges of careless driving were pending against Mr. White. Both Mrs. Ellis' car and the Marcus truck were badly damaged during the accident.

## Construction On S.A. Citadel Is Well Under Way At Present

Gleaming rows of bright red brick, faced with thin lines of black mortar, are gradually taking form on the new cement foundation of the new Salvation Army Citadel on Pinnacle Street. Four master bricklayers under the supervision of Contractor Thomas Adams commenced the work this week.

Brick taken from the old structure, and found to be in near-perfect condition are being used in the construction of the inner part of the wall, with new brick being utilized for the outside work.

Black mortar is being used to prevent the structure from assuming a grimy appearance as is the case when the white mortar is used, Mr. Adams stated.

Work is practically up to schedule, he said, although he would not prophecy any date of completion. The new walls had reached an approximate height of five feet this morning.

### Ordered to Dismantle Wireless

San Jose, Costa Rica, Sept. 6 — (AP)—The Costa Rican government today ordered five German ships anchored at Puntarenas to dismantle their wireless equipment. The ships took refuge in Costa Rican waters after Great Britain and France declared war.

# MEMBER OF GUARD HELD FOR THEFT

### Arrested by Air Force Officials After Allegedly Entering Canteen

Pte. George Bowen, of the Midland Regiment now mounting guard at the Trenton Air Station, was arrested by R.C.A.F. officials yesterday and today turned over to the Ontario Provincial Police on a charge of breaking, entering and theft. Bowen was placed in the Belleville jail pending trial.

According to police and jail officials Bowen is charged with theft from the R.C.A.F. (Trenton) canteen. Air Force employees are said to have seen a man climb out of the canteen window, under the cover of darkness, on Monday night. Chase was given and later the man was captured and turned out to be Bowen, military and civil authorities revealed.

One company of the Midland Regiment, with headquarters at Cobourg, has been mounting outside guard around the Trenton Air Base grounds for some considerable time and Bowen is said to have been a member of this military unit. His trial will be held in Trenton on Friday.

# CANADA CAN BUY ARMS FROM U.S. UNDER NEW ACT

### Dominion Not Yet Named As a "Belligerent" by the President

### OTHER REGULATIONS

Washington, Sept. 6—(AP)—President Roosevelt, after clamping an embargo on arms shipments to warring nations, was arranging even further steps today to strengthen the country's neutrality program and plug gaps in the United States' defences.

He held in abeyance, however, plans for calling a special session of congress to revise the Neutrality Act, invoked last night. Officials expected the President to observe the law's operation before asking Congress to let all warring nations buy arms here if they paid cash and carried them away in their own vessels.

**Personnel up to Strength**

The President told reporters yesterday that aside from his general proclamations of United States and Canal Zone neutrality and the imposition of the arms embargo, he would act in the next few days to:

1. Bring up to full peacetime [illegible]ngth the navy's personnel, now 15 per cent short of that goal.

2. Recommission and provide crews from some of the 115 Great War type destroyers to help patrol United States shores.

3. Provide additional men for the army in the canal zone and Puerto Rico.

4. Augment precautionary measures against communistic and dictatorship propaganda or any other propaganda aimed at the United States' system of government.

5. Guard further against efforts to use the United States as a centre for gathering information that might help any belligerent.

**Belligerents Named**

(For purposes of enforcement, "belligerents" were named in the various neutrality proclamations as France, Germany, Poland, the United Kingdom, India, Australia and New Zealand. As other nations or empire territories entered the war they would be covered in additional proclamations.)

As Canada was not named by the President, there is nothing to prevent shipments of United States made arms to Canada.

Mr. Roosevelt said officials in Washington and in the London and Paris Embassies had agreed United States ships should be used to carry refugees back to America from Europe. Convoy warships and their charges, he said, were more likely to be attacked than easily-identified neutral ships.

**Have Right to Travel**

In this connection the President contended Americans had a right to travel on the British liner Athenia, sunk off the Irish coast. The London and Paris Embassies have been told, in view of the Athenia's experience, to advise Americans that it would be safer to use vessels of the United States or other neutrals.

The state department is awaiting official word as to whether the Athenia was torpedoed before deciding on a protest to Germany.

## U.S. Press Labels Sinking Of Athenia Piece Of Stupidity

New York, Sept. 6—(CP)— The Metropolitan morning press expressed horror over the torpedoing of the British liner Athenia and labelled it a piece of stupidity from the German point of view but failed to see it as something to stir the United States from its stand of neutrality.

"The sheer stupidity of such an act made it seem incredible at first," said the New York Times (Independent). "Reason will be affronted and emotion inflamed by further manifestations of frightfulness. To lessen this strain the administration has decided to impose unprecedented restrictions on American travel abroad. Under present circumstances this step is right and wise. The country does not want to base its decisions on 'incidents' however horrifying."

Said the New York Daily News (Independent): "It was certainly a classic boner. We believe the sensible attitude for Americans to take toward the Athenia sinking is: it is only the first of many incidents ....and we must keep as cool about them as we possibly can unless we want to get into this war."

"One is appalled equally by the ruthlessness and the stupidity," said the New York Herald Tribune (Republican). "On the other hand, even should it approach another Lusitania it will hardly cause the same incandescent reaction in this country."

## Ministry Of Economic Warfare Aims To Disorganize Germany's Effective Prosecution Of War

By J. F. Sanderson
Canadian Press Staff Writer

London, Sept. 6.— (CP Cable)—Britain's newly-established ministry of economic warfare will correspond broadly to the ministry of blockade created during the last war, the Ministry of information announced in its morning bulletin today.

The Ministry will operate under Ronald Cross, one of Britain's youngest bankers and industrialists.

"Economic warfare must be regarded as a vital offensive arm and the activities of the ministry will be of the widest scope", the Ministry's bulletin announced.

The aim of the ministry will be to disorganize Germany's economy and prevent effective prosecution of the war by the Reich. At the same time "every effort will be made to take account of the legitimate trading needs of neutral countries".

The ministry will operate in the complex but extremely important fields of finance and industry. A department of government with the similar object of crippling the enemy through economic weapons was established late in the last war, but this time the British government, realizing its prime importance, is starting off with one.

**Defeated by Exhaustion in 1914**

Germany was defeated in 1918 largely through economic exhaustion, the prime reason for which was the effective blockade of the British and Allied navies. Although Germany's army was smashed and retreating in 1918, the real reason why the Kaiser abdicated and Germany sued for peace was the internal collapse of the nation.

The ministry will have wide powers to enlist the best brains in the country to fight Germany with economic weapons. It will work in close co-operation with the French government. It was announced a French delegation headed by Paul Morand already had arrived in London for this purpose.

**Organized Two Years**

The ministry has been in the process of organization for two years, the communique said.

The same communique, under the heading "naval affairs", said that because no news was published of the destruction of or damage to enemy submarines "it must not be assumed that no successes have been achieved".

The communique under "Empire Affairs" said Northern Rhodesia had interned all Germans within its borders. "As in Tanganyika they were shepherded into safekeeping without any trouble", the communique said.

## Mountain View

Mr. and Mrs. George Lough returned home on Sunday after spending a few days in Toronto and attending the exhibition.

Mr. and Mrs. Stewart of Hilton, spent a few days last week with their son, Mr. S. Stewart.

Mr. Everett and Arthur Minaker also Misses Hazel, Bernice and Eileen Minaker spent Sunday with Mr. and Mrs. Fred Cochrane of Baltimore.

Mr. and Mrs. Ross Snider spent Sunday with Mr. and Mrs. Frank Tucker 4th of Sidney.

Mr. and Mrs. George Wilson and family of Sidney, spent the week end in Ottawa.

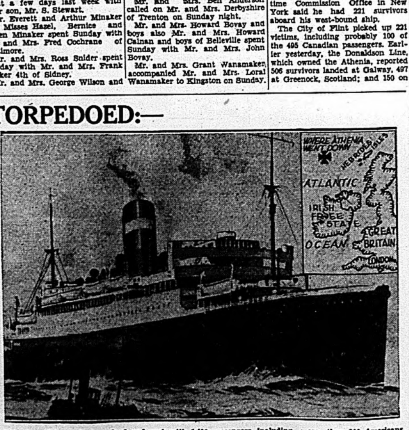
Mr. and Mrs. L. Goodwin and Mrs. Jordon of Cherry Valley, also Mrs. W. Turner and Miss Bernice Jordon of Port Huron were Sunday afternoon callers at the home of Mr. J. G. Sprague.

Mr. and Mrs. Ben Anderson called on Mr. and Mrs. Derbyshire of Trenton on Sunday night.

Mr. and Mrs. Howard Bovay and boys also Mr. and Mrs. Howard Calnan and boys of Belleville spent Sunday with Mr. and Mrs. John Bovay.

Mr. and Mrs. Grant Wanamaken accompanied Mr. and Mrs. Loral Wanamaker to Kingston on Sunday.

## TORPEDOED:—



British liner Athenia is torpedoed and sunk with 1,400 passengers, including more than 300 Americans, aboard. All are rescued except those killed by blast.

# LOSS OF ATHENIA CONSTITUTES ACT OF PLAIN MURDER

### London Daily Telegraph Says Sinking Deliberate Act of Cold-blooded Murder

### A TRAGIC STORY

By FRED BACKHOUSE
Canadian Press Staff Writer

London, Sept. 6—(CP Cable) — Canadian survivors of the torpedoed Athenia learned today that the Canadian government was doing everything possible to help them in their distress.

A cable from Ottawa received by Vincent Massey, Canadian High Commissioner, instructed him to give them assistance in food, clothing and money.

Many refugees who arrived in London from Glasgow already had called at Canada House for supplies. Many of them were wearing emergency clothing issued by Glasgow's public assistance committee.

**Scots Praised For Generosity**

They spoke glowingly of the spontaneous generosity of the Scots.

The Canadian fund will supplement a refugee fund opened last night by the Lord Provost of Glasgow which passed $10,000 this morning. Half of this was given by the Donaldson Line, owners of the torpedoed vessel.

Officials of Canada House said they were making efforts to get in touch with all Canadian survivors, who are now widely scattered. It is understood arrangements are being made to assemble them for return together as soon as possible.

**Taken Home by Convoy**

It is likely they will be taken in a convoyed vessel under the system indicated by Winston Churchill, First Lord of the Admiralty, in the House of Commons Sept. 4 the day after the outrage.

Two girl survivors at Glasgow, Margaret Walker of (384 Bannerman Avenue) Winnipeg and Patricia Belk of (497 Brunswick Avenue) Toronto, sounded bright and cheerful when they described by telephone how the Scottish folk loaded them with food and clothing.

Truckloads of frocks, suits and shoes were handed out last night and this morning to the refugees, many of whom were wearing limp tattered rags.

**Plied With Hot Food**

"It was wonderful the way they plied us with hot food and drinks," they chorussed. "This morning we were both given 10 shillings (about $2.50) to buy ourselves stockings and other things for ourselves," said Miss Belk.

"Personally I'm going to buy some lipstick too. You see we lost absolutely everything."

Reports that all but 44 of the 1,418 persons aboard the Canada-bound vessel when she was pierced by a torpedo off the Hebrides Sunday night had been saved were received here along with survivors' reports that the liner had been fired upon by the U-boat as women and children were being taken from the vessel in lifeboats.

"One shell carried away the main mast," Captain James Cook, master of the liner, said as he came ashore with other survivors at Galway, Eire.

Captain Cook said immediately after the submarine torpedoed his vessel the raider rose to the surface and fired.

A wireless report from the master of the American freighter City of Flint to the United States Maritime Commission Office in New York said he had 221 survivors aboard his west-bound ship.

The City of Flint picked up 221 victims, including probably 100 of the 495 Canadian passengers. Earlier yesterday, the Donaldson Line, which owned the Athenia, reported 506 survivors landed at Galway, 497 at Greenock, Scotland; and 150 on the yacht Southern Cross.

**44 Missing**

Thus 1,374 of the Athenia's 1,418 passengers and crew were accounted for, with scant hope remaining that the 44 missing persons could have escaped the blast which ripped open the Athenia's hull.

Approximately 200 were injured, and many of them were taken to hospitals immediately upon reaching shore.

The City of Flint reported she would sail directly to Halifax, N.S., arriving there Saturday.

Survivors insisted they saw the submarine after the torpedo hit the Athenia—and one stated that a group in a lifeboat could hear it passing under the water as they awaited rescue.

**Press Angered by German Lies**

British newspapers expressed anger and indignation over German charges that the Athenia had actually been struck by a British submarine in order to arouse American public opinion.

The Daily Telegraph said "Nazi efforts to clear Germany from the odium of sinking the Athenia, in defiance alike of the German pledge and humane sentiment, lack nothing in imaginative invention."

"The annals of the sea may be searched in vain for any such instance of cold-blooded murder, for murder and naught else was intended," the paper said.

Said the News Chronicle: "Even by the fearful standards of war, that sinking was a crime. Having failed to put across their first lie, the Nazis are now trying to persuade the world that the torpedo was fired by a British submarine as a 'propaganda measure.' Really, Dr. Goebbels!"

The Daily Herald reported that bar gold worth 5,000,000 pounds was taken by rescue ships from the liner before it sank.

**Fund is Opened**

A refugee fund opened last night by the Lord Provost mounted to $10,000 early this morning. The Donaldson Line, owners of the Athenia, topped the subscription list with a $5,000 cheque.

The refugees loudly praised Glasgow's hospitality. A United States consulate official said that besides the assistance given by the municipality, many Glasgow citizens called the consulate and individually offered to help.

"The American people will not readily forget this generosity," he remarked. "We cannot adequately express our gratitude."

### "TINY" HAS BIG JOB

Affectionately called "Tiny" by British Tommies, General Edmund Ironsides has been appointed Chief of the Imperial General Staff to succeed Viscount Gort, who has become Commander-in-Chief of Britain's land forces. General Ironsides was formerly director-general of overseas forces.

### FOND FAREWELL

Scenes like this were the rule in London during the past week as British naval reservists left the metropolis for their battle stations.

# EXPECT SESSION OF PARLIAMENT TO LAST 5 DAYS

### Cabinet Puts Final Touches on Plans for Opening of House

### TABLE WHITE PAPER

Ottawa, Sept. 6 (CP)—The cabinet today put final touches on its plans for the special session of parliament opening tomorrow afternoon as private members poured into the Capital.

Prime Minister Mackenzie King likely will meet his cabinet colleagues again today and probably will consult with Senator Raoul Dandurand, Liberal leader in the Senate.

Parliament will open at three p.m. E.D.T. with the usual ceremonial but without the customary display. Lord Tweedsmuir, Governor General, will officiate and read the Speech from the Throne which will indicate the government's plans for the emergency session.

**Last Five Days**

Government sources indicate that the session probably will last four or five days although it depends largely on the attitude of the Commons.

The cabinet met yesterday for three hours but there were no announcements dealing with the opening of the emergency session.

It is generally expected in Ottawa that Hon. J. L. Ralston, a former Liberal Minister of National Defence, will be taken into the cabinet. Col. Ralston conferred with the Prime Minister yesterday after a flight by special plane from Montreal.

**Table Correspondence**

Parliament will receive considerable information bearing on the crisis and the war when a White Paper is tabled tomorrow covering correspondence and Orders in Council passed under authority of the War Measures Act and other Acts since the outbreak of war Sunday.

Following the Speech from the Throne the address in reply to the speech will be moved by Lieut.-Col. H. S. Hamilton, Liberal member for Algoma West, and seconded by J. A. Blanchette, Liberal member for Compton.

Debate of the address will be delayed until Friday to give members an opportunity to study the White Paper and the Orders in Council.

**Manion to Lead Debate**

Conservative Leader Manion will lead off the debate and then the Prime Minister will give a statement on government policy.

Members of the Co-Operative Commonwealth Federation likely will hold a meeting today to decide the policy of the group during the special session. Social Crediters also will meet before parliament convenes.

The government plans to ask parliament to approve the Governor-General's Warrants issued to meet "unforeseen expenditures" due to the war as well as the various Orders in Councils.

The House also will probably appropriate a lump sum to enable the government to prosecute the war. This sum would have to be sufficient until the regular session of 1940 is held. In 1914 a special session appropriated $56,000,000.

Trade authorities speculated on the effect of the invocation of the United States Neutrality Act prohibiting export of war materials from the United States.

**Little Effect on Canada**

It is conceded that the Act will have little effect on the Canada-United States trade treaty at present while Canada is technically not a belligerent. Thus exports of military aircraft and war materials from the U.S. to Canada may be continued. However, if Canada declares war on Germany, the ban on U.S. arms exports to belligerents goes into effect.

Other developments yesterday included announcement of the personnel of the committee which will handle censorship in Canada during the war.

**Well-Known in Newspaper Field**

It is understood that in addition to taking part in the general directional work of the Censorship Committee, Mr. Moyer and Mr. Mayrand will be especially concerned with press and film censorship. Both are well known in the newspaper field. Mr. Mayrand was for 21 years editor of La Presse, Montreal, and it at present Managing Editor and Managing Director of La Patrie, Montreal. He was for many years a director of The Canadian Press.

Mr. Moyer is at present the clerk of the Senate, and is a member of the Bars of Ontario and Saskatchewan. Before the war, in which he served at the front and was awarded the Distinguished Service Order, Mr. Moyer was for some years engaged in newspaper work in Ontario and Saskatchewan.

Mr. Sullivan will be concerned with activities of the Post Office Department in postal censorship.

Colonel Landry and Commander Edwards will deal with questions affecting radio censorship. Commander Edwards was formerly head of the radio branch of the Department of Marine.

Colonel Maurice Pope will have to do with questions of censorship on military and cable matters. He served with distinction in the Great War and was awarded the Military Cross.

### WILL SUPPLY BRITAIN

London, Sept. 6 — (CP) — The Daily Express said today that Denmark would continue to supply Great Britain with lard, eggs, butter, cheese, condensed milk and preserved meats.

This assurance, the paper said, was given by the Danish legation. The legation explained Denmark would cease to export products essential for the country's own use.

# ONTARIO HOUSE TO MEET SEPT. 19

### Special Session Will Consider Possible War-Time Measures

Toronto, Sept. 6—(CP)— The Ontario legislature was summoned today to meet in special session Sept. 19 to consider possible war-time measures.

As soon as the government's program for the session has been outlined, Col. George Drew, Conservative leader, will be invited to confer with Premier Hepburn.

Previously it had been announced the special session would start Sept. 12 for the purpose of revision of the succession duties act. The Premier's announcement today set the date a week later.

Col. Drew has written Mr. Hepburn assuring the full co-operation of the opposition and the Premier said today that it was quite possible Col. Drew and other Conservative leaders would be invited to join the cabinet as Ministers without portfolio. In this way they would be fully informed as to the actions of the government.

"We can quite easily forget politics at this time," Mr. Hepburn declared.

A special committee of the cabinet will meet at once to consider what emergency measures are necessary. The committee includes Attorney-General Gordon Conant, Provincial Secretary Harry Nixon, Labor Minister Noman O. Hipel and Eric Cross, Minister of Public Welfare and Municipal affairs.

## REPORTS OF GERMAN DISTURBANCES

"It is not our war," was a message received in London Tuesday afternoon from German workers sent to the Independent Labor Party of England. The message goes on to say that the Independent Socialists in Germany have nothing in common with the present regime and are not in sympathy with Hitler's war against Poland.

Another semi-official despatch from Paris states that there had been disorders in several large industrial cities in Germany.

These two messages while probably not related show that all is not serene amongst the German populace and that opposition to the Nazi government may be expected to develop at times throughout the Reich. However, it is difficult to see how these disturbances can amount to a great deal unless the Gestapo has relaxed its vigilance and the army gives support to a movement of insurrection.

For the past few years the Gestapo has been able to spy out and stop any movement along these lines by the arrest of the organizers and their probable execution in some concentration camp. Fear of the Gestapo has been so widespread throughout Germany that even parents, in many cases do not even trust their children, for part of the Nazi policy has been to enlist young Germans in their cause who in turn spy on their relatives.

With such a widespread espionage service the government has been able to stop any movement calculated to attempt to remove it from power. Hitler's "Blood Purge" of 1936 in which he destroyed many of his co-workers for fear that they meant to displace him, served notice to the country that he intended to tolerate no opposition and should any arise that it would be crushed with the utmost speed and cruelty. For that reason we have heard practically nothing of disturbances in the country until the despatches arrived on Tuesday.

It may be assumed that the labor group in Germany has not accepted the long working hours, shortage of certain foods beloved by the Germans and constant spying without discontent despite the fact that there is no unemployment and wages have improved to some extent.

What good is some extra money if one has to eat and wear the substitutes that have been developed to conserve credit abroad and which are no match for the natural article or otherwise spend the money one has earned to purchase the things that help to make life enjoyable. The recent restrictions placed into effect bears this out. The constant curtailment of freedom both of speech and movement, the continual demands of the Nazi party for extra funds and the repititious propoganda both from the radio and the press, have served to spread discontent even though it has not been audible.

It may be that the war with England, Poland and France will show the Germans that they have much to lose in such a conflict for they will know that Britain is an indomitable antagonist who has everything to lose in such a war and wants no gain except the blotting out of a man and his party who would dominate the world purely for their own ambitions and with little for the masses except more burdensome taxation and the doubtful privilege of fighting in the trenches against a former friendly country just to enable their rulers a few thousand square miles of territory but at no enrichment to themselves personally. Only by an upheaval amongst the German masses can there be a quick termination to the present war.

## BUSINESS AS USUAL

Perhaps the famous wartime slogan of the British nation when the days were darkest in 1914-18 "Business as Usual" has never been exemplified as much as it is at present in the "tight little island".

Despite the fact that the brilliant September skies that now smile down on a stern-lipped grim-faced populace, are liable to rain leaden death and destruction at a moment's notice, the stoical Englishman is taking this matter of war in his stride.

Twenty-four hours after Britain had issued the famous declaration that "this country is now at war with Germany," ermine-wrapped women and well dressed men strolled into restaurants. Beneath their arms were small boxes in which reposed gas-masks. A retired British general just returned from the War-Office where he had volunteered his services for his country again, smiled as he sipped his afternoon tea. On the table lay a small box. "I had intended throwing it away, but the blasted thing has its uses after all". It contained a gas mask.

Britain will "muddle through" again. The well-known stoicism, the lack of demonstration, that is perhaps never shown so much as it is at Lords Cricket Oval where an exceptionally brilliant play will draw a mild hand-clapping or murmured "Played Sir," and nothing more, is part and parcel of the Englishman. Then, too, they have that satisfaction that they are prepared. An infinite faith in her Navy, her Air Force and her Army and the knowledge that this war is not of their seeking, has instilled in the average Englishman a confidence, a coolness, that is superb to watch.

Come what may, when the days are darkest, and no doubt they will be, the remarkable indifference to danger, the resolution to "see things through," and the knowledge that again Britain's sword has been unsheathed against tyranny, will again bring the forces of truth, righteousness and fair-dealing, the ultimate victory. Of that the Englishman is supremely confident.

### INVITATION

Oh, come and dance with lightsome heart
In yonder meadow green,
Where every bird a minstrel is
And summer reigns as queen.

A thousand silver bugles blow
Where sings the merry brook,
And fragrant odors cloy the air
From every flowered nook.

Bright butterflies like happy thoughts
Are flitting to and fro,
And all the day from dawn 'til dark
The gentle west winds blow.

A paradise of sight and sound,
This simple meadow green;
Oh, come and dance with merry heart
Where summer reigns as queen.

—E. Nellie Morrison, North Sydney, C.B., in Montreal Star.

x x x

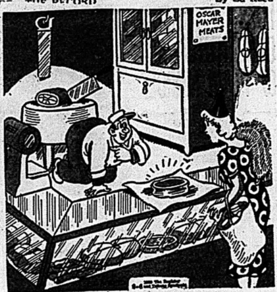
BUSINESS AS USUAL, the slogan of the last war overseas and in Canada may well be adopted now as the dread spectre of war hovers again over Europe. Hoarders will not help to win the war—business as usual should be the war cry of all loyal subjects. Everyone can help to win the war by doing his or her bit, whether it be in the front lines or back of the lines, for the defence lines reach way back as far as the corner grocery, the neighborhood theatre, etc., where business as usual, the will to win, and the supreme confidence which has its safe and sure foundation in the knowledge that Great Britain always wins the last battles, no matter what goes between. Just study the last war, the history of Napoleon and all would be world dictators who had their little day in the limelight and then vanished, unmourned, unhonored and unsung.

x x x

IN GREAT NATIONAL EMERGENCIES, as well as in minor ones, the great value of the daily newspaper becomes readily apparent. The daily newspaper is taken largely for granted, like the public utilities of electric light, water, etc. The people have grown to expect them as a matter of course and true appreciation is only felt in full measure when anything happens to deprive them of these very necessary things. There is nothing that brings out the value of a daily newspaper as much as a war. Here it is a case of service above self and profits with a vast organization of war correspondents and experts covering every part of the war zone for the daily press, and the cost not counted. Some people have an erroneous notion that newspapers profit by increased circulation during wartime, when the truth is usually, that every extra copy sold is sold at a loss. The cost of newspaper war organization is tremendous and the expense has to be born by the press associations, and finally by the daily newspapers themselves which support the news gathering organizations. No expense is considered too high by the daily newspapers to provide a full news coverage in war time, as indeed in peace time, too, although war brings tremendously heavier expense, and the newspapers must carry on whether the advertising patronage keeps up to normal or falls below. All in all the newspaper is a public utility not run for profits alone, but stressing at all times public service—the best service it can give its readers. So, when you hear mistaken people saying that the newspapers are making a mint of money out of the war, just smile and pity their ignorance. In the meantime CARRY ON, BUSINESS AS USUAL

## OFF THE RECORD

By Ed Reed



"Now just suppose I'm old bossy, Mrs. Newly — that piece would be located about here."

## LOOKING BACKWARD

### GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

### 20 YEARS AGO

**SEPTEMBER 6, 1919**

Dr. and Mrs. C. L. Carman of St. Paul, Minn., are renewing acquaintances in the city and are stopping at Hotel Quinte.

The launch Minnie with a Rochester party on board came into port last evening and the visitors spent today in the city.

A barn situated on a farm occupied by Mr. D. May at Little Kingston, Prince Edward County, was destroyed by fire on Sunday evening, together with a quantity of hay, grain and implements.

Mr. and Mrs. Lewis E. Chase of Detroit, Mich., are visiting Mrs. Chase's sister, Mrs. Charles Priory, Catherine street.

### 30 YEARS AGO

**SEPTEMBER 6, 1909**

The new hook and ladder wagon has arrived here and has been installed in No. 2 Fire Hall.

The second annual Deacon road race took place yesterday from Belleville to Trenton. The start was made from the corner of Charlotte and Commercial streets, with six runners in line. The result was as follows in the order given: H. Vickers, Belleville, time 1 hour, 12 minutes; R. Oliphant, Belleville, 1 hour, 16 minutes; G. Reynolds, Trenton, 1 hour, 16-10 minutes; C. Wallace, Belleville, 1 hour, 26 minutes; E. D. Wallace, Belleville, 1 hour, 28 minutes; Burnham, Belleville, 1 hour, 30 minutes. Oliphant and Vickers are members of the Belleville Harriers Club. Congratulations are due to the Messrs. Deacon on the success of their efforts to promote athletics in this district. The race was won last year by Reynolds of Trenton.

### 40 YEARS AGO

**SEPTEMBER 6, 1899**

Mr. F. G. Lockett of Messrs. Haines an dLockett, has left for Montreal on business.

Mr. James White of Madoc was in town today.

Mr. Walter Fanning, Jr., has left for Montreal.

Mr. F. H. Ketcheson is home from Winnipeg on a short visit.

Mr. and Mrs. Tracy are visiting friends in Toronto and Niagara Falls.

Mr. J. C. McCarthy of the Walker Foundry left this morning for Toronto on business in connection with his new patented reaper and mower knife, which he has on exhibition at the fair in that city.

Albert College opened this morning with twice as many students in attendance as last year. The students were welcomed by the principal, the Rev. Dr. Dyer, the Rev. C. W. Watch and Mr. William Johnson.

### 50 YEARS AGO

**SEPTEMBER 6, 1889**

Merchants are receiving large consignments of fall goods.

Tenders for new uniforms for the city police are being called.

Temperatures today: Max. 83, Min. 60.

Mr. Charles Wilkins, Fishery Inspector, has returned from vacation.

Mr. Wilber F. Young, who has been foreman in the Intelligencer composing room for the past three years, has left to assume a similar position with the Kingston Whig. The good wishes of all members of our staff go with him.

Mr. H. J. Crawford has resigned as teacher in the high school and will go to Seaforth, Ont., at a salary of $900.00 per year.

Mr. P. R. Palmer will attend the Provincial Exhibition of which he is a director, at London, Ont.

## *Trouble for Enemy Submarines*

Behind the guarded statement on our new anti-submarine devices made by Lord Stanhope, First Lord of the Admiralty, in the House of Lords, lies a great story of the developments carried out by British scientists.

"Our naval authorities feel", Lord Stanhope declared, "that in ordinary conditions we can hunt the submarine with our particular apparatus—which I am not specifying further—and make a certainty of finding it.

"I think this is the view of other nations. I do not think they have got this apparatus or anything like it.

These facts are well known abroad. No other nation has developed anti-submarine devices to anything like the same pitch. In any future war, submarines opposing British warships will be veritable

It is no longer necessary for a submarine hunter to see a periscope. A submarine can now be detected even if lying motionless on the sea bed.

These new and secret devices are being rapidly installed in every naval vessel intended for anti-submarine work.

In addition to the huge number of fast armed launches fitted with this equipment, the 163 trawlers now to be purchased or built, under the supplementary estimate announced in the House of Commons, will also have these devices.

When the present naval program is complete, the British Navy will have nearly 1,000 ships— apart from cruisers and battle-ships—fitted for anti-submarine patrols!

In addition, there will be hundreds of fast 'planes, based on aircraft carriers, which will carry the necessary depth charges for destroying submarines observed lurking on the sea bed.

Many of the latest devices have been perfected in the last six months, and it is estimated that, in this period, a submarine's chances of evading detection and destruction have been reduced by 30 per cent.

In the view of naval experts, only one submarine in ten will now have any chance of leaving its base and returning safely. As far as Britain is concerned, the submarine menace no longer exists. —From "The People", London.

### JAPANESE DIET

Most Japanese live largely upon vegetables and fish. Such a diet is necessary not merely because of the difference in customs but because of the natural circumstances in which they are placed, as the land fit for the cultivation of foodstuffs is limited.

The seas around Japan are, so to speak, the pastures of the Japanese people. More than a thousand species of fish are found in Japanese waters.

The Japanese consume as food one fourth of the total consumption of fish in the world, and to them it is the healthiest of all foods. So long as there are good supplies of fish and rice available, the life of the Japanese is well assured.—East Asia Economic News.

### BOY AND DOG

The Leader-Post is glad that a little publicity to which it has been a party has been a factor in contributing to a happy result. We refer to 12-year-old Glen McEwen, of Tyvan, Sask., and his new dog.

Glen's first dog was killed in an accident. The boy appealed to the Leader-Post regarding a new dog. The boy's desire was communicated to the readers of this newspaper and in practically "no time", as the expression goes, thirty Reginans came forward with offers of pups for the dog-hungry boy. Glen came into Regina and surveyed the field, going from kennel to kennel. His choice finally lay with a smooth-haired fox terrier pup, with black and white head. — Regina Leader-Post.

## THAT BODY OF YOURS

By James W. Barton, M.D.

**Excessive Perspiration of Hands and Feet**

A condition which, while not serious from the health standpoint, is at times most embarrassing, is excessive perspiration. Even in very cold weather, some individuals perspire.

The causes for this excessive perspiration over entire body are many — emotional disturbances, general tiredness or weakness, during pain (passing of a gall or kidney stone), shock, certain drugs, goitre, epilepsy, and others.

There is one type of excessive perspiration which not is uncommon in normal individuals and that is perspiration which is not uncommon A man afflicted with perspiring hands is embarrassed every time he shakes hands with anybody, and as shaking hands is a friendly gesture, he may have to do it several times a day.

It was accidently discovered some years ago that where the Xray had been used on a portion of the skin, the sweat glands had been injured so that while the rest of the skin was perspiring normally on a warm day, the part which had been under the Xray was perfectly dry. The Xray in expert hands gives excellent results in excessive perspiration of hands, feet, armpits, but there is always the chance of the Xray causing chronic skin inflammation.

Another method of treatment is the use of very hot water applied for 10 to 20 minutes twice daily, followed by a dusting powder containing zinc stearate, or zinc oxide, or salicylic acid. A solution of commercial formaldehyde in distilled water is another effective method.

As the above methods may not be effective in severe cases of excessive sweating of palms of hands and soles of feet, Dr. James C. White, Boston in the New England Journal of Medicine, outlines a surgical method of cure by cutting the nerve supply to the sweat glands of the hands and of the feet just as these nerves emerge from the spinal cord.

The thought then when an individual is unduly emotional and this emotional disposition causes excessive perspiration of hands and feet, when the usual remedies —hot applications, dusting powders, lotions—fail to relieve and Xray is considered unwise, this surgical method will relieve this embarrassing symptom.

### HITLER'S TECHNIQUE

"A clever conqueror will always, if possible, impose his demands on the conquered by instalments. For a people that makes a voluntary surrender saps its own character; and with such a people you can calculate, that none of these oppressions in detail will supply quite enough reason for it to resort once more to arms. The more such extortions are suffered without resistance, the more unjustifiable it comes to seem to people to make any ultimate stand against pressures; which appear each to be new and isolated, though in fact there is perpetual recurrence of them."—From the book, "Mein Kampf".

### CARELESS SHOOTING

A Thorold township man was shot the other day by a boy shooting at a sign which said "No Shooting". Using that particular sign as a target may have been mere thoughtlessness and hitting a man a sign of poor marksmanship, but it is feared that destruction of such signs is often deliberate and an expression of peeve.

A friend put up signs on his property last Fall to protect pheasants. Along came a group of men in the morning saw this sign in disgust. One hunter expressed his disapproval by shooting the sign which hung on a young recently planted maple tree. The latter was so damaged that it died.

Promiscuous shooting is far too common and it is time that an effort was made to stop it.—Niagara Falls Review.

### INCIDENTAL INTELLIGENCE

The newsboys plying inside the grounds during the Hambletonian wore badges that said "Working Press".

For the Eastern Grass Courts finals at the Westchester Country Club, the grass on the courts was dyed green.

Our legal-reference department has discovered that the case of Gable vs Scarlett has already been tried, in the Maryland courts. It's 56 Maryland 169. And the first volume of the Consolidated Statutory Index of New York, published in four volumes by Matthew Bender & Co., is entitled "Abandonment—Czecho-Slovakia."

As an informal added attraction to the nine-thirty fountain display at the Fair, you can now and then see, against the glass bricks of the Belgian Tower, the enlarged shadow of a man changing his clothes.

A sign outside the Calvary Baptist Church on Fifty-seventh street says "God's World of Tomorrow".—From the New Yorker.

### ELEVATED TO PEERAGE

London, Sept. 6—(CP)— The King yesterday elevated Sir Thomas Inskip to the peerage following his appointment Sunday as Lord Chancellor—a post that makes him speaker of the House of Lords and head of the English judicial system.

Sir Thomas took the title of Viscount Caldecote of Bristol. His new post is within the cabinet but outside the war cabinet of nine members.

## *When the Press Beat the House*

The Press Gallery is a comparatively recent innovation, dating only from 1835. Until the end of the 18th century there was no official recognition of the Pressmen.

Their present status was achieved only after many years of conflict with individual members or, not infrequently, with the Chair. Right up to the time of the younger Pitt the presence in the House of newspaper reporters was regarded as an unwarrantable intrusion.

Technically the Commons sit in secret. From the earliest days speeches in debate have been privileged from disclosure outside. Under the Tudors and Stuarts secrecy was an essential form of protection against the Crown. Occasionally members whose speeches were known to the Court were cross-examined before the Privy Council and, if they failed to satisfy their inquisitors, imprisoned until the end of the season.

This rule survived long after the need for it had disappeared, and as late as February 26, 1728, a resolution was passed declaring that it was a breach of privilege to give in written or printed newspapers any account of the proceedings of the House. In the 40 years that followed there were several occasions when printers were brought to the Bar in custody and reprimanded by Mr. Speaker.

But not until 1771 was the House set at defiance. In that year John Whible of the Middlesex Journal and R. Thompson of the Gazetteer were ordered to appear at the Bar to answer for their reports. They failed to comply and sent no apology. Thus began the greatest of all constitutional struggles between Parliament and the Press.

When they were apprehended in the City they were forthwith released by Wilkes and Olivor, sitting as Aldermen. On the following day the Serjeant-at-Arms sent his messenger to the city to apprehend one Miller, of the London Evening Post, under a warrant from the Speaker. Miller forthwith gave the messenger into the custody of a constable on a charge of assault.

The Lord Mayor, Brass Crossby, M.P., a firm supporter of Wilkes declared that the arrest of Miller was illegal and committed the messenger to prison. He informed the deputy Serjeant-at-Arms, who attended before him, that the arrest of a citizen in the City of London without the authority of one of its magistrates was a violation of the City Charters, and that an arrest by a person who was not a constable was a breach of the law.

Nine days later and indignant House of Commons committed the Lord Mayor to the Tower of London. He remained there for six weeks. No imprisonment can ever have been less hard to bear. Addresses of congratulation poured in from all parts of the country, while the chief upholders of Parliamentary privilege were hanged in effigy. One of them subsequently addressed the Speaker thus:

"I had the honor, Sir, to be hanged in effigy on Tower Hill on the same gibbet with you. Indeed, in the dying speeches the patriots paid me the greatest compliment, for they gave out that I died penitent, but that you, Sir, remained hardened to the last."

On the face of it the Commons had had their way. But in reality the Press had won. Never again was there any serious attempt to prevent the printing of debates. Nevertheless, the lot of the Parliamentary reporter was by no means enviable. He might be admitted to the precincts, but for many years he was forbidden to take notes, and was compelled to rely upon his recollection to furnish his readers with an account of what had passed.

The most famous of these early correspondents was "Memory Woodfall". He would sit for hours in the Strangers' Gallery, listening intently with his eyes closed. At the rising of the House he would adjourn to the offices of the Morning Chronicle and there write out from memory a lengthy report of the speeches he had heard delivered. On one occasion his account of a speech by Sheridan ran to 4,000 words.

This feat was the more striking because the reporters had, even more difficulty than in these days in hearing what was said. They were herded together into the back row of the Gallery with all the other strangers in front of them. Even this cramped accommodation was not theirs by right. To secure their seats they were compelled to be present when the Gallery opened at noon. The House did not sit until four o'clock. Thereafter they had to remain in the precincts until the debate ended, often at midnight.

The stamina of these early Pressmen must have been no less remarkable than their memory. But at least they were not required to starve. One of their number has recorded that "on a landing at the top of the stairs they could have the most excellent cold beef and beetroot salad for 3s 6d."

An Irish Pressman named Mark Supple achieved the distinction of being probably the only reporter who has ever interrupted the proceedings of the House of Commons. He served in the Gallery at the beginning of the 19th century, and on one occasion, finding, the debate tedious, called for "a song from Mr. Speaker". He was duly confined to the custody of the Serjeant, but after a few hours tendered his apology and was released.

Complaints by members were frequent in the early 19th century. When Windham classified the occupants of the Gallery with "broken-down tradesmen and discarded footmen" the reporters revenged themselves by imposing a boycott, and during the last months of his life scarcely a single one of his speeches was recorded.

Then, as now, members occasionally complained that they had been misreported. A Mr. Martin who represented Galway once uttered some starting sentiments in debate, which appeared in a newspaper in italicised form. The printer was called to the Bar and offered to prove that the report was a literal transcript of what the honorable member had said. "That may be," retorted Mr. Martin "but did I spake them in italics?"

The first time when the Commons met in the present chamber was on April 30, 1850. At that time it was furnished with a lofty gilded ceiling similar to that of the present House of Lords. It was found almost impossible for persons above the floor—whether members or reporters—to hear a word.

The Prime Minister, Lord Russell, and the leader of the Opposition, Sir Robert Peel, both paid a personal visit to the Reporters' Gallery to test the acoustics. The result was that the Commons returned to the temporary quarters which they had occupied since the fire in 1834, until a false ceiling was put in below the original roof.

The most signal victory of the Press in more recent times was in 1875. The rule that a member could have the galleries cleared of "spying strangers" had continued unchanged. Its inconvenience was revealed on the occasion of a full-p erbBdAAA 2a( oqSl emyork Lod drew attention to the presence of strangers. The occupants of the galleries, including the Prince of Wales, were compelled to leave. Only by a suspension of the Standing Order were they able to return.

The whole subject of the exclusion of strangers was debated some days later. Disraeli, then Prime Minister, was against any change. But his hand was forced by Mr. A. M. Sullivan, the member for Louth, who insisted on this occasion also on spying strangers, thus demonstrating the rule's absurdity. As a journalist himself he declared that the Gallery "would not submit to ignominious sufferance". And he had his way.

Nowadays strangers cannot be called upon to withdraw without an order of the House itself. Sullivan can scarcely rank so high as Brass Crosby and John Wilkes. But he deserves to be remembered as one of the staunchest champions of the Press in Parliament.—By Dingle Foot M.P. in London Telegraph and Morning Post.

## *Blueberries In The Pie*

Jaded summer appetites are stimulated by bowls of blueberries, strawberries, raspberries and loganberries, by pies with berry juices oozing through the crust and by strawberry shortcake that would cause even an anchorite's mouth to water. Manistique on the upper peninsula of Michigan, recently engaged in a three-day festival in honour of the wild blueberry, with pie baking and pie eating contests and a blueberry queen. Clarence D. Chase, ranger of the Manistique district of the Hiawatha National Forest, says that between $40,000 and $50,000 a year is realized from the crop within a twenty-five mile radius of the town. The New York Sun, which has given the matter editorial attention, reports that the average adult picks from fifteen to twenty quarts a day; buyers pay about $1.50 for a crate of sixteen quarts. From as far south as Chicago, and Detroit and as far west as Minneapolis traders drive up in trucks at night to purchase the day's pick. In addition, many crates are shipped out by railway.

Cultivated blueberries are from two to four times as large as the wild berries, have thinner skins and less noticeable seeds. They were developed by Dr. Frederick V. Colville of the bureau of plant industry, department of agriculture. He worked on them more than twenty years. They are now raised commercially in New Jersey and on Cape Cod. Until 1933 most of the cultivated blueberries were sold in New York City, but that year the crop ran about 15,000 bushels and overflowed to other cities. Within a thirty-mile radius of Pemberton, New Jersey, cultivated blueberries are produced by about forty-five growers whose planting are on acid, peat soil.

Shipments of blackberries from Southern Washington County, Maryland, average 200 crates a day in a bumper season. The section is also one of the great raspberry producing districts. It ships up to 25,000 crates of raspberries a year and employment is given to many pickers.—St. Thomas Times-Journal.

### Rugby Schedule to Operate

London, Ont., Sept. 6—(CP)—J. Howard Crocker, director of physical education at the University of Western Ontario, said last night the war would not interfere with the operation of the Intercollegiate Football schedule this season.

Members of the 1939 Mustangs training the same day.

### APPLICATION ACCEPTED

Montreal, Sept. 6—(CP)—Application of Cornwall Flyers for a franchise in the Quebec Senior Hockey League was accepted unanimously last night at a league meeting. At the same time the league granted Westmounts the right to suspend operations.

Drink Coca-Cola Delicious and Refreshing 5¢

"Time out" for refreshment

A pause in work plays an important part in doing the job right. That's where ice-cold "Coca-Cola" does the job right, too. It makes a pause *the pause that refreshes* and leads to better work. 13

THE COCA-COLA COMPANY OF CANADA, LIMITED

# The GLASS SLIPPER

by MIGNON G. EBERHART

Poor Steven. But she wouldn't think of Brule. Not now. There were things to do.

No one was in the upper hall.

Her decision to leave was made. It was the sensible, indeed the only course to take. She told herself that, selecting and quietly donning a dark tweed coat. She pulled on a small brown hat and over it all her bright green rain cape with its concealing hood. Remember fare for the elevated, she told herself; there was a little change in the pocket of her coat; that was all right, then. All ready now. She must hurry.

At the foot of the stairs the mail, just delivered, lay on a table, and her own name on a letter caught her glance. She took the letter, thrust it, too, in her pocket and went on without looking closely at it.

So far it had been easy; no one had looked at her, no one had stopped her. Perhaps it wouldn't be difficult.

She didn't know, and there was no way for her to know, then, of a conversation that was, perhaps, going on at that very moment. In a brightly lighted, official-looking room at police headquarters, over a table which was bare except for a stack of reports and a small brown bag.

"I'm going to make the arrest. She gave the woman poison in medicine likely; she gave it to the Garder girl in the tea. There's drugs enough in this bag—"

"You haven't questioned her about it; you've had it since—"

"Since you found it in the cupboard. I know. I didn't need to question her about it; I already knew it belonged to her; I know what's in it. Now the case is pretty complete, and I'm ready to make the arrest. I think it'll stick; and she'll break down when she sees this bag and knows we've had it all along. She'll confess."

Silence. Then slowly:

"You may be right, Lieutenant. I'd feel better if the bartender would talk."

"We'll make him talk."

Silence again. Then Angel's voice sharp with impatience: "What's the matter? You're still not satisfied, Funk?"

"No, I'm not."

"You still think the bag of nurses' supplies and drugs indicates her innocence?"

"Well, Lieutenant I still feel if she'd taken poison from that bag she'd have got rid of the bag mighty quick. Or at least the medicines in it. I still feel she'd have had the sense to get rid of such evidence . . . Look at the stuff, Lieutenant." Dirty little fingers clawed into the little bag, pawing over small bottles, neatly labeled, little boxes.

Silence again. Then a voice at the door: "Funk, you're wanted at the Town Club. That cloakroom business again. . . ."

By that time, probably, Rue was outside the house, safely through the hall and past the closed library door, and through Steven's studio and out the side door.

Cold air and rain touched her face. Her bright green cane was like a flag. A policeman, in uniform with a heavy caped mackintosh over it, was standing at the back gate. He turned, saw her, and Rue, her heart pounding, walked along the brick walk toward him.

"Is it—all right," she said, "if I walk up and down here?"

"Certainly, Mrs. Hatterick," he said at once. His heavy face looked cold and impassive; he watched her stolidly.

She was approaching the difficult part of it; well, she told herself, it would either work or it wouldn't. She'd carry out the bit of acting Andy had suggested.

She walked up and down the strip of lawn; the second turn brought her near the hedge which divided their strip of lawn from Guy's; she hesitated, went through the little opening, and the policeman did not stop her. She went up the walk toward the door of Guy's conservatory, a small glassed room flung out from and adjoining his dining room. She hesitated there, too, perceptibly, as if in indecision, and that was the hardest thing to do because she felt perfectly certain it would give the policeman the time and a chance (if he needed it) to stop her.

But, incredibly, it worked as Andy had said it would work. Apparently the policeman took it to mean, simply, that she'd had an impulse to enter that house (what would be more natural than to want to see their lawyer?), had paused to think again, and then had entered.

For she did so, and the door to the conservatory was not locked. That had been the second point of danger.

She closed the door behind her and peered through at the policeman. He was watching and had not moved, but she thought there was a kind of stiffness and alertness about that stolid figure.

Now hurry. Quick.

Hurry — because the policeman had moved. He was following her. No, he was going into the Hatterick house. To set another policeman on her trail? To get help? It didn't matter. She knew what to do.

### CHAPTER THIRTY-THREE

She told the driver to go to the nearest el station.

Now for the Evanston elevated.

There were only a cook and butler on the premises; Guy was not yet at home from the office. The door leading to the dining room was not locked either. From that point on the coast was ridiculously clear. Through Guy's dining room and through the hall and out the front door, and there was no policeman in sight, and the corner of the house shielded her from her own street.

Into the hurrying groups of pedestrians. Take the first taxi you see—there was one, cruising. She got into it.

She never knew what station he took her to; but they arrived at a lighted corner with the el thundering and clattering overhead, and she paid him and joined the flow of people surging up those long steep stairs. Struggled with those nearest her to board the first train that clattered, lighted and noisy, out of the night, and jerked to a stop before her and said in a bright letters "Evanston and North Shore Local."

Soon she'd be with Andy—safe.

Rain slashed the windows.

It was still raining when she got out at the Anchor Street station. She looked around and found, as Andy had predicted she would find somewhere near, a small, desolate-looking little drugstore. She went in. Sat at a table and ordered hot cocoa, and the shining white table reminded her of that other night, so short a time ago, when she'd sat in the bright din of another drugstore. With Andy.

When would he come?

Time passed and she finished the hot cocoa. Time passed and she heard newspapers hawked on the street outside and her own name, but wouldn't buy one and read it.

Time passed and she didn't once think of the letter in her pocket.

It was nearly eight o'clock when Andy finally came. Came hurriedly, his coat collar turned up about his face, with barely a word of greeting, taking her swiftly out of the shabby but lighted little drugstore, down the street into the shadow of the stark elevated pillars where his car waited. Only it wasn't his car. It was one Rue had never seen—but it wasn't a new car.

It was old and battered and even in the dim light looked as if it wouldn't run for more than a mile or two. It might have come out of a junk heap.

Andy was holding the door open. "Get in," he said.

As she did so a curiously irrelevant thought came to her mind. She wondered what Andy had done with the knife she'd given him. It was irrelevant and she dismissed it.

Andy got in the car beside her.

The street stretched emptily ahead of them like a long tunnel, starkly outlined by the el columns which were shadow and substance intermixed, dotted bleakly at intervals with wavering, rain-blurred street lights. She had no idea where she was. They turned and turned again, and she was completely at a loss. Even the guiding elevated columns were gone.

Andy said nothing; he was hunched forward peering into the rain ahead, trying to see through the wavering, dimly lit lane.

She could see only his white, strained-looking profile.

"How—far is it?" she asked above the wheezy rattle of the engine.

"H'm?" Andy came out of his abstraction with a jerk, said: "Oh—you mean to Mrs. Black's. Not far. We'll go the back way, and come in again on Dempster Road. It's—safer that way." He glanced at her once, smiled briefly as if to reassure her and went back to his anxious scrutiny of the road ahead.

Not far. She drew a long, weary breath, and settled her chin down into the collar of her coat and felt in her pocket for cigarettes. Perhaps her fingers actually touched the letter that was there.

She had cigarettes but no matches.

And Andy handed her a small advertising folder of matches, and when she had lighted her cigarette she returned the pack of matches to him. There can scarcely be a smaller or a more inconsequential act.

Yet it was in fact the last small link in a chain.

Neither of them spoke. They were leaving the straggling outskirts of town; she could see nothing of houses except now and then a light flickering off somewhere in the rainy darkness.

She said presently, idly, "Did you say Mrs. Black? I thought you called her Mrs. Brown...."

Andy said abruptly: "Huh? Oh. Oh, yes. I meant Mrs. Brown .... Gosh, it's hard to see." He hesitated at what appeared to be a crossroad, looked along the intersecting expanse of wet black pavement leading into nothingness so far as Rue could see, appeared to decide against it and went on.

Probably they were in the country now; Andy himself seemed a little uncertain.

"Where are we?" said Rue.

"I—I don't know exactly. That is, Morton Grove is over there somewhere. And Milwaukee ought to cross this road."

They passed a filling station which was lighted at the roadside, but the building itself was dark. Closed, thought Rue, and it added to the desolation of the spot.

And they'd gone only about a quarter of a mile farther on when the car ran out of gas.

It chugged, wheezed, made another effort to move and stopped dead still.

Andy tried the starter, tried it again, swore and said incredulously:

"We're out of gas. We can't be. I had it filled—it must have leaked."

He got out of the car and went around to the tank and returned. He stood at the door, his face looking ghostly white and like the face of a stranger in the faint light from the dash.

"We are out of gas," he said and stared at her.

"There was a filling station back there," said Rue. "It was closed, but perhaps—"

"Yes. Yes, I suppose I can break in." He stared at her again and said: "Yes, of course. I must have gas. I've got to have gas...."

It was rainy and dark, and they hadn't passed another car for a long time. She pulled her coat around her and said: "I'll go back with you."

He roused at that. He wouldn't have it; she'd get wet.

"I won't be long," he said. He looked at her again, eyes deeply shadowed and fixed, then he closed the door and disappeared into the murmurous darkness.

Rain slashed against the windows of the car.

It was very quiet except for the rain and very lonely. She could see no lights in any direction.

She settled herself to wait. It would take Andy, she supposed, about twenty minutes to walk back to the filling station, rouse someone or, as he said, break into the place, get some gasoline and trudge back through the rain to the car.

Well, if no car came along in the meantime, then there was no one to molest her. Consequently the sense of uneasiness that nagged at her had no meaning.

She reached for another cigarette and again had no matches. But in reaching into her pocket her fingers encountered the letter, and, because she had nothing else to do, she pulled it out, opened it and read it by the small light on the dashboard.

Read it—and knew why she was afraid.

It was a letter from Elizabeth Donney. And it enclosed another letter. Both were brief. She read Elizabeth's first.

Dear Rue:

The girls told me you were here, and we were speculating about whether or not Julie could have been having some kind of love affair. I think she had had, because this note was in a book in her room. I think it was from him, whoever he is, and that she'd gone to meet him the afternoon she was murdered. It's written, but I don't know the writing and it's not signed. I'm sending it to you instead of to the police; if it doesn't really mean anything I'd rather nobody else know. I'd hate Julie's little love affair in the papers, poor kid. She had so little. Telephone if you want to see me.

Elizabeth.

Rue read that first. Then she unfolded the enclosed note.

Rain drummed steadily upon the top of the car, sounding like footsteps sloshing through the wet.

"My sweet," said the note in heavy, markedly backhand writing.

My sweet:

Be sure you meet me this afternoon; in the restaurant on Rush Street at four. Did I tell you how long I've loved you? How, in the hospital, I've tried to find you, made excuses to talk to you. Among all the nurses and their white uniforms, I know the square little set of your shoulders and the knot of smooth brown hair under your perky little cap. Don't fail me this afternoon.

It was not signed. It needed no signature.

She did not even reread it. There was no need to.

"....the knot of smooth brown hair under your perky little cap.." Only, that other time, it had been gold hair. Her own. "Among all the nurses in the hospital..."

She broke off. She felt completely, utterly detached from her body, yet she knew there was danger.

It was her first clear thought.

Another one, racing, followed it; perhaps it came first and subconsciously roused her to danger, sounded the small clear tocsin of warning.

Andy hadn't wanted her to talk to Julie; because if Julie and she got together something would come out. Something that was hidden because—why, because it was the medicine. The medicine she herself had given Crystal. She hadn't prepared it, and Julie hadn't prepared it, for if so Julie would have made a note of it on the chart, and there was no such note. She hadn't prepared it, and Julie hadn't, yet the medicine was ready and waiting in a glass at seven, and Andy had been with Crystal at six o'clock.

He could have sent Julie out of the room on an errand. There were a dozen ways he could have accomplished a moment or two over the table of medicines. Just at that time, when Julie left and Rue came on duty, so Rue, naturally, would assume Julie had prepared the medicine.

### CHAPTER THIRTY-FOUR

Every conscious thought and feeling Rue had was submerged in one only, and that was a blind, compelling instinct of escape. She was out of the car, into that murmurous, wet darkness with rain on the top of the car which sounded like footsteps sloshing along toward her. She could see little. Lights reflecting eerily on wet pavement ahead, the light outside the filling station winking uncertainly through the rain and making a blurred halo around the gasoline pumps. Andy was back there somewhere in that dark wilderness between her and the area of light.

Yet the light outside the filling station was the only light to be seen.

She wanted Brule; she must find Brule; that was blind, unreasoning instinct too.

There would be a telephone in the filling station.

How could she travel that black, treacherous area between her and the light of the filling station and in doing so avoid Andy?

By listening, by watching for him by knowing that he would be coming and, when she saw him, by deserting the paved highway and taking refuge in the uncharted blackness at the side of the road.

She must have left the car almost instantly, for she was all at once in a completely black, wet world, with rain on her face now and her own footsteps barely audible through the murmur of the rain upon pavement all around her.

It was incredibly lonely.

Had Andy really gone to the filling station?

That stopped her sharply, her heart giving a great terrified leap. But, answering it, all at once rectangles of light sprang up ahead and were the outlines of windows. He had roused someone, then—or he had broken in in order to get the key to the gasoline pump.

She must have begun, then, to run. As much space as she could cover before he started back to the car with the gasoline can would in that race for time count for her.

What would he do when he found she'd left the car? First start the car, then probably call to her—perhaps drive ahead on the road a way. He'd be uncertain, perplexd. She could count on time for him to arrive at the conclusion that her escape was intentional—thus that she knew the whole horrible and dangerous truth. It would be then that he'd think of the telephone in the filling station.

Rain, wet pavement, blackness; her own breath coming in painful gasps, she was perceptibly nearer the area of light. Gasoline tanks loomed scarlet and shining with rain. Then she became aware that the rectangles that were windows had vanished. When? Surely not more than a moment ago; she would have noticed. But it meant he was coming.

She left the pavement; stumbling in the darkness, half falling down a kind of embankment. She paused to listen, and it was well she did, because Andy was coming along the road. She could hear his footsteps plainly, and he was making a curiously irregular progress—first walking very rapidly, with almost feverish eagerness for a few steps and then going very much slower, almost stopping altogether, and suddenly, decisively, quickening his pace again.

What had been his plan? Perhaps he had none. Perhaps that hesitancy, that abstracted silence, that anxious seeking for roads, indicated his dreadful indecision. Indecision only as to means; from the beginning he had realized the threat her very existence offered him. "Come with me," he had said the night the thing began. Come away with me he had meant, so I can watch you, so I can keep the police from asking you certain things. So you will not talk to Julie; so you will not remember what you must not be permitted to remember.

Dark as it was, she had a horrible moment of certainty that he would see her, huddling there below him; that he would feel her presence, that her very thoughts would be lines guiding him to her.

But he didn't. He went on, running for a few steps, and then stepped, until she thought she could bear the silence no longer and would scream—and then realized that his footsteps had blended at last with the drumming rain.

At last she crept out of the ditch and, finally, to the highway again.

Afraid, even then, that she had been deceived by some sound of the rain; that it hadn't actually been Andy who passed her there on the road.

But it was. The lighted area of the gasoline tanks was bare and empty. Away back along the black path she had come was a blur of lights outlining an object that was the car, and a tiny red dot that was its rear light.

She must cross the area of light quickly. She did so, flashing like a hunted small animal for cover.

The door of the little white building was closed but not locked. He'd broken in, for the bolt hung by one staple. It meant no one was there.

Would there be a telephone?

She didn't dare turn on lights as Andy had done. But the light from outside came faintly through the little window, and square in the path of it was the counter and telephone.

She grasped it, and her hands were so cold or so unsteady she couldn't for a moment, dial correctly. She forced her fingers to steadiness; she could barely see the slots in the dial.

But she did dial her own number, and after a long time a voice came, over the wire—and it was Brule.

"Brule—" She didn't know she sobbed.

When Mother goes to Town

A DELICIOUS MEAL IS ALREADY PREPARED

OVEN STEAMED FISH WITH PINEAPPLE

Place slices or fillets of fish in a well-oiled baking pan and sprinkle generously with salt. Place the pan in a moderate oven—350 to 400 deg. Fahr.—and cook until the fish is tender (about 10 minutes). The fish is cooked by the steam which is produced from the juices drawn out of the fish in cooking. Arrange the cooked fish on a hot platter and garnish with baked, broiled or fried pineapple rings and sprigs of fresh parsley.

*MEALS* are always a problem when you want to go out . . . but here is a simple way to satisfy everybody.

Plan a delicious cold supper of Fish . . . something that will refresh the family after a hot tiring day, yet leave you free for that afternoon of shopping or visiting.

Over 60 different kinds of Canadian Food Fish or Shellfish can be prepared in many different cool and inviting summer recipes . . . and the family will go for Fish in a big way because it is a welcome change.

DURHAM
Corn Starch

**Delicious Recipe for Vanilla Cream Pudding**

*Note: If desserts are to be turned into stemmed glasses and deeply chilled, Durham Corn Starch may be reduced to 3¼ tablespoonfuls, to insure great delicacy.*

Combine 5¼ tablespoons Durham Corn Starch very thoroughly with 4½ tablespoons granulated sugar and ¼ teaspoon salt. Slowly stir in 3 cups hot milk; return to double boiler and stir and cook until mixture thickens. Cover and cook, with occasional stirring, until no raw flavor remains. Remove from heat and add ¾ teaspoon vanilla. Cool slightly and turn into wet moulds or serving glasses. If chilled; this dessert may be unmoulded. Serve cold with fruit (fresh, stewed or canned), if desired; or accompany by Bee Hive Golden Corn Syrup or cream; plain or whipped. For coconut pudding, add shredded coconut to dessert and top with toasted coconut. Six servings. D12

Use level standard measurements.

DURHAM STARCH
Saves You Money!

## Weddings

### PAQUET—HARRIGAN

St. Mary's Cathedral, Kingston, was the scene of an interesting wedding on Monday, Sept. 4, when Kathryn Maureen, daughter of Mrs. Frances and the late Mr. John Harrigan was married to Mr. Lawrence Alfred Paquet, B.A., B. Com., son of Mr. and Mrs. Alfred Paquet, Deloro. The ceremony was performed by Rev. Thomas Mooney of the cathedral staff, assisted by Rev. James Gallivan S.M., Chicago, cousin of the bride. The bride, given in marriage by her brother, Mr. Jack Harrigan, wore a becoming gown of white taffeta, with juliet cap and shoulder veil and carried an ivory bound prayer book with ribbon streamers trimmed with lily-of-the-valley. Miss Bernadette Cooper was bridesmaid and was attired in orchid triple sheer with hat and gloves of purple and carried an old-fashioned nosegay with yellow streamers. The dainty little flower girl, Miss Kathryn Barrett, was a picture in her quaint pink frock with matching cap trimmed with tiny rose buds and carried a miniature nosegay.

Mrs. Harrigan, mother of the bride, wore a flowered navy blue crepe gown felt hat of navy and a corsage of roses. Mrs. Alfred Paquet, mother of the groom, wore wine colored sheer, with a bodice of lace and hat of same shade and corsage of roses.

The groom was attended by his brother, Mr. Eugene Paquet; the ushers were Dan Paquet and Francis Lawless. The popular young couple left for a holiday at St. Jovite in the Laurentians, the bride travelling in a teal blue suit of lame and brown hat, gloves and shoes; later they will take up residence in Montreal.

### HEFFER—CRAWFORD

Picton, Sept. 6 — St. Andrew's Presbyterian Church Manse, Picton, was the scene of an interesting wedding at eleven o'clock, Monday morning, when Gertrude E. Crawford, daughter of Mr. and Mrs. T. A. Crawford, Picton, R. 8 (Bethel), became the bride of Arthur S. Heffer, Belleville, son of Mr. and Mrs. Fred Heffer, Picton, R. 1. Rev. Dr. M. E. R. Boudreau officiated.

The bride was lovely in a gown of grapewine crepe with matching wool coat and accessories and wore a corsage of orchids. She was attended by Mrs. Harold Dowden of Trenton, who wore navy blue chiffon with fuschia sash, and navy blue accessories. Her corsage was of orchids. Mr. Harold R. Dowden was groomsman.

Later Mr. and Mrs. Heffer left by motor for Ottawa and points east. On their return they will reside at 68 North Front Street, Belleville. The groom is on the staff of the Canadian Bank of Commerce.

Mr. D. T. Crawford of Peterborough was an out-of-town guest at the wedding.

### ALLAN—WOODS

MADOC—A very pretty wedding was solemnized on Saturday, September 2nd at eleven o'clock a.m. at the home of Mr. and Mrs. John Woods, Cooper, when their eldest daughter, Verna Matilda, was united in the holy bonds of Matrimony to Theron Fields, eldest son of Mr. and Mrs. Malcolm Allan, Wellington.

Summer flowers and pink and white streamers decorated the house.

The ceremony was performed under an arch of evergreen and flowers by the Rev. George Crabbe of Eldorado.

The bride entered the room on the arm of her father to the strains of the bridal chorus played by Miss Helen Irwin. She looked charming in her floor length gown of ice blue taffeta with sweet heart neckline and hand pleating with bridal wreath of pink gardenias. Her bouquet was of pink Sweetheart roses and fern.

Her only attendant little Miss Arlene Woods, sister of the bride was flower girl. She was daintily dressed in pink taffeta made on similar lines to the bride with trimming of pale blue. Her basket was of pale blue taffeta with pink ribbon and flowers.

Following the ceremony a wedding breakfast was served to about sixty guests. The tables were prettily decorated in pink and white and seasonable flowers. The waitresses being eight girl friends of the bride were Misses Gladys Martin, Beulah Keene, Doris Fox, Margaret Hagerman, Rhoda McKinnon, Mary Taylor, Ivah Spencer and Mrs. Delbert Keene.

The bride's mother was attired in royal orchid sheer with a corsage of yellow gladioli and the groom's mother in aqua crepe with a white corsage of gladioli.

The happy couple left amid showers of confetti on a short trip to Watertown, the bride choosing for travelling a dress of romantic mauve sheer with three quarter length coat and accessories of royal orchid.

Upon their return they will reside in Wellington.

Mr. and Mrs. Clarence Frazer and Harold of Belleville were Sunday guests of Mr. and Mrs. Allan Holmes.

Misses Mabel and Jennie McCaw spent Sunday afternoon with their grandmother, Mrs. Miles Dyer.

Mr. and Mrs. John O'Rourke were Sunday guests of relatives at Eldorado.

Mr. and Mrs. Arthur Holmes and family of Cooper spent Sunday with Mrs. Ella Holmes.

Mr. Ed. Holmes, Wellington, spent Monday at his home here.

Mrs. A. La Fleur and daughters of Ottawa were guests of Mrs. Jos. Genereaux during the past week.

## *The Stars Say—*

For Thursday, September 7

By GENEVIEVE KEMBLE

RATHER dubious astral conditions prevail on this day,, judging by lunar and mutual aspects. There are signs of trickery, snares, intrigues and pitfalls generally, and since large interests may be at stake and important personages involved, it would be well to be keenly vigilant. With steady and dependable moves, danger may be sidestepped.

Those whose birthday it is are confronted by a year in which their own keen and dependable minds and sound judgment may be their salvation from snares, schemes, intrigues and sinister machinations which hold a menace.

A child born on this day may have keen mental faculties which will protect it from obscure and pernicious conditions or contacts which threaten to involve it in illicit or suspicious entanglements in life.

Welcome Home!

WE'RE glad to see you home again! (Bet you're feeling fit as a fiddle after your vacation.) It's always fun to get away for awhile, but it's almost as much of a joy to get back home among our old friends. Your Montrose Dairy milkman is glad to see you, too........and he's all ready to start delivering that delicious Montrose Milk again. Call today for the routemen!

FOR NEARLY HALF A CENTURY...

CANADIAN DAILY NEWSPAPERS THE BACKBONE OF BOVRIL ADVERTISING!

A quality product, plus continuous advertising over a period of fifty years, have made Bovril a household word throughout Canada and, in fact, the World. Here is what Mr. W. J. King, Vice-President, Bovril (Canada) Limited says about advertising:

*"We say without hesitation that the daily newspaper has been and still is the backbone and mainstay of all Bovril advertising campaigns.*

*"In our opinion, the daily newspaper provides the best medium for telling the consumer not only about our name and trademark but also the reasons why Bovril is good for people and the many ways in which it can be used.*

*"For these reasons we consider the daily newspaper practically indispensable; in fact, we would not consider any campaign complete unless the daily newspaper formed the major part of it."*

This conclusion is shared by many other successful national advertisers of long and wide experience who find that for building sales through advertising, nothing takes the place of the daily newspaper.

Canadian Daily Newspapers

*One of a series of announcements featuring specific examples of the power of newspaper advertising to build business.*

# JERSEY GIANTS DROP TWIN BILL TO NEWARK BEARS

### If Team Win Tonight and Rochester Loses, They Can Earn Tie for Flag

### BISONS BEATEN

### Only Persons on Hand When Toronto Loses to Red Wings 8-0

(By The Associated Press)

There's only one team, those determined Rochester Red Wings, between Jersey City Giants and the International League pennant. And Jersey City can clinch at least a tie for the flag tonight.

Even though the Jerseys dropped a doubleheader to Newark yesterday, 8-1 and 7-3, and incidentally let the Bears get into fourth place, the Little Giants got one rival out of the way.

Buffalo Bisons took an unexpected 11-10 drubbing from Montreal Royals and thus lost their last slim chance for the flag. The Bisons now are 3 1-2 games behind the leaders. Buffalo has four games left to play and Jersey City, five.

Thus, if the Jerseys turn the tables on Newark tonight and Rochester loses to Toronto, the Wings can't do better than a tie.

Only 3,546 fans were on hand at Jersey City when Newark's Joe Beggs shut out the league leaders until the ninth inning of the opener, and George Barley blanked them after the first inning of the nightcap.

At Toronto, where the weather was cold, only 100 were on hand to see Elwin (Preacher) Roe of Rochester whitewash the last place Maple Leafs with five hits.

Baltimore provided a surprise by whipping Syracuse, 4-3 and 6-0, to drop the Chiefs into the second division.

# AMATEUR GOLF MATCH MONDAY

### 171 Players Will Commence Quest for U. S. Amateur Golf Crown

New York, Sept. 6—(AP)—Pairings and starting times for the 171 players who survived or were exempted from sectional qualifying tests were announced today for the United States Amateur Golf Championship first qualifying round Monday at Chicago.

After the first round, the field will be cut to the 130 low scorers and ties. Tuesday's second qualifying round will slash it to the 64 who will begin match play Wednesday.

The better-known stars have been spotted through the field. Defending champion Willie Turnesa of Briarcliff Manor, N. Y., is scheduled to play with John Langley, former English Walker Cup player, but there probably will be a revision of the program here. It appears unlikely that Langley and S. B. Roberts, former Welsh champion, will be on hand because of the war.

Johnny Goodman, Omaha, and C. Ross (Sandy) Somerville, London, Ont., both ex-champs, were paired.

### Wrestling Last Night

(By The Associated Press)

Indianapolis: Bronko Nagurski, 230, International Falls, Minn., won over Hans Kampfer, 236, Germany, two of three falls.

Brought to Winnipeg at the start of the 1936 grid season to coach the Blue Bombers of the Western Conference—and leading them to the Canadian final in which they lost to Toronto Argonauts — Reg. Threlfall, (ABOVE) appears to be headed in the same direction again this season. His Bombers opened the western grid season by taking their first three games to go to the top of the heap. Victories by 12-1 over Calgary, and two wins from Regina by scores of 20-6 and 17-1, have started the western champs off on the right foot.

# Daffiness Boys Fighting To Regain The Bottom Spot Of First Division From Giants

### If Dodgers Get Into the Money, Hugh Casey Will Receive the Credit

### REDS BEAT CARDINALS

### Cincinnati Now Five Games in Front by Winning in Ten Frames

By Sid Feder Associated Press Sports Writer).

Brooklyn Dodgers aren't going anywhere in the National League pennant chase this year, but they may end up in the money yet.

The Daffiness Boys are having the fight of their lives trying to regain the bottom of the first division right now, while Cincinnati's Reds, by nosing out St. Louis Cardinals, 3-1, yesterday in 10 innings, are flying five games in front of the pack.

If the Dodgers wind up in the money, husky Hugh Casey will have a large bit to say about it. He's won 11 games so far this season, tossing a six-hitter on two-days' rest yesterday to whip Boston Bees, 6-2, for his fifth straight decision.

His hurling yesterday kept the Dodgers a half game away from fourth place , since New York Giants also won, blanking the failing Phillies, 6-0 behind C. Melton's nine-hit elbowing.

The Reds had to go all out to boost their league lead to five games, with Bucky Walters chalking up No. 21 in holding the Cards to seven hits. Bucky finally had to win his own ball game with a single in the 10th.

Only four teams saw action in the American League. Detroit's Tigers downed St. Louis Browns, 4-2, and Jimmy Dykes' amazing Chicago White Sox socked Cleveland Indians by the same score. Hank Greenberg's 25th homer broke a tie to make things easy for the Tigers.

Serving out his 18th season of big league baseball activity and past the peak he attained as one of the major leagues' greatest outfielders with Philadelphia Athletics Al Simmons ABOVE, finds the fates not too cruel following his sale recently from the seventh place Boston Bees to the pennant-bound Cincinnati Reds. Al is expected to add considerable punch to a weak outfield for the stretch drive on which might hinge the Reds' chances for the pennant.

### FIGHTS LAST NIGHT

(By The Associated Press)

Pittsburgh: Fritzie Zivic, 148, Pittsburgh stopped Peter De Ruzza, 146, New York, (6).

New York: Lew Jenkins, 133, Sweetwater, Tex., stopped Ginger Foran, 131 1-4, Liverpool, England, (4).

Garfield, N.J.: Johnny Juliano, 113, Paterson, N.J., outpointed Artie Weinberg, 118, New York, (8).

### PONY LEAGUE PLAYOFFS

Bedford, Pa., Sept. 6—(AP)—The pennant-winning Olean Oilers and Bradford's Bees will open the Pony League playoffs tonight at Olean. Batavia and Hamilton will start the other semi-final series Thursday at Hamilton, Ont.

Each series will be the best of five with the winners playing best of seven. Olean won the championship during the regular season with Hamilton finishing five games back.

# R. M. Gray of Toronto Wins Senior Trophy Fourth Straight Time

Laval-Sur-Le-Lac, Que., Sept. 6—(CP)—The championship of the Canadian Seniors' Golf Association remained today with R. M. Gray of Toronto. He won with a 36-hole total of 154 here yesterday.

The Rosedale veteran, who turned in a first-day round of 78, posted 76 yesterday to capture his fourth straight title. The runnerup, Frank Wilson of Ottawa Hunt, was six strokes off the pace.

Third place went to George Salter of Montreal, 81-83—164; while J. L. M. Thomson of Winnipeg tied with E. C. Gould of Brantford, Ont., for fourth, each with 81-84—165.

# CEMENTMEN WIN IN TWO STRAIGHT

### Defeat Gananoque 19-9 and Now Enter Eastern Zone Finals

Gananoque, Sept. 6—The Point Anne "Cementmen" advanced to the Eastern Ontario zone finals in the O.A.S.A. here last night as the result of a 19 to 9 win over Gananoque here. The Point Anne squad had won the initial game by a large margin and continued to dominate the play as they drove three hometown hurlers to cover.

The winners started slowly, but finally scored in every inning, except the first two and the eighth. The teams battled rather evenly until the fifth when Point Anne forged far in the lead and kept adding to their score throughout. Gananoque made their final bid in the fourth with a four-run splurge. Brant hurled steady ball for the winners.

Whitehouse, Loft and Bennett led the visitors on their vicious attack while Amo and Kennedy were the only homesters to find Brant for more than one hit, as they counted two each.

The score by innings:

| | | | |
|---|---|---|---|
| Point Anne.. | 002 532 403—19 | 19 | 3 |
| Gananoque... | 002 401 001— 9 | 9 | 4 |

Batteries: Point Anne—Brant and Green; Gananoque—Woodley, Knuttle and Ford.

Umpires—Corrigan, Kingston, plate; Baker, Gananoque, bases.

# *Brantford Hockey Player Moves To Cornwall*

Brantford, Sept. 6—Kenneth Ebby) Edmison, leading batter in the Intercounty Baseball Association Senior "A" grouping and a high-scoring hockey player of senior calibre, stated he was leaving today for Cornwall where he will link up with the Flyers of that city, who are attempting to enter the Montreal Senior League. The Flyers, with a number of new men on the roster, expect to be in the Allan Cup fight. Edmison called at the Canadian National Railways office today for his ticket. His departure will be a loss to Brantford sport circles. He has long been a star.

### SEAT OFFERED RALSTON

Ottawa, Sept. 6 (CP)—Hugh Plaxton, Liberal member for Toronto-Greenwood, today wrote Prime Minister Mackenzie King offering his seat in the House of Commons to Hon. J. L. Ralston if the government desired to bring the former defence minister into the cabinet.

Mr. Plaxton wrote the Prime Minister that he intended to be "serving elsewhere" during the war period.

# Belleville Juniors Defeated In First Game of Play-offs By Toronto Grads 16 to 9

### Six-Run Rally in Fourth Gives Riverdale Grads 16-9 Win Over Local Juniors

### C.A.S.A. SEMI-FINAL

### Belleville Kids Boot the Ball for Nine Errors and Play Worst Game of the Season

Booting the ball around in a most heart-breaking manner, the Belleville Citizen "Milkmen" dropped a drab 16 to 9 decision to the Toronto Riverdale Grads in the first game of the Eastern Ontario junior O.A.S.A. finals played at Coleman Flats last evening. The second game of the series will be played at Kew Gardens, Toronto, on Thursday.

The Belleville kids have never been seen at a worse advantage this season as they booted nine batted balls for glaring and costly errors, without taking into consideration their loose play around the infield on thrown balls alone. After taking a firm lead in the early stages the Young-Townsend-led nine literally went to pieces in the fourth as the Toronto Grads scored six runs on three hits, not an earned run crossing the home base during the inning. The visitors pounded offerings of two Belleville moundsmen most viciously during the middle sessions, after the local kids had all but presented the game to the Queen City nine.

#### Locals Lead Early

Belleville scored three runs in the first and second innings and were leading 6 to 4 when the balloon ascension took place in the fatal fourth. After the Grads snatched the lead with their six run splurge, the issue was never in doubt, as the locals continued to play ragged ball. Dyett, hurling for the Toronto Grads, struck out nine, while Hook and Mallory, who shared Belleville's pitching efforts, whiffed seven, Hook getting five. Belleville left three stranded in the eighth, when a timely hit might have turned the tide, but Dyett proved too masterful.

#### Three Home Runs

Dyett and Gaull hit home runs for Toronto, while Yarrow smacked a circuit blow for the homesters in the first frame. Ferguson and Gaull with three hits each paced the Grads, as Graham led all hitters with two hits in as many tries. Yarrow with three and Doherty and Cook with two each looked the best offensively for the "milkmen." Belleville's defence totally collapsed leaving no support in the field for the local pitchers. Dyett's teammates rallied behind him once the Queen City nine assumed the advantage in the fourth.

Wearing a big smile and holding a big trophy is Art Chester, 40-year-old speed demon of the airways, seen after he had taken first prize money in the L. W. Greve race during the U.S. national air races at Cleveland, high spot in airplane racing across the line. In accomplishing his feat—which netted him a nifty $10,000-Chester set a new mark of 263.39 m.p.h. for the 200-mile event.

# 500 NOW INTERNED IN GREAT BRITAIN

### Four Members of Society Known as "The Link" in Concentration Camp

London, Sept. 6—(CP)— The Daily Mail said today that four members of an organization known as "The Link" are among 120 foreign residents of Britain interned in the London district.

"The Link" denounced recently as "an instrument of the German propaganda service" by Sir Samuel Hoare, then Home Secretary, was ostensibly an organization to promote Anglo-German friendship.

The Daily Mail said 500 persons have been interned throughout Great Britain since the beginning of the war.

Admiral Sir Barry Domville, former director of naval intelligence and chairman of "The Link" in a statement issued today said the offices of his organization had been closed immediately upon the British declaration of war.

"We did our best to improve the cordial relations between the British and German people," Sir Barry said. "Now that we are at war the enemies of the King are our enemies."

### TO PLAY OUT SCHEDULE

Montreal, Sept. 6 —(CP)— The Interprovincial Rugby Football Union will go through with its 1939 schedule "provided the Dominion Parliament does not rule that all sport activities in Canada must be curtailed," President Ernie Hamilton said last night.

Johnny Rizzo, freshman sensation in the Pittsburgh Pirates outfield last year, slides safely in with a run during a game with Philadelphia Phillies as catcher Spud Davis makes an unsuccessful effort to get the ball on him. The camera clicked before the umpire had time to render his decision on the play and standing by are a teammate and a cameraman. Rizzo has been somewhat of a flop in his second year and Pie Traynor has had considerable trouble piecing together any kind of a consistent outfield all year.

## Between the Lines

with
*Ken J. Colling*

What puzzles the city softball experts is how a team of young energetic softball players, like the Citizen Dairy "milkmen" can go out and play such a bang-up series as they did against Oshawa and then turn right around and look as miserable as the locals were against the Toronto Riverdale Grads last night. The score of 16 to 9 in favour of Toronto is no criterion by which to judge the relative strength of the two clubs, especially on the drab showing of the "milkmen" last night. However, if our memory serves us right these two clubs met in the provincial semi-finals last year and Belleville won in Toronto, but lost at home, forcing a third game at Cobourg, which was won by the Riverdale Grads, who later went on to win the 1938 junior O. A. S. A. title. Getting back to last night's headache, the Young-led locals never looked at a worst advantage. They started off in fine fettle, but suddenly they began to throw the ball at random and boot the spheriod in a most disgraceful manner and although they were outhit, the blame of the loss cannot be laid to the two Belleville hurlers.

The errors chalked up against the "milkmen" in the box score are direct errors, as no account of the dropped balls could have been kept, but we feel the local kids got a really bad game out of their system and will surprise the Toronto Grads at Kew Gardens tomorrow night. Pitcher Dyett, who hurled for the Grads last night, was with the club last year when they eliminated the local Belmonts, as was Stein, in centre, Brown at third and Ferguson. Regan, the lofty gent who played shortstop for the grads, is a hockey player of note, having played last winter with the St. Michael's College junior "A" squad. There is no way in which one could vindicate the locals for their poor defensive play last night, but providing they tighten up their defence and continue to pound Dyett for another 11 hits, there is little doubt but they will force the series into a third game. On the other hand it must be remembered that Arnold Ethier is the only hold-over "Red" Townsend had from his 1938 regulars and win or lose the local junior softballers have done remarkably well this season.

Few of the present generation of sport fans remember the 235th Battalion hockey team, that played its O. H. A. games in the old Arnott Arena during the late war in 1917. If the present crisis continues we may see the same conditions prevail throughout the O. H. A. next winter, according to a news despatch released by Jimmy Douglas, president of the O. H. A., yesterday. President Douglas is getting in touch with his executive to discuss possible steps necessary to meet the new conditions imposed by the war in Europe and no doubt the Association will revert to their measures of the last war, when several "soldier teams" entered the hockey set-up of the province. Of course the Association residence rule would not affect military teams in time of war. It begins to look as though the senior O.R.F.U. group may be also affected by the war conditions. Today Fred Porter, director of the Montreal Westmounts, of the senior O.R.F.U. stated that the Westmount grounds are to be used for military purposes and he "doubted very much if the Westmounts would operate this fall."

Last night's rugby football meeting of the Lake Shore group in the O.R.F.U. here saw war take a drastic toll. The only clubs represented were the newly proposed Belleville juniors and the group-champion Cobourg "Red Raiders." Fearing that neither the Air Force or the Kingston Signals will be able to field a team for this coming campaign, Convener Bill Fry advised the two clubs represented to look elsewhere for a grouping in 1939, which appears to be very sound and logical advice with the war clouds hanging over Europe. Eddie Schrieder, who is keenly interested in the sponsoring of a junior O.R.F.U. team in Belleville for this season, is seriously considering making advances towards the Kingston district junior group, that consisted of Queens, K.C.I.&V.S., and Regiopolis last year. No doubt a fourth entry would be most acceptable to the Kingston clubs and the matter will be brought up before Charlie Hicks, director of Athletics at Queens through Convener Bill Fry in the near future.

But what of the Cobourg "Red Raiders", who seem to be left in the cold by Kingston, Belleville and the Air Force? Fred Dufton was on hand last night and intimated he would try to procure a berth for his "red-clad" gridsters in a Toronto grouping. Gordon Meikle, Cobourg's star punter and triple threat man of last season, is now with the Sarnia Imperials, but before leaving Cobourg Meikle provided the "Red Raiders" with a 20-year-old hoofer from Toronto, whom Dufton says tops Meikle right now. On paper it would seem the Cobourg gridders boast of as good a squad as the Peterborough "Orfuns." With the latest news out that it is possible that the Montreal Westmounts will not operate this coming football season, would it not be good business on the part of the "Red Raiders" to apply for the Westmount's berth in the senior O.R.F.U. picture? Actually the only long trip the Red Raiders would face would be to Sarnia, as the trips to Toronto and Peterboro' would not be as far as was Kingston last season.

The Point Anne "Cementmen" should about be ready for the Eastern Ontario zone finals in the O.A.S.A., after having eliminated Gananoque. Yesterday in the 'eastern town' Bobby Gaulin's Ox Point nine repeated their trouncing of last week at home when they downed "Gan" 19 to 9 yesterday to take the round in consecutive games. After watching the "Cementmen" play all season we feel assured that, barring accidents, Point Anne softball fans should be ready to welcome home the intermediate "C" champions of the O.A.S.A. along about the last week in September. Perhaps we are going out on the limb with such a calling, but the team to oust the Ox Point gang will have to be of class "A" calibre.

SPORT JOTTINGS — There are two things to keep in mind.... the lawn bowling tournament in aid of the Red Cross here on Friday and this evening's Peterboro--Belleville softball game .... It's always fair weather, but seldom good feelings when Belleville and Peterboro' softball interests clash.. The Reds regained that lost game of Monday, when they vanquished the Cards yesterday and are again enjoying a five game lead in the National....A lot of things depend on tomorrow's session of Parliament, especially along the lines of professional hockey, which has a bad case of jitters right now.... The Dodgers are still in the National League and are winning persistently, much to the chagrin of Bill Terry.

## AT THE BELLE

"Lady of The Tropics"

The widely-awaited appearance of Robert Taylor and the sensational Hedy Lamarr in "Lady of the Tropics" a languorous drama of smouldering passions laid against an exotic background of Indo-China, is now occurring at the Belle Theatre in what is heralded as the most fascinating romance of the year.

A dramatic tale of an adventurous American and a beauteous half-caste of the Orient, the picture surrounds Taylor and Miss Lamarr with lavish settings reminiscent of the mysticism and splendors of the Far East in a story written especially for the stars by Ben Hetch.

Three years in preparation, "Lady of the Tropics" brings to the screen for the first time a panorama of background scenes of little-known places of Indo-China and Cambodia which were filmed by a photographic expedition exclusively for the picture.

The love story has its beginning in the harbor of Saigon, with its teeming Oriental traffic of ocean liners off-shore, quaint native craft at the docks, natives babbling in the colorful, narrow places and caparisoned elephants and oxen lumbering through the streets.

A riverfront a quarter of mile in length was dredged from California soil, landings were built, native huts were erected on poles and a large section of the famed and ancient Angkor Wat Temple was recreated for a climatic love scene between Taylor and Miss Lamarr.

Taylor, as Bill Carey, arrives in Saigon and falls in love with Manon, the Eurasian portrayed by Miss Lamarr. A half-caste she is bound to Indo-China by racial distinctions. Failing to escape through the influence, Manon feigns friendship for Delaroch to obtain passports for herself and her husband. Misunderstanding, the husband quarrels with Manon and threatens to kill Delaroch. To save her husband, Manon finds her own solution in a tensely dramatic climax. Amid lavish oriental settings the picture is unfolded with the aid of a great supporting cast that includes Gloria Franklin, Ernest Cossart, Mary Taylor, Charles Trowbridge, Frederick Worflock, and Paul Forcasi.

"Marine Circus" a Pete Smith specialty in technicolor, Dark Magic, a funny and original Robert Benchley comedy, and a new and interesting passing parade subject "The story of Dr. Jenner," will be presented on the same program.

House in good state of repair. Estate must be closed as soon as possible. Exclusive Agent, Geo. N. Gorman, 166 Front Street, Phone 99, House Phone 687. a26-tf

## Momentary Flurry Caused By Finding Of Bremen Lifebuoys

Orleans, Mass., Sept. 6—(AP)—With the German liner Bremen unreported since sailing from New York last week, a momentary flurry occurred here today when it was learned two lifebuoys marked "Bremen" had been found on the beach.

Coastguardsmen pointed out, however, that the lifebuoys were found last week while the Bremen was at her New York dock. Guardsmen suggested that if the buoys belonged to the German vessel they probably had been lost during her last westward crossing in a storm.

THE OLD RELIABLE WALKER FOUNDRY

Making PLOW POINTS for more than three-quarters of a century. You cannot buy better wearing points anywhere and the Price is much lower because we sell direct to the Farmer. NO MIDDLE MEN. We operate Custom Foundry and do General Repairing, Portable Electric and Acetylene Welding by Experts.

The funeral will take place from the home of her son, Isaac Stephenson, 105 Great St. James Street, on Thursday September 7th., at 2.30 p.m. D.S.T. Interment Belleville Cemetery. s6-1t

## NO INDICATIONS ITALY INTENDS TO ENTER WAR SOON

### Temporary Air Raid Shelters in Rome Taken Down —Army Kept Ready

### PRESS FAVORS NAZIS

Rome, Sept. 6—(AP)—Italy pursued her neutral course in Europe's conflict today with new indications she does not expect to enter the war in the near future—but she kept her war machine ready.

While workmen took down temporary air raid shelters in Rome, additional equipment was requisitioned to facilitate military movements and the sending of supplies to the 1,800,000 men under arms.

Such preparations extended to Albania, Libya and Ethiopia, where most of the quasi-wartime measures in effect in Italy also have been instituted.

The Fascist press continued to publish official communiques from both sides, and exhibited increasing enthusiasm over the German advance into Poland.

**Poland's Situation Desperate**

Much was made of the situation on the western front where, the newspapers said, the French had not yet fired a rifle shot. In the eastern theatre, Lieut.-Col. Amedeo Tosti described Poland's situation as desperate. Writing in Forze Armate, outstanding Italian military organ, he said it was virtually impossible for Poland to get supplies, claimed great superiority for the German army in men and equipment, and spoke of the vulnerability of Polish territory to air raids.

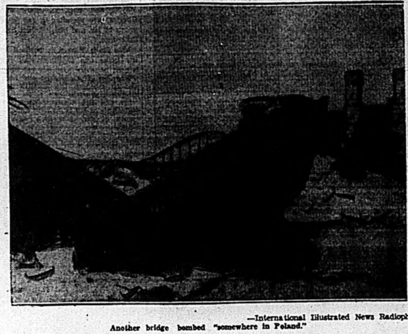
Americans seeking to return home have booked to capacity the liner Rex, sailing Saturday from Naples. Rates are higher than normally, with $400 the minimum for first-class passage to New York and $250 for tourist accommodations.

**Ban Lifted on Shipping**

Shanghai, Sept. 6—(AP)—Apparently satisfied there are no German raiders in China waters, the British navy today lifted the ban on British ship movements along the China coast, permitting British passenger and cargo vessels to leave Shanghai both northward and to Hong Kong. Shipping had been held here three days.

Sandy, Mischa Auer and Dennis O'Keefe in "Unexpected Father," with a second feature, "Forbidden Valley," starring Noah Beery, coming next to the Capitol Theatre.

## IN POLAND:—



—International Illustrated News Radiophoto

Another bridge bombed "somewhere in Poland."

## IN LONDON:—

—International Illustrated News Radiophoto

Americans crowd office of United States Lines in London for steamship passage home.

## IN BERLIN:—

—International Illustrated News Radiophoto

German propaganda bureau in Berlin releases this photo of Polish prisoners, one waving a Swastika.

## ITALY MAY TAKE

(Continued From Page One)

Premier Mussolini's Ethiopian campaign and the resultant economic sanctions against him by other powers gave Fuehrer Hitler's travelling salesmen, the opportunity to get the lion's share of the rich business of Hungary, Yugoslavia Greece, Rumania, Bulgaria and Turkey four years ago.

The present war, by putting a stop to exports from Germany to this section, gives Italy virtually a clear field.

Although Germany has bought more than she has sold down here, her trade policy has been one of bartertrading armaments and machinery for oil, tobacco and agricultural products.

But now Germany no longer can help rearm southeastern Europe and she also needs all her own steel and machinery. She naturally wants, more than ever, the products of this section as war supplies. But the only way she can pay is in credits, and they are not wanted here.

Meanwhile, Italy, as long as she remains neutral, is in a perfect position to scoop up this trade.

## No News Of Bremen

New York, Sept. 6—(CP)—Whereabouts of the $20,000,000 German liner Bremen, unreported since it sailed from here a week ago without passengers or cargo, remained a major Maritime mystery. The big ship was believed hiding in neutral waters to avoid capture by British warships.

Shipping men also conjectured on the possibility the Bremen, one of the fastest ships afloat, had been armed at sea and converted into a merchant privateer.

## SCOTT'S SCRAP BOOK

THE FIRST MAN KILLED IN THE CIVIL WAR IS SAID TO HAVE BEEN Colonel Ellsworth OF THE UNITED STATES ARMY, WHO WAS SHOT AFTER HE HAD REMOVED THE CONFEDERATE FLAG FROM THE ROOF OF THE MARSHALL HOUSE IN ALEXANDRIA, VIRGINIA
A NEW SPECIES OF TROPICAL PALM HAS BEEN NAMED Rooseveltia Franklinians BY THE UNITED STATES DEPARTMENT OF AGRICULTURE — IT GROWS ONLY ON TINY COCOS ISLAND IN THE PACIFIC, VISITED BY THE PRESIDENT ON A FISHING TRIP
A FERRYBOAT OPERATING BETWEEN LYMINGTON AND THE ISLE OF WIGHT HAS PROPELLERS AT BOTH ENDS, BUT NO RUDDER, AND CAN MOVE SIDEWAYS
Scott 9-6

Chancellor Adolf Hitler, clad in the army gray uniform of the Reich army, is shown here saluting as he left the Reichstag after announcing that Germany would now take armed action against Poland. In his announcement Hitler declared that he intended to be "The First Soldier of the German Reich" and that he would enforce a Polish settlement or die. This picture was radioed from Berlin.

## Shannonville

SHANNONVILLE — Mrs. Olive Mayell and children, Mary and Charles, are spending a few days guests of Mr. and Mrs. William Bell, Deseronto.

Miss Ruth Heaven is confined to her home due to illness. All her friends hope for a speedy recovery.

The Rev. P. C. Heaven and Mrs. Heaven attended the Toronto Exhibition last week.

Mr. and Mrs. Clarence Robertson and Annie of Kingston were Sunday guests of Mr. and Mrs. Arthur Knight.

Mrs Jack Kent has returned home after spending a few days at Michigan.

Mr. and Mrs. Ray Cook were Sunday guests of Mr. and Mrs. Ira Cook.

Mr. Wilbert MacFarlane spent Sunday the guest of Mr. and Mrs. Albert Marks.

Mr. and Mrs. Barney Parsons of Belleville called on Mrs. Kathleen Mills, Sunday. .

Mr. and Mrs. Bray Noyes motored to St. Catharines on Sunday.

Mr. Kenneth Greatrix called on Mr. and Mrs. Ben Fuller on Sunday.

Miss Olive Burtt has returned home after spending her vacation with her grandparents, Mr. and Mrs. Charley Howard, Milltown.

Mrs. Percy Ray and Franklin of Zion were guests of her mother, Mrs. Frank Doxtator, last Thursday.

Mr. S. Sherman and son of Melrose were on the second line last week and finished threshing on this line with the exception of the buckwheat.

Mrs. Ted Breadman of Milltown was a Thursday guest of her mother, Mrs. Lela Stewart and her brother, Mr. Ben Ctewart.

Mr. and Mrs. Asa Price entertained their niece and nephew, Mr. and Mrs. Herb MacCauley of Salmon Point a recent Sunday.

Rain is badly needed in this district as wells are going dry.

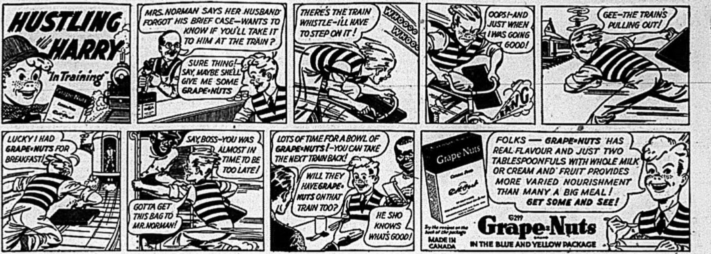
Mr. Ross Fuller of Oshawa spent the week-end at his home.

Mr. and Mrs. Stanley MacDonald spent the week-end in Toronto attending the Toronto Exhibition.

The railroad men are guarding the railroad bridges in this district against possible sabotage, some of the men giving up their holidays for this duty.

Mr. and Mrs. Wallace Robertson and their guest, Buddy Mowers spent Sunday at Napanee and Kingston where they visited Mrs. Robertson's grandfather who is a patient at the Kingston hospital.

Mrs. Frank Doxtator entertained Melrose W.I. of which she is a member on Thursday afternoon, also the members of the Quinte branch who were guests of the Melrose W.I. One hundred and twenty-five ladies and children enjoyed the program and lunch served by the hostess on the lawn and in the dining room. A very enjoyable afternoon was spent by all present.



HUSTLING HARRY "In Training"
MRS. NORMAN SAYS HER HUSBAND FORGOT HIS BRIEF CASE—WANTS TO KNOW IF YOU'LL TAKE IT TO HIM AT THE TRAIN?
SURE THING!—SAY, MAYBE SHE'LL GIVE ME SOME GRAPE-NUTS
THERE'S THE TRAIN WHISTLE—I'LL HAVE TO STEP ON IT!
WHOOO WHOOO
OOPS!—AND JUST WHEN I WAS GOING GOOD!
BANG
GEE—THE TRAIN'S PULLING OUT!
LUCKY I HAD GRAPE-NUTS FOR BREAKFAST!
SAY, BOSS—YOU WAS ALMOST IN TIME TO BE TOO LATE!
GOTTA GET THIS BAG TO MR. NORMAN!
LOTS OF TIME FOR A BOWL OF GRAPE-NUTS!—YOU CAN TAKE THE NEXT TRAIN BACK!
WILL THEY HAVE GRAPE-NUTS ON THAT TRAIN TOO?
HE SHO KNOWS WHAT'S GOOD!
FOLKS — GRAPE-NUTS HAS REAL FLAVOUR AND JUST TWO TABLESPOONFULS WITH WHOLE MILK OR CREAM AND FRUIT PROVIDES MORE VARIED NOURISHMENT THAN MANY A BIG MEAL! GET SOME AND SEE!

### WALL STREET

New York, Sept. 6 (AP)—Buyers got behind the stock market today after heavy profit-taking on Tuesday's war boom bulge had knocked down leaders one to four points. Rails led the return trip upward.

The ticker tape ran as much as four minutes behind during the greater part of the proceedings.

Advances were posted for N. Y. Central, Southern Pacific, Montgomery Ward, Sears Roebuck, Allied Chemical, Western Union, North American, J. C. Penny, American Can, Texas Corp. and General Electric.

Among losers were U.S. Steel, Bethlehem, Chrysler, Kennecott, Du Pont, Goodrich, Douglas Aircraft and International Harvester.

Dome dopped nearly two points in the Canadian section and fractional losses were chalked up for McIntyre Porcupine and Distillers. C.P.R. moved forward. Dominion 4's attracted a moderate following in the bond market.

### TORONTO STOCKS 2.15 P.M.

Toronto, Sept. 6—(CP)—Profit-taking on yesterday's whirl-wind advance on Toronto exchange today kept the market under subjection in early trade. Gains were cut in base metals. Industrialists held steady. Golds were about even with an early afternoon sell-off, especially in the senior issues.

McIntyre declined 3 1-2, Dome about 2 and Lake Shore nearly 1. Losses of 10 to 15 cents were showing for Wright-Hargreaves, Little Long Lac, East Malartic, O'Brien and Kirkland Lake.

Senior base metals, including Nickel, Hudson Bay and Noranda eased off 1 to 2 points and Pend Oreille, Sudbury Basin and Ventures settled back. Calgary-Edmonton, Foothills, Anglo Canadian and Dalhousie were firm to strong spots in western oils.

## GRAIN MARKET

## *Butter Soars 1 1-2 to 2 Cents, Cheese Also Advances 1 Cent*

Toronto, Sept. 6—Butter, a war commodity, soared 1 1-2c to 2c per pound here yesterday, while cheese jumped a full cent on the expectation that Britain may need heavier supplies of cheese from Canada.

While there was no rush to buy butter, holders were wary in offering under present world conditions and prices were rapidly advanced. The Department of Agriculture reported sales in Ontario No. 1 creamery solids at 24c to 24 1-2c, with one odd lot said to have been sold as high as 25c. Demand was not restricted to Toronto, but outside inquiry was evident. The department said that prices were difficult to fix, and holders at the close were asking 24 1-2c and higher. Western sold up to 25c per pound. Prints to retailers advanced in sympathy with solids.

Offerings were also limited on the cheese market. New, large paraffined rose 1c per pound to 13c to the wholesale trade, and retail prices followed this increase.

While the undertone was firm, little change occurred on the egg market. Receipts were sufficient to fill demand.

**Montreal Produce Steady**

Montreal, Sept. 6—(CP)—Produce market prices here yesterday as reported by the Dominion Agriculture Bureau, follow:

Butter: First grade creamery prints, job price, 25c to 25 1-2c; first grade solids, job price 24 1-2c to 25c.

Cheese: Unquoted. Receipts: 1,503 boxes.

Eggs: Graded inspected shipments in used free cases, A-large 28c to 29c; A-medium 25c to 27c; A-pullets 22c; B-large 20c to 21c; C 14½c to 15c, uninspected lots ½c less; lower grades only, B 19c to 19 1-2c and C 14c. Receipts: 794 cases.

## Produce Markets

**TORONTO BUYING PRICES**

(By United Farmers Co-operative Company)

United Farmers Co-operative Co. today were paying the following prices for Toronto delivery:

## HOG QUOTATIONS

Toronto, Sept. 6 (CP) — Hog prices were stronger on reporting markets today. Brantford dressedweights advanced 55 cents to $10.35 to show the sharpest rise. London, Peterborough and Stratford prices rose 25 cents while liveweight prices in Brantford and Hull increased 30 and 10 cents, respectively.

Dressedweights — Barrie $10.25, Brantford $10.35, Hamilton $10.55, Hull $10, London $10 plus transportation, Peterborough $10 plus transportation, Stratford $10.25 plus transportation.

Liveweights — Brantford $7.65, Hull $7.50.

## LIVESTOCK

Toronto, Sept. 6—(CP)— Trade on the cattle division of the Toronto Livestock market was steady to strong in the mid-session trading today. Calf prices were firm while lamb prices were steady to 25 cents higher.

Sheep were steady and no price was established for hogs. Cattle holdover from Tuesday was 400 head.

Receipts reported by the Dominion Livestock Branch were: cattle 860; calves 730; hogs 1,120; sheep and lambs 400.

Weighty steers sold at $6-$7.25. Good butcher steers and heifers were $6.75-$7 with common selling downward to $5. Butcher cows brought $3.50-$5 and a few $5.25. Good bulls made $5-$5.50 and bologna bulls $4-$4.75. Fed calves ranged from $7-$8.75 and stockers $5-$6.25.

Calves of choice quality were $9.50-$10 and a few reached as high as $10.25. Common vealers sold downward to $5.50. Grassers brought $4.50-$5.

Previous close on hogs was $10.50-$10.65 for dressedweights and $8 for off-truck bacon liveweights.

Good ewe and wether lambs made $8-$8.25. Bucks were $7-$7.25 and culls $6.25. Sheep sold at $2-$4.50.

## DESTRUCTION OF CHURCH PROPERTY AIRED IN COURT

### Geo. Stringer, Bannockburn, Convicted of Destroying Church Notice

Charged with destroying property, namely a church notice, George Stringer, Bannockburn, was fined one dollar and additional costs of $10.55 after being convicted of the wilful destruction of property when the accused appeared before County Police Court, held before Magistrate J. L. Lloyd at Madoc today.

Stringer was charged with destroying a church notice, said to have been placed by the Pentecostal Church in the vicinity of Bannockburn. Stringer contended that the church notice was lying on the ground when he walked past with an axe in his hand. "I only gave it a swipe for fun," remarked the accused.

"In the future don't destroy other people's property just for the fun of it," warned Crown Attorney B. C. Donnan, K.C., who conducted the court prosecution.

Jack Cook of Belleville was convicted of careless driving, but the imposed fine was suspended upon the payment of costs, amounting to $11.00. The charge arose out of a motor car accident, which happened north of Madoc and during which the car Cook was driving turned over in the ditch. There were no injuries sustained.

Joseph Allair, Picton, was convicted on a charge of fraud. Allair was charged that he did unlawfully obtain a motor car in the village of Tweed and under false pretenses. Sentence was suspended for one year upon the payment of costs which amounted to $30.50. The case was introduced by Chief Hayes of Tweed.

Several other minor cases were disposed of in a lengthy session of police court.

## MAJ. JAS. SWORD DIES AT KINGSTON

### Had Been Ill for Some Time in the Kingston Hospital

### FINE MILITARY RECORD

One of Belleville's distinguished military sons, Major James G. Sword, passed away last evening in Kingston General Hospital where he had been a patient for some time. A resident of this district for the past twenty years, Major Sword had made many friends by whom the news of his death was received with sincere regret.

Born in London, England, the late Major Sword was in his fifty-first year and was a son of the late Mr. and Mrs. Andrew Sword. After coming to this country from England twenty years ago, Major Sword made his home in this district, residing latterly at 304 Church Street, Belleville. He was a clerk at the Canadian Industrial Alcohol Company, Corbyville. In religion Major Sword was a member of the Anglican Church. He was also a member of Moira Lodge No. 11 A.F. & A.M.

The late Major Sword had a brilliant military record. He served in the Great War as Captain of the Royal Fusiliers. In Belleville he was attached as Major to the 15th Regiment until 1937 when he was listed on the reserve list of officers. For his splendid service overseas he was awarded the Military Cross and was twice mentioned in despatches.

Left to mourn his passing, and to whom the sympathy of the community is extended, are his wife, formerly Miss Mary Dunn; three daughters, Mrs. Cecil Cook, Belleville, Misses Jean and Florence at home; one son, Jack at home; and four brothers, Messrs. Andrew, David and Herbert Sword of Toronto, and Mr. Stephen Sword of Belleville.

The body is resting at the Belleville Burial Company Funeral Home. (Funeral notice later.)

## COL. W. N. PONTON

*(Continued From Page One)*

his close friends many eminent personages.

**Loved Native City**

Col. Ponton loved his native city of Belleville; its advancement and the welfare of its people were close to his heart and at all times he was willing to give his support to worthy causes. In the City Council and in the Board of Education for many years he served earnestly and his ability and experience were of much value and highly appreciated by his fellow members in these bodies. Over a lengthy period of time he was Secretary of the Board of Trade and did excellent work in this organization.

"Old Belleville Boys and Girls" received always from him a hearty welcome home and he was interested in their progress. In the carrying through to successful endings the several "Old Boys' Reunions" which were held here, Col. Ponton was one of the leaders and did excellent service.

**Interested in Militia**

At an early age Col. Ponton became interested in the militia and as a young man he was a member of the Queen's Own Rifles, Toronto. Later he joined the 15th Battalion Light Infantry as Color-Sergeant of No. 1 Company. Eventually he became an officer of the regiment and as Lt. Colonel he was in command of the battalion from 1895 to 1901. During his regime a company of 22 men was sent from here to South Africa to take part in the Boer War. Since his retirement he was the Honorary Colonel of the Regiment. With the officers and men he was popular and occupied a high place in their regard. During the Great War Col. Ponton was indefatigable in assisting in recruiting and addressed many public meetings in all parts of the country. He was also a member of the Central Executive of the Canadian Red Cross Society.

**Born in Thurlow Township**

The late Col. William Nisbet Ponton, M.A., K.C., V.D., was born in Thurlow Township on Jan. 22nd, 1855, the son of James W. Ponton and his wife Anna Hutton. Later the family took up residence in Sidney Township in the house, Sidney Cottage, and there Col. Ponton grew to manhood and lived his entire life. He was educated in the Belleville public and high schools, Upper Canada College, the University of Toronto and Osgoode Hall. He was a brilliant student and gold medalist in modern languages. Upon graduation from the law school he was called to the Ontario Bar in the year 1880 and commenced the practise of his profession in Belleville. For many years he carried on an extensive law business and in the year 1908 he was created a King's Counsel.

**Registrar of Bar Association**

For years he was Registrar of the Canadian Bar Association, and a Bencher of the Law Society of Upper Canada. He took a deep interest in educational matters and was a member of the Senate of the University of Toronto, and also a member of the Board of Governors of Upper Canada College, and a Vice President of the Old Boys' Association of this college. He was a Fellow and Vice President for Ontario of the Royal Empire Society of London, Eng. In the Masonic Order Col. Ponton occupied a place of prominence and was Past Grand First Principal of the Grand Chapter of Canada; Grand Historian and Fraternal Correspondent: Past Grand Master Grand Lodge of Canada, and Grand Correspondent thereof; member of The Belleville Lodge No. 123 A.F. and A.M.; Moira Chapter No. 7 and King Baldwin Preceptory No 6. He was also an Honorary Member of the Masonic Grand Lodge of Manitoba, and of several jurisdictions in the United States. He was Vice-Consul for the United States in Belleville and district for some years.

**Married Twice**

Col. Ponton was married in the year 1883 to Miss May E. Sankey and she passed away many years ago. In the year 1923 he married Miss Enid Logan of New York City, who survives him.

By his first marriage Col. Ponton had two daughters and three sons of whom the following survive: Mrs. Blagrave, wife of the Rev. Dr. Blagrave of Hamilton; Mrs. W. M. Logan of Hamilton; Mr. Harry Ponton of Grimsby Beach, Ont., and Mr. Gerald Ponton of St. Augustine, Florida. Major Richard Douglas Ponton, who served in France during the Great War and later became Junior Judge for the Counties of Victoria and Haliburton, stationed at Lindsay, died a few years ago.

Col. Ponton was a prominent member of St. Andrew's Presbyterian Church and the funeral service will be held in that church Friday afternoon.

**Many Tributes Paid**

Political, military and civil officials and dignitaries of Belleville and throughout the Province bowed today to the memory of Col. W. N. Ponton, one of the first and leading citizens of Belleville who died early this morning at his residence on the Trent Road.

To hundreds the news of his sudden passing came as a distinct and undisguised shock. Sudden realization came to Belleville and the district that this city had lost one of its most tireless workers in the cause of civic betterment and public service.

Members of the Belleville Board of Education joined with chairman of the Board, Russell Wotten in paying tribute to the memory of one who had for so many years taken an active and leading part in the administration of this important civic body.

"Col. Ponton, for years known as the 'Dean of the Board' will be missed greatly by this city. We who were privileged to work and sit with him on the Board for many years know all too well the truth of this sudden loss which will be felt not only in Belleville, but throughout Ontario," declared chairman of the Board, Mr. Wotten.

**Distinguished Service**

"He has distinguished himself through his service to Belleville not only on this Board, but on other civic administrative bodies. Always the betterment of education was sponsored by him, and to the younger generation he had devoted his life. He will be sadly missed."

Mr. Wotten and other members of the School Board recalled the painstaking care the late Col. Ponton during his tenure of office on the Board had always taken to ensure equitable administration of affairs. "He was one of the most thorough and scrupulous men I had ever known," it was stated by the chairman. We shall miss that careful guidance and help that he has always so willingly given."

## American Tourists Sympathize With The Democracies

America's sympathies are completely with the British Empire in the present conflict, it is evident by statements of tourists musing briefly of stopping overnight at the city tourist camp. According to conversations held by the tourists with camp caretaker, Geo. Wilder, citizens of all walks of life in the United States are extremely sympathetic toward Britain, France and Poland.

According to the statement of one German-American yesterday, Britain has the full support of the world in her present struggle for democracy. Germans as a class do not favor Adolf Hitler, and only the spark of rebellion is needed to fan into open revolt the rank and file of the entire German Reich.

"Mark my words," the visitor is reported to have told the caretaker, "Hitler will not last long, and the minute he is done for, Germany will return to her old life of democracy."

Villification of the German leaders and present methods of leadership which have apparently led Germany into her most disastrous period, is heard on all sides.

"There isn't a real German anywhere, except those of the military class of the present Germany who is in sympathy with the present thought of war or expansion," stated one visitor.

## EMPLOYMENT OFFICE HAS NO WORD OF MEN NEEDED AT BORDEN

Apparently inspired by radio broadcasts that a large number of carpenters, and members of the other trades are needed immediately at Camp Borden for the construction of military buildings, a large number of district unemployed besieged the local Employment Office today with offers of services.

No official communication has been received from government sources regarding the employing of these trades, Superintendent W. D. Ross stated today, with the exception of fifteen carpenters for Barriefield Camp, near Kingston, who were sent to that place yesterday.

## Routine Of City Is Unchanged By Present Conflict

An airplane, familiar circles of the Air Force visible on its broad wings, circles the city its twin motors droning a low monotonous note. On the Canadian Pacific Railway bridge at the entrance to Victoria Park a special sentry, loaded rifle in hand stands silhouetted against the skyline. Along Front Street little knots of people congregate where radios in hardware store and electrical shop doors provide the latest news through the catchy, excited announcements of some commentator. And the bulletin board in front of the office of the Ontario Intelligencer other groups crowd, some keeping almost hourly vigil. All engage in the same subdued conversation, about the war in Europe.

The present conflict has done nothing to change the physical aspects of the city. Routine, everyday chores and tasks are still being carried on; not even the occasional khaki clad soldier, bandolier across shoulder appears amiss in the present stirring days of war with Germany.

Old soldiers gather on street corners to discuss the latest developments in recruiting or the latest news from Europe. In the former matter some apprehension is felt by many regarding the matter of 'signing up again.' Present physical tests being given new applicants for enlistment are strenuous, stricter than in the days of 1914-1915 and 1916 when the majority from this district went across.

"None of us old sweats will be able to pass these new physical tests, and as far as age goes, they've got us cold," almost querulously commented one of the old original Princess Pats this morning. "What's the use of us trying to tell the doctor what age we are when they have it right on the discharge copy? Lift the age limit and they'll get plenty of the old timers," assured the speaker.

As far as the younger generation was concerned the matter of enlisting was one which was being given serious thought. If and when recruiting is opened in Belleville there will be plenty of the younger generation to enlist, but in this age of machines and mechanics, strong preference is being displayed by the younger ones for service in some mechanical units, or an anti-aircraft battery.

## SEN. O'CONNOR'S

*(Continued From Page One)*

The Senator's estate "Maryvale Farms," on the outskirts of Toronto, was bequeathed to the Christian Brothers, and there are large bequests to other Roman Catholic institutions and to the Hospital for Sick Children in Toronto.

The estate is made up as follows: Cash in bank, $1,300,284; life insurance, $161,761; Dominion of Canada bonds, $2,982,483; Province of Ontario bonds, $1,737,243; stocks, $106,693; real estate, $175,000; miscellaneous, including household effects, automobiles, $80,000.

**Trust Fund For Daughter**

A trust fund of $700,000 is to be set aside for the benefit of the daughter, Mrs. Mary Neale, and her family. Mrs. Neale is to receive a minimum income of $20,000 a year. All household effects, automobiles and boats, also go to Mrs. Neale.

A trust fund of $500,000 is set aside for his son, William J. O'Connor, providing a minimum income of $15,000 a year.

Trust funds of $400,000 each were established for a brother, Fred A. O'Connor, and a nephew, Dr. Murray Moher. There was a $200,000 trust fund for Mrs. Fred A. O'Connor.

**Many Bequests**

In addition to the bequest of Maryvale Farms to the Brothers of the Christian Schools of Ontario, the following charitable provisions were made in the will:

$20,000 to the Monastery of the Precious Blood, Peterborough; $25,000 to St. Mary's Hospital, Toronto; $25,000 to the Passionist Fathers, Toronto.

**LONDON CALM IN FIRST AIR RAID WARNING**

Shortly after Prime Minister Chamberlain announced to the British Empire and the world that England had been forced to declare war on Germany, an air raid warning sounded through the streets of London and the populace made an orderly dash for air raid shelters. Here is a scene as Londoners filed into a shelter to await the "all clear" signal.

**U.S. AMBASSADOR WHO ESCAPED NAZI BOMBS**

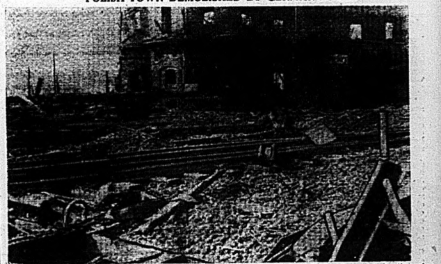
Anthony J. Drexel Biddle, U. S. ambassador to Poland, and Mrs. Biddle, are reported to have had a narrow escape when a German warplane power dove and released six heavy bombs near his suburban villa in what the American Embassy said appears to have been a "deliberate" attack.

**BRITISH GENERAL OUTSIDE CLOSED EMBASSY**

General Sir Edmund Ironsides, recently appointed Chief of the Imperial Staff, is shown in this Phonephoto, RIGHT, as he walked past the closed German embassy in London. The general is carrying his tin hat and gas mask.

—Phonephoto

**POLISH TOWN DEMOLISHED BY GERMAN BOMBS**



This heap of ruins and debris followed in the wake of German bombing of a Polish village near the German-Polish border. Radioed from Berlin, the exact location of the village was not given.

—Phonephoto

# GERMANY BEGINS

*(Continued From Page One)*

"Polish planes effectively bombarded German tank columns near Chiechanow and near Radomska," the communique added.

(Diplomatic dispatches to Budapest said German artillery had shelled the Polish capital as citizens evacuated in increasing numbers.)

Warsaw, Sept. 6—(AP)—Invading German armies began a powerful drive to take the Polish capital today while a city deserted by official life and by the majority of its citizens waited tensely for the battle that would decide its fate.

Fighting raged to the north and west. The Nazi infantry was preceded in its push by planes that yesterday roared over Warsaw in repeated attacks which no Polish planes rose to meet. The attacks were resumed at 6 a.m. today when a squadron of German planes dropped bombs on the city.

(Diplomatic dispatches to Budapest said the capital was being shelled by German artillery early today after a swift thrust from the north, and that the city had been partially destroyed.)

### Some Can't Leave

Several hundred thousand residents remained of the normal 1,300,000 population—many of them because of lack of money with which to leave, others because they had turned back in despair from highways choked with other refugees.

The government quit the city last night leaving only skeleton staffs. All foreign embassy and legation staffs also left the capital.

(Budapest diplomatic sources said the government was setting up headquarters at Lublin, 90 miles southeast of Warsaw, and that the Embassy staffs had gone to Luck, 200 miles southeast of the capital.)

The official exodus added to the confusion since the war office left no one authorized to give out information. The press gave no hint of what was going on.

### Struggle Will Decide Fate

The Warsaw radio told of the fighting shortly before midnight and said the struggle would decide the fate of Warsaw. The broadcast said Polish lines were holding fast.

(The Budapest dispatches told of a rapid German advance through a broken Polish front.)

The main Polish defence line was said to be pivoted on Ciechanow, 45 miles north of Warsaw, bending from there to Polonsk, 35 miles northwest of the capital.

(The troops opposing the Poles apparently were those advancing southward from East Prussia. It was indicated the Germans were fanning out as they advanced, stretching their lines in the beginning of what might be an encircling movement.)

All efforts toward normal conduct of affairs in Warsaw was dropped yesterday. Taxis disappeared from the streets and other cars became scarce. Street car service was curtailed.

### Gasoline Very Scarce

Automobiles and even horses could be obtained only at a premium. gasoline was almost unobtainable.

German bombers raided the city throughout Tuesday, but apparently focussed their attention on the suburbs and military objectives.

The most spectacular flight of the day came just at 6 p.m. but not a bomb was dropped. Sixteen big planes wheeled over the city in a wide circle, broke up into groups of twos and fives, then swept into three formations to disappear in the west. Only sporadic machine-gun fire challenged their passage.

In the general turmoil of the day, information from other battle fronts was meager, but it included a report that a Polish cavalry unit had penetrated the German East Prussian border and occupied two villages.

### Warsaw Blasted by Artillery

Budapest, Sept. 6—(AP)—Diplomatic dispatches from Poland pictured Warsaw today as a city blasted by German artillery fire and scourged by incessant air raids, with German infantry pushing rapidly nearer.

A thrust from the north had put the Nazis within artillery range of the capital and precipitated the evacuation of the government and thousands of Warsaw's residents, the dispatches said.

Staffs of foreign embassies and legations fled with the Polish officials, who set up new quarters at Lublin, 90 miles southeast of Warsaw.

An unconfirmed report said Marshal Edward Smigly-Rydz, head of the Polish army, had tendered his resignation to President Ignace Moscicki.

Another stir was caused in diplomatic circles here when it was learned Germany had closed her frontier with Hungary and the Slovak-Hungarian border late yesterday. No reason for the action was given.

### Stifled by Gestapo

There was especial interest in the situation in Bratislava, the Slovak capital, where observers asserted only fear of the Gestapo, Nazi secret police, was stifling Slovak resentment against German military rule.

Only one untoward incident was reported—the smashing of windows in the summer home of Premier Josef Tiso of Slovakia, who has co-operated with the German government. The most ardent advocates of the Slovak separation in the days of the Czecho-Slovak republic, however, appear dismayed by present conditions, in view of Adolf Hitler's guarantee of independence.

Slovak soldiers are serving with the Nazis, but well-informed sources expressed belief they are being placed between German first and third lines to prevent desertions.

The Hlinka Guard, semi-military army of the single Slovak party, has been merged with Gestapo, and an undisclosed number of Slovaks have been arrested.

Krakow, Poland's ancient Capital, is her fifth largest city, with 242,000 population.

With the announced capture earlier in the day of Kielce, the German armies had reached a new strategic goal.

A short distance away is Sandomierz, where the Poles have based their new munitions and arms industry. Sandomierz was intended to be what Krupp Et Essen or Skoda at Pilsen were to the German and Czech nations. German circles expressed the opinion Sandomierz soon would capitulate.

# Sniping By Polish Citizens Greatest Single Difficulty Encountered By German Arms

By LOUIS LOCHNER
Associated Press Staff Writer

With the German army of the East, Sept. 6—(AP)—The greatest single difficulty encountered by the German army in its invasion of Poland has been sniping by Polish civilians, this correspondent was told on a visit to the front.

As a result, a roundup of all civilian males of arms-bearing age has been ordered in conquered sections of Polish Silesia.

The snipers, include women and boys in their teens. "Polish women," an officer said, "fight like tigers."

The officer who explained the importance of the sniping said that gunfire from houses in this southwestern Polish town of Czestochowa on Monday cost the lives of a German captain, several lieutenants and an undisclosed number of privates.

### Thirty Arrested

Sniping had been resumed yesterday morning in Czestochowa, and I saw 30 men conducted to the city hall—now a German commandery—as among those believed to be guilty of attacks. The officer and I followed them.

Outside the city hall I saw a soldier on guard under a big tree where lay the body of a lieutenant, his boots sticking from under a straw mat. A scabbard and blade lay crossed over the mat. I was told the lieutenant had been shot the night before while working at a desk near a window.

The 30 sniper suspects marched into the hall with their hands raised, escorted by steel-helmeted soldiers carrying cocked rifles.

On my way to Czestochowa by plane and automobile from Berlin, just before we crossed the border into Poland, we paused at a stockade where some 1,100 captured Poles had been sent from various parts of the fighting area.

### Many in Civilian Clothes

During the stop there, the prisoners were marched off in groups of about 20 each to be transported by rail to regular internment camps.

Among the soldiers there was a sprinkling of men in civilian attire, five women and about a dozen boys in their teens. The civilians had been arrested on sniping charges.

Shortly before arriving at our destination, we passed through a desolate town, Grasszyn, where buildings along the main road were wrecked. The officer assigned to me explained that two days previously, after the main German force had marched beyond Czestochowa and while the rearguard was being brought up, civilians in the town opened fire from their homes.

Several officers and men were killed, and a regular skirmish ensued in the course of which houses and brick kilns, the town's principal industry were destroyed.

### Allowed to Visit Front

I came to Czestochowa as the first neutral correspondent permitted at the front, upon selection by three American news organizations in Berlin which had been invited by German authorities to delegate an observer.

A German military plane carried me to Stunebdorf, near Oppelin, in German Silesia.

We flew past some 20 military airports en route, and at each of them were bombers, pursuit planes and other fighting craft, encircled protectively by anti-aircraft batteries. It appeared that the Poles, if they attempted to raid Berlin from Upper Silesia, would have to jump at least 20 dangerous hurdles.

We landed at Stunebdorf only a few minutes after 87 bombers returned from a raid. At this and two other improvised airports, my officer companion said, were some 1,100 military planes of every description. The Stunebdorf field was fringed with camouflaged tents for officers and men Some distance off were larger barracks.

# Petawawa Camp Will Accommodate 14,500 Troops

Pembroke, Ont., Sept. 6 (CP)—Petawawa military camp, famous artillery training centre of Great War days, will be made ready immediately to accommodate 14,500 troops, it was learned here. More than 1,000 workmen will be on the job in a few days and it is expected that buildings will be ready in three weeks to accommodate the advance parties of the units to be trained there. Many unemployed men in Pembroke are already working on the camp buildings.

# Aerial Combats Could

*(Continued From Page One)*

### ATTACKS IN SEVERAL PLACES ANNOUNCED

Attacks by British warships on German submarines "in several localities" were announced in the communique which said also that "several" British merchant vessels had been "attacked or sunk" by German submarines. The Cunard Line yesterday disclosed its steamship Bosnia had been sunk.

A brief communique issued by the Admiralty announced the crew of 50 of the Carl Fritzen, one of the German ships to go down, was saved. Names of the other ships were not available immediately.

The Carl Fritzen, due in Buenos Aires next Saturday to load a cargo for Germany, was believed a victim of the cruiser Ajav, also credited with sinking the freighter Olinda Sunday and sending her crew to Montevideo aboard a British tanker.

At least two German vessels were prepared for an attempt to cross from Buenos Aires to Germany.

The freighter Gonzenbeim swung into the Rio Plata River and headed toward the ocean. The freighter Anatolia sailed from Rosario toward Hamburg with a cargo of cereals.

### ATTACKS CO-ORDINATED WITH AERIAL RAIDS

The British sea attack was co-ordinated with successive aerial 'raids' in which a total of 9,000,000 leaflets were scattered on German industrial areas. The leaflets said the war was not against the Germans, but against their Nazi leadership, and urged them to "get rid of Hitler".

The attack also coincided with announcement by France that French troops had made "contact" with Germans everywhere along the frontier between the Rhine and the Moselle Rivers. On the eastern front, where Germany's invasion of Poland brought France and Great Britain to the aid of their ally, the Poles were withdrawing to more strategic defence positions.

British strategists viewed news of the Polish retreat as "not good but not unexpected".

In the third day of operations, today's communique was the first to announce gains.

The French public already had been warned by last night's communique that "permanent fortifications" line the front, lest hopes be raised too high by the reported "local advances".

The local gains were interpreted by military observers to mean that French infantrymen under covering artillery fire by 75-millimetre guns had succeeded in crossing the frontier at several points, taking outlying concrete blockhouses.

### SIEGFRIED LINE WEAKER THAN MAGINOT

Official sources said the French believe the Siegfried Line is weaker than the Maginot between the Rhine and the Moselle.

The Maginot fortifications take an almost right angle turn from the north near Strasbourg and run northwestward toward Thionville and to a point near the junction of the French, German and Luxembourg borders.

The French always have contended the German line in this section was built on less favorable ground than the Maginot, which zig zags underground, the product of costly construction since the Great War.

However, the Siegfried Line, even if less favored than the Maginot, is still a formidable military factor if the French leave their underground fastness to cross inter-lying territory studded with German gun emplacements staggered in some places to a depth of 30 miles into Germany.

# 10,000 POLISH PRISONERS TAKEN GERMANY REPORTS

### Sweeping Victories Claimed on Eastern Front by Army Command

## DIVISION CRUSHED

### German Air Force Claims Mastery of the Polish Air in Poland

Berlin, Sept. 6 (AP)—With official reports of all quiet on the western front for the third day of French-German state of war, the supreme army command announced today sweeping victories against Poland on the eastern front.

These were announced as new German strokes against Poland:

1. Capture of Kielce, about 100 miles south of Warsaw, and within 50 miles of Sandomierz, seat of Polish arms industry.

2. Capture of about 10,000 prisoners in the Polish "Corridor" Province of Pomogze and elsewhere in Northern Poland.

3. Capture of sixty field guns.

4. Capture of Bydgoszcz (Bromberg), 140 miles northwest of Warsaw, while German troops crossed the Netze River to the south of Bydgoszcz.

Other German forces increased their threats to Warsaw and Krakow, modern and ancient capitals of Poland.

### No Action on West Front.

Meanwhile, the German command as late as 10 a.m. (5 a.m. EDT) insisted there had been no action on the western front facing France. (A French communique, however, said French forces effected "some local advances' 'overnight in their pressure on Germany's Siegfried Line.)

Meanwhile, a salient from East Prussia stabbed close to Warsaw, modern Poland's capital. (Warsaw advices said the German spearhead was approximately 35 miles to the northwest of the city. Budapest despatches said Warsaw was under fire of German guns.)

Military leaders emphasized the need of speed in the Polish campaign to release the eastern army for defence on the western front against the French.

### Claim Mastery of Air.

Meantime the air force claimed mastery of the Polish air and also claimed twelve planes had been lost by the British out of twenty which struck at northwestern Germany on Monday evening, aiming bombs at Cuxhaven and Wilhelmshaven naval bases.

Two more British planes of the reconnaissance type were reported shot down near Hamburg yesterday afternoon. The German airmen were said to have driven the attackers down into anti-aircraft fire.

(A British communique announced two of Germany's five battleships were damaged heavily.)

The army reported its Polish foe was "partly retreating in disorder, badly shattered." The Poles were said to have given up Katowice and Chrozow without exploding mines which they had placed under their great industrial plants.

### Whole Division Crushed.

The Germans said they had crushed the entire seventh Polish Army Division southeast of Czestochowa, captured two days ago. (A Polish division usually numbers 10,000 to 15,000 men.)

Eleven Polish planes were said to have been shot down yesterday between Warsaw and Loz, bringing to 65 the total thus destroyed Monday and Tuesday.

The government last night issued a white book chronologically describing recent phases of Polish-German relations to conclude with the charge that Britain was "responsible for the war".

# HOMEWARD BOUND:—

—International Illustrated News Radiophoto
Sir Nevile Henderson, Britain's ambassador to Germany, is shown leading his dachshund as he prepared to board a train for London.

# 'Local Advances' Against

*(Continued From Page One)*

The British Admiralty has reported the sinking of three German merchant ships, but had named only the Olinda and Carl Fritzen, both sunk off the Atlantic coast of South America.

Attaches of the North German-Lloyd offices said the Inn carried a crew of 30 men.

She was built with accommodations for passengers, but officials said they did not believe any were aboard when she sailed.

LONDON, Sept. 6 (CP)—Great Britain reported a series of quick successes today in an offensive against German war and merchant vessels.

An early morning communique from the Ministry of Information said British forces in the Atlantic had destroyed three German ships "which might have been converted into armed raiders".

At the same time, it was announced Monday's bombing raids by the Royal Air Force on two German battleships at the entrance to the Kiel Canal, linking the North Sea with the Baltic, had turned out to be "even more successful than was originally reported".

(Dispatches routed via Paris said an air raid alarm sounded through London at 6:53 a.m. and was terminated at 9 a.m. (4 a.m. EDT). During this time there was no direct communication between London and New York.)

### NARROW STRIP PARTICULARLY VULNERABLE

These strategists pointed out the narrow neck of Poland, pinched between Germany and East Prussia, was particularly vulnerable. They asserted withdrawal of the Poles was based on the realization that holding the Corridor against flanking artillery fire and air raids for any length of time was practically impossible and not worth the losses entailed.

Formation of a shorter line between the natural defences offered by the Vistula and the Bug Rivers, it was said, would allow Poland a better chance to use her specialized forces.

The Ministry of Information did not elaborate on its statement of purported greater success of the Royal Air Force against German ships at the Kiel Canal. Germany said no damage was done, but that ten British airplanes were brought down.

### FURTHER RESTRICTIONS IMPOSED

Further restrictions were imposed by the government as the war's magnitude increased. They included control of employment by the government; requisitioning of stocks and imported canned meats; limiting the amount of foreign exchange a traveller may take out of the country; fixing of prices for the sale of fat cattle, sheep and pigs for slaughter, and prescription of wholesale and retail prices of sugar and tea.

As an aid to the farm situation, farmers requiring help may appeal to military officers and obtain men, the farmer to pay their wages.

All stocks of cereals and cereal products exceeding 50 tons, except those held by millers, will be requisitioned by the government. All flour mills now are under control of the Board of Trade.

### HENDERSON NEARLY HOME

It was announced that Sir Nevile Henderson, Ambassador to Germany, and his entire staff had arrived at Rotterdam from Oldenzaal on the German-Netherlands frontier. They were expected to leave "shortly" for London.

Londoners, getting their first glimpse of the King and Queen since the outbreak of the war, noted the Queen carried a gas mask, like most other English women, as she and the King inspected London's civil defences.

# *Stop Press Bulletins*

### BELGIANS FIRE ON UNIDENTIFIED PLANE

BRUSSELS, Sept. 6 (AP)—A National Defence communique reported today that Belgian anti-aircraft batteries near Louvain opened fire on an unidentified airplane flying low over Belgian territory late last night. The airplane was reported to have turned and retracted its course. Louvain is about twenty miles east of Brussels.

### BRITISH COMMUNIST PARTY DISSOLVED

LONDON, Sept. 6 (CP)—The News Chronicle today said the British Communist Party had been dissolved. "Last night the central organization of the party ordered the closing of all local offices and dissolution of the party," the newspaper said. "The decision was taken after the Home Office had announced no meetings or demonstrations would be tolerated. "The Home Office has sent analogous instructions to the British Union of Fascists."

### CUT OFF FOR TWO HOURS

LONDON, Sept. 6 (CP)—An air raid alarm which was sounded in London at 6:52 a.m. was terminated at 9 a.m. (4 a.m. EDT) today. During the two hours and seven minutes, after the alarm sounded, London was cut off from communication with the outside world.

### AIR RAID WARNING IN PARIS

PARIS, Sept. 6 (CP-Havas)—An air raid warning sounded in Paris today at 10:45 a.m. (5:45 a.m. EDT).

### GERMAN PLANES BOMB WARSAW

WARSAW, Sept. 6 (CP-Havas)—The Polish Telegraph Agency announced that a squadron of German planes bombed Warsaw today. "An air raid was staged against Warsaw at 6 a.m.," the agency said. "Explosion of several bombs was heard. The alarm was of short duration."

### LOCAL ADVANCES ON WEST FRONT

PARIS, Sept. 1 (AP)—The French general staff announced today "local advances" had been made by its armies pressing against Germany's Siegfried Line.

### "ALL CLEAR" SIGNAL IN TWO HOURS

BOURGES, France, Sept. 6 (CP-Havas)—An air raid alarm was sounded today in this town 144 miles south of Paris. An all-clear signal was given after two hours.

### BREAKS DIPLOMATIC RELATIONS

BAGHDAD, Sept. 6 (CP-Reuters)—The government of Iraq today broke diplomatic relations with Germany. Fritz Gribba, German Minister to Iraq, left with his staff at noon. Iraq and Great Britain are allies.

### HALIFAX STAGES "BLACKOUT"

HALIFAX, Sept. 6 (CP)—Halifax staged its first "partial blackout" last night. At the signal of a flicker in the city's power current, street lights went out, tramcars halted and many homes and business places doused their lights. Most stores and restaurants on the main streets remained illuminated, though, and advertising signs continued to blaze. The trams kept their lights on.

**Probabilities**

Moderate variable winds; partly cloudy and somewhat warmer today and Friday, with scattered thundershowers.

# BRITISH SHIP TORPEDOED

# Marked Activity Noted On Western Front As German Advance Guards Withdraw Into Main Forts Of Siegfried Line

## Britain's War Effort Rapidly Gains Momentum States Mr. Chambelain

### German Aviators Concentrate On Blocking British Fliers

*By J. F. Sanderson, Canadian Press Staff Writer*

LONDON, Sept. 7—(CP Cable)—Britain's war effort "is rapidly gaining momentum," Prime Minister Chamberlain told the House of Commons today in his first report to the nation since the declaration of war.

IN CONTACT WITH ENEMY

"In the west France has, like ourselves, mobilized her forces with complete efficiency and smoothness and they are now in contact with the enemy on their common frontier," the Prime Minister said. "The outbreak of war has found the same spirit of determination and solidarity among the French people as is evident here.

"The understanding between the two countries is complete and the arrangements which have now been put into force for co-operation in all activities concerned with the prosecution of the war are working smoothly and well."

On the eastern front, the Prime Minister said, the Poles were "fighting hard against a strong and ruthless enemy who is relying on weight of numbers and material to crush all opposition."

The Polish soldier, he said, was a courageous and determined fighter and "against overwhelming superiority in the air, outnumbered and outgunned, he is contesting every yard of the German advance."

MORALE AND COURAGE UNAFFECTED

In spite of the human and material losses which Poland has suffered, "the morale and courage of the Polish people remains unaffected," the Prime Minister said.

The organization and military preparation in Great Britain have reached advanced stages and "the morale of all ranks is high."

Turning to consideration of naval matters, the Prime Minister referred to the sinking of the Athenia and said "no denials or invenctions on the part of Germany will convince the public of German innocence of this crime, which has profoundly shocked and horrified the world."

"Apart from the case of the Athenia, there have been attacks on other British merchant ships by German U-boats and three or four ships have been sunk.

"On our side, the Admiralty have taken immediate counter measures. British destroyers and other anti-submarine craft have been very active and large reinforcements of anti-submarine and escort vessels are rapidly becoming available."

EXPEDITING CONVOY SYSTEM

The Prime Minister said the Admiralty was expediting establishment of a convoy system for merchant shipping but that "it takes time to bring it fully into operation."

"The House can be satisfied it is being applied with the utmost possible speed and vigor," he added. "Most of the ships which have been attacked hitherto are vessels which commenced their voyages before war had broken out and, naturally, for them the full scope of our defensive organization could not be immediately provided.

"While a certain proportion of weekly losses must be expected, and I do not minimize the threat to our shipping, I think the House and the country may rest assured that the navy, with all their wartime experience of handling this problem and with the added advantage of methods of submarine detection and destruction which have since been developed, will increasingly bring the problem under control."

TWO DIRECT HITS ON BATTLESHIP

The Prime Minister disclosed the Royal Air Force raid on German warships off Wilhelmshaven resulted in "at least two hits" on one of Germany's pocket battleships.

He also revealed that armen who took part in the Kiel Canal attack included a number from the Dominions.

The Prime Minister said that more than 10,000,000 copies of Britain's message to the German people had been distributed by Royal Air Force planes over a wide area of northern and western Germany, including the Ruhr.

*(Continued on Page Fourteen)*

## Czecho-Slovakia People Urged To Uphold Cause of Former Republic

Slovak people urging them to uphold the cause of the former republic and predicting they would soon be free from the "iron heel of Hitler."

The proclamation, issued by Arthur Greenwood, acting head of the party, was broadcast in the Czech language by secret means, not through the British Broadcasting Corporation. It follows:

"Being in close contact with Slovak friends now outside their country, the Labor Party is well aware of the sufferings of the Czecho-Slovak peoples. Now is the time to put an end to the brutal violence endangering all Europe.

"We are calling from London to Prague and Bratislava; we are calling all workers of Czecho-Slovakia to remain firm and keep hearts strong in the new wave of violence and to remain true to the deeds and principles of the great Thomas Masryk (founder and first President of Czecho-Slovakia). Do not desert the flag taken over in our free country by (Eduard) Benes (former President of Czecho-Slovakia) and his collaborators.

"The hour of your liberation is near. Your tragedy has opened the eyes of the world. The cruel injustices now imposed upon you must be righted. The British Labor Party declares the Czechs and Slovaks now under the iron heel of Hitler shall soon again be free. We send a fraternal greeting to the Czecho-Slovak nation and especially to its working class."

## EFFECTIVE ACTION BY PARLIAMENT SPEECH FORECAST

### Estimates for Expenditures Will Also be Considered by Session

### CANADA PREPARED

### Lord Tweedsmuir Says There Will be War Budget as in 1914

Ottawa, Sept. 7—(CP)—Proposals for "further effective action by Canada," and estimates for expenditures caused "by the state of war which now exists," were forecast in the speech from the throne read by Lord Tweedsmuir, Governor General of Canada, at the opening of the special session of Parliament today.

In one of the shortest throne speeches on record Members of the Senate and House of Commons were told they had been called in order that the Government might seek authority "for the measures necessary for defence of Canada, and for co-operation in the determined effort which is being made to resist further aggression."

The Governor General said "My Ministers are convinced that Canada is prepared to unite in a national effort to defend to the utmost liberties and institutions which are a common heritage."

Forecast that estimates would be presented to cover expenditure which has been made or may be caused by "the state of war which now exists," was the only reference to finances. It is believed, however, there will be a war budget as was the case at the special war session of 1914.

**Ralston in Cabinet**

Ottawa, Sept. 7—(CP)—Parliament assembled today for the grim task of passing upon the government's plan to throw Canadian resources into the war against Nazi Germany at the side of the United Kingdom.

The responsibilities resting upon them were reflected in the serious looks of Senators and members of the House of Commons as they greeted each other in lobby and corridor after a separation of just over three months.

On the eve of the special war session, Prime Minister Mackenzie King moved to strengthen his cabinet last night by calling Hon. James Layton Ralston from his Montreal law office to the Portfolio of Finance.

## BRAVE GARRISON OF WESTERPLATTE STILL FIGHTING

### Has Withstood All Assaults From Air, Water and Land

### HAVE MACHINE GUNS

(By Lynn Heinzerling Associated Press Staff Writer).

Danzig, Sept. 7 (CP-Havas) — The German News Agency claimed today that German troops had occupied Westerplatte fortress in the harbor here.

A small garrison of Polish soldiers had defended the munitions dump since Germany began its attack last Friday.

The agency said German troops entered the fortress at 10.20 a.m. (5.20 a.m. E.D.T.) after the Poles raised a white flag.

The Germans first claimed capture of Westerplatte early in the war, but it was later found the Poles, numbering scarcely more than 100, were holding out against air attack and the fire from a German warship in the harbor.

*(Continued on Page Six)*

## Germany Hopes To Conclude Eastern Campaign In Poland Before Franco-British Troops Gain Momentum On West Front

Berlin, Sept. 7 (CP)—The German army today claimed to have advanced to within 20 miles of Warsaw.

(Polish dispatches said the Polish army was holding firm along a 30-mile front on the Vistula, between Plonsk and Pultusk, northwest and northeast of Warsaw, respectively).

No direct attack except by bombers is being made on Warsaw. German troops are trying to create a vice in which they can hold the Capital.

The strategy seems to be to cut Warsaw off from supplies, then press the jaws of the vice closer in the hope of making the Poles capitulate without making necessary too much destruction.

Krakow, taken yesterday, seems to have fallen by these tactics. Not even the Vistula bridges were destroyed before Krakow was taken.

Berlin received reports that the Polish government had moved to Lublin, about 100 miles southeast of Warsaw, and military quarters predicted that if Warsaw fell, Lublin soon might be within cannon range.

*(Continued on Page Fourteen)*

## Ottawa Warns Against Raising of Sugar Price

Ottawa, Sept. 7 —(CP)— The Wartime Prices and Trade Board, after an emergency conference with representative sugar refiners, last night, issued a warning that any "attempts at restriction or accumulation of supplies, or at enhancement of prices will be met with prompt action."

"There is ample sugar for all usual reqirements," a statement from the board said. "Consumers are urged to buy normally, and to proceed as usual with their seasonal canning operations."

Sugar was the first specific commodity to be considered by the board, of which Hector B. McKinnon, Commissioner of Tariffs, is chairman. Other members are David Sim, Commissioner of Excise, and F. A. McGregor, Commissioner of the Combines Investigation Act.

The board acted after published reports of sugar storages in various centres and of price increases by some retailers.

The formal statement from the board last night said that retailers "confirm there has been no increase in their selling price, and that the present price is the same as that prevailing at the end of April ,1939. They have no intention of raising prices unless and until the cost of raw sugars compels such an increase. The action of a few retailers who are reported to have raised their prices apears to be wholly unjustified."

Refiners told the board, according to the press statement, that since Aug. 1 they have distributed 20 per cent more sugar than in the corresponding 1938 period. This policy is to be continued, and it is anticipated that nearly 50,000,000 pounds of sugar, over, and above the normal August and September requirements, will be available to the consumer.

Consumers themselves are largely responsible for the "confusion of the past few days," the board's statement said.

"It cannot be too strongly emphasized that any person who has bought a 100-pound bag of sugar, or any quantity in excess of legitimate current needs has done a serious disservice to the country in time of war and has, in effect, deprived his or her less well-to-do neighbors of necessary sugar. Another result has been seriously to complicate the handling of the peach and other fruit crops," said the statement.

The board called the attention of consumers, as well as dealers, to the regulation against hoarding which states that:

"No person shall accumulate or withhold from sale any necessity of life beyond an amount thereof reasonably required for the use or consumption of his household or for the ordinary purposes of his business."

This regulation became law last Sunday, and will be rigorously enforced, it was added.

## MUSSOLINI MAY RENEW EFFORTS TO END CONFLICT

### This Would Take Effect if Germany Completed Conquest of Poland Quickly

### AXIS STILL WORKING

By EDWARD KENNEDY
Associated Press Staff Writer

Rome, Sept. 7—(AP)—Discussions to eliminate possible points of friction between Great Britain and Italy were reliably reported underway today.

Informed sources said yesterday's conversation here between Sir Percy Loraine, British Ambassador, and the Italian Foreign Minister, Count Galeazzo Ciano, were along this line. Nothing, however, was divulged concerning the progress of the negotiations.

Some Italians predicted that Premier Mussolini would take the initiative in peace attempts should Germany conquer Poland.

These quarters felt that if the German drive into Poland should place a large part of that country quickly under German occupation, Mussolini would renew his proposals for a conference of the major powers on the general settlement of European political and economic ills.

## S. AFRICA JOINS GREAT BRITAIN AS ALLY IN WAR

### Proclamation of War With Germany Issued After Smuts Takes Control

### A NEW CABINET

Cape Town, Sept. 7—(CP-Reuters) —The Union of South Africa today joined Great Britain in war with Germany.

A proclamation declaring that peaceful relations with Germany had been severed and that "the Union is at war with the Reich as of Sept. 6" was issued shortly after the government of General Jan Smuts was sworn in last night.

In a statement of policy issued at the same time, the new Prime Minister said the Union Assembly had decided to take a stand for defence of freedom and pledged "our moral support for the common cause."

The statement said that participation, however, must "be limited by considerations of geography and special conditions which attach to this country and . . . at this stage the Government cannot give any encouragement to those citizens who wish to serve overseas".

*(Continued on Page Fourteen)*

## POLISH CAPITAL DEFENDERS RALLY ALONG VISTULA

### "Fighting Like Lions" Against Thrusts of German Tanks

### SITUATION FAVORABLE

### Poles Shoot Down Six Planes Attempting Raid on Capital

(By Lloyd Lehrbas Associated Press Staff Writer).

Warsaw, Sept. 7 (AP)—The defenders of this Polish Capital were reported to day to have taken up a position along a 30-mile line paralleling the Vistula River where they rallied and were "fighting like lions" against German tank thrusts.

The defence line ran between Plonsk and Pultusk, northwest and northeast of Warsaw, respectively. About 30 miles of open country and the protecting Vistula River lay between Warsaw and the invaders from the north.

The right wing of the Poles had fallen back from Ciechanow, about 25 miles northwest of Pultusk, pivoting on Plonsk.

**Threatened to Turn Flank**

At one stage of the struggle the Poles were driven from Pultusk and the Germans threatened to turn the Polish flank and thrust on to the Vistula and Warsaw. Pultusk, however, was regained in the face of German fire.

A staff officer, slightly wounded, returned from the battle-front and reported the Poles were staunchly holding the Plonsk-Pultusk line, beating off repeated German attempts to break through.

"The Poles are fighting like lions," he said.

The officer related that Germans with tank vanguards succeeded in piercing the line in several places but the defenders outflanked them and smashed the penetrating colums, destroying and capturing a considerable number of tanks.

**Situation Favorable**

The officer assured members of his family that the situation was favorable to the Poles for the present.

The Poles were preparing for a desperate struggle at the very edge of Warsaw if the battle went against them on the Plonsk-Pultusk line.

German planes raided the northern section of Warsaw just before noon yesterday and a dozen heavy explosions were heard from the direction of a railway bridge across the Vistula and the east station, which was bombed two days before. A train had been waiting at the station yesterday to carry refugees toward Wilno and Riga.

**Six Planes Shot Down**

An official radio announcement said Poles shot down six planes attempting a raid on the Capital before this morning's assault.

Exodus of the population from the Capital continued with all means of transport being utilized. There was no panic.

Meat markets were stripped of almost all stocks but other stores displayed ample supplies, including fresh fruits and vegetables. In the streets automobiles were rare but street cars were running.

## British Troops to Throw Weight Into Campaign Within A Short Time

### Saar Basin Now Is Target Of British and French Troops

LISBON, Sept. 7—(AP)—The 7,242-ton British freighter Manaar was sunk last night off Portugal by what survivors declared was a torpedo from a submarine, and early this afternoon 41 of her crew of 88 had not been accounted for. At least two were killed and three wounded.

Survivors said the Manaar, bound for Calcutta from Liverpool, was torpedoed without warning, and that while the crew was attempting to abandon her in eight lifeboats the submarine opened fire and destroyed one lifeboat, killing one man and wounding four.

One of the wounded men apparently was Ameer Ally, who subsequently died enroute to Lisbon aboard a rescue ship, the Netherlands steamship Mars.

The Mars brought 29 survivors here, among them the three others wounded—J. Furner, Thomas Jones and Abdul Nobre.

The Portuguese liner Carvaljo Araujo arrived here with sixteen British-Indian members of the Manaar's crew.

Paris, Sept. 7—(AP)—With British troops moving up, the French armies engaged in "marked activities" today, driving spearheads into Germany's Siegfried Line.

This morning's communique No. 7 from the War Ministry indicated the Germans are offering stiff resistance but that the French are pursuing action on the western front to relieve Poland from German pressure in the east.

The British expeditionary force, which has been landing in France since early this week is expected to be in position to throw its weight into the campaign within a few days.

BUILDING NATIONAL UNION CABINET

Premier Daladier set about building a national union cabinet to prosecute the war.

The Premier conferred this morning with Edouard Herriot, President of the Chamber of Deputies, at the War Ministry and then went to see Jules Jeanney, President of the Senate. The Presidents of the

*(Continued on Page Fourteen)*

## *BULLETINS*

CANNES, France, Sept. 7—(CP)—A spokesman for the Duke and Duchess of Windsor announced today they would leave tomorrow for London. They left England in December, 1936, at the time of the abdication.

The time of the couple's departure and the route they will take will be kept secret, it was said.

The spokesman said the Duke and Duchess decided to return to England last Saturday and summoned a private pilot to fly them over. Adverse weather and the outbreak of the European war interfered with their plans.

In the ensuing five days they have been seeking means of transportation.

128 PERSONS MISSING ON ATHENIA

GLASGOW, Sept. 7—(CP)—Owners of the liner Athenia, torpedoed Sunday night in the Atlantic with 1,418 persons aboard, reported today that 128 persons were dead or missing.

Previous hope that some Athenia survivors might be aboard the Swedish yacht Southern Cross was dimmed by the Donaldson Line's announcement of a message from the yacht.

The Southern Cross wirelessed that she had transferred the refugees she picked up to the City of Flint or other rescue ships at the scene of the sinking.

ANDALUSIA DOCKS AT RIO DE JANEIRO

RIO DE JANEIRO, Sept. 7—(AP)—The British liner Andalusia Star, several days overdue here from London, docked today with 14 German passengers confined to their cabins.

Arriving at the same time was the British cruiser Ajax, reported to have sunk at least two German ships.

Passengers said the voyage was normal until the liner reached Teneriffe, Canary Islands, where she took a "war route" upon hearing that hostilities had opened.

BERLIN, Sept. 7—(AP)—Adolf Hitler's home town (Munich) newspaper, the Meunchener Neueste Machrichten, in its Sept. 3 edition, which reached Berlin today, had this to say editorially: "If England craves to fight, which we never sought nor want to seek, then she must realize one thing clearly: The price is the Empire."

PARIS, Sept. 7—(CP)—The French and British general staffs have been co-ordinating action since the start of the campaign against Germany Monday, an official announcement disclosed today.

On that day, the announcement said, General Sir Edmund Ironside, Chief of the Imperial General Staff, and Air Chief Marshal Sir Cyril Newall, Chief of Staff of the Royal Air Forces, conferred with General Maurice Gamelin, French supreme commander of land, sea and air forces, and General Joseph Vuillemin, Chief of Staff of the French air forces.

# City and District News

## FLOCK OF DUCKS SEEN NEAR MASSASSAGA

While fires crackled in grates and fireplaces through the city and district last evening as the autumn coolness continued, first of the wild duck flocks, apparently spurred into activity by the coolness commenced arriving in the bay yesterday and today. Nearly one hundred birds were observed in one flock by a party of fishermen in a cove near Massassaga yesterday, and more were reportedly arriving daily.

## BAY LEVELS SHOW AN 8-INCH DROP

Water levels of the Bay of Quinte dropped further this week leaving the bay an estimated eight inches lower than two weeks ago. This week the last of the visiting boats entering the local harbor had departed for home ports lehving a bleak waterfront which was in decided contrast this week with the daily activity observed up until last week. The present year has been an unusually good one for small craft registration, and boats from nearly all United States lake ports have registered here. Many favorable comments have been received by the Harbormaster regarding the excellent dockage facilities here.

## CHAMBER DIRECTORS MEET AT LUNCHEON

Vacation-tanned directors of the local Chamber of Commerce gathered at noon today for the first regular luncheon of the autumn season following the extended period of summer holidays. A fair attendance at luncheon was registered, but only routine Chamber affairs were engaged in by the executive at the first meeting.

## TOURIST GETS 17 POUND PIKE ON WED.

On his first visit to this district, and the Bay of Quinte, Harold Stenlett, Columbus, Ohio, a late season visitor, managed to catch and land a 17-pound pike yesterday afternoon. The fish was caught in the marsh on the north shore of Prince Edward County in the bay just east of the bay bridge while casting with plug.

## NO INCREASE IN PRICE OF COAL YET

Though increases in price of coal have been announced at Montreal and Toronto this week, due it was reported to rising freight rates on supplies being brought into Canada from the United States, according to one of the larger Belleville firms this morning no increase in local prices has yet been announced.

"Generally toward the end of September or the beginning of October a slight rise in cost is made by the wholesalers due to winter handling, but as yet we have received no word" it was stated by the firm.

## AMATEUR RADIO OPERATORS NOTIFIED TO CEASE OPERATIONS

Notice has been received from Ottawa by local amateur radio operators to discontinue operation of their stations until further notice, due, it was stated, to present emergencies. The order, it is believed will affect some 3,500 operators throughout Canada and two or three in Belleville and district.

## BEAR DISTURBED WHILE RAIDING SHEEP PEN

Aroused by a commotion in his barnyard early one morning this week, Earl Kelly, farmer residing at Greenview, near Bancroft, investigated to find a large black bear making a raid on his sheep flock. Though unarmed, Kelly managed to frighten off the animal before any loss of his sheep was sustained.

The same bear is believed to have entered the farm of Jos. Fitzgerald a short distance away, killing a lamb which was partially eaten and left for the discovery of the owner.

## USERS OF RADIO SETS COMPLAIN OF INTERFERENCE IN CITY

Bothered for some time past by a particularly annoying crackle and buzz of radio reception interference residents of the north end of the city this week through a petition to the Dominion Government urged that something be done to end the nuisance.

Yesterday a letter received advised that the department had taken the matter under advisement and had instructed Kingston headquarters to make an inspection visit of the section in question "the next time the truck is in Belleville."

## FRUIT INSPECTION STATION TO BE SET UP EAST OF NAPANEE

Inspection of all fruits being transported over No. 2 Highway from Belleville and the west will again be carried on this fall at an inspection station which is to be set up two miles east of Napanee. The station will be in charge of S. B. Hatheway of Port Hope, and will be under the direction of C.T. Stevenson, Senior Fruit and Vegetable Inspector of the local office. All shipments of fruit by truck or other carrier must stop and be given a clearance certificate before being allowed to proceed. All package fruit and vegetables offered for sale must be marked with the name and address of the owner or producers, and the variety and grade it is reminded by the department.

## JEWS TO CELEBRATE ROSH HASHANNAH

Jews of Belleville and throughout the world will assemble in the various synagogues on Wednesday evening next to celebrate Rosh Hashannah, the first day of the Jewish New Year 5700, and special services to commemorate the occasion are being planned for the Belleville congregation, services which will be more markedly solemn while the present conflict rages in Europe.

Orthodox and Conservative Jews will observe the festival for two days, while Liberal Jews will confine the celebration to one day. In addition to the synagogue services in Belleville, observances of special nature will also be held in homes.

## OBITUARY

**MRS. SARAH A. THOMPSON**
(Brighton)

The funeral of Mrs. Sarah Ann Thompson, widow of William Albert Thompson, took place from her late residence, Yonge Street, Brighton, Ont., on Wednesday afternoon, Sept. 6th., and was largely attended. The service in the home and at the graveside in Union cemetery, Colborne, Ont., was conducted by the Rev. J. E. Anderson of the United Church at Brighton.

The bearers were Messrs. George Purdy, E. Mallory, E. Lee, O. Morrow, D. J. Philps and R. Maybee.

The floral tributes were beautiful and many in number and the flower bearers were Messrs. Jack Thompson, William Thompson, Gerald Mutton, Glen Carr, Albert Taylor and Newton Wilbur. The first four mentioned are grandsons of the late Mrs. Thompson.

A number of the members of the Ontario Provincial Police Force attended in a body to pay tribute to the deceased and to evince their sympathy for their comrade, Sergt. Harry E. Thompson in his bereavement.

## Bandmasters Ass'n To Convene Here In 1940

Belleville was unanimously chosen the locale for its 1940 convention at the annual meeting of the Canadian Bandmasters Association held in Toronto last week end. The convention will be held jointly with the annual reunion of the Belleville Kilties Band, it was decided by the association.

Other honors paid to this city at the two-day meeting were the election of Bandmaster Fred Jobson to the second vice-presidency, and the admission to membership of Reg. Hinchey, the only assistant conductor on its rolls. Tribute was paid to Mr. Hinchey for his splendid arrangements for brass bands of many popular and classical themes, arrangements which are gradually finding favor with leaders of prominent civil and military bands of the Dominion.

Bandmaster Jobson, was the guest speaker during one of the principal sessions.

## GOLF

Journeying to Picton to compete in a friendly inter-club golf tournament, the Belleville Golf Club returned home on the long end of an 18½ to 11½ score. Following the match the Picton Club proved hospitable hosts at their clubhouse along the shores of the Bay of Quinte.

The results of the tournament were:

BELLEVILLE—H. Ridley 3; J. Marsh 2½; Joe Legault 3; Ted Hughes 3; R. Sinclair 0; H. Drew 3; S. Hibbard 1; A. Bridge 3; H. Green 0; J. Mitchell 0. Total 18½.

PICTON—G. Break 0; Eric Bronskill ½; Jack Hartwick 0; Mr. Boldrick 0; G. Hewitt 3; Bert Tully 0; Cal. Spencer 2; L. B. Calnan 0; Dr. Slack 3; J. Aldridge 3. Total 11½.

## TWO BICYCLES FOUND ABANDONED

Belleville police are in possession of two bicycles which have been found abandoned on city streets during the past few days. This morning a bike, with numerous accessories, was found lying in the ditch along the Cannifton Road. Police took it into their custody for safe keeping. No arrests have been necessary in Belleville for the past 48 hours, while a marked decrease in the number of transients passing through Belleville has also been noted.

## Expect Larger Number Of Hogs to be Marketed Here Than Year Ago

### Producers Not Altogether Satisfied With Prices

Indications at present are that there will be a larger number of hogs marketed this year than that of one year ago, but farmers are not satisfied with present day prices, it is noted in a report of the Ontario Department of Agriculture.

"A large proportion of the lamb crop has been marketed and prices for these animals have been fairly satisfactory," it is stated.

Threshing throughout the eastern section is about ninety-nine per cent completed, and farmers are at present filling their silos. Some corn has been cut, and the land is being prepared for fall wheat. In this Belleville area plowing conditions are very good in the majority of sections.

## Firemen's Tourney Labor Day Event At Deseronto

Deseronto—A large crowd assembled in Deseronto on Labor Day for the Firemen's Tournament which was held under the auspices of the Canadian Legion Branch No. 280. Fire brigades from various points of New York State including Copenhagen, Clayton, Cape Vincent, Chaumont, Black River and Brownville were present and took part in the competitions. The chief event included hook and ladder races and hose cart races. A loud speaker was erected on Main Street over which the event was broadcast.

Among the most popular amusements were games including bingo and refreshment stands which did a rushing business. To culminate a day of pleasure jitney dancing was held in the evening and Tommy Mason's orchestra furnished a splendid program.

In connection with the event a Firemen's Ball commencing at midnight on Sunday was held at Duck Inn. Jack Denmark's orchestra supplied the music for the dancing.

The local high and public school reopened for the fall term on Tuesday, September 5th. There is one teacher less at the public school than in former years, its staff now includes five teachers namely: Mr. George Nobes, Principal, Miss Lena Warren Miss Mae Hunt, Miss Ina Bowen and Miss Hilda Burley. The teaching staff at the high school remains the same as the past year, consisting of the following teachers, Mr. James B. Hough, B.A. Principal, Miss Jean Hutchison, Miss Mae Maxwell and Miss Mark.

Miss Nellie Lloyd entertained a number of her friends to a supper at the Pettgrew guest house on Thursday.

Mr. Charles Warren and son Desmond returned home on Friday to Brooklyn, N.Y. after visiting with their cousins, Mr. T. J. Warren and Miss L. Warren.

Miss Mary Gaylord of Toronto was the guest of her parents Mr. and Mrs. Frank Gaylord.

Miss Ruth Schell left for Madoc this week where she is engaged as teacher for the coming year.

Miss Helen Therrien has left for Kingston where she will attend business college.

Miss Marion Blake has returned to Fenwick to teach after spending the summer vacation in town.

Mrs. T. C. Maloney is spending a week at Windsor with her daughter Mrs. F. D. Noble.

Miss Viola Joyce of Toronto is the holiday guest of her parents Mr. and Mrs. Alfred Joyce.

Mr. and Mrs. Seymour of Buffalo spent the holiday week end in town.

Mr. and Mrs. Percy Moore and family of Fort Erie are the guests of the former's mother Mrs. E. Moore.

Mr. and Mrs. Leo Palmer of Toronto spent the holiday with relatives in town.

Mrs. Ralph Marigold and daughter Joyce returned home on Monday after spending three weeks with relatives in Montreal.

Mr. Hillard Topping has returned to Brockville after spending his holidays at his home here.

Miss Mary Dunn has returned home from Ottawa where she visited with Mr. and Mrs. James McKenny.

Mrs. E. Robinson has returned home from a visit in Toronto.

Mr. William Knight of Port Colborne is home owing to the death of his father Mr. Charles Knight, Sr.

Mr. and Mrs. Andy Sharpe and daughters Isabel and Jean of Belleville were in town on Labor Day.

Mr. and Mrs. Markey of Ottawa recently visited Mrs. Thomas Maloney.

Miss V. Smith of Toronto spent the holiday weekend in town.

Mr. and Mrs. Burke and sons of Rochester spent the week end with Mr. and Mrs. Thomas Sweanor.

Mrs. Anson Lord Sr. and daughter Miss Aleta are spending a week with relatives in Toronto.

Miss Barbara O'Neil has returned to Toronto after spending the summer with her grandmother Mrs. Thomas Maloney.

The Misses Alice and Jean Tryan have returned home after visiting with relatives in Arden.

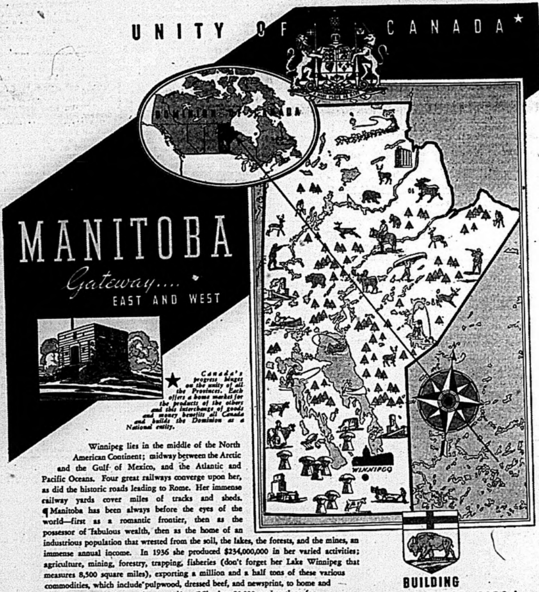
Miss Betty Potter has returned to Cobourg after spending the summer vacation with her father Mr. John Potter.

Miss Mae Maxwell who spent the summer at her home in Toronto has returned to town and resumed her duties on the teaching staff of the high school.

Mrs. M. Gartland and Miss Noreen Gartland spent Sunday with Mr. and Mrs. Fred Perry near Napanee.

Mr. John Fox and Miss Kelly of Rochester, N.Y. spent a few days recently with Miss Nora Fox.

Master Donald Fingland has returned home after visiting relatives at Enterprise.



UNITY OF CANADA ★

MANITOBA

*Gateway....*
EAST AND WEST

★ *Canada's progress hinges on the unity of all the Provinces. Each offers a home market for the products of the others and this interchange of goods and money benefits all Canada and builds the Dominion as a National entity.*

Winnipeg lies in the middle of the North American Continent; midway between the Arctic and the Gulf of Mexico, and the Atlantic and Pacific Oceans. Four great railways converge upon her, as did the historic roads leading to Rome. Her immense railway yards cover miles of tracks and sheds. ¶ Manitoba has been always before the eyes of the world—first as a romantic frontier, then as the possessor of fabulous wealth, then as the home of an industrious population that wrested from the soil, the lakes, the forests, and the mines, an immense annual income. In 1936 she produced $234,000,000 in her varied activities; agriculture, mining, forestry, trapping, fisheries (don't forget her Lake Winnipeg that measures 8,500 square miles), exporting a million and a half tons of these various commodities, which include pulpwood, dressed beef, and newsprint, to home and foreign markets. An amazing record! ¶ She has 80,000 registrations for motor vehicles and machines of all kinds, and 35,000 miles of highways and roads, of which she is surfacing additional miles every year. Tourists in motor cars and by train are coming in increasing numbers to see for themselves this great country. ¶ Visit her yards. See wheat, all other grains, cattle (alive and as dressed beef), pulpwood, newsprint—many other products for which hungry mouths of men and machinery wait in the industrialized East. See the tons of British Columbia fruits and salmon being unloaded for Manitoba's own consumption. Thus, the sale of Manitoba's products allows her to purchase those of sister provinces. ¶ Ask for Facts and Figures concerning the Automotive Industries and the work they are doing in Canada, and we will send them.

BUILDING
CANADIAN MOTOR CARS
*is a National Enterprise*

Today there are approximately 1,300,000 cars and trucks in Canada. Beyond them are cars that line the streets of Melbourne, Bombay, Capetown and Singapore and other great Empire cities. While these vast fleets of vehicles hailed from Windsor and Walkerville, Oshawa and Tilbury, the actual work of building them has brought markets and prosperity to people in *every* Province. It has stimulated the production of raw materials throughout the Dominion and created a stable source of income for the farmer and the fisherman. The Automotive Industry is *National* in purpose and *National* in scope. When you buy a Canadian-built car, you help *your own* Province.

AUTOMOTIVE INDUSTRIES OF CANADA
1006 LUMSDEN BUILDING — TORONTO, ONTARIO.
*This advertisement is one of a series dealing with the Provinces of Canada, and will appear in many daily and weekly newspapers in the Dominion.*

## 6th Tyendinaga

6th Tyendinaga—Some of the sadness of war is felt in our community, our teacher, Mr. Clifford Holmes was called to Madoc on Tuesday for examination. He came to school Tuesday morning for a short time but the pupils were dismissed. It is the hope and prayer of everyone that war will end and have peace again.

Mr. and Mrs. Lorne Goodman and Barbara of Wellington were visitors at Mrs. J. Boldrick's, Labor Day.

Mr. Murney Gibson and Miss Ferne Davidson were married Saturday. Friends wish them bon voyage.

Phyllis Homewood spent one day last week with Marguerite and Donna Lancaster.

Mrs. C. Goodman and Jimmie were week end guests of friends in Belleville and Sidney.

Nearly everyone on this line took in Belleville Fair some time during the three days.

Jack Emerson, Bob Lancaster, Alton and Lee Goodman were there for two days in connection with the Junior Farmers Calf Club. Congratuations to Jack for winning first prize on his calf.

Miss Lottie Goodman visited Mrs. Harry Swan, Gilead, a couple of days last week.

## Moira

Moira—School re-opened on Tuesday with Mr. J. Hart as principal and Mrs. Albert Clare as junior room teacher.

Miss Grace Vanderwater, Reg. N. has returned to Montreal, having spent the past two weeks with her mother Mrs. L. Vanderwater.

Friends congratulate Miss Fleda Mullett, daughter of Mr. and Mrs. Arthur Mullett in obtaining first class honors in all her examinations. She has been attending high school in Windsor and this week received word of her excellent standing.

Mrs. A. E. Bailey of Latta is visiting with Mr. and Mrs. J. F. Herity.

Mr. Geo. Hollinger spent the past week with his daughter Mrs. Blake Ketcheson.

Mr. and Mrs. Frank Emerson and Billie were guests on Sunday of Mr. and Mrs. Jack Canning of Belleville.

Master Lorne Mumby is holidaying with his grandparents, Mr. and Mrs. Ed Good of Thomasburg.

Mr. and Mrs. Garrence Bird of West Huntingdon spent Sunday with the latter's parents, Mr. and Mrs. Chas. Moreland.

Mr. Kenneth Stewart conducted the Sunday morning service and took dinner with Mr. and Mrs. Geo. Foster.

Mr. David Thompson is confined to his home through illness.

Mr. and Mrs. Albert Clare and Mr. and Mrs. Arthur Mumby spent Sunday afternoon at Oak Lake.

## Johnstown

Johnstown—Mr. and Mrs. G. C. Stickle accompanied by Mr. and Mrs. Percy Mikel from Frankford spent Tuesday last at the Ex.

Miss Betty Stickle has returned home after spending a few weeks at Toronto.

### Upper Second

Mr. and Mrs. Morris Stickle spent Sunday at the latter's home at Frankford.

Mr. and Mrs. J. B. Stickle also Mrs. Doherty spent Sunday with Mr. and Mrs. Arnold Stickle of Frankford.

Mrs. Don Garrison of Frankford is visiting her parents Mr. and Mrs. Alfred Reid.

## Minto

Smith, Messrs Geo. Cook and Earl McMaster accompanied Mr. and Mrs. Leslie McKeown to the Toronto Exhibition and Niagara Falls over the week-end.

Mr. and Mrs. Ernest Sarles entertained company from Kincardine recently.

Miss Mae Clements of Toronto spent the week-end at her home here.

Mr. and Mrs. Bill Brady of Niagara Falls spent a few days with Mr. and Mrs. Sherman Brady and also called at the home of Mr. Sylvenus Sine.

Quite a few from here attended camp meeting at Ivanhoe on Sunday.

Mr. and Mrs. Harold Morgan accompanied Mr. and Mrs. Jack Donahue, Jack and Freddie to Ivy Lea on Sunday.

The Misses Alice and Marcella Farrell have returned home after spending the last month in Toronto.

Mrs. Freeman Sine spent Friday in Belleville.

## Wing Commander C.M.McEwen, Trenton, Now Group Captain

Ottawa, Sept. 7—(CP)—National Defence Department headquarters last night announced a number of promotions in the permanent list of the Royal Canadian Air Force.

Wing Commander G. E. Brookes, Halifax; Wing Commander C. M. McEwen, Trenton, Ont. and Wing Commander G. V. Walsh, Ottawa, have all been promoted to be Group Captains.

Squadron Leader Alan E. Ferrier, Ottawa; Squadron Leader A. L. Morfee, Toronto and temporary Wing Commander F. V. Heakes, London, England, have been promoted to be Wing Commanders.

## OBITUARY

### LATE MISS MARY CALLERY
(Cannifton)

Largely attended by a group of sorrowing friends and relatives the funeral of the late Miss Mary Callery, Cannifton, was held yesterday from the Thompson Funeral Home, Everett Street.

Services at the home were in charge of the Rev. A. Armstrong, minister of Cannifton United Church, assisted by the Revs. E. Farnsworth, L. S. Wight and W. R. Merrick, all former ministers of that church. The last rites at the graveside were performed by the Rev. Armstrong assisted by Mr. Wight.

Pallbearers were Messrs. W. Cole, H. Boyce, E. F. Brenton, H. Brenton, H. Farnham, Chas. Mills, H. Tweedy.

## COL. W. N. PONTON

In the passing of Colonel William Nisbet Ponton, M.A., K.C., V.D., Belleville and Canada have lost one of their most distinguished sons. In that slight figure an indefatigable, unquenchable spirit kept the spark of life glowing up to the time the Great Commander called his name from the roll-book of glorious service to fellow creature and country to the reward that awaited him in the Valhalla of his country's outstanding men.

To use one of the gems of his own oratory his was the "glory of service". Member of an honored profession, his own idea of service was one that was as glorious as it was simple. A simple faith in his God and Empire, exemplified in not only in his every-day life but in outward associations and intimate contacts marked him as one of those rare individuals who inculcate by their very code of living, the spirit of godly lives and righteous actions.

He was an ardent Imperialist. The ideals of the British Empire, a heritage left him by loyal forebears, were one of the forces that governed a life that was noted for its fair dealings and honorable associations. He loved the sound of marching feet, of military music and the sight of the Grand Old Flag waving its famous red, white and blue in the breeze it has braved for many centuries, brought his hand to the salute. Until as recently as the present year, Colonel Ponton never missed a cadet parade. He loved the services, and always had an encouraging word for those who served.

A staunch adherent of the Empire and the Throne, perhaps his feelings are best exemplified in an excerpt taken from his last report to the Canadian Bar Association of which he was Registrar. Referring to the visit of Their Majesties, he wrote "With the turmoil and trouble and terrorism of the storm and stress of Europe creating a vague uncertainty and dread, may we not be justified in asking of His Majesty, Defender of the Faith, 'And who knoweth whether thou art come to the Kingdom for such a time as this' ".

He was a master of oratory being one of the best after dinner speakers in Canada. In Masonic circles he attained all that was possible to attain. By political persuasion he was Conservative, but above all, his united sterling qualities marked him as being a man.

Belleville, Ontario and Canada is the poorer for the passing of such men as Colonel Ponton.

## ITALY'S NEUTRALITY

It is apparently Italy's intention to remain neutral, at least for the time being. Whether this is according to a prearranged plan with Germany whereby the latter can obtain supplies chiefly from South American countries and the United States without undue trouble, no one knows.

Should this be true then it can be imagined that Mussolini is going to be in trouble in a short time. It would not be easy for the Italians to continue purchases for long without arousing suspicion on the part of the United States authorities as to where the goods were being used. The credits of neither nation are sufficient to make extensive purchases for long as the economic conditions of the two countries even before the war started were not good and this constitutes a barrier of itself. There is, also, the fact to be remembered that both the English and French navies would search Italian ships for contraband if they had reason for believing that the Italians were buying for the Germans. We cannot believe that Mussolini would accept such a situation with very good grace.

However, if he abandons his neutral position then so much the worse for Italy for she is in an extremely vulnerable situation. The country presents a splendid target for attack from the sea while a blockade would bring her to ruin for she possesses none of the essential elements that are needed to carry on a prolonged war. In fact it would seem that the Italians had better remain neutral—and strictly neutral.

## A SYMPATHETIC NEIGHBOR

In a local story that appeared in this paper yesterday it was stated that American tourists were sympathetic to the cause of Great Britain and France and Poland and they hoped that soon Hitler and his infamous crew would be wiped from the face of the earth or words to that effect. A couple of days ago an enterprising news man gave his impressions of a trip through the mid-western states to sound out the views of the residents there as to whether the United States could keep out of war. This area, long a stronghold of the isolationist element, was almost unanimous in the opinion that eventually the States would be in the war on the side of the democratic powers.

As a general thing the press is also favorable to the Allies and place the blame for the war squarely on Hitler's shoulders. From the foregoing it may be taken for granted that though the country officially is neutral that cannot stop the people from thinking their own thoughts as President Roosevelt stated in his last radio address. With the ground so well prepared the time will come when some blunder of the Nazis will drive the United States into the conflict on the side of the Democracies just as was done during the Great War. The torpedoing of the Athenia with a large number of Americans on board shows that the Germans have learned nothing from past experience.

### THE HOME FORUM

**Discussing the Events of the Day; Home Gossip and General News Topics as revealed by the Home Newspaper—under the evening lamp—and comments Grave and Gay.**

**Supervised by The Lamplighter.**

"CANADIANS SHOULD REMEMBER THE MEANING OF LIFE, and should realize that it is not all mere ease and joy. The time has come when it becomes necessary for those who have received the priceless gifts of human liberty and democracy to hold on to them and defend them." So said Bishop R. J. Renison, in addressing the congregation of St. Paul's Church, Toronto, last Sunday upon the war situation. Bishop Renison has just returned from a visit to England and took occasion to express these sentiments. He made a public apology for having previously misjudged Prime Minister Chamberlain. He was now convinced, the Bishop said, that the British Premier was a man who did not know the meaning of fear. "Premier Chamberlain is one of the most patient men that England has ever known. He knows not the meaning of fear, and I believe that the past year and all that has happened will justify the position which Britain under his leadership has taken," said Bishop Renison.

x x x

### PATRIOTIC SPENDING

Sunday Dispatch (London): Are you going to let Hitler add something to Napoleon's gibe? Do you want us to be a nation of empty shopkeepers? Of course you don't. But it is your fault that some shopkeepers are in danger of being broken, that theatres and cinemas are half-empty, that convalescing trade is getting a stab in the back instead of a helping push forward. Think: If the worst came, what good would the money you won't spend or invest now do you? Every pound you sit tight on beyond the claims of ordinary prudence, denying yourself the things you need and desire, is a bet against peace. And it is as blindly, stupidly hurting yourself as selling your country's secrets to a potential enemy.

x x x

WHAT IS GERMANY FIGHTING FOR? A continuation of the Hitler regimentation, the ever-present fearsome shadows of the GESTAPO, the muzzle which prevents expression of individual opinion, the regimentation of public conduct and opinions and even their menus. One man to do the thinking for the nation—what a thing to fight for, to die for—but nothing to live for.

x x x

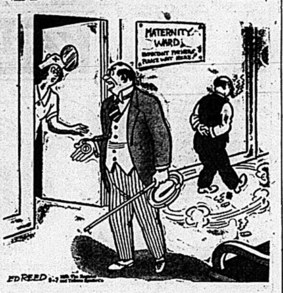
GREAT DISASTERS such as the sinking of the Titanic and the Lusitania, shocked the world, but within a week or so the horror had dulled and jokes were being manufactured about them. It is true that the public soon forgets, and it is also true that a sense of humor saves the sanity of nations, and it is that sense of humor that has carried Britons through all emergencies and crowned the Anglo-Saxon race victorious in leadership for the best things in life.

x x x

ELECTRIFY THE TOWN CLOCK—Perish the thought — after nearly a century of handwound operation. Why get modern all of a sudden, if it was good enough for our fathers why should it not be good enough for us, and vice versa, or what have you. First thing we know someone will propose that the one other glorious antique of the city hall and police station team work, the fire alarm system, which is sounded from the police station, relayed to the fire station—formerly the ward was tolled off on the city hall bell but that was a bit too much for the attenuated police force and now folks have to find the fire by following the siren or smelling the smoke, or just ignore it altogether.

## OFF THE RECORD

By Ed Reed



"What? Wait an hour or so?—Young lady, do you know who I am?"

# LOOKING BACKWARD

### GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

### 20 YEARS AGO

Sept, 7th., 1919

Mr. C. J. Fisher, Charles St., is spending a few days in Toronto.

Mr. Byron Call of Newcastle, N.B., is renewing acquaintances in the city.

Mrs. Wilson of Madoc, is the guest of Mrs. H. Carter, Moira Street West.

Mr. Sandy Grant, of Tweed, M.P.P., for East Hastings, was in town today.

Mr. Walter Fanning of Montreal, formerly of Belleville, is renewing acquaintances in the city.

Mr. and Mrs. George Palmer and Mr. and Mrs. W. E. Fox of this city, motored to Toronto, this week to visit the exhibition.

### 30 YEARS AGO

Sept. 7th., 1909

Mr. W. K. Beech has returned to the city to resume his duties at Albert College.

Mr. and Mrs. Arthur Harman have returned home after a pleasant holiday spent with friends in the Old Country.

Mr. George Warnam of the Intelligencer staff has returned from vacation.

Miss Sarah Templeton has returned home after visiting friends in Calgary and Edmonton.

Mr. S. J. Boldrick and family left today for their home in Denison, Texas, after visiting his parents, Mr. and Mrs. Boldrick, College Hill.

### 40 YEARS AGO

Sept. 7th., 1899

At the Madoc Cheese Board yesterday cheese sold at 12 cents.

A regular meeting of the Separate School Board was held last evening with the following present Messrs E. J. Butler (chairman), A. Tisdale, J. Dowrie, R. Thompson, D. Gallagher, C. Legault, J. Gillick, and W. J. Patterson. The estimates for the current year, amounting to $1,385.47 were passed.

Mr. T. P. Brown is in Toronto on business.

Mr. E. F. Dickens is visiting the Toronto Fair.

Mr. Charles Taylor is spending a few days in Toronto.

The yacht Vera with Capt. Fenwick, Dr. Thompson and Mr. James Phillips aboard, has returned after a cruise down the bay.

### 50 YEARS AGO

Sept. 7th., 1889

A meeting of the directors of the Bay Bridge Company will be held this evening.

Temperatures today— Maximum 67; minimum 50.

Mr. E. L. Morton of Toronto, is spending a few days in Belleville.

Mr. W. T. McIntyre of Toronto, formerly of Belleville, is in the city on business.

Mr. Thomas Donnelly of Toronto, formerly of this city, is in town for a few days on business.

Messrs. E. Roblin and Delong of Ameliasburg, have returned after a visit to the Canadian North West.

The Hon. Mackenzie Bowell has left for British Columbia.

## *Tiger Gort British Army Head*

The British Commonwealth is creating a new Army— a military machine which for its size will be the best-equipped and the most efficient in the world.

The man responsible for this job has been nicknamed "Tiger", not because he behaves like a ferocious sergeant major— on the contrary he is shy and retiring—but because he is a military genius, possessing the gift of determined, confident action; one who knows what he wants and gets it without argument because the authorities know he is right. In fact, the British Government have given him £200,000,000 to spend, and placed more power with him than has been bestowed upon any other single individual in British military history.

When the Government appointed Lord Gort Chief of Imperial General Staff, less than two years ago there were literally two "revolutions" in the British Army: more than 30 generals, who all though they were eligible for the job on account of being over 60 years of age, were very upset because their claims had been passed over and an almost unknown soldier, a mere major general, a man of just over 50 had been given such colossal responsibility; and the rank and file of the Army had a joyous "revolt" because they were going to be "bossed" at last by a "proper" soldier.

Before his appointment, the Man in the Street knew little of Lord Gort. He was not a publicized soldier as was Kitchener, and, indeed, throughout his life he has had rather a horror of publicity and its exaggerated value, believing the test of a man to be his accomplishment of successful work.

He is a professional rather than a "social" soldier, tremendously keen on every branch of military science and how it will effect the welfare of mankind. But in the Army he was well known: armchair generals feared him, for he was too masterfully efficient; non-commissioned officers and men loved him, for he was a "real" soldier.

"Tiger" Gort is a "born" soldier: a direct descendant of a 12th century military family. As a boy, soldiering was his obsession, and to the Military College at Sandhurst as soon as he left Harrow he went to be trained for the army. During his active career he has won every valued honor on the field of battle, and refused every "social" honor with which foreign governments like to decorate distinguished allies. He is the only Peer who has ever won the V.C.

Military authorities in France recognize in "Tiger" Gort a contemporary of their own C.-in-C., Field-Marshal Gamelin, a man of efficient action. It is no mere coincidence that these two great generals have a common understanding of European military problems and how to meet them. Gort and Gamelin represent the most powerful military personal leadership in the world.

How does this man, upon whose shoulders rests the colossal responsibility of recreating an army to guarantee the integrity and absolute secuity of the British Commonwealth, spend his leisure time? His office hours at Whitehall are from 10 a.m. to 7 p.m. or even later.

He is not to be found in the "hot-houses" of London's Mayfair during week-ends or holidays, but in the air—he has a pilot's certificate; in the hunting field, and on the high seas cruising in his auxiliary ketch Thanet. Hunting was a pastime of his forbears, and his grandfather was the well-known Robert Surtees, the famous author of "Jorrocks".

Lord Gort's greatest love is probably yachting: not power-yachting, where a motor has to do all the work, but hard sailing up and down Channel in the steepest seas, where physical action and rare judgment, and at times not a little courage is needed to bring Thanet safely to port—even by the master-mind behind Britain's new military machine!—A. L. Hurley in Our Empire, London.

### Mary Pickford Joins Husband

Richmond, Va., Sept. 7 (AP)—Mary Pickford cancelled plans for a tour of Virginia historical shrines to fly to Virginia Beach where her husband, Charles (Buddy) Rogers, orchestra ledaer, is ill. Rogers was reported threatened with pneumonia.

## *A Matter of Foreign Exchange*

With stories of francs, marks, liras, zloties and other currencies filling the news columns, we have been asked What are the values of foreign currencies?

As foreign exchange fluctuates, we give the prices quoted at a recent date. The countries with their units of currencies, par values and approximate exchange values a few days ago before the acute war scare knocked the bottom out of things, follow—

Great Britain, pound sterling, par at $8.24 to the pound, exchange value at $4.68. (The $8.24 is the value of the old gold pound based on the new gold value of $35 per ounce.)

Australia, pound par at $8.24, exchange at $3.75.

New Zealand, pound, par at $8.24 exchange at $3.77.

South Africa, pound par at $8.24, exchange at $4.68.

France, franc, par at 2.7 cents, exchange at 2.6 cents.

Germany, mark, par at 40 cents, exchange at 40 cents.

(There are many kinds of marks in Germany and the value of the mark on foreign exchange is maintained by artificial stimulation of one kind or another.)

Italy, lira, par at 5 cents, exchange at 5 cents.

Belgium, belga par at 17 cents, exchange at 17 cents.

Bulgaria lev, par at 1 cent, exchange at 1 cent.

Denmark, krone, par at 45 cents, exchange at 21 cents.

Finland, finmark, par at 4 cents, exchange at 2 cents.

Greece, drachma par at 2 cents, exchange at .85 cents.

Holland, guilder, no par set, exchange at 20 cents.

Norway, krone, par at 45 cents, exchange at 24 cents.

Hungary, pengo, par at 30 cents exchange at 20 cents.

Poland, zloty par at 19 cents, exchange at 19 cents.

Portugal, escudo, par at 7 cents, exchange at 4 cents.

Rumania leu, par at 1 cent, exchange at .74 cents.

Sweden, krone, par at 45 cents, exchange at 24 cents.

Switzerland franc, no par set, exchange at 23 cents.

Yugoslavia, dinar par at 3 cents, exchange at 2 cents.

Japan, yen, par at 84 cents, exchange at 27 cents.

India rupee par at 62 cents, exchange at 35 cents.

Other countries as well as Germany, use artificial monetary stimulants to keep up the exchange value of their currencies. Some of the nations, like Germany, Italy and Japan, have difficulty maintaining foreign exchange with which to purchase raw materials and other necessary supplies.—W. L. Clark in Windsor Star.

## *All Racehorses Look Alike*

Some time ago this baffled observer complained that it would be a big help to many bewildered onlookers at turf meetings if horses came in more varying colors. They run too much to one shade now. It's true that, for purposes of registry, they grade them from light chestnut to deep black, but there are few golden blondes and few inky blacks. Once in a while a roan pops up. Very rarely a grey. Most of them are bays that to the casual visitor, look as much alike as peas out of one pod. . . .

This observer didn't absolutely demand white horses. The plea was for horses of distinctive colors or patterns. If they can't have white horses, striped horses will do. How about a few spots and patches and perhaps a belted strain like the Dutch Belted cattle? About the most a man can get now by way of distinguishing color is a white blaze or nose stripe.

Incidentally, white stockings are out. They are no help at all. For one thing, the dirt kicked up along the track turns white stockings to chestnut or bay stockings before the entries reach the stall gate for the start. When it rains all the equine legs on exhibition are pretty well covered with mud, and white stockings disappear immediately. Then there are horses that run with white wrappings, further confusing an onlooker.

Consider what botanists have done with flowers. Give them time and they can turn you out a rose or violet or carnation of any solid color or specified varied pattern. The plea here is for some horse breeder to work along that general line. It could be done without changing the prevailing colors now turning so regularly on the turf.

Take an Airedale dog. Tan with a black saddle. Just a two-color job. Nothing fancy. Now, those same colors may be sighted by looking over a days card at Saratoga, but not in the pattern that the Airedale wears. That's just a hint in case any breeder is interested.

There are those herds of Dutch Belted cattle to provide another model for the turf. Why not a dark bay horse with a broad golden belt around its torso? How about a nice black with horizontal chestnut stripes along the rib section? Or a chestnut with a black head?

Why not a chestnut with black spots or a black with chestnut cross-hatches? There's a wide field of color and pattern there, even using the comparatively subdued colors now popular with breeders of thoroughbred stock.

Not only do too many horses look alike to a casual visitor on the turf, but many horses look so much alike that the authorities have to exercise great care to see that substitutions or masqueraders do not go to the post, and sometimes even the experts are fooled.

Marshall Cassidy, the steward for the Racing Commission, has something like the old Bertillon system for identifying horses, but with growing horses it's a ghastly job keeping pace with the changes in measurements on each equine. It would be much easier if the thoroughbreds came in distinctive colors and patterns. Then all that Marshall would have to do would be to issue each horse a passport, with photo attached, and test them for fresh paint before they put the jockeys up on race day.—John Kieran in New York Times.

## *The Kaiser and Hitler*

Is Hitler really German? Does he really represent the German genius, that of Goethe, Kant, Beethoven, Duerer and so many others? Does he symbolize the energy of his people or is he a tyrant, abusing the patience and powerlessness of a people which is worthy of a better fate?

This question, like most problems of a general character, merges into the obscurities of metaphysics. What is quite certain, however, is that Germany has already had leaders of Adolf Hitler's type, and those not so very long ago.

It is well known of Kaiser Wilhelm II that he used to like to assume the role of a Crusader, a pirate or a Wagnerian hero. As for Hitler, when he was just the leader of his party he used to make his entry into saloons with upraised arm, like a victorious general. He likes having his photograph taken and has a passion for resplendent uniforms; proof of this is afforded by his Hollywood-like parades in his "conquered towns".

The ex-kaiser, like the Fuehrer, firmly believed that he had received his power from God—not from the Christian God but from the "good old German god". Both like to retire now and then to listen to the still small voice from on high, Hitler at Berchtesgaden and Wilhelm on his yacht. Both pose as the brave, upright, rough and virile German.

While Wilhelm, during his reign, exchanged a mass of correspondence with Houston Steward Chamberlain, the founder of racialism, the aged philosopher, from his dying bed, blessed Hitler, whom he considered his best pupil. The Fuehrer, like the ex-kaiser, has a profound admiration for the grandiloquent but obscure theatrical romanticism of Richard Wagner; both men are megalomaniacs, with a great love for the pseudo-monumental, the pompous and the tedious.

Wilhelm II and Adolf Hitler are both "artists". The Fuehrer has not yet forgotten his aspiration as painter, which he was never able to realize, and as for the ex-kaiser, an amateur poet and musician, he used to love to accompany on the piano his intimate favourite Count Philip von Eulenburg, who obtained old German ballads for him.

They are both fanatics for power, obsessed by the idea of domination. Their provocative policy has on two occasions resulted in a vast anti-German coalition, including countries which were even at heart pro-German.

Through his stupid jealousy of Bismarck, the kaiser denounced the secret German-Russian alliance; two months later, in the winter of 1890, the Russo-French alliance came into being. When Wilhelm realized this, it was too late. "The French are a decadent and rotten nation", he explained to his cousin, the last of the Romanoffs, using the same words which figure in Mein Kampf. He did all he could to revive the friendship with the Russians, while at the same time he flirted with Britain. He offered his sword in turn to the British against the Russians and to the Russians against the British, unaware that these two nations acquainted each other with all his words. Hitler has played the same game with Russia and Poland.

Despite assertions to the contrary, Hitler, with all his apparent successes, is not a better diplomat than Wilhelm II. Both are mere demagogues, exploiting without scruple the ambitions of a great nation—ambitions which may, perhaps, be natural, but which a wise statesman should endeavour to discipline rather than foment.

The Fuehrer, like the kaiser before him, has continually been proclaiming his love of peace. Perhaps, after all, he was afraid of war. Who can tell? What is certain, is that, like his predecessor, he likes playing the Napoleon, the God of Thunder and the Master of his Armies. However, a love of uniforms does not suffice to make a good soldier, and Wilhelm, in spite of his "triumphs" in manoeuvres, was not one. As for Hitler . . .?

From Potsdam to Doorn.

Form Berchtesgaden to . . . .?

—Andred De Hevesy in Hamilton Spectator.

### Sir Frederick Banting Enlists

Toronto, Sept. 7 (CP)—Sir Frederick Banting, Professor of Medical Research in the University of Toronto and co-discoverer of insulin, has enlisted as Captain in the 15th General Hospital, Canadian Army Medical Corps, it was learned Sir Frederick enlisted as a private in the Field Ambulance during the Great War and rose to a Lieutenancy in the Canadian Army Medical Corps. He was wounded at Cambrai, where he won the Military Cross.

## WHY FISHING ATTRACTS

Perhaps you have often wondered how it is that a man can sit for hours at the edge of a dock under a broiling sun and dangle a line in the water in the hope of catching a fish. All that's required to keep him glued to the spot is the occasional nibble at the bait which sends a message along the pole to the effect that there are fish in "that thar body of water."

And then there is the ardent angler who will rise even before the break of day to get to his favorite fishing haunt just at the right time for a big catch. Very often there is keen disappointment as he returns from the trip with only a few sunfish and perhaps a perch or two that he was tempted to toss back into the water because they were little larger than a minnow.

What is it that makes fishing so attractive despite the frequent dampening of high hopes?

A psychology professor, who is also a disciple of Izaak Walton, says it is the gamble in fishing that adds to the appeal. "There is," he declares, "uncertainty and challenge in still or stream fishing. No real fisherman would get any thrill out of catching fish all the time." Psychologists call this "thwarting, with occasional success."

Hence fishing is not unlike playing the stock market. Sometimes you win and sometimes you don't. There is always that urge to try it once more, and it very often happens you get "hooked" securely after swallowing hook, line and sinker.—Kitchener Record.

## LAZY SALESMEN

Lazy Salesmen argue the subject both ways. Some say it's better to go hardest after sales when they're difficult to get, because you won't get any if you don't work. Others say it's better to push hardest for business when sales come easy, because then you put your money on a winning horse.

But P. D. Armour, the great packer, had the true picture.

"There are two times when a man must push hardest for sales," he used to remind his associates.

"First he must push hard when sales are hard to get.

"Second he must push hard when sales are easy to get.

"In other words, gentlemen, you've got to push all the time."

You do.—Canadian Business.

## WATCH YOUR STEP

Whether it is true or not, it's a good story:

When Viscount Swinton was Minister for Air in the British Cabinet, he took the controls of a new seaplane. He was accompanied by a young pilot of the Royal Air Force.

Having taken off from Southampton, they flew over most of Southern England. At Reading airport Lord Swinton circled lower and lower, just as if he intended to land. The young pilot got so alarmed he finally reminded his lordship that any attempt to land a seaplane on land would result in disaster.

The big man said nothing but sent his plane higher and finally returned to Southampton. There, he landed on the water and, in a kindly manner, gave his young companion a lecture on keeping his poise. He tried to convey the idea that the commander-in-chief of aircraft for Great Britain really knew the difference between a sea plane and a land plane. "No harm done, old chap," he said, "but don't lose your head so easily the next time, what?"

Whereupon Lord Swinton removed his helmet and stepped out grandly into 50 feet of water. —Montreal Star.

## FASTEST BIRD

A swift is a bird resembling a swallow. He looks uninteresting, even ordinary. Yet—he is the fastest bird in the world.

"Airplanes?" he says, contemptuously. "Duck-soup! I can fly circles around airplanes, and eat my dinner on the way!"

A boast— nevertheless, a substantial one. He often goes for a casual loop-the-loop in the air at seventy miles an hour. That's just a slow saunter! A hundred miles an hour is better exercise—but he can go two hundred miles an hour!

He has another claim to fame, in that he does not build the usual bird's nest. Instead of merely entwining different materials, he has special salivary glands that give out a gluey substance to cement the materials together. Sometimes the entire nest is made up of this glue. It is unfortunate that many of these nests are sought for the purpose of making the famous "bird's-nest soup" so relished by the Chinese epicure.

Another peculiarity is seen in the swift's feet, which are so constructed that he can walk right up the bare face of a cliff. So he doesn't limit his nests to trees, like most birds. He chooses queer places. Sometimes he even builds a couch in the same cave as a family of bats. The bats go out foraging at night, and the swift moves into the establishment until morning.

Always in a hurry, the swift never stops for meals. He just opens his wide, flat bill, and the dinner—usually insects—flies in. Among his favorite dishes is the termite, or flying white ant of the tropics. Since termites are so destructive that they can tear down entire buildings before they are discovered, the swift does a real service here.

He received his name from his speed, and if he can beat an airplane—"swift" is right!—Marie Wagner in Our Dumb Animals.

## WIFE LOST LIFE

Orillia, Ont., Sept. 7 (CP)—W. H. P. Burrows, manufacturer, said he received word his wife lost her life during sinking of the liner Athenia. His son, Gerald, 20, and daughter, Mary Elizabeth, 18, with their mother aboard the vessel, were reported taken safely to Glasgow.

Mr. George Hepburn of Picton and "Friday" Dainard of Milford are two of those who have joined the Canadian Active Service Force this week.

The staff of the Fair Grocery presented Mr. Norman Barrum with a large illustrated Bible on Saturday evening. Norman left early in the week for Chicago where he will begin theological studies.

Bobby Herrington, five year old son of Mr. and Mrs. David Herrington suffered a broken arm in a fall on Sunday afternoon. He was taken to P.E.C. Hospital where the arm was placed in a cast.

Miss Jane Elizabeth Little is spending a week with relatives in Toronto.

Mrs. David Brennan and Miss Helen Brennan left for their home in Westmount, P. Q., on Tuesday, after an enjoyable visit with the Misses Bradley, Centre St.

Miss M. Maude Campbell of Belleville and Mrs. J. L. Shannon of Picton were among those who attended the luncheon on Press Day in the women's pavilion, C. N. Exhibition on Friday, Sept. 1.

Mr. and Mrs. Gerald McCaw, Mr. and Mrs. Patrick McAuley and Mr. Chas. Shannon motored to Smith's Falls over the week end, owing to the death of David McAuley of that place. The remains of the late Mr. McAuley were brought to Pcton where interment was made in Mount Olivet Cemetery on Monday, Sept. 4th. David McAuley was a native of Prince Edward County having been born at Bongard's Corners, the elder son of Patrick McAuley Sr. and his wife Susan Minaker. He was a well-known hotel man, having operated hotels in Picton, Brockville and Smith's Falls. He is survived by his wife, formerly Elizabeth Powers of Picton and one daughter Mary. Mrs. Frank Powers of Smith's Falls is a sister and Mr. Patrick McAuley a brother of the deceased. Mr. McAuley was a devout Catholic and the burial service in Picton was conducted by Rev. Fr. J. A. Meehan.

## Marmora

Marmora — The monthly meeting of the Deloro Safety Committee took place in the Electric Shop on Tuesday afternoon with W. L. Rigg vice chairman, presiding. One suggestion was received during August and this was given an award. The Star was awarded the General Division. William Regan gave the report of the Inspection Committee. H. Loveless was appointed floating member for the current month. J. A. Rice touched on the month's activities of the Health and Investigation Committee and C. H. Buskard presented the monthly statement of the Benevolent Relief Funds. With the report of the Publicity Committee given by J. H. Hemphill the meeting adjourned.

Mr. and Mrs. J. Halowatty and small son of Detroit, Mich., are visiting Mr. and Mrs. Charles McInroy at Deloro.

Miss M. A. Murray, B.A. of Kingston has resumed her duties on the staff of Marmora High School.

### ENGAGEMENT NOTICE

Mr. and Mrs. John Hinds announce the engagement of their daughter, Isabell Mary to Mr. Campbell Lewis Wallbridge, son of Mr. and Mrs. Campbell M. Wallbridge of Madoc. The marriage to take place quietly on September 16.

Word has been received in the city that Rev. Dr. E. N. Baker is seriously ill of pneumonia in Bracebridge Memorial Hospital.

Miss Frances Hendy has returned to her home in Campbellford, after spending the past week the guest of Miss Patricia Rennick.

Mr. Norman Hickson has returned after attending the Toronto Exhibition.

Mr. Fred Parrott and Mr. C. E. Argue have arrived home after an extended holiday on the continent.

Miss Lois E. Gorman, who has been home on vacation, has returned to resume her duties as nurse-in-training at the Hospital for Sick Children, Toronto.

Mr. James Lynch, 153 Church St., son of Fire Chief and Mrs. William Lynch was rushed to Belleville General Hospital on Tuesday night, where he underwent an operation for appendicitis. His condition today is reported to be satisfactory.

Out-of-town guests at the Bell-Burtchael wedding at Christ Church at Coboconk, on Saturday included Mrs. W. D. Elliott, Mr. and Mrs. Borden Elliott, Mr. Mackay Elliott of this city also Mr. W. N. Bell, Miss Eliza Bell, Mr. W. Bell Jr., of Deseronto.

Mrs. Frank Cowan, 33 Forin St., was hostess last evening at a delightful cup and saucer shower in honor of Miss Bernadette Black, bride-to-be. About sixteen guests were present and spent an enjoyable evening playing Bingo. The dainty gifts were arranged in a gaily decorated umbrella and presented to the guest of honor. Delicious refreshments were served at the close of the evening.

Mrs. Milton Davison, 104 Chatham Street, entertained at a pantry shelf shower last evening, in honor of Miss Dorothy Davison, bride-elect. Fourteen guests were present and enjoyed a Chinese Checkers tournament. A mock wedding added to the evening's fun. Miss Davison was guest of honor at a stocking and handkerchief shower at which Mrs. Arthur Spruston was hostess on Tuesday evening.

# Weddings

### GIBSON—DAVIDSON

A pretty wedding took place quietly at the United Church parsonage, Thomasburg, at 10 o'clock Saturday morning, when Ferne Arvilla, daughter of Mr. and Mrs. Edward Davidson, Roslin, became the bride of Mr. Murney Robert Gibson, son of Mr. and Mrs. Albert Gibson, Latta. Rev. H. B. Herrington officiated.

The bride was charming in a smart street length costume of Queen's blue, fashioned on fitted princess lines at the waist, with radium lace inserts, with hat and shoes to match. She was attended by Miss Ida Gibson, sister of the groom, smartly attired, in navy triple sheer, with white accessories, while Mr. Carman Davidson, brother of the bride, was groomsman.

Immediately after the ceremony Mr. and Mrs. Gibson left, amid showers of confetti and good wishes for Toronto, Niagara and other points. The bride travelling in a burma blue cape ensemble, with white accessories. Upon their return they will reside near Latta.

### BELL—BURTCHAEL

Christ church in Coboconk Saturday was the setting for a pretty wedding, the bride being Phoebe Burtchael, daughter of Mrs. Burtchael and the late Christopher Burtchael. The bridegroom is George Arnold Bell, son of Mr. and Mrs. W. N. Bell, Deseronto. Lilies, gladioli, delphinium and palms decorated the church for the ceremony which was solemnized by Rev. R. E. Rigby. The groom's sister, Miss Eliza M. Bell, presided at the organ.

Given in marriage by her brother, David W. Burtchael, the bride was charming in a gown of white Alencon lace, fashioned on princess lines, with bolero jacket. She wore a gold cross, the gift of the groom. Her finger-tip veil was caught with orange blossoms and her bouquet was of roses and baby's breath.

Ada M. Vaughan, Walkerville, attended the bride, frocked in hyacinth blue taffeta, fashioned on princess lines, with matching quilted bolero. The shade of her turban matched the dress and her flowers were blue delphinium, cornflowers and baby's breath. MacKay Elliott, Belleville, attended the groom.

At the reception in Chateau Riviera, Coboconk, the bride's mother received wearing plum colored crepe with bodice of gold embroidery on net, and black accessories. Her corsage was of yellow gladioli.

After a wedding trip to Eastern Canada, the bridal couple will live in Coboconk. For travelling, the bride wore a lilac crepe dress with wool jacket and navy accessories.

### WARTMAN—McCANN

Eldorado, (Special)—A very pretty autumn wedding took place on Saturday, September 2nd., at the home of Mr. and Mrs. Charles D. McCann, when their third daughter, Bernis Helen, was united in marriage to Earl George, third son of Mr. and Mrs. Ulysses Wartman of Cooper. The ceremony was performed at two-thirty p.m. by Rev. M. Slack of the Standard Church of Seeley's Bay, a former pastor of the bride.

The bride, given in marriage by her father, took her place under the bridal arch, as the Wedding March was played by Mrs. Ed. Post, aunt of the bride.

The bride looked charming in a gown of pale pink sheer, with white accessories and carried a bouquet of gladioli and fern. She was attended by Miss Myrtle Tennyson, friend of the bride, who was dressed in pale pink sheer similar to that of the bride and carried a bouquet of gladioli and fern. The brother of the groom Mr. Lee Wartman of Toronto, was groomsman while Messrs. Rex and Ken Rollins acted as ushers.

After the ceremony the guests numbering about sixty repaired to the dining room which was tastefully decorated in blue and white. A dainty buffet luncheon was served by several young friends, of the bride and groom.

The groom's gift to the bride was a set of costume jewellery, to the bridesmaid a compact to the groomsman, cuff links, to the waiters, compacts, to the ushers safety razors, and to the organist, silver candle holders.

The bride's mother was gowned in navy sheer over flowered crepe with corsage of roses, and the groom's mother, wore navy flowered crepe with matching jacket.

The happy couple left amid showers of confetti and good wishes for Toronto, Niagara Falls, and United States, via Ivy Lea bridge. The bride's going away dress was navy crepe dress with grey finger-length coat with blue accessories. On their return they will reside on the groom's farm at Cooper.

Among those who attended the wedding from a distance were Mr. and Mrs. E. Manchester and Eva of Ottawa; Mr. and Mrs. Newton Orser, Kingston; Mr. and Mrs. Alex. Stevens of Peterboro; Miss Vera Post of Toronto; Messrs. Ken and Rex Rollins of Peterboro; Mr. and Mrs. Arthur Wartman and Mr. and Mrs. Cecil Wartman of Warkworth; Mr. and Mrs. Clarence Woofe and family of Norham; Mr. Arthur Manchester of Sudbury; Mr. Lee Wartman of Toronto and Mr. and Mrs. Ed. Post and Thelma of Marmora.

### HOLMES—PALLISER

Campbellford, Sept. 7 — Ferns and gladoli formed the background for a pretty wedding at St. John's United Church at noon Saturday, when Ruth Elizabeth, daughter of Mr. and Mrs. Charles W. Palliser, Oliver Road, became the bride of Donald Charles Holmes, formerly of Belleville, son of Mr. Charles Holmes, of Campbellford. Rev. G. N. Maxwell officiated.

The bride, who was given in marriage by her father, entered to the strains of Lohengrin's Wedding March as played on the organ by Mr. Harold R. Kitney. She made a charming picture in her full length wedding gown of white flowered tulle over taffeta with full skirt and bolero jacket. Her finger tip veil was caught with a coronet of premier roses and lily of the valley. She wore elbow length gloves of white mesh and carried a bouquet of Premier roses, lily of the valley and maiden hair fern.

Miss Reta Palliser, a sister of the bride, was bridesmaid. She was gowned in figured pink organdy over taffeta cut on similar lines to that of the bride's. Her hat and accessories were of matching shade. She carried a colonial [illegible] of Briarcliff roses, blue dephinium and white asters. The flower girl, little Anne Palliser, younger sister of the bride, looked lovely in her blue Swiss dotted muslin dress and poke bonnet in the same color. She carried a large basket of pink and white stocks.

The groom was assisted by his brother, Mr. Lionel Holmes.

Following the ceremony a reception was held at the home of the bride's parents, which was profusely decorated with flowers and pink and white streamers. Mrs. Palliser, mother of the bride, received in a plum colored gown with black accessories. She wore a corsage of yellow Joanna Hill roses. Mrs. Holmes wore Queen's blue sheer with white accessories, her corsage was pink Briarcliffe roses. Following a honeymoon trip, Mr. and Mrs. Holmes will return to reside in Campbellford.

## STIRLING

# STIRLING COUPLE ENJOY VISIT TO OLD COUNTRY

### Mr. and Mrs. J. B. Belshaw Just Day Out of Montreal When War Declared

### ADMIRED GARDENS

Stirling, Sept. 7—(Special)—Having completed a month's tour of England, Ireland and Scotland Mr. and Mrs. J. B. Belshaw, were only one day out from Montreal when word of the official declaration of war was received aboard the S. S. Antonia. Bookings to America are at present difficult to get owing to the large number of people trying to reach their homeland and safety from the dread of war. Mr. and Mrs. Belshaw had made reservations early after their arrival in England for their return trip and by so doing avoided such difficulties encountered by many. Every available spot of room on the Antonia was used, however, and refugees used all manner of accommodation in order to gain passage. Although the Antonia left Belfast several days previous to the declaration rigid regulations were in force throughout the entire trip and the actual declaration of war was not disclosed immediately to the passengers, which included a group of Czechs bound for Canada.

**Tour a Complete One**

Few people having spent less than six weeks on the British Isles could see more than Mr. and Mrs. Belshaw, who planned their own trip and covered all but two of the counties in England and also visited many places in Scotland, Ireland and Wales. Being enthusiastic horticulturists both were much impressed by the floral displays they witnessed throughout their first visit picture of the more famous gardens such as the world famous Kew Gardens were in no way an exaggeration of the truth for truly the beauty of English flowers is beyond description. In rural districts smooth square fields looked like a great patchwork quilt. Separating each field is a permanent stone wall or perfectly trimmed hedge. Another outstanding thing of beauty that left a great impression was Gough's Cave at Cheddar Natural formation of thin cavern with the incessant flow of ancient water driving upon them is something long to be remembered. Throughout the caves completed for tourist's observation is a complete lighting system which shows the rainbow colours to great advantage.

**London War Conscious**

Extensive military operations became more evident in all parts of England during recent days, and tourist accommodation in the neighbourhood of the well known aviation bases was scarce due largely to the influx of recruits and reserves called to their posts in case of serious consequences of the crisis which hung in balance for so many days. Among the many famous places visited by the couple in London were Canterbury Cathedral, St. Paul's Cathedral the Tower of London, Houses of Parliament and the original Council Chamber, where the first British Parliament convened; Yorkminster and the Corn Market, also while touring Trafalgar Square and Leicester Square, Picadilly Circus and the Wellington Arch they witnessed the colourful and striking changing of the guard. They also got a close vision of Their Majesties King George and Queen Elizabeth and the Princesses Royal. Whitehall and the world famous cenotaph was another impressive sight. They had also seen the famous Chalk cliffs of Dover and the cities ancient architectural grandeur. They also saw the original Wesleyan Chapel. The floral clock of Edinborough was another wonderful sight.

Climaxing their interesting trip at Belfast after covering many points of interest in England, Scotland, Ireland and Wales, they were not surprised to find a deluge of refugees seeking passage to America owing to the possibility of war and learned that had they not made all arrangement for their return trip when they did they would have encountered difficulty in securing reservations, as it was there were many people both Canadian and American anxious to get any kind of passage available.

His grandfather, father, uncle, brother and two cousins having been killed following riding accidents, Johannes J. Erasmus of Bloemfontein, South Africa, has vowed never to ride a horse again.

### MACARONI AND CHEESE

6 ozs. macaroni or Ready Cuts.
1 tablespoonful butter
1 tablespoonful flour
1 half cup hot milk
Salt and pepper to taste,
Bread crumbs,
Grated cheese.

To boil macaroni products properly, have a large pot or saucepan two-thirds full of water, on the fire, put a level tablespoonful of salt into it for every quart of water, to which if desired, may be added half teaspoonful of butter, which gives a better flavor, and when it is boiling fast throw into it the macaroni products. Let it boil until it yields easily to pressure between the fingers; then drain it in a colander and rinse it thoroughly in cold water in which it should remain until you are ready to finish it according to any given recipe. Make a sauce of one tablespoonful each of butter and flour and one-half cup of hot milk, salt. Put a layer of strong grated cheese in the bottom of a baking dish, spread over it a layer of macaroni and one of sauce; then cheese, macaroni and sauce, covering the top with fine bread crumbs and bits of butter dotted over and a little grated cheese. Place in the oven and bake until golden brown. If individual dishes used place them in a pan of hot water.

# BRAVE GARRISON

*(Continued From Page One)*

Riga, Latvia, Sept. 7 (AP)—Although the former Free City of Danzig has been reunited with the German Reich since last Friday, artillery fire still was echoing through the city's streets when I left there.

Outside, on the edge of Danzig Bay, a determined garrison continued to hold the Polish munitions depot of Westerplatte late Tuesday.

Though machine-guns and small arms are believed to be their only armament, they have held out in the depot against bombardment from the air, shell fire from the cruiser Schleswig-Holstein which opened the war's hostilities at 4.45 a.m. on Sept. 1, and landing parties sent from the cruiser.

Under supervision by the German army, Gestapo (secret police) and civilian authorities, complete censorship and rationing of foodstuffs and other necessities have been put into effect; free travel is prohibited, with foreigners needing the Gestapo's sanction before being able to leave, and export and import business is at a standstill.

All this, combined with the Polish stand at Westerplatte, has tended to take the edge off the enthusiasm with which Danzigers hailed Albert Fřoster's announcement of their return to the Reich last Friday.

Although the nearby seashore resort of Zoppot was bombarded with the loss of a few lives, according to German reports, Danzig itself had not been under fire.

Still the city showed many signs of the war. A prolonged battle for the Polish post office on Friday ended with the attackers setting fire to the building. About 30 Poles were reported to have lost their lives in the fire, while some 40 were captured.

Marian Chodacki, Polish Commissioner to Danzig, is reported held in the city under protective arrest.

As at Westerplatte, the Poles also were holding off all attacks on their lone seaport, the nearby city of Gdynia.

SIZES 14-44

**$2.95**

We offer the greatest selection of new fall dresses at $2.95 each — you'll be amazed at the smart up to the minute styling — at the trimmings, and the colors. You can choose from sizes 14 to 44 in the group. These dresses ordinarily would sell at a much higher price. Specially featured for this week-end.

## YOU SAVE AT LIPSON'S

# 'Oilers' Beat Peterboro 4-3 In Thrilling Finish, Forcing Series To 3rd Game

### Tie Score in Eighth and Squeeze Play Sends Across Winning Run in 9th

### PITCHERS' BATTLE

### Bawden Bests Bateman as He Limits Petes to Five Hits and Strikes Out 14

A squeeze play, that functioned perfectly gave the Belleville Shell "Oilers" a last inning 4 to 3 win over Peterboro in the second game of the Eastern Ontario intermediate "A" finals in the O.A.S.A. at Coleman Flats last night to knot the series at one game each and force the series into a third and deciding game to be played at Port Hope on Friday.

Trailing badly for the greater part of the game the "Oilers" penetrated the Peterboro defence for a run in the seventh, while Johnnie Bawden's single drove across the tying run in the eighth, but it remained to have the "Oilers" stage a true story-book finish to win in the bottom half of the ninth.

Moon opened the ninth with a single, raced to third on Rowbotham's one base blow, while the latter took second to give Belleville two on base and none away. Ronsky beat out an infield hit to fill the bases, but Dickey forced Moon at home. Stan Amo stepped to the plate and bunted a spinning ball, that got away from third baseman Bill Caladine and Rowbotham scampered home with the winning run.

**Take Early Game Lead**

Although outhit 10 to 5, the Peterboro nine dominated the play for the greater part of the pastime as they took an early-game lead getting a run in the first on a walk and Kearns' single. They added another in the second with two singles and a passed ball while their final run came in the third as the result of Bill Calladine's hit, a fielder's choice and Moon's error. The Petes only got one hit off Bawden after the third, Starr's single in the seventh.

For Belleville O'Neill doubled in the seventh and scored on Moon's single. In the eighth Price dropped Dickey's fly in left, Amo was safe on W. Calladine's error, that saw Dickey race home, Bawden singled sending Amo home with the tying run to knot the score. Then came the ninth, that saw the Petes held scoreless and Belleville came through with a true Merriwell finish.

Bawden struck out 14 to Bateman's 3 and walked five as Bateman did not issue a single free pass. Starr was the only Pete to find Bawden for more than one hit, getting two singles. Moon, Ronsky and O'Neill led the "Oilers" with two hits each, as Belleville out-hit the Petes 10 to 5.

# AMERICAN ASSOC. MAY NOT OPERATE

### Practically All Their Hockey Players Come From Canada

Kansas City, Sept. 7 (AP)—If Canada joins Great Britain in the war against Germany, the American Hockey Association may suspend play for the coming season, W. F. Grant, President of the Association told friends last night in a telephone conversation from New York.

Approximately 90 per cent of the professional hockey players in the United States come from Canada. If these players are called to the colors, almost all the leagues would be forced to halt play, Grant said.

# AUSTRALIAN TEAM ALLOWED TO STAY

### Will Compete in U.S. Tennis Championships at Forest Hills

New York, Sept. 7 (AP)—Sighs of relief came from tennis officials today at the news the Australian Davis Cup team would play in the United States championships after all.

For a couple of days, it looked as if the tournament starting today would be a flop. The victorious Aussie Davis cuppers—Aurian Quist, Jack Bromwich, Harry Hopman and Jack Crawford—had been ordered to return home by the first boat and climb into wartime khaki.

This meant the men's division was left without a real gate attraction, barring, possibly, Bobby Riggs.

But Captain Hopman of the Anzacs cabled his home association insisting the boys, by their victory at Merion, had won the right to try for the championship. Now Hopman has his way.

### HITLER IS OPTIMISTIC

Rome. Sept. 6—(AP)—Italian newspaper correspondents with the German army on the Vistula river front reported today that Adolf Hitler had asked Polish peasants in occupied areas to return to work quickly in preparation for next year's crop.

CALLING 'EM

# Between the Lines

with

*Ken J. Colling*

Whenever Belleville and Peterboro' softball teams clash there's always plenty of action and not infrequently the odd fistic outbreak. Last night's Peterboro at Shell "Oilers" pastime proved no exception to the rule when the "Oilers" staged a true story-book finish to snatch a 4-3 ninth inning victory and force the series to a third game, to be played in Port Hope Friday. All was quiet and serene until Belleville knotted the score and for some unknown reason Sonny Green approached Umpire Payne, of Peterboro, in argument. Payne rightfully waved Green back to the bench and then the two tangled, for which no doubt Green may be suspended for the remainder of the season. At any rate fans swarmed the field and several private fights broke out before the police stepped in and quietened the outbreak. What Green's argument was all about we have no idea, but he was certainly wrong in his attitude after being waved to the bench, as the O.A.S.A. will not tolerate players attacking officials.

As for the actual game it developed into a pitching duel between Johnny Bawden and Lorne Bateman, the latter being a former Belleville pitcher now with Peterboro. After the game was over Bawden had struck out 14 to Bateman's five and allowed five hits as the "Oilers" were collecting ten. Bawden helped his own cause with an eight inning single that scored the tying run, but it was Stan Amo's bunt, for a prolific squeeze play, that proved the moneyed bingle, when Bill Calladine bobbled the spinning spheroid to allow Rowbotham to score from third standing up. Just why Skipper Sedore kept trying to bunt Bateman for safe hits we are at a loss to understand, as it was the result of sound clouting, that ultimately tied the score for Belleville in the eighth, after many innings of futile attempts at "laying 'em down." Incidentally only three Belleville players were credited with put outs, with the exception of strike outs and outs at first base. The two clubs are very evenly matched, as the result of the previous two games clearly indicate, which should make the third and final tussle a nerve-wracker and no doubt the breaks of the game will ultimately decide the winner.

The Belleville "Orfuns" endeavoured to obtain a practice game with the Napanee Gibbards for this evening, but owing to the Napanee Fair being in progress Walt Gerow did not deem it advisable, although both clubs needed the practice. The Gibbards are awaiting the Oakville-Bowmanville winner, and won't see action until next Wednesday, while in all probability Belleville will move into O.B.A. action versus Cobourg on Saturday with the return game here next Wednesday afternoon.

Relaxation is the secret of hitting in baseball as well as in golf, according to outfielder Paul Waner of the Pittsburgh Pirates, the only active, major league player who has won three National league batting championships. The fact that the Pirate fly-catcher has also been southpaw golf champion for more years than that, qualifies him to speak authoritatively. Waner says worry causes more batting slumps and the way to get out of them is to go up to the plate without a thought except the idea of swinging the bat in the most natural way.

Frank Bartell of Brooklyn, N. Y., holds the record for bicycle speed. He was clocked at 80.58 miles an hour March 6, 1935, by American Automobile association timers at Los Angeles, Calif. The former record was 76 miles an hour set by Torchy Peden, at Minneapolis in 1932.

Tommy Pedder and Jack Cooper, Belleville's two outstanding weightlifters, added to their laurels during the Canadian National Exhibition weightlifting championships this week. Pedder won the Bantamweight class, even if he did have to run five miles in his civil attire in order to make the weight of 123 3-4 pounds. Pedder's total lift was 580 pounds, while Cooper hoisted a total of 750 pounds, as both were somewhat under their lifts established here recently. In the subsequent North American lifts, however, Pedder placed second in his class and Cooper third, a remarkable effort for the latter who is a comparative new-comer to the game.

Harold "Friday" Dalnard, Picton's star pitching-outfielder in the Bay of Quinte League, was the first man to step forward and offer his services for his country when recruits were called for in the Prince Edward County seat this week, we hear. Dalnard was always a courageous youth and will no doubt serve his King and Country as faithfully as he did his baseball efforts.

The Belleville Tennis Club knotted the Bay of Quinte Tennis League finals with Tweed at 1 tourney each, when the local nettsters beat the lads and lassies from Sam Curry's adopted village 4 sets to two on the Quinte Skating Club court yesterday. In the initial tourney Tweed won by a similar margin, forcing a third and final match at Point Anne next week. Incidentally the young Belleville club has come far in the district tennis realm in the short space of two years and with so many youthful players will doubtlessly be a powerful threat in years to come.

President Frank Calder of the National Hockey League, has called together his rules committee, which would indicate the major professional hockey loop is contemplating their usual functioning for the coming season. The old National Hockey Association functioned during the last war, although we believe only three clubs were in operation during the four war years, Toronto, Ottawa and Montreal. Quebec City was in the league for part time, however.

Sport Spice..'Pete' Morgan, former Belleville rightwinger, is vacationing in Belleville, while brother Harry is playing ball with McIntyre Mines in the Northern Ontario play-offs..They do tell us that Harry is the most improved ball player in the north country.. Although the Reds divided their games with the Pirates yesterday, they gained ground as the Cardinals lost..Connie Mack, 76-year-old mentor of the A's saw his team in action yesterday for the first time in many months—they lost 6-3 to the Nationals..Both Queens University and R.M.C. plan to carry on their fall football schedule as per usual this season..Peterboro has asked to withdraw from the Inter-city senior ball play-offs—injuries to players is their reason. Sporting a broken ankle and a pair of crutches, Doug Mowry, the Petes' catcher, witnessed last night's softball game.

# ENGLISH FOOTBALL RESCINDS INSTRUCTIONS

Crewe, England, Sept. 7—(CP Cable)—Following a meeting of the English Football League's management committee here today announcement was made that it had been decided to rescind instructions sent to clubs asking them to retain control of players. It was stated that all league competitions had been cancelled owing to the war but this did not necessarily mean for the season.

Officials stated the league would await instructions from the government and the English Football Association before taking further action.

Meanwhile in Glasgow the Scottish Football Association suspended all contracts between clubs and players. It is probable that similar action will be taken by the Welsh and Irish soccer authorities.

# Queens Likely To Play This Fall

Kingston, Sept. 7. — A meeting of the Athletic Board of Control at Queen's University was held this afternoon for the purpose of deciding whether or not Queen's would continue to play in the Senior Intercollegiate Rugby Union in view of the international war crisis.

At the conclusion of the meeting Charles Hicks, secretary, stated that there was no statement to be issued other than that the decision of the meeting will be sent to the Intercollegiate reference board, which meets this Friday.

While no official statement is given it is understood that Queens will likely carry on this fall.

### BROWNS BUY PITCHER

Boston, Sept. 7— (AP)— Boston Red Sox announced today the release of pitcher Jake Wade on waivers of the St. Louis American League Club. Wade came to the Boston club from Detroit at the beginning of the season.

# *War Clouds May Halt Professional Hockey Set-Up*

New Haven, Conn., Sept. 6—(AP)—Possibility that war in Europe might hinder professional hockey in Canada and the United States this winter was considered here today, but Maurice Podoloff, president of the International-American League, was inclined to be optimistic about the situation. Most of the players are Canadian citizens.

"We can't tell where we stand until after the Canadian Parliament meets Thursday," he said.

Even if Canada decides to send an army abroad, Podoloff said, a majority of the players are married and presumably will not be among the first called to the colors.

The league president said a meeting to draw up a schedule would be held Sept. 16 in New York and "we will consider the possible effects of the whole war situation then."

# Laughing Larry French of Cubs Has Last Laugh on Hartnett After Getting Regular Work

### Chicago Southpaw Wins Six and Loses One Since Going to Owner Wrigley

### REDS SPLIT PAIR

### Lose First to Pirates in 11 Innings but Win Nightcap in 10 Frames

By JUDSON BAILEY
(Associated Press Sports Writer)

Laughing Larry French of Chicago Cubs is having the last laugh over that spat he had with Manager Gabby Hartnett back in July.

Since he went to owner Philip K. Wrigley and protested he wasn't getting enough work, the 30-year-old southpaw has won six and lost one game, putting him in a position for the best percentage record of his baseball career.

His 12th triumph of the season was an important 11-3 decision over St. Louis Cardinals yesterday, cutting the gap in the National League between Chicago and second place to 2 1-2 games.

French spaced 10 hits, struck out seven batters and walked none. He also hit a home run with one on.

The victory ended a three-game losing streak for the Cubs and added half a game to the margin of Cincinnati's National League leaders, who split a pair of extra-inning extravaganzas with Pittsburgh Pirates.

**Errors Contribute to Loss**

Five errors contributed to the Reds' loss of the first game 5-4 in 11 innings. They tightened up to give Paul Derringer perfect support in the nightcap and won 4-3 in the 10th when Bill Werber's grounder bounced over Arky Vaughan's head for a double scoring Bill Myers.

New York Giants won their fifth game in a row with a 16-hit 10-4 foray against Boston Bees. Brooklyn Dodgers kept half a step behind their cross-town rivals by edging out the Phillies 2-1 in a night game.

Joe Djmaggio got his 26th homer in the eighth inning to dissolve a deadlock and give New York Yankees a 2-1 count over Boston Red Sox and increase the champions American League lead to 15 1-2 games.

**Indians Shutout**

Archie McKain shut out Cleveland Indians 2-0 although giving nine hits to the five Detroit Tigers culled from Al Milnar. One of the swats was a two-run homer by Rudy York. John Rigney chalked up his 11th straight victory and 14th of the season for Chicago White Sox 7-2 against St. Louis Browns and Dutch Leonard gained his 17th decision as Washington Senators downed the Athletics 6-3.

# JERSEY GIANTS WIN ON HOMER

### Lone Circuit Blow Enough to Defeat Newark Bears 1 to 0

By the Associated Press

Jersey Giants, deprived of a chance to clinch a tie for the International League pennant last night when Rochester's game was rained out, have an opportunity to do even better tonight, by stowing away the flag for keeps.

The Little Giants made the most of their position last night by edging out Newark Bears, 1-0, on a home run by Albie Glossop and Rollie Stiles' five-hit pitching.

They needed a full game to insure themselves a tie and, a game and a half to win. Rain washed out the Red Wings' scheduled contest at Toronto, leaving the Giants half a notch short of a certain tie, but they'll have their first championship in 36 years tonight if they win and Rochester loses.

Jersey City is at home to Baltimore Orioles today, Rochester moves to Montreal, Syracuse goes to Newark and Buffalo plays at Toronto.

The Orioles may take it upon themselves to prolong the pennant palaver. They took their third straight from Syracuse Chiefs last night, 3-1.

# BELLEVILLE CLUB RALLIES TO WIN

Staging a sterling last-minute rally on their home courts at the Quinte Skating Club, the Belleville Tennis Club rallied to defeat Tweed four points to two and force the Bay of Quinte Tennis League finals to a third and final tournament here yesterday.

Tweed had won the first matches of the series by the same margin, leaving the two clubs tied in points at the conclusion of the second match here yesterday. The third and deciding match will be played in Point Anne next Wednesday.

Belleville won two sets of men's doubles and two sets of mixed doubles to win. Tweed won the two singles matches.

The results of the tournament were:

**Men's Singles**

Max Cotton, Tweed, defeated Jack Dickens, Belleville, 6-1, 6-1.

**Men's Doubles**

Dawson MacLean and G. Beuker, Belleville, defeated Joe Courneyea and Pat Lafontaine, Tweed, 6-4, 6-3.

Spence Evans and D. Logie, Belleville, defeated W. Archer and P. Tummon, Tweed, 6-3, 6-3.

**Mixed Doubles**

J. Cruji and G. Atyeo, Belleville, won over G. Gordon and G. [illegible]wood, Tweed, 6-1, 6-2.

M. Wardner and G. Barclay, Belleville, defeated F. Graham and T. Moffatt, Tweed, 1-6, 6-3, 6-4.

**Ladies' Doubles**

Mrs. Moffatt and C. Morrison, Tweed, defeated M. Howard and M. McLean, Belleville, 6-3, 6-4.

BRITISH SUITINGS!

TIP TOP TAILORS OPENS FALL SEASON WITH SPECTACULAR EVENT VALUE THAT SPELLS *ACTION!*

$24.95

HAND-CUT AND INDIVIDUALLY TAILORED TO YOUR PERSONAL MEASUREMENTS

Courtaulds "Quality-Controlled" Rayon Linings are an extra value feature in Tip Top clothes.

This Fall opening offering represents a value too good to miss—from a firm famous for its *everyday* values. The story is this. Our woolen buyer, recently visiting a famous mill in England, noticed a group of exceptionally beautiful materials. Inspecting them more closely, he found that here were fabrics that *were* extraordinary—rich, lustrous, of undoubted ultra-quality. Now, our woolen buyer is a man of many years' experience. He knew these fabrics would be snapped up on sight in Canada. He finally persuaded this English mill to let us have a limited quantity at a price that would enable us to offer them to our customers at the regular Tip Top price. He succeeded. The fabrics are now here—at your Tip Top store. But not for very long, if we are any judge of your appreciation of a really great value. Never before have we presented such a worthwhile offering. Remember—these unusual materials are available at our regular price—*individually hand-cut and tailored to your measure in any style you wish.*

# Britain Sabotaged Duce's Effort To Preserve Peace Germany's Charge In White Book

Berlin, Sept. 7—(AP)—The German government on Tuesday night issued a white book describing recent phases of Polish-German relations and concluding that Great Britain is "responsible for the war".

It charged Britain "sabotaged Premier Mussolini's efforts to preserve peace." Documents were quoted to establish a German contention that neither Poland nor Great Britain were in a mood for compromises during the last critical moments.

The white book argument was divided into 12 divisions on a chronological basis.

1 Beginning in August the Reich took note of an exchange of communications between the Free City of Danzig and Poland which culminated in the Polish ultimatum concerning the rights of Polish customs inspectors.

### Germany Warned Poland

Germany warned Poland any more ultimatums to Danzig would strain relations between Germany and Poland. Poland allegedly replied that any German interference in events at Danzig would be regarded as an aggression against Poland.

2. On Aug. 22 Mr. Chamberlain "under the influence of reports of the impending conclusion of the non-aggression pact between Germany and Russia" in a personal letter to Hitler said England was prepared to fulfill her obligations toward Poland but pleaded for an atmosphere in which Polish-German relations might be settled by discussion.

The next day Hitler answered, calling attention "to the Polish terror over German nationals." Hitler recalled his offer of settlement last March, to which he said England responded with false reports of German mobilization againts Poland.

### Called Ambassador

3. Although Mr. Chamberlain's letter and subsequent utterances by British statesmen indicated England had no sympathy for the German point of view, Hitler on Aug. 25 called the British Ambassador to make a new effort to come to an understanding with England. He proposed a far-reaching agreement with Britain after settlement of the Corridor and Danzig problems.

4. While Britain studied Hitler's proposals the Fuehrer exchanged letters with Premier Daladier (of France) setting forth the German demands on Poland (Danzig and the Corridor). He also renewed assurances to France that Germany's west boundaries are accepted by the Reich as final.

5. Aug. 28 Britain expressed readiness to talk about the reorganization of Anglo-German relations. Britain added it was assured by Poland the Polish government was ready to conduct direct negotiations with Germany.

Hitler on Aug. 29 declared Germany's readiness to receive a Polish negotiator and said Germany expected to receive an authorized negotiator Aug. 30. He said that meanwhile the Reich would work out a solution acceptable to Germany.

### Arrived Aug. 30

6. No Polish negotiator arrived Aug. 30 and no communication was received from the British. Instead, Germany received reports of Polish mobilization. Not until midnight of that day did the British Ambassador hand in a new memorandum containing no constructive suggestions and saying merely that Hitler's suggestions had been given Poland that Great Britain believed Poland would not have been expected to reply by Aug. 30.

7. Although no Polish negotiator arrived in Berlin, the British government was given an outline of German suggestions for a settlement which the Reich had worked out meanwhile. The Reich asked again that Poland name a negotiator. On Aug. 31 the Polish Ambassador told the Reich's Foreign Minister that Poland had received from Britain the night before a report of the possibility of direct negotiation. But the Polish Ambassador was unauthorized to undertake any conversations.

### Waited Two Days

8. After waiting vainly for two days for a Polish negotiator, the Reich on the night of Aug. 31 made public its proposals. The Warsaw radio pronounced them unacceptable.

9. After being forced to the conclusion that efforts to negotiate with Poland were futile, Hitler announced that in view of numerous violations it would be necessary to "use force."

10—On the night of Sept. 1 the British and French Ambassadors presented similarly phrased memorandums in which it was demanded that Germany withdraw her troops from Polish territory and that in the event this was not done these states would fulfill their treaty obligations toward Poland.

The Reich's Foreign Minister said Germany must refuse the implications of the memorandums that Germany was aggressive toward Poland.

11. Inasmuch as these notes raised the danger of war, Mussolini made the proposal of an armistice and international conference. The proposal was answered by Germany and France in a positive manner but Great Britain rejected it. So the Duce's efforts were frustrated by Great Britain.

### Britain Makes Demand

12. At 9 a.m. Sept. 3 the British Ambassador appeared at the foreign office and handed the office a note wherein Great Britain demanded withdrawal of German troops within a two-hour time limit. In London the British Secretary of Foreign Affairs handed the German Charge D'Affaires a note that a state of war existed between the countries from 11 a.m.

On the same day at 11:30 the Reich's Foreign Minister handed the British Ambassador here a note rejecting the ultimatum but pointing out the responsibility for war must rest on Britain. The French Ambassador handed in a similar ultimatum and after being informed verbally of the answer given to Britain said it was his "unpleasant duty" to say a state of war existed after 5 p.m. Whereupon the Reich's Foreign Minister replied France must assume the responsibility inflicted on people if France attacked Germany.

# AMERICANS WANT TO AID BRITAIN

## Send Resolution Asking That U. S. Neutrality Law Be Amended

Watertown, N. Y., Cept. 7—(AP)—Jefferson County Pomona Grange was on record today with a resolution urging the United States to furnish Great Britain and France with supplies they need during the present European war. A copy of the resolution, approved at a meeting last night at nearby Adams Centre, was ordered sent to the Congressmen from the district.

The resolution said in part, "be it further resolved, that it should not only be a privilege but a duty to aid Britain and France in this crisis, not by force of arms, but by furnishing supplies which may be sorely needed in defence of Democracy, a cause in which we should be, and are, deeply interested."

The resolution also asked that present neutrality laws be amended.

# Cannifton

Cannifton—Mr. and Mrs. J. Webb, Front of Sidney, were Sunday visitors at Mr. and Mrs. Chas. Matthews'.

Mrs. (Dr.) G. W. Gordon of Watertown, N.Y., is visiting her daughter, Mrs. Harry Cairns.

Much sympathy is extended to friends and relatives of Mrs. W. Jones.

Mr. and Mrs. Harry Brenton of Corbyville were callers at Mrs. B. Gilbert's, on Sunday afternoon.

Miss Edith Carmichael is making a visit with Dr. and Mrs. Gordon of Newark, N.J.

Mrs. J. Savage spent an evening recently with her son, Mr. Walter Savage of Stirling.

Visitors at Mrs. Harry Cairns' home are, her brother, Mr. F. Gordon, and wife also her nephew, Mr. Gerald Gordon and wife, all from Watertown, N.Y.

Miss Flossie Lawrence of Kirkland Lake attended the funeral of her aunt, Mrs. W. Jones.

Mrs. Harry Farnham is improving slowly.

Mr. and Mrs. Percy Millard also Mrs. Poste spent the week-end visiting at Niagara Falls.

Mr. and Mrs. Charles Matthews accompanied by Miss Elma Reid of O.S.D. and Mrs. Fred Ashmore of Belleville spent Monday at the Toronto Exhibition.

Mr. Roy Poste of Toronto is visiting relatives in the village.

Pupils have returned back to school after enjoying two months' holidays.

Dr. A. L. Callery of Port Huron, Mich., is here attending the funeral of his sister, Miss Mary Callery.

Miss Jean Kerr has returned to her home at Bancroft after making a visit with her uncle and aunt, Mr. and Mrs. G. Lywood.

Mrs. Jennie Hamnann of Chicago, Ill., is the guest of her sister-in-law, Mrs. Dan Mason.

"As soon as you discriminate against one group, that discrimination very often cannot be controlled and spreads to others." —Mrs. Franklin D. Roosevelt.

"I trust that we may yet secure our aim of international peace".—Neville Chamberlain.

PEEVISH CHILDREN

When your children are peevish by day and sleepless at night . . . it may be caused by the weakening effect of worms. Don't let them suffer needlessly. Give them Miller's Worm Powders. Pleasant-tasting as sugar, absolutely safe, these effective powders have been famous for generations for relief and restorative effect. They will help your child, cleanse the system and promote health and happiness again.

"I Save Money by Using OLD DUTCH It Goes So Far."

"I proved it by the dating test★"

★*"I put the date on the package of Old Dutch when I opened it. It lasted and lasted, and did so much cleaning that I know I save money by using Old Dutch exclusively!"*

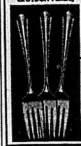
Old Dutch goes so far because it is made with Seismotite, tiny flakes which lie flat and cover more surface. Old Dutch helps you economize in other ways, too. It doesn't scratch. It gives money saving protection to bathtubs, washbasins, sinks, pots and pans, etc. It does away too with the expense of buying "special cleaners," for Old Dutch does all kinds of cleansing and is the only cleanser you need.

And to the money saving Old Dutch brings, add the saving of time, steps and precious energy. Keep Old Dutch handy in kitchen, bathroom, laundry and garage.

Made in Canada

LOOK! Lovely WM. A. ROGERS SILVERWARE

(Beautiful CROYDON Pattern)



3 Salad Forks for only 60¢ and 3 Old Dutch Labels ($1.60 Value)

# FRED T. WARD OF STIRLING, 82

## For More Than 50 Years He Carried on Business in Stirling

Stirling, Sept. 7.—(Special)—Mr. F. T. Ward prominent Stirling citizen, who in the belief of many local businessmen has contributed much to the growth of the village, celebrated his eighty-second birthday on Tuesday, Sept. 5th. His business life of more than fifty years in the district was marked with a series of drastic setbacks that would be most discouraging to the average man. But to him they furnished only more energy to drive him on to greater achievement. Now enjoying restful days of retirement he reflects upon his days of business activity with fondness.

Coming to Canada from his birthplace in Southampton, England, he settled for a short time in Prince Edward County and later moved to Campbellford to continue his apprenticeship in the tailoring craft which he began in the Old Land. He first came to Stirling in 1878 as manager for Craig Bros. well known tailoring firm of that day, in whose employ he remained for eight years. In 1886 he established his own business which under his own direction increased in volume until October 1937 when after more than half a century in business he announced his retirement

With a solid background of traditional English Conservatism he based his entire business life on the golden rule and success and popularity with his associates were the reward. Reflecting upon the early day business standard as compared with these of today, he much preferred the days when a man's word was his bond and contracts were less plentiful.

### Suffered Heavy Losses in Fires

Though through his own foresight and initiative his business career was always upward, he suffered many serious setbacks that to many would have been fatal. The most serious of all came in the big fire of 1906, when the Ward establishment was completely wiped out. At that time Mr. Ward was in the midst of building a new home and his entire household equipment was stored on the second floor of the building, that was demolished by the flames, that gutted the business section of the town. But determination that still characterizes his features came to the fore in the time of difficulty and out of the ashes and ruins of the old building there came into being the present Ward block, which is looked upon as one of the finest business places in Stirling, from the time of the completion of the building operation in 1909 to the present time Wards store was a byword for fine clothes. Two of Stirling's finest dwelling places were also erected under direction of this pioneer of the village.

### 42 Years in Public Life

In addition to the problems faced by this energetic man in conducting his large business Mr. Ward also found time to serve his fellow citizens in many constructive measures. For more than 42 years he was an active member of the Stirling Board of Education and is still a keen observer of the activities of that governing body. During his entire life he has been a faithful member of St. Andrew's Presbyterian Church officiating as Sunday School Superintendent for many years and also on various official Boards. At the present time he is senior elder on the kirk session and a most faithful attendant at all services.

### Widely Known

Having been in Stirling for so many years his name is always associated with the village by those who have moved to other centres. Many former citizens, or their children who return to Stirling from time to time first inquire for Mr. Ward upon arrival. Possessing a remarkable memory, he is able to recall many instances in the history of the village that to most people are forgotten. Friends returning to the village after several years absence always look upon their visit with Mr. Ward as the outstanding feature of the return trip.

Retirement however doesn't mean inactivity to him, for each day he may be seen working about his fine garden and well kept lawns. One of his hobbies is horticulture and recently his name appeared several times on the list of prize winners at a flower show sponsored a few weeks ago by the Stirling Horticultural Society. By means of the radio and press he watches anxiously as any Britisher the development in the present European War and is able to compare its devastating progress with that of several conquests of the past.

On the day of his eighty-second birthday he was guest of honor at a dinner party given at the home of his daughter, Mrs. N. E. Eggleton. Throughout the day friends of the district extended greetings and messages were received from friends in distant places.

Arthur Lake, Penny Singleton, Larry Simms and Daisy, the Bumstead Family, who are now playing at the McCarthy Theatre in "Blondie Takes A Vacation," in addition to "North of the Yukon," second feature.

Athens, Sept. 7 (AP)—The Greek government today received a telegram from its Naval Attache in Berlin advising that the German government had expressed regret at the sinking of the Greek steamship Costis in the Baltic last Monday.

The telegran added: "The Costis, despite signals from patrolling German warships, took the wrong turning and struck a mine."

The Greek Ministry of Merchant Marine, ordered Captains of other Greek ships to increase their number of lifeboats and to carry adequate food and water supplies.

# Chamberlain Praised By King George

London, Sept. 7 (CP)—The King sent a message to Prime Minister Chamberlain Wednesday saying:

"In spite of all our hopes and endeavors we have been compelled to resort to war. In this grave crisis of our country's fortunes I wish to recognize the unremitting efforts of members of my Civil Service at home and overseas through the troubled year behind us, both in promoting the cause of peace and in preparing the country for the emergency that now confronts us.

"Your work, which has earned the gratitude of your fellow citizens, will, I know, be carried on in the same spirit until peace has been restored."

Mr. Chamberlain replied with thanks and assurance of continued loyalty, devotion and determination "in the struggle for the defence of justice and liberty and the foundations of civilization."

"The speed of modern war does not afford time to organize forces, after hostilities are begun."—General Hugh A. Drum.

## Bata Machine Shop Begins Operations

### Will Produce Machinery That Manufactures the Products of the Company

Claimed to be one of the most up-to-date machine shops in Eastern Canada, the building that houses the new machinery-manufacturing equipment of the Bata Shoe Company officially went into operation today.

Here, under the supervision of expert Czech keymen and technicians Canadian mechanics will manufacture the machinery that produces the products of the company. A number of skilled artisans from this district have already started work while more experts in various trades and arts will be placed next week, an official of the company stated this morning.

He dispelled the rumor that the company was changing its manufacturing equipment from that of manufacturing shoes to the production of munitions.

## NOTICE TO CREDITORS AND OTHERS

IN THE MATTER OF THE ESTATE OF MARGARET BOYLE, late of the City of Belleville, in the County of Hastings, Widow, deceased.

NOTICE IS HEREBY GIVEN pursuant to the Revised Statutes of Ontario, 1937, Chapter 165, Section 51, that all creditors and others having claims against the estate of Margaret Boyle, late of the City of Belleville, in the County of Hastings, who died on or about the 14th day of May, 1939, are requested to forward their claims duly proven, to the undersigned on or before the 1st day of October, 1939.

AND NOTICE IS FURTHER GIVEN that after the said date the executors will proceed to distribute the estate among the parties entitled thereto having regard only to such claims of which they shall then have notice.

DATED at Belleville, this 31st day of August, 1939.

CAMERON & CAMERON,
Barristers &c., Belleville, Ontario.
Solicitors for the executors.
a31-s7-14

Nearly 3,000 waitresses and dancers accepted the invitation of the police of Tokio to gather in a hall and hear a friendly dscussion of public morals and the part they play in Japan's present emergency.

When swans flying over Clarecastle, Ireland, struck a high tension wire and fell in the main street, children coming from school formed a cordon around the injured birds, stopped all approaching cars, and guided the feathered visitors to the River Fergus.

## DEATHS

## Sharp Expansion In Canadian Airplane Manufacture Expected

New York, Sept. 7—(CP)—A sharp expansion in Canadian airr sharp expansion in Canadian airresult of President Roosevelt's proclamation of the United States Neutrality Act, the New York Herald-Tribune says today in a dispatch from its Washington bureau.

The neutrality proclamation has cut off for the time being at least the delivery of nearly half of the 600 warplanes ordered in the United States by France, Great Britain and Australia.

"The embargo proclamation, however, does not interfere with the manufacture of similar planes in Canada under licenses already obtained by the Dominion's manufacturers from American firms," the dispatch says.

According to information available in Washington four Canadian aircraft manufacturers have arrangements with United States firms to produce planes of American design in the Dominion. Some of the other six manufacturers in Canada may have such arrangements, the paper suggests.

## Liner Queen Mary Being Made Ready For Atlantic Dash

NEW YORK, Sept. 7—(AP) — Workmen daubed gray camouflage paint over red and black stacks of the liner Queen Mary today, giving rise to a belief she is being readied for a dash through the submarine-infested Atlantic to a home port.

Officials of the Cunard White Star Line said the world's largest ship is not scheduled to sail. But added the Queen Mary is under direct orders of the British Admiralty.

Still tied up to her dock here is the French liner Normandie.

Expected in New York harbor today were the French liner Ile De France, carrying more than 1,000 passengers, and the United States liner Manhattan, with an unknown number aboard, including film actress Norma Shearer and Grace Moore.

The big coast guard cutter Campbell was racing in the North Atlantic today toward the American freighter City of Flint, bound for Halifax, N. S., with 216 survivors of the torpedoed liner Athenia. The Campbell carries medical supplies, mattresses, food, clothing and two physicians.

The Cutter, shipping officials said, probably will reach the freighter in less than 48 hours and the possible transfer of the injured, including many Canadians, will depend upon their conditions.

Sailing of the United States Lines' President Roosevelt for Cobh, Southampton and Le Havre was delayed several hours late yesterday by war-induced labor trouble. Members of the crew demanded a $250 bonus each for the trip, $25,000 insurance and a 50 per cent addition to their salaries for "the risks involved."

The liner finally got away at nightfall after the company agreed to continue discussions, and that if extra compensation and insurance were agreed upon later, they would be made retroactive to cover the present sailing.

## AT THE BELLE

### "LADY OF THE TROPICS"

An adventurous romance teeming with the drama of life and love under the overhead sun is to be seen in "Lady of the Tropics" now at the Belle. Two of filmdom's most glamorous stars, Robert Taylor and the eagerly-awaited Hedy Lamarr, making her second motion picture appearance, play the lovers in the dramatic story.

Any doubts that might have been held because of Miss Lamarr's overnight jump to fame with her American debut in "Algiers" will be dispelled by "Lady of the Tropics." Not only is she more beautiful than ever, but she plays the difficult many-sided role of Manon with such a rare combination of sympathy and dramatic force that her position as a star is brilliantly affirmed.

Robert Taylor, cast as Bill Carey, young American who falls madly in love with the gorgeous Manon, adds even more stature to his high standing as an actor. He achieves a deft balance of humor, plausibility and drama in his characterization.

To Jack Conway, director of such outstanding hits as "Viva Villa!" and "Too Hot to Handle", must be given added laurels for his masterful handling of this picture. He makes the most of every one of its drama-packed moments.

The action revolves around the love of Bill Carey, a penniless playboy, for Manon, whom he meets in Saigon, Indo-China. They are married, despite the warnings of friends that the inscrutable East is strongly in Manon's veins. Then Bill finds it impossible to get a passport for his wife to leave the country. For Pierre Delaroch an influential half-caste, is himself in love with Manon and exerts his powers to keep her in the country.

Reduced to abject poverty, Bill's fruitless search for work is ended when he obtains a job on a rubber plantation through the machinations of Delaroch. But this is only a ruse on the latter's part to try to reach Manon. This is discovered by Bill, but to give away the conclusion of the picture would be to forestall the pleasure of seeing one of the greatest climaxes of the sound screen.

Joseph Schildkraut, already an Academy Award winner, wins fresh plaudits for his characterization of the vicious, yet withal, pathetic Delaroch. A lighter note is introduced by Gloria Franklin, a newcomer who expertly handles the part of a delightfully uninhibited friend of Manon. Other strong performances are turned in by Mary Taylor who plays Taylor's American fiancee, Ernest Cossart as a sympathetic priest, Charles Trowbridge, Frederic Worlock and Paul Porcasi.

A smart Pete Smith specialty in technicolor "Marine Circus," a funny Robert Benchley comedy "Dark Magic", and a new and interesting Passing Parade of film "The Story of Dr. Jenner", precede the feature attraction.

## AT THE McCARTHY

### "Blondie Takes a Vacation"

That family's here again!

The Bumsteads are back—delicious Blondie and her earnest Dagwood, delightful Baby Dumpling and his timid Daisy, the dog—Vacation," even more hilarious than "Blondie" or "Blondie Meets the Boss." In "Blondie Takes a Vacation" which is now playing at the McCarthy Theatre, the Bumsteads head for the great open spaces where there's more room to get into trouble!

The domestic misunderstandings and financial misadventures of Blondie and Dagwood Bumstead are hectically presented to us by a familiar cast. Penny Singleton again is Blondie, and Arthur Lake is the harassed Dagwood. Chubby Darry Simms appears as Baby Dumpling and Daisy is still Daisy!

"Blondie Takes a Vacation," like its predecessors, is based upon the celebrated comic strip characters created by Chic Young. Frank R. Strayer directed and Richard Flournoy again is author of the screen-play.

"Blondie Takes a Vacation" sends the Bumstead family to a summer resort. On the train they meet a genial pyromaniac named Gillis, played by Donald Meek, and a tough-crusted businessman named Morton, played by Donald MacBride. Baby Dumpling and Daisy make the trip somewhat of a trial for Morton. As a result, he refuses the family admittance to his hotel at the lake. Blondie, Dagwood and the family troop to the only other hotel and learn that it is about to be closed over their heads because Morton is trying to put his rival out of business. The family eagerly sides with the underdog. They jump in and take part, with Baby Dumpling and Daisy showing much ingenuity in devising means of beating Morton.

This is the basis of the film's many hilarious, swift-paced situations. The fun is fast and furious. All works out well in the end with the audience undeniably wanting to see more of Bondie, Dagwood and their amusing friends.

### "North of the Yukon"

Charles Starrett, popular outdoor star of the screen, the "Sons of the Pioneers" famous singing stars of both radio and screen, Linda Winters and Bob Nolan, head the large cast of the second feature attraction now playing at the McCarthy Theatre entitled "North of the Yukon," a story of the Royal Canadian Mounted Police that is packed with action, adventure, romance and splendid singing. "North of the Yukon" is an entirely different type of entertainment and with "Blondie Takes a Vacation" makes a splendid double-feature which we can recommend to you. A clever cartoon entitled 'Scrappy's Playmates' also is presented at each performance.

## BABY SANDY'S FIRST HAIRCUT RECORDED ON FILM FOR CINEMA HISTORY

With movie and still cameras recording every snip of the scissors, baby Sandy lost her blonde curls just before going into Universal's "Unexpected Father." As in her first picture, "East Side of Heaven," Sandy again portrays a boy. But since the completion of that film her hair had grown too girlish looking. Hence the haircut. Pictures from left to right show Jack Pierce, studio makeup chief, starting to work on Sandy's curly locks; Shirley Ross tries to keep Sandy amused; Director Charles Lamont gives Pierce specific directions as to just how he wants Sandy's hair cut; Producer Ken Goldsmith moves in to make sure everything is being done just right. Now playing with a second feature "Forbidden Valley" at the Capitol Theatre.

INVESTMENTS

We believe the time has now arrived to check up your list of investments. There are many opportunities today where funds can be invested in old reliable companies yielding from 4 to 10% with an excellent chance of appreciation of capital. List of suggestions will be mailed on request.

### WALL STREET

New York, Sept. 7 (AP)—Leading issues were in demand in Wall Street today and the market moved ahead fractions to 2 points or more. Near the fourth hour many gains were halved as trading slowed down after a fast opening. Price changes were rapid and at times there were gaps of a point or more between two sales of the same share.

Italian reports that Fuehrer Hitler would rapidly absorb Poland, then sue Britain and France for peace with Premier Mussolini acting as meditator calmed some of the enthusiasm for stocks.

Commodities were mixed with the strong spot cotton and the weak staples wheat and corn.

Price lines were confused in the Canadian group. Gains up to a point were scored for Hiram Walker, C.P.R., McIntyre Porcupine and Distillers. Off as much were Lake Shore and Dome. Dominion 4s bounced 2 points in the bond market at one time.

As far as the business picture was concerned analysts pointed out that the recent rise in the market was a restoration of the August lag and while due in part to "war baby" buying, it might reasonably forecast a new increase in industrial activity.

### TORONTO STOCKS
2.15 P.M.

Toronto, Sept. 7—(CP)—Prices churned about on Toronto Stock Exchange today and turned definitely weak around mid-day to show losses in all groups. A morning rlly in the Base Metals, Steels and other war stocks failed to hold and by noon the Base Metal index was down a full point and the Industrials and Golds .35 and .70 respectively. Trading slowed down also and turnover in the first three three hours was 381,000 shares.

Noranda weakened 3 points and Nickel, Smelters and Hudson Bay lost 1 to 2 points. Cheaper Base Metals receded more moderately and in the Golds the tendency was downward. Lake Shore was offered down 1 1-2 to 33 1-2 and Dome and McIntyre lost a point each. Preston, Aunor, Kerr-Addison and San Antonio were soft spots in the Gold group.

# *Butter Continues Rise At Toronto, Eggs Rise 1 Cent On Good Demand*

Toronto, Sept. 7—The possibility that Great Britain will require larger quantities of butter and cheese in view of the present conflict inspired higher prices of these staples in Toronto yesterday. Churning cream reflected the advance by jumping 2c.

Butter offerings continued limited and the Department of Agriculture reported sales of first grade Ontario product ranging all the way from 24 3-4c to 26c per pound in the course of the day's trading. The bulk of business was transacted at 25 1-2c. Western butter sold to the wholesale trade at 26c. Prices to the retail trade were advanced accordingly.

Fresh receipts decreased on the egg market and a general advance of 1c per dozen was recorded in all sections as good demand appeared. Stronger prices at Montreal were said to have been attracting some supplies away from this market.

### Montreal Produce

Montreal, Sept. 7 (CP)—Produce market prices here yesterday, as reported by the Dominion Agricultural Bureau, follow:

Butter: First grade creamery prints, job price, 27c; first grade solids, job price, 26 1-3c; Quebec No. 1 pasteurized butter, wholesale price, 25 1-2c; Quebec No. 2, 24 3-4c. Receipts, 652 boxes.

Cheese: Quebec white, nominal price, 10 5-8c; Quebec colored, nominal price, 11c. Receipts, 3,738 boxes.

Eggs: Graded inspected shipments in used free cases, A-large, 30c; A-medium, 28c; A-pullets, 23c; B-large, 21c; C, 15c; uninspected lots 1-2 cent less; lower grades only, B, 20c, C, 14c. Receipts, 1,065 cases.

## LIVESTOCK

Toronto, Sept. 7 (CP)—Cattle supply was cleaned up at firm prices in the mid-session trading of the Toronto Livestock Market today. All hogs were sold on a liveweight basis and closed 15 to 25 cents higher. The calf section was firm while sheep and lamb sections were steady. Cattle holdover from Wednesday was 200 head.

Receipts reported by the Dominion Livestock Branch were: Cattle 430; calves 50; hogs 220; sheep and lambs 40.

Weighty steers brought $6.75-$7.50, butcher steers and heifers $5.75-$7. Few fed calves offered sold at $9. Butcher cows were $3.50-$5.25 and good bulls $5-$5.50.

Calves sold at a general top of $10 with a few choice reaching as high as $10.50. Most veal calves sold at $8-$10.

All hogs sold went on a liveweight basis, closing at $8.40-$8.50.

Good ewe and wether lambs sold at $8.26 with a few reaching $8.50. Sheep sold from $2-$4.25.

## HOG QUOTATIONS

Toronto, Sept. 7 (CP)—Peterborough dressedweights, up 50 cents, showed the largest gain on reporting hog markets today. Barrie and Brantford dressedweights rose 25 and 30 cents, respectively, and Brantford liveweights 35 cents.

Dressedweights: Barrie $10.52, Brantford $10.65; Hamilton $10.65; Hull $10. Peterborough $10.50: London $10 plus transportation.

Liveweights: Brantford $8, Hull $7.50.

## PICTON MAYOR WAS NOT ON ATHENIA

Fears entertained that Mayor Nesbitt McKibbon of Picton was a passenger on board the ill-fated "S.S. Athenia", British liner torpedoed off the Hebrides Islands a few days ago, were dispelled yesterday when relatives of Mayor McKibbon received a cable to the effect that he had postponed his sailing until September 9th. Mayor McKibbon has been spending a holiday in Scotland for the past two months.

## *POLICE COURT*

Joseph Brant, 20, of the Tyendinaga Indian Reserve, was convicted of a serious charge in County Police Court held here today before Magistrate J. L. Lloyd. Sentence in the matter was postponed for one month, however, Brant being admitted to bail.

The charge was preferred some months ago by the parents of an Indian girl, who also resides on the Reserve, but Brant was absent from his native surroundings until a more recent date, when he was apprehended.

Robt. McCullouch, local barrister, appeared on behalf of the accused today, while Crown Attorney B. C. Donnan, K. C., conducted the prosecution. Efforts to have the parties concerned arrive at a mutual agreement during the month of enlargement was suggested. The court was held in camera.

Several motorists appeared on charges of various infractions of the Highway Traffic Act and convictions duly registered and fines levied.

# Belleville Motors Takes Over Business Of C. B. Farnham

### A. C. Reynolds, Manager of New Firm, Has Had Extensive Experience in Handling of Garage Operations

### TO RETAIN STAFF

With years of experience in his chosen field behind him, Mr. A. C. Reynolds, manager of the newly formed Belleville Motors, which has taken over the buildings and business of Claude B. Farnham, Coleman and Bridge Streets, is particularly well qualified to operate the Pontiac, Buick and G.M.C. trucks sales service and general garage operations with which he is now connected.

Mr. Reynolds' company officially took over the new business on September 1st.

Starting in Kingston when he was of tender age, Mr. Reynolds has studied every phase of his business, and a quick aptitude, and adaptibility to meet the ever-changing times that affect to a great extent business of this nature. soon brought him to the front of his profession.

For a number of years, after "graduating from the garage and service department," he was in charge of sales and service of a prominent car-distributing company in Kingston. His success at this particular line brought him to the notice of other firms and he was promoted to larger and more expansive business sites.

Mr. Reynolds attributes much of his success to the ability to give a more or less particular public the best of service, courteous attention and to remembering that the "customer is always right." He is married and is a member of the "Optimists Club" a new service organization, that was originated in Kingston a few months ago.

The same staff that has operated the business for the past years under the supervision of Mr. Farnham will be retained by the new management, Mr. Reynolds stated, while Mr. Farnham will remain to superintend the bookkeeping and other executive parts of the business.

The same service, attention and courteous treatment that the public received from their predecessors will be extended by the Belleville Motors Mr. Reynolds said today. Announcement of the official opening will be published in this paper within a few days.

MR. A. C. REYNOLDS

## Obituary

### MRS. WALTER FOLEY

(Madoc)

Madoc, Sept. 7 (Special)— The funeral of the late Mrs. Walter Foley took place on Wednesday morning in Sacred Heart of Mary Catholic Church where Requiem Mass was celebrated. The late Mrs. Foley was the former Josephine Demarsh, a daughter of the late Mr. and Mrs. Francis Demarsh. She passed away suddenly at her home in Huntingdon Township some four miles south west of Madoc Village on Monday.

She is survived by her husband, Mr. Walter Foley, six daughters, Marguerite, Mrs. Dan Bronson, Madoc Township; Mary, Mrs. T. Holmes, Madoc Village; Carmel, Mrs. G. Bedore, Niagara Falls, U.S.; Vera, Harriet and Betty at home; four sons, Leo, near Brighton; Joe, Tommy and Ted at home; four sisters, Mrs. J. Laton, Marmora; Mrs. D. Courneyea, Tweed; Mrs. J. Courneyea, Tweed and Sister Monica, Hotel Dieu, Kingston, and three brothers, Jacques, near Wooler, Joe in Niagara Falls, Ont., and Theodore, near Tweed.

The late Mrs. Foley was in her forty-sixth year. Interment was in Sacred Heart of Mary cemetery.

# EFFECTIVE ACTION

*(Continued From Page One)*

The former Minister of National Defence served with distinction in the Great War and was Liberal financial critic during the term of the Bennett government from 1930 to 1935.

Revenue Minister Ilsley has been acting Finance Minister since Hon. Charles Dunning handed in his resignation and went abroad to recuperate from a heart malady.

Ottawa, Sept. 7 (CP)—Sunshine in brilliant contrast with the sombreness of the occasion flooded Parliament Hill today as the fifth session of the 18th Parliament met to receive the Government's proposals for war co-operation with Great Britain.

Just 25 years and 20 days ago on Aug. 18, 1914, the fourth session of the 12th Parliament met—hurriedly summoned because of a sequence of events similar to those taking place in Europe today. That war session lasted five days. Political observers generally forecast a present session of less than two weeks.

War shadows were plainly cast on Parliament Hill today. Outside the Parliament Buildings were signs reading "Admittance only to persons on duty." There was to be no crowding of the corridors to see the procession from Commons to Senate and back.

Regular House of Commons guards were joined today by war veterans. On their arms these veterans wore red bands inscribed "Special Constable."

# MILITARY GUARD GIVEN TWO YEARS

### Convicted of Breaking, Entering and Attempted Theft from Canteen at Airport

"You took an oath of allegiance to protect His Majesty's property and you violated that trust and attempted to steal His Majesty's property and I cannot but recommend a penitentiary sentence," remarked B. C. Donnan K.C., County Crown Attorney, as he addressed today's County Police Court, held before Magistrate J. L. Lloyd here following which George Bowen, 24-year-old Cobourg youth was sentenced to serve two years in the Portsmouth penitentiary.

Bowen was charged with breaking and entering the canteen at the Royal Canadian Air Force station (Trenton) with intent to steal. The accused pleaded guilty as charged.

Bowen was a member of the Midland Regiment, that is at present mounting guard around the R.C.A.F. base at Trenton. On Tuesday night Bowen was aprehended as he was seen climbing out of the Air Force canteen window, which he had forced open. Later he was given into the custody of the Provincial Police and charged with breaking and entering, with intent today. Bowen stated he had not stolen from the canteen and added he was intoxicated at the time.

"What were you doing intoxicated if you were guarding His Majesty's property?" asked His Worship. Bowen replied that it was his day off.

Crown Attorney B. C. Donnan introduced Bowen's list of previous convictions, which revealed he had served jail terms for robbery and shoplifting on previous occasions. Later the penitentiary sentence was imposed.

of the storm.

# WHEAT PRICES MAY BE FIXED

### Wheat Bought from Canada for Great Britain to Come Under Act

Manchester, Sept. 7—(CP)—The Manchester Guardian today said the possibility of a fixed price for Canadian wheat bought by Great Britain during the war is under consideration.

"It is thought possible that controls will shortly be introduced in the buying and selling of the Canadian supply," the newspaper said. "The form of these controls is being discussed in London. A Canadian state monopoly in wheat is a possibility.

"The question of price naturally has arisen. Plans under consideration now would be designed to prevent violent fluctuations in price such as occurred 20 years ago, and may include a fixed price.

"It is naturally in the interest of Britain to obtain a wheat supply cheaply. On behalf of Canadian farmers it is being urgently urged that they deserve a fair return, especially since the prices they have received in some recent seasons have been below the cost of production. With no desire to profiteer, they are looking for a price which will yield a margin of profit."

# Butter And Cheese Factory Burns At Loss Of $45,000

Berwick, Ont., Sept. 7—(CP)—Fire, believed caused by incendiarism, destroyed a butter and cheese factory valued at $45,000 owned by the Chateau Cheese Company of Ottawa, here early today. Berwick is 30 miles southeast of Ottawa.

Clare McCuaig, manager who discovered the fire, said the flames began outside the one-storey building and had reached the roof when he was awakened by the fire. He lives nearby.

# WARRING POWERS WAGE CONSTANT BATTLE BY RADIO

### Important News Announcements Are Blotted Out by Interference

### AN "AIR BLACKOUT"

BUDAPEST, Hungary, Sept. 7—(AP)—Radio stations of the warring European powers are waging a day-and-night battle of the air waves in an intensive effort to give neutral nations of southeastern Europe their own versions of the struggle.

Just as the current conflict is developing new military techniques, so is it giving birth to a new radio technique.

The radio blackout thus far has been the most effective invention of the broadcasting belligerents.

When the British Broadcasting Corporation began sending out bulletins on the sinking of the passenger ship Athenia and blaming a German torpedo, the announcer's voice was obliterated suddenly by powerful band music from an unidentified station.

The interference disappeared as soon as the British broadcasters began sending dance music.

Listeners said the same thing happended on both British and American wavebands on President Roosevelt's speech to the United States and on all other important broadcasts.

Authorities said the air blackout happened too frequently to be accidental.

Because censorship was imposed on the press in some southeastern nations when the war started, many turned to the radio for a picture of what was happening. They were disappointed, however, for on the airwaves they found nothing but confusion.

Announcers with Oxford accents are broadcasting German news bulletins in English from Berlin to this area.

Announcers with perfect Magyar, Croation, Greek, Rumanian, Serbian and Bulgarian pronunciations are being put on the air by BBC.

# CANADIANS TAKE PART IN AIR RAID

### Members of R.A.F. in Raid on Battleships in Kiel Canal Entrance

London, Sept. 7 (CP)—Prime Minister Chamberlain today expressed the encouragement felt by Britain that the Dominions are "co-operating in a cause which is no less precious to them than it is to the people of the homeland."

"We are greatly heartened," he said during his House of Commons speech on the progress of the war, "by the knowledge that in the struggle for the defence of liberty and free institutions and [illegible] ervation of all that makes life worth living we can co[illegible] support of the overseas members of the British Commonwealth.

"Of their own free will and under no form of compulsion save the moral compelling force of right and justice these self-governing nations have declared their intention of co-operating in a cause which is no less precious to them than it is to the people of the home land."

Then, in the first official disclosure of an active part by any Dominion citizens in actual hostilities, the Prime Minister after describing the Royal Air Force attack on German naval bases, said:

"The House may also be interested to learn that those who took part in the attack included a number who came from the dominions."

The Canadian Press learned from another source that most of these were Canadians.

# Youthful Pilot Wants To Fly To Ireland On "Goodwill Flight"

Manchester, N.H., Sept 7—(AP)—Although grounded by Federal Officials, Pat Johns, 24-year-old student pilot from Algoma, Wis., refused to abandon today his high hopes of flying solo to Ireland in a peace mission to Europe.

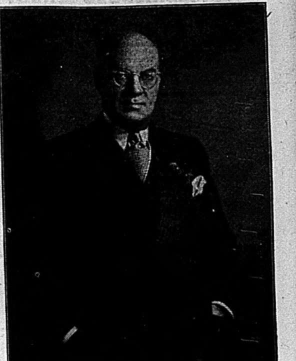
The young flier, son of Joshua Johns, Republican member of the United States House of Representatives, said he would apply to the civil aeronautics authority for permission to make the "good will flight" in the near future in his two-seater Aeronica, the "Screwball 1."

# Aga Khan Calls On His Subjects For Loyalty To Gr. Britain

London, Sept. 7 (CP)—The Information Ministry today announced that the Aga Khan, spiritual ruler of 10,000,000 Mohammedans in India Africa and Central Asia, had called upon his subjects to give "unstinted service" to the cause for which Great Britain is fighting.

It was announced the Aga Khan had sent a message to the President of the Ismailia Executive Council in Zanzibar requesting "heartfelt, loyal, unstinted service must now be given to the cause of the Empire which is the protector of our faith and liberty."

AGAIN ELECTED PRESIDENT



R. A. STAPELLS

Vice-President of J. J. Gibbons Limited, Honorary Director of the Canadian National Exhibition, a Past President of the Ontario Motor League, and a Past President of the Toronto Board of Trade, has been re-elected for the sixth consecutive year President of the Canadian Automobile Association.

The Empire Affairs Section of the Information Ministry's communique detailed pledges of assistance from British Guiana and Mauritius, an island of 400,000 people in the Indian Ocean.

# MEXICAN GOV'T ISSUES EDICT

### All Wireless Equipment on German Ships in Mexican Ports Must be Dismantled

Mexico, D.F., Sept. 7—(CP-Havas) — The Mexican Communications Ministry last night ordered the dismantling of wireless transmission equipment on German ships which fled to Mexican ports on the outbreak of war in Europe.

The order followed reports that German boats in Mexican ports were in communication with German ships on the high seas. Mexican officials said that exchange of messages between ships of belligerent nations would be a violation of Mexico's neutrality.

The Mexican government also banned the sale of fuel to German ships unless they agreed to leave Mexican territorial waters within 24 hours.

An order issued by the Mexican War Ministry tonight instructed port authorities to give all facilities to the ships of belligerent nations in accordance with International law.

# POTATO PRICES REMAIN STEADY

### Market Vendors Have No Trouble Disposing of Bushel Lots at One Dollar

Rumors of a sharp increase in metropolitan market quotations of potatoes caused a flurry of buying at the city market today although no change in price was noted at an early hour. One vendor stated he had sold more of this vegetable by ten o'clock than he had disposed of in three selling days. Prices here were firm at one dollar the bushel with pecks selling at twenty-five and thirty cents.

Other vegetables were also steady with sweet corn moving well at fifteen cents the dozen ears.

New peaches again glutted the market with good quality No. 1's offered at thirty-five cents the six quart basket, and slightly inferior qualities selling at twenty and twenty-five cents for the same quantity.

New pears were offered at twenty cents the half-peck with various varieties of cooking apples offered at twenty cents the basket.

Fresh grapes from outside points were quoted at thirty-five cents the basket with the home-grown variety demanding ten cents the berry box.

Eggs were steady at twenty-eight cents the dozen for first grade and twenty-five and twenty-six for mediums and ungraded stocks. The chicken offering was scarce with a few fowl moving slowly at fifty to sixty cents each and choice young birds selling at from seventy-five to ninety cents each.

Melons were plentiful and obtainable in all sizes at from five cents each, with canteloupe offered at practically any price one cared to name.

Whitefish showed more quantity today than for the past two weeks with good quality fish offered at seventeen and eighteen cents the pound.

LEADS CZECHS

Hailed as the "Pilsudski of the Czecho - Slovaks," General Lev Prchala, "iron man" of Czecho-Slovakia before that country's dismemberment by Germany last spring, is reported to have organized Czech foreign legions all over Europe. He is now reported to be leading thousands of his exiled countrymen into battle against the Reich.

## THE WEATHER

Toronto, Sept. 7 (CP)—Synopsis—Showers have occurred in many parts of Eastern Canada and in Southern Districts of the West, though it has been fair in Northern Sections of the Prairie Provinces. Temperature has been below normal in nearly all parts of the Dominion.

Lake Superior: Cloudy and cool tonight and Friday with showers; moderate winds today, becoming fresh on Friday.

Manitoba: Partly cloudy and cool tonight. Friday—Fair and becoming a little warmer.

Saskatchewan: Fair today and Friday and becoming a little warmer.

Alberta: Mostly fair today and Friday and becoming somewhat warmer.

## *Why The Weather?*

Science Service Meteorologist

Forest fires! There is a very close connection between weather and forest fires. The U.S. Forest Service maintains weather stations and trains their men in accurately measuring all factors important in forest-fire prevention or [illegible] among which factors is the weather. The two natural elements which conspire to destroy forests by fire are lightning and dry duff (the mat of leaves and twigs) which when ignited allows the fire to spread from log to log. Some other contributing factors are topography, temperature, wind and moisture. The state of visibility is important in that it affects the ability of the foresters to detect fires from their lookouts. Weather is watched by the forester as much as by the seaman or farmer.

"I LOVE SHREDDED WHEAT"
AND EVERY SPOONFUL GIVES HER FIVE VITAL FOOD ESSENTIALS

SHREDDED WHEAT is rich in wholesome nourishment. It's just 100% whole wheat, in a well-balanced and easily digested form. When served with milk and fruit, it makes a complete, well-balanced dish that is as delicious as it is nutritious. Children go for Shredded Wheat. Serve it every day.

# "The GLASS SLIPPER"

### by MIGNON G. EBERHART

"Rue—Rue, good heavens, is it you? Where are you? Rue—"

"Brule, come for me. Come—hurry. It's Andy.... Come—"

"Rue, where are you? What do you mean? We've been looking—"

"Listen." She must make him understand. "Brule, listen. Andy killed her. Julie. And Crystal. He—he's out there now, on the road. He'll be looking for me. I'm in the filling station, telephoning. Brule, come for me—"

"Where are you, Rue? Answer .....tell me exactly.... you must tell me. Ask the filling station attendant—"

"There's no one here. It's closed—"

"Closed—Rue, I've got to know where you are—"

"It's north and west of Chicago—near Morton Grove, I think. I don't know what road we're on. There are no houses—" She couldn't speak lucidly; she was sobbing and couldn't stop it.

Brule's voice came sharply.

"Rue, listen—is he near you?"

"Not now. He's at the car. It's a horrible old car—"

"How far away?"

"About half a mile—"

Someone was talking to Brule—and Brule was answering; someone was beside him talking, and she could hear their voices but not what they said. Then Brule said urgently:

"What's the number of the telephone you're using? Quick—"

She couldn't see the numbers in the little plate. She couldn't turn on the light. She'd given Andy back the little pack of matches.

"I can't—I can't see it, Brule," she cried brokenly.

"Stop that, Rue. You're hysterical. Listen. I will come. Understand. Tell me the number."

"But I can't see it—I can't turn on the light. I—"

"Can you hide from him? Do you mean he knows that you know?"

"Yes—yes—" She was sobbing again. She forced herself to reply slowly and distinctly:

"I'll try to hide. It's dark. Oh, Brule, Come."

There was another quick colloquy beside the telephone.

Brule said tersely. "When you leave the telephone, don't hang up the receiver. Leave it hanging. We can get the address. Do you understand?"

"Y—yes—"

"And listen, Rue—Is he coming?"

"Not yet."

"Tell me. Quick. The afternoon Julie died, what did Andy do with his overcoat—when he came into the room. I mean—did he have it with him?"

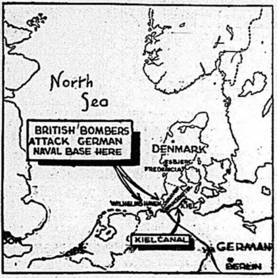
"Yes." She could see it again, in a queer flash, against the darkness of the little filling station, with its smell of oil and gasoline, and the heavy drumming of rain on its low roof.

"It was on a chair. He put it on a chair."

"It's that. You're right; it's the cloakroom theft business!" It didn't sound sensible, but it was what she heard Brule say—not to her, but to someone near him. Brule said quickly and sharply into the telephone:

"Hide, Rue. Get away from him and hide. They've got the evidence—the bartender'll talk now too. Everything's all right if you can hold out till I come."

## R.A.F. BOMBERS ATTACK KIEL CANAL



Royal Air Force bombers are reported to have launched an offensive against German fortresses which guard the strategic Kiel canal. The ABOVE map shows where attacking R. A. F. planes dropped bombs on Wilhelmshaven, Brunsbuttel and Cuhaven.

Andy was coming. She couldn't see out toward the black stretch of highway. She couldn't hear, for the sound of the rain drowned more distant sounds. But she knew he was coming.

"It's one of the western highways," she cried desperately. "It intersects Milwaukee, but it's before you reach the intersection. Brule—"

The drumming of the rain on the roof took on rhythm—became louder—was the wheezing throb of the engine of a car. Headlights glanced against her, searching her out through the window as a car swung jerkily into the paved square and stopped at the door, which was open.

She was never able to remember the next moment or two; she'd had no consciousness of leaving the telephone, of any movement or conscious and lucid thought at all. But sometime in that blank interval she found the back door and tore her fingers on some kind of bolt and was outside the ghastly little trap of walls and into the rain and darkness again.

It gave her for an instant a promise. But only an instant, for there was no place to hide, no shelter except darkness, and the lights of the car could seek through that.

### CHAPTER THIRTY-FIVE

Rue ran—and had no direction: she stopped, gasping for breath, trying to plan, to think. She couldn't. There were no outbuildings, there was no hedge. She stumbled through the rain, instinctively trying to put as much distance as possible between her and the lights behind her. And then she found the shrub.

A little shrub with thorns. It loomed, a small blotch of deeper darkness, beside her and caught at her coat. And Andy called behind her somewhere "Rue....Rue...."

Rain blurred the voice. She couldn't tell where he was — far away or near.

She crouched down beside that thorny little shrub. Rain drowned the sound of his footsteps.

She was too near the filling station.

But his voice came again, nearer, so she could distinguish the queer pleading in it: "Rue— don't be afraid. Rue, where are you? ..... Rue, I won't hurt you...."

And it was so much nearer that she didn't dare move; didn't dare seek a better hiding place.

Rain and darkness; time must be passing, though it seemed to stand still. There were sounds; her own heart beating heavily, loudly. She thought he'd gone once and was about to move cramped muscles when she heard him. Quite near:

"Rue, where have you gone? I won't hurt you. Don't be afraid.." It was queer, not quite intelligible. A monotonous murmur.

It stopped. And she became aware that he was trying new tactics, making a short little rush in this direction and that.

"I know you're here, Rue. You hadn't time to go far. You're here somewhere. You'd be afraid to go into the fields—and leave the station and—There you are." He chuckled deeply. He'd seen her, he'd caught a glimpse of the solider shadow in all that blackness. But he hadn't, though once he passed so near she thought he'd touched her.

Time stood still but must be passing.

He began to range further from the filling station. He must have passed the pitifully sparse little shrub a hundred times. Its very smallness, she realized suddenly, helped conceal its presence and her own.

She realized all at once that for a long time she'd heard no sounds. Had he gone? Or was it a trick? She waited, cramped, breathing lightly. She was right to wait, for his voice said, clearly through the rain, almost at her side: "Ah — caught you that time," and he chuckled again and made a little rush—which took him to one side of the shrub and away from her again.

So she was in a way prepared for it when he said loudly, almost shouting from somewhere very near the filling station: "Rue"—all right, Rue. You've won. I'm leaving Do you understand? You can come out now from wherever you are — I'm leaving...."

For an instant she believed it. Believed it, too, when the car started up and moved away—slowly, into the highway—believed it, yet some instinct told her not to move So she crouched there, still and cramped but able to draw long breaths—and the car all at once swerved and turned and swept its light back and forth over the vacant, flat area, piercing the gloom not brightly, but clearly enough so her own scurrying, hurrying figure would have been caught by those swerving fingers of light. And they fell upon the shrub—fell and lingered, and she could see its outline and her own, humped and solid, and the sparse grass so near her face.

It lingered, and she thought she was seen; then it swept on.

But he came back. Came back slowly, deliberately got out of the car.

She heard the door bang. Heard nothing for a while and then his footsteps. His voice even, murmuring as if the nightmare of the thing had touched him too, Saying: "It's only a shrub. Too little..... Rue, where are you? Rue, I've got to find you. Rue, I don't want to do it. I never wanted to—not even with Crystal. I couldn't help it. It was other people —not me; it was Crystal. I didn't want to: she made me; she insisted; there was no other way to get rid of her: it would have—Rue—Rue."

He touched the shrub. She felt it waver. And he swore and bent, and his fingers came out of the darkness and touched her face, and Rue screamed.

Against the rain — against the darkness. A darkness that became for Rue all at once entirely black, an engulfing current on which she drifted lost even to terror.

All black except it was pierced with sounds—sounds, lights, voices, men running, and above and through it all the steady throb and racing of engines — car engines, many of them, with great strong lights turning the whole bare little space into lighted tumult.

Someone was holding her, but it wasn't Andy. Somebody....

"Rue—are you all right now? Has he hurt you—"

It couldn't be Brule, and it was. Where had she been? How had all that turmoil happened without her knowing it was about to happen?

"I—fainted; he found me. He's here—" She thought she was speaking with the utmost intelligibility, and Brule didn't hear a word of it, for he put his face beside her own, and his cheek was hard and cool, and he said: "Oh, lord...." as if it were a groan.

The lights confused her; there were men shouting; gathering in a group. Brule was swiftly touching her; demanding; making her tell him she wasn't hurt. She tried to reply.

It was all confused, too, when he took her to a waiting car. He put her in it and got in beside her and shouted to someone outside.

"I'm going back to the house," he said. "You'll find us there. I'm taking Mrs. Hatterick."

But he wouldn't let her talk; during all that swift trip, swooping through rain, through darkness, through at last lighted streets he wouldn't let her talk.

They were at the house and the door was flung open; there were lights, people, confusion there too. But only for a moment. Then she was in the little guest room; a maid was there, and Madge, and Brule was giving swift orders.

Somebody (Madge? And was it possible there were tear streaks on the child's round cheeks?) helped her undress; got her into a warm woollen dressing gown. Brule himself brought in a little white tub, and somebody poured hot water in it, and Brule had a homely little can in his hand labeled "Mustard."

"Your feet go in this," he said and knelt and pulled off her slippers himself.

"Ouch."

"I know it's hot. Keep them there—"

"Brule, I've got to know—everything—"

He looked up at her and said: "I suppose you've got to. It was Andy. Sit still. I'll tell you. It's all very simple really. It developed, however just tonight; after you— had gone. It was one of those— those stubborn little ways truth has of convincing us of her indestructibility. In other words," said Brule simply, "malachite."

"Mal—"

"Malachite and Funk being dragged from the thing here to investigate cloakroom thefts at the Town Club. He—"

"What is malachite?"

"Malachite's a dry stain, that's a powder. They'd sifted it over things in the cloakroom; there'd been a series of petty thefts, and they were trying to detect the thief and stop it without resorting to the police. They thought some of the staff—a waiter or a page boy — was doing it. Anyway, the stuff was on Andy's coat. He must have arranged to meet Julie—"

"Yes, there's a letter—I don't know what I did with it," she said, bewildered. "I had it—"

"Look in her coat," said Brule. Madge found the coat and said: "Is this it?" over a crumpled, soggy piece of paper.

It was. Brule read it.

"Andy wrote that?"

"Yes." There were questions and answers unspoken; put aside.

Brule went on:

"When Andy met Julie she must have touched him, put her—hands on his arm."

"Malachite—"

"Oh, that. It sticks to your hands you see; and, when your hands perspire or are washed, turns green. Becomes a dye. It's an old trick; forgotten with more modern methods. Remembered, luckily, by the old porter at the clug. It isn't too efficacious, as he found for his pains, for he scattered it so liberally that instead of catching his thief he immediately got complaints from club members—several, at any rate, who had lunched there the morning he essayed his little trap, and found themselves with unexpected streaks of green dye on their hands. They—five or six of them—were told the truth. Among the five or six was Andy. He'd practically avoided it himself by putting on gloves as he left the club. The porter did not use malachite again after his unsuccessful attempt; we wouldn't have known of it if they hadn't had to call in the police, finally. And no one came forward to tell us because that detail of the green stains was kept out of the newspapers. And the porter also remembered that Andy had lunched there the day of Julie's murder; Andy himselfself told the police he'd lunched at some little restaurant on Michigan; they wasted a lot of time trying to check that story. But the lie, when they discovered it, was significant; Andy had learned of the malachite; he'd hear about the stain on Julie's hand. He knew his own danger. Later the maid, Rachel, shaking up the cushion of the chair where Andy had put his coat when she cleaned the room for the first time since the murder, got the dye on her hands too."

### CHAPTER THIRTY-SIX

Brule continued, "We figure Julie knew something of how Andy gave Crystal poison——"

"I know," said Rue in a small voice and told him.

He listened, asking no questions.

"I thought it must be something of the kind. Something that would be obvious only if you and Julie pooled your stories. It was so simple, that matter of the medicine; once you and Julie had occasion to be suspicious, he didn't dare permit you to meet and talk of that night and of exactly how and when Crystal's medicine was prepared. Julie—poor Julie—torn between suspicion and — Andy's charm."

Brule paused. "Andy's charm," he repeated thoughtfully. "Too much charm, too much of the wrong kind of ambition—and too little courage ....Well.. ..it's a direct trail, then. From Andy to Julie to the house; he had the extra key, the missing key; Crystal—must have given it to him. He let Julie into the house and didn't call anyone. He figured she'd die before anyone could reach her; before she could reach you. Perhaps she insisted, dazedly, on seeing you. So he brought her directly from the little restaurant here, thinking there would be no danger. If Gross had been ten—even five minutes—later, Julie wouldn't have reached you at all. As it was she only mumbled things he'd said to her. Repeating—dazed."

Someone knocked hard on the door. Madge went, and it was Guy Cole.

"The bartender's identified him", he said. "They promised to let the fellow off if he told the truth; he says he's sure it was Andy. How are you, Rue? I want to talk to you—"

"Later," said Brule. "Close the door, Madge."

"Wait a minute, I've not finished," protested Guy. "He had a pack of matches in his pocket; advertising, you know; and they'd come from that little restaurant, and Andy said, at first, that he'd never so much as seen the place. So that was that. See you later."

The little table which had held a thermos and glass caught Rue's eyes. She said: "But the poison in the glass—in the house—would he dare?"

"Let the police worry about that if they want to," said Brule, pouring more steaming water into the little tub. "I think he was scared; the whole business is one actuated by the extremest cowardice. Andy was always a coward. He could get into the house because he had a key. But he had to get the police out. And he probably figured he'd be safer if he got me out too; so he put in a phony telephone call. That's the way we've figured it, anyway. But I think it's right."

"It isn't possible he actually entered the house—just to put poison in the glass as a threat."

"Not impossible, for it happened; perhaps he intended something else—and lost his nerve."

She thought of certain moments in the nightmare just past— that curious look of anxiety and terrible indecision.

"Did he really intend to..?" she was whispering.

Brule looked at her sharply and said: No. Certainly not. He—didn't know what he was going to do. Forget it. All of it."

"Brule, why did he kill Crystal?" began Rue and remembered Madge.

Brule glanced at her, too, and Madge came to Rue.

"Rue, I—I rolled the knife (that Alicia found in Father's instrument case) in your scarf and put it in your room. It—it was a beastly thing to do. I—there isn't any excuse." She gulped. Her face flushed and paled. "I—you can't forgive me. I was—crazy."

"She was told to do it," said Brule. "It doesn't make it more forgiveable, though."

Madge's dark eyes sought into Rue's with the appeal of a small child's.

"Will you—ever —forgive me?" she said. "I didn't realize—"

In the warmth and safety of that room Rue could have forgiven anything. She put out her hand toward Madge. Madge said unsteadily: "I didn't realize; I was—scared. She said, Alicia said—"

Brule, watching Rue, said: "Run away, Madge. I think Rue won't be—unforgiving." Madge put back her dark mane of hair and went away. And Brule said slowly:

"Are you, Rue? Unforgiving?"

There were things yet unspoken, hovering in the warm little room.

Brule said: I want you to know the whole thing, Rue. You see, all along I knew that Andy had a motive for wanting to be rid of Crystal. That was it; he had to get rid of her. Crystal—Crystal had always loved attention; I didn't know that, in Andy's case, she was serious until it was too late. He—was equally culpable, I suppose. Flattered, pleased—frightened only when he began to perceive the iron strength Crystal had when she wanted anything—her utterly ruthless tenacity. ....And I had my share of guilt in it; I let it go on even when I saw how things were, but I thought she'd get over it. She had got over other—affairs. I don't know what Andy has told you; or what Alicia has told you. But my great fault was in letting things go on until they reached the point which they did. That is," said Brule slowly, "the point where Crystal was determined to divorce me and marry Andy, and he, knowing that his career depended upon me, knowing which side his bread was buttered on, was equally determined not to. Crystal, you see, had used enough of her capital so that Andy wouldn't have been riding on velvet, so to speak. Crystal had dipped into it with both hand[illegible] she gave money to Alicia, she ga[illegible] it to Andy—"

"Andy!"

WOMEN!
read how thousands have been able to
GET NEW ENERGY

IMPORTANT Medical Tests Reveal WHY Famous Lydia E. Pinkham's Vegetable Compound Has Been Helping Weak, Rundown, Nervous Women For Over Half A Century!

If you feel tired out, limp, listless, moody, depressed—if your nerves are constantly on edge and you're losing your boy friends to more attractive, peppy women—SNAP OUT OF IT! No man likes a dull, tired, cranky woman.

All you may need is a good reliable tonic. If so try famous Lydia E. Pinkham's Vegetable Compound. Let it stimulate gastric juices to help digest and assimilate more wholesome food which your body uses *directly* for energy—to help build up more physical resistance and thus help calm jittery nerves, lessen female functional distress and give you joyful bubbling energy that is reflected thruout your whole being.

Over 1,000,000 women have reported marvelous benefits from Pinkham's Compound. Results should *delight* you! Telephone your druggist right now for a bottle.

KISS YOUR TIRED FEELING GOODBYE!

Pepless Many Suffer Low Blood Count—And Don't Know It.

The baffling thing about low blood count is that you can weigh about as much as you ever did — even look healthy and strong, yet — you can feel as if you had lead in your legs, dopey, tired and pepless.

Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.

Get Dr. Williams Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams Pink Pills today.

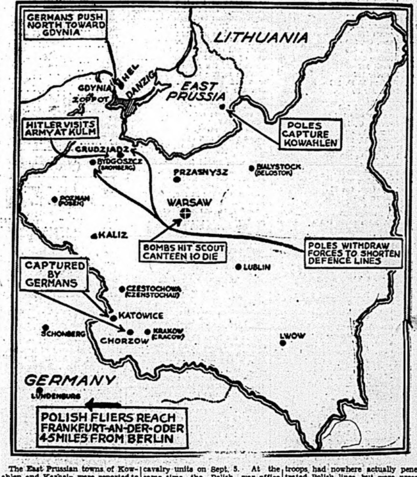
## MEMBERS OF ESSEX SCOTTISH REGIMENT TAKE MEDICAL TEST

Members of Essex Scottish Regiment are shown undergoing a medical examination at Windsor, Ont., as they enlisted for voluntary military service in the defence of Canada.

## LONDON POLICE HOLD BACK CROWDS CHEERING CHAMBERLAIN

London "Bobbies," wearing their tin helmets and carrying their gas masks, are shown struggling to hold back the wildly cheering crowds who acclaimed Prime Minister Chamberlain, after he had announced in parliament that England was going to the aid of Poland.

## POLES CLAIM GAINS IN EAST PRUSSIA



The East Prussian towns of Kowahlen and Karhein were reported to have been captured by Polish cavalry units on Sept. 5. At the same time the Polish war office isued a statement that German troops had nowhere actually penetrated Polish lines, but were pressing hard with heavy land and aerial bombardments.

## Wooler

Wooler—Mrs. Lorne Terrill visited friends in Trenton last week.

Jean Darling is spending a few days with Mr. and Mrs. H. Gainforth.

The Gospel Senders Mission Band held their meeting in the Stone School house on Sunday afternoon.

Mr. M. Waite is under the doctor's care.

Mr. and Mrs. C. McMaster, Nancy Gooding, Alfred Gooding, Mr. and Mrs. E. McMaster, Hazel and Ross spent Sunday at the river.

Mr. and Mrs. L. C. McCall have returned home after a trip down east and Rev. and Mrs. W. Simpson of Detroit are spending a few days with them.

Mrs. E. McMaster, leader of the "Energetic" group of the Women's Association opened her home to a quilting on Thursday afternoon. Lunch was served and there was a large crowd.

Mrs. L. E. Bryant and Mrs. W. A. McColl exhibited at Belleville Fair last week.

Mr. and Mrs. G. Sharpe of Belleville, Mrs. Emma Sharpe and Mrs. Catherine Sharpe spent the dinner hour on Sunday with Mr. and Mrs. C. Sharpe and Mr. and Mrs. G. Sharpe of Belleville spent the tea hour with Mrs. Emma Sharpe and Mrs. Catherine Sharpe.

Mr. and Mrs. Wm. Bell spent the tea hour on Sunday evening with Mr. and Mrs. H. Clegg of Trenton.

Mr. and Mrs. R. Putnam, Mr. and Mrs. W. A. McColl left early Monday morning to attend the fairs down east.

Mr. and Mrs. Sterling Nelson left Thursday after spending the holidays with Mr. and Mrs. W. W. McColl and Mrs. Lydia Nelson to return to their home at Guelph where Mr. Nelson teaches school.

Mr. and Mrs. L. Murphy and Eva Masters attended the Toronto Exhibition last week.

Mr. and Mrs. L. Dorland, Lillian and Jack and Mrs. P. Gooding spent a few days in Toronto attending the exhibition.

Mr. and Mrs. L. Murphy and family of Stouffville spent a few days with Mr. and Mrs. H. Gainforth.

Raymond Rowe of Belleville spent the week end with Mr. and Mrs. L. H. Rowe.

Mr. and Mrs. Bill Andrews of Montreal are spending a few days with Mr. and Mrs. Robt. Walker.

Mr. and Mrs. A. Darling of Morganston spent a few days with Mrs. H. Darling and family.

Mrs. J. J. Way spent last week at Whitby Ladies' College, attending the Women's Missionary Society of the United Church school for leaders.

Charlie Way of Kingston Military School spent a few days at home with his parents Mr. and Mrs. J. J. Way.

Donald Way and Gordon Redcliffe have secured work with the Bata Shoe Company in Frankford.

The Wooler ball team played the Tweed team in Trenton on Thursday evening. The score was 20-4 for Wooler.

## Murray Canal District

Murray Canal—Mr. Bob Allard and family of Rochester spent a few weeks camping at Barcovan Beach.

Miss Clare Flindall of Rochester spent the tea hour on Thursday with Mr. and Mrs. A. Flindall.

Mr. F. Chapman is spending a few days visiting friends in Toronto.

Mr. and Mrs. G. Waite and family spent Sunday with Mr. and Mrs. T. Clarke, Warkworth, recently.

Mr. and Mrs. Joe Tackleberry and family of Edville spent Sunday at the home of Mr. and Mrs. F. Powers.

Mr. and Mrs. Harold Coulter and Donna of Toronto were recent visitors over the holiday at the home of the former's father, Mr. P. Coulter.

Miss G. Flindall returned to Toronto on Saturday after a month's holiday at her home here.

Mr. and Mrs. E. Seward and Betty of Toronto, Mrs. A. Minaker, Colborne, were holiday guests of their parents Mr. and Mrs. F. Seward.

Miss Ethel Flindall left on Monday to take up school duties at Queensboro.

Mrs. G. Lovett has returned to Harold where she will return to her teaching duties there.

Mr. and Mrs. H. Rankins of Rochester spent the holiday at the home of Mr. and Mrs. W. Powers.

Miss Jennie Flindall of Rochester spent Monday with her parents Mr. and Mrs. A. Flindall.

Miss Lucy Flindall of Hilton spent a couple of days at the home of Miss L. Flindall.

Mr. C. Simpson, Mr. T. Simpson have returned home after a pleasant fishing trip in the north country.

Congratulations to Mr. and Mrs. Lawson Bisby on the arrival of twin girls on Monday, Sept. 4.

Mr. and Mrs. E. Irwin, Smithfield, spent Sunday evening with Mr. Bob Allard of Barcovan.

The schools in this district opened for school duties on Tuesday.

## Halloway

Halloway—Mrs. A. Lowery is at present a patient at the Toronto General Hospital where she underwent an operation. Her many friends hope she may soon return home.

Mr. and Mrs. Herbert Townsend, Mr. and Mrs. Ed Emerson and Eric are spending this week visiting relatives in Marlette, Michigan.

Mr. and Mrs. Nathan Reid called on Mr. and Mrs. Clayton Reid on Sunday.

Mr. and Mrs. Earl Snider spent the week end in Toronto attending the Exhibition.

Mr. and Mrs. Roger Rose and Billy, Tweed, were Sunday guests of Mr. and Mrs. G. H. Rose.

Miss Laura Nicholson, Centenary is spending this week with Mr. and Mrs. John Townsend.

Mr. and Mrs. Arnold Wannamaker and family, Demorestville, were Sunday guests of Mr. and Mrs. Fred Carter.

Mr. Bert Sharpe, Mount Pleasant, spent a few days last week with Mr. and Mrs. Harold Rowe.

## Crofton

Crofton—Mr. and Mrs. Frank Roblin and children of Jericho spent Sunday with Mr. and Mrs. Foster Christy. The occasion was little Earla Christy's and little Eleanor Roblin's birthday.

Mr. and Mrs. Harrison Ball of Rochester, N.Y., spent the Labor Day week end with Mr. and Mrs. W. W. Sallsbury.

Mr. and Mrs. Bernard Lawson of Brockville spent the dinner hour on Monday with Mr. and Mrs. Ernest Crook and Ronald.

Mr. and Mrs. Harry Brown and Jimmie of Belleville spent Sunday and Monday with Mr. and Mrs. Ernest Crook and Ronald.

Mr. and Mrs. Harry Brown and Jimmie of Belleville spent Sunday and Monday with Major W. O. and Mrs. Frink.

Mr. and Mrs. Diamond Harper of Rochester, Mrs. Harve Salisbury and Mrs. Stanley Salisbury of Syracuse called on Mr. and Mrs. Ernest Crook on Sunday evening.

Miss Noreen Jones spent a few days last week with her cousin, Miss Beatrice Morden.

Mr. Lyle Jones of the Bata Shoe Company, Frankford, spent the holiday week end with his parents, Mr. and Mrs. B. Jones.

The old school bell is ringing again calling the children back to school after a two month holiday. The school looks very neat and trim in its new coat of paint.

Mrs. Harland Barron of Greenville, Miss., returned to her home on Tuesday after a month holiday spent with her parents Mr. and Mrs. Eugene Rorabeck and other relatives.

# British Troops to Throw

(Continued From Page One)

Chamber and the Senate traditionally are the first to be consulted on the formation of a new ministry.

The military campaign remained in the preliminary stage, with the "no man's land" between the Maginot and Siegfried Lines the main theatre of action.

The Saar basin, between the Rhine and the Moselle, was the target of the French.

### PENETRATE INTO GERMAN TERRITORY

The best summary of action yet available said that French troops, under cover of several hours' artillery preparation, began the campaign on Monday by occupying the ground between the Maginot Line and the frontier. Tuesday night they penetrated into German territory at several points.

Yesterday French forces cleaned out several German "pockets" and machine-gun nests to gain a foothold for further thrusts into the enemy fortifications.

The depth of these spearheads varied but they were said to be scattered all along a 100-mile front.

The French strategy is understood to be aimed at breaking several gaps in the Siegfried Line to permit flanking operations.

Landing of the British force was disclosed by government sources early today. The size of the unit, whose arrival recalled the first landing of British in France on Aug. 16, 1914, was not given, nor was the port and time of debarkation

Military observers said Great Britain had 100,000 troops available for rapid transportation to France when the war broke out Sunday. It was understood that the first troops arrived yesterday.

### MEETING INCREASING GERMAN RESISTANCE

Word of the landing of the expeditionary force came just a short time after a terse French communique said French forces along a 100-mile front on the northern flank of the Maginot and Siegfried Lines were meeting increasing German resistance.

French reinforcements were moving up to the frontier as advance units tested German field organizations armed with automatic cannon and machine guns, the communique added.

The government indicated the crossing of the British force was accomplished without difficulty.

Landing of the "Tommies" was preceded by the arrival of British air fleet units which now are operating with the French from French air bases and are directing raids on the Ruhr and Aachen (Aix-La-Chapelle) industrial districts in Germany opposite the Belgian frontier.

Whether Viscount Gort, Commander-in-Chief of the British field forces, had arrived was not known, but the French press was filled with biographical accounts of him.

### DISPATCH SWIFTER THAN IN 1914

The British dispatch of troops was far swifter than in 1914, when the Germans were already penetrating France and Belgium before they arrived. Today the French staff said there army was fighting on German soil in a varying line between the Luxembourg border and Lauterbourg, situated on the easternmost tip of the Bas Rhin department jutting into Germany.

Lauterbourg is known as the Maginot Line "hinge" since the line from there angles south toward Basel, Switzerland, Basel reports that the French had penetrated to advance German posts were not yet confirmed here.

Twenty-five years ago this week the battle of the Marne took place after the arrival of the British troops. Military observers today speculated on the prospect of an early combined offensive against the Siegfried Line. The French already have been seeking its soft spots.

### POLAND NEEDS BRITISH-FRENCH PRESSURE

Polish official dispatches indicated that Poland needs British-French pressure in the west to relieve them in the east.

Italy's aloofness has been the subject for much speculation. Today train communications between France and Italy were re-established.

The chief fighting developed late yesterday along a 100-mile front between the Rhine and Moselle rivers (the only place the Rhine flows behind the German Siegfried Line) and fanned out slowly ovet the rugged countryside southeast of the Ardennes mountains.

Despite the difficulties of the rough, forest-covered terrain through which they were operating against prepared Nazi positions, a French general staff communique said last night, the troops were pushing forward onto German soil.

### SENTRY FIRES THREE TIMES

WELLAND, Ont., Sept. 7—(CP)—Three shots were fired from bridge 13 on the Welland Ship Canal last night by the sentry on duty. The sentry saw an object in the canal waters that appeared to be swimming or being propelled. He shouted a challenge and getting no response fired at it three time. The object passed by.

# Red Cross Pres. Issues Urgent Appeal For Volunteer Workers

### Local Branch Organizing for War Purposes and Willing Helpers Needed to Carry on the Work

### TO HOLD TOURNAMENT

With Canada and Great Britain at war, and fully cognizant of the tremendous responsibilities which will be placed upon them, officials of the local branch of the Red Cross are making all necessary preparations to fully organize for war purposes, I. G. Hefkey, president of the local branch announced today.

Already a large number of residents of both sexes have offered their services in any capacity, Mr. Hefkey stated, but there is still a tremendous need for a large body of voluntary workers for the organization.

Registration forms which are to be filled out by those desirous of assisting in this humanitarain work, are now procurable at the homes of Mr. Hefkey, Lieut. Col. A. E. Geen, Mrs. F. S. Lazier, H. J. Clarke and J. W. Imlah.

With officials of the organization anxious to have as many workers as possible on their rolls immediately in case of emergency, potential applicants are requested to enrol as soon as possible.

In a further announcement, Mr. Hefkey stated that the forthcoming bowling tournament to be held on the greens of the Belleville Bowling Club this week, will take the form of a general picnic. Families can take their baskets and enjoy themselves. The proceeds of the venture in their entirety will be turned over to the local Red Cross.

In the meantime, anyone of any age or sex can register with the organization. The need is urgent and there may be a great deal of work to be done in the near future, the president added.

# CZECHS IN FRANCE WILL MOBILIZE

### Set Up Czech Legion Similar to One That Participated in Great War

Paris, Sept. 7—(CP—Havas)—Preparations for a "general mobilization" of Czechs in France were announced here today by the Czechoslovak Minister, Stefan Osusky.

Czech exiles were asked to report one week from today to set up a Czech legion similar to that which participated in the Great War and played a part in the creation of Czechoslovakia.

Dr. Osusky, who refused to surrender the Czecho-Slovak legation here to Germany after his country was annexed, issued his appeal to all persons who have retained Czecho-Slovak nationality.

# No Unusual Activity Reported In Local Industrial Circles

No unusual activity has been reported in local industrial and manufacturing circles in the city, and as yet the present war in Europe is believed to have had no direct effect on manufacturing firms of the city, it was stated this morning by Mr. J. O. Herity, city industrial commissioner.

From other sources it was learned one heavy order for manufactured textile goods is pending by a local firm, but no confirmation of this had been given by the management.

At Corbyville this week the plant was reported being prepared for heavier production of commercial alcohol, and a start had been made today with a call for older employees again to present themselves for work.

# GERMANY HOPES

(Continued on Page Fourteen)

The German big guns were being dragged eastward by caterpillar trucks over rough Polish roads.

### Claim Poles Retreating

The supreme army command claimed that its force from the north had reached Pultusk on the Narew River and that the Polish army was retreating.

General Walther Von Brauchitsch German Chief of Staff, in an order of the day urged the Nazi forces to emulate Fuehrer Hitler as a soldier's "model of personal courage and stout determination" and to "keep after the enemy and apply all your strength until the final decision."

"Krakow, Bydgoszcz and Grudziadz are in your hands," said the order of the day.

"The corridor no longer separates East Prussia and Danzig from the German motherland.

"The enemy is thrown back along the entire front and is in retreat.

"Old tested front fighters of the Great War as well as young soldiers share in the successes won in a short time."

### Hitler in Sector

Adolf Hitler was in the corridor sector, somewhere between Grudziadz and Tuchola, yesterday when, it was reported, German troops drove into Krakow, old time Capital in southwestern Poland —often called "Poland's heart."

WgDiolfuba

At Krakow German officers paid homage at the tomb of Marshal Pilsudski, Polish national hero. An honor guard was posted at the tomb.

Fifteen thousand prisoners were said to have been taken in the Grudziadz-Tuchola sector, along with a quantity of war materials.

"With the capture of Krakow," said Von Brauchitsch's order "the German army also has taken under its protection the grave of the first Polish Marshal Pilsudski. His aim was peace with Germany. Disregard of his trust led to war."

Nazi military authorities claimed the Polish operations were well ahead of schedule. Von Brauchitsch and other leaders warned that more difficult assignments probably lie ahead.

### Britain, Germany's Foe

The inference probably was that after Poland, the German army might have to come to grips with Great Britain—German propaganda is emphasizing Britain as Germany's foe in the west more than France.

Nazi reports claimed 18 more Polish planes were destroyed yesterday in 12 air battles. Germans asserted control of the air was complete and they ridiculed reports that even a single enemy plane had approached anywhere near Berlin.

The Capital, however, was ordered blackouts so complete that walking even a block in the busiest sections at night was difficult and occasional cigarettes glowed with startling brilliance. Searchlights occasionally cast beams upward.

An announcement this morning said every community presenting any target of military significance was equally well protected by defence planes and anti-aircraft artillery.

Well-informed quarters professed belief that France was not enthusiastic about the war and that there was a chance she would leave all initiative to Britain. (From Paris it was reported that French troops had penetrated German territory on the northern flank of the Siegfried line and that supporting British troops were moving up to the front).

German propagandists were telling Frenchmen that Germany "understands that France was dragged into declaration of a state of war."

Hourly the radio denies that the liner Athenia was sunk by a German submarine, Dnb, Nazi News Agency, charged that "the Athenia was torpedoed on orders of the British propaganda service in hope it would create another incident with an effect on American opinion like the sinking of the Lusitania."

The propaganda service this morning employed an Englishman with an Oxford accent to make short wave broadcasts to North America.

# S. AFRICA JOINS

(Continued From Page One)

### A New Cabinet

A new cabinet, representative of all the parties in the Assembly except the official Nationalist Opposition, was selected by General Smuts, who succeeded General J. B. M. Hertzog as Prime Minister. General Hertzog resigned after the Assembly turned down his proposal that the Union remain aloof from the European war.

In his statement of policy, General Smuts said—"The House of Assembly, which was free to have decided otherwise, takes a stand for defence of freedom and destruction of Hitlerism and all it implies. The interests of South Africa are, however, our primary concern. It was for the interests of South Africa that parliament freely decided we should sever our relations with Germany. Thus we pledge our moral support for the common cause".

He said it was the Union's duty to give its physical support to "our friends and allies in all questions of trade, shipping and finance."

# Britain's War Effort

(Continued From Page One)

A person close to Daladier said the make-up of the war government would be announced in a day or two. Former Premier Pierre Etienne Flandin; Leon Blum; former Premier and Socialist leader, and Louis Marin, Conservative leader of the Chamber, as well as other party leaders who at present are outside the cabinet already have conferred with Daladier.

(By CHARLES FOLTZ, Associated Press Staff Writer)

Basel, Switzerland, (near French, German and Swiss frontiers) Sept. 7—(AP)—German advance guards on the western front were said in border advices today to be withdrawing slowly into the main forts of their Siegfried Line as smoothly-operating French troops pushed into German territory.

The French troops were reported advancing as much as 15 kilometres ( 9 1-2 miles) in some places along the northern wing of the line.

Veteran French troops were reported as seizing first line German pill boxes. One of the first to fall to France, reports here said, was in the Saar region opposite the French town of Saarguemines. It was reported the outpost was taken after little resistance, the Germans retiring to their main line.

Most foreign military observers in Switzerland expressed a belief it would be at least a week before the French could complete their first careful advance through the pill box outposts and launch a drive on the main German line.

### CONCENTRATE ON BLOCKING BRITISH PLANES

Ignoring French planes, which were reported as flying over German territory as cover for troop movements, German aviators were said to have been instructed to concentrate on blocking propaganda bombardments by British planes. (British bombers which made three flights over such territory to drop leaflets saying the war was against Fuehrer Hitler and not the German people were reported to have met no resistance.)

Indications were seen in dispatches from Germany that Field Marshal Hermann Goering, Nazi air commander, was preparing for air assaults on French concentration centres and communication lines when the French forces launch their main drive against the Siegfried south of the Rhine.

Basel's French and German frontiers were closed to everyone but Swiss refugees.

Germans and French alike concentrated on the removal of citizens from towns along the fortified lines and placed troops in the hastily deserted homes and offices.

# Stop Press Bulletins

(Continued From Page One)

### BRITAIN ORGANIZES FOR FIGHT TO FINISH

LONDON, Sept. 7—(CP)—Great Britain organized its offensive against Germany today on a long-term basis for a fight to the finish.

The government has indicated by brief and carefully worded communiques during the first five days of the war that it is mapping a vast, co-ordinated campaign along three general lines:

1. Military and aerial co-operation with France and Poland to harass Germany on two fronts.
2. Sweeping naval operations to choke off German supply lines, and measures "to disorganize the economy of the enemy."
3. Careful civil defence preparations to keep Britain at a peak of efficiency and morale so as to be able to supply not only Britain's own forces but those of her allies with the materials for successful warfare.

# Text Of Speech From The Throne At House Opening

Ottawa, Sept. 7—(CP)— Following is the text of the speech from the throne read at the opening of the special session of Parliament today by Governor General Lord Tweedsmuir.

Honorable Members of the Senate:

Members of the House of Commons:

As you are only too well aware, all efforts to maintain the peace of Europe have failed. The United Kingdom, in honoring pledges given as a means of avoiding hostilities, has become engaged in war with Germany. You have been summoned at the earliest moment in order that the government may seek authority for the measures necessary for the defence of Canada, and for co-operation in the determined effort which is being made to resist further aggression, and to prevent the appeal to force instead of to pacific means in the settlement of international disputes. Already the militia, the naval service and the air force have been placed on active service, and certain other provisions have been made for the defence of our coasts and ou rinternal security under the War Measures Act and other existing authority. Proposals for further effective action by Canada will be laid before you without delay.

Members of the House of Commons:

You will be asked to consider estimates to provide for expenditure which has been or may be caused by the state of war which now exists.

Honorable Members of the Senate:

Members of the House of Commons:

I need not speak of the extreme gravity of this hour. There can have been few, if any, more critical in the history of the world. The people of Canada are facing the crisis with the same fortitude that today supports the peoples of the United Kingdom and other of the nations of the British Commonwealth. My Ministers are convinced that Canada is prepared to unite in a national effort to defend to the utmost liberties and institutions which are a common heritage.

# MUSSOLINI MAY

(Continued From Page One)

Informed sources said such a proposal would be made with German victory in Poland an accomplished fact and, coming from Mussolini, would be in line with his ideas for a repartition of world wealth to give Germany and Italy political and economic parity with Great Britain and France.

### British Sticks With Demands

However, British and French quarters here said that the war against Germany would go on to a finish unless Fuehrer Hitler met the condition imposed by their countries for peaceful settlement when Mussolini last week made his first proposal for a conference — recall of German troops from Poland.

Although Italy gives no sign of entering the war in aid of Germany, as she is obligated to do under the Italian-German military alliance, most diplomats were of the opinion that the Rome-Berlin axis and its military alliance still are functioning.

Italy's present non-intervention, diplomats thought, is part of a prearranged plan of Hitler and Mussolini.

Many Italians are expressing the belief that, if France were engaged in a long struggle against Germany, Italy then would enter the conflict against her.

On the other hand, the course taken by Italy leaves the way open for Mussolini to act differently should the war turn out differently —should, for example, France and Britain launch a terrific and effective offensive on Germany.

London, Sept. 7— (CP)— The Times today predicted editorially that any move by Germany to arrange a peace with Great Britain and France in the event of victory in Poland would be unavailing.

The newspaper said:—

"If and when the German armies complete a considerable advance, Herr Hitler would naturally be expected to make an offer of peace. Of this tactical move it is sufficient to say with the Prime Minister that the survival of Hitlerism would only mean that the world would continue to pass from one crisis to another and that it must therefore be ended."

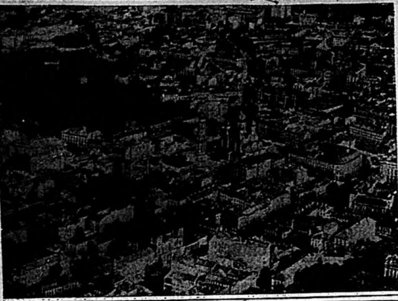
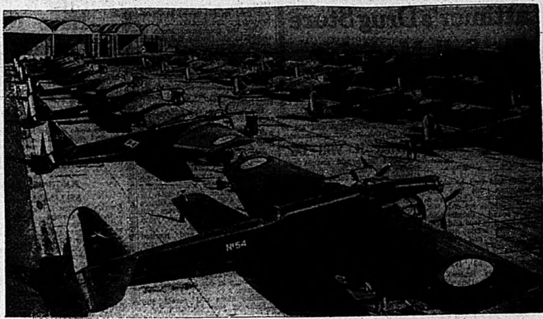
In this international theatre a war in four acts is being presented. The first act takes place in Poland where Nazi troops have succeeded in reducing Krakow, and where the fall of Warsaw is expected soon. The second act is along the Franco-German frontier where French soldiers from the Maginot Line are reported to have made local advances against Germany's Siegfried Line. The third act takes place in the industrial Rhineland where several cities, notably Aachen, have been bombed by 300 British and French planes. The scene of the last act is in Munich, Prague, Dusseldorf, Essen and Cologne, said to be torn by internal strife.

## POLISH GOVERNMENT EVACUATES WARSAW AS GERMAN TROOPS NEAR CITY



As fighting on the Polish front was reported to be increasing in intensity, Polish authorities are reported to have decided to distribute government offices outside of Warsaw. Reports from the battlefront state that the German forces have advanced to within 45 miles of the Polish capital, which is reported to have been subjected to heavy artillery and aerial bombardments. Two aerial views of Warsaw are pictured here.

## FRENCH PLANES HARASS GERMANY'S SIEGFRIED LINE



Here is a view of a French military airdrome showing some of France's aerial might poised to take off at a moment's notice to bomb German military posts. Latest reports from the French war office indicate that French planes are making continuous flights over the German Siegfried line, scouting troop movements and communication lines, as well as bombing industrial centres.

## BRITAIN GUARDS AGAINST SABOTAGE

Guarding against possible sabotage by secret enemies within, guards have been placed on 24-hour duty over all vital plants, public buildings and railroads in England. Sentries are shown, TOP, as they guard a railroad station, while this armed Territorial, LOWER LEFT, keeps watch beneath a railroad bridge on the bank of the Thames River. Anti-aircraft guns, protected by sandbag barricades, LOWER RIGHT, stand ready for action in the heart of the empire.

# SPIRIT OF PARIS LIKE OLD TIMES

### City Enjoys Full Night's Sleep Without Air Raid Alarm

PARIS, Sept. 7—(AP)—Paris came to life this morning with a spirit more like its old gay self after a full night's sleep without an air raid alarm. It was the first period of uninterrupted slumber since war was declared four days ago.

Last night the government inaugurated a new system by announcing alarms no longer would be sounded except when there is imminent danger. Previously sirens had routed out the populace whenever an enemy plane crossed the frontier.

However, Paris is not taking any chances but continues to push its passive defence against enemy aircraft. Masons are closing up basement windows opening on the sidewalks along the boulevards. Sandbags are being stacked over gratings.

A technique of living in air raid shelters is developing rapidly. People are making up emergency kits, which they park by the bedside at night with their gas masks. Often they comprise rubber mattresses, folding chairs, thermos bottles, brandy, playing cards, gramophones and flashlights.

# N.Y. CITY BANKS TO ATTACH ASSETS

### German Bank Assets in America Valued at $30,000,000

New York, Sept. 7 (AP)—Five New York City banks have taken steps to attach more than $30,000,000 of German bank assets in this country.

Sixteen German banking institutions were named defendants in warrants of attachment being served on more than 100 American banks, brokerage houses and business institutions. Warrants are based on cancellation this week of the standstill agreement between German banks and the American committee of short-term creditors of Germany.

Creditors contend the cancellation made payable immediately credits held in suspense by the agreement.

The standstill agreement was entered into in 1931, when a central European financial crisis caused a temporary shutdown of German banks.

It provided for orderly liquidation of short term credits which had been advanced by foreign banks to German financial institutions, to provide balances for ordinary commercial transactions.

In the intervening years these credits have been sharply reduced. The American creditor group now seeks to attach funds which the German banks have on deposit here.

The Chase National Bank, one of the largest creditors eight years ago, announced its stake had been reduced to less than $700,000. The Manufacturers Trust Company said it had set up reserves in full against its stake of $5,883,000.

## IN BRITAIN'S WAR CABINET NOW

Pictured as they walked to the recent vital meeting of the British parliament are Winston Churchill, LEFT, and Anthony Eden, both of whom were taken into the war cabinet of Prime Minister Chamberlain. Mr. Churchill was appointed to his old post as First Lord of the Admiralty, and Mr. Eden was appointed as Secretary of State for the Dominions.

## BRITISH SCHOOL GIRLS REMAIN IN CANADA

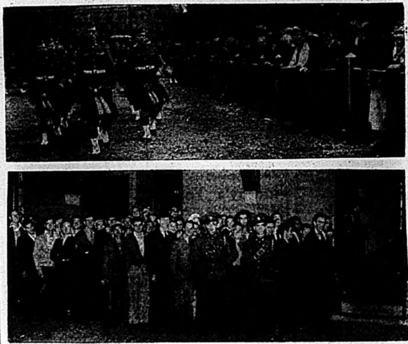
Homes are being sought for a group of British school girls who were touring Canada when war broke out. These girls will now remain in this country, it has been announced, and are at present being looked after by private schools in Toronto. Eluned Carey-Evans, grand-daughter of Hon. David Lloyd George, CENTRE, is among the group of girls forced to remain in Canada.

### SOUNDS OF NIGHT

These August nights weave about us a welcome web of sound. As dusk lowers, the tree-toad sends out its reiteration of the day's heat and its prophecy that tomorrow's sun will be hot in spite of the evening's coolness. The cricket in long, consecutive melody strums his little banjo. Sleepy bird notes fill the pauses. Through an open window comes a snatch of music from a radio. Disturbingly a dog barks. A car rushes past, throwing its gleams on the window panes. Somewhere a door bangs shut.

A small breeze stirs the leaves. A fresher wind rises. A quick patter of unexpected rain paints darker the walk and roadway. A heavier shower drums on the roof—and then subsides until there is almost sound in its silence. Slowly the new moon shows its horns through breaking clouds. The crickets and the tree-toads renew their long melody—as "the trailing garments of the night sweep through her marble halls."—Stratford Beacon-Herald.

## RECRUITS FLOCK TO JOIN CANADIAN FORCES



-Recruits are flocking to join Toronto militia units at the rate of more than 500 a day as Canada brings her army up to full wartime strength. The ABOVE pictures show members of the 48th Highlanders parading at Toronto, while a long line of applicants are pictured at one of the recruiting stations, BOTTOM, waiting to join up. At the present time none but British subjects are being signed by any of the militia units.

Asserting her historic supremacy on the seas, the British navy has been scouring the Atlantic from north to south, demoralizing German shipping. Three German raiders, two freighters and the submarine which sank the Athenia are reported to have been destroyed by the British. Ships sunk by Nazi marauders include the Bosnia, British freighter, a Danish fishing boat and a Greek merchantman. A British freighter is overdue at Rio.

# Lattimer's Drug Store To Sell Medicine At 25c For 2 Days

**Offer is Good Friday and Saturday Only; Preparations Made for Large Crowds.**

If you were told that by simply clipping a coupon from The Ontario-Intelligencer you could get a high-quality medicine for only 25c, it would sound unbelievable, wouldn't it? Yet it is true and such an *offer* is being made here in Belleville tomorrow and Saturday by Lattimer's Drug Store.

## Why Offer is Made

This offer is made because we believe everyone who suffers should have the chance to try a medicine at small cost to see if it will help them before they buy it at regular price and because we believed many sufferers in Belleville and vicinity need the medicine we offer.

The medicine referred to is a new, scientific formula of 15 roots and herbs and other splendid medicinal agents, known as Mosby's Tonic, which has helped so many Belleville people. Therefore, we offer each person a liberal introductory bottle for 25c (tomorrow and Saturday only) because we believe those who are benefited will keep on using it. The full marked price of the regular size of this medicine is $1.35.

## How It Acts

Mosby's Tonic is taken after meals and mixes with the food in one's stomach, thus helping Nature eliminate the poisons that foster stomach troubles and permitting the kidneys and liver to function more properly. It acts within 10 minutes to stop gas pains, sourness, bloat and belching. It will not gripe or nauseate you like some liver medicines. It will make your liver more active and help clear away the old bile from your system. At the same time, Mosby's Tonic helps Nature by its diuretic action upon the kidneys to relieve backache.

Now, whether or not it will help you as it has thousands of others—whether it will relieve your suffering in a day or a week remains to be seen. But owing to the merit of this medicine, it would seem only wise to try it for 25c.

This offer is good Friday and Saturday ONLY, so read the rest of this announcement and act at once. Do this in your own interest.

## What It Will Do

Mosby's Tonic will cleanse your bowels (gradually—not drastic or severe) and tone them into better daily action.

It will bring out gases and impurities (frequently from the first dose) which may have been the real cause all along of your gas pains, sourness and stomach distress.

Mosby's Tonic will help Nature relieve indigestion, difficult breathing due to gassy stomach, dyspepsia and pain in chest due to stomach gas.

It will give you a new appetite, a real desire for food.

Mosby's Tonic will act as a diuretic to sluggish kidneys, thus relieving backache, sharp pains and disturbed sleep caused by slow kidney action.

It will help clear up skin eruptions that are caused by the impurities in the organs, thus avoiding the sallowness ("muddy complexion") that is due to sluggish liver.

By removing accumulations of poisons from the kidneys and bloodstreams, it helps relieve rheumatic and neuritis pains.

Mosby's Tonic will make your STOMACH, LIVER, KIDNEYS and BOWELS more active, build you up in general and make you FEEL like a different MAN or WOMAN.

## How to Get It for 25c

To get your first bottle for 25c (Friday and Saturday ONLY), bring coupon to Lattimer's Drug Store, 228 Front St.

COUPON and only 25c
Good for Introductory Bottle
Mosby's Tonic
(Offer good Friday and Saturday only)

228 Front St.

# Farewell Party Honors Frankford Pastor and Family

Frankford.—On Monday evening August 28th, about eighty people met at the home of Mr. and Mrs. N. W. Mabee, Frankford, Ont., to bid farewell to Rev. and Mrs. W. H. Gregory, and daughter, Miss Sara, who left on Tuesday for their new field of labour at Kingston, Ont.

During the past four years, Mr. Gregory has been pastor of the Free Methodist Church on the Frankford circuit. Both in their social and church life at Frankford, they have won the esteem and goodwill of the village and surrounding community, and will be greatly missed by their many friends.

The weather being favorable, a brief but enjoyable programme was held on the lawn, which was lighted for the occasion.

After the programme lunch was served to all. During the program which was presided over by Mr. Walter Twiddy, an address was read by Miss Glover, and Mrs. A. Potter and Mrs. A. Gunter presented Mr. and Mrs. Gregory with a beautiful mantel clock and also a sum of money, the gift of church and friends.

The hand-illumined address was as follows:

Frankford, Ont., Aug. 28, 1939.
Rev. and Mrs. Gregory,
Dear Friends:

We, your friends and members of the Frankford circuit of the Free Methodist Church, are met here tonight that we may, in these last hours of your sojourn among us, as pastor and pastor's wife, try to express a little of our sincere appreciation of your labours and friendship during the four years you have been with us.

You have won and merited the esteem and friendship not only of the church but of the whole community. We have ever found you ready to help and sympathize in our sorrows and troubles and also to share in our happiness and good times.

Eternity alone will reveal the influence of your Christian spirit and work, not only in sermon and song in our Church, our Sunday School and our Missionary Society but by your splendid Christ-like living among the people with whom you have laboured. Under your ministry our church has grown and prospered.

That we may try to show that we have appreciated your life and ministry here, we are asking that you will kindly accept these slight tokens of our love and sincere good-will.

While we deeply regret the necessity of your leaving our midst, you may be assured of our prayers and best wishes for your success in the future, and may He who watches over all His children guard and keep you and your family until that day when partings are no more, and we meet around the Great White Throne of Him who loved us, and gave Himself for us.

Signed on behalf of
Church and Friends.

After some very appropriate words of thanks and farewell by Rev. and Mrs. Gregory, another address of appreciation was read by Mr. Gerald Kemp for Miss Gregory; and Miss Lois Twiddy handed her a handsome pair of gloves as a gift from the Young People's Missionary Society of the Church at Frankford.

Frankford now extends a cordial welcome to the new pastor and wife and family, Rev. Mr. Bache, from Odessa, Ont., who arrived on Tuesday, August 29th to continue the work on the Frankford circuit.

At her home on King Street, on Thursday, August 24th, Mrs. Alida Clarke quietly observed the eighty-third anniversary of her birth. This grand old lady, although blind, is in excellent health and has a very happy, genial nature and on this occasion welcomed her many callers with smiles and cheery words of greeting. Among relatives present at the birthday dinner were: Mr. and Mrs. S. B. Stickle, Mr. and Mrs. J. B. Stickle, Mr. and Mrs. Samuel Myers and Mrs. Wm. Hamilton, Mrs. Bruce Hogle, all of Sidney Township, Mrs. Chas. Hess, Frankford.

Mrs. Clarke was the recipient of many gifts and flowers, and added to the congratulations received from relatives were felicitations of a wide host of friends.

# Empey Hill

Empey Hill—Miss Jennie McCormick, Mr. and Mrs. S. D. G. Winter were tea guests on Friday evening of Mr. and Mrs. O. E. Ashley.

Mr. and Mrs. James McMath, Sr. visited Mr. Henry Sexsmith and Miss Maggie Sexsmith, Selby, on Friday.

Mrs. M. Detlor, Arden, Mrs. Fitzgerald, Miss Idona Fitzgerald, Mr. and Mrs. Wickham of Flint, Michigan, Mrs. Roberts of London, England, Mrs. W. McGill, Mrs. L. Baker, Mr. E. Lockhead of Newburgh, were dinner guests of Mr. and Mrs. S. E. Winter on Tuesday.

Mr. Dorland Windover reports 1975 bushels of grain for this season's crop, 1282 bushels were of Banner Oats, which were threshed by Joe Brennan in 5 hours. The balance was barley and wheat.

Mr. and Mrs. J. H. McLeod and Donald who spent the past month in Ohio, arrived home Sunday evening, returning by way of California, Seattle, and British Columbia. They visited many friends and relatives en route, including Mr. C. N. Lucas in San Rafael, Cal.

Mr. and Mrs. J. B. Denison, Mr. and Mrs. B. F. Denison visited their cousin, Mrs. M. Switzer at Moscow on Sunday afternoon. The esteemed lady, an only daughter of the late Mr. and Mrs. John McKim, is in her 91st year, enjoys very good health and is very interested in the present day events. Among her interesting treasures is a large Bible presented to her over 50 years ago by the members of the Selby congregation of the Wesleyan Methodist Church, upon her retirement as organist, previous to her marriage to the late Edmund Switzer of Switzerland. In it is inscribed in affectionate appreciation of her efficient and faithful service, by some 20 odd members of the church and choir at that time. May she live many years longer to enjoy life.

Miss Muriel Melbourne has returned home after spending two weeks with her cousin, Miss Phyllis Alexander, Belleville.

Mr. and Mrs. James Stone and son Kempton of Marcy, N. Y., visited his cousins Mr. and Mrs. Chas. Melbourne one day recently, and also called on other relatives in the vicinity.

Mr. and Mrs. D. J. MacLeod of Frederickton, N. B., are the guests of her sister, Mrs. Stanley Sexsmith.

Mrs. Alma J. Alkenbrack, B. A., has received from the Dept. of Education a certificate for Auxiliary Classes Opportunity and Handicraft, making the sixth extra certificate awarded Mrs. Alkenbrack in addition to her Arts Degree.

Mrs. K. Tucker, Mr. and Mrs. Arthur Noddingham are visiting friends in Detroit.

Mrs. M. B. Husband spent a few days last week with Mr. and Mrs. Fred Vanalstine, Napanee.

Master Garry Smith visited friends in Middleton, N. Y., the past three weeks.

Mr. Earle Kimmerly motored over from Syracuse N. Y. on Sunday. His brother, Mr. Harold Kimmerly returned home with him after spending a few days with Mr. and Mrs. Kimmerly in Syracuse.

Mr. and Mrs. W. J. Webb, Mr. and Mrs. Stanley Webb of Thomasburgh, Mr. and Mrs. T. J. Russell, Mr. and Mrs. Cameron Russell, Mr. and Mrs. Wilbert Winter, Mr. and Mrs. Harold Winter and Miss Martha Penny were dinner guests on Sunday of Mr. and Mrs S. E. Winter.

Mr. and Mrs. Roy Wogatzke, Mr. and Mrs. Oliver Wogatzke of Rochester were week end guests of Mr. and Mrs. Percy Kimmerly.

Miss Fern Howell of Gretna is visiting the Misses Mowers.

Master Glen Waddingham has returned home from Kingston where he had his tonsils removed.

Mr. and Mrs. Ralph Burgess of Syracuse spent Sunday with her sister, Mrs. M. P. Husband and Mr. Husband.

Miss Muriel Melbourne spent a couple of days at Gretna with friends.

Mr. and Mrs. Roy McMath and Mack spent Sunday with Mr. and Mrs. R. Tucker.

Mr. Lorne Laundrie is visiting his parents, Mr. and Mrs. George Laundrie, Cornwall.

Mr. and Mrs. L. L. Price spent Friday with Mrs. E. Price and Marjorie.

On Thursday evening Mt. Pleasant Pioneer W. I. entertained Victoria W. I. at their Hall, Belleville Rd.

Mrs. Walter Hudson, Mt. Pleasant, President, occupied the chair and the meeting was opened by singing the Ode and the Lord's Prayer in unison.

Roll Call was answered by household hints. The financial report was given. Tenders were received for caretaker and Bertram Henderson was selected. A letter was read from the Department concerning the meat course and leaders were appointed to attend the two days' course in Napanee. Mrs. C. Nugent and Mrs. T. McCambridge. Letters of thanks were read from Mrs. Morley Oliver and Mrs. Hart for fruit received in sickness. Mrs. Hudson introduced Mrs. McCraken, President of Victoria Branch and welcomed the ladies.

A splendid programme was given by the Victoria Branch, including: Opening Chorus by the members; reading by Mrs. Frank Smith — "Mrs. V at the Wedding"; violin solo by Mr. Manion; Mrs. Herb Windover displayed a lovely hand bag worked in wool.

A reading by Miss McCutcheon, "Towser Will Be Tied Tonight".; community singing with Mrs. Jack McFarlane at the piano; paper on Home Economics by Mrs. Harry Edgar.

Making most of meat money was demonstrated by Empey Hill girls, Irene Mowers and Thelma Melbourne. They had their chart and explained the different cuts and how each one was to be cooked to make hasty dishes. The program continued. Another selection on the violin was given by Mr. Manion; a skit by Mrs. McCracken and Mrs. Edgar, "Suicide in the Offing"; reading by Mrs. Smith — "Miss Ellis at the Photographers"; a contest conducted by Mrs. J. McFarlane and won by Geraldine and Irene Mowers.

A hearty vote of thanks was given the Victoria ladies and the Mt. Pleasant ladies served a splendid lunch. Dancing was enjoyed for a couple of hours.

Mrs. L. Abbott, Mrs. Ralph Abbott of Trenton visited Mrs. E. Price on Wednesday.

Mr. and Mrs. Arnold Rogers and son spent over the holiday with Mr. and Mrs. C. Abbott.

Mr. and Mrs. S. E. Winter attended the picnic held at Mr. Ed Lochhead's on Wednesday in honor of her aunt, Mrs. Fitzgerald of Flint, Michigan. It was a family reunion. Mrs. Fitzgerald had not visited these parts for over fifty years.

Miss Violet Smith of Toronto, formerly of Deseronto is visiting Mr. and Mrs. James McFarlane and spent Sunday afternoon with Mr. and Mrs. James McMath, Sr.

Mrs. John Mowers left today for Walkerton after receiving the sad news that her brother had succumbed to a heart attack at his home. He leaves a wife and two daughters. The community extends sincere sympathy.

Bobby Grooms spent the past week with his grandmother, Mrs. R. Harvey.

Misses Thelma Melbourne, Bea, Irene and Geraldine Mowers are attending the Toronto Exhibition.

Mr. Ford Russell spent Sunday with Mr. and Mrs. J. McMath.

A congregational meeting was held at the church on Monday evening and arrangements were made for the anniversary services, also a committee was named to have the electric lights intalled before these services.

Have You Had Your Automobile Inspected?

During the month of September you have the opportunity of VOLUNTARILY having all safety factors on your car or truck inspected by GOVERNMENT CERTIFIED MECHANICS in any garage listed below.

A Service Charge of $1.00

will be made for this inspection except in cases where a car passes its first check when a sticker will be supplied and NO CHARGE MADE.

EATON GROCETERIA

"Art is not merely a decoration, an embellishment; it is something vital."— Maude Adams.

Picking up over 100 fragments of $5 bills in a side street, a messenger boy gave them to the Weymouth, England, police, who fitted 10 of them together and started to hunt for the man who tore them up with the hope that he would give the $50 to charity.

# CYCLONIC STORM CAUSES HEAVY DAMAGE

# Germany Rushes Reinforcements To West Front Into 100-Mile Sector Extending From Luxembourg To Northeastern Tip Of France Near Lauterbourg

## Fleet Seeks To Control Submarine Activities; Mine-Laying Sub Sunk

### Manaar Fired on by German Sub After Torpedoing Says Crew

(By The Canadian Press)

New York, Sept. 8 (AP)—Radiomarine Corporation today reported receipt of a radio message saying "Steamer Jeanjadot advises saved crew 44 men of S.S. Regent Tiger, British, torpedoed by submarine."

Lloyd's register lists the ship as a British tanker of 10,176 tons.

The Jeanjadot, a Belgian cruiser of 5,800 tons, did not say where the rescue took place.

The sinking of two more ships, a British tanker and a German freighter, today raised the known losses in the sea warfare between the Allies and Germany to 11 vessels—six British, one French and four German.

Neutral Netherlands suffered, too, when one of its mine sweepers was disabled in an explosion which survivors said was caused when it struck a mine. Twenty-nine of the crew were killed.

The two latest victims were the British tanker Regent Tiger, listed in Lloyd's Registry as a 10,176-ton ship, and the German freighter Helfrid Bissmark, a 727-ton craft.

REPORTED BY RADIO MARINE

The loss of the British tanker was reported by Radio Marine Corporation which picked up a message saying the steamship Jeanjadot saved the crew of 44 after the ship had been torpedoed by a submarine. The position of the sinking was not given.

The Helfrid Bissmark sank in Roe Sound on the eastern side of the Danish Peninsula. Seven members of her crew were killed and seven saved. The survivors believe the ship struck a mine.

At least one other British freighter and a French vessel were attacked by submarines lying in wait for prey in the Atlantic.

The sinking of the British freighter, Pukkastan, 5,809 tons, was confirmed today. The crew were saved.

## BULLETINS

NEW ZEALAND READY TO FIGHT

Auckland, Sept. 8 (CP)—The New Zealand Government decided today to raise a special military force for service within and beyond the Dominion.

Volunteers between 21 and 35 years of age will be recruited. The First Contingent of 6,600 will be organized beginning next week.

EGYPT PLEDGES BRITAIN FULL SUPPORT

London, Sept. 8 (CP)—The full support of Egypt was pledged to Great Britain today by Premier Ali Maher Pasha.

Interviewed by the Cairo correspondent of The Times, following the rupture of relations between Egypt and Germany, the Premier said:

"The Government as well as every Egyptian are heart and soul with Britain in the great struggle for justice and the preservation of liberty and freedom.

"Egypt and its people are loyal and sincere friends of Britain and will do everything within their power to help her."

ANOTHER PAMPHLET RAID

London, Sept. 8 (CP)—The Ministry of Information announced today that Royal Air Force planes made a fourth reconnaissance flight over Germany early this morning and dropped 3,500,000 copies of a note to the German people.

The announcement said the leaflets were scattered over a part of Northern Germany. The planes returned safely to their bases.

The Air Force has been "shelling" Germany with leaflets for this past week.

## Dominion Gov't Expected To Help Ont. Cheese Producers

Is Considering Financial Aid and Storage Facilities Until Situation Stabilizes

UNABLE TO EXPORT

Intimation that help is to be given cheese producers of the Province by the Dominion Government in the matter of storage, temporary financing and arrangements for transportation, until prices of the product are stabilized, and space on ships to Great Britain provided, was given last evening at a meet[illegible] of the Belleville Cheese Board. [illegible] telegram received from Mr. S. Joss, provincial secretary of the Ontario Cheese Producers' Association read to the meeting stated that a committee of the Cheese Producers had met the Dominion Minister of Agriculture on that same day, Thursday, and had presented the position of cheesemakers of the Province to the Minister.

(Continued on Page Three)

### Customer Accepted Invitation On Sign

Racine, Wis., Sept. 8—(AP) — Dave Luby, who operates an appliance store, advertised portable radio sets with a sign:

"Carry them with you any place." One potential customer took the sign too literraly, Duby complained to police, because he carried out a radio without paying for it.

## FIGHTING CRAFTS MAY BE BUILT IN THE DOMINION

Manufacturer Would Not Discuss Effect of U. S. Neutrality on Canada

### ALL FOR BRITAIN

Various Types of Planes Now Being Made in Dominion for Canadian Use

Quebec, Sept. 8 (CP)—Paul F. Sise, President of Canadian Associated Aircraft Manufacturers, said today n ohis arrival from Europe he "would not be surprised" if Can- today on his arrival from Europe to turn out fighting craft for Great Britain.

Mr. Sise said his business visit to England, cut short by outbreak of war, had not been to obtain contracts.

He had gone to England to "look into matters connected with materials."

Mr. Sise said he was not yet in a position to discuss effect the United States neutrality act would have on Canadian airplane manufacture. He could not say how many Canadian manufacturers had arrangements with United States firms for production of machines of American design in Canada.

Firms Named Ready

(Continued on Page Eleven)

### Western Wheat Crop Estimated At 451 Million Bushels

Winnipeg, Sept. 8 (CP)—Western Canada's 1939 wheat crop is estimated at 451,672,170 bushels in the final crop report of the Winnipeg Free Press issued yesterday. The yield, if it is realized, will bulge western bins with the greatest harvest since 1928 when 566,000,000 bushels were taken from prairie farms.

Last year Western grain lands yielded 336,000,000 bushels of wheat.

### Wife Acquires Voice Control By Frequent Change Of Husbands

Detroit, Sept. 8—(CP)—Mrs. Tiny Mulhall today was crowned the champion husband-caller at the Michigan State fair. The 269-pound woman said she built up a local reputation as a hog-caller, but after her first marriage she went into the husband-calling competitions.

Her first husband's name was Theophilus, and using it gave her flexibility and control. She acquired tone and volume with the names of her second and third husbands, George and Freddie. Her present husband's name, Eddie, she said is ideal for competitive work.

### Return Of The Duke Of Windsor Delayed

LONDON, Sept. 8—(CP)— The Press Association said today it had learned "the Duke and Duchess of Windsor will not return to this country today" and that plans for their homecoming "are not yet complete."

When they do come it was generally expected they would go quietly to Fort Belvedere near Windsor.

Dispatches from Cannes, France, had said the Duke and Duchess probably would leave today and indicated they would travel across France by motor car to a channel port. From there, it was believed, a warship would bring them home.

Some believed the Duke will take up a public position upon his return probably heading some form of national service work. Others believed he might resume a commission which he still holds in Great Britain's armed forces and enter active service.

## Thurlow Twp. Bears Brunt Terrific Wind, Rain Storm; Damage Runs Into Thousands

Stirling, Mohawk Reserve, and Shannonville, Heaviest Hit

BARNS TOPPLE

Trees, Hydro and Phone Poles Scattered—Traffic Disrupted in District

A storm, approaching cyclonic proportions swept out of the northwest early today ripping through a swath approximated at eight miles wide through the southern part of the county and leaving in its wake a trail of damage estimated at thousands of dollars.

"A black cloud, cone-shaped with a ball of fire at its apex" was the description of the storm given by Bob Miller, fourth concession of Thurlow resident who was arising when the storm struck. "I stared at the strange sight, then heard a crash and saw the machine shed of Charles Cole whirl nigh in the air and disappear before the terrific wind."

The storm struck with severe force at Stirling sweeping in a southwesterly direction across Latta, Roslin, Foxboro and the third and fourth concessions of Thurlow. It swept through the Mohawk Reserve and continued its devastation among further easterly points.

Fifteen Minute Duration

Lasting appriximately fifteen minutes the terrific wind accompanied by rain, hail and lightning laid waste a large area of the county. Barns were torn down. Houses were damaged. Practically every "east and west" fence in the stricken area was levelled. Large trees were hurled across roadways. Hay stacks ripped to shreds by the

(Continued on Page Seven)

## Cruiser's White Sides Blackened From Powder As It Pours Shells Into Munition Depot

By LYNN HEINZERLING
Associated Press Staff Writer

Riga, Latvia, Sept. 8—(AP)—In a Danzig hotel lobby I heard a German officer who usually slept late leave a call for 3:16 the next morning—Friday, Se[illegible]

I realized then tha[illegible] war was coming.

It was 4:47 a.m. [illegible] my watch when the firing started. [illegible] couldn't place it as I ran down [illegible] hotel stairs several steps at a t[illegible]

The night watchman [illegible] geht Los." (It's started.)

I rain toward the Vistula [illegible]. There I saw what it was—the German cruiser Schleswig-Holstein firing on the Polish munitions depot of Westerplatte.

Already the cruiser's white sides were blackened from the powder of the shells it was pouring onto the heavily-wooded Westerplatte peninsula from its 18-centimetre and 28-centimetre guns.

Watched Battle From Hills

Strangely, I found a taxi that took me to the former customs house. From there I climbed a hill behind the lines.

B[illegible]w, German soldiers were [illegible]ing all approaches to the wa[illegible]ront and clearing the entire [illegible]bor district of thousands of [illegible]vilians to prepare the way for the air raids that were to come. Windows all through the district were smashed by the force of the explosions of the shells from the cruiser.

(Continued on Page Seven)

## Fighting On The Western Front Markedly Different From Last War

London, Sept. 8 (CP)—The fighting on the western front proceeded today in a manner markedly different from the swift, fierce engagements of the early days of the Great War.

Several factors are involved in the comparatively slow development of the 1939 campaign. Outstanding was the difference between today's tactical conditions and those prevailing in 1914.

In 1914 troops manoeuvring in open country clashed and fought within a few hours after German troops invaded Belgium.

Today great armies are moving into previously prepared lines, deep and heavily fortified. Such a process involves no clashes between small forces but instead makes for extended artillery duels to soften defences and clear the way for large infantry and mechanized forces.

Caution Against Flank Movements

Another angle arises from the need for caution against flanking movements. A quick advance by a small detachment would leave it open to flank attack by the fast motorized modern armies—movements that can cut off an advancing force and leave it open to capture or annihilation.

Still a third important factor is the conviction of Great Britain and France that the element of time is in their favor.

British strategists contend that Germany's internal economic strength is insufficient to withstand the demands of a long war, that many German arms are made of scrap metal which would not stand up under a long siege and that German strategy is built around the idea of a lightning war.

As a consequence, the British and French are going at their land campaign slowly and carefully with a view to creating a diversion from the German attack on Poland, where Germany is meanwhile expending ammunition, man-power and equipment

## Effects Of War Already Changes The Life Of Millions In London

By J. C. STARK
Associated Press Staff Writer

London, Sept. 8—(AP)—The war has yet to reach London but its effects already have changed completely the life of the millions of inhabitants of this world metropolis.

The effects on the average individual are not so great in the day time as at night. Restaurants operate as usual and menus are the same as before. Traffic is heavy, taxicabs scarcer and transportation by bus or subway more uncertain.

But a real change comes at night. Many go to work earlier so that they can go home earlier at night—in time to blackout their houses. Air raid wardens keep a close watch to see no light is showing.

(Continued on Page Three)

## ADVANCED POSTS WITHIN ARTILLERY RANGE OF WARSAW

Nazi Officials, However, Still Silent on Developments on Western Front

### 3 SEPARATE THRUSTS

No Suggestion by Germany Warsaw Has Been Subjected to Artillery Fire

BERLIN, Sept. 8—(AP)— The German army of the east claimed today its most advanced outposts were within artillery range of Warsaw, while from western Germany came reports of a large scale exodus of civilians from areas facing France.

Officials apparently were barred from disclosing just what regions of the west were being cleared. But word through relatives and friends of civilians there indicated that populations of such cities as Sarrbruecken, Trier, Aachen (Air-La-Chapelle), Bonn and Karlsruhe were on the move.

Although Great Britain and France declared war on Germany five days ago, Nazi officials in Berlin still were silent about developments on the French frontier.

(Continued on Page Seven)

## POLAND'S ARMY WILL SOON START ITS OFFENSIVE

Radio Announcement from Warsaw Says Poles Will Fight to Finish

### AIR FLEET INTACT

BUDAPEST, Sept. 8—(AP)—The Warsaw radio, silent yesterday, today broadcast a statement that "the Polish army will yet start its offensive."

"The present retreat is for strategic reasons," the announcement declared.

"The war will continue a long time. The Poles will not capitulate.

"We will fight to the finish.

"The Polish air fleet is intact. The world will understand this before long."

Appeal to Citizens

The broadcaster appealed to all citizens to help fortify Warsaw and declared it would be defended the way Madrid was defended by the Spanish republic.

(Continued on Page Three)

It's different Never before in Eastern Ontario Admission 15c. Dancing 10c or four tickets for 25c. s8-1t

## Joint British-French Offensive Against Line Expected In Few Days

### Civilian Refugee Stream In Germany Grows Steadily

By JOHN MARTIN
(Associated Press Staff Writer)

LEFT WING ADVANCE IN SAAR VALLEY

At the left wing of the French advance was the rich Saar basin, a German industrial region. At the right was the German palatinate area which, fringed by the Bienwald, is a hilly, forested district north of Lauterbourg.

The fighting, however, rolled along the whole length of the frontier down to Switzerland. Along the southern half, fronting on the Rhine, it was confined to heavy artillery shelling and small skirmishing parties sent ahead in an effort to wipe out advanced German machine gun nests.

German and French guns hurled shells from their concrete-hooded fortresses lining each side of the river. The civilian refugee stream grew under the force of the fighting launched by France and Great Britain to relax German pressure on Poland in the east.

French sources did not reveal the extent of German resistance on the western front except to say there was "marked activity" and that the Germans were bringing field organizations into play. This was taken to mean mechanized forces and light artillery.

FRENCH AID TO POLAND GETTING RESULTS

The French saw their action to aid Poland getting results when the Germans moved up reinforcements.

Genevieve Tabouis, writing in L'Oeuvre, said the Poles were using only fifteen divisions against the Germans, with forty-five more waiting intact on prepared defence positions behind the Vistula River.

British soldiers and pilots crowded Paris streets. The troops were part of the detachments being moved east to join the French.

The Royal Air Force already is operating over the Siegfried Line area, seeking to aid French artillery onslaughts and hunting German air bases and underground hangars in the Black Forest.

The French gave the Tommies a great reception, both on the street and in the press, the latter emphasized the resurgence of "Tipperary", the British marching song of 1914.

British military leaders conferred with the French High Command on the disposition of their forces.

MAJOR OFFENSIVE EXPECTED

BASEL, Switzerland, Sept. 8 (AP)—With heavy artillery thundering at main forts of Germany's Siegfried Line, military observers here believe the French High Command may launch a major offensive within the next few days.

Foreign observers previously had estimated it would be two weeks or more before such an attack. But the speed with which French troops have come to grips with German troops was believed by some to have hastened the hour for a major battle.

French troops drew toward the German forts, capturing and holding some machine-gun nests. Reports reaching Basel said advance guards were spread throughout the northern part of the front.

Big guns hammered Siegfried forts from Lauterbourg, where the French-German frontier elbows away from the Rhine, to the Saar frontier.

PILL-BOXES PROVE TENABLE FOR FRENCH

Pill-boxes captured after sharp local battles were reported to have proved tenable for the French. Military observers said one of the principal weaknesses of hastily-constructed sections of the Siegfried Line was the improper placement of such outlying, independent machine-gun nests.

(Continued on Page Seven)

## Canada's Position In War To Be Thoroughly Debated

Manner and Extent of Canada's Aid to Britain Will be Decided

Correspondence Read

OTTAWA, Sept. 8—(CP)—Parliament prepared today for a thorough debate on Canada's position while Great Britain is at war.

This second day of the emergency session, called because of war in Europe, was expected to be marked by a declaration from Prime Minister Mackenzie King as to what steps the government has taken to meet the emergency and to what measures his administration plans to take in the future.

Mr. Mackenzie King assured the people of Canada in a broadcast address last Sunday that the government would be one of "effective co-operation at the side of Britain."

Parliament will decide the manner and extent of Canada's aid to Britain in the course of the next few days, it is generally expected.

(Continued on Page Three)

### V.C. Holders Again Ready For Service

Toronto, Sept. 8—(CP)— Four Toronto holders of the Victoria Cross, Colin Barron, Lieut. Walter L. Rayfield, Tommy Holmes and Henry Howey Robson, all are afraid their ages will prevent them from being accepted for overseas services.

Holmes is the youngest—and has the best chance of being accepted. He won his V.C. when only 18—and said he was mildly rebuked by King George V for the "little white lie about my age when enlisting."

## GUARDS POSTED ON HYDRO PROPERTY HERE

At a meeting of the Belleville Public Utilities Commission yesterday members of the Commission were informed by Manager O. H. Scott that armed guards had been posted and will remain on duty on the property of the Reid Street Hydro sub-station until further notice. Visitors and strangers have been warned to keep away from this station area, and guards have been given strict orders in this respect.

## MANY FOUND UNFIT FOR ACTIVE SERVICE

Members of the medical boards which are examining recruits for active service at Kingston headquarters of this military district report that only about thirty per cent of the men who have been applying for enlistment in the various units have been found fit for service. A high standard of physical fitness has been set for the first batch of recruits, resulting in the large percentage of turndowns.

## NEITHER TEACHER ABLE TO RETURN

International complications have arisen in the arrangements that the Belleville Board of Education had made whereby Miss Eileen Ash, art teacher at the Collegiate, would teach for a year in Ireland and an Irish teacher take her place on the local staff. Miss Ash arrived safely in Ireland in the summer holidays but the exchange teacher did not come to Canada to avoid travelling at a dangerous time.

As present, Miss Ash, and her substitute are in Ireland and neither of them are able to return to Canada.

## FISHING IMPROVES

Cooler weather has resulted in better fishing in the bay during the past several days and local guides and private fishing parties report fair catches of bass in nearly all sections. Favorite locations recently have been the bar near the Will's Island and the vicinity of Nigger Island in the west section of the bay, and Snake Island, Ox Point, Sand Cove Point and Muscote Bay. Bass are reported biting well on live minnows and crabs, with frogs as third choice. Several pike have lately been taken by the old fashioned expedient of dragging small balls of worms across the shallow beds of the marshes.

## CHILD SCALDED IN FACE BY STEAM

Wandering into Maple Leaf Cheese factory, little Ruth Bain encountered a valve controlling steam from the boiler used for the purpose of sterilizing milk cans. Playing with the valve she released a flood of steam which struck her in the face, scalding it badly. She is receiving medical attention for the severe burn.

## DR. PEDLEY APPOINTED TO MEDICAL BOARD

It is reported eight enlistments Dr. W. H. Pedley of Stirling has been appointed a member of the medical board of examiners for the Hastings and Prince Edward Regiment. The board has been alternating its sittings between Trenton and Madoc recently it was reported. Other members are Captain Morgan, president, Dr. Forrester and Dr. Eagleson.

It was announced this week that have been registered from Stirling and district with the Hastings and Prince Edward Regiment, but only two of the applicants have been accepted, A. Stonesburg and C. Dunkley.

Major E. W. Matthews of Stirling has taken up his duties in Picton with the regiment.

## Opera And Movie Star Offers Help

NEW YORK, Sept. 8—(CP) — Grace Moore, opera and movie star, wants to drive an ambulance for the French army to repay France for "the independence, happiness and development in life" that country gave her.

Miss Moore, who arrived here yesterday on the liner Manhattan, said she would leave again for France as soon as she can get through with or cancel a scheduled concert tour.

Miss Moore, whose husband Valentin Perera also said he would join the ambulance brigade, revealed she had taken over support of 24 families in Mougins, a little town in the south of France. She said the Duchess of Windsor is taking care of 300 war children in her villa.

Dogs are mentioned 41 times in the Bible, cats not at all.

## *Summer Feast of the Epicure*

When the crickets have fully launched their orchestral din, in mid-August or thereabouts, the season of corn on the cob bursts into full flower.

While nature, gaudily adorned with garlands of hollyhocks, is slightly dotty with the heat, while the summer girl pridefully displays her semi-Ethiopian complexion down to an indefinite boundary line well below her shoulder blades, the serious-minded majority of mankind grows ecstatic at intervals to good purpose. For, at the doubly welcome dinner hour, it experiences its highest earthly happiness, emulating its little brothers, the rodents, by gnawing tenderly toothsome ears of Golden Bantam, Golden Sweet, Evergreen, Country Gentleman or what you will, sublimely ignoring the rivulets of melted butter trickling from its composite chin.

The practical citizen takes suitable precautions in anticipation of that rapturous time. Waving decadent table manners haughtily aside, he tucks a corner of his napkin into his collar before lifting from his plate, a bit gingerly with both hands, a steaming, but not quite red hot, ear of corn, after having anointed it with butter — as lovingly, as copiously — and added a judicious sprinkling of salt.

Then he bites valorously into the cylindrical treasure and engages in rapturous champings and in sighing expressive of paradisiacal content. As the enchanted moments go dancing by, the dreamy-eyed diner builds, with denuded cobs piled reverently one by one upon his plate, a monument of Elysian joy.

Corn on the cob is the quintessence of Summer. It is refined sunshine and distilled dew. It embodies the daintiness of rose-tinted dawns and the mystery of scented starlit breeze-haunted midnights.

Some barbarians brutally shear off the delicious flavor-filled grains with knives instead of gnawing them off in a spirit of devotion. Others thrust bits of prolonged metal into the ends of the ears to hold them by, thus assuming, caddishly, an air of aloofness if not superiority toward those luscious prizes. Some, professing aversion to the buttering of their countenances from ear to ear in feasting with decent enthusiasm on the choicest of viands, merely nibble at the noble provender or even stonily resist its virtuous enticements. All such degenerate Americans surely are unworthy to practise the great midsummer table rite of this sovereign, corn-fed people.—Chicago Daily News.

## N.Y. Shoe Workers Demand Cancellation Of Bata Co. Permit

NEW YORK, Sept. 8—(AP) — Ten thousand New York shoe workers today demanded revocation of a permit they said had been granted to the Bata Shoe Company of Czecho-Slovakia, to import several hundred workers to establish a shoe factory at Belcamp, Md.

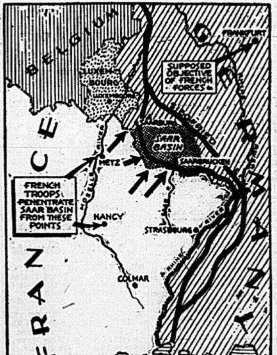
A resolution passed by joint council 13, United Shoe Workers of America, an affiliate of the Congress of Industrial Organizations also requested the appointment by President Roosevelt of a commission to investigate the granting of the permit by the immigration division of the Department of Labor.

## Justice Lennox' Son Injured In Accident

Toronto, Sept. 8—(CP)—A woman identified by police as Mary Marks, 35, of Toronto, died in hospital and a companion, W. Keith Lennox, barrister and son of the late Mr. Justice Haughton Lennox of the Ontario Supreme Court, is in critical condition as a result of an automobile accident here early today.

Luke Dey, 21, of Toronto, charged with manslaughter.

THE WESTERN FRONT



Marked by dotted arrows on the map ABOVE are the directions taken by the German armies in their great drive to subjugate Poland. The movement follows a half circle, leaving only the eastern side of Poland unattacked. The arrows are aimed at centres coveted by Germany for strategic and industrial importance. The portion of the map shaded with diagonal lines is the main defence area, which has not as yet been reached. When the line of forts on the western line of this area is reached, the real test will come. The line runs through Grodno, Lomza, Modlin, Lodz, Krakow, Przemysl and Lwow. The Polish government left Warsaw to establish a temporary capital at Lublin, about 100 miles from Warsaw.

# FALLS OFF STONE ABUTMENT WALL

### Robert Crawford Rescued in Boat by Police and Not Injured

Falling off the stone wall abutment into the Moira River, Robert Crawford of this city, found himself in difficulty and unable to reach shore shortly before midnight last night. Later Belleville police, with the aid of a row boat rescued Crawford from the river bed. Fortunately the water was not deep at the point where he fell into the river, police revealed after taking Crawford home at midnight last night.

Sergeant Arthur Booth and P. C. Arnott received a call to the effect that a man had fallen into the Moira River at the rear of the Queen's Hotel. The officers investigated and later in company with a man named Graves, P. C. Arnott procured a row boat and put out from the west bank of the river and rescued Crawford, who was in apparent difficulty.

After being pulled into the boat and taken ashore, Crawford told an incoherent story about having been fishing off the river wall and had fallen into the water. Police could not find any fishing paraphernalia nearby, however. Crawford was taken home in the police cruiser.

# TWO SENTENCED TO TWO MONTHS

### Plead Guilty to Theft of Purse in a Previous Court

William Zachariah and Mrs. Louise Johns, both of Prince Edward County, were sentenced to serve two months in the common jail by Magistrate E. J. Butler, K. C., in today's local police court, where they appeared for sentence after pleading guilty to the charges of theft in a previous court.

Zachariah and Mrs. Johns were charged with the theft of a purse containing $9.05, the property of Frank Elliott, on Aug. 31st last.

"Aren't these the two who stole a purse and then threw it away only to have the police recover it and find it contained eight dollars?" asked Crown Attorney B. C. Donnan, K. C. Chief Kidd admitted such had been the case.

Magistrate E. J. Butler, K. C., interrupted his vacation period to preside, as Magistrate Shea of Kingston, who was relieving is confined to his home through illness.

Two inebriates admitted their guilt and were fined accordingly.

## THE WEATHER

Toronto, Sept. 8—(CP)—Showers have occurred in many districts from Winnipeg eastward to the Maritimes, but it has been fair in Saskatchewan and most sections of Alberta. It [illegible] been a little warmer over the greater part of Ontario but [illegible] cool in Quebec and the Maritimes.

Lake [illegible]erior: Moderate to fresh [illegible] and cool tonight and [illegible]

[illegible]: Fair and moderately [illegible] Saturday — Partly cloudy with light scattered showers.

Saskatchewan: Mostly fair and moderately warm. Saturday — Partly cloudy and somewhat cooler with light showers in some districts.

Alberta: Partly cloudy and cool tonight and Saturday; light scattered showers.

## *Why The Weather?*

By Major A. H. Thiessen

Science Service Meteorologist

Uncommon rainbows! To see a rainbow carpeting the ground has been the experience of a few. The light from the sun shines on drops of water which are clinging to cobwebs covering the ground, thus creating a perfect rainbow. Watch for them on the fairway. The same phenomenon has been observed on a lake, the surface of which was covered with water drops probably deposited by fog on an oily surface. In general, rainbows formed on the ground or on a sheet of water are called "horizontal rainbows" distinguished from the regular rainbows which are vertical, formed on falling drops of rain.

About four-fifths of the cheese produced in the United States is the relatively mild cheddar cheese.

De Soto apparently brought only 13 hogs to America, but the herd multiplied to 700 in several years.

# EXPLOSION KILLS 7 MEMBERS ON GERMAN STEAMER

### Believed Vessel Struck Floating Mine Near Sweden

### ONE NOT KNOWN SUNK

COPENHAGEN, Sept. 8—(AP)—Seven members of the crew of the German steamship Helfried Bismarck were killed today when an explosion sank the ship south of Ore Sound, between the Island of Sjaelland and Sweden.

Survivors said they believed the vessel, which went down in a few minutes, had struck a mine. Seven were rescued. The vessel was loaded with saltpeter.

Earlier an unidentified steamship was blown up off the Danish island of Aeroe, south of Funen. Observers said they believed that the ship was a German freighter and that all of the crew perished.

(More than 100 miles separate the scenes of the two accidents. Both areas are on the eastern side of the Danish Peninsula.)

The area where the unidentified steamship was blown up has been mined by Germany, but shipping authorities expressed the opinion that a drifting mine was responsible, since the vessel was not in the charted mine fields.

## *Police Blotter*

Tourists are blamed for the theft of bedding from the Bayside Camp operated by M. C. Potter near Jones' Creek, Highway No. 2, recently.

Today Mr. Potter informed Provincial and city police that a party had rented a cabin on the Bayside camping resort, but upon their departure all of the bedding, except the mattress in the cabin had been stolen. Sheets, pillow slips and quilts were all taken by the tourists. Police are investigating.

Constables Evans and Ellis answered a call to the Globe Cafe early last evening. Upon their arrival the officers were told that a fight had been in progress and two men had left the premises. Later the men were apprehended and placed in the police cell block on charges of intoxication. They were both residents of Prince Edward County and will appear in Monday's police court, Chief Kidd stated today.

When the constables arrived they found a partition, which separates two eating stalls in the cafe had been broken down during the skirmish.

No other arrests were reported during the past few days, but last night's threatening storm saw nine transients seek shelter at the police station.

Excavations for a new block of government buildings on the site of Whitehall Palace, London, have uncovered foundations of royal apartments, a wine cellar, a great hall built for Cardinal Wolsey, and other historic remnants which will be photographed before work proceeds.

# NEW TYPE SNUFF MAY PREVENT FLU EPIDEMICS

### Test Made in Russia Showed Only 4 Out of 650 Men Exposed Caught It

### HORSE SERUM USED

(By Howard Blakeslee Associated Press Science Editor)

New York, Sept. 8 (AP)—One war spectre, another world-wide flu epidemic, can apparently be prevented by a new kind of Russian snuff announced today.

It was described in the printed proceedings of the Third International Congress for Microbiology, by Dr. A. Smorodintseff of Moscow. Owing to war conditions he did not attend the Congress.

Immune horse serum, a well known flu material, makes the Russian snuff. This serum is the water-clear part of the blood of horses which have been artifically infected with flu. It is dried and inhaled.

One inhalation, lasting 15 minutes, and using about a thimblefull of the powder was tried on a big scale this year in Russia, during a real flu outbreak. Seldom is there a chance to test a new remedy on human beings in a true epidemic, a fact which makes the Russian results impressive.

The snuff not only mostly prevented flu, but helped to cure it. Snuff was given to 650 men exposed to flu. Only four of these caught it. But alongside them were 1,700 men, also exposed, but with no snuff. Among these there were 149 cases of influenza.

# SIX U.S. FLIERS BURNED TO DEATH

### Bomber Flies Into Antenna Wire of Radio Station and Bursts Into Flames

SAN DIEGO, Calif., Sept. 8—(AP)—Charred bodies of six United States navy fliers were removed today from the wreckage of a twin-motored patrol bomber which crashed in flames last night after striking antenna wires of the wireless station at Chollas Heights.

Burned beyond recognition, the bodies were removed by a navy fire crew which controlled the flames after a two-hour fight.

The victims were Lieut. A. H. Irons, pilot; Ensign L. W. Latremore, Frank Vukovich, machinist's mate; H. O. Wilson, machinist's mate; V. E. Norris, naval pilot; and H. G. Berry, radioman.

For every pound of turpentine produced four pounds of resin are made.

## CAMPAIGN TO PREVENT MOTOR ACCIDENTS NOW UNDER WAY

### Inspection by Government Arranged for — Adjustment of Headlights, Certified Mechanics Steering Gear, Etc., and Needed Adjustments Pointed Out

Most motor accidents are unnecessary and motorists are beginning to realize this fact, so much so that various organized efforts are being made to cut down the toll of accidents by prevention. In this connection it is worthy of note to call attention to one organization which is doing a splendid work in Belleville and district as well as Ontario as a whole, the Garage Operators' Association of Ontario, which is waging a special campaign during September to impress motorists with the advisability of having their cars inspected and dangerous defects exposed, reported on and attended to.

Members of this association advertise their willingness to inspect all motor cars and have them thoroughly gone over by Government Certified Mechanics, and any maladjustment or defect pointed out and reported on. Headlights will be properly focussed and aimed, steering gear inspected, etc. Cars passing inspection will have a safety inspection sticker attached to the windshield.

Cars not passing inspection will be reported on as to defects to the owner.

The campaign is meeting general approval of car owners who wish to protect their investment in their cars as well as their lives. The campaign has the cordial endorsement of Chief of Police Draper, of Toronto; Chief of Police Kidd, of Belleville, and police officers all through Ontario, and will be continued all through September.

Names and addresses of members of the Garage Operators' Association have already appeared in this newspaper.

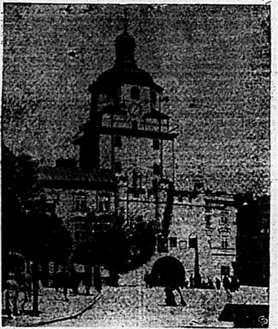
FOR ACHING TIRED FEET

● Don't be a martyr to tired; aching feet! Soothe them with Zam-Buk's penetrating herbal oils. Every night bathe your feet in hot water. Dry carefully. Then gently massage Zam-Buk into ankles, insteps, soles and between the toes. You will be amazed how quickly you get relief. *Don't suffer foot-torture another day.*

Get Zam-Buk from your druggist at once and enjoy perfect foot comfort.

Use ZAM-BUK Nightly

NEW POLISH CAPITAL



Situated at the northern tip of Poland's "safety triangle," the historic city of Lublin has become the new Polish capital following the evacuation of Warsaw by the Polish government. The historic Krakow gate, built in 1342 in the wall around Lublin, is shown, ABOVE.

## Potential Value Of U.S. Farm Products Up $1,000,000,000

Chicago, Sept. 8 (AP)—The war boom in commodity prices has increased the potential value of principal farm products in the United States by at least $1,000,000,000 market experts estimated today.

Grains, livestock and produce have appreciated in value as a result of the upward swing of prices the last few days. In most cases prices are higher than they have been in more than a year.

Farmers, who hold larger quantities of grain than at any previous corresponding date on record, are in position to benefit directly and immediately from the price rise, experts said.

The most sensational price upturn has occurred in the corn market, where values have appreciated 39 per cent.

The price of corn has risen about 17 to around 60 cents a bushel since the start of German-Polish hostilities. This has increased by approximately $44,000,000 the market value of 257,000,000 bushels of 1937 and 1938 corn which farmers have sealed as collateral on government loans.

The increase of almost 30 percent in wheat prices has raised by approximately $13,000,000 the market value of 68,00,000 bushels held under government loans and has given the total 1939 crop plus carryover from previous years a value of $680,000,000.

Hog prices have soared approximately 30 per cent, giving the country's hog population of around 50,000,000 head a valuation of $225,000,000 higher than a week ago.

## EXPECT SESSION

*(Continued From Page One)*

**Restaurants Deserted at Night**

Resaurants at night in London are almost deserted. There is no night life. Theatres are closed. there is little diversion except to go home and talk. There is little to talk about except when the bombings are going to start, what the military strategy is behind this or that move, or the apparent absence of a move. The radio offers music and official announcements.

The public generally takes the war calmly. One Englishman remarked that people have settled down to a war routine comparable to the situation a year or two after the Great War began.

"It is because we were prepared for it," he said: "We have been through so many crises and have expected war so many times that when it came we took it almost as a matter of course."

Since even a flashlight on the streets at night brings a stern police warning, the crowds that used to stroll through the west end have disappeared.

Driving at night in the dark is such a slow, nerve-wracking business that taking a spin after work is unthinkable. Besides, gasoline shortly will be rationed.

**Transportation Curtailed**

Unless your friends live nearby, you can't expect them to drop in, because transportation is curtailed.

Even in the daytime the city has lost many of its attractions. Shop-windows are boarded up and most stores have earlier closing hours. A few have closed down altogether.

The first days of war have been gloriously sunny and even the nights bring a moon and stars. But soon the day and night drizzle and the fogs will begin.

There have been some advantages. Normally reticent Englishmen have started talking to one another without formal introduction.

You can ask a stranger where he bought that gas mask container without being cut dead.

Men whose wives have left the city areas find loneliness stronger than tradition of reserve. One left a note on his front gate inviting other "war widowers" to drop in and share his home-cooked dinner.

FRESH BUTTERMILK daily. Citizens' Dairy. Phone 236 for home delivery

## DOMINION GOV'T

*(Continued From Page One)*

"The Minister appreciates the present position of the producers and has under consideration steps in conection with storage facilities temporary financing arrangements and transportation facilities. This committee feels encouraged enough to say that we believe the Government will find some way of relieving the situation, and factories that hold cheese until conditions are more settled will be in a position to make advances to patrons.

"We suggest that if you hold and store your cheese in your factory, that you box it and pile them five or six high," stated Mr. Joss in the telegram.

A second communication was read to the meeting, a resolution passed by the Cheese Producers' Association in which the Association desired to go on record as associating itself with rendering such service as may be possible to the Dominion of Canada in its contribution to the Empire and its Allies in the war now in progress.

"The organization has as its object the development of the cheese industry a commodity that will in consequence of its exceptional food value would undoubtedly be of real necessity for requirements of the troops and the public as a whole, and is prepared to enlarge its efforts to ensure the required increased production that will undoubtedly be necessary.

kkduutuocPlit

The basis of this effort to be effective shall be that immediately, and until hostilities have closed, the guarantee by the Government of the Dominion of Canada of the cost of production to the producer to assure the requisite supplementary effort to guarantee that the requirements will be constantly available, and that a copy of this resolution be forwarded to the Hon. Minister of Agriculture for the Dominion asking that a favorable consideration of the government be given to this submission."

The resolution had been moved by J. G. Mitchell of Lansdowne, and seconded by J. J. Poole of Ingersoll.

Previous to the boarding of the cheese at the meeting Mr. Jewell, manager of the local branch of the Canadian Bank of Commerce was introduced by president of the Board, Geo. Weaver and spoke briefly upon the current international situation as it affected finances.

"What may happen is anyone's guess," stated Mr. Jewell in his review. "But we do know this, that there will be more control over things than there was during the last war. We noticed at the outbreak of the war this time that the New York Stock market did not go into a panic, neither did it close its doors, as it did last time. Many stocks rose, others did not show such gains, but there was little actual loss. Sterling has no stability at the present time and we, in financial circles, have no basis upon which to work, but we believe things will settle down soon and more normal conditions will be felt.

"We are more fortunate this time in that farm and agricultural prices have not been immediately depressed; last time they fell rapidly, but again climbed sky high.

"It has been generally said that people now should stock only for normal needs, and it appears to be good advice. If a short war occurs, there is no need for stocking up, and if it is a long war, then we are assured that there is plenty of time to get prepared," stated Mr. Jewell.

## POLISH ARMY

*(Continued From Page One)*

(Madrid, capital of republican Spain, was besieged by the Nationalists for more than two years and its fall coincided with the end of the Spanish civil war.

(The Warsaw radio was silent throughout Thursday and the station at Lwow (Lemberg) apparently was the only one in Poland functioning.)

Crowds pack the sidewalk cafes in the cities of southeastern Europe to read the newspapers, and throng the streets in front of newspaper office bulletin boards. But censorship drastically limits the war news they get.

Budapest provides a good picture of what happens in a country whose government wields the blue pencil in the interests of remaining neutral.

Although the city is only 50 miles from German-occupied Slovakia, and only 150 miles from the scene of bitter fighting in Poland, people here know far less of what is happening than those in Canada.

**No Visible Signs**

In the morning papers, there is no visible sign of censorship, for the editors have time to fill in the blank spaces caused by the censor's deletions.

But all week the afternoon papers have been full of glaring white spaces where objectionable news had appeared. The deletions were made too near press time for the editors to fill the holes.

Often censors leave the dispatches untouched but eliminate sensational headlines over them.

One afternoon paper carried a story of French and German troops at the Siegfried Line fraternizing and throwing bunches of flowers at each other. In a rival paper, the headline on the same story was allowed to remain but the entire dispatch was eliminated.

**Absence of Photographs**

Another deletion was on the headline over a story of German success in freeing Danzig from "oppression."

Despite Budapest's proximity to the battle front, there has been a notable absence of war photographs.

Telephonic censorship, meanwhile is becoming more vigilant throughout Europe. A Budapest resident's attempt to tell a friend in Moscow about the sinking of the British liner Athenia was frustrated by a censor in Berlin, through which the call was routed.

## CANADA'S

*(Continued From Page One)*

**Asked to Vote Money**

Parliament will be asked, according to the Throne Speech read at a business-like and unostentatious opening ceremony yesterday, to vote money to cover emergency expenditures already made and still to be made to protect national security.

Estimates for extraordinary expenditure, the speech said, would be submitted to the Houses for approval because of "the state of war which now exists," a phrase unofficially explained later as not constituting a declaration of war by Canada, but referring to the state of war existing abroad.

Asked about the phrase, Prime Minister Mackenzie King would only say last night that "the speech from the throne made no change in the position of Canada as it has been since the proclamation under the War Measures Act was issued. A formal statement defining the position of Canada will be issued following action by parliament."

The War Measures Act of 1914, giving the government extraordinary powers to make emergency decisions pending a meeting of parliament, was proclaimed last weekend.

**Correspondence Tabled**

The Prime Minister tabled correspondence with the British and other governments during the crisis preceding the outbreak of the war, a letter from King George VI thanking Canadian Ministers for their assistance on his recent tour of Canada, and letters dealing with the resignation of Finance Minister Dunning.

Official disclosure of emergency measures already taken by the government was made with the tabling of 36 orders in council showing $16,450,000 expenditure planned for the defence of Canada of which $8,918,930 was for immediate needs of the air, land and naval forces.

Other orders in council dealt with provision for air raid precautions, proclamation of the War Measures Act, and creation of a wartime prices and trade board to prevent profiteering and assure a constant supply of the necessaries of life.

**Government Business Only**

"Proposals for further effective action by Canada will be laid before you without delay," the Throne Speech said. Government business alone will be dealt with at the special war session, it was indicated by a motion of the Prime Minister ation of private bills.

Prime Minister Mackenzie King was expected to lead off the debate on the address in reply to the Speech from the Throne with a declaration of the government's intentions and an outline of government legislation to be introduced.

The part Canada shall play in the war situation will be fully debated, it is believed. Conservative leader Manion, J. S. Woodsworth, leader of Co-operative Commonwealth Federation, and John Blackmore, Social Credit Leader, will probably speak following Mr. Mackenzie King.

RELAX WHILE YOU SAVE WITH THIS CRANE AUTOCOAL STOKER

Free yourself from frequent furnace tending—and save money at the same time! A Crane Autocoal Stoker keeps you out of the basement and in your easy chair. It gives you bigger fuel savings because it uses low-cost stoker coal and burns it more efficiently. It gives you the joy and comfort of healthful, thermostat-controlled heat. See your Heating Contractor, or write us about Crane Stoker-Fired Boilers — make your home happier this winter: Don't delay.

## GERMAN SUBMARINE STRENGTH

Since war has broken out there has been some anxiety among many people as to the strength of the German submarine service in comparison to that of the Great War. According to the last official reports compiled by the Navy Department at Washington, D.C., and which is complete up to July first state that the Reich at that time had fifty submarines totalling 19,709 tons built and twenty-one others building totalling 11,578 tons. It is widely believed, however, that since that information was received Germany has completed all, or most, of the twenty-one subs then building, has at least sixty to seventy-five ships in the water and probably has laid down twenty to forty more.

Earlier in the year Germany announced she intended to build submarine parity with Britain, which meant at the time of announcement that she intended to add at least 44,622 tons of submarines to the seventy-one ships totalling 31,382 tons then building, a numerical increase of perhaps forty-four ships.

Most of the German submarines are small—none, so far as is known exceeds 740 tons—with six torpedo tubes, but these are as large as any, or even larger than, many of the World War boats, which sank about 5,500 ships of the Allies.

Thirty of Germany's listed seventy-one subs are 250-ton vessels designed chiefly for coastal work and Baltic duty but capable of effective North Sea operations and with range enough to reach beyond the English Channel. Twenty-one subs displace between 500 and 517 tons and eight are 740-ton ships. The tonnage of the others is unknown.

The 250-ton "minnow" has a reported cruising radius of about 1,200 miles while the 500-ton U-boats can range 3,000 miles without refueling. In recent years Germany has been experimenting with an improved submarine engine which would increase the effectiveness of the vessels. On the other hand, the British navy has developed an improved submarine detection device.

During the World War Germany never had more than 140 submarines in commission at one time although the effectiveness of her submarine campaign, which reached its peak in the early months of 1917, when a surface ship was sunk every four and a half hours, almost brought about the defeat of Great Britain. Germany entered the war with twenty-eight U-boats and laid down during the war more than 800, less than half of which were ever completed or placed in commission.

She lost from 178 to 200 by sinking and surrendered 188 to the Allies at the Armistice. She maintained at sea no more than twenty to fifty submarines at one time. Today, at the beginning of the second World War, it is estimated that fifteen to twenty German U-boats are ranging the high seas. The next few weeks will show whether or not the detection devices and the convoy system of the British Navy will be sufficiently effective to deal with this very grave menace.

## CANADA IS PREPARED

"Canada is prepared to unite in a national effort to defend to the utmost liberties and institutions which are a common heritage." In these solemn words the Governor General on Thursday in his Speech from the Throne sums up the determination of the Canadian people to defend not only themselves but to give their whole-hearted help to Great Britain. Parliament has been called to provide the most effective way of carrying out plans for the organizing of her own war machine and to co-operate with the British Government. As a prelude to this Parliament will likely declare Canada in a state of war with Germany and thus range herself along with the other Dominions who have made earlier statements of the same kind.

It has been thought by many that on account of the neutrality law of the United States it would be better for Canada not to make an official declaration of war and so provide a means of circumventing this law and permit the importation of war material from the States to be used by herself and Great Britain at the Front. Aside from the ethical considerations it is not likely that this plan would be successful. One of the clauses of the Neutrality Law states that war material cannot be purchased by one country not officially at war for shipment later to another country that is. However, if the United States sticks to her present position there will be a large movement of United States manufacturers of war materials to Canada to set up factories here which would be a great benefit to Canadian labor and producers of raw material.

Nothing less than complete co-operation with the Old Country will satisfy the people of this country or constitute an adequate response to King George's appeal last Sunday when he said, "For the sake of all we hold dear, and the world order and peace it is unthinkable that we should refuse to meet the challenge. It is to this high purpose that I now call my people at home and my people across the seas who will make our cause their own. I ask them to stand calm and firm and united in this time of trial."

Canada will stand "calm and united" and there will be no faltering at the task that is before her.

ANOTHER "MAN WITHOUT A COUNTRY" is shuttling back and forth across the ocean with no place to call home sweet home, except where he is permitted to hang his hat for the time being. His name is Haim Flukman and he has just been again denied admittance to the United States at Miami, Florida. He was placed aboard the steamship Florida and will be debarked at Havana where his family is living. Flukman is a Russian born Jew, 47 years old, deported from Cuba and denied admission to the United States. He has had five trips between Cuba and Florida and is still going strong. In 1933 he was one of seventeen aliens apprehended in the Florida Keys after being smuggled from Cuba. He served a brief sentence for illegal entry and was ordered deported. Flukman lost his status as a Russian when he entered Cuba in 1923 and became a permanent resident there. After serving his sentence for illegal entry in the United States Cuba refused to re-admit Flukman — and now he is a man without a country.

x x x

ATIKOKAN, ONTARIO, MAY BECOME A GREAT CITY, if the visions of its less than four hundred inhabitants come true. Atikokan bases its dreams of greatness upon deposits of iron nearby, and the prediction of a British mining paper that Atikokan may become "one of the important cities of the Dominion" because of these iron deposits. The Mining World and Engineering Record of London, England, in a two-column article becomes quite enthusiastic about the possibilities of Atikokan iron, but the Port Arthur News Chronicle while admitting the possibilities is of the opinion that development of Atikokan iron will benefit Port Arthur rather more than building a new city around the mines. Diamond drilling carried on over a period of two years has given results that convinces the English paper that the possibilities are promising, and says that "the area is at least fulfilling the dreams and aspirations of the pioneers who for the past forty years have prospected and surveyed the surrounding country in their search for iron." The British publication goes into some of the cost details in an effort to estimate the profit possibilities. It says that the ore can be shipped as mined, and it also gives publicity to the claim that it is high grade enough to command a premium. Estimates are that the ore will command a price of $7 a ton delivered at Lake Erie ports and that transport charges will be around $2 a ton. All of which goes to show that the name and fame of Ontario's mineral deposits are spreading far and wide and on a substantial basis and that interest abroad in Canada's mineral riches and potentialities is increasing rather than diminishing.

MEMORIES OF THE LAST WAR CONTAIN SOME HUMOROUS TOUCHES. Brockville citizens remember the midnight air raid of their city engineered from Morristown, N.Y., across the river. Moving lights in the sky approaching Brockville from the United States roused visions of an enemy air raid and put the wind up those night hawks who happened to be gazing skyward. Someone telephoned the Mayor and the Mayor telephoned the Premier at Ottawa who at once notified the secret service department. No bombs were dropped and Brockville awoke to find the charred remains of some fire baloons smoking on the ice below the town, the remains of a joke perpetrated by some of the smart lads of the village of Morristown, N.Y., just across the river.

# LOOKING BACKWARD

## GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

### 20 YEARS AGO

**Sept. 8th., 1919**

The banquet tendered by Mr. Judson A. Gunter, Warden of the County of Hastings, to the members of the County Council, the county officials and a number of friends at the Hotel Bancroft in Bancroft was a most enjoyable affair. Speeches in reply to the usual toasts were made by Mr. E. Guss Porter, K.C., M.P., Mr. T. H. Thompson, M.P., Dr. Embury, Mr. R. J. Cook, M.P.P., Mr. John Hess, Mr. Ernest Carr, Mr. Samuel Rollins, Mr. William H. Nugent, Mr. Peter McLaren, Mr. Robert Gray, Mr. Thomas Turriff, Mr. Charles Vanderwater, Mr. J. G. Sills, Mr. H. G. Bleecker, Mr. Simeon Fox, Mr. Fraser Aylesworth, Mr. C. S. Rollins, Mr. James A. Moore, Mr. Thomas E. Laycock, Mr. Seldon Dennison, Mr. W. H. Morrison, Mr. H. Price, and Mr. W. E. Wiggins. During the evening Warden Gunter was presented with a gold headed cane by the members of the council and officials as a slight token of their esteem. Vocal selections were rendered by Miss Duquette, Mr. Charles E. Ballard, and Mr. Grant Jones added greatly to the enjoyment of the evening. The caterer, Mrs. Kennedy, was highly complimented upon the excellent spread prepared and served to the guests. Mr. W. E. Detlor on behalf of Mrs. Kennedy thanked the guests for their expressions of appreciation.

### 30 YEARS AGO

**Sept. 8th., 1909**

Mr. H. G. MacDiarmid is spending a few days in Montreal.

Mr. D. M Green, left this morning on the steamer Belleville, for Montreal.

The Rev. Dr. Abbott Smith, who has been acting Rector of Christ Church during the absence of the Rev. R. C. Blagrave, left today for his home in Montreal. Prior to his departure he was presented with a gold headed ebony cane and a silk umbrella by the members of the congregation.

Mr. Walter Newton, who has been home on a visit to his parents, Mr. and Mrs. John Newton, Ann Street, left today for his home in Toronto, where he is engaged with a construction company.

### 40 YEARS AGO

**Sept. 8th., 1899**

Mr. Wilfrid Shore of Toronto, is visiting friends here.

Mr. J. D. Colling of York, Nebraska, is visiting friends in the city.

Mr. W. H. Biggar and family have returned home from Murray Bay where they spent the summer.

Messrs. Morton Covert and John Covert have returned to their homes in Rochester, N.Y. after visiting relatives here.

Mr. W. G. Huff of the John Lewis Hardware Store, is visiting the exhibition in Toronto.

Mr. and Mrs. Charles Wallis, Moira street, have left on a visit to their son, Mr. Harry Wallis at Niagara Falls.

Mr. James Booth left today to spend a short time in Brooklyn, N.Y.

There is an abundant supply of water in the well at the corner of George and Dundas Streets, but the residents in that locality are unable to get water as the pump is out of order and has been for some time.

Mr. Jacob Finkle has returned home after a visit to Toronto.

### 50 YEARS AGO

**Sept. 8th., 1889**

Yesterday afternoon a friendly game of baseball was played at the Agricultural Park between teams captained by Ex-Mayor Biggar and Ald. Forin. It was announced that an admission fee of ten cents would be charged and the proceeds donated to the hospital fund, but unfortunately this arrangement was not carried out as there was no one on hand to collect the money at the gate. A number of ladies was present and took considerable interest in the game. The following composed the teams— Biggar Team—Messrs. P. J. M. Anderson, H. S. Hostage, F. Lewis, A. Roberts, S. Hostage, F. Lewis, A. Roberts, W. H. Biggar, and J. Fleming. Forin Team—T. Ritchie, J. Sherry, J. Walker, S. D. Lazier, G. Lazier, G. Thrasher, G. Biggar, W. H. Campbell, J. Forin and J. Thompson. The final score was 12 to 8 in favor of the Biggar team. Mr. J. Walker made one of the longest hits of the game, but Mr. H. P. Thomas in centre field, made an excellent catch of it. Mr. Campbell made a beautiful stop at third base and was warmly applauded. Mr. Sherry covered himself with glory in capturing what was thought to be a home drive by Mr. F. Lewis. He was compelled to doff his cap in response to the hearty applause from the persons on the grand stand. Mr. A. Roberts played well his position at short stop and his running to bases was much admired. Mr. S. D. Lazier is a first class coacher and also an adept player.

## *Letter to the Editor*

"Belleville, Ont.
"Sept. 7th., 1939.

"Editor, Ontario Intelligencer,
"Dear Editor,

"The newspapers have given us lately a day-by-day report of the various actions fought on land and sea by the Allies. It seems to me however that they do not lay sufficient stress on certain essential characteristics of the present war. With your permission I would like to point these out.

Hitler has committed two outstanding blunders. He is wasting his time in Poland and leaving the main front line (Siegfried) at the mercy of the Allies.

He is wasting his time in Poland because he is attempting to conquer that country before he knows whether he will be allowed to keep his conquest. If he wanted Poland as badly as all that, he should have invaded the country before she had any notification of her impending doom. He could then have turned to face England and France with some reasonable hope of withstanding them.

Instead of that, he waited until everybody was ready for him, with the result that, although the ultimate occupation of Poland is a mathematical certainty, yet the Poles are in a position to oppose real resistance and delay the fateful hour. This resistance makes no real difference to Poland who is destined sooner or later to be completely absorbed and to regain her complete freedom when Germany is finally beaten flat.

But it makes one hell of a difference to Hitler, because the longer he is kept muddling through his Eastern front the longer it will be before he can turn his attention elsewhere and the farther will the Allies have penetrated into Germany.

His second egregious blunder was, either to overestimate the strength of his Siegfried line or to underestimate the calm determination of the French or the singleness of purpose of the British.

It is permissible to believe that having blackmailed England into signing the infamous pact of Munich, Hitler may have concluded that Britain and France stood for peace at any cost and would keep on paying fancy prices for that commodity.

The Germans are a curious fatheaded people, always ready to underrate their opponents.

In 1914, they thought the Belgians would be struck dumb with fear at their sight. This little mistake cost them 114,000 men killed outright when General Leman blew up the forts of Liege, to say nothing of the tens of thousands who drowned like rats when an old lock-keeper opened the dykes.

The British army, they termed then "Contemptibles". They had to change their tune later on, though but by that time it was too late and the war was lost.

Hitler is now in the same predicament. Eighty per cent. of his great army is stuck in Poland. If the Germans don't hurry up they will be literally stuck in the Polish mud and swamps. The final outcome of that struggle is not doubtful, as I have mentioned before.

What will Hitler do then? By that time it is more than likely that the "impregnable" Siegfried line will be submerged by the steady flow of Allied soldiers pouring in on all sides, slowly relentlessly, a foot at a time, consolidating themselves as they advance all over a 250 mile front.

After breaking his storm-troops against this living wall, Hitler's only resource left is to get behind the enemy.

His only way lies through Switzerland or through Belgium. To anybody who has travelled in the former it is unthinkable that any but an ass would try to break through a country made up mostly of mountain passes where one machine-gunner could easily keep a whole army in check.

Belgium is the only alternative. But we are in 1914 no longer. This little land of heroes won't be caught napping.

And now we hear that when Poland has been subdued Hitler proposes to make Britain acquainted with his minimum demands in the way of colonies and arms limitations. I guess, over the racket of gunfire the whole of Germany must have rung with the roar of laughter which followed this histrionic gesture.

I do hope they have a sense of humour at Whitehall and that when Hitler sends this new proof of his peaceful intentions, they will answer him in kind.

If I was allowed to do so I would send him the following letter:

"To Herr Ad. Hitler
Leader of the German Retreat
40 miles behind the lines
Somewhere in Germany.
Dear Sir—

Your esteemed of—— to hand, we beg to advise you that in the matter of German colonies, we have had most diligent inquiries made but that, so far, we have been quite unable to unearth any.

Considering that you might have been alluding to Germany's former colonies, we have been at pains to take the feeling of negroes affected. We are sorry to say that, as soon as our meaning had been made clear to them a look of hopeless misery and terror overspread their cheerful countenances and that we could only minimize their consternation by reminding them that, if the worst came to the worse, they could always escape through the gates of death. At those words, they recovered partially and from later reports it appears that the witch doctors have cornered the market of Kasora leaves and other vegetable poisons used in these parts.

As you cannot think that we would willingly part with any of our Dominions, even if we were free to do so we are leaving this matter in abeyance pending further enquiries.

We are happy to say that the second item mentioned in your letter has received our earnest consideration. I refer to you proposal for armament limitations.

In the natural course of events you will soon be suing for an armistice, a preliminary to which will of course be the disbanding of your army so that you will have achieved a proper limitation of youf land forces.

With regards to your navy, I may say that the whole French and British naval and air forces have been hunting for it, armed with microscopes. So far, however, they have only come across a couple of pocket battleships which fell to our guns without hardly firing a shot, so that we are satisfied that it is kept at a proper size and that her crews are animated with a commendable prudence.

As for your air force, the question hardly arises. One of the clauses of the aforementioned armistice will provide for the military occupation of Germany by our armies and if, at any time we find your air fleet getting too big it will be a simple matter to curtail your activities in that direction.

Yours, etc.,
T. MEEUS

### ALGOMA BLUEBERRIES

Have you been sampling Algoma blueberry pie lately?

If you have been doing so, you have been enjoying one of the rare delights which this season and this district has to offer.

It is true other portions of our fair Dominion grow blueberries. And good blueberries. But Algoma inclines to the view that its berries, which have been a factor in history since Champlain first mentioned them, have a special quality of their own which sets them apart and at the head of the list.

And when you add to that the efficiency of Algoma cooks, what more could the gourmet ask?—Sault Ste. Marie Star.

### NEAR AND FAR

It is indeed true that the auto brings the far places near. But it seems that our fondness for the old bus threatens to make the near things far away. There are so many places we must go, so many places we want to go and so many places that we just go to whether we want to or not, that the car motor doesn't get a chance to cool off between trips. We really have not the time to be neighborly. If you must see your neighbor and you cannot reach him by telephone you nail him by making a flying tackle as he leaps from his porch to the running board of his car.—Stratford Beacon Herald.

### KIPLING'S SIGNATURE

It once happened that the omnibus belonging to a certain hotel careened into Rudyard Kipling's garden destroying one of his most beautiful trees. After the occurrence of the accident he naturally expected to receive some reparation from the proprietor of the hotel. But time passed by without the slightest sign of recognition of the affair on the latter's part. The poet wrote him a letter, but received no answer. He wrote a second, and a third, but to no avail. By this time Kipling decided to adopt more decisive measures. He would call on the man in person. Respectfully, even reverently, the hotelman listened to his distinguished visitor's reproaches, and finally vouchsafed the following excuse for his tardiness.

"You see, Mr. Kipling", he explained "one of the guests at my hotel gave me twenty-five dollars for your first letter and I sold the other two for ten dollars apiece . . . If only you had written me two more letters, I should have found it easy to pay the costs of the damages".

### THE TINKER'S DAM

A fellow worker of mine—to wit, a plumber, for plumbers and journalists have much in common—has written to correct a technical error in something I wrote and has thereby brought me information that I previously lacked. He says that when I used the expression, "not worth a tinker's damn", I was wrong. Indeed I have often wondered why a tinker's curses should be more useless than those of others.

The real fact is that when a plumber, in pursuit of his mysteries, desires to flood a certain place with a coat of solder he erects a wall of dough, or clay, around it and then pours his metal. The material in the wall then being of no further use it is thrown away. Thus we have "as useless as a tinker's dam"—not damn.

Another popular saying whose origin eluded me till recently is that one about "getting his goat." It appears that it was once the custom to keep a goat in stables to soothe the horses. The owner of a race horse expected to win the Metropolitan Handicap raged into a New York bar on the evening of the race, shouting, "they got my goat, they got my goat!" They had indeed stolen the goat and the horse pined, became restive, and lost the race.—J. Ben Vancouver Province.

### TOWERING HIMALAYAS

The call of the Himalayas is not to one country only: to mankind's knowledge Germans, Swiss, French, Italians and Americans have contributed as well as British climbers. The first Polish expedition to come to India is now reported to have ascended the eastern peak of Nanda Devi.

Towering 25,645 ft. with its twin peaks 60 miles from Ranikhet, Nanda Devi is the highest mountain entirely within the British Empire and its fame among the ancient Hindus shows the spell it has long cast on the human imagination. This colossal mass of rock stands in solitary majesty at the centre of a basin ringed for 70 miles by great peaks, 12 of which are over 21,000 ft high and which never sink below 17,000 ft. save where the Rishi Ganga forces its way through to join the Ganges.

Up to 1934 this "inner sanctuary" had not even been trodden by human beings, but in that year Mr. Shipton and Mr. Tilman made a perilous journey through the terrific gorge, and two years later an Anglo-American party under Professor Graham Brown achieved the first conquest of Nanda Devi. The mountain is technically difficult owing to the terrific gradient of its slopes.—Indian Press Union.

### USEFUL CORN

Some time ago Henry Ford was asked what he would do if he had a wheat surplus. His reply was that he would set a half dozen chemists to work to find out what could be done with wheat other than making flour. So far as is known, this investigation has yet to be undertaken, but if the experience of manufacturers of, say, pulp, who have found many new markets for their products, is any criterion the list of new uses might well be quite lengthy.

In the case of corn, too, a wide range of utility has been devised. Here is a list of the items in which it can play a part, very different from the usual feeding functions with which it is associated: Soap, salad oils, cooking oils, yeast, edible starch, textiles, paper, laundry chemicals, adhesives, dusting powder, explosives, baking powder, cough syrup, wines, vinegar, soft drinks, brewing, calico printing, foundry work, colours, fireworks, confectionery, table syrup, corn sugar, molasses, canned food, ice cream, bread, cake frosting, chewing gum, chewing tobacco, twine, jams and jellies, leather and rayon.

If the day should ever come when corn is ousted as feed, the great agricultural countries like Canada will thus have much upon which they can rely. This country produces more than twelve million bushels of corn annually, and imports an additional eight million bushels.—Kitchener Record.

### SASKATOON BERRY

Some day someone may decide to make the Saskatoon berry a good commercial fruit. Make it larger, a trifle more juicy, but retain the special flavor of the luscious wild berry, and it soon would prove a favorite of those who love fruit pies.

The blueberry still is chiefly a wild fruit but has been improved under cultivation. The cultivated blueberry is from two to four times as large as its wild cousin. It has thinner skins and its seeds are less noticeable.—Edmonton Journal.

### YOURS TRULY

In the recently published correspondence between Father Divine and one of the President's secretaries concerning the former's prospective purchase of the Vanderbilt estate near Hyde Park, the most interesting part comes right at the end. It closes as follows—

"With best wishes for your success and all your good endeavours that you and all who are concerned may be as I am, this leaves me well, healthy, joyful, peaceful, lively, loving, successful, prosperous and happy in spirit, body and mind and in every organ, muscle, sinew, joint, limb, vein and bone and even in every atom fibre and cell of my bodily form. Respectfully and sincerely, I am, Rev. M. J. Divine (better known as Father Divine)."

Here is something new in the art of winding up a letter. George Washington used to sign his "Your obedient servant" — certainly a cold fiction from one who never even obeyed Congress if he could help it. John Smith customarily ends his with "Yours truly"—an equally impersonal phrase.—Washington Star.

### SUMMER KISSES

The softening effect Italy is having on its axis partner, Germany, appeared recently in Adolf Hitler's Beobachter, headed Kisses in the Summertime:

"In order to achieve success in kissing, the man must observe the following rules: Leave at least one of the woman's nostrils free because she must breathe. Pencils and fountain pens should be removed beforehand from the breast pockets. Alcohol has a bad taste. Take off the hat because it will fall off in any case. Do not ask whether you may kiss her, because any decent girl would naturally answer no.

"For women: Be sure that your lips feel soft. Leave hairpins, bosom brooches, heavy or knitted clothing, jewellery that scratches and non-kissproof lipstick at home. Do not expect every kiss to presage matrimony; otherwise you will miss all the fun. Do not try to be a Garbo, but comb your hair so that the man will not have trouble afterward in removing it from his coat."—Life Magazine.

### GREAT SNAKES ALIVE

This is the rainy season in India, when the monsoon brings dark clouds and heavy rain good for the crops. One of the problems that confront pople in rural Bengal is the danger from snakes. During this period snake-bite cases are of common occurrence, particularly in the eastern and northern districts of the province. Floods wash out the snakes' holes in jungles and gardens and the reptiles then take shelter in human habitations, particularly in cowsheds and kitchens. Instances are not rare of a housewife putting her hand into a cooking utensil and being bitten by a cobra lurking there without her knowledge.

During the season there is a great demand in the villages for the services of Badias (a nomad tribe) who are popularly believed to be able to cure snake bites by the recital of mantras (verses) and the use of charms. They move about in country-boats from village to village and calls on them are constant.—Indian Press Union.

### HABIT OF NOISE

City people who dash off to the country for peace and quiet—and this is not going to be one of those treatises on ants—frequently find that they are beset by a series of noises that nudge more harshly into slumber than the symphony of a city.

Nature really inspires that sort of thing. Those organized enemies of sleep like croaking frogs, the metal singing crickets and whooping whippoorwills, seem to lie in wait for the urban trespasser. And that early crowing from the barnyard is certainly one up on the factory whistles in town. In fact the county gets an added effect in these predatory assaults on sleep by providing periods of such silence as to be noisy in themselves. You can even hear them.

We are creatures of habit, even in noise. The last dying drone of city traffic is one of the best preludes to sleep we know of, and even those grinding whines from nighthawk automobiles have a comforting familiarity that, even if we hear them, do not bother us. As for the tooting of whistles, they fall on an incredibly large number of deaf ears. All of which may be a flimsy defence of the city, but it still stands for the frogs, crickets and such.

Familiar noise is not bad noise. Unfamiliar noise is terrible.—Hamilton Spectator.

### TOAD'S JOURNEY

It undoubtedly would interest automobile tourists to learn which route Teddy the toad prefers in his homeward journey from Oakland, Calif., to Harvard, Mass.

Teddy's owner, who attributes homing instincts to all toads, avers his pet heretofore has hopped home from Chicago, Dallas and points in New England. On his way across the Rockies will he take the desert highway, hit the Overland Trail, or bounce up through the Redwoods and home via the northern route? Each has its partisans among transcontinental motorists.

Teddy was a year jumping home from Dallas, his owner relates. A correspondent therefore suggests that before leaving California he should be taken to Calaveras county, where Mark Twain's celebrated jumping frog "who could get over more ground at one straddle than any animal of his breed you ever see," was trained. — Christian Science Monitor.

# USE NEW DEVICE FOR AIR SAFETY

LONDON, Sept. 8.—(CP)—A device designed to prevent or put out fire in the engine of an aircraft has been adopted by the Air Ministry and is being made standard equipment on Royal Air Force machines. It is known as the Graviner equipment, and was invented by Capt. H. M. Salmond, a retired officer of the Royal Indian Marine.

Briefly, a copper bottle of the fire-extinguishing medium methyl-bromide is mounted near the engine and is connected by pipes to those parts, such as the carburetor, where fire sometimes occurs. There are four switches, any one of which will release the liquid, which immediately vaporizes. One switch can be operated by the pilot. A second switch, consisting of a pendulum held in position by a spring, will release the methyl-bromide in the event of a head-on crash.

A third switch is worked by gravity and operates if the machine turns over after landing. This switch can be put out of action if the pilot is going to perform aerobatics.

The fourth switch is a flame detector, and if fire breaks out, the flame or heat will burn up a piece of celluloid in the switch and bring the extinguisher into action.

It is not claimed that the Graviner apparatus will give 100 per cent safety against fire, but at least it should be a safeguard against the more usual causes of outbreak.

# Fuller Information Concerning War Asked Of Parliament

London, Sept. 8.—(CP)—Both in the Houses of Lords and Commons Labor leaders asked that quicker and fuller information be given concerning the war.

Lord Snell said "it is undoubtedly true that we can get more information from America than we can get here and that is something we ought not to continue to let happen."

In the Commons the Acting Labor Leader, Arthur Greenwood, asked that Prime Minister Chamberlain in the future "unbosom himself to the full to us and the county and, whether the news be good or bad, tell the country early."

Mr. Chamberlain replied —"We do not want to keep the public in the dark. On the other hand we do not want to give it inaccurate information. Very often it is not possible immediately to be certain what the facts are."

## Schoharie

Schoharie—Mrs. Lewis Cleave and Miss Rose Walters were dinner guests of Mr. and Mrs. H. Mitchell of Belleville, on Thursday and tea-hour guests of Mrs. Etta Weese.

Mrs. Charles Leavitt and son, Wendal, returned home on Friday after spending the past month with her brother, Mr. W. Bartman and family near Bancroft.

Messrs. Arthur and Allan Baxter attended the Toronto Exhibition a couple of days last week.

Mr. and Mrs. W. A. Benson of Elmbrooke were Sunday guests of Mr. John Benson and Mrs. Mildred Benson.

Mr. and Mrs. Geo. Hobson enjoyed a trip to Ottawa and other points in Eastern Ontario last week returning on Friday evening. Mr. and Mrs. Angus Walters of Bloomfield accompanied them.

Miss Rose Walters spent Friday in Toronto and attended the Exhibition.

Mr. Sherman Leavitt of Saskatoon, who was spending the week-end with his uncle, Mr. H. E. Leavitt of Bloomfield, called on friends in this neighborhood on Monday.

Mr. Homer Walters left on Monday for Cherry Valley, where he will teach in School Section No. 4, Athol, for the coming year.

Mrs. Earl Pearsall and Reta were troit, were guests of the former's sister, Mrs. Ben Payne and Mr. Payne on Wednesday.

Mrs. Earle Pearsall and Reta were guests of Mrs. Harold Walters and Rose on Wednesday afternoon.

# White Paper Tabled In House of Commons By Premier King

Ottawa, Sept. 8—(CP)— Correspondence leading up to the outbreak of war was laid before members of parliament Thursday in a White Paper tabled in the House of Commons by Prime Minister Mackenzie King.

All of it had already been made public and the bulk of it was reprinted from a British government White Paper tabled in the British House September first. The paper placed before members in compact and official form the communications exchanged in connection with the futile effort to bring about negotiations for a peaceful solution of the German-Polish dispute.

The only Canadian documents in it were Mr. Mackenzie King's urging a peaceful settlement and their replies. These were made public at the time of the exchange.

In addition to the document taken from the British White Paper the members were supplied with copies of the British Goverment's message to Germany asking cessation of hostilities and withdrawal of troops from Polish territory, the British ultimatum demanding assurance these measures would be taken by noon last Sunday and the German reply placing the blame for starting the war on Great Britain.

Texts of these documents were made public in London subsequent to the printing of the British White Paper.

The Canadian White Paper reprints Germany's 16-point plan for settling the dispute with Poland as contained in a communication to the British government.

With it was reprinted the explanatory note from the British White Paper stating Poland had accepted the proposals as a basis of negotiation but the Polish Ambassador was not received by the German Foreign Minister until the evening of August 31, and immediately after the interview all communication between Poland and Germany was cut off by the German government.

## Allan Mills

Allan's Mills—Mr. and Mrs. P. Bateman, Edna, Ruth and Donna visited Mrs. F. Fenn in Springbrook on Sunday.

Mr. and Mrs. W. J. Barlow spent the week-end in Toronto visiting friends and attended the Exhibition.

Mr. and Mrs. Jeffery were Sunday visitors of Mr. and Mrs. L. Mumby.

Mr. and Mrs. Richmond of Toronto, spent the week-end with friends in Madoc.

Miss McDermid of Martintown and Miss Phelan of Port Rowan have returned to Madoc.

Mr. and Mrs. C. Hill of Toronto were visitors in Madoc over the holiday.

## Stirling

Stirling—On Friday evening, Sept. 1st at the home of Mr. and Mrs. Harper Rollins, Mill St., Stirling, a group of friends gathered in honour of Miss Eva Brown, former secretary of the local branch of the Ontario Department of Agriculture who recently resigned her position and on Wednesday became the bride of Mr. Howard Gordon Morrow, son of Mr. and Mrs. Earl A. Morrow, Stirling.

The event was in the form of a surprise party and miscellaneous shower and the guest of honor was the recipient of many lovely and useful gifts. The program for the evening was arranged under the direction of Mrs. H. Rollins, Mrs. H. L. Fair and Miss Pearl Belshaw. As a means of entertainment the evening's interesting contests were directed by the hostesses. Musical numbers were offered with Mrs. Morrow at the piano and several of the ladies offered impromptu numbers such as vocal solos etc. At the close of the fine program several of those present assisted in preparing and serving a dainty luncheon.

Mr. and Mrs. Arnold McCutcheon are spending a few days visiting at the home of the former's mother, Mrs. McCutcheon, Mill St.

Mr. and Mrs. Harold Alley, James, George and Russell have returned to their home in Depew, N. Y. after spending their vacation at the home of the former's mother, Mrs. J. Bird, Church St.

Mr. and Mrs. Alex Martin spent the week end in Niagara Falls visiting at the home of the former's daughter, Mrs. Earl Latta.

Mr. John Munro of Norwood, student at the Guelph Agriculture College and former resident of Stirling is assisting Mr. H. L. Fair local representative of the Ontario Department of Agriculture, in the direction of the annual school fairs throughout the County of Hastings.

Mr. and Mrs. Ernie Munro, Joan and Erna of Norwood, were week end visitors with relatives and friends in Stirling.

Mr. and Mrs. A. E. Dobbie, Isobel and Barbara of Smith's Falls, were visitors in Stirling. Mr. Dobbie was formerly editor of the Stirling News Argus and well known throughout the district.

Mr. and Mrs. Bern Bush of Murray spent the holiday visiting at the home of Mr. and Mrs. Arthur Hulin, Church St.

Mr. Harold Baker of Napanee, Ontario, spent the holiday week end visiting at his home in Stirling.

Miss Olive Davidson is spending a couple of weeks visiting Canadian National Exhibition, Toronto and Hamilton, Ont.

Mr. Roy Juby of the Bank of Montreal staff began his vacation on Saturday last and spent the weekend visiting in Toronto, Hamilton and Niagara Falls.

Mr. and Mrs. R. A. Patterson, Douglas and Tommy spent the week end visiting friends in Toronto and Hamilton.

Mr. Ernie Cain was among the Canadian National Exhibition visitors from Stirling during the week end.

Recent guests at the home of Mr. and Mrs. H. E. Hulin were Mr. and Mrs. Louis, Mr. and Mrs. J. W. Hulin, Mr. and Mrs. Chas. Conley, Mrs. Hawthorne and Stanley all of Madoc, Mr. and Mrs. Henry Scarlett of Trenton.

Mrs. Scrutton and daughter, Miss Gwen Scrutton of Madoc, spent a day recently visiting the former's aunt, Miss Sarah Knox.

Mr. W. J. Dillon, Mrs. John Leonard of Buffalo, N.Y. Mrs. Smith and son of St. Catharines, Ontario, were holiday guests at the home of Mr. and Mrs. James Lagrow.

Miss Marie Kelly spent the holiday week end visiting at the home of her uncle, Mr. P. W. Long and Mrs. Long.

Among the holiday guests at the Stirling Hotel was Mr. Chas. Keltz of Toronto.

Mr. and Mrs. Wm. Simmons of Frankford were Sunday guests at the home of Mrs. Robt. Christie, Stirling.

Rev. W. H. V. Walker and family have returned to Stirling after spending their vacation period at Port Hope and Bethany, Ontario.

Mr. Don McCallum of Toronto was a week end guest of Mr. and Mrs. Joseph Whitehead.

# Personals

Mrs. William Wright of Dallas, Texas, is the guest of Mr. and Mrs. G. A. Morton.

Mr. and Mrs. Tom Lynch and Miss Mary Webster, V.O.N., are spending a week at the World's Fair, New York City.

Miss Viola Kimberley of St. Catharines is visiting relatives in Belleville.

Mrs. Don McIntosh and Mrs. Annie Dack have returned home after spending the vacation in Watertown and Ottawa.

Miss Eileen B. Demille and friends of Belleville have returned home after spending a few days in Toronto and the C.N.E.

A number of friends and neighbors gathered at the home of Mr. Wallace Bell, 32 Strachan Street, giving a surprise card party in honor of his birthday. An enjoyable evening was spent.

Mr. and Mrs. John Curry of Rochester, spent the week-end with Mr. and Mrs. David Curry, Stone Street.

Magistrate and Mrs. E. J. Butler and family have returned after a motor trip through the eastern States.

Mr. and Mrs. Roy McLean of London, Ontario, have been visiting at the home of Mrs. McLean's mother, Mrs. H. Sager, South Front Street.

Mr. and Mrs. Pete Morgan of Coniston, are the guests of Mrs. Morgan's parents, Mr. and Mrs. R. Croft, Bleecker Avenue.

Tea hostesses at the Ladies' Lawn Bowling Club yesterday afternoon were Mrs. C. Argue, Mrs. Frank Whittle and Mrs. Clarence Clapp. Members of the winning rink were Mrs. J. Legault, Mrs. Sandercock and Mrs. Robson.

Mrs. B. J. Black, 15 Alexander Street, entertained at a charmingly arranged trousseau tea yesterday afternoon in honor of her daughter, Miss Bernadette Black, bride-to-be. The door was opened to the many guests by little Miss Mary Black. The rooms were most attractive with a profusion of Autumn flowers. Miss Betty Corrigan and Miss Mary McAvoy showed the trousseau to the guests. The tea table was daintily arranged with a lace cloth and centrepiece of rose and white asters and matching tapers. Mrs. J. Shea and Mrs. F. Fitzpatrick poured tea and those who assisted in serving were Mrs. Murray Black, Mrs. A. J. Black and Mrs. T. J. Black.

### HOLLOWAY ST. W.M.S.

The regular meeting of the Woman's Missionary Society of Holloway Street United Church was held in the church parlours on Wednesday, September 6th., with the President, Mrs. James Cordes, in the chair and Mrs. Hubbs at the piano.

The meeting opened with the hymn "All the Way, My Saviour leads me", followed with the Lord's Prayer in unison.

Mrs. S. P. Hagerman, acting secretary, then read the minutes of the last meeting. These were approved. The various secretaries gave satisfactory reports and a new member for the Baby Band was enrolled. Mrs. Cordes then reminded the ladies of the bale to be packed and business in general was discussed after which Mrs. Denton and Group 8, took charge of the remainder of the meeting.

This opened with the hymn "The Heavens declared Thy Glory, Lord", with the Scripture lesson taken from Exodus 15, 1-18. A solo "Sunrise Tomorrow" was then splendidly rendered by Mrs. John Livesay.

Mrs. J. Sweetnam, the speaker for the afternoon gave a most inspiring Bible talk taken from the Book of Amos. Mrs. Sweetnam pointed out during her discourse how much we lived in a day so like that in which Amos lived. She stressed particularly the point that God is the God of Nature, the righteous God and the God of all the earth. A feeling of deep gratitude was expressed to Mrs. Sweetnam by Mrs. Denton on behalf of the ladies for her splendid message.

The offering was then taken by Mrs. McMurray and Mrs. Beal. The hymn "Almighty Father Who dost give" was sung with Mrs. Denton pronouncing the benediction, after which refreshments were served and a social time enjoyed by all.

### MACARONI WITH LEFT-OVER MEAT

10 ozs. macaroni or Ready Cuts
1 1-2 cups left-over meat
3 cups gravy
1-2 onion, chopped
1 tablespoonful melted butter
1-2 teaspoon salt
1-2 teaspoonful pepper
1 cup grated cheese
Buttered bread crumbs

Parboil the macaroni for 7 minutes in 4 quarts rapidly boiling water to which 1 tablespoonful salt has been added. Drain. Mix together the meat, chopped, the gravy, onion, butter, salt, pepper and cheese. Combine well with the macaroni and pour into a well-greased baking dish. Cover with the crumbs and bake for 20 minutes. Spaghetti may be substituted for the macaroni.

## Point Anne

Point Anne, Sept. 8—Point Anne public school opened on Tuesday morning with all teachers in their hespectiev places, Principal H. O. Walkom, Misses Ena Kerr, Maude Burke and Mildred Bonter. All signs point to a happy successful school term.

Mr. and Mrs. Frank Insley spent the week end in Trenton with Mrs. Insley's mother, Mrs. P. K. Butland.

Mr. and Mrs. W. Akey and son Dengal and Mr. and Mrs. Charlie Fox and Bernard attended the camp meeting at Ivanhoe on Sunday.

Mr. Eric Groom of Toronto, spent the week end at the home of Mr. and Mrs. Geo. Swenor. Mrs. Groom and Joan returned home with him after spending the summer here.

Miss Ellen Binshaw entertained a few friends at a delightful party on Monday evening. In spite of the rain all spent an enjoyable evening.

Mr. and Mrs. E. J. Dopking and granddaughter Vera Arney and Mr. and Mrs. Arthur Dopking of Trenton spent the tea hour on Sunday with Mrs. Edith Wilson and sons.

Mr. and Mrs. W. R. Juby, Mr. and Mrs. Geo. Jenkinson and Mrs. J Loft, attended the camp meeting at Ivanhoe on Sunday.

Miss Edith Insley has returned home after visiting Mr. and Mrs. Ernest Jose of Massassaga for some weeks.

Mr. and Mrs. Joseph Doxtator of Belleville spent Monday evening with Mr. and Mrs. Percy Akey.

Miss Jennie Hill left on Monday for Weslemkoon where she is engaged to teach this coming term.

Mr. and Mrs. L. E. Bradshaw and children visited her parents Mr. and Mrs. Percy Akey on Monday and left for their home in Cobourg on Monday evening. Mr. and Mrs. Bradshaw also visited his mother Mrs. E. Bradshaw, Front Road, on Sunday.

Mrs. Jack Rosevear of Toronto, is spending a few days at the home of her parents, Mr. and Mrs. Dan MacDonald.

### HOME BUILDERS

The male birds of a good many species have a passion for nest-making. The wren is the standard example. He will build a "cock nest" within three days, and repeat the process several times.

The brush turkey of Australia, most successfully transplanted to Whipsnade, is not only the sole nest-builder, for the hen confines herself to laying eggs in the early layers of the heap; he will go on scratching up leaves into the heap for months longer than the work is needed for hatching out the eggs.

An observer has completely whitewashed the male lesser spotted woodpecker; a pair has been nest-making in a treee in his paddock for the last three weeks or more, and the cock-bird, so far from idling, has done rather more than his share of the work of excavation.—London Spectator.

## Weddings

### LAZIER—DAVISON

At St. Thomas' Church, beautifully decorated with Autumn flowers, a pretty wedding took place at five-thirty o'clock this afternoon when Dorothy Ann, youngest daughter of Mr. and Mrs. J. Wilfred Davison, became the bride of Mr. Allan Evan Lazier, son of Mr. and Mrs. A. F. Lazier. Rev. G. G. Wright officiated at the ceremony.

Given in marriage by her father, the bride was charming in her floor length gown of shell pink silk net over taffeta, with shirred bodice and bolero of suede lace. She wore a small taffeta flowered toque and matching accessories and carried a shower bouquet of Briarcliffe roses and cornflowers.

Miss Betty Davison was bridesmaid and wore a floor length gown of turquoise blue net over taffeta with lace bolero, and fuchsia felt picture hat with matching accessories. Her bouquet was a sheaf of multi-colored gladioli.

Mr. Fred Lazier, brother of the groom, was groomsman and Mr. Milton Davison, brother of the bride acted as usher.

Wedding music was played by Professor W. E. Wheatley who presided at the organ.

A reception followed at the home of the bride's parents, Foster Ave. Mrs. Davison, mother of the bride, wore a street length gown of dahlia triple sheer with matching hat, black accessories and corsage of pastel gladioli. Mrs. Lazier, mother of the groom, wore a street length gown of wisteria triple sheer, with black accessories and corsage of Talisman roses.

Later Mr. and Mrs. Lazier left on a motor trip the bride travelling in a brown sheer frock, California clay tweed coat with coon collar and matching accessories. Upon their return they will reside on Everett Street, Belleville.

Among the out-of-town guests were Mr. and Mrs. J. C. Poyner, Detroit, Mr. and Mrs. Achilles, Buffalo, Miss Erma Lazier, Kingston and Dr. G. W. Telfer, Kingston.

### MORE IMPEDIMENT

Dr. C. E. Phillips of the Ontario College of Education in Toronto has been telling the Canadian Institute of Economics and Politics that young people should post a $5,000 bond before they get their marriage licence. And what do you think for? To prove they are financially able to educate a child!

It would be Toronto that would hatch out an idea like that. Those slick easterners don't care how they throw their money around. Well, we don't know whether Dr. Phillips classifies his suggestion under economics or under politics, but we do know that out West young people don't have that kind of money and if we had any such fool law in this province not more than one in ten of our usual weddings would take place.

He would be on much more sensible ground if he were urging some reasonable I.Q's in the twin genius of compromise and compatibility. Marriages go on the rocks because people are too ready to mistake temper for temperament, and too quick to say and do things that they are long to regret.

Young people may not know when they marry how well they will be able to educate their children. If they did, half the charm of the matrimonial romance would be gone. It would be, for the bride, like moving into a home that her mother had decorated and furnished for her; and for the bridegroom about as exciting as a charity scholarship for his offspring from Uncle Charlie.

Avast, Professor! Our education system isn't what it should be. But let's keep within the realms of possibility. We have enough impediments for young people already.—Vancouver Sun.

### ANTARCTIC ICE

Mr. Mackintosh who spent five years in Discovery II, investigating the distribution and breeding of mammals and the formation and wanderings of icebergs in the Antarctic seas, has some interesting things to say about his observations.

Glaciers flow from the land into the sea, where a portion breaks off, thus forming the giant icebergs that start their travels in the open waters. Sometimes these bergs appear to be black, due to the fact that, while still land-locked, dust has settled on their surface, to be superimposed with a thin layer of transparent ice.

It is curious that though the Antarctic continent supports very little animal life, the Antarctic seas are more crowded with it than the tropical seas. Practically 90 per cent. of the world's supply of whale oil comes from whales harpooned in the Antarctic Ocean. Apart from whales, however, the inhabitants are mainly minute forms of marine life.—London Tit-Bits.

'Blondie', 'Dagwood', 'Baby Dumpling' and 'Daisy' the principals in the comedy hit "Blondie Takes a Vacation," now playing at the McCarthy Theatre in addition to "North of the Yukon," story of the 'Mounties'.

## Advice to the Lovelorn

Famous Authority on Problems of Love and Marriage.

### "Werewolves" Are Often Charming

By Beatrice Fairfax

The fate of the two Florida girls who went with a man, a stranger about whom they knew nothing, to be photographed for screen tests, need not be repeated here.

The hideous details have been printed by every paper in the country, and the man only escaped lynching by the resourcefulness of the jailer, who got him to another, stronger jail.

Scores of girls have written letters to this column telling me they've had offers from "gentlemen" whom they met by accident or in other casual ways, who suggest they go with them for voice tests to places unknown to the girls. And shall they take up this offer? Their parents have advised against it.

Wise parents!

I've felt at times that girls must be bored with me for vehemently urging them not to have anything to do with "talent scouts" unless the "scouts" have something to show that they represent an authorized agency.

Such fiends as this man who lured two Florida girls for a ride, wanted under a dozen aliases for a variety of crimes, compel the ancient belief in "werewolves." He is said to have been an actor, a writer of radio scrip, to have held a W.P.A. job and other similar pursuits. He knew the patter, could talk convincingly, and evidently obtained the permission of the parents of his two latest victims to take the girls from home.

He would have been in jail doing time at hard labor if it were not for the mistaken mercy of various Parole Boards who had a way of turning him loose. Why sex delinquents are freed by Parole Boards all over this country is one of the amazing riddles of our penal system. Doubtless you can remember as I can, more than a dozen cases within the past year, where sex degenerates have been freed by Parole Boards, only to repeat their sex crimes and throw in murder at the same time.

This man Cochran was a patron of matrimonial bureaus, and in his crimes against women it is said he secured the names of girls from these agencies, which is just one more argument to have nothing to do with such "services." He does not appear to have belonged to the thug type of human gorilla. He has been described as charming and highly imaginative, and at one stage of his career he married into a prominent family, later abandoning his wife and two children.

As in Stevenson's famous story "Dr. Jekyll and Mr. Hyde" this man, like other degenerates, had a dual personality. He could be interesting, witty, charming, even as he could be unspeakably brutal in murdering his latest victim, a 17-year-old high school girl.

Your ambition to go into the movies, become a radio favorite, or to go on the stage is laudable, and you may have the necessary gifts to succeed. But with the fate of these Florida girls in mind, and of others who have escaped murder but have been ashamed to prefer charges against fake "talent scouts" don't go off with people—men or women—unless you know something about them.

If there could be anything humorous about this revolting affair, it is the claim of the murderer that he went bad to spite a woman. She was an actress whom he met three years ago and lived with until last April. Then she told him she "didn't need" him any more and to go on and be a criminal if he wanted to. In revenge he said he picked out her home town, Miami, for his biggest crime.

Parole Boards, please take notice!

## GOOD MANNERS

MRS. CORNELIUS BEECKMAN

### How We Should Place the Silver

Common sense determines how we place the silver pieces when we are setting the table. The silver pieces that are to be used for the first course are placed farthest from the plate; the pieces for the second course next to them, toward the plate; always progressing toward the plate, on both sides of the plate.

As the meal progresses, then, the outermost silver piece or silver pieces will be used and removed first. For example, the soup spoon (if soup were the first course) would be found at the extreme right of the "cover" setting. Then the knife and fork for the next course (which might be fish) would be exactly where the hand would most easily and naturally reach for them....that is, at the extreme right and left of the plate. This course eaten, the knife and fork used in that course would be removed on the plate that bore the course, leaving the next set of knife and fork for the main course.

This arrangement obviates any confusion about the "wrong fork". Following the sequence inward toward the plate automatically insures the selection of the proper silver piece.

And if, in the depths of your absorption in your neighbor's conversation, you should happen to pick up and use the fork out of sequence, no harm is done, and certainly there is no occasion whatever to feel ill at ease. Probably no one but you will notice it, or even care.......and one fork will do approximately as well as another for conveying the food to your mouth.

### Should Her Escort Dance With Others?

Dear Mrs. Beeckman,

I do wish that you would give me some advice on my problem, and thereby put an end to incessant arguments between my friend and me. We have been very good friends for quite a while, and really intend to be married when circumstances permit. But I'm afraid that if we continue to argue about this question that I am going to ask you ,there will be a split up and we'll never be married.

The argument starts when we go together to a public dance. My friend insists that it is correct for him to dance with other girls he knows and meets in the dance hall. I think he is wrong. I tell him that when a man escorts a girl to a dance he should be with her and dance with her throughout the evening. We are both stubborn about this, and neither of us will give in.

What is your judgment about this, Mrs. Beeckman?

Sally.

The fact that a man takes a girl to a dance doesn't mean, or at least it usually doesn't mean, that he wishes to have comlete proprietorship of the girl; and it doesn't mean, or at least it usually doesn't mean that she wishes to have complete proprietorship of the man.

Now it apparently does mean this to you, and it doesn't mean it to your young man friend. And don't you think that it is pretty absurd of you to be so stubborn (it's your word, so I feel permitted to use it) that you are unwilling to accept his point of view, since there is nothing vicious or even unkind or discourteous in his point of view? Aren't you being rather short-sighted in letting such a comparatively small thing spoil what otherwise seems to be a splendid friendship? If you and this young man marry, you will both have lots of more serious things than this that will call for adaption!

I advise you to put aside, or at least to moderate, your sense of complete proprietorship, and to hold in your jealousy with a firm bit. You're being a foolish girl to be willing to exhibit either of these unattractive traits. They are vinegar to most males . . .you'd better try some honey.

But one thing . . . and you didn't give me any information about this . . . you should be firm about. Your partner for the evening should definitely not leave you alone while he dances with other girls. He should not even ask another girl to dance with him until he has found out whether or not you have been invited by someone to dance that dance. If, for instance, you are with a group and your young man knows some of the girls in that group, doubtless there will be men whom you know or who are introduced to you and invite you to dance. If you accept . . . I'll dare you to accept- . . . then your beau may properly ask a girl to dance with him. But he shouldn't dance off with another girl and leave you stranded.

### Courtesy Tip

Unless there is plenty of room in the street car or bus in which you are riding, you have no right to take up more room than you have paid for . . . one seat.

## W.M.S. Presbyterial Executive Convenes In Belleville

The Autumn executive of the Belleville Presbyterial Woman's Missionary Society met at the Tabernacle Church in Belleville on Wednesday, Sept. 6th with almost a full attendance, several Auxiliary Presidents were present.

Mrs. Erle Denyes, the Recording Secretary, had charge of the morning devotions, opening with the hymn—"Come let us sing of a Wonderful Love." In her splendid talk on "Love" a language she said understood by all, Mrs. Denyes reminded us that we witness for Jesus more by character, than words. Wait on the Lord, spend much time in prayer, was the closing thought followed by prayer by Mrs. (Rev.) McKenzie of Plainfield.

Mrs. F. Hooper of Napanee, Presbyterial President then took the chair, calling for reports from the various secretaries. Mrs. M. E. Knox, Corresponding Secretary, in a full report of activities was happy to report new organizations throughout the Presbyterial. Mrs. McGuire, Community Friendship Secretary had an encouraging report, as did Mrs. Lewis, Associate Helper's Secretary. Mrs. Reddick as Supply Secretary requested yarns and material to send to some stations where women delighted in doing their own sewing. Let us remember when preparing bales that they are love gifts. Mrs. F. Osborne Christian Stewardship and Finance, urged that Secretaries send in their reports. Mrs. Albert Empey asked that Missionary Monthlies be boosted at the fall rallies. There are now 1000 subscribers. Mrs. Manley Fox reported for Temperance. Mrs. (Rev.) McKenzie reported for Mission Circles and Mrs. McCreary for Mission Bands; Mrs. Robson for Baby Bands and Mrs. Clarence Holmes for C.G.I.T. Mrs. E. K. Hubble asked that scrap books be taken to the fall rally and items for Missionary Monthly be sent to her for publication. Miss Doris Williams was present and reported $32.29 being raised for Missions through the Bridge St. Young Peoples.

The afternoon Devotions were in charge of Mrs. J. L. Ross of Wellington whose meditations were taken from the sayings of the Lord as He taught from the parables—consider the Lilies—God cares for us as He cares for the Lilies. "Leave it to Him" was sung by Mrs. Foster of Cherry Valley, closing the devotional period. The Treasurer, Mrs. Frank Herrington had a full and concise report. Mrs. Herrington told of visiting the Hearst Hospital while on vacation in the North Bay District.

The following ladies gave enthusiastic talks on the benefits of the Leader School which they had recently attended in Whitby. Mrs. Foster, Mrs. McCreary, Mrs. Albert Empey, Mrs. Gordon, Miss Lazelle Brown and Mrs. Spafford. Mrs. Hooper expressed gratitude for these impromptu talks. During the business period there were many discussions on the problems of the work.

Mrs. Hooper, in her closing thoughts asked that we conserve our spiritual forces as we face the world problems and to remember the unseen spiritual force in the world today would win the war.

Mrs. Lewis closed the meeting with prayer.

OH, I GUESS I'LL TAKE A CHANCE —WEAR THIS DRESS AGAIN

# Joint British-French

(Continued From Page One)

Many of these were said to have fallen into French hands and then turned into French advance posts against the Siegfried Line itself.

Hundreds of thousands of French troops moved under protection of their Maginot Line into positions ready to strike at points the High Command decided were most vulnerable.

A heavy concentration of Germans in the Moselle Valley was reported by a French army communique.

The Moselle valley, between the principality of Luxembourg and the Saar, is one of the most heavily fortified regions on the border.

### CONFINED TO LOCAL ACTION

Military experts doubted the French would risk a head-on assault on that stronghold. French movements in the Saar region were confined for the time being to local action, according to reports reaching here.

It was believed by some observers that the Saarland coal fields might fall, at least partially, into French hands with but little resistance.

Paris, Sept. 8 (AP)—The French army, fighting its way across the northeastern frontier into bordering German woods, prepared the way today for a joint British-French offensive against the Siegfried Line.

(At Basel, Switzerland, neutral military observers expressed belief the French High Commany may launch a major offensive within the next few days.)

"We succeeded in effecting local advances of varied importance, improving noticeably the conditions of our advance at certain points."

The French General Staff said their army's action had caused Germany to rush reinforcements into the 100-mile long sector extending along the Siegfried Line from the Luxembourg border to the northeastern tip of France near Lauterbourg, an ancient Roman fortress town and now a key area in the French Maginot Line.

# Fleet Seeks To Control

(Continued From Page One)

Copenhagen, Sept. 8 (AP)—The thunder of guns and bombs last night and early today indicated an attack was being made on the German Island of Sylt by airplanes.

(Sylt is just off the southwest extremity of Denmark.)

The island is the site of an important German anti-aircraft defence fortification.

The humming of aircraft was heard clearly on the nearby Danish Island of Roemoe.

The first attack occurred at 10 p.m. Thursday, (5 p.m. E.D.T.)

3 a.m. today (10 p.m. Thursday E.D.T.) a flight of airplanes dropped leaflets, some of which fell on the Danish mainland..

This was followed an hour later by the sound of heavy firing by the Sylt batteries... The explosions were interspersed with dull booms suggesting exploding bombs.

All firing ceased at 4.30 a.m.

An observer on Roemoe said he had seen some attacking aircraft at 3.45 a.m. which he was unable to identify but which numbered from 10 to 15 planes. They came, he said, from a southwesterly direction..

London, Sept. 8 (CP)—Great Britain's mighty fleet fought Germany undersea raiders today as naval activity took a leading role in Europe's new war.

Nazi U-boats got off to a fast start—faster by far than the Reich's raiders in the last war—but Britain mustered anti-submarine units of the Royal Navy and the Air Force to strike back.

An announcement by the Ministry of Information told of an apparently successful attack on a German mine-laying submarine. Attacks on other submarines continued but, the Ministry said, there were "no major operations to report."

Meanwhile, other naval units chased German merchant ships to cover in neutral ports, decimating a fleet which might bring raw materials to Germany from overseas. The Information Ministry announced 54 German ships sought refuge in the port of Vigo, Spain, and nine others were in Japanese harbors.

### SHIP SENT TO BOTTOM

The British merchant ship Royal Sceptre, 4,853 tons, was sent to the bottom by a German U-boat yesterday and the Corinthia was attacked but escaped undamaged.

(Reports from other countries reported sinking of the British freighter Manaar, 7,242 tons, 100 miles off the Portuguese Coast, and the Olive Grove, 4,060 tons, off the Irish Coast.

(The Olive Grove's crew of 33 was saved by the United States' liner Washington, whose captain, Giles Stedman, reported the German sub commander was "most courteous" in ordering the British crew to the lifeboats before torpedoing, offering to tow the lifeboats toward land, putting them on their course and firing two signal rockets which enabled the Washington to sight the lifeboats less than an hour after SOS was received..

### SUBMARINE FIRED ON SHIP

(Two crewmen of the Manaar said the submarine fired on the sinking ship as they sought to escape.

(In addition, the United States liner American Farmer, enroute to England, reported the British ship Pukkastan, 5,809 tons, and the French Tamara, 3,747 tons, were attacked by submarines off the European Coast.)

Known German losses were the freighters Olinda, Carl Fritzen and Motorship Inn, all sunk presumably by British cruisers.

Reporting attacks upon British shipping in the House of Commons yesterday, Prime Minister Chamberlain referred to the torpedoing of the Canadian-bound British liner Athenia as a "crime which has profoundly shocked and horrified the world."

"No details or inventions on the part of Germany will convince the public of German innocence of this crime," he said. .

### CANADIAN AVIATORS ACTIVE

The Donaldson Line, operators of the Athenia, reported about 128 passengers and crew members still are missing. .

The Prime Minister revealed that Dominion aviators—most of them were Canadians—took part in the Royal Air Force raid on German battleships in "at least two hits" on one of Germany's three "pocket" battleships.

The Information Department later announced two vessels were hit, a pocket battleship and "one of the most powerful units of the German Navy." The attack was made successfully despite intense anti-aircraft fire and counter attacks by German warplanes, the Department said.

The Prime Minister also announced that steps are being taken to establish a convoy system for merchant shipping "at the earliest possible moment."

Lisbon, Sept. 8 (CP-Havas)—The Diaro De Lisboa reported today that a wireless message had been picked up at Opporto from the British steamship Defender, stating the vessel had been attacked by an unidentified submarine. The torpedo was said to have passed in front of the bow. The ship was reported continuing on to Great Britain.

(Lloyd's register lists a 8,258-ton Defender, owned by the Charente Steamship Co., Ltd., of Liverpool.).

# CRUISER'S WHITE

(Continued From Page One)

The Schleswig-Holstein was standing out in the harbor, not far off shore. Beyond the peninsula, in Danzig Bay, were other ships of the German fleet.

**Landing Party Sets Out**

After an hour of shelling from the Schleswig-Holstein, I saw a German landing party set out. But their attempt to storm the Poles failed. A cross-fire of machine-guns, the Poles' chief armament, drove them back with heavy losses.

On the second day 24 German bombers dropped at least 50 bombs on the peninsula. It was a tremendous effort to dislodge the stubborn band of defenders, and the explosions echoed and re-echoed over Danzig.

But when it was all over a rattle of machine-guns showed the Poles still were defiant. During the next days more shells followed, and still the Poles held fast.

Even Danzigers began to puzzle over the Germans' inability to capture the defenders and seize the munitions depot that was granted Poland by treaty.

During these days I followed the fighting from the roof of my hotel. From there, too, I saw the firing of the Polish post office. Smoke from the fire rose about half a mile in the air.

**Intermittent Firing**

All during the fighting, I could hear intermittent firing from the directions of the seashore resort of Zoppot and the Polish port of Gdynia.

When I left Danzig on Tuesday, the Poles still were holding out. The Westerplatte was quiet: a tangled wreck of steel and crumbled red brick walls, with the hundreds of trees reduced to bare stumps by the intense bombardment. Only an occasional burst of machine-gun fire showed the Poles still were there.

As the German gestapo (secret police) and the troops clamped down further restrictions and Danzig became a locked-up city, I decided to leave.

Today, when word came to Riga that the white flag had been raised over Westerplatte, Polish refugees and recent arrivals from Danzig took the news with a mixture of skepticism and relief that the uneven struggle was ended.

All who had seen the tons of shells and bombs that were dropped on the little band of Poles knew it must end either in surrender or the death of the entire garrison.

The Poles describe the six-day defence of the depot as a heroic chapter in Polish history.

# ADVANCED POSTS

(Continued From Page One)

**Three Separate Threats**

Dispatches from the eastern front indicated that the offensive against the Polish capital had taken the form of three separate thrusts from north, south and west with the force from the north as the closest threat.

The thrust from the north was said yesterday to have carried the Germans within 20 miles of Warsaw.

While the army announcement said Warsaw was within field gun range, there was no suggestion that the city had been subjected to artillery fire.

(There had been no direct communication from the Associated Press Correspondent at Warsaw since 12:10 p.m. (7.10 a.m. EDT) Wednesday. It was believed that the Warsaw radio station had been abandoned, with the station at Lwow the only active transmitter still operated by the Poles.,

**Krakow Claimed**

Aside from the campaign against Warsaw from the north the other principal German offensives were in the southwest where Krakow, former Polish capital, was in German hands, and in the west where Podnam has been cut off.

In the northeast, Nazis reported Polish forces were isolated in the Corridor and at Gdynia were reported unable to obtain supplies; on the south they were reported flanked by German trans-corridor communications, between Germany proper and East Prussia, by way of Grudziadz.

The government and Adolf Hitler, who is in German-occupied Polish territory, professed satisfaction with the achievements thus far.

**Mastery of Air Reported**

"Mastery of the air in the east is yours," Field Marshal Hermann Goering told his air force. "No enemy plane was able to touch the defence of German air space."

The Nazi high command claimed yesterday that 25,000 Polish prisoners were rounded up since the German operations started last Friday.

German observers said cavalry, comprising a major part of the Polish military organization, was no match for machine-gun and fast artillery attacks.

This morning's communique offered but little new information on the drive against Warsaw from the north but said German troops had reached a point 38 miles west of the capital, (Rawa, the most advanced point gained in these operations from the west, actually is southwest of Warsaw).

**Thrown Back at Lodz**

The Poles were said to have been "thrown back" at Lodz, a major city 70 miles southwest of Warsaw. The communique said Lodz "was reached at the southeast yesterday afternoon."

In southern Poland, east of Krakow and the upper reaches of the Vistula River, the German attack by way of Tarnow toward the San River was reported "progressing smoothly."

The communique claimed German occupation of Pultusk after street fighting and a crossing of the Narew river at that point, about 28 miles from the northern fringe of Warsaw.

While satisfied with accomplishments in Poland, the country was apprehensive concerning the coming test along the western frontier.

In preparation, Germany introduced even more stringent regulations on the home front. The government insisted that all stay-at-home Germans, including women, take their full share of the burden.

**Death For Sabotage**

The death penalty for sabotage was decreed and the definition of sabotage was modified to cover a great range of acts injurious to the state.

It was announced officially that one man was executed yesterday for refusing to do work held vital to the state an official explanation of the decree said that wilful absence from usual work, without reason, could be regarded as sabotage.

For example, it was said that a physician absenting himself from a hospital at the time of his regular duty there, if without reasonable cause, could be held guilty of sabotage.

The government also indicated it would invoke a new decree giving it authority to require any physically fit person to perform any labor regarded as essential to the state.

Six-week prison sentences were imposed on two citizens of the Rhine industrial region for failure adequately to darken their windows in blackouts.

# THURLOW TWP.

(Continued From Page One)

force of the gale were distributed over nearby fields. Hydro poles were blown down while telephone poles especially in Thurlow lay in even rows along concession roads. Hydro and telephone service were completely disrupted.

Fortunately, according to latest reports, no one has been injured. Fifty percent of the winter apple crop is said to be destroyed in the storm area.

Early today traffic along the second, third and fourth concessions of Thurlow was at a standstill as farmers and township workers struggled with the task of removing trees and wires that blocked roadways. Stirling, it is reported, was choked with debris ripped away by the storm Sideroads from Thurlow concessions to adjoining highways were completely blocked although at press time everything was reported to be clear.

**Much Damage in Thurlow**

The brunt of the storm fell upon the easterly portions of the third and fourth concessions of Thurlow. Four miles east of Corbyville where the main barn of Frank Garrison is tottering on its foundations and another small barn is swept completely away, the storm stopped abruptly. No damage directly east of this point is reported.

At the farm of T. McEvoy, third concession the top of a large tree was blown clear across the road. An outhouse has yet to be found while one hundred feet of fence was blown in its entirety for a distance of twenty feet. The same story applies the length of the concession with trees obstructing roadways. At one part a complete haystack was lifted bodily in the air and flung across a ten acre field.

The roof of a small barn of Roy Pound is missing. Frank Walker's house has a corner blown off it. William Doctator's barn is a jumbled mass of wreckage. A lumber wagon belonging to Roy Pound was blown clear through the doors of the shed in which it was housed.

Heavy damage was caused also on the third concession where the new metal roof of Charlie Cole was instantly demolished by the terrific gale. While the wreckage of the main part of the roof lies over the barnyard and road, pieces of the metal were found in a field one-half mile away. A driveshed situated a few hundred feet from the barn was completely demolished. The roof and walls disappeared as if by magic while implements and other articles housed in the building remained in their positions.

**Strewn About Yard**

In the middle of the road near the Eggleston farm lies the top half of a hydro pole containing a transformer. Hydro wires are strewn all about the yard.

The large verandah on the house of John Ritz was lifted bodily from its foundation, hurled high in the air and crashed to the ground. Large plate glass windows in the house were smashed while the freakish whirling wind carried pieces of glass up a stairway and deposited them near a bathroom door.

A machine-shed a few yards away lies in a crumbled mass of debris.

A short distance down the road Bethany Church had several patches of shingles torn from its roof, but the building is otherwise undamaged.

Charles Miller discovered three of his herd of cattle lying under a tree in a "stupified condition." A jagged rip in the trunk of the tree denotes where a bolt of lightning struck it. The cows were "wobbly on their feet and appeared as if they were drunk" Miller stated this morning. They did not give any milk. The remainder of the herd was normal.

**Trees Cleaned of Bark**

Three tall elm trees on the property of Charles Cole were stripped clean of bark and foliage. Sticking high in the air like masts of a ship, the white stumps gleamed like white statues this morning. It is believed the terrific force of the gale whirled about the trees at this point stripping them of everything.

William Yateman's barn is no more. Nearby a pile of debris is all that remains of his silo.

Apple trees in this particular district were uprooted in rows in some places, farmers stated, while practically half the crop of those remaining will be a total loss. Nearly all fences that run in an easterly westerly direction are levelled.

Trees were uprooted and blown down in the vicinity of Cannifton but no real serious damage was reported. George Jarrell stated this morning that he saw the screen door of his kitchen torn off before his eyes and land a crumpled mass some hundred feet away.

On the Foxboro Road the garage of Mrs. R. Vandevoort was blown away leaving an automobile inside, untouched. Silos of the district are down while many windows are shattered. Trees blocked the road at Ross's Corners while orchards suffered heavy losses in trees and crops. The west end of the barn of G. W. Henderson was ripped away.

Hydro officials reported extensive damage to poles and wires for a distance of four miles east of the city while further damage, as yet unestimated, occurred along highways further eastward.

In the vicinity of Roslin and Latta the storm struck with unabated fury, levelling trees and smaller sheds on several farms throughout the district. The telephone and electric light services were disrupted for some considerable time this morning.

**Hail at Latta**

Hailstones fell following a severe electrical storm east of Latta shortly before 6.00 a.m., doing considerable damage to some of the crops still left standing. The hailstones were reported to be as large as the average person's thumb nail. Windows were broken by the hailstones, so forcibly did the storm break.

Side roads throughout the district were impassable at noon today, as the fallen trees blockaded the roads both east and west of the Tweed highway, forcing motorists to take to the fields in an effort to pass.

**Power Disrupted**

It is estimated that fully 100 trees were either uprooted or blown over during the blow. Hydro and telephone wires were broken and this village was isolated for some considerable time and experienced its first complete blackout.

Small farm buildings were levelled and the greatest toll of financial loss came through the loss of this type of building. On the farm of J. B. Thompson the boards from the drive shed were ripped off and blown completely through the roof of the adjacent barn in the most severe hurricane that ever visited the Stirling district.

In the Stirling cemeteries it is estimated that fully 50 tombstones were overturned by the velocity of the storm.

**Slight Damage in City**

Only slight damage to trees on city streets, and no property loss as the result of the storm which swept the rural districts north of the city early this morning was reported by officials of the city works department.

Two or three trees were reported split and broken on West Moira and Bleecker Avenues and through other sections of the city broken tree limbs littered roadways and streets. Following early morning calls by police, workers of the city department were out early clearing the debris left in the wake of the wind.

The West Hill section reportedly bore the brunt of the gale which had apparently spent its force by the times it had reached the city, it was reported.

A large maple tree on West Bridge Street was split completely in twain following which Hydro wires were broken and Belleville experienced its first blackout in that section. Early risers found no electricity with which to cook or obtain light.

**Many Barns Damaged at Mohawk Reserve**

At the Mohawk Reserve, barns were blown down or damaged on the farms of Sandy Brant, Jim Brant, Harry Hill, Andrew Brant, Clifford Zarcharias, (barn and drive-shed), Tommy Hill, Ben Maracle (barn roof); barn at the Council House blown down, Rupert's garage and milk cans missing. At Marysville the barn of J. Ryan and drive-shed of Jim Wooden were damaged. On the highway east of the city, Lee Purdy's machine shed was blown down and machinery damaged. Thos. Brown lost a barn and A. Reid, a silo. The windows of the house owned by Mr. Mitchell were blown in.

In some sections hail accompanied the wind causing extensive damage to apples and vegetable gardens. The damage was reported to have involved Hydro and telephone lines and many trees were up-rooted blocking roads and driveways.

**Many Trees Blown Down at Stirling**

At Stirling a great part of the Hydro lines were out of order, about a hundred trees uprooted, two chimneys on the Presbyterian church damaged, the slate roof on the Roman Catholic rectory was extensively damaged while windows in the church were blown in. The car belonging to Mr. Phillips was parked in the driveway when two trees were blown down, one on each side of the car but without damage to the vehicle. Practically every street was blocked and on nearby farms, many silos were laid flat.

KINGSTON, Ont., Sept. 8—(CB)—Kingston was swept by a severe electrical and rain storm early today and communication lines were disrupted for some hours. Only slight damage was reported here and the storm was believed to have struck hardest between Kingston and Tichborne, 60 miles north of here.

# ROOSEVELT ISSUES EDICT TO GUARD U.S. NEUTRALITY

## Limited "National Emergency" to Strengthen National Defence

## CANADA EXEMPT

WASHINGTON, Sept. 8—(AP)—President Roosevelt today proclaimed a limited "national emergency" to safeguard United States neutrality and to strengthen national defence.

Emphasizing at a press conference that under no circumstances would the United States be put on a wartime basis, the President said the proclamation would involve increases in the military branches but not the extent of the full authorized peacetime strength.

The President said that four orders would be issued later today authorizing the following steps under the proclamation:

Recruiting for nation:

Recruiting for the army and calling back first line reserves to increase the enlisted strength but nowhere near the 280,000 peace time authorization. The actual increase has not yet been decided.

**Navy Not to Full Strength**

Increasing the navy personnel, but not to the full extent of the 180,000 peace time authorization. The navy has between 115,000 and 120,000 men. This figure will be increased to a total not yet determined.

Authorize the State Department under its emergency funds to use $500,000 to assist United States citizens to come home from the European war zone.

Increasing the personnel of federal investigating agencies to protect the United States against sabotage, propaganda and other subversive activities such as experienced between 1914 and 1917.

**Arms Embargo Against S. Africa**

Washington, Sept. 8—(CP)—President Roosevelt today told his press conference he had signed a proclamation extending the arms embargo to the Union of South Africa, now officially at war with Germany, and had drafted a similar proclamation with respect to Canada.

He would delay putting into effect the Canadian proclamation until the Canadian Parliament actually declared war.

The original proclamation named the United Kingdom, India, Australia, New Zealand, France and Poland as being at war against Germany.

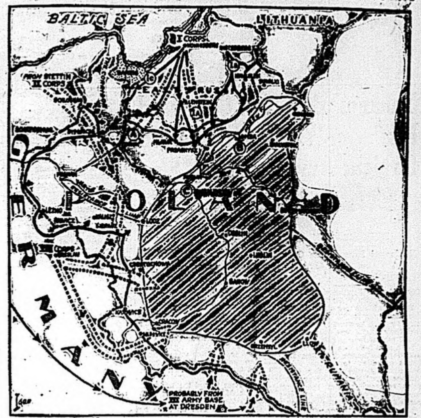
### FIRST HOSPITAL TRAINS

Berlin, Sept. 8—(AP)— The first hospital trains seen in Berlin since the start of fighting arrived today at the Potsdamer Station.

Traffic was rerouted to clear the way for trucks and buses to speed the wounded to hospitals.

Some postal service trucks were converted into ambulances and equipped with stretchers.

### ROUTES OF GERMAN DRIVES INTO POLAND

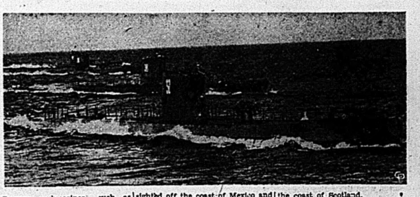


The two black lines in German territory are parts or arms of the Siegfried line, sometimes merging but at other times miles apart as around the Saar basin. Notice, too, that some of the Saar territory protrudes in front of the line. This is part of the slack taken in by French troops who have penetrated the basin from Baes and Metz and Nancy.

### BRITISH WARRIORS OF THE SKY

Warriors of the sky are these well-equipped British airmen. Dressed in heavy flying clothes they can cope comfortably with cold weather encountered at high altitudes. They carry machine guns of the latest type.

### GERMAN SUBMARINES MENACE SHIPPING



German submarines, such as these, are reported to have been sighted off the coast of Mexico and the coast of Scotland.

# National Hockey League To Function Unless Canada Is Plunged Headlong Into War

### President Calder Feels Hockey Might Help to Relieve Mental Strain

### N. H. L. PATRIOTIC

### Connie Smythe M.C. Thinks Professional Hockey as Patriotic as Any Other Endeavor

By Jack Calder
(Canadian Press Staff Writer)

Toronto, Sept. 8.—(CP) —Unless Canada plunges headlong into war and Canadian manpower is called on extensively to go overseas immediately, the National Hockey League probably will carry on this winter.

The management and rules committee of the N.H.L. laid plans here yesterday to open the 1939-40 schedule Nov. 2, although a meeting of the Board of Governors at Detroit Sept. 20 will decide finally how the war will affect the League's operations.

Frank Calder, the League president, said professional hockey entertainment might help to relieve the mental strain exerted by war. Conny Smythe, manager of Toronto Maple Leafs and a Great War veteran, said he thought it possible that players who plan to go overseas might train for war and play hockey at the same time.

"Having been through this thing once, I don't see why a lot of the recruits shouldn't train for war and still go about their normal pursuits", said Smythe, who won the Military Cross as an artillery officer and was captured by the Germans in the last war.

"Actually, the soldier in training gets only two or three hours of new work every day. The rest is routine stuff. I believe hockey and a lot of other things could be carried on with the aid of part-time training."

Calder said if the Canadian Goverment should feel that hockey ought to close down, the president said, "professional hockey is just as patriotic as any other endeavour."

# Yankees' Boss Now Convinced His Team Will Capture Fourth Straight American Loop Flag

### Yanks Now Have 16½ Game Lead Over Rest of Field

### REDS BEATEN

### Cincinnati Now Holds Only 4½ Game Lead Over St. Louis Cards

(By Judson Bailey Associated Press Sports Writer).

It took all summer to do it, but Joe McCarthy finally is convinced his New York Yankees are about to take their fourth consecutive American Baseball League pennant.

With a 16 1-2 game lead over the second place Boston Red Sox, the Yanks are due to clinch their championship within a few days and the signal that McCarthy had about conceded himself the flag, came yesterday as an echo of New York's 5-2 conquest of the Red Sox.

The bland boss of the Bronx bombers showed newspapermen a pocketfull of clippings he had collected for the purpose of taunting Clark (Old Fox) Griffith of Washington Senators, the Yankee's leading heckler.

"Griff said we'd fold in August," mused McCarthy, "but these will help him remember that's when we gained our most ground. We won 15 out of 16 games in one stretch and in four trips west this season we won 35 out of 44 games."

**Sox Held to Three Hits**

Boston was held to three hits by Monte Pearson and Oral Hildbrand and only got their two runs when Pearson went wild in the fourth and walked four men. Joe DiMaggio again led the 11-hit Yankees assault with his 27th home run and a single.

Meanwhile Cincinnati Reds were quavering in front of the National League and for the fourth time in three days were forced into extra innings yesterday, and finally dropped an 8-7 11-inning decision to Pittsburgh Pirates. Big Ernie Lombardi got two home runs and a single for the lost cause, and Bob Elliott, rookie outfielder from Toronto clouted a homer, double and two singles for Pittsburgh.

Cincinnati's defeat coupled with St. Louis Cardinals' 4-2 10-inning victory over Chicago Cubs, cut the margin between first and second place to 4 1-2 games.

**Ceremonies Spoiled**

Spoiling ceremonies marking Manager Gabby Hartnett's catching of his 1,727th game for an all-time Major League record, the Cubs made four errors and finally gave the game to St. Louis when pitcher Bill Lee made a three-base boner on Enid Slaughter's bounder in the 10th.

Boston Bees turned the tables on New York Giants 4-3, coming from behind in the ninth with four hits off Carl Hubbell and an error by Harry Danning.

Chicago White Sox swept their St. Louis stand with a double battering of the Browns, 8-4 and 11-4.

Five-hit pitching by Ken Chase brought Washington Senators a 10-1 victory over Philadelphia Athletics and Cleveland Indians captured a slugfest from Detroit Tigers 9-3.

# JERSEY GIANTS CINCH PENNANT

### Manager Bert Niehoff Toast of the Town as Team Victorious

(By The Associated Press)

The Little Giants of Jersey City have clinched their first International league pennant in 38 years and outside of being Mayor, Manager Bert Niehoff now can have or be just about anything he wants.

A 3-2 victory over Baltimore last night assured Jersey city the flag, even though the second-place Rochester Red Wings did their utmost to prevent it by winning both ends of a doubleheader from Montreal.

The weather man, who rained out Rochester Wednesday night at Toronto, got an assist in the Giants' pennant-clinching. Because it was the last game of the season between the two clubs, the Toronto contest was washed off the schedule entirely, and deprived of this opportunity the Red Wings had no voice in the outcome.

The Giants had to rally for two runs in the ninth to down the Orioles last night with John Dickshot's single and Sambo Leslie's double bringing in the pay-off runs.

Rochester routed the Royals, 3-0, and 5-3, with Ken Raffens-Berger's southpaw hurling spotlighted in both games.

Lefty Al Smith of Buffalo Bisons earned his 15th consecutive victory and his 16th of the season against two defeats by stopping Toronto 2-1.

# Foot-Fault Judge In Tennis Match To Be Eliminated

(By Gayle Talbot)

(Associated Press Sports Writer)

New York, Sept. 8.—(AP)—There is growing sentiment in favor of eliminating the foot-fault judge from tennis, and the present United States championships at Forest Hills are likely as not to be the last in which this unpopular official will take part.

Perhaps they will continue to appoint such a judge, if only for the looks of things, but from the remarks heard around the clubhouse last night he probably will be instructed just to sit there and enjoy the match from a ringside chair.

Latest victim of foot-faultitis is Franjo Puncec, the Yugoslav star who was upset in yesterday's opening round by Frank Guernsey, Jr., United States Intercollegiate champion, by scores of 6-1, 3-6, 2-6, 6-3, 7-5. Puncec was so upset by a series of faults called against him in the final set that he practically tossed the match away.

What made things worse was the fact that the match didn't have a foot-fault judge until after three sets had been played. And then he waited until the most crucial stage, when every point was vital, to begin penalizing Puncee.

# RIVERDALE GRADS DEFEAT JUNIORS IN SECOND GAME

### Belleville Kids Blow a Six-Run Lead With Dyett Leading Hitters

### SCORE IS 14-12

### Ethier Hits a Homer for Belleville and Clare a Triple

The Belleville Citizen Dairy juniors passed from the junior O.A.S.A. picture yesterday as the result of a second consecutive loss at the hands of the Toronto Riverdale Grads kids, as the local junior mustballers faded in the latter stages to lose 14 to 12 at Kew Gardens in Toronto.

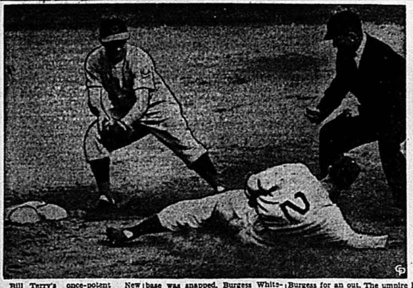
The Belleville kids assumed an early-game lead and were out in front by an 8 to 2 score early in the fifth inning. The Riverdale district kids bagged five in the bottom half of the fifth as the result of four hits and a couple of errors and then the homesters scored consistently in every subsequent inning to win. Belleville again knotted the count with a four run splurge in the eighth, but the Grads came back to score two in the bottom half and retired Belleville without a score in the ninth to snatch a win. Steve Hook hurled for Belleville while Dyett pitched for the Grads.

Although Belleville outhit the Riverdale Grads 13 to 12, the homesters were paced by pitcher Dyett, who clubbed two home runs, a double and a single in four official tries. Extra base hits were featured as Ethier hit a homer for Belleville and Clare a triple. Goyer and Yarrow counted three hits each for Belleville and Dorthey and Ethier two each.

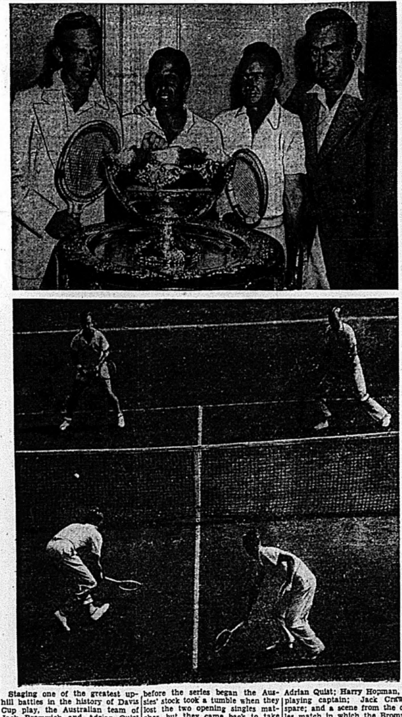
Score by innings:

| | | R | H | E |
|---|---|---|---|---|
| Belleville .. | 100 160 040—12 | | 13 | 4 |
| Toronto .... | 001 152 32x—14 | | 12 | 1 |

A couple of Uncle Sam's leadingracquet-swingers, Wayne Sabin, LEFT, and Frankie Parker, in dis-guise, RIGHT.



Bill Terry's once-potent New York Giants and Bill McKechnie's presently-potent Cincinnati Reds were having at each other on the diamond when this action at second base was snapped. Burgess Whitehead of the Giants was trying to steal when Ernie Lambardi, Red's catcher, whipped the ball down to Billy Myers, who applied it to Burgess for an out. The umpire had not given his decision when the shutter clicked but Mr. Myers had room to spare in tagging the runner.



Staging one of the greatest uphill battles in the history of Davis Cup play, the Australian team of Jack Bromwich and Adrian Quist defeated United States, three matches to two at the Merion Cricket club near Philadelphia, to return the coveted international tennis trophy to their country for the first time in 20 years. Favored before the series began the Aussies' stock took a tumble when they lost the two opening singles matches, but they came back to take the doubles and the last two singles encounters to end the cup's two-year sojourn in the States. Pictures show the Australian team grouped around the Davis Cup (LEFT to RIGHT) Jack Bromwich; Adrian Quist; Harry Hopman, non-playing captain; Jack Crawford, spare; and a scene from the doubles match in which the Bromwich-Quist team downed Jack Kramer and Joe Hunt in four sets. Kramer is volleying in this shot as both teams take to the net. Quist is left back-ground and Bromwich, right background.

CALLING 'EM

# Between the Lines

with
*Ken I. Colling*

Although Peterboro and Belleville mutually agreed to play a possible third game in Port Hope before the second game was played here Wednesday night, the O.A.S.A. subsequently stepped in and declared Port Hope foreign ground, insofar as softball was concerned. Convenor Harry Rollins was present, when the mutual agreement between the "Oilers" and the Petes was arrived at and nothing was revealed regarding Port Hope not being eligible, insofar as the O.A.S.A. was concerned. It seems Port Hope does not bother with softball and therefore softball isn't going to bother with Port Hope. In the meantime the O.A.S.A. has suggested the game be played at either Hastings or Havelock, which should prove most advantageous to Peterboro. Looking over the two clubs we feel the Petes are a much better balanced club than the "Oilers" but if the locals hit straight away tonight the issue will not be settled until the last out is made.

---

**Apparently Finland is an optimistic nation. Yesterday the distribution of Olympic tickets to subscribers began in Finland, but only on a cash basis, however. The Finns are continuing construction for the 1940 Olympic games progresing along the original schedule despite the outbreak of war hostilities and the flight of bullets practically right under their very noses. If the European war continues, however, it will be rather difficult to stage the 1940 Olympic games, as was the case in 1916, when the games were cancelled on account of the last war. Strangely enough after Germany was awarded the Vth Olympic Winter Games when Switzerland refused to adhere to the rulings of the International Olympic Committee, Hitler immediately launched an advertising campaign announcing the 1940 Olympic Winter Games would be held at Garmisch-Partenkirchen, Feb. 2-11, even in the face of his pending plans for the annexation of Poland. We actually received literature advertising these games last week, but the recent turn of European politics does not seem to coincide with Herr Hitler's plans of other hostilities.**

---

The Kingston Garrison (Signals) officially notified O.R.F.U. convenor Bill Fry today they would be unable to enter a team in the intermediate O.R.F.U. this year, owing to this war business. It is expected that the Air Force will also abandon football activities until hostilities have been concluded. The Cobourg "Red Raiders" and the Belleville juniors, both civilian squads, are eagerly looking for rugby groupings, however.

---

**W. J. Snyder, secretary of the Ontario Baseball Association, today notified the Belleville "Orfuns" their next round in the provincial baseball playoffs would commence on Saturday in Cobourg with the return game being played in Belleville next Wednesday. In the meantime the locals have suffered several losses due to their players having left Belleville. Russ Collins is holidaying in Kentucky and now we hear that first baseman Jack Carson is leaving for Toronto. It is expected that Lefty Weeks will take over the locals' first basing tomorrow.**

---

On the average, major league baseball players are paid less than the umpires. The better ballplayers, of course, are paid much more than the umpires. The average pay of a ball player today, excluding the raw recruits, averages between $6,000 and $8,000 a year. The umpires are paid anywhere from $5,000 to $7,500 a year depending upon the length of service.

---

Wrestling has undergone an almost incredible transformation in the last quarter century, so much so that Europeans who come to the United States can hardly believe it is wrestling at all. The old Graeco-Roman method or orthodox holds and no showmanship has gone out of style and in its place have come the airplane spin, the dropkick, the Irish whip, and the flying tackle.

---

**All professional motorcycle racing in England has been abandoned, as was soccer, according to a cable received by Mr. and Mrs. Wm. Pepper from their son George this week. Incidentally George Pepper was in line for a promotion to senior racing ranks when the order came. Pepper is now considered one of the outstanding riders in the business.**

---

The Young-Townsend Citizen juniors passed from the junior O.A.S.A. picture yesterday, once again being eliminated by the Toronto Riverdale Grads. The locals lost 14 to 12 at Kew Gardens last night in Toronto. Going into the bottom half of the fifth, the Belleville kids were leading 8-2. However, pitcher Dyett of the Grads proved the Toronto sparkplug, getting two home runs, a single and a double in four times at bat to drive in eight of his team's 14 counters. Resembled a one man attack, or was it Dyett versus Belleville. Taking into consideration that Arnold Ethier was the only holdover of last year's regular team, the local juniors were not disgraced upon being eliminated by the junior champions of all Toronto. All Belleville has left now are the "Oilers" and the local ball nine in the chase. But there's still Point Anne, very much in the hunt.

---

**Local softball fans may be surprised to learn that Peterboro nor Umpire Dormer, are protesting upon Sonny Green's actions, of Wednesday night. We hate to think what would have happened had the shoe been on the other foot. At any rate here's the Peterboro scribe's version of the whole show. "Little Harlem went down in Belleville last night, 4-3, in a flurry of flying fists—an old Belleville-Peterborough sports custom. So the O.A.S. series is square now at a win each. A nifty number last night marked by fine flinging on both sides and some swell fielding. On a double-play decision at home and third (which the locals claim Ump Colling didn't see), Umpire Dormer ruled an out and Colling called the runner safe. With a big argument busting loose and Coach Sonny Green of the Oilers taking a punch at the umpire. Players and fans swung briefly into action before order was restored and Green given the gate. He could be suspended but we understand no squawk is being registered from this end of it. We can hardly recall a softball series between these towns that didn't produce some fistic action."**

---

Sport Spice—That much-talked of Keene-Trenton softball protest was thrown out by the association ....Just heard the Peterboro-Belleville third game would be played in Havelock and we feel the association had nothing to do with turning thumbs down on Port Hope, smells like convenor Lether of Peterboro....Dave Young of Picton is to be the umpire-in-chief tonight ....Looks as though the Yankees will win more games this year, than have ever been won by a major league club in one season.... The Reds lost to the Pirates and the Cards won so today the Redlegs are only 4 1-2 games in front of the Mound City nine......Pops Cooper with Tops 3rd. swept the 225 cc. class before him to win three heats at the C.N.E. yesterday.

## *The Stars Say*—

For Saturday, September 9

By GENEVIEVE KEMBLE

A DAY of great activity, with thrills, adventures, romance, travel and a general state of commotion and agitation, is forecast. All spell happiness and a most benign feeling of gratification, providing a pronounced tendency to overdo in every direction is suppressed. The impulses, forces and faculties are all under rather hectic stimuli, probably causing impetuosity, violence, passion and other high-powered expressions. With restraint and prudence, all should thrive. If excess energies are centered on workaday pursuits, there would be much profit.

Those whose birthday it is will find themselves launched in a year of what is known astrologically as the "opportunity complex" with all doors open to accomplishment, and rich rewards for noble objectives and worthy aspirations. Employment, business, educational, cultural and scientific matters are under excellent auspices, but all the energies are under such high tempo that there may be regrettable side issues because of impetuous, passionate or perhaps quarrelsome indulgences. Tempestuous and reckless behavior carries penalties. Keep calm, controlled.

A child born on this day may be talented and of fine character. Energetic, practical and forceful, it may also be gentle, gracious and sympathetic.

### ALL PERSONS MUST REGISTER

London, Sept. 8—(CP)— Under regulations which went into effect today all persons, including British subjects, registering at British hotels must fill out long questionnaires, giving their nationality, address in Great Britain, destination if travelling, passport number, and other information.

Those failing to do this, or giving false information, will be liable to a fine of 100 pounds (about $400) or imprisonment for six months.

In every widely-used cigarette the tobacco taste is flavored with some spice, sugar, extract or essential oil.

Many valuable varieties of wheat were brought to the United States by early immigrants.

# SLOVAK TROOPS DESERT GERMANY

### 300 Threaten Guards With Hand Grenades When Not Allowed to Enter Hungary

Luciabanya, Hungary, Sept. 8.—(AP)—More than 300 deserters from the Slovak Army fled across the frontier to this village in northern Hungary today.

They told police hundreds of men called to army service by the German-directed Slovak General staff fled into woods and were seeking a way to escape to Hungary. The Slovak Hlinka guard, they related, is watching the frontiers and shooting deserters.

One group of thirty Slovaks forced its way into Hungary by threatening Hlinka guards with baskets of hand grenades.

In the past generation, Canada's immigrants have come from so many sources that the melting pot here is almost as varied as in the United States.

## DEATHS

WYATT— In Belleville on Friday morning, Sept. 8th., 1939, Mrs. Amy Alberta Wyatt, widow of Henry Wyatt, age 75 years.

The funeral will take place from the residence of her son, Mr. R. A. Wyatt, 288 Coleman Street, on Sunday, Sept. 10th., at 12.30 o'clock p.m. (Standard Time) to the United Church at Cooper, Ont., for service at 2 o'clock p.m. (Standard Time). Interment in Cooper Cemetery. s8-1t

### AT THE McCARTHY

"Blondie Takes a Vacation"

There will be, amongst the Bumstead family's millions of screen fans, a few doubters who say: "They can't be any funnier than they were in their first films." Those few doubters are urged to join McCarthy theatre audiences and learn better. The Bumsteads—lovely Blondie, harassed Dagwood, delightful Baby Dumpling and timid Daisy, the dog—are back, funnier than ever!

The third of the Columbia series of rollicking human comedies based upon the Chic Young cartoon strip is called "Blondie Takes a Vacation" and it is happier, more carefree, more completely enjoyable than "Blondie" or "Blondie Meets the Boss," first two of the sensational Bumstead films.

The same principals are featured. Pretty Penny Singleton is Blondie. Arthur Lake, a guffaw-getter if there ever was one, plays Dagwood. Little Larry Simms is Baby Dumpling. Even Daisy, the dog, is back, full of tricks and gay antics.

Blondie, Dagwood, Baby Dumpling and Daisy, starting the first day of their vacation in their usual whirlwind of confusion, set off for a lakeside resort. On the train they meet a genial pyromaniac named Gillis, played by Donald Meek, and a tough-crusted businessman named Morton, played by Donald MacBride. After several hilarious mishaps the family arrives at the lake. Morton, who owns the leading hotel, refuses them admittance, an act hardly to be wondered at after the way Baby Dumpling and Daisy plagued him during the train ride.

The Bumsteads go to the only other hotel on the lake, where they learn that its owner has been subjected to unfair competition by Morton and is about to go out of business. Eagerly siding with the oppressed, the Bumsteads try to help him.

Before it ends the Bumsteads' vacation has been ruined, but the audience has had a glorious time. Fast paced, brimming over with laughable situations, "Blondie Takes a Vacation" is a delight from opening title to final fadeout.

"North of the Yukon"

Action, adventure, romance and colorful drama with the most colorful police force in all the world—the Royal Canadian Mounted Police, is also a treat in store for the McCarthy theatre patrons coming to see "Blondie Takes a Vacation" for in addition Charles Starrett in a role of a Canadian Mounter Police officer is presented in a second feature hit entitled "North of the Yukon", one of the best stories woven around the lives of the "mounties" ever made. Besides, the star Charles Starrett, Linda Winters, a newcomer, Bob Nolan and the popular Sons of the Pioneers, famous radio and screen songsters, turn in ideal performances that is certain to appeal to every boy and girl under seventy. A clever cartoon entitled "Scrappy's Playmates" is also now on the screen at the McCarthy theatre with the above two outstanding feature attractions.

### AT THE BELLE

"Frontier Marshal"

Blood-tingling action will be the order of the day when "Frontier Marshal" opens next at the Belle Theatre, with Randolph Scott and Nancy Kelly in the leading roles.

This stirring 20th Century-Fox production tells the vivid story of the wickedest, wildest town of the dangerous old West, where life wasn't worth a lead nickel—until a gun-fighting marshal brought in the law at the shooting end of a sixgun.

Scott is seen in the title role as Wyatt Earp, whose fabulous exploits tamed Tombstone and who stayed alive because nobody every beat him to the draw, while Nancy Kelly is cast as a beautiful, brave, unflinching girl who followed the man she loved to this wide-open town in the hope of saving him from himself.

Romero has the colorful role of Doc Holliday, elegant gambler and deadly killer, a man who for reasons best known to himself, has given up a useful life in the East to come to this wild borderland to wait for death. Loved by two women, he was feared by every man—until Wyatt Earp walked in.

Binnie Barnes is seen as Jerry, volcanic dance hall queen, one of the two women whose desperate rivalry contributes a dramatic note to the story, and John Carradine plays the villainous proprietor of the roisterous dance hall, the Palace of Pleasure.

Dionne Quintuplets

A special extra attraction on the same prhogram are the Dionne Quintuplets celebrating their fifth birthday. All decked out in their Royal Presentation dresses in the film appropriately titled "Five Times Five" with the noted commentator and critic, Alexander Woolcott, describing the antics of the most lovable cherubs in the world, truly twenty minutes of the most delightful entertainment we've ever given you.

The Belle News and Views and a timely Sports Review, "Inside Baseball" will also be exhibited.

Hedy Lamarr Leaving

Hedy Lamarr, the most sparkling beauty ever to reach the screen is co-starred with Robert Taylor in the gripping, romantic drama, "Lady of the Tropics" now at the Belle with a clever Pete Smith specialty, "Marine Circus" all in Technicolor, a funny Robert Benchley comedy, "Dark Magic" and a new and interesting personality film, "The Story of Dr. Jenner."

The leaf fish resembles a dead leaf in dark coloring and shape, and by its appearance as it floats near the surface.

Mischa Auer, Dennis O'Keefe, Sanda and Chirley Ross in "Unexpected Father," now playing with a second feature, "Forbidden Valley" at the Capitol Theatre.

### THREE RECAPTURED

GUELPH, Ont., Sept. 8—(CP)—Antione Brunette, 20, of Cochrane, Stanley Edwards, 17, North Bay, and Richard Landry, 20, of Niagara Falls, were recaptured near Puslinch today after they escaped late yesterday from Ontario Reformatory. Puslinch is about 10 miles from Guelph.

The three escaped by forcing a steel grill door in the tailor shop with a bar. They headed towards the quarry on the reformatory property and eluded pursuing guards.

### 15-YEAR-OLDS SENT HOME

Peterborough, Ont., Sept. 8—(CP)—When members of "C" Company, Midland Regiment, were called up for guard duty yesterday, two 15-year-olds were discovered among them. The boys had joined the battalion last summer. They were immediately sent home.

The U.S. Indian Service maintains 94 hospitals and sanatoria for Indians, exclusive of those in Alaska.

# THE GLASS SLIPPER

By Mignon G. Eberhart

"Oh yes. Crystal—had a kind of empress complex about money. It kept me going sometimes to pay the bills. ....Besides, it gave her an extra claim upon Andy. An extra obligation. But except for this house and the bequest she left Alicia there wasn't really much property remaining; her will gave all she had to me—years ago when it was made, it was considerable. When she died there was very little. In short, if Andy had consented to her divorcing me he would have found himself married to a woman he didn't want, a woman with extravagant tastes, with little money herself, and Andy's whole career blasted. So he thought."

"Alicia", said Rue without knowing she was going to say it. He caught her up quickly.

"I couldn't defend myself before Steven," he said, "And you wouldn't listen to what I had to say. But I couldn't rob Steven of his last illusions of Alicia. I couldn't tell him—"

"Tell him what, Brule?"

Brule turned swiftly to her. He was kneeling at her feet; he took her hand and looked earnestly, almost pleadingly as Madge had done, into her eyes.

"Rue, will you try to understand? Alicia—was there, you see. Always there when I was lonely; always entertaining, always agreeable, a friend of the family's. Gradually, I don't quite know how, I began—to accept Alicia. I didn't love her; I don't think she ever loved me really, for Alicia doesn't love, she merely seeks a pleasant and comfortable life for Alicia. We were together a lot. Once Crystal got suspicious and began to ask questions, and Alicia roped in Steven as easily as—as she'd pull in a trusting dog on a leash. Alicia didn't want to lose Crystal's very remunerative friendship. That settled Crystal; Crystal didn't want me herself, but she was vain and she was considerably older than I and conscious of it—she didn't want Alicia, a younger woman, to take me away. But with Alicia and Steven engaged, everything was all right. I—I don't know what I felt during that time; mainly, it seems to me, I was tired—and in a trap of my own making. Well, at any rate, Alicia kept strengthening that intangible thing that existed between us; when Crystal died I felt in duty bound to ask Alicia to marry me. Besides, it would have pleased Madge. And Alicia refused. I believe Alicia more than half believed I had murdered Crystal myself—for love of Alicia. And I thought—" He bent his head suddenly and placed it upon Rue's hands.

"Rue, here's where the forgiving comes in. You see, I thought that if I married somebody else it would end the—the entangling affair with Alicia. It was never—you'll have to believe me—what you'd really call an affair."

"Steven...." whispered Rue.

His face turned on her hands.

"Steven," he said. "I couldn't go to him and say: 'Look here, you must break your engagement with Alicia because she has led me to believe she's in love with me.' And to tell the truth, Rue. I didn't care very much. About anything. I was tired and I'd worked like a dog for years, and I—everywhere was disappointment and weariness and sham, and I—I couldn't see anything that I'd gained. All those years of hard work, and I had reached a stalemate. I had absolutely nothing that was of value to me, Except Madge. And she was, then, her mother's child. I'd been too ambitious. I...." He stopped.

And simply turned his head on her hands and kissed them.

"I want you, Rue."

There were tears on Rue's cheeks.

Brule looked up; his eyes sought into her own deeply, searchingly, half afraid. She'd never known Brule to be uncertain.

Then he saw the tears.

After a moment he touched her wet cheeks gently with his fingers.

And took her slowly in his arms and kissed her mouth.

"I love you...." he said.

Rue's heart sang madly: I've always loved you. I've always—always—always loved...."

She caught back the words.

"We'll go on a trip. Have you ever been to France, Rue? We'll sit in golden sunshine beside a sea as blue as your eyes. When we've tired of that we'll go on....and on...."

"Home...." said Rue.

"Home. I'll get a house in the country on a river. There'll be flowers and sunshine and blue sky—and you, Rue...."

The phrase repeated itself goldenly, following her into dreams.

THE END

## ENTERS CABINET

servative member of parliament, has been named minister of economic warfare in the enlarged British cabinet of Prime Minister Neville Chamberlain. Cross' work will be similar to that of Viscount Cecil, who was minister of blockade in the last war.

# TURKISH OFFICIAL TERMS HITLER KILLER OF NATIONS

### States the German People a Herd Marked for Sacrifice

### PUBLIC WARNED

Ankara, Sept. 7 (CP-Havas) — The semi-official Turkish newspaper Ulus today denied reports that German-Turkish trade negotiations had been undertaken. It warned the public against cabled news inspired by the German propaganda machine.

An article signed by "Burhan Belge," the pseudonym of a prominent Turkish political and literary figure, said:

"The world has realized that in the heart of the most civilized continent a killer of nations has been born who, armed with an axe, assassinates nation after nation. The aggression without notice against Polish territory has been enough to show how dangerous it is to have relations with the German of today.

"What a regime it (the Hitler regime) is, with the objective of serving the angers of a single man with the violence characteristic of the rage of the gods!

"Today the German people is a herd marked for sacrifice, delivered to war and threatened with hanging if it listens to the radio.

"To what a state has the Germany of Goethe and Luther been reduced!"

### ORDERED TO REPORT

Berlin, Sept. 7 (AP)—All British subjects in Germany above the age of 15 were ordered today to report to local police stations within 24 hours by Wilhelm Frick, Interior Minister.

# GERMAN MINISTER ORDERED TO LEAVE

### Government of Iraq Solidly Behind Britain in the Present War

London, Sept. 7 (CP)—The Ministry of Information announced today that the Government of Iraq—the Mesopotamia of great war days—had ordered the German Minister in Baghdad to leave the country within 24 hours and that the Iraq envoy in Berlin had been instructed to ask for his passports.

The Information Ministry announced a number of German citizens of military age "or otherwise regarded as dangerous" had been interned in Iraq.

This one-time British mandate is important to any warring power because of its rich oil lands, development and production of which are in large measure in British hands.

The country, now an independent state, is ruled by a regency. Its king is four-year-old Faisal II whose father, King Ghazi, was killed in an automobile accident last April 4.

British dispatches from Iraq said the German Minister, Doctor Grobba, already had left for Syria with his staff.

### MEMBERS ORDERED HOME

New York, Sept. 7 (AP)—About 750 members of the crew of the British liner Queen Mary were reported today to have been ordered to return to England in the liner Georgic, leaving only a skeleton force of 300 here.

The Queen Mary is being painted grey, possibly for a return trip without passengers.

Most of the 30 men remaining are engineers and maintenance crews, while the men who will leave on the Georgic are stewards, waiters and other servants.

### CAR OF FUTURE

Considering the recently "previewed" automobiles of 1940 it is evident that their designers still find it difficult to profit by experience. Streamlining, for instance. We bandy the word about when we talk of fountain pens, millinery or office furniture. Yet there is not a single truly streamlined car on the market today, though the airplane makers paved the way over a quarter of a century ago.

Why is the engine still put in front, with a hood that obscures the road? And why are there running boards, when in a properly designed car it should be easy to step directly upon the floor? And doors. Open wide those of today and they are a menace in traffic. Obviously they ought to slide.

How many car owners use the more than ample baggage space provided in the rear as often as five times in a year? We want that space, now that cars are getting lower and lower, and we find it hard to coil and uncoil ourselves in entering and alighting.—New York Times.

### TORONTO STOCKS, 2.15 P.M.

TORONTO, Sept. 8—(CP)— Industrials advanced strongly today on Toronto exchange. Steels, papers and base metals displayed strength in spots up till noon. Tendency was downward later. Golds were weak and western oils held to the up side.

The market failed to reflect the wide gains posted in Wall Street by the "war babies". Nickel held a narrow gain while Noranda and Hudson Bay weakened 2 points or more and losses appeared for the cheaper issues, including Waite-Amulet, Sherritt, Ventures and Falconbridge.

Lake Shore and McIntyre weakened about 2 points and more moderate declines were posted for Hollinger, Macassa, Kerr Addison, Preston, Sylvanite and others.

The Abitibi stocks, Consolidated paper, Dominion Steel B, National Steel Car and other steels were sharply higher, Abitibi pfd. gained about 3 points. Senior oils also were strong.

Gainers in the junior oils included Home, Calgary-Edmonton, Calmont and Ajax.

### WALL STREET CLOSE

New York, Sept. 8—(AP)—Stocks with a war flavor hit the high spots in today's market as traders who cashed in yesterday returned for large commitments.

Gains ran to 4 or more points at the best, with two bursts of speed before noon putting the ticker tape behind as much as two minutes. Blocks of 1,000 to 5,000 shares changed hands during the intermittent buying waves.

Steels, aircrafts and motors were in the forefront of the push, with rails, coppers, mail orders, oils and chemicals trailing.

Some of the early bulge in stocks was attributed to the move for a special session of Congress, with Sept. 18 mentioned, for the purpose of amending the Neutrality Act which would permit belligerents to do munitions business in this country.

Prominent share gainers were U. S. Steel, Bethlehem, Chrysler, General Motors, Douglas Aircraft, United Aircraft, U. S. Rubber, Anaconda, Du Pont, Allied Chemical, N. Y. Central, American Telephone, Standard Oil of N. J., Fajardo Sugar and Montgomery Ward.

Hiram Walker gained a point and C. P. R. a minor fraction in the Canadian group. Fractionally off, however, were Dome, McIntyre, Porcupine and Distillers. Dominion 4s lost around a point in the bond market.

Defending champion in the U.S. amateur golf championship, being held at the North Shore club in Chicago, is Willie Turness, ABOVE, member of the golfing Turnesa family. William was one of the few players to better par over the tournament course before competition began. Six Canadians are out after his title, the issue is to be settled after a week's play on Sept. 16.

# Seasonal Demand Raises Egg Price

Toronto, Sept. 8—After two days of brisk advances, butter and cheese prices did little more than hold even at Toronto yesterday. On the other hand eggs showed gains ranging to 2 cents per dozen.

Although sellers were inclined to hold rather than offer, dealings quietened down on the butter market and prices settled at the firm figure of 26c for No. 1 Ontario creamery solids. Production in this Province is approximating that of last year, with the August butter output about 300,000 pounds under a year ago. The Ontario Department of Agriculture reported 9,489,776 pounds of creamery butter produced in August, as compared with 9,778,541 pounds a year ago. For the first seven months production amounted to 61,455,369 pounds, with the make for the like period of last year at 61,735,106 pounds.

The manufacture of cheese for Ontario continues to mount. Output last month totalled 14,043,006 pounds, as against 13,748,397 pounds a year ago. The Province produced 58,219,731 pounds during the seven-month period, which compare with 55,713,887 pounds last year, an increase of 2.5 million pounds.

The advance on the egg market was said to be seasonal and not an outcome of the present war. Fresh receipts were quite light and demand remained good. Montreal was still attracting shipments with stronger prices.

**Montreal Produce**

Montreal, Sept. 8 (CP)—Produce market prices here as reported by the Dominion Agricultural Bureau, follow:

Butter: First grade creamery prints, job price, 27c to 28c; first grade solids, job price, 26 1-2c to 27 1-2c.

Cheese: Quebec white, wholesale price 10 5-8c nominal; Quebec colored, wholesale price, 11c nominal. Receipts, 1,035 boxes.

Eggs: Graded shipments in used free cases, A-large, 32c; A-medium, 30c; A-pullets, 25c; B-large, 23c; C, 16c. Receipts, 1,860 cases, including 1,500 export.

## HOG QUOTATIONS

Toronto, Sept. 8—(CP)— Hog prices rose on most reporting markets today. Dressedweights in Hull rose 65 cents to $10.65 to show the widest increase. London, Stratford and Hamilton dressedweights advanced 50, 25 and 10 cents, respectively, and Hull liveweights 50 cents.

Dressedweights: Hamilton $10.75, Hull $10.65, Peterborough $10.50, Stratford $10.50 plus transportation, Brantford $10.85, London $10.50, plus transportation.

Liveweights: Hull $8.

# Belleville Couple Not Seriously Hurt As Tree Crushes Tent

PETERBOROUGH, Ont., Sept. 8—(CP)—Roaring out of the northwest, a cyclonic windstorm accompanied by thunder and lightning left a broad trail of damage east of Peterborough early today. Barns were damaged, garages caught up into the air and blown away without damaging the automobiles they had sheltered.

Hundreds of trees were levelled. Telephone and electric lines were caught in a tangle, leaving the village of Havelock, 26 miles east of Peterborough, without light and telephone service. Residents of the village and district say the storm was the worst in this area in years.

Mr. and Mrs. J. Cokers of Belleville were sleeping in their tent beside a trailer on Belmont Lake when the storm broke and a large tree crashed through the tent. The Belleville couple were not injured. Charles Seaman of Belmont Lake said the windstorm sounded like the roaring of a great bush fire and trees came crashing down. Barns were flattened like flimsy things of cardboard.

# SETTLING DOWN FOR LONG WAR

## France and Britain Showing No Haste or Over-Reaching in Military Operations

(By Jean Allary)
(Copyright, 1939, by the Havas News Agency)

Paris, Sept. 8. — (CP-Havas) — France and Great Britain appear to be settling down to a long war.

Neither in military operations nor in political steps designed to facilitate conduct of the war is there any haste or over-reaching.

Each successive communique confirms new gains, but authoritative indications are that these apply only to advance units. It is obvious that there is no intention of precipitating large-scale action until all the elements making for success have been properly assembled.

The same calm prevails in Britain, whose navy is methodically clearing the seas and whose air force is carrying out reconnaissance flights. Both countries are showing that they have "plenty of time", that they are confident in Poland's resistance, even back of the Vistula if necessary.

They will choose the time and circumstances for dealing their blows to the enemy as and when they deem conditions favorable. On the other hand Germany's Limited stocks and resources seem to have resulted in a decision to try and force a "lightning" war.

Meanwhile Premier Daladier is considering government reorganization. It was believed to be either a question of including heads of all political groups in order to establish a formal National Union, or one of calling on non-political experts. The latter alternative was believed favored, since a "sacred union" of all Frenchmen has in fact been already realized in the common reaction to German aggression.

# Cheese Board

Two weeks' make of cheese was boarded by many factories at last evening's regular Cheese Board, but many salesmen refused the offer of 11 and 11 1-4 cents offered by buyers.

A total of 5759 white and 266 special colored cheese was boarded. 4420 white sold at 11 1-4 cents; 266 special color at 11 1-4 and 1336 white went unsold.

Buyers were Mr. Hart, Mr. Hunter and Mr. McCreary.

Buyers present were Messrs. Stiles Taylor, Hart, Hunter, McCreary, Cook, Morton, Fraleigh and Murphy.

The following are factories represented:

# ILE DE FRANCE IS NEARING N.Y.

## French Liner Believed to Have Left France Sunday With 1,000 Passengers

New York, Sept. 8 (AP)—The French liner Ile De France was believed to be nearing New York today with more than 1,000 passengers.

The 42,000-ton vessel was completely shut off from communication as she sped over the North Atlantic presumably at her full 21 knots.

Shipping authorities kept an eye out for her yesterday, but expressed little or no anxiety. Some confusion over her departure time from Le Havre grew out of the censorship placed over all French shipping news last Saturday.

The best estimate was that the liner left Le Havre on Sunday which would put her in New York some time Friday on the normal run.

Her younger but bigger sister, the Normandie, lies idle at her New York pier, having cancelled all sailings since the outbreak of war.

# OBITUARY

### MRS. AMY A. WYATT

After an illness of nearly one year's duration Mrs. Amy Alberta Wyatt, widow of Henry Wyatt, passed away this Friday morning at the residence of her son, Mr. R. A. Wyatt, 288 Coleman Street.

The late Mrs. Wyatt was born 75 years ago at Queensboro, Ontario, her parents being the late Mr. and Mrs. Thomas Bradshaw. For some years she resided in Madoc Township and for the past nine years she made her home in Belleville. In religion she was a faithful member of the United Church, and when age and health permitted she took an active interest in church work.

Surviving to mourn her loss are three daughters, Mrs. Charles Hannah, Frankford; Mrs. Clare Sills, Corbyville; Miss Yola Wyatt, Toronto; five sons, Mr. Arthur Wyatt, Cooper; Mr. Lester Wyatt, Corbyville; Mr. Stanley Wyatt, Corbyville; Mr. Claude Wyatt, Frankford and Mr. R. A. Wyatt, Belleville; one sister, Mrs. Archie Fields, Toronto, and one brother, Mr. Harold Bradshaw, Toronto.

The funeral announcement is made elsewhere in this paper.

### LATE MRS. M. J. STEPHENSON

The funeral of Mrs. Mary Jane Stephenson took place Thursday afternoon from the residence of her son, Mr. Isaac Stephenson, 106 Great St. James Street. The service in the home and at the graveside in Belleville Cemetery was conducted by the Rev. L. S. Wight.

The bearers were Messrs. Victor Morris, Lloyd Morris, Gordon Morris, John Stephenson, William Stephenson and Isaac Stephenson, Jr., all of whom are grandsons of the late Mrs. Stephenson.

# Mayor Bone Thinks Gov't Should Declare War Without Delay

Canada must definitely declare herself allied with the Empire and at war with Germany. No other course is open. The mere announcement that "a state of war exists", said to be under consideration by the government will not satisfy the residents and citizens of Canada, declared Mayor Jamieson Bone today.

The following telegram signed by the Mayor as first vice-president of the Ontario Mayors' Association and as regional secretary of the Canadian Federation of Mayors and Municipalities was sent to the Rt. Hon. R. J. Manion, leader of the Conservative party.

"All loyal Canadians feel positively revolted at the attitude of Mackenzie King regarding the non-declaration of a state of war.

"He is quite mistaken in thinking that Quebec is any less loyal than Ontario, and his attitude is an insult to them and all Liberals.

"Please help him make up his mind before we mayors demand his resignation and the resignation of his cabinet."

Signed, Jamieson Bone.

# England Ships More Bullion To America

Washington, Sept. 8 —(AP) — European gold shipments to the United States nearly doubled in the week preceding European hostilities.

The Commerce Department said $106,911,037 of the metal was imported in the week ended Sept. 1, compared with $55,711,064 the preceding week.

Shipments included $95,460,806 from England, $2,754,561 from India and $5,641,854 from Japan.

Silver imports declined slightly to $1,000,307, including $422,315 from Mexico and $379,041 from Canada.

Exports amounted to $2,476 of gold and $156,799 of silver.

# GERMAN PLANES ARE SHOT DOWN

## Communique from Germany Admits Loss of Two Machines

BERLIN, Sept. 8—(AP)— The German high army command early this afternoon issued the following communique:

"The army group fighting its way to Warsaw in a rapid advance from the southwest came within 25 miles of the Polish capital, capturing the town of Mszczonow.

"Two German planes were shot down over Polish territory, one missing. German territory also yesterday was not attacked.

"In the North Sea and Baltic, the navy conducted a number of mine investigations. Units of a mine-sweeping flotilla shelled a Polish coastal battery which returned the fire without success.

"The fourth Polish submarine has been destroyed."

# Mrs. P. Sagriff Of Enterprise Killed

ENTERPRISE, Ont., Sept. 8 —(CP)— Mrs. Patrick Sagriff of Enterprise was killed today when struck by a Canadian Pacific Railway train. She was hurled 40 feet. She was reported to have been deaf and apparently did not hear or see the train approaching. A step-son was killed in a similar accident 20 years ago.

# Ships That Have Sunk

(By The Associated Press)

Following is a record of Maritime losses in the European war:

Sept. 3, 1939—Athenia (Br.) 13,581 gross tonnage. Sunk 200 miles west of the Hebrides by a German submarine 1,347 persons passengers and crew, on board. Loss of life not determined.

Sept. 4—Olinda (Ger.) 4,576 gross tonnage. Sunk in South Atlantic by British Cruiser Ajax. Crew saved.

Sept. 4—Kosti (Greek) 3,933 gross tonnage. Struck mine in the Baltic, two miles south of Falsterbo, Sweden. Crew of 29 rescued by German ship.

Sept. 5.—Bosnia (Br.) 2,407 gross tonnage. Torpedoed 100 miles off coast of Scotland. One man killed. Norwegian tanker rescued 31 other members of crew and one passenger.

Sept. 5—Carl Fritzen (Ger.) 6,594 gross tonnage. Sunk in South Atlantic. Crew saved.

Sept. 6 — Inn (Ger.) 2,867 gross tonnage. Sunk in mid-Atlantic. No details regarding crew.

Sept. 7—Royal Sceptre (Br.) 4,853 gross tonnage. Loss announced but no details given.

Sept. 7—Olive Grove (Br.) 5,060 gross tonnage. Sunk by submarine off Irish coast. Crew of 33 allowed to abandon ship in lifeboats and picked up by United States liner Washington.

Sept. 7—Manaar (Br.) 7,242 gross tonnage. Sunk in Atlantic off the Portuguese coast; 88 in crew; two known dead, three wounded, 40 missing.

Sept. 7—Pukkastan (Br.) 5,809 gross tonnage. Torpedoed off coast of Ireland. No details given.

Sept. 7—Tamara (Fr.) 3,747 gross tonnage. Reported sunk off northwest coast of Spain but sinking unconfirmed.

Sept. 8—Heldrid Bissmark (Ger.) 727 gross tonnage. Sunk in Ore Sound on eastern side of Danish Peninsula between the Island of Sjaelland and Sweden. Seven members of crew killed; seven rescued. Survivors believed ship struck mine.

# Bulletins

(Continued From Page One)

### MEXICO APPEARS FAVORABLE TO BRITAIN

Mexico City, Sept. 8 (CP-Havas)—A statement issued on behalf of President Lazaro Cardenas last night said Mexico proposed to export raw materials to "those combatants who deserve Mexican sympathies, because Mexico cannot remain indifferent when the destinies of the world are at stake in this fight."

The statement, delivered by Foreign Undersecretary Ramon Beteta, was interpreted widely as an indication that Mexixco would favor Great Britain and France in their war with Germany.

### BRITISH PLANES ACTIVE NEAR SUMATRA

Berlin, Sept. 8 (AP)—The Supreme High Command admitted today that British planes had attacked the German steamship Franken two days ago off Sumatra in the Netherlands East Indies.

The Germans claimed the attack was unsuccessful and alleged it was made in neutral waters..

(British planes are based at the great naval base of Singapore, 300 miles away.)

### GERMAN SOLDIERS COMPLAIN OF FOOD SHORTAGE

London, Sept. 8 (CP)—The Ministry of Information in its morning communique today said reports had been received that German soldiers in the Siegried line were complaining of food shortages, bad ventilation and that "dugouts are crowded with munitions.."

The Ministry of Information also announced that reliable sources had reported a bonus of five Reichsmarks was being paid to anyone in Germany who informed on persons expressing disaffection.

"It is reported from the same source that Bavarians, although unenthusiastic about the war, still blindly trust the Fuehrer. They appear to harbor no bitter feelings against England."

### MINE-SWEEPER WRECKED BY EXPLOSION

Amsterdam, Sept. 8 (AP)—A Netherlands mine-sweeper was disabled today by an explosion which survivors said was caused when the vessel struck a mine. Twenty-nine of the crew were killed.

First reports did not disclose whether the vessel sank and it was not definitely established how many were aboard.

Netherlands planes and naval craft started from the Helder naval base for the scene, off the Netherlands' north coast, to aid in rescue work and investigate the circumstances of the explosion.

Berlin, Sept. 8 (AP)—The German High Command today claimed a German army unit forced an entry into Warsaw at 5.15 p.m. (12.15 p.m. E.D.T.).

The announcement called the united armored troops (presumably an armored car formation).

It was further reported the troops had reached Nadarzyn, 12 miles southwest of the Polish capital.

### UNIDENTIFIED SUBMARINE SIGHTED

Boston, Sept. 8 (AP)—An unidentified submarine was sighted today by the crew of the Pollock Rip Lightship, which guards the westerly approach to Nantucket Sound, Coastguard Headquarters at Boston reported.

# FIGHTING CRAFTS

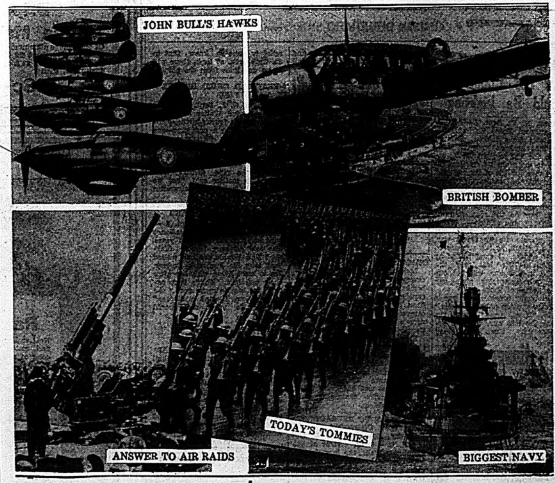
(Continued From Page One)

Asked how many Canadian firms were equipped to manufacture aircraft, he named "Fairchild, Vickers, Dehaviland, Boeing, Montreal Aircraft, Nordhuyn, Fleet, National Steel Car, Canadian Car and Foundry, Ottawa Car and Cub Aircraft."

Of the 11 companies, three are manufacturing airplanes already for the Canadian government and one for the British government, he said.

Mr. Sise said the Fleet Corporation is producing training ships, the National Steel Car Company is building Lysanders, and Vickers has contracts for Bolingbroke ships and flying boats, all ordered by the Dominion. The Canadian Car and Foundry has orders for Hawker Hurricane machines from the British government, he added.

"We are all building parts for Hampton machines," Mr. Sise concluded. "They will be assembled at two plants. Canadian Associated Aircraft are building British types just now and they are equipped to turn out any type at all."



Prime Minister Chamberlain informed the House of Commons that German air defences had been unable to stop British planes from dropping 10,000,000 pamphlets, telling the German people that Hitler was the cause of the present war, on various parts of Germany. Mr. Chamberlain reported that all the planes used for this purpose had returned safely to their bases. He also told the House that British bombers had been successful in their raid against German naval ships in the Kiel canal.

# Retired U.S. Admiral Says His Country Should Be Fighting

Albany, N. Y., Sept. 8—(AP) — Rear Admiral Yates Stirling, United States Navy retired, declared today that America "may be forced into the war to fight for its security, to maintain its freedom, in fact to save the life of the nation."

Germany, "by torpedoing innocent women and children on merchant ships," has shown she will not conform to the rules of conduct in war on the seas, Admiral Stirling said, and added:—

"We do wish to preserve our neutrality, because we detest war, but not I think, at the expense of our self respect. If such things as happened in the last war are repeated in this one, will not our neutrality be accepted as giving our tacit approval of those acts?

"I personally consider this war is but a continuation of the last one," he said. "If we were correct in fighting the last war, which I believe we were, then we belong alongside of Great Britain and France today against Hitler and all he stands for."

The retired navy officer said the character of Germany's war on the seas, especially the actions of German submarines, will be an important factor in determining whether or not the United States enters the war.

He suggested the United States declare a neutral zone in the Atlantic and Pacific in which all operations of submarines of all belligerents would be barred. Any submarine found operating in these zones would be declared a pirate and treated as such.

## FAREWELL TO BACKACHE!

Her back ached—she felt miserable—no pep—she couldn't be "bothered" to go out—lost contact with her friends and was lonely. Her sister advised her to take Dodd's Kidney Pills. Her backache soon vanished—enthusiasm and energy returned—her eyes sparkled—her step was sprightly—and once again she was her "old self." 115

Say GOODBYE TO BACKACHE with **Dodd's Kidney Pills**

## News Briefs And Oddities

### LARGE BOMB FOUND

London, Sept. 8—(CP)— Discovery of one of the largest bombs examined by Home Office experts since the Irish Republican Army began its terrorist campaign in Great Britain was revealed in Bow Street Police Court today.

Five men who appeared on charges of violating the Explosive Substances Act were held for a hearing next week.

Also found in rooms used by the five were detonators, an alarm boxes and hat boxes filled with ear-muffs containing gelignite cartridges.

### CLERGYMAN TO REFRAIN FROM WAR COMMENT

London, Sept. 8—(CP)—Reverend E. B. Cook, Vicar of St. Cuthbert's Wells, the largest parish church in Somerset, today promised his congregation to refrain from commenting on the war in his sermons.

The Vicar remarked: "Everyone has to think quite enough about the war all the rest of the week and perhaps it will be a relief to some to know that in St. Cuthbert's, at least, there will be no war talks from the pulpit.

### 4-YEAR-OLD CHILD BREAKS IN A NEW PIPE

Trenton, N. J., Sept. 8—(AP)— Tow - headed Walter Crawford celebrated his fourth birthday today by smoking a new pipe—one that replaced a Christmas gift pipe he broke several weeks ago. He has been smoking since he was little more than a year old. "Smoking a pipe doesn't hurt him," his mother said, "but we feel that cigars and cigarettes are bad."

### WIFE'S PATIENCE BREAKS

Jersey City, N. J., Sept. 8 — (AP)—Rebecca Duhne's patience with her husband lasted 27 years. She told Advisory Master Marshall Van Winkle she had waited that long for Frederick Buesser, Jr., to start living with her after their marriage. "That's long enough for him to make good," she said. "Now, I want a divorce." Van Winkle ruled she should have it.

### FRIENDSHIP AFFECTS APPETITE

Oklahoma City, Sept. 88—(AP) —Grainite Reformatory's pet bull elk drowned in a stock pond. Warden Fred Hunt wrote Game Warden K. D. Turner: "You understand that through the friendship we had for the elk it would be impossible for us to use one pound of this meat." Turner said the 250 pounds of dressed meat would be sent to an orphanage.

### JAPS RELEASE COL. SPEAR

Peiping, Sept. 8 (AP)—Colonel C. R. Spear, British military attache in China, who had been detained by the Japanese since May 25 on an accusation of anti-Japanese espionage in Northwest China, was released today.

# WARNDT FOREST CAPTURED

# German Soldiers Blast Pontoon Bridges While Reinforcements Move Up At Trier To Thwart Flanking Attack Of French

## German Civilians Leave Towns In Moselle, Saar Regions, Saarbrucken

### Rich Saar Basin Near Forest Lies In Path of French Advance

PARIS, Sept. 9 (AP)—The French High Command announced today the Warndt Forest, west of Forbach, had fallen almost entirely into the hands of French troops.

Communique No. 11, issued this morning, said:

"Activity in the course of the night by our first line land forces:

"The great forest of Warndt, west of Forbach, is mostly in our hands. It was found filled with evidences of destruction and traps of all sorts.

"Our aviation continues active in support of land forces."

An earlier communique said French tanks and infantry units had reached the Saar River in Germany on a left side flanking attack against the Siegfried Line.

The French forces, these reports indicated, have penetrated from seven to eight miles into German territory.

GERMANS BLAST PONTOON BRIDGES

Retreating German soldiers blasted railroad pontoon bridges across a narrow stream winding north and west from France and emptying into the Moselle River near the German City of Trier, where the French expect to meet the main German fortifications.

German reinforcements are moving up toward Trier, French air observers reported.

However, military experts did not expect a major conflict to develop in this region for several days because of the difficult terrain and the necessity of keeping French flanks protected through the forested, hilly country.

The French action rolled along the irregular left side of the giant inverted "V" which represents the Maginot Line. That "V" thrusts toward Germany. The left side extends from the Luxembourg border to Lauterbourg, near the Rhine, but the French penetration is greatest in the area between neutral Luxembourg and Forbach, a distance of about 35 miles.

The rich Saar basin lies just opposite Forbach in the path of the French advance.

Dispatches have reported German civilians are leaving towns in the Moselle and the Saar River regions, including Saarbrucken, important river city of 130,000. The Saar region was returned to Germany in the plebiscite of January, 1935.

FRENCH PROCEEDING CAUTIOUSLY

Evidently the French are proceeding cautiously in this "fortress war", because they are moving always against unlocated, scattered pillboxes in "no man's land" between the Maginot and the Siegfried Lines.

French aerial photography in this sector has been extremely useful, dispatches said.

With the British air force harrying the Kiel Canal area and both nations apparently fully ready for a long war, French leaders emphasized "Hitlerism must be destroyed".

An army communique also added the information that "on the sea our patrol forces are showing very great activity. Cooperation with the British naval forces is closely assured, with a view to defending sea communications."

## French Historian Believes Poles Will Dig In For A Long War

By LUCIEN ROMIER

Director of Le Figaro

(Written For Havas News Agency)

PARIS, Sept. 9—(CP-Havas) — Germany's reinforcement of the western front indicates French pressure between the Rhine and Moselle Rivers has diverted reserves of men and equipment which the Nazis hoped to use to crush Poland.

The Poles, following plans believed drawn up long in advance, will probably organize their decisive defence as soon as they have withdrawn from the most dangerously exposed positions. This shortening of the front will reduce the advantages Germany enjoys from its superiority of manpower.

The decisive defence may take the form of a counter-offensive or of "digging in" operation with a view to a long war.

The transfer of government offices from Warsaw to Lublin, a city of 100,000 inhabitants between the Vistula and the Bug rivers, indicates natural water barriers will play a capital part in Polish strategy.

**Germans Handicapped**

If the front is fixed on the Vistula, the Germans will find themselves some 160 miles from the bases from which they are started, and in a part of Poland where roads and railways are rare.

Polish resources for a long war are more adequate than is ordinarily believed. Lublin itself is an agricultural and metal-working centre. Forty-two miles to the east, on the Bug River, Chelm is a centre of food industries.

In sending fresh troops to the western front, Germany faces the problem of finding transportation facilities to move men and materials quickly. At present the eastern front in Poland and western front on the Franco-German border, are separated by more than 650 miles.

Months ago German authorities were worried by the condition of the railways and the lack of first class freight cars. Last winter this situation caused delays, particularly in the delivery of Ruhr coal to factories. It is doubted that since then neighboring or friendly states have loaned locomotives and railway cars to the Germans.

**Hope to Relieve Pressure**

The great efforts made by the Hitler regime to build motor highways and improve other roads were inspired in part by the desire to relieve wartime pressure upon the inadequate railway system.

## AIR RAID ALARM ROUSES BERLIN AT DAWN TODAY

### Presumed German Officials at Warsaw Feared Polish Raid and Warned Berlin

### RESIDENTS STARTLED

### Everyone in Berlin Excepting Defence Forces Rush to Shelter Cellars

(By Alvin Steinkopf Associated Press Staff Writer).

BERLIN, Sept. 2—(AP)—A German spokesman said today Adolf Hitler has "placed Germany's frontiers in the east where they were before 1914" and now considers such parts of the occupied sections of Poland as "irrevocably German."

The announcement was made at the daily press conference for foreign correspondents.

(It would mean that Hitler hopes to annex to the Reich not only Danzig and Pomorze (the Polish Corridor) but also those portions of East and West Prussia, Brandenburg, Pomerania, Poznan (Posen) and Silesia which were taken from Germany by the Versailles Treaty and restored to Poland.

**Area is 17,810 Sq. Miles**

(The total area of these districts is 17,810 square miles, the normal population about 3,854,000.)

DNB, the Nazi news agency, claimed German troops had captured Rzeszow and were heading for Jaroslaw in the north Carpathian mountains.

Rzeszow, the railhead between Krakow and Lwow, has a population of 28,000.

(Continued on Page Five)

## Wives Of Soldiers From Paris Receive 28c For Maintenance

Paris, Sept. 9—(AP)—Paris wives who were left without means of support when their husbands were called to the Front will receive approximately 28 cents a day maintenance from the French Government, plus 13 cents additional for each child under 16.

An official announcement said wives and dependents would be paid 12 Francs a day, if they lived in Paris, and an added allowance of 5½ Francs for each child.

Wives residing in other communities with a population of more than 5,000 will receive eight Francs (18 cents) daily. Elsewhere, the allotment is seven Francs (15 cents).

## Field Marshal Goering Denies British Rights Violated In Polish War

By MELVIN WHITELEATHER
(Associated Press Staff Writer)

Berlin, Sept. 9 (AP)—Field Marshal Hermann Goering told the German people today that 'we can hope' the conquest of Poland will be completed "fourteen days after the beginning of the fight"—by Sept. 14.

"That is what happens once the German sword has been unsheathed," he continued. "Once drawn it destroys the enemy."

Goering discounted the theory that Germany can be worn down, declaring that "in the north and east we cannot be blockaded." He claimed that supplies from Russia, Rumania and Yugoslavia for Germany are secure.

Goering spoke in the Rhein Metall Borsig munitions factory in Tegel, a Berlin suburb. The speech was broadcast.

"If you do not believe we have raw materials," he said, "you must agree that the Russians do have them."

The Germans and Russians are not going to be silly as to smash each other's heads for Britain," Goering added. Neither do Rumania or Yugoslavia intend to "get smashed for Britain's sake".

Goering again held out his hand to France, repeating Adolf Hitler's many-times-expressed statement that "Germany wants nothing from France".

He disputed the theory that a long war is weakening to a nation, asserting "we will emerge much stronger". He added: "If necessary we shall walk about in bathing trunks".

He said he doubted whether "Britain really wants to fight".

## 'CASH AND CARRY' BASIS FOR TRADE WITH THE SOVIET

### Unimpeachable Sources Disclose Russia Has Been Calling Reserves Since Thursday

### MAY LIMIT EXPORTS

MOSCOW, Sept. 9—(AP)— Russia today was strengthening her western frontier and simultaneously putting her foreign trade on a "cash and carry" basis.

In unofficial but unimpeachable circles it was learned the Soviet government, since Thursday or possibly before, has been calling up reserves.

In a new decree on foreign trade the government reserved the right to restrict or forbid the export of goods and declared such goods must be paid for in advance.

The effect of the decree on the Aug. 20 trade agreement with Germany was not clear. (The German-Soviet agreement called for a Ger-

(Continued on Page Nine)

## STORM GENERAL IN SOUTH PART OF THE COUNTY

### Outlying Communities Tell Graphic Stories of Damage by Storm

### ROOFS BLOWN OFF

Reports trickling in from outlying communities today bring graphic stories of the heavy damage caused by the terrific wind, rain and hailstorm, that swept the southern part of the county yesterday morning.

Today an area approximately eight miles in width that stretches from the northern outskirts of Stirling to Northport in Prince Edward County is counting its loss in wrecked barns, damaged house, and other buildings, levelled fences and uprooted trees. Orchards felt the weight of the storm in many parts of the gale-swept area, and today many promising crops are but skeletons of their former heavy indications.

(Continued on Page Eleven).

## *BULLETINS*

AMSTERDAM, Sept. 9 (AP)—A message from the Netherlands steamship Breedyk today reported that a 5,548-ton British tanker, Kennebec, had been sung by a torpedo but the entire crew of 32 had been saved.

The message from the Breedyk's master, to the owners of the ship, The Holland-America Line, did not give the location of the sinking.

He said the tanker's crew had been picked up by the Breedyk.

The Kennebec was owned by the Anglo-American Oil Company.

### HENDERSON VISITS KING GEORGE

LONDON, Sept. 9 (CP)—The King gave an audience today to Sir Nevile Henderson, former British Ambassador to Germany.

### GRAF ZEPPELIN REPORTED DESTROYED

LONDON, Sept. 9 (CP)—The Star today said it had heard the German Airship Graf Zeppelin was blown up at its moorings as a result of sabotage at Friedrichshafen Sept. 4.

The Star recalled Swiss sources reported an explosion and the glare of fire Sept. 4 in the direction of Friedrichshafen. The newspaper account gave no indication as to how its information was obtained.

### SURVIVORS QUESTIONED ABOUT ATTACK

GIBRALTAR, Sept. 9 (AP)—Twenty of the crew of the torpedoed British steamship Manaar arrived at Gibraltar today and were immediately questioned by British authorities on details of the attack.

It was reported here that the number of German vessels now taking refuge in Spanish ports totalled about 90. They were mostly at Vigo, Cadiz, Malama and Almeria.

### TO PAINT WILD PONIES LIKE ZEBRAS

LONDON, Sept. 9 (CP)—Because automobiles have been hitting wild ponies during blackouts in England's New Forest—planted by William the Conqueror—the New Forest Commoners Defence Association recommended today that the ponies be converted into zebras. This will be done by painting white stripes around their hind quarters and bellies—the same procedure as followed for the street lamps and roadside trees.

## BRITISH SEAMEN, AIRMEN STRIKE BOLDLY THIS WEEK

### Sea Blockade Used in Great War Effected Against Third Reich

### FLEET IN NORTH SEA

### Air Force Materially Helps Cause by Bombing Ships in Kiel Canal

By DREW MIDDLETON
Associated Press Staff Writer

LONDON, Sept. 9—(AP)— The Royal Navy and the Royal Air Force struck boldly in the first week of the war, while the army prepared for its part in the big French-British drive against Germany.

The blockade which throttled the old German empire has been effected against the Third Reich. Although whereabouts of the British fleet is an official secret, it is assumed here that the western coast of Denmark and the Skaggerack to the north are rimmed with fighting ships.

Such a blockade is only the first stage. It is believed it will be extended around the Danish Peninsula to command the Baltic. This would cut off supplies to Germany from the north and possibly give Britain adequate artillery preparation for a landing force, perhaps at Stettin.

**Close Co-operation**

The air force has worked in close co-operation with the navy, as well as doing valuable propaganda work.

The bombing of one, and perhaps two, of the three German "pocket" battleships at the Kiel Canal entrance is seen by Britons as the most effective British action of the war thus far.

Through it, British observers believe, the Germans have lost their one, long chance of breaking the blockade, because with one or two battleships laid up for repairs any attempt to break through would be suicide.

Apparently the British undersea fleet has not been idle.

(Continued on Page Seven)

## ISSUE IS STILL UNDECIDED IN CITY OF WARSAW

### Rival Broadcasters at Warsaw Let Outside World Take Choice of Reports

### BULLETINS DIFFER

Budapest, Sept. 9—(AP)— Rival broadcasters, both speaking on the Warsaw radio station wave length, let the outside world take its choice today whether the Polish capital was in Polish or German hands.

(Continued on Page Five)

## Germans Report British Bomber Crashes

BERLIN, Sept. 9—(AP)— The German news agency issued the following statement today, evidently in explanation of early morning air raid alarms here:

"The approach of enemy planes from a northwesterly direction was reported over northwestern Germany in the coast region. The enemy encountered our anti-aircraft artillery.

"Enemy planes turned off in a southeasterly direction and started a return flight over the Netherlands. No bombs were dropped.

"Along the Netherlands border, German night pursuit planes took off to ward off enemy planes. One English bombing plane crashed. The crew of five jumped out with parachutes and were taken."

The communique did not say whether the fliers claimed to have been captured were taken by German or Netherlands forces.

## Parliament Must Decide Peace or War for Canada Says The Prime Minister

### No Conscription Necessary At Present Time Says King

By C. R. BLACKBURN

(*Canadian Press Staff Writer*)

OTTAWA, Sept. 9 (CP)—Parliament had before it today a demand from Prime Minitser Mackenzie King for a decision as to whether Canada, as a free naton within the British Commonwealth, would go to war against Germany.

Mr. Mackenzie King, in a speech of nearly three hours yesterday, left no doubt of the government's policy to enter the war alongside Great Britain, not because the government alone wanted to go to war but because it felt that would be the policy of the Canadian people.

If parliament did not wish to approve that action, the Prime Minister said, then it should set up another government.

Conservative leader Manion lined his party up alongside the government in a war, not against the German people for whom there was no enmity, but against Hitlerism and all it meant.

Mr. Mackenzie King did not phrase any definite declaration of war by Canada in his statement of policy which he asked parliament to adopt, although Dr. Manion urged a clear and open statement of where Canada stood.

PLEDGED SUPPORT FOR CO-OPERATION

Social Credit leader John Blackmore also pledged his party to the support of the government in its plans for the most effective co-operation with Great Britain, but J. S. Woodsworth, grizzled veteran of parliament and leader of the Co-operative Commonwealth Federation, was not so ready to agree, though he made clear he was expressing his personal views only.

While Mr. Mackenzie King and Dr. Manion placed the responsibility of the war drectly upon Hitler, Mr. Woodsworth said "in my judgment the immediate situation has been due almost entirely to the bungling of Mr. Chamberlain."

Crowded galleries heard Mr. Mackenzie King, in a long speech, declare in effect that Canada was at war with Germany, that it would immediately send trained air personnel to aid in the fight, and that further armed co-operation in the European theatre of war would depend on consultations with the British and French allies. But he said there would be no conscription.

RESOLVED TO PREVENT PROFITEERING

Both Mr. Mackenzie King and Dr. Manion and all other speakers, egreed that war profiteers should be prevented from operating.

The debate opened after an address in reply to the Speech from the Throne had been moved and seconded. All speakers were in favor of the most intense efforts to prevent profiteering and to so organize Canada that it should make the best and most unselfish effort to help in the face of German aggression.

Mr. Mackenzie King himself referred to the fact that the mover and seconder of the address, and Dr. Manion, who opened the debate, were veterans of the last war.

The House will meet again today at three o'clock and sit through afternoon and evening with a long list of speakers already on the list to take part in the debate on the address.

Joseph Thorson (Lib. Selkirk) will continue the debate on the address this afternoon as the first speaker.

The war emergency session of 1914 was short—only five days—and the two old parties, who then held undisputed sway in the House, were in almost complete unanimity.

Yesterday it was different. There was evidence at once that this special session would see acrimonious debate.

While the Prime Minister indicated that the question of sending an Expeditionary Force abroad would await instructions from the British and French, Dr. Manion said if Hitler triumphed the battlefront would be "at our gates", and he declared Canada's best defence was an offensive in the European theatre of war.

(Continued on Page Five)

## 60 Divisions Of German Troops Occupy Most Of Western Poland

By LLOYD LEHRBAS

(Associated Press Staff Writer)

Lwow, Lemberg, Poland, Sept. 9 (AP)—(By Courier to Bucharest)—German forces far outnumbering the Poles and led by strong motorized units have occupied most of Western Poland in a week of bitter fighting and now are attacking Warsaw in what may be one of the decisive battles of the war.

In an attempt to subdue the Polish Army before its British and French Allies get into large-scale action on the Western front, the Germans have thrown at least 60 divisions an extremely large number of artillery and mechanized units into action for a swift "kill."

(German Army divisions usually have 10,000 to 12,000 men.)

A lack of systematized official Polish information makes it impossible to draw lines on a map of Poland showing the cities and towns already occupied by German forces.

As far as can be determined on the Polish side, however, German forces have advanced into Poland from the north, east and south, occupying most of the west of the country.

The capital's fate depends on whether a gigantic German pincer movement is successful in nipping Warsaw off from its narrowing link with Eastern Poland.

### 21ST BATTALION CANCELS REUNION

Plans for the twenty-first annual reunion of the 21st Battalion which was to have been held in Belleville on Sept. 23, have been cancelled, it was announced by local secretary LeRoy Madden today. This city had been chosen as the site of the convention which annually attracts former members from throughout Canada and many parts of the United States, for the first time in many years, but due to the present war it has been felt advisable to call off this reunion for the first time since demobilization of the well-known unit.

### COMPLAINTS RECEIVED SIDEWALKS BLOCKED BY MERCHANDISE

Numerous complaints received from citizens regarding the complete or partial blocking of the sidewalks through the main sections of the city by merchandise being unloaded led this morning to an order by Mayor Bone for police of the local force to check infringements of the Nuisance Bylaw. In one instance so complete was the occupation of the sidewalk by a quantity of goods that pedestrians were forced to detour to the roadway, it was stated.

### CHILD BITTEN IN FACE BY FIGHTING DOGS

Toddling into the midst of a dog fight in a childish attempt to stop his own collie and another collie of the village from mangling each other, little four-year-old Michael Gabovic, son of Michael and Mrs. Gabovic, Cordova Mines, had his face badly torn by the fighting animal. He was taken to the office of Dr. H. E. Crawford of Marmora where several stitches were necessary to close the wounds.

### RAILWAY MAIL CLERK RETIRES FROM SERVICE

Announcement was recently made that Mr. M. E. O'Leary who has been a member of the railway mail service for thirty five years, has retired on superannuation. Joining the service in 1904, he has, at intervals, been engaged on the Hamilton-Collingwood, Toronto-Niagara Falls, Toronto-Sarnia, Toronto-Midland, Belleville-Peterboro, and Tweed-Napanee runs. He resided in Toronto for some time, coming to Belleville where he lived for nine years while the past six years have been spent in Tweed. Mr. and Mrs. O'Leary and Louise took their departure from Tweed today and will make their new home on Belhaven Road, Woodbine district, Toronto.

### SHANNONVILLE OFFICE ENTERED BY NIGHT

Robbers forced their way into the Shannonville Post Office building for the second time within a few weeks, last night, but their efforts proved fruitless, as all valuables had been removed from the premises by Postmaster Henry Little upon closing.

Provincial Constable W. E. Smith investigated and found the robbers had gained entrance by means of forcing a rear door. "There is no doubt the marauders were hoping to rifle the registered mail, but fortunately Mr. Little, the postmaster, took all such valuables home with him last night," stated Constable Smith as he revealed that only a jack-knife had been stolen from the premises.

Some weeks ago the Shannonville Post Office was entered and several registered letters, believed to have contained money, were said to have been stolen. Last night's break-in is believed to have been an attempt at a repeat effort, but proved futile.

Following the investigation at the ost Office, Constable Smith was later informed that entrance had been made into Cook's garage and the grist mill at Shannonville. Here, as was the case at the Post Office, money was doubtless the object of the thieves. In all cases no cash had been left in any of the premises, the police were informed.

## C.O.C.A. Executive Decides To Hold Annual Exhibition Of Cheese Here In December

Members of the executive of the Central Ontario Cheesemakers' Association at a special meeting held in the office of J. L. Irwin, Dominion dairy grader last evening decided to carry out the fourth annual British Empire Cheese Exhibition and Dairy Show scheduled for this city early in December in spite of the setback occasioned by the present war.

It is probable that many of the exhibits from Australia, New Zealand, South Africa and other countries of the British Empire which countries have annually been well represented, will not be sent for the local exhibition, but it is assured that a heavy list of Canadian exhibits will show. The Quebec makers will be particularly well represented, it was stated.

Presided over by Grant Anderson, Campbellford, president of the Central Ontario group, the meeting was devoted to a full discussion of all matters connected with the coming show. It was decided that county grants would be divided into nine prizes for each county, awards being based on the highest aggregate scores of the exhibitors.

Mr. Geo. Pollard, Stirling, was named show manager and will be in charge of all details connected with the exhibition. A special banquet committee composed of President Anderson, Miss G. Colden, Maurice Rose and Geo. Pollard was also named.

Tentative plans have been made by the local association to honor the pioneer cheese makers of the central district through the presentation of diplomas or medals for their efforts toward promoting the success of the cheese industry in their respective areas while members of the association. It has been suggested that the presentation be made at the annual banquet at which special reservations will be made for these honored guests. It is hoped this feature will be an annual one, with different older makers being chosen by popular selection each year.

## Farmer Believes He Will Receive $1.25 Per Bushel for Wheat

A friendly wager was made by a Belleville farmer this morning with the proprietor of a city feed store that local supplies of wheat would sell as high is $1.25 a bushel within the next few weeks.

Over 1,000 bushels of wheat are being held by the local man, it was admitted in the hope of realizing some profit on his harvest. Offers of purchase at 70 cents the bushel were refused by him.

"I'd be willing to oblige a neighbor or two hard up for seed wheat at a dollar a bushel, but that's about all I would sell. "I'm going to hold this until it reaches $1.25 at least," stated the Belleville grower.

"You'll be lucky if you get 80 cents for it," prophesied the store owner.

## Dairy Grader Finds Perfect Specimen Of Fine Cheddar Cheese

Occasionally, at rare intervals, the cheese grader in the course of his routine, day after day duties is privileged to come suddenly and often unexpectedly upon a perfect jewel of the industry in some prosaic setting.

Such was the experience this week of James L. Irwin, Dominion dairy grader of the Belleville office, at Hay Bay, where in the Excelsior Cheese Factory he found one exhibit of a "cheesemaker's dream", a perfect cheese.

The cheese, one of a number of exceptionally good ones, scored top grade on every point, texture, flavor and finish. It was perfectly prepared. A score of 99 per cent was indicated.

"It was one of the best and finest cheese I have ever put an 'iron' in", declared Mr. Irwin in fond remembrance today. "If it had been put on exhibition at Toronto last week it would have swept the boards. It's only once in a long, long time we find one like that."

## OBITUARY

### LATE CHARLES KNIGHT (Deseronto)

Deseronto, Sept. 9—The funeral of the late Mr. Charles Knight, Sr., took place on Wednesday afternoon from his late residence on George Street to St. Marks (Anglican) Church where the services were conducted by Rev. C. E. S. Radcliffe. The war veterans attended the service in a body. The deceased who suffered a stroke several days ago, passed away on Sunday evening. Surviving to mourn his loss are his widow and two sons, Charles Knight, Jr., of Deseronto and William Knight of Port Colborne, and one daughter, Mrs. Sidney Jones of Deseronto. The late Mr. Knight was in his eightieth year.

## TRENTON and DISTRICT

Trenton, Sept. 9—(Special)—Ronnie Murphy winner of the Trenton Lion's Club Labor Day Kid Kar Race is planning to build a new car and challenge Ernest Young, Belleville's box car champion. At present Ronnie is seeking a sponsor who will finance his latest venture which he hopes will bring him additional fame and fortune. The 12 year old youth outdrove Georgie Vanner of Trenton in the Firhurst hill grind to become local kid car king.

### Veterans Get Guns

Veterans guarding the vulnerable points in this district have been issued Ross rifles with fixed bayonets. The returned men had been equipped with shotguns until the government arms were shipped in and distributed. The Ross rifle used by the Canadian forces in the Great War is a highly effective weapon with more than the usual amount of accuracy due to its finely made sights.

### New Garage Completed

Jack Kinney's King Street garage reached completion when painters put the finishing touches on the inside of the building. The outside of the structure which is a credit to the downtown section of the town is colored in white, red and blue, while the interior has been decorated in light colors to give the mechanics pleasant surroundings to work in. By remodelling the building, Mr. Kinney has rid Trenton of another unsightly eyesore.

## Eight Bags Of Sugar Stolen From C.N.R. Car

So much talk of possible food shortage on account of the European conflict and more especially along the lines of sugar, may have prompted the theft of eight 98-pound bags of sugar from a freight car on the Canadian National Railway siding behind the York Trading Company on Station Street last night.

York Trading Company officials today informed city police that robbers had broken off the railway seal from a box car and entered the car on their Albion Street siding, from where they stole eight 98-pound bags of sugar. Nothing else was reported to have been stolen. Police are satisfied that the robbers drove an automobile alongside the railway siding, broke open the freight car and carried the sugar away in their motor car.

## Slight Damage Results From Collision At Point Anne

Point Anne—On Thursday evening Mr. Dan Gannon, while making a turn in front of the Point Anne Post Office collided with Mr. Noble Brown, who was proceeding west on the pavement toward the Post Office. Both cars were slightly damaged, but no one was injured.

Miss Alice Insley suffered a painful injury on her finger when it became caught in the door of a car in which she was passenger, on Thursday and was badly jammed. Dr. E. G. Kennedy of Belleville, treated the finger, and two stitches were required to close the wound.

On Monday evening, Sept. 4th, the L. O. L. No. 2509 held their regular meeting. Mr. Joseph Doxtator, Sr., of Belleville was guest of honor and was presented with an Honorary Membership Certificate by the Worthy Master, Walter Hall on behalf of the lodge, with a few well chosen words. Mr. Doxtator expressed his appreciation in a fitting manner. Mr. Doxtator is a former descendant of Point Anne and has been a faithful and loyal member of the lodge for a number of years. Bro. E. Pascoe of Colebrook, Past County Master of Lennox-Addington, was a visitor and gave an interesting talk on the Union Jack and why Canadians love it, which was much enjoyed by all.

Bro. Hart and son of Trenton and Bro. Parks of Frankford were also present. Following the meeting a social hour was enjoyed and lunch was served.

Mr. and Mrs. John Badgley and family of Second of Ameliasburg, called on his sister, Mrs. Nelson Burshaw on Wednesday afternoon.

Mr. and Mrs. John McConnell, and Mr. and Mrs. George Winters, and Miss Betty Winters had a very enjoyable motor trip over the week end. They motored to Niagara Falls, by way of Welland and Port Colborne, crossing to the American side at Lewiston and motored through New York State and crossed the bridge at Ivy Lea and thence home on Sunday night.

Mr. and Mrs. Irwin Eggleton and daughter of Stirling spent Sunday with Mr. and Mrs. Percy Akey.

Point Anne softball team won the second round in the play-offs when they won two straight games from Gananoque. In the next round they meet the Wooler team.

## Mr. James Radford Honored On His 85th Birthday

3rd Sidney — Relatives to the number of 35, met to pay tribute to Mr. and Mrs. Jas. Radford, prominent residents of Sidney Township, on the occasion of Mr. Radford's 85th birthday.

This happy gathering was held at Oak Lake on Sunday, Sept 3rd, with the immediate members of the family participating. Their only son, Mr. Fred Radford, Mrs. Radford and family, who reside near them were present, also Mr. and Mrs. Jay White, Wallbridge, Mr. and Mrs. Will Bush and other relatives.

A sumptuous dinner was served by the ladies, at the close of which Mr. Radford blew out the candles on his birthday cake. Mr. Radford was presented with a gift, and Mrs. Radford with beautiful flowers. "Happy Birthday", and "For They Are Jolly Good Fellows", were sung, and many paid tribute to Sidney's "grand old man." Mr. and Mrs. Radford, in well chosen words, expressed gratitude to those present for the kindly words, the gift and the flowers and the enjoyable hours spent together on this memorable day.

## Belleville Man Nearly Sailed on the Athenia

Mr. Fred Chapman, Belleville, the head of the Canadian National Railway police in the eastern division, barely missed being a passenger on the ill-fated Athenia which was torpedoed by a German submarine.

Through a stroke of good fortune, Mr. Chapman was able to embark on the steamer Antonia just before it left England, otherwise he would have booked passage on the Athenia as it was the next boat to leave for Canada.

The local man landed at Montreal this week after a calm and uneventful crossing of the Atlantic, and is today thanking the fate which led him to embark on the Antonia.

## *Police Blotter*

Edward Flindall, 34 Gordon Street, reported the theft of two bicycles to the city police today. The bikes were left in Flindall's barn yesterday, but were counted among the missing early today.

Sydenham police reported the theft of a 1935 Plymouth sedan last night. The vehicle was bearing Ontario licence plates number 168-N-1.

A Miss Waite, Corbyville, informed Provincial Police today that her automobile had been stolen some time last night. This vehicle was today reported abandoned at Corbyville. Miss Waite telephoned Provincial Police late this morning to state a motor car, bearing licence plates 168-N-1, had been left on her property. The Sydenham authorities were immediately notified.

## BRITAIN TAKING WAR IN STRIDE

### Seventh Day of Conflict Finds People in Routine of New Existence

By PAT USSHER
Canadian Press Staff Writer

London, Sept. 9—(CP Cable) — Britain is taking the war in its stride on the home front. Seventh day of the conflict finds the people settled into the routine of a new kind of existence.

The Londoner, for instance, is used to carrying a gas mask everywhere, to dodging ramparts of sandbags outside shop fronts, to seeing the balloon barrage overhead like silvery sky sentinels. He is becoming accustomed to the absence of children, and to groping his way about at night in the pitch dark—or staying home.

To many it is an unreal war, especially to those too young to remember anything of the last one.

Life goes on in some ways much the same. City workers still queue up for the bus and read the morning newspapers. There has been no shortage of food or of other commodities yet.

**Help to Dispel Illusion**

But the eerie moaning of air raid sirens, which three times this week have sent Londoners to cover, help dispel the illusion of unreality.

The blackout is the most striking evidence of the new order of things. That, combined with the closing of all entertainments, has practically cleared the streets at night.

Restaurants are shutting early.

The railways, preoccupied with vital transport jobs, are cutting down passenger services starting Monday. People are not travelling as much now anyway. Car owners are urged not to drive merely for pleasure and especially to avoid the roads at night, when darkness heightens the danger of accidents. Rationing of gasoline, which starts Sept. 16, will drastically restrict the use of cars.

Most London newspapers have shrunk to eight pages, half their customary size. The war news has been presented objectively to date.

## German Consulate In Mexico Guarded

Mexico, D. F., Sept. 9—(CP) — (Havas)—Extra police details were posted around the German consulate here today because of hostile demonstrations by left-wing groups which police officials feared might turn into an attack on the buildings.

German steamships which took shelter in Mexican ports have refused to permit their wireless sets to be dismantled, on the grounds that the machines are both sending and receiving and international law does not forbid receiving messages. The steamship commanders pledged themselves, however, not to transmit any wireless messages from their vessels.

# TRIBUTE PAID BY HUNDREDS TO LATE W. N. PONTON

### Masonic, Business and Social Circles Represented at Obsequies

### LAST POST SOUNDED

### Members of Argyll Light Infantry (Tank) Regt. form Firing Party

Wrapped in the colorful folds of the flag he loved so well, the body of the laste Colonel William Nisbet Ponton, M.A., K.C., V.D., distinguished scion of a noble Hastings County family, was laid to rest in the hedge-bordered flower-draped family plot in Belleville cemetery yesterday afternoon.

There, as he wished it, in full view of the Bay of Quinte whose lapping waters were one of the joys of his entire life, the frail body that housed a magnificent spirit, unquenchable to its last breathing moment, was lowered into the green carpeted grave in close proximity to members of the family gone before.

There, while cloudy sullen skies threatened rain, while uniformed members of his old regiment, arms black-banded, and members of the Masonic fraternity of high and low degree paid final tribute to a well-beloved brother, the last rites were paid to him, whose creation brought a new outlook on life for many and whose passing creates a vacancy, that will indeed be hard to fill.

**Under Masonic Direction**

There in the shady recesses of the canvas-covered plot, distinguished members of the Masonic fraternity, those in office of the Grand Lodge of Ontario, from the far-flung sectors of Ontario Masonry, conducted the impressive rites, beautiful in their very simplicity over the grave of a departed brother. Fellow-masons of three Belleville lodges stood in the background in reverent silence. In the same hush they filed past the bier partially lowered in the grave, and dropped the tokens of their fraternity on the brilliant folds of the Union Jack that draped the casket.

In the background, arms reversed and heads bowed, in the uniform of the Argyll Regiment stood a firing party. Lieut. Col. Gribble, officer commanding the regiment, his officers and a party of non-commissioned officers, stood at attention as the body of a beloved fellow-officer and friend received his last earthly tribute.

Silently, reverently, as a hushed crowd of friends and relatives stood humbly by, the traditional Masonic rites were performed.

**Last Post Sounded**

Then in the afterglow of a sullen afternoon, the silvery notes of the "Last Post" rang out in the quiet air. Officers and other ranks sprang to attention. Previous to this three volleys of rifle-fire, the last military tribute to a gallant officer and gentleman reverberated through the quiet cemetery glades.

Came reveille with its cheery lively notes. Slowly, sadly the hushed throng came to the present. Heavy hearts, laden with sorrow, echoed the slow tempo of reluctant feet as the dead was left to its final rest. It was all over. The late Colonel William Nisbet Ponton was left with his honorable ancestors, and to the Valhalla of well-merited reward, that is the ultimate crown of those who serve and who serve those who serve.

Earlier in the afternoon, at St. Andrew's Presbyterian Church, Church St., a crossroads of the province welded into a sorrowing whole to pay final tribute to a friend, a soldier, and a gentleman.

Civic and municipal officials, lawyers, doctors, members of parliament, the high stations of life rubbed shoulders with meek and lowly, in a last reverent tribute to a friend. In the hushed auditorium of the church they filed slowly to their places. The low notes of the organ intoned a dirge. Before the flower-draped altar with the brilliant folds of the Union Jack draping it, the casket lay in its solemn glory.

**All Walks of Life Present**

Through the open windows of the church, in paradox, came the gay laughter of playing schoolchildren. Then in measured tread, the brethren of the Masonic order, those of high degree taking precedence, filed slowly into the church. Quietly, slowly the seats were filled with sorrowing friends of the departed. An old soldier, eyes hinting a suspicious gleam, tiptoed to a seat, his medals clinking as he sat down. Khaki-clad officers marched softly to their seats.

"When a soldier has served his country faithfully and well, and has reached the allotted space of three score and ten, we should not lament his passing," the Rev. W. J. Walker, minister of St. Andrew's Church, said in a brief funeral address. "Ye should rejoice for I go to My Father, for Father is greater than I", the minister took as his text.

"We should not be sad", the minister said "for when the frail body can no longer hold the unquenchable spirit, it is God's most infinite mercy to take it to Paradise, where He places it in a new and glorious body."

The speaker related the story of the minister who when asked how he felt, replied 'I am fine. I feel youthful and vigorous, but the house is beginning to totter'. "That was the spirit of our old friend", he said. "Today we set aside the old dwelling, for the warrior has gone".

**Memory Lingers**

His memory rings in the hearts of all, Mr. Walker stated. "His power of character impressed all who meet here today. I am not going to eulogize him. He was against that. He chose his own funeral service".

"It was a delight to meet one, who could tell of the beauties of the past in such a masterful manner, and enhance those of the present in the same way. He was a stoic in that sense. He loved all that was beautiful. His place in the community was of high standing and he tried manfully to uphold the Empire's dignity and honor".

"He has been spared the sorrow and tragedy that has come upon the world", Mr. Walker concluded, "but many a gallant youth, who has laid down his life during the past few days went ahead of him. But he will be there in that vast host of youth, who today are fighting for freedom and honor of the world".

The service was over. With scarcely a sound the cortege filed out of the auditorium between the rows of bowed heads of a Masonic guard of honor.

**Wended Way Through Streets**

Then followed by a large following of automobiles the procession slowly wound its way down Church Street to Bridge and thence to the cemetery. Inspector Frank Gardner, Sergeant Harry Thompson, represented the Ontario Provincial police with Constable W. McBrien and others doing traffic duty. Chief Alex. Kidd, Sergeant Arthur Booth and Constables William Evans and Horace Wright of the city police, regulated city traffic, while Highway Traffic Officers, Sam Ervine, W. Caldwell and S. Jillings were on duty on the highways and cemetery, with City Traffic Officer Douglas Ellis conducting the cortege through the city streets.

The pallbearers were His Worship Mayor Jamieson Bone, Mr. Charles Cameron, K.C., M.P., W. Spencer Clarke, Robert Pringle, Fred Sprague and P. C. McLaurin.

Members of the Masonic Order who took part in the rites at the graveside were —Rev. Dr. R. C. Blagrave, Hamilton; William Tulk, W.M., The Belleville Lodge and P.M. Harry Ponton, son of the deceased, of Hamilton.

Visiting dignitaries included Grand Master Dr. J. A. Dobie, Ottawa, Deputy Grand Master, Colonel J. A. McRae, Ottawa, P.G.M., W. J. Dunlop, Toronto; Grand Sect. E. G. Dickson, Toronto; Grand Treas. P.G.M., J. A. Roland, Toronto P.J.Z., W. Y. Mills, Grand Chapter of Canada, R.A.M., Kingston, P.G.M., W. S. Herrington; G. Z., L. Stevens; P.G.Z., G. W. Gardner and P.G.Z., Edwin Smith. Members of The Belleville Lodge No. 123; Eureka Lodge No. 283 and Moira Lodge No. 11 were well represented at the services, as were the military regiments of the district and other organizations.

# MAJOR J. SWORD LAID TO REST

### Military Funeral Held for Member of A.L.I. (Tank) With Distinguished Record

With solemn martial rites, Major James Sword, M.C., one of Belleville's best known residents and most distinguished military sons was laid to rest in Belleville Cemetery late yesterday afternoon. Officers and men of the local Argyll Light Infantry (Tank) with whom he had been associated for so long accompanied the body, borne in a flag-draped casket, to the grave. Pipers of the Argyll Light Infantry (Tank) Pipe Band played the mournful military dirge with muted pipes and muffled drums as the draped gun carriage and funeral cortege wound through the city streets to the cemetery.

Major Sword's military belt, spurs and sword, with his imposing array of medals gained on the battlefields of France for valor, accompanied their late owner to his last resting place.

The funeral was held from the Burial Parlors of the Belleville Burial Company to St. Thomas Anglican Church, where the Rev. G.G. Wright performed the burial office. Scores filled the church as the last rites were performed and as the funeral procession emerged old soldiers and friends formed an unofficial guard of honor following in the rear of the uniformed ranks of officers and men of the Argyll Battalion who marched slowly through the streets headed by Lt. Col. A. B. Gribble, O.C. of the unit and other ranking officers.

At the graveside in Belleville Cemetery ranks reformed through which the casket was borne by bearers C.Q.M.S. Len Pattrick, C.S.M. P. Tilley, Sergeant G Ellarby, R.S.M. S. Johnston, Sergeant Theobald, C.S.M. A. Hobbs, all former close friends of the deceased.

**Last Post Sounded**

At the graveside the Rev. G. G. Wright preached the last farewell to one who had so distinguished himself in the service of his country and to his fellow men. "He but rests until the time of awakening, in the company of other illustrious dead, who have gained their eternal rest," sorrowing relatives were comforted.

As the last rites were concluded the firing party of the Battalion consisting of Sergt. A. Redner, Cpl. C. Rodgers, Lance Cpl. H. Preston, Pte. D. Kyd and R. Bradford, Cpl. W. Ferguson, Pte. B. Miller, Cpl. W Clapp, Sgt. L. Ellway, Pte. P. Whittard, Pte. R. Whittard and Pte. H. Tilley under the command of R.S.M. Geo. Lancaster observed the traditional three volleys and the haunting strains of Last Post rang out from the bugle of Sergt. W. J. Finden.

Relatives and friends of the late Major Sword will cherish the memory of a brilliant military record. He served as Captain of the Royal Fusiliers in the Great War and later in Belleville he was attached to the Argyll Light Infantry (Tank) as Major. During his services overseas Major Sword was awarded the Military Cross for bravery in the field, and was twice mentioned in despatches. Of tolerant, kindly nature, he was imbued with the constant thought and aim of greater service to his Empire and his fellow men.

# Prospective Quarters For Housing of H. and P.E. Reg. Inspected

With the mobilization of the Canadian military units throughout Canada, one of the first non-permanent units to call for volunteers was the Hastings and Prince Edward Regiment. Volunteers for this unit have been called for and today military officials from District Headquarters in Kingston were in Belleville in pursuit of a site in which to quarter the Battalion after it is recruited.

Belleville being the centre of the area from which the Hastings and Prince Edward Regiment is recruited, it was unofficially learned today that military heads from the District were in Belleville today seeking a site where the Regiment may be quartered during their period of training. Several cities have been rumored as being possible suitable sites for the housing of a complete battalion. During the late war Canadian soldiers were quartered at the old canning factory on Pinnacle Street. Today it was rumored that three sites were being considered in Belleville for the billetting of the newly recruited regiment—the old Albert College, College Street; the Graham Building, Front Street, and the old Canning Factory on Pinnacle Street. Official confirmation regarding the final selection will come from District Headquarters later.

The regiment received orders from the Department of National Defence recently to recruit to full strength at once. Recruits have been accepted from as far west as Port Hope, east to Napanee and from Picton to the far reaches of North Hastings. The Hastings and Prince Edward Regiment is commanded by Lieut.-Col. S. Young, of Picton.

# Sidney Crossing

Sidney Crossing — Mr. and Mrs. Ernest Outwater accompanied by Mr. Clayton Outwater and Mrs. Nora Mason of Campbellford called at Mr. Bruce Hogle's on Sunday afternoon, also Messrs. Allen and Charles Sandercock of this neighborhood and Mr. David Johnston of Crookston called there in the evening.

Messrs. James and Ben Harry were recent callers at Mr. Barton Hogle's.

The many friends of Mr. Frank Hamilton will be pleased to know he is progressing favorably.

Miss Marie Stickle, nurse-in-training at the Belleville General Hospital, spent the dinner hour on Sunday under the parental roof.

The many friends of Mrs. M. Outwater will be glad to know that she is able to be out of the hospital and is convalescing at the home of her sister, Mrs. Samantha Mason, Belleville.

Mr. George Millard accompanied by Miss Edith Hogle, motored to Toronto last week and spent a few days with Mr. and Mrs. T. H. Rutledge and also attended the Canadian National Exhibition

Mrs. Theda Hess of Frankford is visiting at the home of her sister, Mrs. Wm. Hamilton.

School has again opened and Miss Clara Wilson of Bayside is the new teacher for S.S. No. 4.

Mr. Robert English spent the dinner hour on Sunday with Mr. and Mrs. Bruce Hogle and Mr. and Mrs Wm. Pepper, Jr., of Belleville spent Labor Day at their home

Mr. and Mrs. W B. May of Belleville, spent the week-end with friends in St. Catharines. On their return on Tuesday morning Master Garnet and Miss Loreen returned with them from their grandparents.

### FARR ENLISTS IN AIR FORCE

LONDON, Sept. 9—(CP)—Tommy Farr, former British heavweight boxing champion, has enlisted in the Royal Air Force.

# North Lakeside

North Lakeside — Mrs. Leila Weeks spent a few days last week the guest of Miss Helen Millar of Consecon.

Mrs. Caleb French of Whitby and Mrs. C. Clapp and Miss Edythe Taylor of Hillier were Thursday afternoon callers of Mrs. Warren Chase.

Mr. and Mrs. Elden Walt returned home on Wednesday after enjoying a motor trip around Lake Ontario also spending a day at Toronto Exhibition enroute home.

Mr. and Mrs. Warren Chase spent a recent Sunday evening with Mr. and Mrs. Rodger Ross of Picton.

Mrs. Cecil McConkey and Glen of South Lakeside spent a few days last week with her brother, Mr. Howard Walt.

Rev. and Mrs. H. F. Sanders of Consecon were Monday tea hour guests of Mr. and Mrs. Sherman Chase.

A number from this vicinity attended Belleville Fair last week and report a good fair.

Mr. Marshall Brummell of Massassaga and Miss Reta Pearsall of Union Vale were tea hour guests on Sunday of Mr. and Mrs. Warren Chase.

School re-opened on Tuesday morning after a long holiday. Miss Mary McConkey is again teacher for the coming year.

Mr. and Mrs. Wilbert Cunningham entertained guests from Toronto on Sunday.

Mr. John Jinks threshed on Saturday for Mr. Earl Watt and Mr. Edgar Jinks.

Mr. Jack Cunningham of Oshawa spent a couple of days last week with his parents, Mr. and Mrs. W. Cunningham, before leaving for Camp Borden.

Mrs. C. Waring and daughter of Waring's Corners, were Wednesday evening guests of Mr. and Mrs. Eldon Malt.

Corn picking is the order of the day in this vicinity. The corn factory has been operating for a couple of weeks at Consecon.

The TEST of TIME Demonstrates the Economy of a Brantford Roof

FOR over thirty years, Brantford Roofing Company, Limited, has built a reputation for enduring, weather-proof roofs.

A Brantford Roof provides the utmost resistance to wind, weather and fire hazard. Their beautifully blended colour effects add to the attractiveness of your home and increase its resale value.

In most communities, fire insurance rates are lower on buildings roofed with Brantford Asphalt Slates.

There is a Brantford Roofing dealer near you. Consult him for roofing advice, complete information and service on

## AUTUMN

Along the outskirts of the city the first pale tints of Fall appear, and shadowed against the harvest moon by night the curlews and the killdeers pipe their first sad cry of departing Summer. The first of the wild ducks circle the marshes in scattered coveys and across the still dark waters the loon's long, lonesome wail heralds the approach of Summer's end. On quiet lakes of the northland the busy season has ended. The sputter of outboards, the thin music of radios and gramophones at dusk has been replaced by the faraway rustle of dead leaves and the chatter of the solitary kingfisher as he dives in noisy plunging flight. From the dead elm branch the frisky red squirrel scolds the strolling porcupine, and in the swale behind the hill deer once more graze in contented solitude. Shutters replace the wind-blown chintz at cottage windows, and on the beach the zigzag foot prints have long been washed away by recent rains. Its threshing time in the rural area, and in district corn fields the yellow of the pumpkin glints against the faded browns of the standing stooks. Busy field mice scamper through the grass-grown runways and along the rail fence the hawthorne bush holds the last of the Summer warblers. There's contentment in the rural section. The harvest's in and the incense of pickling fills the hazy air. The growing season has ended, and in the barn mow the timothy and alfalfa hay is rafter high where the deserted swallow nests still hang. The grain bins are filled and in the cellar the vegetables are piled as high. The Summer's job has ended on the farm. The last of the heavy work has been completed in time with the flight of the swallows south. The season has been a generous one; the fruits of the earth securely stored. There enters on the rural scene that calm benediction of Nature peculiar only to the tiller of the soil. The land of plenty has fulfilled yet another promise to fill the granaries and barns of farms throughout the land, and the hearts of men with thanks for Nature's offering.

## WE AGREE

The other day at Windsor Mayor Croll and the controllers were discussing a resolution pledging the council's loyalty and to signify their intention of co-operating to the fullest extent possible to prosecute the war to a successful conclusion when Controller Bennett made the following pertinent remark:

"I have criticized the government in the past and have attacked the abominations and irregularities of the system we live under, but it is so much better than other governments, as far as democracy and liberty are concerned, that we should stick together in its defence. In this crisis, if we don't hang together, we'll hang separately."

We believe this sums up the sentiment of everyone who is loyal to Canada and hardly needs further comment except to say that if we had to suffer the rule of the Nazi regime as is the case in Austria and Czechoslovakia our past and present complaints of injustice and incompetence would sound pretty insignificant.

## FRIDAY'S STORM

One of the unfortunate features of a wind storm such as visited this district of Hastings county on Friday morning is the extensive loss suffered by the farmers by destruction of buildings and orchards. Few carry wind insurance and the cost of rebuilding is a heavy burden to be put on any enterprise. One of the most remarkable things was that there are no reports of any one being injured by buildings which collapsed. Either most of the rural residents stayed in the security of their homes which are of stronger construction than barns and the fact that the storm was of brief duration which probably accounted for the lack of injuries.

One of the advantages of living in Canada, but probably poor consolation to those who suffered losses, is that storms of this nature are rather rare occurrences and when they do come do not cover large areas as they do in the southern United States. Despite our extra-long winters Canada is certainly one of the favored nations of the world although we may do a lot of grumbling about the weather.

Be displeased with what thou are, if thou desirest to attain to what thou art not; for where thou hast pleased thyself there thou abidest, and if thou sayest I have enough, thou perishest. — St. Augustine.

The selfish man suffers more from his selfishness than he from whom selfishness withholds some important benefit.—Emerson.

ANSWER, PLEASE!—As a teacher, I have always believed in exams. And how I wish that boys and girls would enter the exam room in school and college, not with fear or like "dumb, driven cattle," but with eager anticipation; for certainly every boy loves any physical competitive exam—how hard a blow he can strike, how big a weight he can lift, how fast he can run, etc. It is a good thing every now and then to find out how much we know of a certain subject if and when we are suddenly "held up." — William Lyon Phelps in The Rotarian Magazine.

x x x

THREE OTTAWA GIRLS IN THEIR TEENS got into the newspapers because they hitch-hiked from Ottawa to Windsor. They even got their pictures in the papers. Their parents should be ashamed of the adventure and the publicity attending it. The girls managed to escape the many dangers which attend travelling in this manner on the highways. Fortunately the girls encountered only decent honest folk and were none the worse for their adventure but it might easily have been different for it cannot be gainsaid that there is a rough element patrolling the highways, particularly at night, prowling would be a better word, seeking what deviltry they can get into and get away with, most of them in stolen cars, stolen for the night, then abandoned. Hence this sort of thing as portrayed in the adventure of the three Ottawa girls should be frowned upon by parents and the public generally.

x x x

"BACK TO THE FARM" is a slogan with an encouraging sound, and there are indications that the drift away from the farm has been checked. White collar jobs and hall bedrooms and bright lights seem to be losing their charm, now that the farm has radio, telephone, electric lights, automobiles, and all the comforts and conveniences of the city home, and then some. Farm isolation is disappearing and the charm of the farm is becoming more pronounced. This was very noticeable at Toronto Fair, Agriculture Day, where 700 tanned, good-looking farmers and farmerettes from Ontario farms asserted that there was nothing in the city to attract them away from the farm. From twelve years up these sturdy products of Ontario farms attested by word and gesture that their job was the farm and that city jobs had no attraction for them. Twelve-year-old Donald Robins, of Smithville, one of the youngest members of the Boys' Calf Club, insisted that he was on the farm to stay. Ninety-six young men demonstrated what the Calf Club means to them and the farm with their Ayrshires, Holsteins and Jerseys. Donald Peer, of Milton, repeated his success of last year, carrying off the prize for showmanship in the Holstein class and said that his slogan was "Gently Does It," as a guide to handling cattle. "We love the farm and everything about it, for itself, of course," said Donald, "but there's so much education in these shows it certainly makes us want to study every angle of farming when we can compete with one another."

# LOOKING BACKWARD

### GLEANINGS FROM OUR FYLES OF BY-GONE YEARS

## 20 YEARS AGO

Sept. 9th., 1919.

A maskinonge which weighed 36 pounds was caught in Mosquito Bay yesterday by Ernest Schoener of the city.

At the regular meeting of Division No. 189 of the Brotherhood of Locomotive Engineers in this city, Bro. H. Lavoie, the secretary of the Division, was presented with an address, a gold headed cane and a locket and chain as an evidence of the high esteem in which he is held by his fellow members. Bro. W. G. Dewar, of Ottawa, General Chairman of the B. of L. E. on the Grand Trunk Railway System, read the address and made the presentation.

Mr. Russell Clarke has returned home after spending a few days in Toronto.

## 30 YEARS AGO

Sept. 9th., 1909.

The Rev. R.S. Laidlaw, minister of St. Andrew's Presbyterian Church in Brandon, Manitoba. Members of the congregation and citizens as a whole regret his departure from Belleville.

Miss Annie Smith of Lynn, Mass., is the guest of Mrs. J. R. Davis, Albert Street.

Mrs. S. A. Osborne of this city is visiting her brother, Mr. W. D. Vickers in Chicago, Ill.

Master Will Luscombe has gone camping for a week.

Mr. E. H. Tickell is visiting the exhibition in Toronto.

Mr. James Tugnett, Coleman Street, is visiting his daughter in Montreal.

## 40 YEARS AGO

Sept. 9th., 1899.

Mrs. Cavalry Nash of Toronto, formerly of Belleville, will sing a solo in Bridge Street Methodist Church Sunday evening.

Mr. Wesley Bullen has returned home from Toronto.

Mr. William Collins went to Toronto today to resume his studies at St. Michael's College.

Prof. Paul Denyes has returned to resume his duties at the D. & D. Institute after the long vacation.

Mr. and Mrs. W.W. Chown have returned home from Toronto.

Mr. S. W. Vermilyea left today for Montreal and Quebec on a buying trip.

Mr. George Paull, for some time with the Ritchie Company, has left for New York City.

## 50 YEARS AGO

Sept. 9th., 1889.

Mr. A. W. Mills, a student at Albert College, will occupy the pulpit at Holloway St. Methodist Church Sunday evening.

Miss Bessie O'Carrol, vocalist, of Rochester, N.Y., is the guest of Mrs. P. H. Hambly

The barns and sheds of Mr. W. H. Ketcheson, Front of Sidney, were totally destroyed by fire this morning.

The contract for the superstructure of the Bay Bridge was signed today by the Brown Manufacturing Company of this city.

The Brown Manufacturing Company of this city shipped today to the Northern Pacific and Manitoba Railway Company at Winnipeg, Man., a steel locomotive turntable.

Messrs. J. L. Biggar and George A Biggar started today to drive to Toronto. Their long drive promises to be a pleasant one.

# *Letters to the Editor*

Editor Ontario Intelligencer
Dear Sir:

Since the beginning of the war, we have been kept so busy cussing our public enemy No. 1 that we have scarcely given a thought to our No. 2.

And yet Mussolini merits some consideration.

While pretending friendship with France and England, we know that he has a military alliance with Germany. He is, in effect, eating at two mangers and calculates to enrich himself from the spoils of whoever falls.

His little scheme, however, is liable to suffer a check.

When the first shock and confusion inherent to being suddenly precipitated into a major conflict have passed and things have settled down to the calm and orderly prosecutions of war, it is likely Britain and France will sit down to study the question of Italy.

They will remember that she aided and abetted Hitler at Munich and that, although Mussolini raised his hands in pious horror when the Germans annexed Austria, he was not slow in following their example and stealing Albania.

They will bear in mind that Mussolini also believes in rule of thumb methods to acquire what he covets and that Fascism is as great an enemy to peace as Hitlerism.

If Germany wins, the question of colonies will come upon the carpet and Italy will exact, for her share, Tunisia, Algeria and the Egyptian Protectorate. She would demand Malta and the return to Spain of Gibraltar.

If Germany loses, here is a golden opportunity for Italy to help in the dismemberment of our enemy by taking under her own flag Austria and establishing new zones of Italian influence in the Balkans. And if the war results in a stalemate, Italy, being fresh and unwounded, will be in an excellent situation to form a new Munich and obtain concessions from our weakness which we might then be in no position to refuse.

The first and third hypotheses does not apply because, as I have already said so often, WE WILL WIN THE WAR. Mussolini, however, doesn't know this. He is hypnotized by Hitler's bluff and apparent might. Alas, the wish being father to the thought, he clings to the hope that a miracle will happen to give victory to his master.

But he is also prepared against the contingency of victory to the Allies and dreams of territorial agrandizement at the expense of his erstwhile friend, which would shift to the south of Europe, the very menace which France and Britain would have destroyed in the north.

The only eventuality which carries with it any real danger to the Allies would be that Italy should go to war on their side. That would be a catastrophe. It would mean the recognition of Fascism as a champion of law and order and would ultimately result in the creation of a new Roman Catholic empire to be foisted upon the world.

Let us hope that France and Britain will be guided through this labyrinth of intrigue and deceit.

Better far an open enemy than a false friend.

Fifteen months ago I wrote in another paper that sauerkraut and macaroni wouldn't mix; neither do dictatorships and democracies.

The way out of this little difficulty seems pretty easy, on paper.

The Allies might, for instance, send an ultimatum to Italy, demanding certain proofs of her good faith, such as the denunciation of the Rome-Berlin Axis, and free passage for the Allied troops throughout Italy. In other words, be with us or fight.

If Italy evinces a desire to join up with the Allies, let them reply that before they can accept Italian help she must get her hands clean; i.e. return Albania to King Zog and give up Ethopia to the League of Nations.

And finally, should Italy declare war on France or Britain, then her goose would be cooked with thoroughness and despatch. Q.E.D. (Remains to be proven.)

The lessons of the last war have not been lost on all of us. We have our memories. We cannot forget, for instance, the very poor show made by the Italian army in numerous engagements. How their legions dissolved at sight of the Austrian like wraiths in the rising sun and how, time and time again, French contingents had to come along and boot the Austrians back to where they belonged.

Because, with cymbals and a brass band the Italians have cheered themselves to the echo over the conquest of a few scattered dark races, do not let us lose our sense of proportions.

It would be "God help them," if they should ever find themselves opposed to the French Pollus or to the British Tommies.

T. MEEUS.

# THAT BODY OF YOURS

By James W. Barton, M.D.

That body of yours oallin hea'

### Rheumatic Headaches

When physicians have already found over one hundred causes for headache, it can readily be seen that unless the patient can describe the nature of the pain—stabbing, throbbing, dull, sharp, exact place on or in his head,—it may require considerable time to discover the cause. Even when the pain is only in the forehead, it may be due to eye strain, sinus infection, gas pressure or other conditions.

There is one type of headache that appears to be more common than formerly and that is pain in the muscles covering the head, extending down into muscle at back of neck. This is frequently a symptom in influenza and when the individual has been exposed to a draft at home, office, theatre, or motor car. However, this pain in muscles of the scalp and back of neck may be due to rheumatism as described by Dr. James Cyriax in the British Medical Journal.

"The patient has often had previous attacks of rheumatism and an attack of influenza or a cold occurs before the onset of the headache. As a rule, the headache is present on waking and moving the head, keeping neck rigid, does not aggravate or increase the pain in the head as in other kinds of headache. The scalp at the back of the head may be so tender that the patient is unable to bear the slightest pressure."

These rheumatic headaches may be separated into two groups: pain in the head from the neck muscles, and pain in the head due to the thin layer of muscle called the scalp. Rheumatic headache does not appear to start in the forehead.

The treatment for rheumatic headache as suggested by Dr. Cyriax is massage. Massage must be given daily until the symptoms have gone. Sometimes little nodules or lumps are present and massage in most cases breaks these down.

"It is probably fair to say that headache that goes on steadily for years without much change and the patient not ill, is rheumatism."

However, while it is gratifying to learn the cause of many of these "surface" headaches is rheumatic and can be helped by massage, the cause of the rheumatism — infection of teeth, tonsils, intestine—or exposure to cold and dampness, should be sought.

# *Poland, Land of Patriots*

Seven years ago they called Poland the "powder-keg" of Europe. In this distinction she had superseded the Balkans, historic breeding ground of war. People then did not think much about Czecho-Slovakia or even Austria. When the first echoes of a new Germany's martial strains reached the outside world, eyes turned sharply to Poland.

• •

The reason was plain. On the edge of the "Corridor" a giant figure loomed up; it symbolized a Reich brooding over the loss of her Prussian territory—a strip of land that cut the home of the Junkers in the east from the main body of the nation, and struck like a dagger into her pride. Germany had never had any love or admiration for the Poles, and the feeling was heartily reciprocated.

At least twice in recent times Prussia and imperial Russia had obliterated Poland from the map. The shameful "partitions" of that unhappy country had touched a high-water mark in brigandage and cold-blooded diplomacy. So effective had the carving been that the outbreak of the Great War found the Poles enlisted in the armies of all the three great powers of eastern Europe—Russia, Germany and Austria.

• •

Then came Poland's triumph in the immediate post-war chaos. Germany could do nothing, and Pilsudski's armies—he had helped Germany at first—smashed the Russians and pushed them to Kiev. Russia counter-attacked, but was again beaten, had to submit to the Riga treaty, and a new frontier in the east.

The story of Poland after that is well known. In spite of the "Corridor" outcries it appeared that she was making overtures to Germany and taking no chances with the enemy on the other side. "Iron Man" Pilsudski built up a powerful war machine. Poland had launched on a definite national career, rejoicing in her new-found independence and her outlet to the sea. If the digestion of her minorities was difficult, the surge of her patriotism laid solid foundations.

• •

Diplomacy vacillated, but from the beginnings of Pilsudski's work a far stronger Poland was emerging. Today she finds herself rapidly expanding her industrialization, confident of her big army, and her technical progress. But no aspect of Poland today is more interesting and more significant than the youth of her population.

Fifty per cent. of the people of Poland now are under twenty-five years of age, sixty per cent. are under thirty. This means that Poland, with a population of 34,000,000 can mobilize an army larger than France, with its population of 41,000,000. The conscript classes recently called up in Poland are indeed nearly as large as those in Germany.

What contributed to this remarkable state of affairs, that provides such a sharp contrast to conditions prevailing in other countries of Europe?

• •

During the Great War, apart from ordinary casualties, 1,000,000 Poles died of privation. Most of these were old people, so the normal age balance was disturbed. Another factor operating was the prolific Polish birth rate. Between 1920 and 1925 the average number of boys born in Poland per annum was 515,000; during the same period in Germany, with twice the population, it was only 675,000 per annum. Taking the average of the past ten years, the number of boys born in Poland yearly has been 511,000 and in Germany 595,000. In young man-power Poland has a remarkable strength.

• •

Add to this the impassioned patriotism of the Poles; the bitter memories of her history, and the deep-rooted distrust of her neighbors, and there is a quite complete picture of a land that will not give in easily to threats or guns. —Hamilton Spectator.

# *'Fifty-Four- Forty or Fight!'*

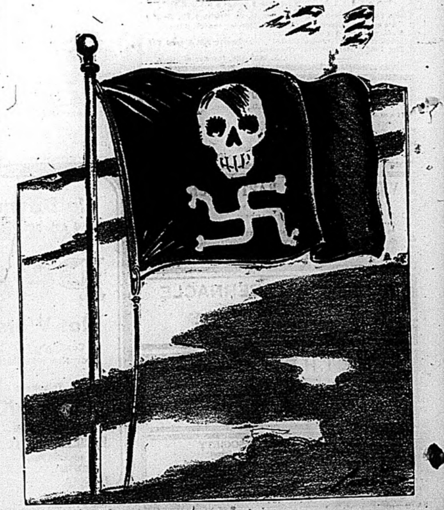
The United States and England trembled at the brink of war in 1844 when James K. Polk was elected president on the slogan 'Fifty-four-forty or fight!" While strong-minded Britishers were demanding all of the Oregon country, comprising today the States of Washington, Oregon, Idaho, and part of Wyoming, and American hotheads were clamoring for all the British Columbian coast, cooler heads in our own nation counseled the 49th parallel, our present boundary, as the international line. Meanwhile, the Hudson's Bay Company was frantically appealing to the mother country for ships and marines to repeal the invasion of the Far West by a tide of American pioneers.

To obtain reliable information about the country, England sent Captain John Gordon to the Pacific. He was told that if he found Oregon valuable, England would fight for it. If it were worthless, as many were saying, the U.S. could have it and welcome.

Captain Gordon and his marines arrived at Puget Sound harbor, maintaining loudly that they would "drive every last Yankee back over the mountains". At the Hudson's Bay post at Victoria the anxious inhabitants did their utmost to make the pompous Gordon at home. Hunters were sent out for game. Fishermen brought choice salmon and trout for his table. But he was pleased with none of it. Half-breed servants didn't attend his wants with the skill of English butlers he groaned with the discomfort of sleeping in rude, frontier bunks; he was disgusted when he learned that deer were "still hunted", instead of run with dogs, as in Merrie England. The last, brittle straw of his patience broke when he asked for a bath—and was courteously led to the shore of the Pacific and invited to walk in!

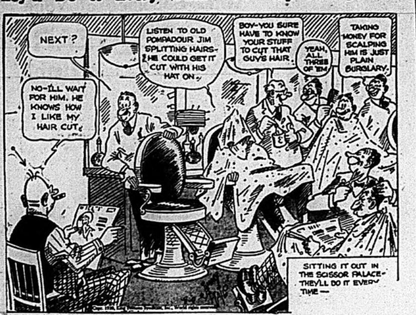
Captain Gordon had learned enough. He stormed aboard his ship and set sail for England, away from this grim land, fit only for savages. At home he declared that he "wouldn't give the bleakest knoll on the bleakest hill of Scotland for all of Oregon's mountains in a heap". His word was accepted without question. England abandoned all thought of war, and accepted the 49th parallel boundary compromise.

—Clay Osborne in The American Mercury.



"DANZIG IS OURS!"

## They'll Do It Every Time :-: By Jimmy Hatlo



NEXT?
NO—I'LL WAIT FOR HIM. HE KNOWS HOW I LIKE MY HAIR CUT.

BOY—YOU SURE HAVE TO KNOW YOUR STUFF TO CUT THAT GUY'S HAIR.
YEAH, ALL THREE OF 'EM
TAKING MONEY FOR SCALPING HIM IS JUST PLAIN BURGLARY.
SITTING IT OUT IN THE SCISSOR PALACE—THEY'LL DO IT EVERY TIME—

# AIR RAID ALARM

*(Continued From Page One)*

In the south, an army communique said, the Wisloka river was crossed and Dembica reached. At Sagmo, it said, a crossing of the Dunajec river was forced, and the eastern bank of the Vistula was reached near Sandomierz.

An unexplained air raid alarm, the first of the war, roused Berlin before dawn today.

The alarm came while the Capital was jubilant over the supreme high command claims that a German vanguard of armored cars had entered Warsaw. But there also were reports of hard fighting for possession of some Warsaw radio stations while Poles still held others.

(A Polish broadcast assertedly emanating from the Warsaw station, said Germans had taken over the Warsaw wave length. Both Polish and German broadcasts came over the station's wave-length.)

Large sections of Poland, Nazis acknowledged, still are unoccupied. Germans were told that a spearhead was being driven at Warsaw to effect, if possible, swift Polish surrender.

**Lodz Still Unoccupied**

Information available in Berlin, indicate Lodz, between Berlin and Warsaw, still was unoccupied. But Germans said the thrust at the Polish Capital was sufficiently well organized to eliminate the danger of a successful flank attack on the long Nazi lines.

The average German still was in the dark on what was happening in the west, and there was growing popular bewilderment on what turn this war would take next.

(In Paris, French tanks and infantry were reported today to have reached the Saar River in Germany in a flanking advance toward the Siegfried line.

(In London, the British Information Ministry has reported millions of leaflets rained by British planes on Northern Germany, telling Germans that the Nazi government must be eliminated.

**Inhabitants Aroused Early**

Screaming sirens roused most of Berlin's 4,000,000 inhabitants from beds at 3:38 a.m. (10:38 p.m. E.D.T. last night). A second alarm was sounded less than an hour later.

The city's air defence machinery went into action. Artillerymen manned anti-aircraft guns, and many fighting planes warmed up for take-offs from dozens of secret hideouts.

But no hostile planes appeared in the clear starlit sky, and the startled population was notified later by an "all clear" signal it could go back to bed.

Germany military authorities refused to explain the reason for the alarm, and the propaganda ministry offered no official information.

In well-informed quarters, however, the warning was associated with the battle for Warsaw. The presumption was that German military forces in Poland, alarmed by the possibility of Polish aviators making an attack on Berlin, had transmitted the alarm to the German Capital.

**Searchlights Remain Dark**

No anti-aircraft artillery was heard, and the great battery of searchlights near the Tempelhof airdrome and other vital spots remained dark.

One official said there were no test alarms planned now.

"The psychological effect would be too disturbing," he said. "It is reasonable to suppose there was substantial basis for the alarm."

The war's first alarm in Berlin was a startling experience.

Even tiniest lights were extinguished. Police cars sped through streets. Air raid supervisors in every block routed out sleepers in night clothes to dash for cellar refuges.

**Soon in Defensive Cellars**

Parents bundled up children. Within a few minutes the whole city, except for those in defence services, was in shelter.

There was disorder in some buildings where occupants forgot to take their gas masks to cellars. Many were sent back for them. Others made emergency masks by dipping cloths into water.

Mothers hustled to cellars with vacuum bottles filled with hot milk and packages of food. Bathtubs were filled and buckets of water stood by virtually every stairway. Police cleared the streets.

# Parliament Must Decide

*(Continued From Page One)*

### TO SEND TRAINED AIRMEN

Mr. Mackenzie King said Canada's immediate co-operation with Britain would be to send trained air force personnel, and to guard the Atlantic coast, Labrador and Newfoundland, and the French colony of St. Pierre and Miquelon, while affording all possible economic assistance in the form of supplies an deconomic pressure.

Proceedings in the House commenced with presentation by Maxime Raymond (Lib. Beauharnois-Laprairie) of a petition signed, he said, by "thousands of citizens" of Quebec urging the members and ministers from that province to "resist the diabolical machinations of war profiteers and also save our country from the torch of war and internal troubles."

The petition declared "those who govern us have not the right to engage Canada, a sovereign country, an American country, in a European war when it is neither attacked nor menaced."

Col. H. S. Hamilton (Lib. Algoma West), moving that "a humble address" be presented His Excellency thanking him for his "gracious speech", declared that at this time "talk should be brief and action as prompt and vigorous as possible".

### PREPARED TO SEND EXPEDITIONARY FORCE

Col. Hamilton said "this is Canada's war and every British, French or Polish soldier who gave his life in the last war gave it for Canada". He was prepared to see an expeditionary force sent from Canada and to go himself as he did in the Great War.

Equal sacrifice, physical and financial would be needed if the authorities were to retain the faith and confidence of the people at this time, Col. Hamilton said. He warned against profiteering and exploitation, and suggested establishment of a board to co-ordinate Canada's military and economic efforts.

J. A. Blanchette (Lib. Compton), seconding the address and speaking for the most part in French, said Canada should be prepared to shoulder the responsibilities of partnership in the Empire. "I am proud to support a government which has the sense of their responsibilities and are prepared to discharge them to the fullest possible exent."

Dr. Manion led off with a declaration his party would refrain from politics. "There will be, neither now nor later, anything in the shape of political manœuvring or captious criticism," he said.

### MANION PLEDGES SUPPORT OF PARTY

Dr. Manion pledged the support of his party to Prime Minister Mackenzie King's policy of "effective co-operation at the side of Britain".

The war, Dr. Manion said, was "for the preservation of human liberty". He charged Hitler with murder and international gangsterism. The war was not against the Germans as a people, but against the Hitler philosophy. It was a war for Christianity "in all its branches".

Dr. Manion urged the government to state its policy "openly and clearly". He said, "We are at war—I do not think that can possibly be questioned. In the interests of national understanding and clear thinking I think our position should be made quite clear."

Mr. Mackenzie King opened his remarks with references to the fact that three preceding speakers had served in Great War. He had never doubted Dr. Manion's readiness to stand with him in the face of a crisis involving the Dominion.

Of the events leading to war the Prime Minister said "no more fatal error can be made than to believe the German people plunged us into war. Europe has been plunged into war because of a hateful and tyrannical regime which cherishes and is seeking to perpetuate policies that would rob mankind of everything that is dear to the human heart and human soul."

### NO DOUBT OF GOVERNMENT POLICY

The Prime Minister said he would leave no doubt in the mind of anyone as to his government's policy—"We are going to stand for the defence of Canada, the co-operation of this country at the side of Great Britain. And if this House will not support us in that it will have to find some other government."

Mr. Mackenzie King warned those who would remain "isolationist" that there were no bounds to the Hitler ambition. To such he declared "if Britain and France go down the whole business of isolation will prove to have been a mere myth."

On the subject of profiteering, the Prime Minister was outspoken. "I care not who the individual may be, how respectable in his own eyes or in the eyes of others he may appear, or what position he may hold, if he seeks to profiteer in this crisis he belongs to the underworld and should be treated as one of those who menace all that is sacred in human relations.

Members of parliament were advised by the Prime Minister to "keep away from me for I will never listen to you" if they desired preferment for political friends in Canada's war effort.

Mr. Mackenzie King reviewed the various statements he issued to the press as the crisis developed into war.

### DECISION STRICTLY UP TO PARLIAMENT

"Was there any member of this House, when he read that this government was outlining a policy which it had reached with complete unanimity who thought the government was doing other than inform the policy which we have brought down today?

"I have said all along that parliament would decide the matter of peace and war, whether or not this country is to go into war.

"Now I wish to make perfectly clear that parliament is here today to decide that question. That question is not decided yet."

The Prime Minister put on record the various communications he had given the press and his peace messages to Hitler, Mussolini and the President of Poland. He emphasized that whatever action Canada was taking or might take was voluntary.

Regarding his announcement that Canada would be at the side of Britain, the Prime Minister said it was "not that we decided to go to war willy nilly; we decided that was the policy we believed the Canadian people wished to have put into effect."

### REFERRED TO AGGRESSIVE ACTS IN EUROPE

The Prime Minister referred to aggressive acts in Europe in the past five years.

"Unless a definite stand is taken now by those who prize freedom, I think we could expect that aggression to continue to the bitter end," he said.

Advantage had been taken of the democracies which had put their faith in disarmament pledges and the League of Nations.

The Prime Minister spoke of the difficulty the government had in recent years in obtaining agreement to increase defence estimates. Annual figures for defence, beginning with the year 1935-36 were $17,000,000, $23,000,000, $32,000,000 $34,000,000 and $64,000,000.

Since the crisis an additional $15,450,000 had been appropriated by Governor General's warrants, a total of $188,000,000 in round figures.

In the House of Commons last March, the Prime Minister recalled, he said that if an enemy were to bomb London he would consider that a threat to the entire British Commonwealth of Nations.

"Can anybody say the torpedoing of a vessel carrying Canadian and American citizens was not an act of unwarranted aggression?" he asked.

Anything the government had done or proposed was not to be taken as an indication it "desired to go to war willingly but that it believed that was the policy the Canadian people wanted to adopt".

### SAME SITUATION PREVAILS AS IN 1937

The Prime Minister read the conclusions reached at the 1937 Imperial Conference regarding the defence and imperial co-operation to the effect the governments of the Dominions were under no commitments to take part in war except as might be decided by their own parliaments. That was the situation now. Until parliament approved the action taken by the government under the War Measures Act and the further action proposed parliament had no commitment to take part in war.

Canada, however, was a signatory to the Pact of Paris in which the nations renounced war as an instrument of national policy. Germany had also signed that pact but had violated it.

North America would not be secure if Hitler wins, the Prime Minister said. He outlined the course of Hitler in annexing one country after another and asked "where is he creeping to?

"Into those communities of the north," he said, "some of which today say they are going to remain neutral. I tell them if they remain neutral in this struggle and Britain and France go down, there is not one of them that will bear the name that it bears at the present time.

### WHOLE POLICY WILL BE A MYTH

"And if this conqueror by his methods of violence and force and terror, stooping to other iniquities such as no other man in the world would think of descending to, is able to crush the peoples of Europe what is going to become of this doctrine of isolation on this North American continent? If Britain goes down, if France goes down, the whole business of isolation will prove to be a myth.

"There will be no freedom on this continent, there will be no liberty. Life will not be worth living. It is for all of us to do our part to see that this continent is saved."

For drama and gravity, the day in parliament will long stand out in Canadian parliamentary history. A full attendance of members and hundreds of gallery spectators heard Mr. Mackenzie King speak.

### DENOUNCED GERMAN LEADER

Not a little of the drama was provided by the personality of the Prime Minister. A life-long advocate of peace and goodwill was leading a nation into war. A man who for years has urged moderation of speech in regard to other nations now denounced the leader of Nazi Germany in unsparing terms.

The Prime Minister recalled his previous efforts to promote goodwill in both industrial and international relations and said he never thought it would fall to his lot to take the action now demanded of him by the turn of events.

"That responsibility I take with a sense of being true to the blood that is in my veins," he declared.

He joined with Dr. Manion in a plea for toleration of the honest views of all Canadians, and bespoke as well toleration for the German people. As one who knew both German-Canadians and old country Germans well he declared the war was not against them but against the tyrannical regime which held them in slavery.

The cause of the war was Adolf Hitler's lust for power.

### C.C.F. LEADER DUMBFOUNDED

Mr. Woodsworth, who followed the Prime Minister, said "I listened for two or three hours, as did other honorable members, to try to gain some idea of what co-operation means—and I confess I am completely dumbfounded. I do not know—and I think I have the average intelligence.

"There is only one point on which we have been enlightened, apparently, and that is that we are not going to have conscription—at lease not at present.

"Are we to send an expeditionary force to Europe? We do not know. It is important that we should know.

"We do not know whether wealth is to be conscripted. In the speech today we are asked to give a blank cheque to the government. So far the Prime Minister has not enlightened us very far as to what the policy of the government is to be.

"I had thought that when we came to this House we were at war and that nothing could alter that state of affairs, but as I listened to the Prime Minister I began to feel that we were not at war and were not likely to be in the technical sense.

"I had rather thought that when we came to Ottawa we would have placed before us in the form of a resolution, a definite declaration of war.

"If we are not at war is it proposed that we go to war without a declaration of war?"

### TOUCHED ON RELIGIOUS ASPECT

Mr. Woodsworth touched on the religious aspect of the war. "I left the ministry of the church during the last war because of my ideas on war. I do not belong to any church today," he said.

"I have boys of my own. I hope they are not cowards but if any one of those boys, not from cowardice but through belief, is willing to take his stand on this thing and if necessary face a firing squad or a concentration camp, I shall be more proud of that boy than if he enlisted to go to the front."

Mr. Blackmore said "the British people must stand or fall together. I believe there is no middle way. It is for us as Canadians to do our utmost to help them stand together. This Social Credit Party, now identified with he new democracy, has committed itself to the unqualified support of Britain and her allies."

The Social Credit leader urged all to remember that in this war every liberty and privilege, the freedom of service and of religion and the rights of minorities, were at stake. He spoke particularly to the French Canadian minority.

# ISSUE IS STILL

*(Continued From Page One)*

One, speaking Polish with a German accent, said Warsaw was being entered by German forces.

The other denied the capital had fallen.

"The Germans," he said, "have taken over our wave length".

"Everyone in Warsaw is at his post."

(The German supreme high command claimed in Berlin last night that Nazi armored cars had entered Warsaw at 5:15 p.m., 12:15 p.m. EDT, yesterday.)

**Residents Warned by German Station**

The German announcer warned all residents of Warsaw they faced punishment, if found with weapons by the Nazi invaders. He ordered janitors to collect guns and store them in basements.

"Germans will hold all those responsible who have weapons in their possession when we enter," he said.

The German announcer told the populace its city was surrounded, that all communications were broken, and that "stores and banks are closed and will remain closed."

On the other hand, the Polish broadcast said banks would open, reported a general order to the army from the Chief of Staff commanding Polish soldiers to "defend the capital with all your strength," and issued instructions for resisting the German advance.

**Warsaw Suffers Heavily**

However, Warsaw apparently was suffering heavily under German air raids, and defence forces facing a German army advancing from the southwest were falling back under pressure.

A broadcast, which the announcer said came from Warsaw, reported shortly after 11 p.m. (6 p.m. EDT) last night that German warplanes were bombing the centre of Warsaw. He said bombs were raining on the theatre square and principal streets.

An announcement 40 minutes later said the Germans were bombing "purely non-military objectives in the central and most densely populated sector of town." This broadcast was in English.

German planes were said then to be dumping loads of bombs on Vistula River bridges and in the city.

**A Different Picture**

"The entire populace, in full support of radio warnings, now is preparing a defence of the streets erecting barricades of all sorts of objects and digging deep ditches in the hope they will catch enemy tanks" the French-speaking broadcaster said.

"Street cars are running, shops are open and there is no food supply."

The station identified as Warsaw's acknowledged that the "push of the German army is so terrible Polish land forces have been obliged to yield in the direction of Kielc, Pilkrow and Tarnow, where they will take up new positions."

(The three towns form an almost straight line from Kielc, 50 miles northwest of Krakow, southeast to Tarnow, near the Slovak frontier.)

# Duke and Duchess Of Windsor Receive Editorial Welcome

London, Sept. 9—(CP)—The Duke and Duchess of Windsor, returning to England for the first time in three years, received an editorial welcome today from the Times.

The Duke, ready to undertake an important wartime task for the empire, left Cannes with the Duchess last night, enroute to a channel port where a destroyer was said to be waiting to rush them to England.

"The announcement that the Duke and Duchess of Windsor are leaving Antibes for England will cause no surprise, still less any kind of contention," commented the Times.

"It has always been tacitly assumed that a war would sweep away whatever difficulties there may have been in the way of the Duke's earlier return.

"These difficulties, though they could not but engage the attention of the responsibility of the cabinet, have never been political. One reason, indeed, why the Times and most other newspapers have steadfastly refrained from speculation and comment on the whole subject is that discussion of the Duke's plans seemed an unwarranted and impertinent intrusion into matters that were primarily of private and personal concern.

**Events Speak For Selves**

"Now, too, the events and the hour which bring the Duke to rejoin his fellow countrymen may be left to speak for themselves. They relieve his homecoming of all possible trace of controversy and embarrassment and should safeguard him against prying publicity.

"No one could dream of the Duke's absence from England at a time in which absence would become intolerable exile, or suppose for a moment that anything would be lacking on the government's part to speed the fulfilment of his dearest and most urgent wish."

It was expected the Duke and Duchess would take up residence at Fort Belvedere, outside London.

Speculation today centred about what the Duke might do to help the country in wartime. Some thought he might be named to head some form of national service work, tohers that he would enter active service with the armed forces. The principal commission he still retains is Colonel in Chief of the Welch Guards.

**Atlantic Rates Increased**

New York, Sept. 9—(AP)—Freight rates on cargo from North American Atlantic ports to Great Britain were increased 33½ per cent today by the North Atlantic-United Kingdom conference.

## Wooler

Wooler—Schools were opened again on Tuesday.

Jack May is spending a few days in Toronto.

The Robertson family of Toronto spent the week end with Mr. and Mrs. S. L. Terrill.

Mr. and Mrs. M. Waite, Betty and Bertha spent Monday with Mr. and Mrs. W. Ruttan of Rednersville.

A number of young people from this district attended the shower for Edna Maybee and Sterling Stewart at the home of Burton Lowe of Carmen.

Miss Walker of Stoney Creek is the assistant teacher of the Wooler Continuation School this year. Mr. A. C. Anderson of Picton is the Principal.

"Better the Seed Better the Breed"
SAYS MR. PICOBAC

• "Growing tobacco and growing live stock is two different things," said Butch Nolan, the cattle buyer.

"But the principle is just the same," retorted Mr. Picobac. "Growing Burley tobacco you keep selecting improved seed year after year, learning more all the time — and you get an improved type of Burley — a finer, lighter, more uniform leaf."

"You can't beat Canadian Burley," admitted Butch.

"No, but you can keep on improving it," said Mr. Picobac. "And that's what I mean. Picobac gets better and better every year because our Canadian Burley keeps getting better and better. Picobac is the pick of Canada's *improved* Burley crop."

"It DOES taste good in a pipe!"

## Personals

The many friends of the Rev. Dr. Baker, who is ill in the Memorial Hospital in Bracebridge, will be pleased to learn that his condition was reported to be slightly improved this morning.

Miss Thelma Menzies of Campbellford, has entered the training school for nurses at Belleville General Hospital.

Miss Mary Northcott has been spending some time at the Bostwick Island Camp of Dr. and Mrs. N. Street, Gananoque.

Mr. Douglas Bankier left today for Houston, Texas, to resume studies at Rice Institute.

Mrs. T. R. Dolan and Miss M. Diamond were tea hostesses at the Belleville Golf Club today.

Mrs. Albert Bunton and children have arrived from California, after visiting her sister, Mrs. George Allen of Beverly Hills. The party also visited San Francisco exposition.

Judge A. Cochrane of Brampton, while renewing old acquaintances in the city was the guest of Mr. and Mrs. A. B. Collins.

St. Andrew's Presbyterian Church choir members held their first choir practice of the season last night under the leadership of Mr. Charles Kilgour. Special activities were also resumed with a social hour after practice. Games and a sing-song of patriotic songs preceded lunch in the Ladies' Parlour after which Mr. Morley Anderson on behalf of the choir presented a lovely end table to Mr. Frank Whittle, valued member and tenor soloist who is leaving town to reside in Ottawa. Speeches were also made by Rev. Mr. Walker, Mr. Thomson and Mr. Kilgour, expressing regret at losing the services of Mr. Whittle and wishing him success and happiness in his new home.

## Former Pupils Of O.S.D. Wed

Havelock—(Special to The Ontario Intelligencer)— A unique wedding of interest to Bellevillians took place yesterday in Seymour Township when Rev. Andrew McLauchlin, B.A., B.D., united Clinton John Parker and Ena Myrtle McMillan at the home of the parents of the bride. Mr. and Mrs. William J. McMillan of Trent River. Bride and groom were former pupils of the Ontario School for the Deaf, and the ceremony was performed by using a duplicate printed ceremony read by the minister and followed by the contracting parties. The bridesmaid was Miss Mildred Keating of Stirling, and the groomsman, Gerald William Fraser of Frankford. After the ceremony a large number of guests sat down to a wedding luncheon and tributes and good wishes were extended to the happy couple. Nearly all the guests were proficient in the sign language and the gathering was an exceedingly happy one. After a brief honeymoon at Stirling Mr. and Mrs. Parker will reside on the farm at Seymour.

## Weddings

### MACAULEY—CUMMINGS

Trenton, (Special) — At eight o'clock, Thursday morning in St. Alphonsus Catholic Church, Wooler, Miss Mary Ada Cummings, daughter of Mrs. Thomas Cummings and the late Mr. Thomas Cummings was joined in marriage to Mr. Hugh Arthur MacAuley, son of Mr. and Mrs. John P. MacAuley. The bride's cousin, Rev. Father H. V. Black, of Wooler, officiated.

The bride given away by her brother, Mr. Joseph Cummings, was attended by her sister, Miss Rose Cummings. The groom was supported by his brother, Mr. Leo MacAuley.

A reception was held after the ceremony at Firhurst Manor, Trenton. Afterwards the happy couple left by motor for Quebec City, P.Q. On return they will reside at Wooler.

### SCOWEN—SWEETNAM

A quiet wedding was solemnized in All Saints' Anglican Church, Noranda, on Saturday, September second, when Elizabeth Viola, daughter of Mr. and Mrs. S. J. Sweetnam of Belleville, and Roland Herbert Scowen, son of Major and Mrs. H. H. Scowen of Bishopton, Quebec, were united in marriage by Rev. E. Reed of Noranda, officiating.

Mr. and Mrs. George Aikman, Noranda, were the attendants.

The bride was becoming gowned in Teal blue with navy accessories.

Luncheon was served at the Noranda Hotel, following the wedding.

Mr. and Mrs. Scowen have taken apartments at 115 8th Street, in the thriving mining town of Noranda, in Quebec, where Mr. Scowen has been engaged in business for some time.

### WILSON—DEAN

A pretty wedding was solemnized at the home of Mr. and Mrs. William Dean of Fuller, at noon on September seventh, when their only daughter, Mary Evelyn, was united in marriage to Mr. James Wilson, son of Mr. and Mrs. William Wilson of Fuller. Rev. S. Winter officiated.

The bride who wore a white sheer dress and coronet and carried a sheaf of white and red gladioli, was attended by Miss Lois Twiddy of Frankford. The groomsman was Mr. Borden Redcliffe of Thomasburg.

Lohengrin's Wedding March was played by Miss Beulah Winter, who also sang during the signing of the register "Love Divine and Tender", accompanied by Miss Vera Winter on the organ.

After the ceremony a wedding dinner was served to a small number of relatives and friends.

Mr. and Mrs. Wilson left amid showers of confetti and good wishes for a honeymoon trip to Toronto, Niagara Falls, and other western points. For travelling the bride wore a navy dress trimmed with white, navy hat, purse, shoes and gloves.

## The Stars Say—

By GENEVIEVE KEMBLE

**For Sunday, September 10**

SUNDAY'S horoscope holds propitious auguries for progress, prosperity, promotion and a general state of satisfaction with the world and its opportunities for growth, expansion and the pursuit of happiness. The day is under a most warming influence of friendly stars, so chase away all manner of depressing, limiting and inhibiting undertones.

Those whose birthday it is should have a year of great fulfillment of their highest hopes and wishes, with many things contributing generously to the march toward major objectives and high ambitions. There may be tenacious obstacles and slight postponements, but all succumb to the expanding and warming magnanimity of Jupiter's auspices.

A child born on this day, while seemingly deep, profound and studious, may be generous, genial, expansive and of strong humanitarian impulses, depending on the hour of its birth.

**For Monday, September 11**

MONDAY'S astrological forecast has conflicting testimonies. While there is a quickening influence at the base of things, both stimulating and exciting, a devastating force may carry matters too far, and in a hazardous direction. With sagacity, shrewdness and the wise counsel of superiors or employers, the day may be saved. Personal associations offer compensations.

Those whose birthday it is may have a year of some surprising upheavals, the outcome of which may be perilous or gratifying, according to the cleverness of sagacity with which the devastating circumstance is met. Trust an enlightened mentality, or confer with superiors or elders in a dilemma. There is more than a hint of romance or novel adventure, even in a threatened catastrophe.

A child born on this day, although probably erratic, restless, emotional and usually at high tension, should have fair talents and ambitions, and be genial, gracious and popular.

## TODAY'S MENU

By BETSY NEWMAN

Broiled Steak Baked Potatoes
Cold Cucumber Pickles
Summer Squash
Fruit Custard Tea or Coffee

THE "COLD" in cold cucumber pickles refers to the method of preparing them, not to the fact that they are served cold.

Cold Cucumber Pickles—Ingredients: one gallon best cider vinegar, one cup dry mustard, one cup sugar, one cup salt. Mix thoroughly and pour over cucumbers that have been washed but not peeled. These may be kept in an open crock.

Fruit Custard— Ingredients: two cups milk, three eggs or two eggs and one tablespoon cornstarch, one-fourth cup sugar, one-fourth teaspoon salt, one-half teaspoon vanilla or one-fourth teaspoon almond extract. Scald milk, mix cornstarch (if you use two eggs), sugar and salt, add small quantity of the hot milk to mix, then add to milk in saucepan or double boiler. Stir constantly until thick, then pour slowly on beaten eggs, return to fire, reduce heat and cook until eggs are set or custard coats silver knife inserted therein. Remove from heat, flavor and cool. Pour over sliced peaches, oranges or other fruit.

Back again to baby days, wearing a bib, but these bibs are a bit different. With a plain, high necked black crepe dress one woman wears a bib of colored stones and simulated

Slim young things will go for the velveteen reefer with back fulness. Done in black and in rich reds and browns these reefers have very slim fitted fronts with fullness in back below the waist.

## Advice to the Lovelorn

By BEATRICE FAIRFAX

Famous Authority on Problems of Love and Marriage.

### Contentious Family Life Bad For Complexion

I can't remember whether Dante put a quarrelsome family in one of the lower depths of his "Inferno" or not, but other men have done so.

The Alimony Club, founded by a distinguished sculptor in The Tombs prison, to avoid money squabbles, had many notable names among its members. And a day or two ago another citizen expressed his preference for jail over a wrangling household. He had been paroled, but he asked the Parole Board to return him to Sing Sing to finish out a two years and ten-months sentence.

The man was William F. Logan, 37 years old, of the Bronx, formerly a policeman, who was found guilty of manslaughter and leaving the scene of an accident, for which he was sentenced to serve from two and a half to five years for his crime.

Being a model prisoner, he was paroled. But the arguments that went on in his home made Sing Sing prison seem a haven of rest in comparison. He made known to Parole Commissioner Joseph J. Canavan that the emotional strain, caused by family difficulties, induced him to ask for a continued jail sentence.

He was ordered to pay $12.00 a week to his family, and he did better by three dollars, giving them $15.00, but declined to re-enter the argumentative home. Now Mrs. Logan is suing for divorce.

Whether Dante did or did not put a quarreling household in the depths of his "Inferno", it belongs there all night, and is accountable for not a little crime in this country. All officers of Juvenile Courts know that children leave home and indulge in petty crimes, from which they major into serious ones, when there is quarreling at home.

It begins to look now as if a panacea for this most ancient of family disturbances—remember the case of Cain and Abel? — is at hand. There's a new kind of beauty priestess abroad in the land. She calls at the house and claims to make you lovely at $5.00 a throw.

I have never seen personally one of the officiators at the rites of transformation of age into youth, homeliness into beauty, but I talked at length to one of them on the telephone who begged for the names and addresses of my correspondents. Needless to say, she did not get them. Here's the procedure—

The lady first demands your "really truly" age, stating if she doesn't get at the root of this vital statistic, she can't help you as much as if she knew the actual date on which the stork deposited you. Then she wants to know if your hair is dyed, restored, or if the first few graying hairs have been plucked out. She demands to know what kind of cosmetics you use, and suggests pitching them all away in favor of some of her own.

But most important of all—do you quarrel at home? If you admit you do, or say that you feel like quarreling at times but refrain, she says unless you abandon contentious thoughts she will not take you as a patient—even at $5.00 a lesson.

Then she grows eloquent. Quarreling at home, she says, is more destructive of beauty and youth than any other pernicious agency. You must smile and have love in your heart, even if you've caught your husband lunching with another lady. She even goes the length of suggesting stifling a curse with a kiss. But I think a lady who practiced that would have to be pretty good at dodging.

## GOOD MANNERS

MRS. CORNELIUS BEECKMAN

### The Buffet Party Everyone For Himself

During these last days of summer, the picnic spirit of merry informality is the keynote of our buffet meals. Around the clock. . .whenever and wherever the call is for food and conviviality. . . . a buffet meal is the answer to the hostess' service problem.

A buffet meal is the easiest and gayest kind of meal to give. The buffet is so informal, so felicitous, so "ice-breaking", it is small wonder that the modern hostess has welcomed it with open arms and grateful heart. Ceremony is tabu. Service is unnecessary.

Nowadays we run across buffet parties everywhere we go and at any time. Buffet breakfasts. Buffet luncheons and suppers, in the country perhaps, when a congenial group of people gather to break bread and make merry.

As there is no rigid time and place for giving the buffet meal, neither is there any rigid convention for arranging the table or tables on which it will be given. To the greatest extent, the buffet service affords a hostess an opportunity to use her sense of color harmony, of taste, of effective arrangement.

The happiest notes to strike are convenience and orderliness. Forks and spoons a-plenty, placed where they are easily gettable—up front, in short. A food-bearing dish at one end of the table balancing a dish at the other end. Stacks of plates at strategic points. Everything conveniently ready to hand.

As there are so many separate items on the buffet table, a cloth covering the whole table is perhaps most successful in tying them together decoratively. However, give free rein to the expression of your own taste, and if you prefer runners or find them more convenient, use them.

### When a Gift is Brought

Dear Mrs. Beeckman

When a package is brought by a visitor to the home of a person who is or has been ill, should such a package be opened at the time it is brought in, and the donor thanked right there? Or should the package be left intact until after the visitor leaves?

Does this same ruling apply to gifts brought for all other occasions?

L.

Yes, when a gift of any kind is brought to us, under any circumstances, we should open it at once. There is no reason not to open it, and every reason to open it. Opening it at once, chatting about it with the giver, thanking the giver, delightfully shows our enthusiasm for and appreciations of the thoughtfulness of the giver and the charm of the gift.

If we don't open the gift at once, we give the impression of being socially awkward . . .and we are. We also give the impression of being unenthusiastic and unappreciative . . . and of course we aren't, we just seem so.

### Courtesy Tip

Have you the pleasant habit . . and have you passed it on to your child . . . of never saying "Yes" and 'No' and 'I don't know' without adding the name of the person addressed? Adding the name of the person after these words takes away from the abrupt, clipped-off impression that they otherwise give. The mannerly child, who has been trained in this gracious habit by a mannerly mother and father says 'Yes, Mother' 'No, Miss Teacher'. 'I don't know, Uncle Jim.' This habit has real charm, both in a grown-up and in a child.

Penny Singleton as "Blondie" and Arthur Lake as "Dagwood" in a scene from "Blondie Takes A Vacation" on the same program with the Mounted Police story "North of the Yukon," now at the McCarthy Theatre.

## Goosestep for Loveliness

By HELEN FOLLETT

YOU LASSIES who are forever bawling because your thighs are over-developed had better learn to do the goosestep. You'll tramp off the excess tissues if you will stick to the job, put in five or ten minutes twice a day. Heavy thighs are no beauty bargains.

March to the beauty goal. Have a regular hour for figure improving ceremonies. Best times is in the morning before the bath. No good trying to goosestep in a skirt; can't lift your pink toeses high enough.

Stand tall, tummy in, chest elevated, hips tucked back and under, hands on the hips. Forward march, away you go. Fun. The family will have a good laugh, but don't you care. What's a little spoofing in the cause of pulchritude?

Hold the ankles rigid, life the foot as high as ever you can. The higher it goes the harder the pull on the muscles, wich will be strengthened and the more severe will be the onslaught on fat cells.

Movement must be highly energized. Keep on your toes. This exercise also reduces fatted calves and slenderizes the ankles. Don't overdo at first. It's strenuous, may make you breathless if you are overweight not accustomed to muscle workouts.

An old practice is that of removing fuzzers from the legs with a toilet pumice stone. The stone merely cuts the shafts close to the skin. Better use a razor, it's easier to manipulate, does a cleaner, more thorough job.

It is doubtful if shaving will increase the growth or make the hair coarser. When a man stops shaving and grows a beard, the hair shafts are safe and fine, not coarse bristles.

Hairy growths on the legs can be bleached by applying peroxide of hydrogen with cotton. A number of applications may have to be made before the little threads are sufficiently whitened.

JOY HODGES

Swimming helps to keep her trim thighs shapely

## For Travel Parties at Home

By ALICE LYNN BARRY

IF YOU are looking around for something different for a porch party, why not copy a clever hostess and give some travel parties?

A travel party isn't difficult at all. For instance, there's the Tyrol, picturesque, different. If there is a yodeller in the bunch, there's his chance to provide the correct Tyrolean musical atmosphere. Ten-cent store dolls dressed as a Tyrolean lad or lassie make nice souvenirs. And the youngsters will adore those Tyrolean hats with a tall feather. A gay plaid table cloth and bright pottery contribute to the typically peasant atmosphere of the Tyrol.

Swiss cheese, rye bread and cold cuts are all foods typical of Tyrol. A combination of chocolate and coffee served ice cold is a popular Swiss beverage. If there are youngsters, then it might be wise to make this drink with decaffeinated coffee. To make this delicious drink, combine one-half cup chocolate or cocoa syrup, two cups chilled milk, one-half cup cream and one-half cup strong coffee chilled. Beat or shake well, and serve over cracked ice in small glasses. Top with whipped cream. Serves four.

### Ginger Junket

Ginger Junket is a splendid dessert whatever type of party is being planned. It is made with ginger snaps, one pint milk, one junket tablet, one teaspoon cold water, three tablespoons sugar, one teaspoon vanilla, one-half cup whipping cream and preserved ginger. Break a ginger snap into each dessert dish. Heat milk until lukewarm. Dissolve junket tablet in cold water and add to milk, stirring well. Add sugar and vanilla. Pour at once over ginger snaps. Let set until firm, about 10 minutes. Then chill in refrigerator. When ready to serve, top with whipped cream and a bit of preserved ginger.

Gingana Cream is made by whipping one cup heavy cream until slightly stiff. Add two tablespoons confectioners sugar and a few grains salt. Press three bananas through a sieve and add a tablespoon lemon juice. Fold into cream. Fold in 12 ginger snaps which have been crushed. Cover and chill in refrigerator. Pile in sherbet glasses. Six portions.

## Burr's

Burr's—Mrs. Frank Hawkins and Mrs. Jack Haggerty, Cherry Valley, visited the former's parents, Mr. and Mrs. Walter Clarke on Sunday and called on Mrs. H. Barrow at Mr. Eugene Rorabec's.

Mr. and Mrs. Eugene Gibson, Bloomfield, were guests on Sunday of Mr. and Mrs. Simon Caughey.

Mr. A. Kuno, New Carlow, came for Mrs. Kuno and children on Sunday. They had been spending a week with her parents Mr. and Mrs. George Fox and other friends here.

Mr. Howard Fox, Crofton, visited his parents, Mr. and Mrs. George Fox on Sunday.

Mr. Jack Keary, Sidney, was a week-end guest of Mr. and Mrs. Tom Morden.

Mr. and Mrs. James Duncan and Jean, Bloomfield, visited the latter's parents, Mr. and Mrs. Egerton Cook on Sunday.

Mr. and Mrs. Norman Fox were at Campbellford on Saturday.

Mrs. George Fox, Mrs. A. Kuno and Lorne were guests on Saturday of Mrs. Fox's daughter, Mrs. Harold Baker and family, Belleville.

Mr. and Mrs. Norman Fox and Miss Irene Fox were at Huycke's Point on Sunday.

Among those who visited Belleville on Saturday were Mr. and Mrs. Merritt Adams, Mrs. Keith Blakely, Mrs. Frank Osterhout, Mr. and Mrs. C. L. McHenry, Mr. and Mrs. Norman Fox, Mr. and Mrs. Murney Parks, Mrs. George Fox and Mrs. Kuno.

Mr. and Mrs. Donald Parks spent Sunday with her parents, Mr. and Mrs. Fred Maxwell, Bowerman's.

Mr. Norman Fox and Mrs. George Fox were at Wellington on Friday evening.

Mr. and Mrs. Harry Hubbs, Mount Pleasant, visited the latter's parents, Mr. and Mrs. Bride Hough, on Sunday.

Messrs. Ernest Carley and Lloyd Stoughton, South Lakeside, Mr. Kenneth Vancott and Mr. Eric Edwards attended a bee at Mr. Tom Morden's on Friday remodeling his barn.

Mr. and Mrs. Ewart Harnes dined on Sunday with Mrs. Harnes' parents, Mr. and Mrs. Frank Burkitt.

Mr. and Mrs. Gene Hubbs visited her parents, Mr. and Mrs. Jo Moon at their camp at West Lake, near Wellington. Other guests at Mr. Moon's camp were Mr. and Mrs. Fred Heddington, Belleville; Mr. and Mrs. Jack McBride, Toronto, Mr. McBride returned to Toronto, but Mrs. McBide is spending this week at the camp.

Messrs. George and Norman Fox were at Wellington on Monday.

Mr. and Mrs. Ernest Carley, South Lakeside, visited the latter's parents, Mr. and Mrs. Bride Hough on Monday.

Mr. and Mrs. Elson Aulthouse, West Lake, visited the latter's parents Mr. and Mrs. Robert Bowers on Sunday. Dorothy and Morley Aulthouse, who have been spending their holidays with their grandparents, returned home with them.

Master Clarence Carley returned home on Friday after spending a few weeks with his grandparents, Mr. and Mrs. Bride Hough.

Rev. Lorne Burr addressed a large congregation on Sunday evening. His subject was "Excuses". Mrs. Harland Barrow, Greenville, Missouri, assisted the choir with her violin and played a violin solo. Mrs. Barrow who has been visiting her parents, Mr. and Mrs. Eugene Rorabec, left for home on Tuesday.

Dr. Gordon Caughey motored down from Whitby and took his parents, Mr. and Mrs. Simons Caughey up to Toronto to attend the C.N.E. on Tuesday.

School reopened on Tuesday with Miss Helen Austin again the teacher.

Miss Vera Pyne is resuming her duties as teacher in Wellington Consolidated School.

Mr. and Mrs. C. L. McHenry accompanied by their daughter, Mrs. Douglas Hubbs and Mr. Hubbs were at Wellington on Sunday.

Miss Dorothy Carley, who has been staying a couple of weeks with her grandparents, Mr. and Mrs. Bride Hough, returned home on Monday.

What Becomes of Your
WHITE WEAR
Now that Fall is Here?

We'll tell you what you should do with it, if you are wise. Have it thoroughly cleaned here before putting it away for the long winter months. There's nothing like a MODERN cleaning to preserve white wear. And here's another tip—Why not store summer garments here, where they are protected against loss by fire, moths or theft.

## DR. DAFOE'S COLUMN on the Quintuplets and the Care of Your Children

### Early Inoculation Against Diphtheria Is Recommended

Inoculation for diphtheria I am very much in favor of, and I recommend that it be done at the age of nine months. As I told you in the preceding article, we inoculated the Dionne Quints against diphtheria even before we vaccinated them against smallpox.

This inoculation is done in different ways in the various localities. In my neighborhood we use three doses of toxoid, injecting them under the skin at intervals of about three weeks. Some states use the same method as we do some give only two doses of the toxoid, while in some cities, I understand, only one dose of toxoid is given.

We believe there that the three doses will give immunity over a longer period than one or two doses. Six months after toxoiding it is well to have a Schick test performed to see whether the toxoid has taken effect or not.

Active immunization against scarlet fever has many good points, but I don't believe that child specialists entirely agree in favor of it yet. Often there are severe reactions, and a physician performing this inoculation often will have to give five doses. Even then immunization isn't assured. Where this inoculation is of undoubted value is in large hospitals, where a lot of children are present as patients.

Immunization against measles is still pretty much in the experimental stage. At best it is only a temporary protection against the disease, but it does tend to modify the virulence of the disease when it strikes.

Typhoid fever is one of the diseases we see but little of now, but twenty to thirty years ago I used to use a great deal of serum in immunizing people against it. Protection against typhoid through toxoiding lasted about three years or longer. But with the progress in sanitation in recent years the disease has almost disappeared, and we don't do much immunizing for it now.

Sometimes a doctor is puzzled about the proper dose of these various serums to give a patient. Years ago, when I found a person who was being exposed to diphtheria I used to inject about a thousand units of the antitoxin into the muscle. This constituted a partial protection, but it wore off altogether in from ten days to three weeks. When I found a patient suffering with an acute attack of diphtheria I made it a practice to give fifty or sitxy thousand units; yet at times I have given 100,000 units at one dose, for I regarded this as better than giving two smaller doses.

A great deal of tetanus serum is used on people who have been injured and when there is reason to believe that they may develop lockjaw. Actually I have never seen a case of tetanus in my vicinity. I think the reason is that the soil is pretty rocky and light, and the tetanus germs do not get much of a chance to develop.

In tetanus, too, you give a large number of units of the antibody—sixty to a hundred thousand units. It is a great thing, too, for I have seen cases treated with it in some of the larger hospitals.

## Male Touch At the Table

(By Eleanor Ross)

SCARCELY a day elapses but some store or another offers a display of exhibition rooms, table settings and such for the house. This week we were all taken up with a series of table settings that were surely the most ingenious and amusing seen about town in many a season.

All ten tables had been arranged entirely by men, putting to shame some of the efforts of the distaff side, we assure you! We were sorry that we didn't drag along a psychiatrist to the show. Maybe we would have learned much of the suppressed longings, the neuroses and psychoses of the table-setters. But we did learn that men can do a lovely job of table decorating, using figurines from the living room table and flowers from the garden, to make lovely centrepieces.

Not to be taken very seriously, but rather as a piece of amusing nonsense was the "robot's dinner table" done in automobile parts set on a tablecloth of paper-thin copper sheeting. We are sure than an industrial designer would find this table a fertile field for inspiration. Candle-holders fashioned from cogwheels was but one notion that deserves mention.

Another table featured a set of candelabra on a support like a trailing vine. Pottery cabbage leaves were used for plates.

Off to the dance wearing white chiffon embroidered with flower motifs of multi-colored pailletes. Worn with a jacket of pailette stripes done in the flower colors. The jacket goes beautifully with black evening frocks too.

"My Back is Killing Me"

It is said that more people suffer from backache than from any other pains or aches. When the back aches the cause is usually traced to poisons in the blood as the result of defective kidney action. Relief can be obtained by the use of Dr. Chase's Kidney-Liver Pills because they help to arouse the activity of the kidneys in their work of filtering poisons from the blood.

The combined action of Dr. Chase's Kidney-Liver Pills on the liver, kidneys and bowels is a feature which makes this medicine so unique and entirely different to other kidney medicines. It is well to keep this in mind when selecting treatment, for naturally this feature accounts for the long success of this medicine.

Dr. Chase's Kidney-Liver Pills

# Canada's Airmen May Be Fighting Soon Against Reich

### Prime Minister King States Best Way This Country Could Aid Britain Would be to Send "Trained Air Personnel" Overseas—Permanent Force of 2,500 Would be Needed for Home Service—25,000 Recruits on Waiting List

Ottawa, Sept. 9—(CP) — Canada's warbirds may soon spread their wings in European skies with Britain and her allies in the new war against German aggression.

Prime Minister Mackenzie King has suggested to Parliament that one of the best ways in which this Dominion could immediately aid the British would be by despatch of "trained air personnel" overseas.

To many Royal Canadian Air Force men overseas service would mean resumption of an old struggle against an old foe—the black-crossed air fleets of Germany — but there are comparatively few Great War veterans still on the active list of the Royal Canadian Air Force.

Canada has a permament air force of some 2,400 men of all ranks, few of whom could be immediately spared overseas because of the necessity of defending Canadian territory from enemy air raiders, but there is a "backlog" of 25,000 recruits on the R.C.A.F. enlistment waiting list.

Several thousand more potential recruits are among the retired Royal Air Force veterans of the last war. Many would be too old to handle the 350-mile-an-hour fighting aircraft of this war, but could relieve younger men from the supply, training and administrative work of the air force.

In addition, there are perhaps 1,500 or more licenced civilian pilots in the Dominion, and hundreds of fledgelings learning to fly either at clubs, commercial schools or in the non-permanent auxiliary air force, which is largey officered by old warbirds still young enough to keep their hands in.

**Consults With Britain**

The recommendation arose, the Prime Minister told Parliament, as the result of consultation with the British Government. It is unlikely Britain would have forgotten the heroic role that Canadian flying men played in the Great War.

Such names as Col. Billy Bishop, Col. Ray Barker, Major Collishaw, McLeod McLaren, Roy Brown, Quigley and a score of other Canadian aces will remain forever honored in the annals of the Royal Flying Corps and the Royal Air Force.

Many have passed on, but a few have kept in the aviation picture in civil life. Col. Bishop, now Air Marshal, heads the Air Advisory Council and will furnish his experience to the wartime edition of the R.C.A.F. Collishaw is one of the higher officers of the Royal Air Force, which he has never left since the last war ended.

There has been no official indication as to when the first Canadian pilots, gunners, observers and mechanics would go overseas to join Polish, French and British airmen, but it is believed that at the moment Britain has a greater need of aircraft than of men to fly them.

Replacements will become necessary, of course, as soon as the field of action broadens, and planes are available. It is understood that, as only trained air personnel would be despatched, the permanent air force would receive sailing orders first of all.

**Seven Units on Defense Duty Now**

The seven active service units available are ready on duty guarding Canadian territory. Personnel from these units could probably be released as rapidly as recruits from the reserve could be trained to take their places.

Canada is in poor position to send airplanes overseas with the airmen as there are few enough first line modern machines to guard Canadian territory. Canadian factories are working to capacity to turn out machines for both Canadian and Imperial Air Forces. Canadians may "ferry" some of the Canadian-built bombers across the North Atlantic to British squadrons.

Air Vice-Marshal G. M. Croil is the head of the R.C.A.F., but it is uncertain whether he would command an overseas air force contingent or would be retained here for administrative duties. He has a number of experienced officer, such as Air Commodore L. S. Breadner, Wing Commander G. V. Walsh, Group Captain A. E. Godfrey and others, who might be selected in his stead.

## BRITISH SEAMEN,

*(Continued From Page One)*

Two ships were announced as sunk by British "fire" in one day. While no mention of submarines was made, it is possible they were used.

German submarines have sunk a half dozen British ships in addition to the Athenia.

**Clearing Subs From Seas**

The allied blockade in the Great War was never absolutely effective against German submarines. But since then submarine detection devices and defences have improved so much that once the submarines outside Germany are rounded up and destroyed it will be extremely difficult for other submarines to run the blockade.

So far the army has been mentioned little in official communiques.

Once it gets into position, the army probably will join French troops in an assault on Germany's Siegfried Line at a point already chosen by the French general staff as the most vulnerable.

Such an operation, successfully carried out, would be of tremendous value for two reasons, according to allied calculations.

First, it would throw an invading army into the Saar, an industrial district vital to Germany's war economy and within striking distance of Dusseldorf and Cologne, other important munitions centres.

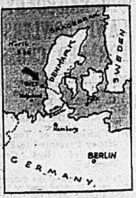
**Tope to Draw Troops**

Second, the attack would draw German troops away from the Polish front.

However, German military men rarely have withdrawn from one objective until it is completed: Von Hindenburg despite pressure in the west, kept after the Russians until he had smashed them at Tannenberg marches in the Great War.

The Germans primary military objective in Poland is not, as many seem to think, the capture of Warsaw. It is to smash the Polish army. Warsaw, with the Polish army still at large and unbroken, dug in east of the Bug River, is the hollowest be despatched, the permament air of objectives.

### German Base Bombed



An important German anti-aircraft defence base, the island of Sylt, off the coast of Denmark, was bombed for several hours by unidentified airplanes. Following the aerial attack a shower of pamphlets forecasting a British victory were dropped on the island.

# War To Cease Only With Overthrow Of Hitler and Restitution Of Polish Lands and Rights Says London Press

London, Sept. 9—(CP)— The British press discussed possibilities of a German peace proposal today and declared unanimously that the Anglo-French war with Germany "will cease only with the overthrow of Hitler and the restitution of all Polish lands and rights."

"Nazi leaders are basing their policy, and indeed their war strategy, on the belief that if they can overrun Poland, they may conclude the conflict by inviting us to accept that situation and promising once again—how perjured already they are—that they will make no further acts of aggression," The Daily Mail said.

It added: "The immense momentum of the forces we are gathering will not be stayed by any offer of peace which leaves Hitler in power and Poland in chains."

Meanwhile, Britain intensified her naval offensive and disclosed another aerial pamphlet raid aimed at disrupting Germany's internal economic and political structure. At the same time, troops were made ready to reinforce the steady french drive on Germany's western front.

The government announced last night the nation would use its belligerent rights "to the full" to prevent war supplies from reaching Germany. It added that energetic steps are being taken to halt "Germany's ruthless submarine warfare."

The Ministry of Information said Germany obviously had planned her submarine campaign long before war broke out and asserted submarine commanders apparently had been ordered to sink merchantmen on sight without warning "in direct contravention of the rules of submarine warfare."

It predicted "effects of the German submarine campaign will, however, decline rapidly as soon as a full convoy system is introduced and German submarines at present on the high seas run out of supplies."

At the end of the first week of hostilities the British-French loss of merchant ships stood at nine and the German four.

The heavier loss to British shipping was natural, experts pointed out, due to the greater number of vessels in use. Lloyd's register of July, 1939, shows the British merchant service outnumbers the German nearly three to one, 6,722 to 2,459.

The Daily Herald, after referring to the success of French attacks on the Siegfried Line, said:

"Although the relief of pressure upon Poland is the first and highly desirable objective of this attack, it is not the only one. The final relief of Poland cannot come until Nazi Germany is defeated in war.

"That defeat may come either by an overwhelming victory of the allied forces on land, at sea or in the air, by an internal revolt against Hitler by the people, or perhaps, more probably, by a combination of the two."

The Herald and G. Ward Price, writing in the Daily Mail, warned against the assumption that the war would be a quick and easy one.

Price said, however, that Great Britain had the advantage in that it will reach a peak of material preparation and moral fortitude in a few months, while Germany is already at a climax in these respects, and must decline.

Of Hitler the News Chronicle said: "Great Britain and France are ready to make peace at any time—once they have carried out the job in hand.

"The conditions of peace require the establishment of a decent and trustworthy German government, the restitution of Czecho-Slovak and Polish independence, the abandonment by Germany of all aggressive aims, and disarmament."

"The history of 1914 has taught Hitler nothing," said the Daily Telegraph. "Unofficially it is reported that six divisions of first line troops have been hurried to the Rhine-Moselle section of the Siegfried fortifications. It shows the awakening of the German command to the fact that they have on their hands the dread of the Reich, a war on two fronts, and that Britain and France will put all their power into a struggle which can only have one end."

# Electors Of Quebec Petition Government Not To Engage In War

OTTAWA, Sept. 9—(CP)—A petition from French-speaking electors of Quebec Province opposing Canadian participation in any European war was laid on the table of the House of Commons yesterday without comment by Maxime Raymond (Lib. Beauharnois-Laprairie).

Signed variously in pencil and ink, the petition, comprising four brown paper parcels, was deposited with the Clerk of the House. Mr. Raymond said it was signed by "thousands of citizens."

An unofficial translation of the petition's text follows:

We the undersigned, electors of Quebec Province, declare ourselves categorically opposed to any participation in a European war and desire in consequence to so notify the Canadian parliament. We demand by these presents of the members and ministers of the Province of Quebec in the House of Commons, that they transmit by their votes at the extraordinary session of the Canadian Parliament which has been called to decide on this important question, the unequivocal opinions which we here set forth. This is that there is a special and explicit demand which we confide to our representatives, a demand of which we ask full and entire execution.

We refuse to sacrifice our most vital interests to the petty interests and exigencies of international high finance and the manufacturers of armaments. We do not wish that the tragic adventure of 1914-18 be repeated insofar as Canada is concerned. Those who govern us have not the right to engage Canada, a sovereign country, an American country, in a European war when it is neither attacked nor menaced.

The future of the Canadian confederation rests upon the decision which the Canadian parliament will make; we ask Providence to give our members the necessary strength so that they will know how to resist the diabolical machinations of the war profiteers and also save our country from the torch of war and interior troubles.

# Iraq's Regent Pledges Support To Britain

London, Sept. 9 (CP)—The full support of Iraq was pledged anew to Great Britain today in a message from the Emir Abdul Ilah, Regent of Iraq, to King George.

His Majesty, in reply, reaffirmed Great Britain's determination to come to Iraq's aid if that country were involved in war.

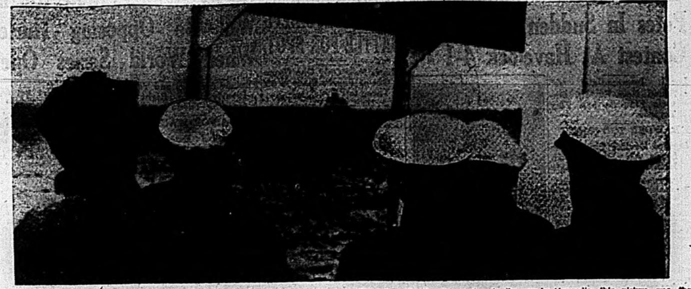
The Emir's message follows:

"In the present grave international situation, the duties of friendship and the honorable discharge of our obligations make it incumbent on me to express to Your Majesty our unshrinkable attachment, of the government and people alike, to the letter and spirit of the treaty of alliance uniting us and to assure you of our determination to do everything in our power, in the same spirit, to co-operate with our great Ally until right and justice and the lofty principles to defend which you have entered the war shall prevail."

The King replied:

"I was moved to receive proof, if proof were needed, of the sincere and lasting friendship between our two peoples. My government must appreciate the encouragement which your message brings to them in their task of resisting the force of aggression and I assure Your Royal Highness that, if ever the horrors of war were to descend upon Iraq, my government would carry out their obligations in the same spirit of loyalty and resolution."

## WATCHING AS THE ATHENIA PLUNGED TO THE BOTTOM



Survivors of the Athenia and members of the crew of the rescue ship Knute Nelson are pictured here as they watched the torpedoed Athenia slip beneath the waters of the Atlantic—the first victim of submarine warfare in the war between Germany and France and England. Transmitted to New York by radio this picture was then flashed to Canada by phonephoto. —Phonephoto

## ATHENIA VICTIMS BROUGHT TO SAFETY BY RESCUE VESSELS

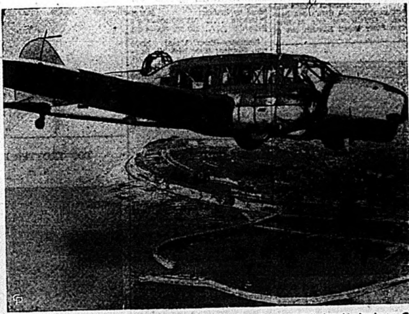
Happy to be alive—two crew members of the torpedoed liner Athenia smile happily on being set ashore at a Scottish town by the rescue ship which took them from a small boat near the scene of the disaster.

An aged woman, dressed in whatever she could hurriedly grab, is assisted ashore from one of the vessels that picked up survivors from the ill-fated Athenia that was recently torpedoed. As survivors were brought to Galway it was estimated that from 100 to 300 persons lost their lives in the disaster.

## Duke of Windsor Returning to Homeland

Returning to his homeland, which he has not seen for three years, the Duke of Windsor is reported to be returning to England to undertake important special duties. The Duke will be accompanied by his Duchess.

## NOW RAID GERMAN MILITARY AND NAVAL BASES



British bomber flying over one of This impressive picture shows a its home ports, in much the same manner British bombers have flown over Wilhelmshaven and Cuxhaven and Sylt dropping bombs on German warships and fortifications.

### SWALLOWS DEPART

San Juan Capistrano, Calif., Sept. 9—(AP)—The swallows of San Juan Capistrano mission have disappeared.

Father Arthur Hutchinson said the birds departed two months ahead of the date customary for 150 years.

Traditionally the swallows arrive from the south March 19, St. Joseph's Day, and remain until St. John's Day, October 23.

# 3rd Thurlow

3rd Thurlow—Misses Marion and Vera Pound with a number of other girls spent the week end at Cumbermere.

Much sympathy is extended to the relatives of the late Mrs. W. Jones of Cannifton who passed away on Thursday last and also the relatives of the late Miss Mary Callery who passed away on Sunday.

Mr. Wm. Pope and Mr. Leslie Pope of Victoria, and Miss Mary Mangold of Belleville were Sunday visitors of Mr. and Mrs. Harry Pound, Mr. and Mrs. Clarence Martin of Prescott were also callers at their home.

Mrs. H. Finnamore of Cobourg spent the tea hour on Sunday at Mr. J. R. Pound's.

Mrs. Clement of Belleville spent Sunday with Mr. and Mrs. Ward Hall.

Mr. Lyle Armstrong has returned home after spending a couple of months with friends at Hilton.

### PADRE OFFERS SERVICE

Ottawa, Sept. 9—(CP)—Archdeacon F. G. Scott, Padre of the Canadian forces overseas in the Great War, has offered his services to the Ministry of National Defence. The Padre arrived in Ottawa Thursday for that purpose.

# *Little Benny's Note Book*

### THE WEAKLY NEWS

Weather. Could be worse.

### SISSIETY PAGE

Mr. Shorty Judge arrived safely at Mr. Benny Pott's house Wensday afternoon with his square suitcase all packed with his pidjammers and toothbrush, not because he didn't know he had to go home again in about a hour, but just because he wanted to give his bran new suitcase a little exercize.

Mr. Puds simkins received many gifts for his birthday last week, some being ones he had asked for and some being unpleasant surprises.

Miss Mary Watkins was the flower girl at her ant's wedding Sattiday, admitting she had fun but still claiming she's never going to get married herself no matter how populer she gets.

### POME BY SKINNY MARTIN

A Perfect Gentleman
Whenever I go to dry my hands
And the towels are all folded neet,
The politest way I can think of
Is to use my trouser seet.

### BUSINESS AND FINANCIAL

Glasses Magee had to go to the dentist Sattiday afternoon and Benny Potts gave him a cent for permission to go with him and watch, but the dentist mads Benny stay in the waiting room all the time and he only got his cent back after a fierse argument.

### INTRISTING FACTS ABOUT INTRISING PEOPLE

Shorty Judge's father was once a poor boy and now he is the president of a whole hardware store, but he still looks unsattisfied.

# Shell 'Oilers' Eliminate Petes In Sudden Death Contest At Havelock 4-1

### Local Intermediate "A" Squad Now Eastern Ontario Finalists and Play Toronto

### BAWDEN TOO SMART

### Besides Hurling Fine Game Leads All Hitters With Homer, Triple and Single

WILLARD HERSHBERGER of McCarthy. Regular receiver with Newark before Rosar was Willard Hershberger, whom the Yankees turned into a cash asset by selling him to Cincinnati Reds—another tough spot for a rookie with Ernie Lombardi the regular behind the bat. But whenever he does get into the game Hershberger like Rosar, lays into the ball and chalks up a neat looking average.

With their ace hurler, Johnnie Bawden clouting a home run in the first inning to give them a lead they never relinquished, the Belleville Shell "Oilers" swept to the Eastern Ontario intermediate O.A.S.A. championship by defeating Peterboro 4 to 1 in a third and deciding sudden death game at Havelock last evening and the local nine advances to the intermediate O.A.S.A. semi-finals while the Liftlock nine can lay away their uniforms for another year.

Bawden gave Belleville a decided edge with a home run in the first inning, after the locals had won the toss for the choice of inning, but the Petes knotted the count in the fifth, only to have Belleville drive home three well earned runs in the sixth as the clubs played practically errorless ball throughout.

Once again Belleville's ace softball player, Johnnie Bawden proved the driving force of victory as he counted a first inning home run, a triple in the fourth and a single in the sixth. Bawden struck out nine Peterboro batters and walked three, while his opposition moundsman, Lorne Bateman, struck out but two, but did not walk a single Belleville batsman. Belleville outhit the Petes 9-8. The game was purely a pitchers' battle with Bawden dominating the picture with some mighty fine spot pitching in the clutches, especially when the Petes managed to get runners aboard.

**Homers in First Frame**

With two out in the bottom half of the initial frame, Bawden stepped to the plate and caught one of Bateman's fast balls clearly on the nose and the spheriod sailed high over the left fielder's head for a home run. Ellis opened the second with a hit, but Bawden struck out the next two and Ellis was caught trying to steal third. Starr and Bill Calladine hit in succession to open the third, when Bawden came back to strike out two in a row and Starr was nipped trying to steal for a third out.

Peterboro knotted the score, however in the fifth. Starr singled, went to second on Bill Calladine's bingle and to third and home on two fielders' choice. From the fifth until the end of the game the Petes counted exactly two hits off Bawden.

**Team Rallies**

The "Oilers" rallied around Bawden in the sixth to score three runs and ultimately play superb ball behind his offerings to win a choice victory. In the sixth Amo popped to first, Bawden singled and went to second on Sero's one base blow. O'Neill was safe at first, when Starr tossed Bawden out at the plate, but Sero scored on Whalen's single, and as the Petes elected to try for an out at second, O'Neill scampered home with another run and then Whalen scored the final run of the game on Moon's double. Later O'Neill hit for three bases but no run developed.

Bawden, with a home run, triple and single in four tries, led all hitters, while Whalen had two singles and Moon a double and O'Neill a three base hit. For the Petes Starr and Bill Calladine with two hits each were the tops, as both teams played sterling ball defensively.

Summary—Error, Moon; home run, Bawden; three base hit, Bawden, O'Neill; two base hit, Moon, O'Leary; runs batted in, Kearns, Bawden, Whalen, Moon; sacrifice hit, Ronsky; wild pitch, Bawden; struck out, by Bawden 9, by Bateman 2; base on balls, off Bawden 3; left on base, Belleville 5, Peterboro 9; Umpires, Pirie, Havelock, plate, Steenburg, Trenton, bases; time of game 1.09.

You probably haven't read much about this young man, but he's been hurling about as good a brand of ball as any pitcher in the major leagues. John Duncan Rigney is the name and he has posted 14 wins for Chicago White Sox, and at the moment has a string of 11 straight, best mark in that department posted this year. He's in his third season with the Sox.

## Rugmakers Even Series With Oswego

(By The Canadian Press)

The pennant-winning Amsterdam Rugmakers have evened up their chances of clinching the Canadian American Baseball League championship, too. They did it last night by trouncing Oswego Nets 7-1 in the second game of their best-of-seven semi-final playoff series at Oswego.

That victory, revenge for a 8-2 defeat suffered the preceding night came as Rome Colonels, meeting Cornwall Bisons in the other playoff bracket, scored a 6-1 triumph to take a two-game lead in their series. Tonight's Rome-Cornwall clash will be played at Rome while Amsterdam and Oswego will meet at Amsterdam.

In turning back the Bisons, Rome scored all their runs in the first four innings.

## INTERCOLLEGIATE ATHLETIC ACTIVITY TO BE CONTINUED

Montreal, Sept. 9 (CP)—The Board of Reference of the Canadian Intercollegiate Athletic Union announced through Professor J. C. Simpson of McGill University, the Union President, that it "recommends that, as far as possible, intercollegiate athletic activities be carried on normally."

The policy was recommended "because the Board of Reference feels that the continuance of organized athletics will have a beneficial effect on the morale of the student body and of the general public."

The statement fololws:

"The Board of Reference of the Canadian Intercollegiate Athletic Union recommends that, as far as possible, intercollegiate athletic activities be carried on normally. It is hoped that the regular fall activities, including senior intercollegiate rugby, soccer, tennis, track and field, will continue as usual.

"This policy has been recommended because the Board of Reference feels that the continuance of organized athletics will have a beneficial effect on the morale of the student body and of the general public. The Board feels, however, that, in view of the seriousness of the present situation, associated activities, which often precede and follow athletic contests, might well be eliminated."

## NEWARK BEARS, SYRACUSE CHIEFS BATTLE FOR SPOT

### Chiefs Now Only One Game Out of Fourth Place With Three to Play

### LEAFS NOW SEVENTH

### One Percentage Point Separates Team and Montreal for Cellar Position

(By The Associated Press)

The close International League pennant race this season hasn't left much time to show what the playoffs can mean to minor league club owners, but the struggles today and tomorrow for that last playoff spot should give some idea.

Everything practically is settled going into the last two days of the regular season, except whether Newark or Syracuse will finish fourth and get a crack at the champion Jersey City Giants in the first playoff round and whether Montreal or Toronto will wind up in the cellar.

Syracuse, which only slipped out of the first division this week, bounced back into the argument last night by whitewashing the fourth-place Newark Bears, 3-0. That prolonged the race considerably. Had Newark won, the Bears would have clinched at least a tie for fourth place. As it is, the Chiefs are only a game behind. With three to go for each team, the battle can't be settled definitely before Sunday.

**Leafs Out of Cellar**

Toronto's Maple Leafs climbed past Montreal by a single percentage point into seventh place in the standing by knocking off the third-place Buffalo Bisons, 3-1, in a mound duel between young Phil Marchildon and Earl Cook.

Montreal's doubleheader with Rochester was rained out.

That virtually gave the Red Wings a stranglehold on second place. They're all even with the Bisons in the victory column and have four fewer losses. The Bisons have only two games to play and Rochester, three.

In their first game as champions, Jersey City Giants plastered the Baltimore Orioles, 11-1.

# Bucky Walters and Ruffing Will Be Opposing Hurlers When World Series Opens

### Pitchers for Reds and Yanks Clearly Earn Right to Opening Tussle

### 23rd FOR WALTERS

### Bob Feller Enters Select Circle of 20 Game Winners by Defeating Browns

(By Judson Bailey Associated Press Sports Writer).

If and when Cincinnati Reds and New York Yankees take the field for the 1939 world series, the opposing pitchers probably will be William (Bucky) Walters and Charles (Red) Ruffing.

This prediction isn't made with mirrors. The two have earned the assignment.

Walters, first hurler in the majors to win 20 games this year, copped his 23rd decision yesterday with a 5-2, five-hit workout against Pittsburgh Pirates. Besides, he hit a home run in the eighth inning to break a tie and start Cincinnati clicking.

He has been a stanchion for the sometimes quavering Reds to tie to all season. His 26 complete games top all hurlers in both Major Leagues. He has popped up with victories that snapped Cincinnati losing spells no fewer than eight times.

Ruffing obtained his 21st victory as the world champions stopped Boston's bedraggled Red Sox 4-1 in a game abbreviated to seven innings by rain.

**Game Taken Away**

It was New York's third straight triumph over the Sox but did not increase the Yankees' lead because William Harridge of the American League took away a forfeit awarded them at Boston Sunday when fans delayed the second game of a doubleheaer by strewing the field with straw hats and bottles. The contest will be replayed Sept. 26.

As dean of the Yankee hurling corps Ruffing's right to start the first series contest, expected to be played at Yankee stadium Oct. 4, is unquestioned. He opened for New York last fall and also in 1936.

**Feller in Select Group**

The group of 20-game winners was joined yesterday by Bob Feller, the Cleveland fire-baller, who gave St. Louis Browns a five-hit diet as the Indians staged a 12-1 massacre.

In the only other American League game Philadelphia Athletics overcame a 13-8 deficit in hits to edge out Washington Senators 5-4.

St. Louis Cardinals choked off Chicago Cubs for the second straight day 10-3 to conserve the distance between themselves and the Reds.

Meanwhile Brooklyn Dodgers swept a doubleheader from Phillies 11-2 and 3-1 to move into fourth place, within a game and a half of the third-place Cubs.

**TOP TROTTER REC EIVES ATTENTION**

Peter Astra, champion trotter of 1939 among the three year olds, receives an affectionate kiss from his stable guardian during one of his rub-downs. Good Peter won this year's Hambletonion and went until the end of August before losing as much as one heat.

## $70 RAISED BY LAWN BOWLERS FOR RED CROSS

### Mixed Rink Tourney on Local Greens Won by G. Watkins' Rink

### 7 OUTSIDE RINKS

### At Conclusion of Tourney Money Presented to President of Red Cross Branch

In the interests of the Canadian Red Cross, 15 mixed rinks of lawn bowlers from throughout Eastern Ontario met in tournament at the Belleville Lawn Bowling Club greens yesterday in charity play, that saw $70.00 raised for the cause.

Eight rinks from Belleville, four from Stirling, and one each from Deseronto, Tweed and Madoc competed in a tournament that eventually saw the Belleville Club win the majors honors.

The top honors of the tournament were won by a Belleville rink skipped by George Watkin with Mrs. Neate, J. Smith and Mrs. Legault. Harvey Stewart's rink from Belleville with Mrs. Watkin, A. Watkin and Mrs. Rowe took second honors while a Madoc rink with C. Ross, skip, Mrs. Cross, Rev. Poulter and Mrs. Diamond were third in line.

Belleville's rink of C. B. McGuire, skip, Mrs. Ward, R. Richards and Mrs. Wonnacott were next in line with a fifth winner composed of E. Tummon, skip, Mrs. Duff, Rev. L. S. Wight, and Mrs. Young concluding the prize list.

The cash received from the tournament was presented I. G. Hefkey, president of the Hastings County Red Cross by Dr. A. E. Carleton, Past President of the Provincial Lawn Bowlers Association.

The Red Cross local branch, cognizant of the responsibilities ahead of it, are grateful for the response of the Belleville Lawn Bowling Club and its associates, in this, its initial efforts. It sends out an appeal for everyone interested in this humanitarian work to enrol with the organization. Funds are needed. Help is needed. Canada is at war, and it is up to everyone to help.

**BOUT IS POSTPONED**

Washington, Sept. 9 (AP)—Featherweight championship bout between Joey Archibald of Pawtucket, R.I., the titleholder, and Harry Jeffra of Baltimore, scheduled here for Sept. 11, was postponed today because of a training injury to Archibald. Archibald suffered an eye-cut during a workout.

**DIDN'T GO FAST ENOU GH AT THE RIGHT TIME**

Over the water whizzes the Notre Dame, one of the unsuccessful boats in the Labor Day Gold Cup race at Detroit.

**NOT TESTING FOR WHISKERS**

Bob Pastor, the Bicycle Man, who meets Joe Louis come Sept. 20, has grease applied to his face during sparring session.

**DOESN'T MISS LIKE THIS IN THE RING**

Taking time out from the usual training routine he is at present going through in preparation for his 20-round bout in Detroit against Bicycle Bob Pastor, world's heavyweight champion Joe Louis whiffs ingloriously during a game of softball played by his retinue. The champ is a mushball enthusiast, having toured large sections of the continent playing first base for his Brown Bombers.

Prize plum of the National League trading tree this winter will be Joe Medwick, (ABOVE), outfielder with St. Louis Cardinals and considered the greatest player in his league. Joe and the club management have had intermittent feuds this year and his sale during the trading season is considered likely, with New York Giants, Chicago Cubs, and Brooklyn Dodgers having the inside track for securing his valuable services. The St. Louis slugger is having another good year, although his feats have been somewhat overshadowed by those of his teammate, Johnny Mize. Joe will probably wind up among the first five batters in the league averages and won't be far from the top in batting in runs, a department he has led the loop in for the past three years.

CALLING 'EM

## Between the Lines

with

*Ken J. Colling*

Belleville's Shell "Oilers" are Eastern Ontario Intermediate O.A.S.A. champions.

---

Well they deserve the honors they enjoy today, and it was only the result of good defensive play behind the superb pitching of Johnnie Bawden that they vanquished the "Little Harlam" team from Peterboro 4-1 yesterday at Havelock. Actually Bawden was the spark-plug that breached the gap. Johnnie not only scattered eight hits well and struck out nine, as he clubbed a home run in the first inning that ultimately gave the "Oilers" their superiority complex and carried them on to victory.

---

Taking a look from the other side of the fence, we must give credit to the Petes. Their ace hurler, Lorne Bateman, pitched the series with a split finger, while the Petes were minus the services of two of their regular players through injuries, but we feel Bawden and his associates would still have been equal to the occasion regardless as to whether the Petes had a dozen other players available. Actually the locals proved too strong when the chips were down, and this fact is proven by the box score.

---

Getting back to the actual game, there was only one error chalked up and that miscue did not enter into the ultimate scoring. The "Oilers" played sterling ball in the field, as did the errorless Petes, but when the chips were down it remained to have Bawden kick through with several much-needed strikeouts, when they meant the difference between possible victory and defeat. Bawden didn't strike out a single batter from the fourth until the eighth, so splendidly did his teammates support him, but when the Petes managed to get men aboard, then is when the main cog in the Oilers' wheel showed his ability. On the offensive, however, Sero, Whalen and Moon all came through with what is termed as—"moneyed hits" and now Belleville meets Toronto, thanks to some mighty fine team play.

---

Just why last night's softball game was reverted from Port Hope to Havelock is still a mystery to this department. We tried to bring the question up with both Convener Rollins and Lether, but both evaded the question. Prior to the second game in Belleville both the "Oilers" and the Peterborough team agreed to play in Port Hope and according to the Petes last night they knew nothing of the change until early yesterday. The officials of the O.A.S.A. advertised the game in Port Hope, so why should the small fry take matters into their own hands and adjudicate matters to their own satisfaction when the two clubs concerned might have had the game played as originally scheduled and thus added to their depleted coffers.

---

Yesterday the Peterboro scribe informed us that well known 'Sonny" Green case of last Wednesday had been forgotten, but apparently he is again, as usual, very much misinformed. Green has been indefinitely suspended from the O.A.S.A. for his attack on Umpire Dormer, which was as we predicted. However, we are of the opinion that there is too much office business connected with softball, instead of concrete playing ability.

---

Pat Blaker, who played centre and did the placement kicking for Belleville in the O.R.F.U. has been signed with the Cobourg "Red Raiders", we hear. Blaker was always a good lineman and his place kicking was always deadly. Belleville's loss in the rugby football realm is Cobourg's gain and we wish Pat well in his new surroundings.

---

Either left-handed Sammy Ellis or Joe Keleher will get the Belleville pitching assignment at Cobourg today. Incidentally Archie Campbell, who hurled for the old Belleville Victorias some four years ago, is still pitching ball and may be used against his old team mates today in Cobourg. Campbell was one of the Ponies' mainstay moundsmen all season. Percy "Hoot" Gibson, who left Belleville some years ago and pitched later for his native Cobourg, is no longer chucking 'em off the slab—Hoot's umpiring in the Lake Shore loop now and may be one of the officials today. Bud Wilkins' charges hope to take Cobourg in their stride, as they did Coe Hill.

---

It seems the Montreal Westmounts, of the senior O.R.F.U. may yet function this season. Fred Porter the Westmount's hustling business manager, is seeking the Montreal Baseball stadium in which he proposes to play the club's games under floodlights, which might just happen to be the little ticket the doctor ordered to make the issue a financial success.

---

Bob Elliott, well known Kingston rugby and baseball player, was yesterday appointed coach of the Royal Military College football squads. Elliott starred with Queen's and Balmy Beach in his heyday and headed the Kingston Garrison football squad last year. Bob Elliott is well known in Belleville and his efforts on the gridiron will be closely followed from this city, where he has made innumerable friends in years past.

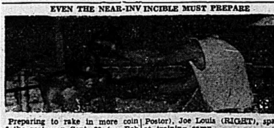
---

Sport Spice — The Reds and Cards both won yesterday to keep up their dizzy and torrid pace, which sees the Redlegs enjoy a 4 1-2 game advantage....Feller hurled his 20th win of the season yesterday while Red Ruffing chalked up No. 21 for the Yanks....Secretary Vern McIlwraith made Sonny Green's suspension long enough—"indefinitely" was the word attached....The Peterboro scribe openly admits convener Dave Leether was responsible for the switch of last night's game from Port Hope to Havelock, a change that made both clubs concerned most unhappy....And we thought all the dictators were 'over the pond..... and so to Cobourg.

---

Cuba, which has furnished America with a number of talented baseball players, is planning a hall of fame wherein the records and memories of its native sons in the game may be preserved. Plaques will honor Mike Gonzales, Almeida, Marsans, Acosta and Torres, its first famous ball players. A plaque also is planned for Jose Medes who once defeated Christy Mathewson.

**EVEN THE NEAR-INV INCIBLE MUST PREPARE**



Preparing to rake in more coin of the realm on Sept. 20 (vs. Bob Postor), Joe Louis (RIGHT), spars at training camp.

# 'CASH AND CARRY'

*(Continued From Page One)*

man credit of 200,000,000 marks (about $80,000,000) for a period of seven years at five per cent interest for purchases of German goods in the next two years. It also provided for the sale by Russia to Germany within two years of goods to a value of 180,000,000 marks ($72,000,000).

**May Limit Exports**

The council of peoples commissars—the Soviet Cabinet—last night authorized the Foreign Trade Commissariat to limit or prohibit exports to countries where the situation would creat "unfavorable conditions" for Soviet foreign trade.

The ruling applies to countries where the "unfavorable conditions" are created by legislation, administrative orders, administrative or court practice, or the introduction of currency restrictions.

It applies to the delivery of goods already dispatched as well as to future shipments.

Military authorities in Moscow began the requisitioning of automobiles, horses and other belongings of civil organizations, including chauffeurs.

Doctors and nurses have been ordered to register and have been instructed on their services "in case of emergency."

One of Moscow's two leading gasoline stations was closed.

## THE WEATHER

Toronto, Sept. 9 (CP)—Synopsis: —The weather is cool in all provinces and light to moderate showers have occurred in many districts, but it has been generally fair in the Lower Lakes and Georgian Bay areas.

Lake Superior: Moderate winds; cloudy and cool today and part of Sunday with scattered showers, then fair.

Manitoba: Partly cloudy; quite cool tonight. Sunday—Fair and cool.

Saskatchewan: Fair today and Sunday; quite cool tonight.

Alberta: Fair and cool. Sunday—Fair and becoming a little warmer.

CASH FOR YOU EVERY WEEK selling universally used RED TAG Nursery Stock. 1300 varieties. Profitable work, full or part time. Samples and sales help. Dominion Nurseries, Montreal.

## *Why The Weather?*

By Major A. H. Thiessen
Science Service Meteorologist

Weather and astronomy! Some believe that meteorology (the study of the weather) and astronomy are alike. They are alike only where the subject-matter of the one overlaps that of the other. For instance, both weathermen and astronomers are interested in many aspects of the atmosphee, of what it is composed and how it transmits light. Astronomers also study the atmospheres of other planets, but they are not particularly interested in the circulation of the atmosphere and the generation of storms. They do not study forecasting the weather, but forecasters of the weather, as well as the facts of climatology, are useful to them.

### JUDICIAL SALE OF FARM LANDS IN AMELIASBURG TOWNSHIP PRINCE EDWARD COUNTY

In the Supreme Court of Ontario

BETWEEN

ANDERSON v. PHILLIPS et al

Pursuant to the judgment in this matter there will be offered for sale by public auction with the approbation of the undersigned Local Master by Norman Montgomery, auctioneer, at the Court House in the City of Belleville at the hour of two o'clock in the afternoon on Saturday the 30th day of September 1939 the following lands and premises namely those parts of lot Ninety-three (93) in the Fourth Concession of the Township of Ameliasburg, in the County of Prince Edward, containing Ninety-six (96) acres more or less and generally known as the Parliament Farm and which is more particularly described in two conveyances registered at the Registry Office for the County of Prince Edward as instrument numbers 5818 and 5864 for said Township.

On the premises is said to be erected a barn and sheds.

The property will be offered subject to a reserved bid fixed by the Local Master. The purchaser shall pay on the day of sale 10 per cent of the purchase money and shall pay the balance of the purchase money, subject to adjustments, without interest within thirty days after the date of sale. The conditions of sale are the standing conditions of sale of the Court as modified by the conditions of sale set by the undersigned.

Further particulars and conditions of sale may be had from Robert J. E. Graham, Barrister, 262 Pinnacle Street, Belleville, or from Messrs. Cameron & Cameron, Barristers, Dominion Bank Building, Belleville, Ontario.

DATED at Belleville this 21st day of July, 1939.
W. C. MIKEL,
Local Master.

## Marmora

Marmora — St. Andrew's United Church Parsonage, Marmora, has been the scene of a wedding on three successive days of this week. Rev. Dr. W. P. Fletcher, who recently commenced his pastorate in the village, officiated at each ceremony. On Monday, September 4th., Mrs. Annie Evelyn Gawley of Malone, daughter of the late Mr. and Mrs. J. D. Nickle, was married to Frederick John Stuckey, also of Malone, son of the late Mr. and Mrs. William Stuckey of London, England. On Tuesday, September 5th., Viola Frances, daughter of Mr. and Mrs. Walden Lowery, was united in marriage to Carman George Steenburgh of Cordova Mines. On Wednesday, September 6th., Annie Leona Gawley, daughter of Mrs. F. J. Stuckey and the late William Gawley, of Malone, became the bride of Marvin John Dafoe of Malone, son of Mr. John M. Dafoe and the late Mrs. Dafoe of Frankford.

Mr. and Mrs. D. P. Marett spent a few days in Toronto last week.

Miss Jessie Williams of Hamilton, visited friends here last week.

Miss Margaret O'Connor left on Monday to teach in a school near Stoco for the school year.

Mr. and Mrs. Brian Mulhearn and Mr. and Mrs. Bernard Mulhearn, of Toronto, spent the week-end with Mr. and Mrs. John Gifford.

Mrs. F. Melvaer and two daughters who have spent the summer at Crowe Lake left on Tuesday, the former to return to Chile. The girls are continuing studies in Canada.

Mr. and Mrs. Stanley Little and son, Bob, left on Tuesday for their home in Lorain, Ohio, after spending the past two months at their summer home on Birch Island, Crowe Lake.

Mrs. T. Burns and two children of Maxwell, are visiting the former's parents, Mr. and Mrs. Dan Shannon.

Mr. and Mrs. T. E. Pritchard and daughters, Betty and Shirley, were visitors in Toronto this week.

Mr. and Mrs. E. Murray of Kingston, visited Marmora on Monday.

Mr. and Mrs. C. A. Bleecker are on a week's trip to the Province of Quebec.

Thomas McNally and Frank Clemens of Deloro left on Wednesday to enter Regiopolis College, Kingston.

Mr. and Mrs. N. A. Kilpatrick and daughter, Irene, visited relatives in Toronto last week.

Jack Gray has secured a position in Belleville.

Mr. and Mrs. Percy Fletcher and little daughter, Marilyn of Toronto and Mrs. Fletcher's parents, Mr. and Mrs. C. I. DeGuerie of Oshawa were guests of Rev Dr. and Mrs. W. P. Fletcher for a few days recently.

Mrs. Frank Grant and son, Wayne, Miss Dora Laurence, Miss Violet Hannah and Mr. Jack Grant left on Tuesday on a motor trip to Sault Ste. Marie.

Mrs. William Lavender returned home on Monday after visiting relatives at Glanmire for a week.

Mr. and Mrs. William Budd, of Toronto, spent a few days with Mr. and Mrs. John Gifford recently.

### M-m-m-m-m-m!

We couldn't resist presenting this picture of Kay Stammers, reigning beauty of the international tennis courts, seen at Forest Hills, N.Y., where she and her companions on the defeated British Wightman Cup team are competing in the American singles championships.

### Another Four-Baser

A sight that makes American league pitchers weep and New York fans howl with joy is this one of Joe DiMaggio, all-everything outfielder with the Yankees, tipping his cap as he crosses the plate after belting the ball out of the park. Things have reached the stage this year with Joe and his potent war club that he's practically in a slump if he gets less than two hits per game, and but for an injury that kept him out of 30 games he would probably lead the league in just about every department of offence.

Randolph Scott, featured with Nancy Kelly in the romantic outdoor spectacle, "Frontier Marshal," at the Belle with Dionne Quintuplets in "Five Times Five".

# BUCHMAN BROADCASTS TO WORLD IN THROES OF CRISIS

### Translations Broadcast in French, German, Chinese and Japanese

San Francisco, Sept. 9. — While European statesmen were making last minute efforts to avert war, Dr. Frank Buchman broadcast to the world on Sunday on behalf of the millions of ordinary citizens in every land who not only want peace, but who are determined to take such action through moral rearmament that such a crisis shall not recur. His speech was translated and broadcast in French, German, Chinese, and Japanese, for listeners in Europe and throughout the Far East.

Moral rearmament the way to permanent peace—

"A hundred million people listening to God will form a world opinion that will make war unnecessary.

"I speak on behalf of those, known and unknown, in every country who have found in moral re-armament a common life transcending all the barriers that separate man from man, and nation from nation, and who are convinced that moral re-armament is the only permanent cure for crisis.

"There is an answer to crisis and it must be made known that crisis shows our failure. Before crisis ends in catastrophe, have we the courage to face its real cause? We ourselves are the cause. It is the way every nation and every one of us have been living that has brought us to where we are.

"Every nation and every individual is responsible for the existing situation.

"The failure does not lie with one nation but with all—we are all guilty. For in every nation those forces are at work which create bitterness, disunity and destruction. Nations, like individuals, have turned a blind eye to their own faults while pointing a finger at each other. Selfish men and women make front line trenches necessary. A wave of unselfishness sweeping over our nation and every other nation would be a permanent answer to war.

"We have all wanted peace. We have sought it in pacts, in leagues, in alliances, in changes of systems, in economic and disarmament conferences, and we have sought in vain. We have wanted peace but we have never yet paid the price of peace. The price is facing with God where we and our nation have been wrong and how we and our nation, as God directs, can put wrong right.

"A new spirit comes when we make honest apology for our own mistakes, instead of spot-lighting the mistakes of other nations. There is a common meeting-ground in the fact that we all need to change, nations as well as men. In a crisis of this kind, if leaders change they can change their people; if people change they can change their leaders.

"The crisis is moral and can only be met in a spirit of moral re-armament—a spirit of honesty, justice and love. Moral re-armament means the power to change people, your enemies as well as your friends the other nation as well as your own. We must be prepared for unexpected paradoxes.

"Every man is responsible for his nation. Nations will make honest apologies and rectify past mistakes when the people in those nations demand that kind of national policy.

### "Each Man Has an Immediate Part to Play"

"Each man has an immediate part to play. He can accept for himself a change of heart. He can decide to listen to God daily. He can start to build a hate-free, fear-free, greed-free world. There is enough in the world for every nation's need, but not enough for every nation's greed.

"The sacrifice necessary for lasting peace is nothing compared with the useless sacrifice of war.

"There is still time for a selfish, fear-driven world to listen to the Living God. The forgotten factor in diplomacy is that God has an inspired peace plan and the means to carry it out by men and women who are willing to obey.

"Above every other loyalty is loyalty to God. In obedience of all people to God, every nation will find its true destiny. This is truest patriotism. It requres the highest courage. It gives the greatest strength.

"A nation's surest defence is the love and gratitude of her neighbors. People of all nations will support to the utmost those statesmen who shall seek in this spirit to avert catastrophe and to build that peace without bitterness which all men desire.

"Will the statesmen and leaders of every nation unite in this program which puts right the past and reconstructs the future?

"Millions who already know these great truths must pass them on to millions more. If those people who are listening now will ask those millions who are already living moral re-armament how to begin, it will help to change the world quickly. One hundred million people listening to God will form a world opinion that will make war unnecessary. On account of the crisis we are speaking to the world now, instead of waiting until December 1, 2, 3, when there will be one hundred million people listening.

"We need nation-wide thinking and action. We have war because we cannot make peace. We can gain by peaceful means far more than we could otherwise obtain. We must point to the new era, to the new type of government that, by the force of its constructive program, will outlaw war and industrial unrest. During these days we must develop framers of the just peace that will make peace permanent. If thinking had dominated Versailles, we would not now be again in the throes of crisis and twenty years of tragedy would have been averted.

"The menace of war makes us rethink all our values. Personal and national surrender to God is a world necessity. Civilization is at stake.

"The future lies with men and nations who listen to God and obey."

### THE HIRED MAN

Only the other evening we came upon one of that rapidly disappearing species, the farmer's hired man. His long day's work was over, and he was going home after doing some shopping. "How are things?" we inquired. "Pretty tough!" came the reply in the tone of the perplexed and the tired. The man was 45, married with three children, "How can I get ahead?" he asked. "I get $25 per month in the summer, but a lot less in winter. We really try. Were it not for our garden we'd be done for. This summer we canned thirty quarts of strawberries and twelve quarts of raspberries. Mister, we really try, but how can we get ahead?" he went on to say, and there was anxiety, fear, in every word. "I have never been on relief. I don't want to go on relief, though I have friends on relief who have more and who live better than we live."

Surely there is some way by which a man of his type may continue to keep his home, maintain his self-respect and continue to live the life of a good Canadian! Why should such as he be pinched and crowded to the way?—Exeter Times Advocate.

### TRAVELLING SALESMAN

Have you heard the story about this travelling salesman

A likeable fellow, he has passed quietly out of Saskatchewan into Manitoba, apparently, leaving behind him quite a trail of customers who would like to see him come back again.

Farmers, happy in their new crop and all, are his customers and to them he sells a cellophane-wrapped article that is guaranteed, so he says, to kill flies.

The directions aren't on the package, but the buyers have found that they are simple.

All that is necessary, the salesman says, is to leave the article in the house or barn, or wherever you wish to kill the flies, for four days.

At the end of that time, of course, the chemicals or whatever is in the package is four days old—and what's more important, the salesman is four days away—so you unwrap the cellophane from the article and watch the chemical reaction, or whatever is about to react, kill off the flies by the thousands. . . .

And behind him is this big trail of customers . . . who are now complaining to the Mounted Police that all they found when they unwrapped the nice, crinkly cellophane was a block of wood. — Regina Leader Post.

---

Feathers fly onto the new hats. A new model is a tiny tricorne of black velvet with rose-geranium ostrich feathers cascading down the back.

---

It looks like a great war for costume jewelry this winter. Beautiful jeweled flower pieces and elaborate earrings matched with a piece to be worn on coat lapel or dress bodice are being featured.

### TORONTO STOCKS CLOSE

Toronto, Sept. 9 (CP)—Moderate recovery from yesterday's sell-off was registered by the Toronto Stock Market in today's short session. Opening gains ranging up to 2 1-2 points among the senior base metal and industrial issues were pared down in the second hour under light liquidation. The indices were up narrowly at the close. Volume was to about 250,000 shares.

Noranda advanced 2 1-2 and held most of the gain while fractions were added by Nickel, Hudson Bay and Smelters. Pend Oreille improved 15 to 20 cents, Falconbridge and Coast Copper 10 to 15 cents and smaller gains came out for Sudbury Basin, Sherritt and Aldermac.

Senior golds continued the decline. McIntyre registered a new low at 45, off 2 points over-night. Dome at 26 was at its low since 1933. Other soft spots in the gold group were Coniaurum, Premier, Lapa Cap, Uchi and Aunor. Moderate gains were boarded by Lamaque, Hollinger, Sylvanite, Wright-Hargreaves, Cenrtal Patricia, East Malartic, Kirkland Lake, Kerr-Addison, Preston and Powell Rouyn.

National Steel Car posted a gain of 3 1-4 and the Steel of Canada issues and Canadian Car were up about a point. Foods and utilities balanced losses with gains and the papers ruled higher. Abitibi Pfd. advanced 1 3-4 and the common was up ½ to 3. Massey-Harris stock were strong, the pfd. gaining 3 points.

### WALL STREET CLOSE

New York, Sept. 9—(AP)—Stock market traders were still war-conscious today but the buying urge faded a trifle and, with the week-end recess at hand, many inclined to cash profits which had piled up since last Tuesday.

Gains ran to 2 points or so for selected industrials and rails at a lively opening in which the ticker tape was behind for a while. Blocks of as much as 5,000 shares changed hands. Activity then slackened. Closing prices were under the tops in many instances.

## Care of Fall Litter Often Neglected

The care of the fall litters is often neglected which results in pigs going into the winter low in vitality.

There is no time of the year when there are quite so many demands on the time of the farmer than in the fall and as a result dates of farrowing are often overlooked.

The fall litter should receive all the advantages of good accommodation and supplementary feeds when about three weeks of age. The care that a young pig receives during the first ten weeks determines to a great extent the thriftiness of the individual.

Some good lots of hogs marketed from the Belleville district during the week of September 8, 1939, are as follows:

GRADE

| Name and Address: | No. | A | B 1 | B 2 | B 3 | C 1 | C 2 | C 3 | Premium |
|---|---|---|---|---|---|---|---|---|---|
| Geo. Clare, Roslin | 8 | 5 | 3 | | | | | | $5.00 |
| Mrs. W. Preston, Stirling | 6 | 4 | 1 | | | | 1 | | $3.00 |
| Ross Hoard, Stirling | 4 | 3 | 1 | | | | | | $3.00 |
| J. Free, Frankford | 3 | 2 | 1 | | | | | | $2.00 |
| M. Reynolds, Belleville | 6 | 4 | 1 | | 1 | | | | $4.00 |
| R. Shetler, Shannonville | 10 | 5 | 5 | | | | | | $5.00 |
| R. Fleming, Holloway | 4 | 3 | 1 | | | | | | $3.00 |
| D. Brenton, Belleville | 8 | 5 | 1 | 2 | | | | | $5.00 |
| H. Grills, Belleville | 3 | 2 | 1 | | | | | | $2.00 |
| R. Brickman, Belleville | 3 | 2 | 1 | | | | | | $2.00 |
| J. Hilton, Belleville | 2 | 2 | | | | | | | $2.00 |
| Claude Tucker, Stirling | 9 | 5 | 3 | 1 | | | | | $5.00 |

Any farmer who experiences any difficulty in obtaining his premiums kindly notify W. M. Gordon, Federal Department of Agriculture, Canada Packers Limited, Peterboro, Ont.

## Produce Markets

TORONTO BUYING PRICES

(By United Farmers Co-operative Company)

United Farmers Co-operative Co. today were paying the following prices for Toronto delivery:

EGGS—Prices to producers, cases returned basis, delivered Toronto:

| | |
|---|---|
| A-large | .27 |
| A-medium | .26 |
| Pullets | .20 |
| Grade "B" | .18 |
| Grade "C" | .12 |
| Churning Cream, No. 1, lb. | .23 |
| Churning Cream, No. 2, lb. | .20 |
| Butter, No. 1 | .26 |
| Butter, No. 2 | .25 |

Prices paid to country shippers.

Ontario new, 75 lb. bag ..$1.00-1.10

## County Cheese Boards

Napanee, Sept. 8.—Boarded, 3,445 boxes white cheese. No sales.

Perth, Sept. 8. — Boarded, 1,572 boxes white cheese. Sold at 11c.

Belleville—Boarded, 5,759 boxes of white cheese, 266 specials. Sold, 4,420 white at 11¼c, 266 specials at 11⅜c.

Kingston—No sales made at Kingston Cheese Board; 878 boxes of white and 1,192 colored boarded. Salesmen refused to accept bids. This makes the second week that bids were refused.

Ottawa—Boarded, 2,509 boxes of white cheese, 220 colored. Sold, 527 boxes white at 11 cents. Rest held.

Casselman—Boarded, 3,424 boxes white, no colored. Bid 11 cents, but there were no sales.

## Butter Unchanged While Eggs Rise

Toronto, Sept. 9—Demand slackened on the butter market, but former values prevailed. Offerings were not pressing, and supplies of fresh make were light. The first grade Ontario product remained at 26c, and resales cars of Western butter went through at this figure.

Eggs maintained a firm undertone, with light receipts clearing well. The Department of Agriculture states that the volume of inspected eggs to the North country has been quite good this week. Top grades rose 1c per dozen in the graded section of the market to 30c and 29c for grade A large and A medium respectively.

### Montreal Produce

Montreal, Sept. 9—Produce market prices here yesterday, as reported by the Dominion Agricultural Bureau, follow:

Butter—First grade creamery prints, job price, 27c to 28c; first grade solids, job price, 26½c to 27½c.

Cheese—Ontario white, current receipt price, 11 1-16c to 11 5-16c; Ontario colored, current receipt price, 11 5-16 cents. Receipts, 136 boxes.

Eggs—Graded inspected shipments in used free cases, A-large, 32c; A-medium, 30c; A-pullets, 24c to 25c; B-large, 23c; C. 16c. Uninspected lots ½ cent less. Receipts, 314 cases.

## GRAIN MARKET

Quotations on the Winnipeg Grain Exchange as furnished to A. H. Ketcheson and Co. today at 11.30 a.m. by J. H. Crang and Company.

| | High | Low | Last |
|---|---|---|---|
| Wheat— | | | |
| October | 78¼ | 74¾ | 75¼ |
| December | 79½ | 76⅝ | 76¾ |
| May | 83 | 79¾ | 80⅛ |
| Oats— | | | |
| October | 37½ | 36¼ | 36¼ |
| December | 36¾ | 35½ | 35¼ |
| May | 37⅜ | 36⅝ | 36⅝ |
| Barley— | | | |
| October | 45⅝ | 44½ | 44½ |
| December | 44 | 43¼ | 43¼ |
| May | 47 | 46½ | 46½ |

## HOG QUOTATIONS

Toronto, Sept. 9—(CP)—Dressed-weight hog prices in Barrie and Hamilton were stronger today from their last reporting prices. Hamilton price advanced 25 cents to $11 and Barrie 10 cents to $10.60.

Dressedweights: Barrie $10.60; Hamilton $11; Hull $10.65.

Liveweights: Hull $8.

## 60 DIVISIONS

*(Continued From Page One)*

Even greater importance is attached, however, to whether the Polish Army must withdraw east ward before the north and south points of the pincers meet—near Warsaw—bottling up any Polish forces still north, south and west of Warsaw.

When I left Warsaw Wednesday night the Germans had advanced almost to within artillery range of the capital and strong motorized units were spread out to attack from a dozen directions.

## FIELD MARSHAL

*(Continued From Page One)*

"I felt strongly the desire to speak to you at this moment when I may discuss the tremendous events stirring us all. I purposely selected this factory. Between you (his immediate audience of workers) there stand forth those gigantic cannon barrels which are striking terror in the enemy.

"The Fuehrer asked nothing more than that a German city (Danzig) which did not even belong to the opponent, be returned and that a road to the east be guaranteed to Germany."—Hitler's demand for a passageway across the Polish Corridor to East Prussia.

Goering asserted it was "simply inconceivable" that these were not granted.

"Germany was even ready to renounce sections in which Germans were living," he said. "Yet the fuehrer offered this because, as he said, he alone could make such an offer. Yet the Polish government declined. This is a complete riddle."

### Made Fun of Poles

The Field Marshal then made fun of the Poles as a nation pretending to be a big power. He compared the country to inflated rubber figures at a carnival.

"But it was not Poland alone that offered resistance," he declared. "Behind it rose the shadow of a country which ever puts itself in the way of Germany"—(Britain).

"We violated no rights of Britain," he said. "We recognized her rights on the seas. They should have had the decency to tell Poland 'Germany is right—you must fulfil her wish.'

"A country which was built up on force dares speak of moral principles. There has been too much lying in world history, but what we experienced now beats everything we have known. Old Chamberlain said he would like to live to see the day when Hitler would be removed. Well, he has reached Methuselah's age and I am not sure he will attain his goal.

### Sitting on Treasures

"It is said they are not fighting Germans, but the Nazi regime. But when the shooting starts, it is Germans who are hit. We know this old trick. The British are sitting on their treasures and won't let anybody else have them. They talk about morals. That too, after they swallowed many peoples."

Goering told the munitions workers they were fighting on three fronts, "military, economic and domestic."

"As regards the military front," he asserted, "only near Luxembourg is there an unprotected 200-kilometre section. On sea the German coast is so protected that Britain—this she knows—cannot approach for not only is danger lurking below the sea but also in the air and this is very uncomfortable for her.

"Britain with her powerful fleet rules the seas, but the Baltic Sea is closed to her. The German fleet is master there.

### Goering Admits Blockade

"There is the question of a blockade in the west. Undoubtedly Britain will be able to prevent any German ships from reaching our harbors, but thank God the greater part of the German fleet is already in German harbors. Britain's attempt to capture the Bremen missed fire.

"Now what about the front in Poland? I speak in the name of all of you when I say German arms on land and in the air have achieved what has been considered unbelievable.

"We can hope that 14 days after the beginning of this fight (in Poland) that it will practically be ended. The last cleansing will have been accomplished in less than four weeks. That is what happens once the German sword has been unsheathed. Once it is drawn it destroys the enemy.

"The last news I received was that Radom had been captured and that the Polish army was throwing away its guns and surrendering to us.

"The enemy now is encircled on all sides. There has been no such Tannenberg in history—(A reference to the German victory over Russia in 1914). Only a few days can elapse before last remnants of the Polish army will be in German hands."

### Position Not Weaker

"Our 70 divisions now in the east can be thrown on the west (against France and Great Britain) and certainly our position will not be weaker. The Briton thought he could attack on the northwest. He has learned his lesson. If it is claimed that German battleships were struck, I can tell you only one ship was damaged, namely by a crashing enemy plane.

"In eight days to go as far as we did (in Poland) was not considered possible by anybody, not even ourselves. Our divisions marched as humans never marched before. Proudly I can say that, above all, this was due to one weapon—that is our air force. Whenever it appeared, the enemy was defeated.

"With the defeat of the Poles, the threat to Germany's security on two fronts ceases. That was our danger in the past. But now if the enemy attacks us, we must fight on one front only.

### All in Reserve

"I think the Britons know this. That is why their desire to fight does not seem to be too great. I do not know whether they want to fight. If they should be mad enough to attack our western line, streams of blood would flow. I do not know what they could do with their ships. The Britons know fully well we are superior to them in defence.

"Ah, say the Britons, but if we don't fight them (the Germans) militarily it does not matter; we can break Germany down economically. They have said that for a long time. But when I started a four-year plan for economic self-sufficiency, I did not do it for my pleasure nor to place burdens on you, but rather to create a weapon that is unbeatable. Germany is today the best equipped state in the world.

"No power on earth has such a munitions industry. We knew we had no gasoline, so we created our own factories for manufacture of synthetic products. Three things are necessary: raw materials, plants and workers. We have the three in reserve."

## STORM GENERAL

*(Continued From Page One)*

While the third and fourth concessions of Thurlow felt the heaviest force of the storm, many small communities suffered from its severity.

### Barn Burns at Tweed

Near Tweed, where a number of trees were uprooted or blown down, the fine barn of Wm. Montgomery on the old Casey homestead burned to the ground, when a lightning bolt struck it shortly before six o'clock yesterday morning. The entire season's crop and a number of implements were destroyed by the flames which quickly razed the structure to the ground. A cow was lost, but a team of horses was taken out. The building was insured for $2,600.

Near Melrose, the roof of J. Taylor's barn was ripped off, the sheds of the United Church flattened, while a brick chimney of the church itself is a crumbled mass of debris. Orchards were stripped of fruit when hailstones said to be the size of hickory nuts pounded down from the sky.

A spire of the Tyendinaga Christ Church was ripped off and driven through the roof of the building. Several stained glass windows of the edifice were smashed. All Saints Church felt the force of the gale, when its roof was torn off by the terrific wind.

### Heavy Toll at Point Anne

Heavy toll was taken at Point Anne where several buildings were damaged or blown down. Trees were uprooted and telephone poles and wires blown down. A part of the roof of the Club House was torn off and a garage on the Crusher property demolished. Chimneys were wrecked and windows smashed. James Garbutt's kitchen was badly wrecked as was the large barn on the property of the Canada Cement Company.

From Roslin come similar reports of trees blown down, and barns and houses damaged or wrecked. Heavy trees crashing before the force of the gale wrecked a machine shed on the farm of Winfield Harrison with another causing severe damage to a corner of the house. Charles Bailey's garage was ripped cleanly in two as if struck by a giant cleaver, debris smashing windows in the nearby house. Earth and stones from several trees uprooted near a well belonging to C. Delyea, nearly filled it. Lightning striking the home of Miss L. Wilson caused considerable damage.

### Zion District Suffer

Residents of Zion suffered heavy losses as the miniature cyclone struck with all its fury. The handsome barn of John Ketcheson had its roof and west end torn off, while a driveshed and silo are twisted masses of wreckage. Mr. Ketcheson is at present in hospital.

The roof of the Zion Cheese Factory lies in a yard nearby, result of the terrific wind and hail that swept that district. The barn and home of Arthur Casey were damaged, while the barn of Cecil Ketcheson is a flattened mass of wrecked lumber.

From all sections of the stricken area reports are coming in, telling of the havoc wreaked by the cyclonic gale. As yet it is impossible to estimate the total damage but to say it will run into thousands of dollars is to put it mildly.

memo

Kiwanis Street Karnival
Belleville, Ont.

## FRENCH HISTORIAN

*(Continued From Page One)*

A few months ago Germany had about 90,000 military-type trucks, each capable of transporting eight or 10 men. It is easy to imagine the vast quantity of gasoline required for these vehicles, their effect upon the roads, and the difficulties which would be caused if only one in 10 broke down.

In Poland, the phase of seizure of territory to be held in hostage, of the breaking of links between industrial regions, and of efforts to immobilize Polish western railways is over.

The obvious difficulties facing the Polish general staff were to withdraw dispersed columns from zones in which the enemy threatened communications, to spare Polish reserves for the decisive battle, and to assure the mobility of Polish forces on roads filled with refugees and persons evacuated from the cities.

For the Poles, the forthcoming test will call for courage allied with strategic initiative if the invader is to be defeated or stopped.

## Albury

ALBURY—Mr. and Mrs. John Ondredonk, Mr. and Mrs. Earl Onderdonk, Mr. and Mrs. Earl Onderattending the Exhibition.

Mrs. Hessie Peck entertained company from London.

The funeral of Mr. George Williamson was well attended on Sunday afternoon, showing the high esteem in which he was held. The flowers were numerous and lovely.

Mr. and Mrs. Bob Stevenson and Thelma and Miss Marjorie Peck of Toronto spent the week-end with their parents, Mr. and Mrs. Harry Peck.

Rev. and Mrs. Rowland of Montreal called on friends over the week end.

Mrs. Chase and Stella spent the week end with Mr. and Mrs. Hugh Weese and Mrs. Weese.

Mrs. M. Weese, Mr. and Mrs. H. Weese, Mr. and Mrs. Clifford Peck, Mr. and Mrs. Harry Adams, Mrs. Chase and Stella attended the wedding of their nephew, Mr. Theron Allen to Miss Verna Wood of Madoc on Saturday.

Mr. and Mrs. Earl Bonter and Joyce spent Tuesday in Toronto attending the exhibition.

## HEAVY OFFERING OF FRUIT ON SATUR. MARKET

### Grapes, Peaches and Melons Featured — No Heavy Buying of Peaches Because of Sugar Shortage

To use the words of an American visitor, the city market today resembled a "giant fruit basket." Heavy offerings of fruit of all descriptions with the new fall varities headlining the display, were available for the heavy Saturday morning clientele.

Grapes, both blue and white, domestic and imported stole a little of the market thunder from imported peaches. For thirty-five cents one could get a basket of delicious grapes from the Niagara District, or for ten cents, a berry box containing the home-grown variety, that if anything are of better quality than those from outside districts.

Peaches, however were plentiful, although the heavy buying that featured this fruit a week ago was missing. Scarcity of sugar was given as the reason for the lackadaisical purchasing. Baskets of No's 1 sold at thirty-five and forty cents while a smaller inferior quality sold as low as twenty cents the basket.

Watermelons and canteloupe were available at every turn with the former selling at from five cents each and purchasers asked to name their own price for the latter. Burbank plums and greengages were offered at forty cents the basket with a few wild grapes quoted at twenty-five cents for six quarts. Clapp pears were fairly plentiful at forty cents the basket, with the popular Bartlett variety selling at twenty cents the peck. Duchess apples were offered at twenty cents the basket as were other cooking varieties.

### Potatoes $1.00 Bu.

Vegetable offerings were fairly heavy with prices generally showing little or no change from the quotations of a week ago. Potatoes though not as plentiful as last week were steady at one dollar the bushel and twenty-five and thirty cents the peck according to quality. Some small potatoes were offered as low as fifteen cents the peck.

Homegrown tomatoes attracted buyers, with good quality stock selling at fifty cents the bushel and smaller quantities at commensurate prices. Sweet corn was plentiful and moved well at fifteen cents the dozen ears. New table vegetables were steady at last week end prices. Some fine quality new cabbage and cauliflower were available at prices ranging from five cents the head.

Egg and chicken offerings in the inside market were down from quantities offered last week. Egg prices were steady with good "A" selects selling at twenty-eight cents the dozen. Mediums were quoted at twenty-six and twenty-seven cents with some ungraded stocks offered at twenty-six cents the dozen.

A few young weighty broiler chickens headed a negligible offering, selling at from seventy-five cents the pair. Yearling birds were quoted at one dollar each, and four months chickens at eighty and ninety cents. Fowl was steady at from fifty cents up.

Farmers' butter noted a few cents rise over last week's quotations with two-pound rolls selling at sixty cents each.

Two lonely ducks were offered today at one dollar each. Whitefish was the only variety of this food offered with buying brisk at seventeen cents the pound.

## Melrose

MELROSE— Several from here attended the Belleville Fair last week.

The Misses Doris and Delma and Grant Kimmerly, Empey Hill, were recent guests of Mr. and Mrs. Bruce McKinney.

Mr. and Mrs. B. King and family, Oshawa, have returned home after several weeks' holidays with Mr. and Mrs. J. Hines.

Mr. and Mrs. R. Lawerenson were Tuesday evening callers of Mr. and Mrs. C. Haight.

Mr. and Mrs. Harry Davis entertained Rev. W. Sterling at the noon hour on Sunday.

Mrs. A. Masters spent a couple of weeks in Trenton.

School re-opened on Tuesday. with Mr. C. Young resuming his duties as teacher.

Rev. William Sterling of the Bay of Quinte Conference conducted the service in the United Church on Sunday morning.

Mr. and Mrs. F. D. Pringle spent last week on a trip via the Thousand Island bridge to Niagara Falls, also attended the World's Fair returning around the lake and visited relatives in Toronto.

Born—To Mr. and Mrs. Carman Milligan on August 18th., a daughter at Belleville General Hospital.

Miss Helen McAvoy has returned from a week's holidays at Whitby.

Mrs. A. Pringle has returned home after a month's holiday with Mrs. I. McConnell, Port Hope and also attended the Toronto Exhibition.

Mr. and Mrs. A. Young, Toronto, were week-end guests of Mr. and Mrs. F. D. Pringle.

Mrs. R. McMeachan has returned home from a visit with Mr. and Mrs. A. Newton, Peterboro.

The Misses Evelyn and Muriel Embury were recent guests of Mrs. B. McKinney.

Mrs. J. F. Hill and Mr. and Mrs. A. Hill, Belleville, were recent guests of Mr. and Mrs. F. D. Pringle.

Mr. and Mrs. Roy McMasters of Rochester, N.Y., were over week-end guests of Mrs. J. Hines, who accompanied them to Madoc on Sunday to visit relatives.

Mr. and Mrs. E. Simpkins and Mrs. M. Morden were Sunday visitors of Mr. and Mrs. C. Haight.

Mr. and Mrs. J. Macfarlane and Miss G. Macfarlane were Sunday guests of Mr. and Mrs. R. Macfarlane.

Mr. and Mrs. Roy Badgley spent the week-end in Toronto.

Mrs. J. Milligan Stewart visited Mr. and Mrs. A. Millan, Campbellford on Sunday.

Mr. Lewis Milligan, Colborne, spent the week-end and holiday with his parents.

The W.M.S. held their September meting at the home of Mrs. F. Davis on Wednesday afternoon.

## Fourth Thurlow

4th Thurlow—A very happy event took place on Tuesday evening of last week at the home of Mr. and Mrs. J. W. Yateman, when Bethany community presented them with a lovely studio couch, in honour of their recent marriage and showing the esteem held by all for Mr. Yateman as a neighbour and church member.

Mrs. Maggie Embury of Melrose, visited over the week-end with Miss Florence McRae.

Masters Carl Sheffield, Elton and Leroy Sills, and Glenn Wyatt, enjoyed a recent week-end camping near Milltown.

## AS ATHENIA SANK TO THE BOTTOM

This picture of the ill-fated Athenia was taken from one of the vessels which rushed to the rescue of the torpedoed ship. Passengers aboard the sunken vessel recounted that the sinking ship, listing badly, remained on the surface for some time before plunging to the bottom. This dramatic picture was flashed to New York by radio and then transmitted to Canada by phone-photo.

—Phonephoto

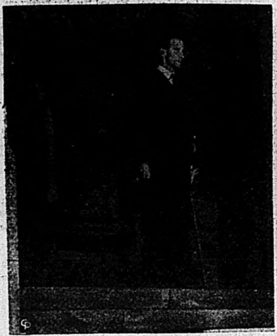
## NAZI SHIPS LIE AT ANCHOR SAFE FROM BRITISH WARSHIPS

Held in port by fear of British naval crafts patrolling the Southern Pacific, eight German ships are shown here anchored at the neutral port of Curaco, Dutch West Indies. Names of the vessels are being taken off and the ships are being painted dull grey, as their crews await further orders from the high Nazi naval command. The names of the vessels from LEFT to RIGHT are: Nordmeer, Patricia, Vancouver, Este, Seattle, Hanover, Wesermunde and Alemania.

## GERMAN TROOPS DRIVE TOWARD WARSAW

Continuing their relentless drive toward the Polish capital, German troops are pictured here as they took to flat-bottomed boats to cross rivers standing in the way of their mechanized drive on Warsaw. The Polish defenders of the city are reported to be digging in in an effort to halt the German drive until the heavy fall rains turn the Polish countryside into a sea of mud, through which it would be impossible to move mechanized forces.

—Phonephoto



Much of the pomp and color usually evident at the opening of parliament was missing when parliament opened at Ottawa on Thursday in its most important session since 1914. The governor-general, Lord Tweedsmuir, pictured here under the Peace Tower, read the Speech from the Throne.

## BRITISH POLICE NOW WEAR STEEL HELMETS

These mounted police, shown in England, are wearing steel helmets since England went to war with Germany.

## GERMAN ARTILLERY RUSHES FORWARD TO BOMBARD WARSAW

Emerging from the thick smoke of a burning Polish village, German artillery is pictured here, in this radiophoto flashed from Berlin on Thursday as it rushed toward the front to recommence the bombardment of Warraw. Left behind by fleeing residents, a cow stands with docility at the side of the road as the horse-drawn artillery units sweep by.

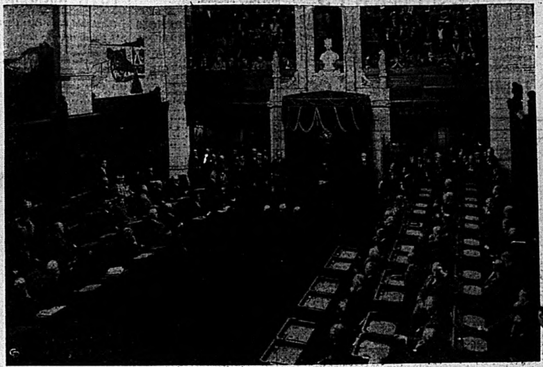
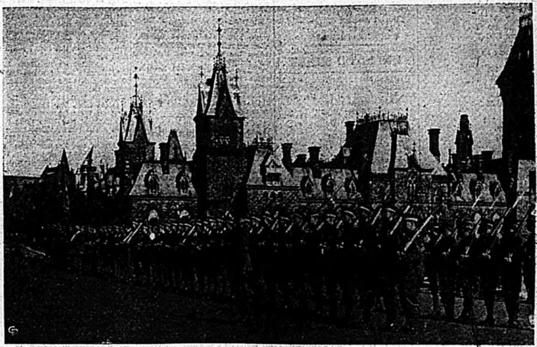
## MAKES OWN BED

Arriving in New York on the S.S. Manhattan from warring Europe, Miss Norma Shearer, movie star, is shown making up her cot in the cabin she shared with three other women. Every nook and cranny of the liner was occupied, even the grand salon was converted into a dormitory to accommodate Americans seeking to get home from danger zones.

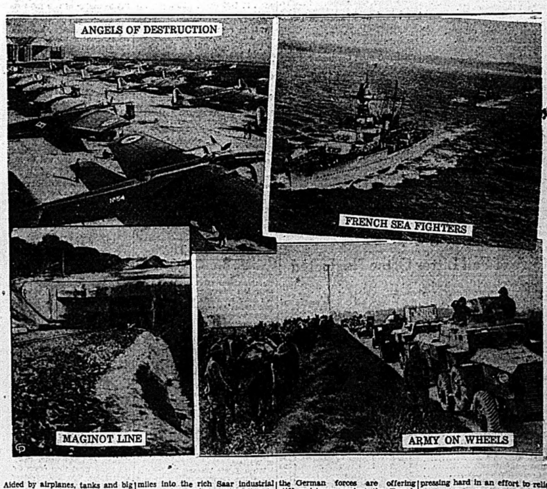
## SPECIAL WAR SESSION OF CANADA'S PARLIAMENT OPENS



On receipt of word of Britain's declaration of war against Germany Prime Minister Mackenzie King hastily called a special session of Canada's parliament to decide Canada's course. The governor-general, Lord Tweedsmuir, is pictured reading the address from the throne during the opening ceremonies.



The Governor-General's Foot Guards provided the guard of honor during the opening of parliament in Ottawa on Thursday, when Canada's statesmen met to decide the course of action to be taken by the Dominion in "the state of war which now exists." All the gay trappings of former openings of parliament were conspicuously absent as the members convened to hear that the government already had exercised emergency powers to purchase 50 new planes for the R.C.A.F. and had appropriated nearly $9,000,000 for defence pur-



Aided by airplanes, tanks and big guns, the French army is reported to have ripped their way seven miles into the rich Saar industrial and mining region. According to the official French communique the German forces are offering stiff resistance against the French advances, but the French forces are pressing hard in an effort to relieve pressure from Poland.

**Probabilities**

Lower Lake Region: Moderate winds; fair today and Tuesday; quite cool tonight.

## 'Local Advance' Scored By French Attacking on Sector of West Front

### Parisian Paper Greeted News Of Canada's Entry into War

PARIS, Sept. 11—(CP)—The war office announced today that troops attacking on the western front had scored a "local advance."

The communique, which reported simply that "a local advance was realized by our troops," followed an earlier announcement that the Germans were counter-attacking against advanced French positions. The counter-attacks were reported to have been turned back by troops using bayonets.
